Contemporary and foundational theories, practice and praxis of environmental justice in Canadian and comparative settings. Combine and communicate about aspects of the physical, built and social environments to understand how uneven conditions develop. Strategies and ideas to move towards greater equity and good environmental relationships.

Prerequisite(s): second-year standing in the Environmental Studies program or permission of the Department.

Lecture two hours a week, discussion one hour a week.

ENST 2001 [0.5 credit]

Sustainable Futures: Environmental Challenges and Solutions

Individual and collective responses to pressing environmental problems. Innovative ways in which the environment can be protected and restored, taking into consideration socioeconomic, political and cultural factors. Topics include environmental lifestyles, sustainable communities, food systems, environmental design, and political activism.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the Environmental Studies program or permission of the Department.

Lectures, seminars and field work three hours a week.

ENST 2005 [0.5 credit]**Introduction to Qualitative Research**

Introduction to the research process, from generating questions through to reporting results. Topics include intensive and extensive research approaches; the use of surveys, interviews and other data collection methods; the analysis of qualitative information; and the ethical dimensions of doing research with people and communities.

Includes: Experiential Learning Activity

Also listed as GEOG 2005.

Prerequisite(s): 1.0 credit in GEOG or ENST at the 1000-level and second-year standing, or permission of the Department.

Lectures two hours a week, workshop two hours a week.

ENST 2006 [0.5 credit]**Introduction to Quantitative Research**

Introduction to solving problems using descriptive and inferential statistical methods. Graphical and numerical tools to describe distributions. Probability, sampling and estimates, and hypothesis testing. Fundamentals of spatial statistics and analysis.

Includes: Experiential Learning Activity

Also listed as GEOG 2006.

Precludes additional credit for BIT 2000, BIT 2009, BIT 2100 (no longer offered), BIT 2300 (no longer offered), NEUR 2002, PSCI 2702, STAT 2507, STAT 2606.

Lectures two hours a week, laboratory two hours a week.

ENST 2500 [0.5 credit]**Climate Change: Social Science Perspectives**

An introduction to climate change as a political, economic and socio-cultural phenomenon, including the political-economic and world-historical causes of anthropogenic greenhouse gas emissions; variations in impact and vulnerability; climate justice and other political movements; global mitigation and adaptation strategies; and proposals for radical systemic change.

Includes: Experiential Learning Activity

Also listed as GEOG 2500.

Prerequisite(s): second-year standing or permission of the department.

Lectures two hours a week, discussion groups one hour a week.

ENST 3000 [0.5 credit]**Nature, Environment and Society**

Overview of social science perspectives analyzing the relationship of society and the environment. Examination of environmental problems, solutions, conditions, and interventions through the study of concepts, theories, and research drawn from a range of scholarly approaches to questions of nature.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Environmental Studies or permission of the department.

Lecture and discussion three hours a week.

ENST 3022 [0.5 credit]**Environmental and Natural Resources**

Exploration of complexity, dynamics, uncertainty and equity issues underpinning environmental and resource issues; review and appraisal of selected contemporary methods to assess and manage environmental and natural resources.

Includes: Experiential Learning Activity

Also listed as GEOG 3022.

Prerequisite(s): third-year standing in Geography or Environmental Studies or BGIInS Specialization/Stream in Globalization and Environment or permission of the Department.

Lecture three hours a week.

ENST 3900 [0.5 credit]**Honours Field Course**

Field research, with a focus on data collection methods, analysis and presentation of findings. Design and conduct research that links the human and biophysical environment. Topics may change from year to year.

Includes: Experiential Learning Activity

Also listed as GEOG 3000.

Precludes additional credit for ENST 2900 (no longer offered).

Prerequisite(s): GEOG 2005/ ENST 2005 and GEOG 2006/ ENST 2006, third-year Honours standing in Environmental Studies, Geomatics, or Geography, or permission of the Department.

Normally consists of a multi-day field excursion in the Ottawa region. A supplementary charge may apply.

Consult the department regarding course details.

ENST 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

ENST 4000 [0.5 credit]**Environmental Studies Seminar**

An advanced seminar designed to provide a capstone experience that builds upon and applies the analytical skills and interdisciplinary knowledge acquired in the Environmental Studies program. Topics vary year to year and by course section (see departmental website).

Includes: Experiential Learning Activity

Prerequisite(s): Registration is restricted to students eligible for fourth-year standing in the B.A. (Environmental Studies) Honours program.

Seminar three hours per week.

ENST 4001 [0.5 credit]**Environmental Studies Practicum I**

External agency setting provides the basis for translating academic training into practical involvement with environmental issues. Observation and involvement in issues and research methods used by professional environmental practitioners.

Includes: Experiential Learning Activity

Prerequisite(s): registration is restricted to students eligible for fourth-year standing in the B.A. (Environmental Studies) Honours program, and permission of the Environmental Studies Co-ordinator.

ENST 4002 [0.5 credit]**Environmental Studies Practicum II**

External agency setting provides the basis for translating academic training into practical involvement with environmental issues. Observation and involvement in issues and research methods used by environmental practitioners.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the fourth year of the Environmental Studies Honours program, and permission of the Environmental Studies Co-ordinator.

ENST 4004 [0.5 credit]**Environmental Impact Assessment**

Principles, scope and purpose of environmental impact assessment, from conceptual and methodological points of view; range of environmental issues, with emphasis on Canadian case studies.

Includes: Experiential Learning Activity

Also listed as GEOG 4004.

Prerequisite(s): GEOG 3022 or ENST 3022, and fourth-year Honours standing in Geography or Environmental Studies or Environmental Science, or permission of the Department.

Lectures and seminars three hours per week.

ENST 4005 [0.5 credit]**Directed Studies in Environmental Studies**

Students pursue their interest in a selected theme in environmental studies on a tutorial basis with a faculty member.

Prerequisite(s): permission of the Department.

ENST 4006 [0.5 credit]**Environmental Policy Analysis**

Critical examination of the creation, implementation and effectiveness of government policies related to environmental issues. Emphasis on perspectives, actors, institutions and social and economic relationships affecting policy responses to these issues, and on tools for analyzing the implications of specific policy choices.

Prerequisite(s): fourth-year Honours standing in Environmental Studies, Geography, or permission of the Department.

Seminar three hours per week.

ENST 4007 [0.5 credit]**Special Topics in Geography and Environmental Studies**

Selected topics in geography and/or environmental studies.

Also listed as GEOG 4007.

Precludes additional credit for GEOG 4006 (no longer offered).

Prerequisite(s): fourth-year Honours standing in the Department or permission of the Department.

Seminar three hours per week.

ENST 4022 [0.5 credit]**Seminar in People, Resources, and Environmental Change**

A selected topic or field of inquiry concerning natural resource use and environmental change.

Also listed as GEOG 4022.

Prerequisite(s): GEOG 3022 or ENST 3022 and fourth-year Honours standing in Geography or Environmental Studies or BGIInS Specialization in Globalization and Environment, or permission of the Department.

Seminar three hours per week.

ENST 4050 [0.5 credit]**Environmental and Geographic Education**

Selected theoretical and applied issues concerning environmental and geographic education.

Also listed as GEOG 4050.

Prerequisite(s): Third-year honours standing in Geography or Environmental Studies, or permission of the Department.

Seminar three hours per week.

ENST 4400 [0.5 credit]**Field Studies**

Field observation and methodology in a selected region, special topic or contemporary problem; on an individual or group basis.

Includes: Experiential Learning Activity

Also listed as GEOG 4000.

Prerequisite(s): third-year Honours standing and permission of the Department.

Hours to be arranged.

ENST 4450 [0.5 credit]**Community-Engaged Research**

Working in partnership with local organizations, students apply their geographical knowledge to conduct community-engaged research. Student projects will generate outputs for community partners. Research topics vary year to year.

Includes: Experiential Learning Activity

Also listed as GEOG 4450.

Prerequisite(s): fourth-year standing, or permission of the department.

Lectures, discussion and project work three hours a week.

ENST 4906 [1.0 credit]

Honours Research Project

An independent investigation into a select aspect of environmental studies, supervised by a faculty member. Possible outcomes might include: workshops, audio-visual productions, lay publications, and field projects accompanied by an essay demonstrating the student's capacity to critically reflect on the research project.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 4904/GEOM 4904 (no longer offered), GEOG 4909, GEOM 4909, GEOG 4906, GEOM 4906, and ENST 4907.

Prerequisite(s): fourth-year Honours standing in Environmental Studies, a minimum CGPA of 9.00 in the major or permission of the Department, and an approved research topic and adviser.

Hours to be arranged with faculty adviser.

ENST 4907 [1.0 credit]

Honours Research Essay

Interdisciplinary research essay on an environmental issue, carried out in consultation with a faculty supervisor. The student must consult with the undergraduate student advisor in selecting a project and a supervisor.

Includes: Experiential Learning Activity

Precludes additional credit for ENST 4906, GEOG 4909, GEOM 4909, GEOG 4904/GEOM 4904 (no longer offered), GEOG 4906 and GEOM 4906.

Prerequisite(s): fourth-year Honours standing in Environmental Studies, a minimum CGPA of 9.00 in the major or permission of the Department, and an approved research topic and adviser.

Hours to be arranged with faculty adviser.

European and Russian Studies

This section presents the requirements for programs in:

- European and Russian Studies B.A. Honours
- European and Russian Studies B.A. Combined Honours
- European and Russian Studies B.A.
- Specialization in Europe and Russia in the World B.G.In.S. Honours
- Stream in Europe and Russia in the World B.G.In.S.
- Minor in European and Russian Studies

Program Requirements

EURUS Language Requirement

All candidates in the European and Russian Studies B.A., B.A. Honours and B.A. Combined Honours programs are required to demonstrate proficiency in a major regional language. Language proficiency is defined as the completion of an intermediate level of university language instruction (two years, 2.0 Carleton credits). Students who wish to count a relevant regional language that is not taught at Carleton should consult with and request approval from the Undergraduate Supervisor.

Students in the Bachelor of Global and International Studies Specialization or Stream Europe and Russia in the World must complete the BGLnS Language requirement

in an approved regional language of Europe, Russia, and Eurasia. See the BGLnS Language Requirement for details.

Students are encouraged to continue with language instruction beyond the intermediate level required for the Institute Language Requirement. Advanced-level regional language courses may be counted towards EURUS degree requirements (see specific program requirements for details).

This Institute Language requirement may be fulfilled in one of three ways:

1. Completion of one of the following courses (or equivalent): FREN 1100; FREN 1110; GERM 2020; GERM 2110; ITAL 2020; ITAL 2110; PORT 2110; RUSS 2020; SPAN 2020; SPAN 2110. Courses at other institutions may also be used to meet the language requirement as long as they are accepted by the Department of French or the School of Linguistics and Language Studies as being equivalent to or at a higher level than the courses listed above. For languages not taught at Carleton, an intermediate level is equal to two full years (2.0 Carleton credit) of university-level language instruction.
2. Certification by the unit offering the relevant language or the Institute that the student has attained a level of language proficiency equivalent to completion of one of the courses above. Proficiency may be demonstrated through documentation.
3. Secondary School Language of Instruction: Students whose secondary school transcripts show that their primary language of instruction in secondary school was a relevant regional language other than English may be exempted from the language requirement. Subject to approval of the Undergraduate Supervisor.

European and Russian Studies

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits):

1. 0.5 credit in: Foundations	0.5
EURR 1001 [0.5] Introduction to European and Russian Studies	
2. 1.0 credit in: Core Politics, Society, and International Affairs	1.0
EURR 2001 [0.5] Current Issues in European Politics and Society	
EURR 2002 [0.5] Europe and Russia in the World	
3. 1.0 credit in: Core Literature and Culture	1.0
EURR 3001 [0.5] Literature and Culture in Europe	
EURR 3002 [0.5] Literature and Culture in Russia and Eurasia	
4. 1.0 credit from: Modern History category	1.0
5. 1.5 credits from: Politics and Economics category. Must include credits in both PSCI and ECON	1.5
6. 0.5 credit from: Language, Art, Culture category	0.5
7. 0.5 credit from: Contexts and Methods for Regional Studies category	0.5

8. 2.0 credits from: Approved Courses in European, Russian, and Eurasian Studies. May include EURR not used to fulfill another requirement. No more than 1.0 credit from the Contexts and Methods for Regional Studies category. 2.0

9. 2.0 credits from: EURUS 4000-level Honours category. At least 1.0 credit in EURR. May include EURR 4908 (1.0) Honours Essay 2.0

B. Credits Not Included in the Major CGPA (10.0 credits):

10. 1.0 credit from: 1.0

ECON 1001 [0.5] Introduction to Microeconomics & ECON 1002 [0.5] Introduction to Macroeconomics or FYSM 1003 [1] Introduction to Economics

11. 9.0 credits in free electives. 9.0

C. Additional Requirements

12. The EURUS Language Requirement must be met.

Total Credits 20.0

Notes:

1. See "Approved Courses in European, Russian, and Eurasian Studies" section of the calendar for a list of approved courses that fulfill specific categories in the requirements above.

2. With the permission of the Institute, students who transfer or enter the program after first year may substitute a course from Approved Courses in European, Russian, and Eurasian Studies for EURR 1001.

European and Russian Studies

B.A. Combined Honours (20.0 credits)

A. Credits Included in the EURUS Major CGPA (7.0 credits)

1. 0.5 credit in: Foundations 0.5

EURR 1001 [0.5] Introduction to European and Russian Studies

2. 1.0 credit in: Core Politics, Society, and International Affairs 1.0

EURR 2001 [0.5] Current Issues in European Politics and Society

EURR 2002 [0.5] Europe and Russia in the World

3. 1.0 credit in: Core Literature and Culture 1.0

EURR 3001 [0.5] Literature and Culture in Europe

EURR 3002 [0.5] Literature and Culture in Russia and Eurasia

4. 1.0 credit from: Modern History category 1.0

5. 1.0 credit from: Politics and Economics category. Must include credits in both PSCI and ECON 1.0

6. 0.5 credit from: Language, Art, Culture category 0.5

7. 1.0 credit from: Approved Courses in European, Russian, and Eurasian Studies. May include EURR not used to fulfill another requirement. No more than 0.5 credit from the Contexts and Methods for Regional Studies category. 1.0

8. 1.0 credit from: EURUS 4000-level Honours category. At least 0.5 credit in EURR. May include EURR 4908 (1.0) Honours Essay 1.0

B. Credits Not Included in the Major CGPA (13.0 credits) 13.0

9. 1.0 credit from:

ECON 1001 [0.5] Introduction to Microeconomics & ECON 1002 [0.5] Introduction to Macroeconomics or FYSM 1003 [1.0] Introduction to Economics

10. The requirements from the other discipline must be satisfied

11. Sufficient free electives to make 20.0 credits for the degree.

C. Additional Requirements

12. The EURUS Language Requirement must be met.

Total Credits 20.0

Notes:

- At most, one Honours essay course from either department may be counted toward this Combined program.
- Combined Honours in European and Russian Studies and Journalism is available only to students already admitted to the Bachelor of Journalism degree.
- With the permission of the Institute, students who enter the program after first year may substitute a course from the list of Approved Courses in European, Russian, and Eurasian Studies for EURR 1001.

European and Russian Studies

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)

1. 0.5 credit in: Foundations 0.5

EURR 1001 [0.5] Introduction to European and Russian Studies

2. 1.0 credit in: Core Politics, Society, and International Affairs 1.0

EURR 2001 [0.5] Current Issues in European Politics and Society

EURR 2002 [0.5] Europe and Russia in the World

3. 1.0 credit in: Core Literature and Culture 1.0

EURR 3001 [0.5] Literature and Culture in Europe

EURR 3002 [0.5] Literature and Culture in Russia and Eurasia

4. 1.0 credit from: Modern History category 1.0

5. 1.0 credit from: Politics and Economics category 1.0

6. 2.5 credits from: Approved Courses in European, Russian, and Eurasian Studies. May include EURR not used to fulfill another requirement. No more than 1.0 credit from the Contexts and Methods for Regional Studies category. 2.5

B. Credits Not Included in the Major CGPA (8.0 credits)

7. 8.0 credits in free electives 8.0

C. Additional Requirements

8. The EURUS language requirement must be met.

Total Credits 15.0

Notes:

- See "Approved Courses in European, Russian, and Eurasian Studies" section of the calendar for a list of approved courses that fulfill specific categories in the requirements above.
- With the permission of the Institute, students who enter the program after first year may substitute a course from the list of Approved Courses in European, Russian, and Eurasian Studies for EURR 1001.

Bachelor of Global and International Studies (B.G.In.S.)

Note: Details regarding graduation requirements, the international experience requirement, and the language requirement for the B.G.In.S. degree can be found at the B.G.In.S. program page.

Specialization in Europe and Russia in the World B.G.In.S. Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.0 credits)

1. 4.5 credits in: Core Courses 4.5

GINS 1000 [0.5]	Global History
GINS 1010 [0.5]	International Law and Politics
GINS 1020 [0.5]	Ethnography, Globalization and Culture
GINS 2000 [0.5]	Ethics and Globalization
GINS 2010 [0.5]	Globalization and International Economic Issues
GINS 2020 [0.5]	Global Literatures
GINS 3010 [0.5]	Global and International Theory
GINS 3020 [0.5]	Places, Boundaries, Movements and Global Environmental Change
GINS 4090 [0.5]	Honours Seminar in Global and International Studies

2. 0.0 credit in: International Experience Requirement Preparation

GINS 1300 [0.0]	International Experience Requirement Preparation
-----------------	--

3. 7.5 credits in: the Specialization 7.5

a. 0.5 credit in: Foundations

EURR 1001 [0.5]	Introduction to European and Russian Studies
-----------------	--

b. 1.0 credit in: Core Politics, Society, and International Affairs

EURR 2001 [0.5]	Current Issues in European Politics and Society
EURR 2002 [0.5]	Europe and Russia in the World

c. 1.0 credit in: Core Literature and Culture

EURR 3001 [0.5]	Literature and Culture in Europe
EURR 3002 [0.5]	Literature and Culture in Russia and Eurasia

d. 1.0 credit from: Modern History category

e. 1.0 credit from: Politics and Economics category

f. 0.5 credit from: Language, Art, Culture category

g. 1.0 credit from: Approved Courses in European, Russian, and Eurasian Studies. May include EURR not used to fulfill another requirement. No more than 0.5 credit from the Contexts and Methods for Regional Studies category.

h. 1.5 credit from: EURUS 4000-level Honours Course category. At least 1.0 credit in EURR. May include EURR 4908 (1.0) Honours Essay.

B. Credits Not Included in the Major CGPA (8.0 credits)

4. 8.0 credits in: free electives 8.0

C. Additional Requirements

5. The International Experience requirement must be met.

6. The BGINs Language requirement must be met with a regional language relevant to Europe and Russia other than English. The Program Director will maintain a list of those languages suitable for meeting this requirement.

Total Credits 20.0

Stream in Europe and Russia in the World B.G.In.S. (15.0 credits)

A. Credits Included in the Major CGPA (8.0 credits):

1. 4.0 credits in: Core Courses 4.0

GINS 1000 [0.5]	Global History
GINS 1010 [0.5]	International Law and Politics
GINS 1020 [0.5]	Ethnography, Globalization and Culture
GINS 2000 [0.5]	Ethics and Globalization
GINS 2010 [0.5]	Globalization and International Economic Issues
GINS 2020 [0.5]	Global Literatures
GINS 3010 [0.5]	Global and International Theory
GINS 3020 [0.5]	Places, Boundaries, Movements and Global Environmental Change

2. 4.0 credits from: the Stream 4.0

a. 0.5 credit in: Foundations

EURR 1001 [0.5]	Introduction to European and Russian Studies
-----------------	--

b. 1.0 credit in: Core Politics, Society, and International Affairs

EURR 2001 [0.5]	Current Issues in European Politics and Society
EURR 2002 [0.5]	Europe and Russia in the World

c. 2.5 credits from: Approved Courses in European, Russian, and Eurasian Studies. May include:

EURR 3001 [0.5]	Literature and Culture in Europe
EURR 3002 [0.5]	Literature and Culture in Russia and Eurasia

B. Credits Not Included in the Major CGPA (7.0 credits):

3. 7.0 credits in: Free Electives 7.0

C. Additional Requirements

4. The BGINs Language requirement must be met in a regional language relevant to Europe and Russia other than English. The Program Director will maintain a list of those languages suitable for meeting this requirement.

Total Credits 15.0

Minor in European and Russian Studies (4.0 credits)

Open to all undergraduate degree students not in EURUS programs or the B.G.In.S. Specialization or Stream in Europe and Russia in the World.

Requirements:

1. 1.0 credit from: EURUS Foundation and Literature and Culture 1.0

EURR 1001 [0.5]	Introduction to European and Russian Studies
EURR 3001 [0.5]	Literature and Culture in Europe
EURR 3002 [0.5]	Literature and Culture in Russia and Eurasia

2. 1.0 credit in: EURUS Core Politics and International Affairs 1.0

EURR 2001 [0.5]	Current Issues in European Politics and Society	
EURR 2002 [0.5]	Europe and Russia in the World	
3. 0.5 credit from:	Modern History category	0.5
4. 0.5 credit from:	Politics and Economics category	0.5
5. 1.0 credit from:	Approved Courses in European, Russian, and Eurasian Studies. May include EURR courses not used to fulfill another requirement.	1.0
6. The remaining requirements of the major discipline(s) and degree must be satisfied.		
Total Credits		4.0

Note: See the "Approved Courses in European, Russian, and Eurasian Studies" section of the calendar for a list of courses that fulfill specific categories indicated in the requirements above.

Approved Courses in European, Russian, and Eurasian Studies

This list includes categories of approved courses that fulfill specific program requirements for all undergraduate programs in the Institute of European, Russian, and Eurasian Studies (EURUS). Students are advised that some courses may have prerequisites that must be met in order to register for a particular course.

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfill requirements in the Major, Minor, Concentration or Specialization may be used to fulfill the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, ERTN, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in Good Standing.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.A. Honours European and Russian Studies: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered in the B.A. Honours European and Russian Studies program
2. Obtained and maintained an overall CGPA of 8.0 or higher and a major CGPA of 9.0 or higher
3. Have successfully completed by the start-date of the first work term, the required first-year courses, second-year courses ; have completed PSCI 3206, PSCI 3207, PSCI 3208, PSCI 3209, PSCI 3704 before the second work term; and ECON 3807 or ECON 3808 before the third work term

Students in B.A. Honours European and Russian Studies must successfully complete three (3) work terms to obtain the Co-op designation.

Co-op Work Term Course: EURR 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	W	Fall	S	Fall	S
Winter	S	Winter	S	Winter	S	Winter	W	Winter	S
Summer		Summer		Summer	W	Summer	O		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section “English Language Requirements” in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

European and Russian Studies (EURR) Courses

EURR 1001 [0.5 credit]

Introduction to European and Russian Studies

An introduction to the study of Europe and Russia, including aspects of the histories, societies, cultures, and politics of the region.

Includes: Experiential Learning Activity
Lectures/groups three hours a week.

EURR 2001 [0.5 credit]

Current Issues in European Politics and Society

An interdisciplinary examination of social, political, and economic issues facing Europe, including the countries of the European Union, Eastern Europe, and Russia.

Prerequisite(s): second-year standing.
Lecture and discussion three hours a week.

EURR 2002 [0.5 credit]

Europe and Russia in the World

The position of Europe, the European Union, and the Russian Federation in a global context, including geopolitical, economic, security, and human dimensions.

Prerequisite(s): second year standing.
Lecture and discussion three hours a week.

EURR 3001 [0.5 credit]**Literature and Culture in Europe**

A survey of the literature and cultural texts that have defined Europe. Examination of fiction and non-fiction texts that have contributed to and reflected the development of European culture and society.

Also listed as ENGL 3804.

Precludes additional credit for EURR 2000 or ENGL 2010.

Prerequisite(s): second year standing.

Lecture and discussion three hours a week.

EURR 3002 [0.5 credit]**Literature and Culture in Russia and Eurasia**

A survey of the literature and cultural texts that have defined Russian and neighboring Slavic countries.

Examination of fiction and non-fiction texts that have contributed to and reflected the development of Russian and Slavic culture and society.

Also listed as ENGL 3805.

Precludes additional credit for EURR 2000 and ENGL 2010.

Prerequisite(s): second-year standing.

Lecture and discussion three hours a week.

EURR 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

Prerequisite(s): registration in the B.A. European and Russian Studies (Honours) Co-operative option, completion of the Co-op preparation classes offered by the Co-op Office and permission of the Institute.

EURR 4002 [0.5 credit]**Post-Soviet States and Societies**

The relationship between social forces and state structures at both the national and local levels in the USSR and the post-Soviet states.

Also listed as PSCI 4502.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5002, PSCI 5110, for which additional credit is precluded.

Seminar three hours a week.

EURR 4003 [0.5 credit]**Social and Political Perspectives in Europe**

Social issues and policies in the European Union including European identity, democratic legitimacy, nationalist and extremist political movements, Euroscepticism, migration and immigration, social inclusion/exclusion and social models, gender and family policy, regional differentiation.

Precludes additional credit for EURR 4000.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5003, for which additional credit is precluded.

Seminar three hours a week.

EURR 4008 [0.5 credit]**Nationalism and Ethnic Conflict in Eastern and Central Europe**

Ethnic basis of nationalism in the region. Ethnic politics and trends.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4100 [0.5 credit]**Nation-Building in Central and Eastern Europe**

Processes of nation building in the region examined in terms of a particular country, or set of countries.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5100, for which additional credit is precluded.

Seminar three hours a week.

EURR 4101 [0.5 credit]**The Balkans in Transition – 1918 to 1989**

The seminar uses the concept of transition to understand the Balkan encounter with modernity and Europe. Key periods to be examined include the interwar era and the period of communist rule, with an emphasis on political, social and economic themes.

Also listed as HIST 4605.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4102 [0.5 credit]**The Balkans since 1989**

Selected topics in Balkan politics and society since the collapse of communism in 1989, focusing on the democratic transition and the EU accession process. The legacies of communist rule, democratization and the many national questions that still exist in the region.

Also listed as PSCI 4507.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4103 [0.5 credit]**The Great Russian Novel**

A study of masterpieces of prose fiction from the Golden Age of Russian literature. Readings will be chosen from writers such as Turgenev, Tolstoy, Dostoevsky, Gogol, and/or others. All texts will be studied in English translation.

Also listed as ENGL 4600.

Prerequisite(s): Third-year standing.

Lecture three hours a week.

EURR 4104 [0.5 credit]**European Integration and European Security**

Issues related to the formation of supra-national decision-making structures in Europe.

Includes: Experiential Learning Activity

Also listed as PSCI 4608.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5104, for which additional credit is precluded.

Seminar three hours a week.

EURR 4106 [0.5 credit]**Selected Topics in European Integration Studies**

Selected topics related to European integration in the post-World War II period.

Also listed as PSCI 4609.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4107 [0.5 credit]**Russia's Regional and Global Ambitions**

Domestic conditions in Russia from 2000 to the present and the framing of Russia's foreign policy and strategic objectives towards the former Soviet republics and other key global actors, including the United States, the European Union, NATO and China.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5107, for which additional credit is precluded.

Seminar three hours a week.

EURR 4201 [0.5 credit]**Special Topics in European Studies**

A seminar focusing on selected topics related to Europe.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4202 [0.5 credit]**Special Topics in Russian and Eurasian Studies**

A seminar focusing on selected topics related to Russia and neighbouring countries.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5202, for which additional credit is precluded.

Seminar three hours a week.

EURR 4204 [0.5 credit]**Central Europe, Past and Present**

Evolution and current status of Central Europe from periods of foreign control in the late nineteenth and twentieth centuries to independent statehood, with emphasis on national accommodations and conflicts. Also listed as HIST 4604.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5204, for which additional credit is precluded.

Seminar three hours a week.

EURR 4205 [0.5 credit]**Politics of Identity in Europe and the Russian Area**

The relationships between political transformation, identity-building, ethnicity, and gender politics in post-communist states, considered in comparison with select countries in Central and/or Western Europe.

Includes: Experiential Learning Activity

Also listed as PSCI 4501.

Prerequisite(s): fourth-year Honours standing or permission of the Department and one of GPOL 1000, GPOL 1500, GPOL 2500, PSCI 2101, PSCI 2102, PSCI 2500, PSCI 3208, PSCI 3209, PSCI 3500, PSCI 3502, PSCI 3704, or PSCI 3705.

Seminar three hours a week.

EURR 4206 [0.5 credit]**Internship and Applied Policy Skills**

A seminar accompanying an unpaid internship placement to develop workplace and applied policy skills. Relating applied experience to academic literature. Writing skills for an applied policy setting. Internship placement: 12 days over 12 weeks.

Includes: Experiential Learning Activity

Prerequisite(s): open only to fourth-year EURUS B.A.

Honours students with a minimum B+ average and placement in an internship position in the same semester or in the previous semester (based on a competitive application process).

Also offered at the graduate level, with different requirements, as EURR 5301, for which additional credit is precluded.

Seminar: six three-hour seminar sessions.

EURR 4207 [0.5 credit]**Politics of Central Eurasia**

Examination of the Caucasus and Central Asia, from Chechnya to former Soviet republics of the region, Afghanistan and Chinese Turkestan. Interests of Russia, China, and the United States. Emphasis on underdevelopment, oil and gas, terrorism, Islam.

Includes: Experiential Learning Activity

Also listed as PSCI 4503.

Prerequisite(s): fourth year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4208 [0.5 credit]**Foreign Policies of Soviet Successor States**

The foreign policies of the USSR and of Russia and selected other successor states, with special emphasis on the search for a new security order.

Also listed as PSCI 4601.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4209 [0.5 credit]**Politics of the Caucasus and Caspian Basin**

Examination of the South Caucasus (Azerbaijan, Georgia, Armenia), the Russian-held North Caucasus, including Chechnya, and relations with Iran. Emphasis on state and society, oil and gas, transregional communications, interests of western powers, ethnic relations.

Includes: Experiential Learning Activity

Also listed as PSCI 4504.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4302 [0.5 credit]**EU Summer Study Abroad**

This course is open only to students in approved summer study options in Europe, particularly the EU Study Tour.

Includes: Experiential Learning Activity

Prerequisite(s): approval of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5302, for which additional credit is precluded.

EURR 4303 [0.5 credit]**Contemporary Europe: From Postwar to the European Union**

History of contemporary Europe from 1945 to present covering both eastern and western halves of the continent and including social, cultural, political, and economic dimensions.

Includes: Experiential Learning Activity

Also listed as HIST 4606.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5303, for which additional credit is precluded.

Seminar three hours a week.

EURR 4304 [0.5 credit]**Europe and International Migration**

Europe's role in international migration. Topics to be discussed may include migration and mobility as both assets and challenges for sending, transit, and destination countries, changing geographies of migration, inclusion and exclusion, political mobilization, and responses of European states and other actors.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5304, for which additional credit is precluded.

Seminar three hours a week.

EURR 4305 [0.5 credit]**Imperial Russia and the Russian Revolution**

Examination of the expansion and downfall of tsarist Russia from the eighteenth century to the revolutionary era and the establishment of Bolshevik rule. Topics include the relationship between the monarchy and subject peoples, social and economic change, and daily life.

Includes: Experiential Learning Activity

Also listed as HIST 4607.

Precludes additional credit for EURR 4203.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5305, for which additional credit is precluded.

Seminar three hours a week.

EURR 4306 [0.5 credit]**The Soviet Union: Power and Culture**

Examination of the rise of the Soviet Union to a global power and subsequent tensions that promoted its collapse. The course will analyze Stalinism, the Second World War, the Thaw, and Brezhnev and Gorbachev eras through the lens of the USSR's citizens.

Includes: Experiential Learning Activity

Also listed as HIST 4608.

Precludes additional credit for EURR 4203.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5306, for which additional credit is precluded.

Seminar three hours a week.

EURR 4704 [0.5 credit]**The Business Environment in Europe**

The economic, political, legal, and cultural environment for doing business in the European Union and other regions in Europe. Patterns of foreign trade and investment, market characteristics, science and technology, regulation and European integration, and business culture.

Also listed as BUSI 4704.

Precludes additional credit for EURR 4006 (no longer offered), BUSI 4604 (no longer offered).

Prerequisite(s): third-year standing.

Seminar three hours a week.

EURR 4900 [1.0 credit]**Tutorial in European and Russian Studies**

Tutorials or reading courses on selected topics may be arranged with the permission of the Institute and agreement of the instructor.

Prerequisite(s): permission of the Institute.

EURR 4901 [0.5 credit]**Tutorial in European and Russian Studies**

Tutorials or reading courses on selected topics may be arranged with the permission of the Institute and agreement of the instructor.

Prerequisite(s): permission of the Institute.

EURR 4902 [0.5 credit]**Tutorial in European and Russian Studies**

Tutorials or reading courses on selected topics may be arranged with the permission of the Institute and agreement of the instructor.

Prerequisite(s): permission of the Institute.

EURR 4908 [1.0 credit]**Honours Essay**

Individual research project resulting in a major essay, completed under the supervision of a faculty member and evaluated by the supervisor and a second reader. Students should consult with the Supervisor of Undergraduate Studies regarding the topic and supervisor. Institute's Honours Essay guidelines apply.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing, a CGPA of 9.00 or higher in courses qualifying for credit in European and Russian Studies, and permission of the Institute.

Film Studies

This section presents the requirements for programs in:

- Film Studies B.A. Honours
- Film Studies B.A. Combined Honours
- Film Studies B.A.
- Minor in Film Studies
- Post-Baccalaureate Diploma in Film Studies

Program Requirements**Film Studies****B.A. Honours (20.0 credits)****A. Credits Included in the Major CGPA (9.0 credits)**

1. 3.0 credits in:	3.0
FILM 1101 [0.5]	Introduction to Film Studies or FILM 1120 [0.5] Seminar in Film Studies
FILM 2001 [0.5]	Film Theory and Analysis I
FILM 2002 [0.5]	Film Theory and Analysis II
FILM 2606 [0.5]	History of World Cinema I
FILM 2607 [0.5]	History of World Cinema II
FILM 4001 [0.5]	Research and Critical Methodologies

2. 2.5 credits in FILM at the 2000-level or higher 2.5

3. 2.0 credit in FILM at the 3000-level 2.0

4. 1.5 credits in FILM at the 4000-level 1.5

B. Credits Not Included in the Major CGPA (11.0 credits)

5. 8.0 credits in electives not in FILM 8.0

6. 3.0 credits in free electives. 3.0

Total Credits 20.0

Film Studies**B.A. Combined Honours (20.0 credits)****A. Credits Included in the Film Studies Major CGPA (7.0 credits)**

1. 2.5 credits in:	2.5
FILM 1101 [0.5]	Introduction to Film Studies or FILM 1120 [0.5] Seminar in Film Studies
FILM 2001 [0.5]	Film Theory and Analysis I
FILM 2002 [0.5]	Film Theory and Analysis II
FILM 2606 [0.5]	History of World Cinema I
FILM 2607 [0.5]	History of World Cinema II

2. 2.0 credits in FILM at the 2000-level or higher 2.0

3. 1.5 credits in FILM at the 3000-level or higher 1.5

4. 1.0 credit in FILM at the 4000-level 1.0

B. Credits Not Included in the Film Studies Major CGPA (13.0 credits)

5. The requirements of the other discipline must be satisfied

6. Sufficient free electives to total 20.0 credits for the program.

Total Credits 20.0

Film Studies**B.A. (15.0 credits)****A. Credits Included in the Major CGPA (6.0 credits)**

1. 2.0 credits in:	2.0
FILM 1101 [0.5]	Introduction to Film Studies or FILM 1120 [0.5] Seminar in Film Studies
FILM 2001 [0.5]	Film Theory and Analysis I
FILM 2606 [0.5]	History of World Cinema I
FILM 2607 [0.5]	History of World Cinema II

2. 2.0 credits in FILM at the 2000-level or higher 2.0

3. 2.0 credits in FILM at the 3000-level 2.0

B. Credits Not Included in the Major CGPA (9.0 credits)

4. 6.0 credits in electives not in FILM 6.0

5. 3.0 credits in free electives.	3.0
Total Credits	15.0

Minor in Film Studies (4.0 credits)

Open to all undergraduate degree students not in Film Studies programs.

Requirements

1. 0.5 credit from:	0.5
FILM 1101 [0.5] Introduction to Film Studies	
FILM 1120 [0.5] Seminar in Film Studies	
2. 0.5 credit from:	0.5
FILM 2001 [0.5] Film Theory and Analysis I	
FILM 2606 [0.5] History of World Cinema I	
FILM 2607 [0.5] History of World Cinema II	
3. 2.0 credits in FILM at the 2000-level or higher	2.0
4. 1.0 credit in FILM at the 3000-level	1.0
5. The remaining requirements of the major discipline(s) and degree must be satisfied.	

Total Credits	4.0
----------------------	------------

Post-Baccalaureate Diploma in Film Studies (4.0 credits)

Admission to this program requires the permission of the Film Studies program. Normally, students would be required to have completed an undergraduate degree with a minimum B average or higher to be admitted. Applications will be reviewed on a case-by-case basis.

Requirements:

1. 2.0 credits in:	2.0
FILM 2001 [0.5] Film Theory and Analysis I	
FILM 2002 [0.5] Film Theory and Analysis II	
FILM 2606 [0.5] History of World Cinema I	
FILM 2607 [0.5] History of World Cinema II	
2. 1.0 credit in Film Studies electives at the 3000-level	1.0
3. 1.0 credit in Film Studies electives at the 4000-level	1.0

Total Credits	4.0
----------------------	------------

With the approval of the Film Studies undergraduate supervisor, 0.5 credit may be taken outside the department.

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a

Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and

Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAPM, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in *Good Standing*.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a

knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

Regulations

Post-Baccalaureate Diploma

In addition to the requirements presented here, students must satisfy the University regulations (see the Academic Regulations of the University section of this Calendar).

Definition

A post-baccalaureate diploma is defined as a stand-alone undergraduate credential intended to:

- qualify a candidate for consideration for entry into a master's program, or
- bring a candidate who already possesses a bachelor's degree up to a level of a bachelor's degree of 20.0 credits or more in another discipline, or
- provide a candidate who already possesses a twenty-credit bachelor's degree in the same discipline the opportunity to bring their previous studies to current equivalents and/or to examine alternative areas, or
- provide a candidate with a professional undergraduate credential for which the prior completion of an undergraduate degree program is appropriate.

Program Requirements

- A post-baccalaureate diploma is normally constituted of a minimum of 3.0 credits to a maximum of 5.0 credits of advanced undergraduate courses.
- A minimum of 3.0 residency credits counting toward the post-baccalaureate diploma.

English as a Second Language Requirement

In addition to the program requirements, completion of English as a Second Language (ESLA) courses may be required from the following sequence: ESLA 1300, ESLA 1500, ESLA 1900, ESLA 1905. No credits from this sequence will be counted toward the post-baccalaureate diploma.

Continuation

All post-baccalaureate diploma students are expected to complete their diploma requirements within two calendar years after the date of initial registration. After this period student may be withdrawn.

Graduation

- A candidate for a post-baccalaureate diploma must have an overall CGPA of at least 6.5 to graduate.
- A candidate for a post-baccalaureate diploma must obtain a grade of C- or higher in each course taken in fulfillment of the program requirements.
- Students should consult with the Department, School or Institute when planning their diploma and selecting courses.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section "English

Language Requirements" in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Film Studies (FILM) Courses

FILM 1101 [0.5 credit]

Introduction to Film Studies

Introduction to the study of film that emphasizes problems and methods of film analysis through the study of various types of films. Topics relating to the filmmaker, film genre, and film history are covered through a focus on questions of style and technique.

Precludes additional credit for FILM 1120, FILM 1000 (no longer offered), and FYSM 1510.

Lecture and screening three hours a week, discussion one hour a week.

FILM 1120 [0.5 credit]

Seminar in Film Studies

A seminar in the study of film that emphasizes problems and methods of film analysis through the study of a variety of types of films.

Precludes additional credit for FILM 1101, FILM 1000 (no longer offered) and FYSM 1510.

Prerequisite(s): enrolment in a Film Studies major.

Lecture and screening three hours a week, discussion one hour a week.

FILM 2001 [0.5 credit]

Film Theory and Analysis I

Introduction to major film theories and analytical practices. The objective of this course is to familiarize students with the main theories and methods of analysis that have been developed for the study of film.

Precludes additional credit for FILM 2000 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120 and second-year standing; or permission of the Discipline.

Lecture and screening three hours a week, seminar one hour a week.

FILM 2002 [0.5 credit]**Film Theory and Analysis II**

Building on the skills acquired in FILM 2001, this course considers specific debates in film theory, and provides students with advanced methods for film analysis.

Precludes additional credit for FILM 2000 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120, and FILM 2001, and second-year standing; or permission of the Discipline. Lecture and screening three hours a week, seminar one hour a week.

FILM 2101 [0.5 credit]**The Film Industry**

The organization of the production, distribution and exhibition practices of various film industries. May include an examination of the relationship between a national film industry and its television industry.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2106 [0.5 credit]**The Documentary**

An examination of the work of individual filmmakers, of documentary styles and of organizations and institutions in the context of the history of documentary film making, including documentaries made for television. Non-fiction films other than documentaries may be considered.

Also listed as JOUR 2106.

Precludes additional credit for FILM 2105 (no longer offered), JOUR 2105 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2201 [0.5 credit]**National Cinema**

This course examines the film production of specific countries in order to determine the themes, the styles, and the character of a national cinema.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2202 [0.5 credit]**Japanese Cinema**

Various practices and movements in the history of Japanese cinema, ranging from the silent era to the current digital age.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2203 [0.5 credit]**Scandinavian Cinema**

The development of cinema culture and film production in the Scandinavian countries, from the golden age of Scandinavian silent cinema to contemporary Nordic noir. Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2204 [0.5 credit]**Indigenous Cinema and Media**

A critical examination of films and other audiovisual media created by Indigenous artists, such as independent films, genre films, documentaries, web series, installations, and video games.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Department.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2206 [0.5 credit]**Canadian Cinema**

A critical examination of Canadian cinema and media and how it relates to other aspects of Canadian culture.

Precludes additional credit for FILM 2207 (no longer offered), FILM 2208 (no longer offered), FILM 2209 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120 or second-year standing; or permission of the Discipline.

Lecture and screening three hours a week, seminar one hour a week.

FILM 2401 [0.5 credit]**Authorship in Film and Media**

A detailed study of the themes, the characteristic style, development and influence of one or more directors.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2601 [0.5 credit]**Film Genres**

This course examines questions of generic form, drawing examples from world cinema.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2606 [0.5 credit]**History of World Cinema I**

Historical survey of world cinema primarily from 1895 to 1945, examining the forms, structures and stylistic conventions of various periods and nations.

Also listed as ENGL 2600.

Precludes additional credit for FILM 2608 and ENGL 2608 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120, and second-year standing, or permission of the discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2607 [0.5 credit]**History of World Cinema II**

Historical survey of world cinema primarily since 1945, examining the forms, structures and stylistic conventions of various periods and nations.

Also listed as ENGL 2601.

Precludes additional credit for FILM 2608 and ENGL 2608 (no longer offered).

Prerequisite(s): FILM 2606 or ENGL 2600 or permission of the discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2801 [0.5 credit]**Film and Media Practice I**

Introduction to the basic principles of film and media practice. Emphasis may change from year to year, focusing alternately on narrative, experimental, animation or documentary techniques. This course is intended for Film Studies majors only.

Includes: Experiential Learning Activity

Prerequisite(s): FILM 1101 or FILM 1120.

Lecture/workshops four hours a week.

FILM 2809 [0.5 credit]**The Video Game**

Introduction to the video game as a popular media form, an emerging aesthetic, and a social and cultural practice. Topics include: history of video games; game form; game industry; narrative; art and design; interactivity; theories of play.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3105 [0.5 credit]**Questions of Documentary Practice**

Theoretical implications of documentary film and documentary television practice.

Also listed as JOUR 3105.

Prerequisite(s): 1.0 credit in FILM at the 2000-level and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3206 [0.5 credit]**Topics in American Cinema**

Studies in various aspects of American cinema with emphasis on historical and critical issues.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3209 [0.5 credit]**Topics in Canadian Cinema**

Studies in various aspects of Canadian cinema. Topics may vary from year to year.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3301 [0.5 credit]**Topics in Cinema, Gender, and Sexuality**

A study of selected topics in gender and cinema with emphasis on critical and historical questions.

Prerequisite(s): 1.0 credit in FILM at the 2000-level and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3402 [0.5 credit]**Film Music**

The use of music in film, from the silent era to the present day. Techniques, styles and theory of film music through the examination of selected scenes.

Also listed as MUSI 3402.

Lectures three hours a week, screening two hours a week.

FILM 3506 [0.5 credit]**Topics in Film Theory**

Building on the skills acquired in FILM 2000, this course provides a critical study of advanced film theories. Topics may include aesthetics, ideological criticism, film and philosophy, and theories of technology and historiography. Precludes additional credit for FILM 3505 (no longer offered).

Prerequisite(s): FILM 2001 and FILM 2002 and third-year standing; or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3608 [0.5 credit]**Topics in Film History**

Studies of aspects of the history of world cinema.

Topics will vary from year to year and may include the examination of film movements, styles and genres, and/or comparative study of national, regional and/or world-wide trends.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3609 [0.5 credit]**African Cinema**

Major figures and movements in African cinema around such categories as the colonial, the anti-colonial, the postcolonial, the diasporic, the continental, race, Afro-futurism, and world cinema, interrogating in the process the very category of "African cinema".

Also listed as AFRI 3609.

Prerequisite(s): 1.0 credit in FILM and third year standing or permission of instructor.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3701 [0.5 credit]**Topics in Animation, Video, and Experimental Film**

A study of selected topics in animation, video or experimental film.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3800 [0.5 credit]**Film/Video Archival or Curatorial Practice**

Consideration of topics in film/video archival or curatorial practice, including questions related to cultural policy, exhibition, conservation, and interrelationship of media. Students are expected to bear all travel and other costs arising from required visits to local facilities.

Includes: Experiential Learning Activity

Precludes additional credit for FILM 4800 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3801 [0.5 credit]**Film and Media Practice II**

Practical and conceptual approaches to film studies from the point of view of film and media practice. Emphasis may change from year to year, focusing alternately on narrative, experimental, animation or documentary techniques.

Includes: Experiential Learning Activity

Prerequisite(s): FILM 2001 and FILM 2801.

Lecture/workshops four hours a week.

FILM 3808 [0.5 credit]**Cinema and Technology**

The technological development of cinema. Topics may include advances in sound and colour processes, digital effects, exhibition technologies and new media.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3809 [0.5 credit]**Analyzing Digital Media**

History, aesthetics, and theories of digital media and culture. Key concepts in digital media studies, including: digital cinema, interactive documentaries, viral videos, web series, emerging immersive platforms.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3810 [0.5 credit]**Sound in Film and Media**

Questions related to sound in film and media such as: how is sound used to create narratives and emotions? How does sound affect our experience of actual and fictional worlds?.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3901 [0.5 credit]**Topics in Film Studies**

Selected topics and issues not ordinarily treated in the third-year course program.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3902 [0.5 credit]**Screenwriting Workshop**

An intermediate workshop involving regular assignments in writing for film.

Includes: Experiential Learning Activity

Also listed as ENGL 3902.

Prerequisite(s): a 2000-level creative writing workshop or permission of the instructor. Permission to register in this course requires the student to submit a portfolio. Instructions can be found at Carleton.ca/English.

Workshop three hours a week.

FILM 4001 [0.5 credit]**Research and Critical Methodologies**

Study of various methodologies for critical, theoretical and historical research in film studies.

Precludes additional credit for FILM 4000 (no longer offered).

Prerequisite(s): FILM 2002, 1.0 credit in FILM at the 3000-level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture two hours a week.

FILM 4002 [0.5 credit]**Topics in Moving Image Culture**

Selected aspects of the audio-visual cultures of the late nineteenth and twentieth centuries.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Seminar three hours a week.

FILM 4201 [0.5 credit]**Selected Topics in National Cinemas**

A study of a selected topic in national cinema.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4203 [0.5 credit]**Film Festivals and World Cinema**

Theoretical and critical study of the film festival as a phenomenon shaping our understanding of film culture, institutions, history and forms. Issues examined may include festivals as sites of cultural legitimation; as spectacle; their political economy; curation/programming; case studies of film festivals around the world.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4301 [0.5 credit]**Topics in Film and Philosophy**

Selected topics in philosophical approaches to the study of film, and an examination of the relations between film theory and philosophical aesthetics.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Also offered at the graduate level, with different requirements, as FILM 5109, for which additional credit is precluded.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4401 [0.5 credit]**Selected Topics in Film Authorship**

A study of questions of authorship in the cinema, concentrating on one or more filmmakers.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4501 [0.5 credit]**Selected Topics in Film Theory**

A study of a selected topic in film theory.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4805 [0.5 credit]**Practicum in Film and Film Studies**

Practical experience through working on specific projects under the supervision of staff at a museum, gallery, archive, or production company in the Ottawa area. A maximum of 0.5 credit Film Studies practica courses may be offered in fulfilment of Film Studies requirements. Graded SAT/UNS.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Film Studies, a CGPA of 9.00 or higher in Film Studies, and permission of the Discipline.

FILM 4901 [0.5 credit]**Special Topic**

Selected topics in film studies not ordinarily available in the regular course program. The choice of topic or topics will vary at least every two years and will be announced well in advance of the registration period.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Screening three hours a week, seminar two hours a week.

FILM 4904 [0.5 credit]**Independent Study**

For students who wish to study a specific topic. Proposed projects must be approved by the Program Committee. Written request outlining the project must be submitted by the first day of the term. An essay is the usual assignment.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Film Studies and a CGPA of 10.00 or higher in Film Studies.

Unscheduled.

Food Science

This section presents the requirements for programs in:

- Food Science B.Sc. Honours
- Minor in Food Science

Food Science**B.Sc. Honours (20.0 credits)****A. Credits Included in the Major CGPA (9.5 credits)**

1. 6.0 credits in:	6.0
FOOD 1001 [0.5]	Introduction to Food Science
FOOD 2001 [0.5]	Principles of Nutrition
FOOD 2002 [0.5]	Food Processing
FOOD 2003 [0.5]	Regulation of the Canadian Food Industry
FOOD 2004 [0.5]	Scientific Communication in Food Science

FOOD 3001 [0.5]	Food Chemistry	
FOOD 3002 [0.5]	Food Analysis	
FOOD 3005 [0.5]	Food Microbiology	
FOOD 4001 [0.5]	Food Quality Control	
FOOD 4102 [0.5]	Current Issues in Canadian Food Governance, Regulation and Policy	
FOOD 4103 [0.5]	Food Safety Risk Assessment	
FOOD 4201 [0.5]	Advanced Nutrition and Metabolism	
2. 1.0 credits from:		1.0
FOOD 3003 [0.5]	Food Packaging and Shelf Life	
FOOD 3004 [0.5]	Food Engineering	
FOOD 4002 [0.5]	Analysis of Food Contaminants	
FOOD 4202 [0.5]	Micronutrients and Health	
FOOD 4203 [0.5]	Functional Foods and Natural Health Products	
3. 0.5 credit from:		0.5
BIOC 4708 [0.5]	Principles of Toxicology	
FOOD 4301 [0.5]	Food Toxicology	
4. 1.0 credit from:		1.0
FOOD 4905 [1.0]	Food Science Honours Workshop	
FOOD 4907 [1.0]	Food Science Honours Essay and Research Proposal	
FOOD 4908 [1.0]	Food Science Research Project	
5. 1.0 credits in:		1.0
BIOC 2200 [0.5]	Cellular Biochemistry	
BIOC 3101 [0.5]	General Biochemistry I	
B. Credits Not Included in the Major CGPA (10.5 credits)		
6. 0.5 credit from:		0.5
PHIL 1550 [0.5]	Introduction to Ethics and Social Issues	
PHIL 2408 [0.5]	Bioethics	
7. 1.0 credit in:		1.0
ECON 1001 [0.5]	Introduction to Microeconomics	
ECON 1002 [0.5]	Introduction to Macroeconomics	
8. 0.5 credit from:		0.5
0.5 credit in ECON at the 3000 level, or		
BUSI 2204 [0.5]	Basic Marketing	
9. 2.5 credits in:		2.5
CHEM 1001 [0.5]	General Chemistry I	
CHEM 1002 [0.5]	General Chemistry II	
CHEM 2203 [0.5]	Organic Chemistry I	
CHEM 2204 [0.5]	Organic Chemistry II	
CHEM 2303 [0.5]	Analytical Chemistry II	
10. 2.0 credits in:		2.0
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
BIOL 2104 [0.5]	Introductory Genetics	
BIOL 2303 [0.5]	Microbiology	
11. 1.5 credits in:		1.5
MATH 1007 [0.5]	Elementary Calculus I	
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
STAT 2509 [0.5]	Introduction to Statistical Modeling II	
12. 0.5 credit in:		0.5
PHYS 1007 [0.5]	Elementary University Physics I	
13. 0.5 credit from:		0.5
BIOC 3102 [0.5]	General Biochemistry II	

BIOL 3104 [0.5]	Molecular Genetics	
14. 0.5 credits from:		0.5
Courses listed in but not used to fulfill item 13 above, one of:		
BIOC 3008 [0.5]	Bioinformatics	
BIOC 3102 [0.5]	General Biochemistry II	
BIOC 3202 [0.5]	Biophysical Techniques and Applications	
BIOC 3203 [0.5]	Biochemical Pharmacology	
BIOC 4004 [0.5]	Industrial Biochemistry	
BIOC 4202 [0.5]	Mutagenesis and DNA Repair	
BIOL 3104 [0.5]	Molecular Genetics	
BIOL 4106 [0.5]	Advances in Molecular Biology	
CHEM 3201 [0.5]	Advanced Organic Chemistry I	
15. 1.0 credits in free electives		1.0
Total Credits		20.0

Minor in Food Science (4.0 credits)

The Minor in Food Science is available to degree students registered in programs other than the Food Science B.Sc. Honours program. Note that there are several prerequisites in Chemistry, Biochemistry and Math that may also need to be satisfied.

Requirements

1. 0.5 credit in:		0.5
FOOD 1001 [0.5]	Introduction to Food Science	
2. 0.5 credit from:		0.5
FOOD 2001 [0.5]	Principles of Nutrition	
FOOD 2002 [0.5]	Food Processing	
3. 3.0 credits in FOOD at 2000 level or higher		3.0
4. The remaining requirements of the major discipline(s) and degree must be satisfied.		
Total Credits		4.0

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the university regulations common to all undergraduate students including the process of Academic Performance Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

- 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in science continuation courses in each of the two majors**
- 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

1. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for fewer than 10.0 credits.
2. 1.0 credit in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for 10.0 or more credits.

Declared and Undeclared Students

Students who are registered in a program within the degree are called Declared students. Most students designate a program of study when they first apply for admission and so begin their studies as Declared students. Students may also choose to begin their studies within the B.Sc. degree without being registered in a program. These students are referred to as Undeclared students. The recommended course pattern for Undeclared students is provided in the Undeclared entry of the Programs section of this Calendar. Undeclared students normally must apply to enter a program before beginning their second year of study. The Science Student Success Centre (SSSC) provides Undeclared students guidance to the appropriate support services in making this decision.

Change of Program within the B.Sc. Degree

Students may transfer to a program within the B.Sc. degree if upon entry to the new program they would be in good academic standing.

Other applications for change of program will be considered on their merits; students may be accepted in the new program in *Good Standing* or on *Academic Warning*.

Applications to declare or change their program within the B.Sc. Degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program or into a program element or option is subject to any enrolment, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may add a minor, concentration or specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a minor, concentration or specialization requires that the student be in *Good Standing* and is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of experimental science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry	
BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering
Biology	
BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology
Chemistry	
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2800 [0.5]	Foundations for Environmental Chemistry
Earth Sciences	
ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time
ERTH 2102 [0.5]	Mineralogy to Petrology
ERTH 2404 [0.5]	Engineering Geoscience
ERTH 2802 [0.5]	Field Geology I
ERTH 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds
ERTH 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians
ERTH 3204 [0.5]	Mineral Deposits
ERTH 3205 [0.5]	Physical Hydrogeology
ERTH 3806 [0.5]	Structural Geology
Food Sciences	
FOOD 3001 [0.5]	Food Chemistry
FOOD 3002 [0.5]	Food Analysis
FOOD 3005 [0.5]	Food Microbiology
Geography	
GEOG 1010 [0.5]	Global Environmental Systems
GEOG 3108 [0.5]	Soil Properties
Neuroscience	
NEUR 3206 [0.5]	Sensory and Motor Neuroscience
NEUR 3207 [0.5]	Systems Neuroscience
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy
Physics	
PHYS 1001 [0.5]	Foundations of Physics I
PHYS 1002 [0.5]	Foundations of Physics II
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I

PHYS 1008 [0.5]	Elementary University Physics II
PHYS 2202 [0.5]	Wave Motion and Optics
PHYS 2604 [0.5]	Modern Physics I
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars
PHYS 3606 [0.5]	Modern Physics II
PHYS 3608 [0.5]	Modern Applied Physics

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 2006 [0.5]	Introduction to Quantitative Research
GEOG 2013 [0.5]	Weather and Water
GEOG 2014 [0.5]	The Earth's Surface
GEOG 3003 [0.5]	Quantitative Geography
GEOG 3010 [0.5]	Field Methods in Physical Geography
GEOG 3102 [0.5]	Geomorphology
GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3104 [0.5]	Principles of Biogeography
GEOG 3105 [0.5]	Climate and Atmospheric Change
GEOG 3106 [0.5]	Aquatic Science and Management
GEOG 3108 [0.5]	Soil Properties
GEOG 4000 [0.5]	Field Studies
GEOG 4005 [0.5]	Directed Studies in Geography
GEOG 4013 [0.5]	Cold Region Hydrology
GEOG 4017 [0.5]	Global Biogeochemical Cycles
GEOG 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103 [0.5]	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Science Psychology Courses

PSYC 2001 [0.5]	Introduction to Research Methods in Psychology
PSYC 2002 [0.5]	Introduction to Statistics in Psychology
PSYC 2700 [0.5]	Introduction to Cognitive Psychology
PSYC 3000 [1.0]	Design and Analysis in Psychological Research
PSYC 3506 [0.5]	Cognitive Development
PSYC 3700 [1.0]	Cognition (Honours Seminar)
PSYC 3702 [0.5]	Perception
PSYC 2307 [0.5]	Human Neuropsychology I
PSYC 3307 [0.5]	Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

- BIOC (Biochemistry)
- BIOL (Biology)
- CHEM (Chemistry)

COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except EARTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use EARTH 2401, EARTH 2402, and EARTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except EARTH 1010, EARTH 1011 and EARTH 2415. Earth Sciences students may use EARTH 2401, EARTH 2402, and EARTH 2403 only as free electives.

Engineering

ENSC 2001

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Science)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)

Science Psychology (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) Biology students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5]	Education Research in Biology
CHEM 1003 [0.5]	The Chemistry of Food, Health and Drugs
CHEM 1004 [0.5]	Drugs and the Human Body
CHEM 1007 [0.5]	Chemistry of Art and Artifacts
ERTH 1010 [0.5]	Our Dynamic Planet Earth
ERTH 1011 [0.5]	Evolution of the Earth
ERTH 2415 [0.5]	Natural Disasters
ISCI 1001 [0.5]	Introduction to the Environment
ISCI 2000 [0.5]	Natural Laws
ISCI 2002 [0.5]	Human Impacts on the Environment
MATH 0107 [0.5]	Algebra and Geometry
PHYS 1901 [0.5]	Planetary Astronomy
PHYS 1902 [0.5]	From our Star to the Cosmos
PHYS 1905 [0.5]	Physics Behind Everyday Life
PHYS 2903 [0.5]	Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5]	Introduction to Computational Thinking for Arts and Social Science Students
MATH 0005 [0.5]	Precalculus: Functions and Graphs
MATH 0006 [0.5]	Precalculus: Trigonometric Functions and Complex Numbers
MATH 1009 [0.5]	Mathematics for Business
MATH 1119 [0.5]	Linear Algebra: with Applications to Business
MATH 1401 [0.5]	Elementary Mathematics for Economics I
MATH 1402 [0.5]	Elementary Mathematics for Economics II

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The

summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.Sc. Honours Food Science: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered as a full-time student in the Bachelor of Science Honours in Food Science;
2. Obtained and maintained a major CGPA of 9.0 or higher and an overall CGPA of 7.5 or higher in the first three years of academic study;

3. Have obtained third-year standing;
4. Successfully completed, by the start date of the first work term, 1.0 credit from FOOD 3001, FOOD 3002, FOOD 3005;
5. Successfully completed, by the start date of the first work term, an additional 0.5 credit in FOOD at the 3000- or 4000-level, not already counted in Item 4

B.Sc. Honours Food Science students must successfully complete three (3) work terms to obtain the co-op designation.

Work Term Course: FOOD 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall		Fall	S	Fall	S	Fall	W/S	Fall	S
Winter		Winter	S	Winter	S	Winter	W/S	Winter	S
Summer		Summer		Summer	O/W	Summer	O/W		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology

and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions and two of Biology, Chemistry, Earth and Space Sciences or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For the Combined Honours program in Chemistry and Computer Science, 4U Chemistry and Calculus and Vectors are strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

For entry to an Honours program after the completion of 5.0 included credits, a student must have a major CGPA of 5.50 or higher, an overall CGPA of 4.50 or higher and the recommendation of the Honours department or committee. A student beginning the final 10.0 credits towards an Honours degree must present a major CGPA of 6.00 or higher, an overall CGPA of 5.00 or higher and the recommendation of the Honours department or committee. A student beginning the final 5.0 credits towards an Honours degree must present a major CGPA of 6.50 or higher and an overall CGPA of 5.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

B.Sc. Major Program

B.Sc. Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics. 4U Physics is strongly recommended. Equivalent courses may be substituted between the old and new Ontario mathematics curriculum.

Advanced Standing

For entry to a B.Sc. or B.Sc. Major program after the completion of 5.0 included credits, a student must have a major and core CGPA of 3.50 or higher and an overall

CGPA of 3.50 or higher. A student beginning the final 5.0 credits towards a B.Sc. or B.Sc. Major degree must present a major and core CGPA of 4.00 or higher and an overall CGPA of 4.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Food Science (FOOD) Courses

FOOD 1001 [0.5 credit]

Introduction to Food Science

Overview of the food industry. Production, processing, product development, packaging, chemistry, analysis, microbiology. Elements risk assessment, policy making and regulation.

Lectures three hours a week.

FOOD 2001 [0.5 credit]

Principles of Nutrition

Roles of nutrients, lipids, proteins, carbohydrates, fluids and electrolytes. Digestion, absorption, transport, energy metabolism. Disorders including diabetes, cardiovascular disease and osteoporosis. Nutrition through the life cycle. Prerequisite(s): CHEM 1002, BIOL 1103.

Lectures three hours a week.

FOOD 2002 [0.5 credit]

Food Processing

Principles of major techniques used in food processing and preservation. Processing of specific food groups including cereals, oilseeds, dairy, beverages and frozen foods. Effects of processing on physico-chemical, rheological, and sensory characteristics. Role of research and development in food industry.

Prerequisite(s): FOOD 1001.

Lectures three hours a week.

FOOD 2003 [0.5 credit]

Regulation of the Canadian Food Industry

Regulation of the Canadian food industry including regulators, regulatory powers, the process of enacting laws/regulation and food safety requirements. Food composition, standardization, advertising, labeling, packaging, ingredients, additives, and fortification requirements. Inspection, enforcement and compliance powers and policies.

Prerequisite(s): Second year standing.

Lectures three hours per week.

FOOD 2004 [0.5 credit]

Scientific Communication in Food Science

Principles of effective scientific communication for scientific and non-scientific audiences. Applicable to laboratory reports, literature reviews, posters, presentations, and briefing notes.

Includes: Experiential Learning Activity

Prerequisite(s): FOOD 1001 and second-year standing in Food Science or Chemistry.

Workshop four hours a week.

FOOD 3001 [0.5 credit]

Food Chemistry

Chemistry of the major components of foods such as proteins, lipids, carbohydrates and of the minor components such as enzymes, vitamins and various additives and their relationships to food stability and degradation.

Includes: Experiential Learning Activity

Prerequisite(s): FOOD 1001, FOOD 2001, CHEM 2204, BIOC 2200.

Lectures three hours a week and laboratory three hours a week.

FOOD 3002 [0.5 credit]

Food Analysis

In-depth principles and practices of food proximate analysis. Introductory concepts of food adulteration and detection. Major techniques such as chromatography, colorimetry, spectroscopy, rheology.

Includes: Experiential Learning Activity

Prerequisite(s): FOOD 1001, FOOD 2001, FOOD 3001.

Lectures three hours a week, laboratory three hours a week.

FOOD 3003 [0.5 credit]

Food Packaging and Shelf Life

An introduction to the materials used for food packaging, including their chemical and physical characteristics.

Interactions of these materials with food products, and their effects on shelf life of food.

Prerequisite(s): FOOD 2002.

Lectures three hours a week.

FOOD 3004 [0.5 credit]**Food Engineering**

Principles of food engineering. Unit operation in food processing, heat and mass transfer, material balances, fluid mechanics.

Prerequisite(s): FOOD 2002 and MATH 1007.

Lectures three hours a week.

FOOD 3005 [0.5 credit]**Food Microbiology**

Foodborne diseases, microbial growth and survival, food spoilage, food fermentation. Techniques for detecting and quantifying microorganisms in foods.

Includes: Experiential Learning Activity

Prerequisite(s): FOOD 1001, FOOD 2001, BIOL 2303.

Lectures three hours a week, laboratory three hours a week.

FOOD 3999 [0.0 credit]**Co-operative Work Term**

Provides practical experience for students enrolled in the Co-operative option. Students must receive satisfactory evaluations from their work term employer. Written and oral reports will be required. Graded as Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): Registration in the Food Science Co-operative Education option and permission of the Department.

Work term.

FOOD 4001 [0.5 credit]**Food Quality Control**

Factors affecting quality in manufacturing and processing of foods and principles of quality control and quality assurance. Sampling plans and statistical methods.

Applications of physical, chemical, biological and microbiological tests in quality control. Quality systems and standards.

Prerequisite(s): FOOD 2002, FOOD 2003, and third or fourth year standing.

Also offered at the graduate level, with different requirements, as FOOD 5104, for which additional credit is precluded.

Lectures three hours a week.

FOOD 4002 [0.5 credit]**Analysis of Food Contaminants**

Official methods to identify food contaminants and adulterated foods. Includes agricultural chemicals, veterinary drugs, toxins, metals, and allergens.

Interpretation of results in the context of current Canadian and international food safety regulations.

Includes: Experiential Learning Activity

Prerequisite(s): BIOC 3101 or CHEM 3205 or

CHEM 3305, and third or fourth year standing.

Laboratory four hours per week, tutorial one hour a week.

FOOD 4102 [0.5 credit]**Current Issues in Canadian Food Governance, Regulation and Policy**

Focus on the ever-changing and evolving issues in Canadian food governance, regulation and policy. Topical food safety, governance, policies, enforcement, trade and import/export issues and developments.

Prerequisite(s): FOOD 2003, and third or fourth year standing.

Lectures three hours a week.

FOOD 4103 [0.5 credit]**Food Safety Risk Assessment**

The role of risk management in providing science-based approaches to solving food safety problems.

Risk management models and practical applications in critical risk management. An examination of actual risk assessments. Risk communication is addressed.

Prerequisite(s): BIOC 3101, and third or fourth-year standing.

Lectures three hours a week.

FOOD 4201 [0.5 credit]**Advanced Nutrition and Metabolism**

Metabolism of macronutrients in the human body. Detailed catabolic and anabolic reactions of carbohydrates, lipids and proteins. Regulatory control points in healthy and diseased states. Discussion of the literature pertaining to nutrition, metabolism and chronic disease.

Prerequisite(s): FOOD 2001, BIOC 3101 and fourth year standing.

Also offered at the graduate level, with different requirements, as FOOD 5101, for which additional credit is precluded.

Lectures three hours a week.

FOOD 4202 [0.5 credit]**Micronutrients and Health**

Animal and plant-based sources of micronutrients.

Metabolism of vitamins and minerals in the human body and associated diseases throughout the life cycle.

Micronutrient supplementation to promote human health.

Prerequisite(s): BIOC 2200 or BIOL 2200 and third or fourth year standing.

Lectures three hours a week.

FOOD 4203 [0.5 credit]**Functional Foods and Natural Health Products**

Study of the bioactive components of functional foods and natural health products, for the improvement of health and nutrition. Sources and chemistry of bioactives, mechanisms of actions, process technology, efficacy and safety. Role of research and development in industry in commercialization of new products.

Prerequisite(s): BIOC 2200 or BIOL 2200 or BIOL 2201, and third or fourth year standing.

Also offered at the graduate level, with different requirements, as FOOD 5105, for which additional credit is precluded.

Lectures three hours a week.

FOOD 4301 [0.5 credit]**Food Toxicology**

Principles of toxicology as they apply to endogenous plant toxicants, endogenous animal poisons, mycotoxins, pesticide residues, veterinary drugs, food additives, heavy metals, and toxicants produced as a result of processing. Prerequisite(s): BIOC 3101, FOOD 3001 and fourth-year standing in Food Science.

Lectures three hours a week.

FOOD 4905 [1.0 credit]**Food Science Honours Workshop**

Active learning in areas that include information literacy, critical evaluation of scientific literature, written and oral communication, evaluation and interpretation of results, statistics and data management. Emphasizes transferable skills that are most appropriate for non-research career paths.

Includes: Experiential Learning Activity

Precludes additional credit for FOOD 4907, FOOD 4908.

Prerequisite(s): Fourth-year standing in Food Science and a minimum of 1.5 credits in FOOD at the 3000 level.

Workshop three hours a week.

FOOD 4907 [1.0 credit]**Food Science Honours Essay and Research Proposal**

Students conduct an independent research study using library resources, and prepare a critical review and study proposal on a topic approved by a faculty supervisor. A written report and an oral poster presentation of the work are required before a grade can be assigned.

Includes: Experiential Learning Activity

Precludes additional credit for FOOD 4905, FOOD 4908, CHEM 4907 and CHEM 4908.

Prerequisite(s): Fourth-year standing in the Food Science program, a minimum of 1.5 credits in FOOD at the 3000 level, minimum Major CGPA of 8.0, and permission of the department.

FOOD 4908 [1.0 credit]**Food Science Research Project**

Students in Food Science carry out a research project under the direction of a faculty member. A written report and an oral presentation of the work are required before a grade can be assigned.

Includes: Experiential Learning Activity

Precludes additional credit for FOOD 4905, FOOD 4907, CHEM 4907 and CHEM 4908.

Prerequisite(s): Fourth-year standing in the Food Science program, a minimum of 1.5 credits in FOOD at the 3000 level, minimum Major CGPA of 8.0, and permission of the department.

Laboratory and associated work equivalent to at least eight hours per week for two terms.

French

This section presents the requirements for programs in:

- French B.A. Honours
- French B.A. Combined Honours
- French B.A.

- Specialization in French and Francophone Studies B.G.In.S. Honours
- Stream in French and Francophone Studies B.G.In.S.
- Minor in French
- Minor in Quebec Studies

Program Requirements

French

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (11.0 credits)

1. 1.0 credit from:		1.0
FREN 1100 [1.0]	French 3	
FREN 1110 [1.0]	French 3: Writing	
FYSM 1408 [1.0]	French on the World Stage	
2. 1.5 credit in:		1.5
FREN 2110 [1.0]	French 4: Writing	
FREN 2701 [0.5]	Travaux pratiques en français oral	
3. 1.0 credit in:		1.0
FREN 2202 [0.5]	Introduction aux études littéraires 1	
FREN 2203 [0.5]	Introduction aux études littéraires 2	
4. 1.0 credit in:		1.0
FREN 2401 [1.0]	Introduction à la linguistique française	
5. 1.0 credit in:		1.0
FREN 3050 [0.5]	Compétences critiques	
FREN 3060 [0.5]	Perfectionnement de la grammaire par la pratique	
6. 2.5 credits at the 3000-level in one of the following series:		2.5
a. Literature: FREN 3200 series of courses		
b. Linguistics: FREN 3400 series of courses		
7. 0.5 credit in:		0.5
FREN 4060 [0.5]	Projet de recherche supervisé	
8. 1.5 credits in FREN at the 4000-level		1.5
9. 1.0 credits in FREN at the 3000-level or higher		1.0
B. Credits Not Included in the Major CGPA (9.0 credits)		
10. 7.5 credits in electives not in FREN		7.5
11. 1.5 credits in free electives		1.5

Total Credits **20.0**

Notes:

1. Students exempted from either one of the courses in Item 1 or 2 above must replace it with another FREN course.

French

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (7.5 credits)

1. 1.0 credit from:		1.0
FREN 1100 [1.0]	French 3	
FREN 1110 [1.0]	French 3: Writing	
FYSM 1408 [1.0]	French on the World Stage	
2. 1.5 credit from:		1.5
FREN 2100 [1.0]	French 4	
FREN 2110 [1.0]	French 4: Writing	
FREN 2701 [0.5]	Travaux pratiques en français oral	
3. 1.0 credit in:		1.0
FREN 2202 [0.5]	Introduction aux études littéraires 1	

FREN 2203 [0.5]	Introduction aux études littéraires 2	
4. 1.0 credit in:		1.0
FREN 2401 [1.0]	Introduction à la linguistique française	
5. 1.0 credit in:		1.0
FREN 3050 [0.5]	Compétences critiques	
FREN 3060 [0.5]	Perfectionnement de la grammaire par la pratique	
6. 1.0 credit from:		1.0
FREN 3200 series of courses or FREN 3400 series of courses		
7. 1.0 credit in FREN at the 4000-level		1.0
B. Additional Requirements (12.5 credits)		12.5
8. The requirements from the other discipline must be satisfied		
9. Sufficient free electives to make 20.0 credits for the degree		
Total Credits		20.0

Note: students exempted from either one of the courses in Item 1 or 2 above must replace it with another FREN course.

French

B.A. (15.0 credits)

A. Credits included in the Major CGPA (6.5 credits)

1. 1.0 credit from:		1.0
FREN 1100 [1.0]	French 3	
FREN 1110 [1.0]	French 3: Writing	
FYSM 1408 [1.0]	French on the World Stage	
2. 1.5 credit in:		1.5
FREN 2110 [1.0]	French 4: Writing	
FREN 2701 [0.5]	Travaux pratiques en français oral	
3. 1.0 credit in:		1.0
FREN 2202 [0.5]	Introduction aux études littéraires 1	
FREN 2203 [0.5]	Introduction aux études littéraires 2	
4. 1.0 credit in:		1.0
FREN 2401 [1.0]	Introduction à la linguistique française	
5. 1.0 credits at the 3000-level in one of the following:		1.0
a. Literature: FREN 3200 series of courses		
b. Linguistics: FREN 3400 series of courses		
6. 1.0 credit in FREN at the 3000-level or higher		1.0
B. Credits not included in the Major CGPA (8.5 credits)		
7. 6.0 credits in electives not in FREN		6.0
8. 2.5 credits in free electives		2.5
Total Credits		15.0

Note: students exempted from either one of the courses in Item 1 above must replace it with another FREN course.

Specialization in French and Francophone Studies

B.G.In.S. Honours (20.0 credits)

A. Credits included in the Major CGPA (12.0 credits)

1. 4.5 credits in: Core Courses		4.5
GINS 1000 [0.5]	Global History	
GINS 1010 [0.5]	International Law and Politics	
GINS 1020 [0.5]	Ethnography, Globalization and Culture	

GINS 2000 [0.5]	Ethics and Globalization	
GINS 2010 [0.5]	Globalization and International Economic Issues	
GINS 2020 [0.5]	Global Literatures	
GINS 3010 [0.5]	Global and International Theory	
GINS 3020 [0.5]	Places, Boundaries, Movements and Global Environmental Change	
GINS 4090 [0.5]	Honours Seminar in Global and International Studies	
2. 0.0 credit in: International Experience Requirement Preparation		
GINS 1300 [0.0]	International Experience Requirement Preparation	
3. 7.5 credits in: the Specialization		
a. 3.0 credits in: Foundations		3.0
FYSM 1408 [1.0]	French on the World Stage	
FREN 2202 [0.5]	Introduction aux études littéraires 1	
FREN 2203 [0.5]	Introduction aux études littéraires 2	
FREN 2401 [1.0]	Introduction à la linguistique française	
b. 0.5 credit in: Methods		0.5
FREN 3050 [0.5]	Compétences critiques	
c. 1.5 credits from: French and Francophone Studies at the 3000-level		1.5
FREN 3213 [0.5]	Du Baroque aux Lumières	
FREN 3214 [0.5]	Révolutions, avant-gardes et ruptures : du 19e siècle aux années 1950	
FREN 3215 [0.5]	Les ères du soupçon : contemporanéités de la littérature	
FREN 3414 [0.5]	Sociolinguistique du français	
FREN 3415 [0.5]	Histoire du français	
d. 1.0 credit in: French and Francophone Studies - International Experience		1.0
1.0 credit in approved courses at the 3000-level or above taken in French, on exchange or a letter of permission, at a French-language university abroad		
e. 1.5 credits from: French and Francophone Studies at the 4000-level		1.5
FREN 4212 [0.5]	Littératures francophones	
FREN 4213 [0.5]	Littérature québécoise et canadienne d'expression française	
FREN 4214 [0.5]	Genre et mouvement	
FREN 4215 [0.5]	Problématiques contemporaines	
FREN 4300 [0.5]	Experiential learning in French and Francophone studies	
FREN 4412 [0.5]	Diversité du français	
FREN 4413 [0.5]	Diachronie du français	
FREN 4414 [0.5]	Analyse du français	
FREN 4415 [0.5]	Variation du français	
B. Credits Not Included in the Major CGPA (8.0 credits)		
4. 8.0 credits in: Free Electives		8.0
C. Additional Requirements		
5. The International Experience Requirement must be met through an international exchange or a letter of permission (see item 3.d).		

6. To satisfy the Language Requirement, students must complete FREN 2100 [1.0] French 4, FREN 3701 [0.5] Français oral and FREN 3702 [0.5] Français écrit, or their equivalent.

Total Credits 20.0

Stream in French and Francophone Studies B.G.In.S. (15.0 credits)

A. Credits included in the Major CGPA (8.0 credits)

1. **4.0 credits in: Core Courses** 4.0

GINS 1000 [0.5]	Global History
GINS 1010 [0.5]	International Law and Politics
GINS 1020 [0.5]	Ethnography, Globalization and Culture

FREN 2203 [0.5]	Introduction aux études littéraires 2
FREN 2401 [1.0]	Introduction à la linguistique française

b. **1.0 credit in: French and Francophone Studies at the 3000-level** 1.0

FREN 3213 [0.5]	Du Baroque aux Lumières
FREN 3214 [0.5]	Révolutions, avant-gardes et ruptures : du 19e siècle aux années 1950
FREN 3215 [0.5]	Les ères du soupçon : contemporanéités de la littérature
FREN 3414 [0.5]	Sociolinguistique du français
FREN 3415 [0.5]	Histoire du français

B. Credits Not Included in the Major CGPA (7.0 credits)

3. **7.0 credits in: Free Electives** 7.0

C. Additional Requirements

4. To satisfy the Language Requirement, students must complete FREN 2100 [1.0] French 4, or its equivalent.

Total Credits 15.0

Minor in French (4.0 credits)

Open to all undergraduate degree students not in French programs.

Requirements

1. **2.0 credits in FREN at the 1100-level or higher** 2.0

2. **1.0 credit in:** 1.0

FREN 2202 [0.5]	Introduction aux études littéraires 1 & FREN 2203 [0.5] Introduction aux études littéraires 2 or FREN 2401 [1.0] Introduction à la linguistique française
-----------------	---

3. **1.0 credit in FREN at the 3000-level or higher.** 1.0

4. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits 4.0

Minor in Quebec Studies (4.0 credits)

Open to all undergraduate degree students. Additional courses containing Quebec content may apply to the minor if approved by the Advisor in advance.

Requirements:

1. **2.0 credits in:** 2.0

CDNS 2510/ FINS 2510 [0.5]	Introduction to Québec Society (English version) or CDNS 2511 [0.5] Introduction à la société et à la culture québécoises (version française)
CDNS 3550 [0.5]	Interfaces between English and French Canadian Cultures
FREN 2203 [0.5]	Introduction aux études littéraires 2
HIST 3301 [0.5]	Quebec Since 1800

2. **1.5 credits in approved electives (see below)** 1.5

3. **0.5 credit at the 3000-level or above in approved electives (see below)** 0.5

4. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits 4.0

Approved Electives

Art History	
ARTH 2002 [0.5]	Canadian Historical Art
Canadian Studies	
CDNS 2300 [0.5]	Critical Nationalism

Political Science	
PSCI 4005 [0.5]	Canadian Federalism
PSCI 4009 [0.5]	Quebec Politics

French Proficiency Examination

English-speaking students who wish to graduate with a B.A. (15 credit) or B.A. Honours in French, a B.A. Combined Honours in French, and a B.J. Combined Honours in French are normally required to pass an oral examination testing their proficiency in spoken French. The examination normally takes place during the second year for students in the 15 credit program and during the third year for students in the B.A. Honours. Students

have the option of repeating the examination during the following academic year.

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies,

History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, ERTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines.

Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in Good Standing.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.A. Honours French: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered in the B.A. Honours in French;
2. Obtained and maintained an 8.0 CGPA overall with a major CGPA of 9.0;
3. Have obtained third-year standing by the first work term;
4. Successfully completed before beginning first work term: FREN 2401; FREN 2202 and FREN 2203; and at least one 3000-level course in French.

Students in B.A. Honours French must successfully complete three (3) work terms to obtain the Co-op designation.

Co-op Work Term Course: FREN 3999

Work/Study Pattern:

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section “English Language Requirements” in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their

admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

French Interdisciplinary Studies (FINS) Courses

These courses are intended to meet the needs of a broad range of students who are interested in expanding their knowledge of the French-language presence in other disciplines, or in improving their passive knowledge of written and spoken French (reading and listening) with a view to applying this knowledge in other disciplines.

Some FINS courses are offered with English as the language of instruction.

French Placement for Language Students

Students who have not previously taken a course in the French Department must complete the Placement Test on Carleton Central before registering as per instructions received through their Carleton e-mail account. Students should note that they cannot go backward in a sequence of levels in language courses. Students desiring a French credit to satisfy the language requirement of their department or school should consult that department or school.

FINS 2105 [0.5 credit]

French Reading I

Development of reading skills, especially relating to academic texts. Basic French grammar and vocabulary. Given in English. Open to beginners. No auditors. Precludes additional credit for FREN 1006. Prerequisite(s): permission of the Department. Offered online. Equivalent to a weekly three-hour course, available all week.

FINS 2205 [0.5 credit]

Oral Comprehension I

Training in basic comprehension of spoken French, through the study of selected and edited video and audio material. Oral documents in French; analyses, discussion, reporting and testing in English. No auditors. Prerequisite(s): permission of the Department.

FINS 2510 [0.5 credit]**Introduction to Québec Society (English version)**

This course surveys geographical, historical, demographic, cultural, political and social developments in Québec, relations with English Canada and debates on identity and nationalism. This course is also offered in French as CDNS 2511/FINS 2511.

Also listed as CDNS 2510.

Precludes additional credit for CDNS 2511/FINS 2511.

Prerequisite(s): second-year standing or permission of the Department.

Lectures/groups three hours a week.

FINS 2511 [0.5 credit]**Introduction à la société et à la culture québécoises (version française)**

Ce cours exclusivement en ligne permettra de découvrir et d'analyser des référents dominants de la trame historique du Québec de même que les débats entourant l'identité et le nationalisme et les relations avec le Canada anglais.

Also listed as CDNS 2510/FINS 2510 (in English), CDNS 2511.

Precludes additional credit for CDNS 2510 and FINS 2510.

Prerequisite(s): niveau de deuxième année ou permission de L'École d'études canadiennes.

Exclusivement en ligne. Équivalent d'un cours de trois heures par semaine, accessible toute la semaine.

FINS 3105 [0.5 credit]**French Reading II**

Reading knowledge for academic purposes. Advanced reading strategies. Individual reading in the student's specialization. Given in English. No auditors.

Precludes additional credit for FREN 1006.

Prerequisite(s): FINS 2105 or permission of the Department.

Offered online. Equivalent to a weekly three-hour course, available all week.

FINS 3205 [0.5 credit]**Oral Comprehension II**

Advanced training and practice in the comprehension of authentic oral materials in French. Individual assignments in the student's specialization. Oral documents in French; analysis, discussion, reporting and testing in English and French. No auditors.

Prerequisite(s): FINS 2205 or permission of the Department.

FINS 3405 [0.5 credit]**French for Special or Professional Purposes I**

Topics may vary from year to year. Consult the Web site.

Prerequisite(s): permission of the Department.

FINS 3406 [0.5 credit]**French for Special or Professional Purposes II**

Topics may vary from year to year. Consult the Web site.

Prerequisite(s): permission of the Department.

FINS 3407 [0.5 credit]**French for Special or Professional Purposes III**

Topics may vary from year to year. Consult the Web site.

Prerequisite(s): permission of the Department.

FINS 3550 [0.5 credit]**Interfaces between English and French Canadian Cultures**

Exploration of intercultural encounters between French and English Canadians in political, popular and "official" cultures, through an examination of media, art, music, literature, cinema and the built environment.

Also listed as CDNS 3550.

Precludes additional credit for FINS 2500 and CDNS 2500.

Prerequisite(s): third-year standing or permission of the Department.

Seminar three hours a week.

FINS 3801 [0.5 credit]**Selected Topics in French A**

Students may take a third-year course offered in the Department of French while submitting course work in English. This course does not count towards any degree program in French.

Prerequisite(s): third-year standing and permission of the Department.

Hours to be determined.

FINS 4510 [0.5 credit]**Québec Studies**

Advanced seminar focusing on selected aspects of Québec history, society, culture and/or politics.

Also listed as CDNS 4510.

Precludes additional credit for CDNS 3510 or FINS 3510.

Prerequisite(s): fourth-year standing and CDNS 3500, FINS 3500 or permission of the Department.

Seminar three hours a week.

FINS 4801 [0.5 credit]**Selected Topics in French A**

Students may take a fourth- or fifth-year special topic seminar offered in the Department of French while submitting written work in English. This course does not count towards credit in any degree program in French.

Prerequisite(s): fourth-year standing or permission of the Department.

Hours to be determined.

FINS 4802 [0.5 credit]**Selected Topics in French B**

Students may take a fourth- or fifth-year special topic seminar offered in the Department of French while submitting written work in English. This course does not count towards credit in any degree program in French.

Prerequisite(s): fourth-year standing or permission of the Department.

Hours to be determined.

French (FREN) Courses**French Placement for Language Students**

Students who have not previously taken a course in the French Department must complete the Placement Test on Carleton Central before registering, as per instructions received through their Carleton e-mail account. Students should note that they cannot go backward in a sequence of levels in language courses.

Students desiring a French credit to satisfy the language requirement of their department or school should consult that department or school.

FREN 1001 [1.0 credit]

French 1

This course is designed for absolute beginners in the language. Classes use audio-visual methods, and emphasis is given to the spoken language. Introduction to reading and writing. Compulsory attendance. Limited enrolment. No auditors. Oral interaction required.

Prerequisite(s): placement test on Carleton Central before registering.

Lecture three hours a week.

FREN 1002 [1.0 credit]

French 2

Taught in French for students who have had exposure to French but who have difficulty using it in day-to-day communication. Emphasis on oral expression and comprehension; development of reading and writing skills. Oral practice, presentations, interviews, cultural activities, grammar. Compulsory attendance, participation. Oral interaction required.

Prerequisite(s): Grade of C or higher in FREN 1001 or placement test on Carleton Central before registering.

Lecture three hours a week.

FREN 1100 [1.0 credit]

French 3

Taught in French. Emphasis on speaking, listening, reading and writing skills. Oral presentations, discussions, interviews, reading of novels and magazine articles, listening activities, grammar exercises, compositions. Attendance and participation are compulsory. Limited enrolment. No auditors. Oral interaction required.

Precludes additional credit for FREN 1110.

Prerequisite(s): Grade of C or higher in FREN 1002 or placement test on Carleton Central before registering.

Lecture three hours a week.

FREN 1110 [1.0 credit]

French 3: Writing

Taught in French. For students with low intermediate writing skills in French. Improvement of spelling, grammar, sentence-structure and vocabulary. Study of the processes involved in the production of a variety of texts. Introduction to the use of references. Self-correction. Attendance, participation compulsory. Oral interaction required.

Precludes additional credit for FREN 1100.

Prerequisite(s): Grade of C or higher in FREN 1002 or placement test on Carleton Central before registering.

Lecture three hours a week.

FREN 2100 [1.0 credit]

French 4

Taught in French. For non-francophone students. Advanced speaking, listening, reading and writing skills. Advanced level reading from various sources, including literary texts. Grammar exercises, essays, oral presentations. Attendance and participation are compulsory. Limited enrolment. No auditors. Oral interaction required.

Precludes additional credit for FREN 2110.

Prerequisite(s): Grade of C or higher in FREN 1100 or FREN 1110 or placement test on Carleton Central before registering.

Cours trois heures par semaine.

FREN 2110 [1.0 credit]

French 4: Writing

Taught in French. For students with intermediate French writing skills. Refinement of spelling, grammar, sentence-structure and vocabulary; accuracy and textual organization. Essay-writing. Use and referencing of various sources. Self-correction. Attendance and participation compulsory. Oral interaction required.

Precludes additional credit for FREN 2100.

Prerequisite(s): Grade of C or higher in FREN 1100 or FREN 1110 or placement test on Carleton Central before registering. First week: compulsory placement. Limited enrolment. No auditors.

Cours trois heures par semaine.

FREN 2202 [0.5 credit]

Introduction aux études littéraires 1

Survol historique des littératures d'expression française : principaux auteurs, grands mouvements, évolution des genres. Initiation aux méthodes et notions d'analyse littéraire.

Precludes additional credit for FREN 2201.

Prerequisite(s): FREN 1100 or FREN 1110 with a grade of C or higher or permission of the Department. This course may be taken concurrently with FREN 2100 or FREN 2110.

Cours trois heures par semaine.

FREN 2203 [0.5 credit]

Introduction aux études littéraires 2

Survol historique des littératures d'expression française au Québec et au Canada : principaux auteurs, grands mouvements, évolution des genres. Initiation aux méthodes et notions d'analyse littéraire.

Precludes additional credit for FREN 2201.

Prerequisite(s): FREN 1100 or FREN 1110 with a grade of C or higher or permission of the Department. This course may be taken concurrently with FREN 2100 or FREN 2110.

Cours trois heures par semaine.

FREN 2401 [1.0 credit]**Introduction à la linguistique française**

Étude de la structure et du fonctionnement du système linguistique à travers l'analyse de données du français (de France et du Canada). La construction du sens, des sons au discours; code oral et écrit.

Prerequisite(s): FREN 1100 or FREN 1110 with a grade of C or higher or permission of the Department. This course may be taken concurrently with FREN 2100 or FREN 2110.

Cours trois heures par semaine.

FREN 2701 [0.5 credit]**Travaux pratiques en français oral**

Travaux pratiques pour développer l'aisance et la fluidité dans l'expression orale. This course is not suitable for francophones.

Prerequisite(s): Grade of C or higher in FREN 1100 or FREN 1110 or placement test on Carleton Central before registering.

Cours trois heures par semaine.

FREN 3050 [0.5 credit]**Compétences critiques**

Initiation aux techniques et pratiques de la réflexion universitaire : documentation (bibliothèque, bases de données, bibliographies critiques), lecture (analyse, synthèse et évaluation critique de textes de savoir) et réflexion (cadre théorique, méthode d'analyse, pratique du discours raisonné).

Prerequisite(s): FREN 2202, FREN 2203 and FREN 2401, or permission of the Department.

Cours trois heures par semaine.

FREN 3060 [0.5 credit]**Perfectionnement de la grammaire par la pratique**

Analyse et pratique réfléchie des formes de la grammaire dans le discours: Structures des phrases, marques d'accord, concordance des temps, prépositions et compléments, homonymie et homographie, faux amis et anglicismes. Développement des techniques efficaces d'autocorrection et maîtrise d'outils informatisés.

Prerequisite(s): FREN 2202 and FREN 2203 or FREN 2401, or permission of the Department.

Cours trois heures par semaine.

FREN 3212 [0.5 credit]**Des manuscrits aux belles-lettres : de la littérature médiévale à l'humanisme**

Étude d'une sélection de textes, tirés de divers genres, permettant d'explorer les origines de la littérature française : oralité et écriture; chansons de geste; courtoisie; récits de voyages; littérature de la cour; humanisme. Différentes approches théoriques du texte littéraire.

Prerequisite(s): FREN 2202 and FREN 2203 or permission of the Department.

Cours trois heures par semaine.

FREN 3213 [0.5 credit]**Du Baroque aux Lumières**

Étude des 17^e et 18^e siècles : raison et universalisme, encyclopédisme, construction et représentation de l'altérité, colonialisme et esclavagisme. Analyse d'importants développements littéraires : essai et conte philosophiques, théâtre et critique sociale, évolution du discours romanesque. Approches théoriques du texte littéraire.

Prerequisite(s): FREN 2202 and FREN 2203 or permission of the Department.

Cours trois heures par semaine.

FREN 3214 [0.5 credit]**Révolutions, avant-gardes et ruptures : du 19^e siècle aux années 1950**

Étude de quelques grands mouvements ayant rythmé la vie des lettres francophones : romantisme, réalisme, naturalisme, symbolisme, surréalisme, modernisme. La littérature de la décolonisation et l'émergence de la littérature canadienne-française. Analyse des genres et de leur évolution. Approches théoriques du texte littéraire.

Prerequisite(s): FREN 2202 and FREN 2203 or permission of the Department.

Cours trois heures par semaine.

FREN 3215 [0.5 credit]**Les ères du soupçon : contemporanéités de la littérature**

Études des principales orientations définissant les littératures francophones contemporaines depuis la fin de la Seconde Guerre mondiale : littérature engagée, existentialisme, nouveau roman. Littérature du Québec et du Canada français. Littératures postcoloniales, émergentes, transnationales. Approches théoriques du texte littéraire.

Prerequisite(s): FREN 2202 and FREN 2203 or permission of the Department.

Cours trois heures par semaine.

FREN 3216 [0.5 credit]**Problématique littéraire**

Étude approfondie d'une problématique dans le champ des études littéraires. Lectures critiques, réflexion théorique et études d'œuvres littéraires. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Prerequisite(s): FREN 2202 and FREN 2203, or permission of the Department.

Cours trois heures par semaine.

FREN 3217 [0.5 credit]**Œuvre et auteur-e(s)**

Étude approfondie d'un(e) auteur(e) ou groupe d'auteur(e)s et de leur œuvre. Lectures critiques, théoriques et littéraires. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Prerequisite(s): FREN 2202 and FREN 2203, or permission of the Department.

Cours trois heures par semaine.

FREN 3218 [0.5 credit]**Genre et mouvement**

Étude approfondie d'un genre ou mouvement littéraire. Conditions d'émergence (contextes: historique, social, artistique, etc). Textes théoriques et manifestes. Principaux représentants. Influence (continuations, ruptures). Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.
Prerequisite(s): FREN 2202 and FREN 2203, or permission of the Department.
Cours trois heures par semaine.

FREN 3251 [0.5 credit]**Introduction aux méthodes d'analyse littéraire**

Présentation et application de diverses approches théoriques du texte littéraire ou étude approfondie d'une approche théorique particulière (analyses structurales, méthodes d'interprétation, contextualisation sociohistorique, poétique, etc.).
Prerequisite(s): FREN 2202 and FREN 2203, or permission of the Department.
Cours trois heures par semaine.

FREN 3411 [0.5 credit]**Phonétique et phonologie du français**

Étude empirique et théorique des éléments et systèmes phonétiques et phonologiques du français. Processus segmentaux et suprasegmentaux, structures syllabiques et prosodiques. Problèmes classiques de la phonologie française.
Prerequisite(s): FREN 2401 or permission of the Department.
Cours trois heures par semaine.

FREN 3412 [0.5 credit]**Morphologie du français**

Étude de la forme des unités lexicales et grammaticales du français et de leur portée signifiante. Analyse du système flexionnel du français et des mécanismes de formation des mots.
Prerequisite(s): FREN 2401 or permission of the Department.
Cours trois heures par semaine.

FREN 3413 [0.5 credit]**Syntaxe du français**

Études de la structure et des composantes de la phrase: mots et syntagmes. Analyse syntaxique de la phrase simple et complexe. Modèle hiérarchique de l'organisation de la phrase.
Prerequisite(s): FREN 2401 or permission of the Department.
Cours trois heures par semaine.

FREN 3414 [0.5 credit]**Sociolinguistique du français**

Le français, une réalité hétérogène. Approche variationniste, qualitative et quantitative, de l'étude du français dans ses dimensions dialectales, sociales et stylistiques. Variations intra-individuelles et entre individus. Facteurs externes de la variation interne du français. Diversités du français.
Prerequisite(s): FREN 2401 or permission of the Department.
Cours trois heures par semaine.

FREN 3415 [0.5 credit]**Histoire du français**

Évolution interne de l'histoire du français et de ses influences externes. De sa naissance, présumée et réelle, à ses états actuels. Les langues contributrices. Contacts linguistiques. Dynamiques du changement linguistique. Véhicularisation et vernacularisation. Idéologies de la langue française.
Prerequisite(s): FREN 2401 or permission of the Department.
Cours trois heures par semaine.

FREN 3416 [0.5 credit]**Le français dans le monde**

Présentation des variétés de français parlé dans le monde, principalement à l'extérieur du Canada. Étude des aspects historiques et sociopolitiques de la diffusion du français. Analyse des traits linguistiques propres aux variétés. Colonisation, créolisation, emprunt linguistique, variation régionale, aménagement linguistique.
Prerequisite(s): FREN 2401 or permission of the Department.
Cours trois heures par semaine.

FREN 3417 [0.5 credit]**Le français au Canada**

Présentation des variétés de français parlé au Canada. Étude des aspects historiques et sociopolitiques de l'implantation du français en Nouvelle-France. Variétés laurentienne et acadienne. Analyse des traits linguistiques. Enjeux sociolinguistiques. Contact des langues, bilinguisme, minorités linguistiques.
Prerequisite(s): FREN 2401 or permission of the Department.
Cours trois heures par semaine.

FREN 3451 [0.5 credit]**Thème en linguistique**

Étude d'un thème particulier en linguistique française. Le contenu varie selon l'année. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.
Prerequisite(s): FREN 2401 or permission of the Department.
Cours trois heures par semaine.

FREN 3511 [0.5 credit]**Expression écrite et traduction**

Perfectionnement de l'expression écrite au moyen d'un apprentissage appliqué de la traduction. Analyses des principales interférences syntaxiques, sémantiques et discursives entre le français et l'anglais. Approfondissement des pratiques de textualisation: cohérence et cohésion, idiomatisme, registres, paraphrase, considérations stylistiques, etc. Approche privilégiant le texte pragmatique.
Prerequisite(s): one FREN course at the 2000-level, or permission of the Department.
Cours trois heures par semaine.

FREN 3701 [0.5 credit]**Français oral**

Techniques avancées d'expression orale. This course is not suitable for francophones.
Prerequisite(s): one FREN course at the 2000 level, or permission of the Department.
Cours trois heures par semaine.

FREN 3702 [0.5 credit]**Français écrit**

Techniques avancées d'expression écrite.
Prerequisite(s): one FREN course at the 2000-level, or permission of the Department.
Cours trois heures par semaine.

FREN 3900 [0.5 credit]**Apprentissage et enseignement du français langue seconde**

Initiation aux études des programmes au Canada et ailleurs. Processus d'acquisition des habiletés d'expression et de compréhension. Survol des théories passées et actuelles. Appréciation et critique de pratiques pédagogiques.
Prerequisite(s): one FREN course at the 2000-level, or permission of the Department.
Cours trois heures par semaine.

FREN 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

FREN 4060 [0.5 credit]**Projet de recherche supervisé**

Développement d'un projet individuel supervisé en littérature ou en linguistique, amorcé dans un cours antérieur. Raffinement de l'expression et des idées. Présentation publique des résultats.
Prerequisite(s): fourth-year standing in the BA Honours in French.
Unscheduled

FREN 4212 [0.5 credit]**Littératures francophones**

Analyse de problématiques liées à la francophonie littéraire. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.
Prerequisite(s): FREN 2202, FREN 2203 and FREN 3050, or permission of the Department.
Also offered at the graduate level, with different requirements, as FREN 5212, for which additional credit is precluded.
Cours trois heures par semaine.

FREN 4213 [0.5 credit]**Littérature québécoise et canadienne d'expression française**

Étude approfondie portant sur un ou plusieurs aspects des littératures d'expression française au Canada. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.
Prerequisite(s): FREN 2202, FREN 2203 and FREN 3050, or permission of the Department.
Also offered at the graduate level, with different requirements, as FREN 5213, for which additional credit is precluded.
Cours trois heures par semaine.

FREN 4214 [0.5 credit]**Genre et mouvement**

Étude approfondie d'un thème, d'un mouvement, d'un genre dans le champ littéraire. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.
Prerequisite(s): FREN 2202, FREN 2203 and FREN 3050, or permission of the Department.
Also offered at the graduate level, with different requirements, as FREN 5214, for which additional credit is precluded.
Cours trois heures par semaine.

FREN 4215 [0.5 credit]**Problématiques contemporaines**

Étude de questions contemporaines dans le domaine littéraire. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.
Prerequisite(s): FREN 2202, FREN 2203 and FREN 3050, or permission of the Department.
Also offered at the graduate level, with different requirements, as FREN 5215, for which additional credit is precluded.
Cours trois heures par semaine.

FREN 4300 [0.5 credit]**Experiential learning in French and Francophone studies**

Topics in French language, literature or linguistics. Application of language skills in a francophone context. Topic and location may vary; consult Departmental website.

Includes: Experiential Learning Activity
Also offered at the graduate level, with different requirements, as FREN 5501, for which additional credit is precluded.

FREN 4412 [0.5 credit]**Diversité du français**

Études des variétés du français, dans ses dimensions spatiales. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Also listed as LING 4412.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5412 and LING 5412, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4413 [0.5 credit]**Diachronie du français**

Étude du français, dans ses dimensions historiques. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Also listed as LING 4413.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5413 and LING 5413, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4414 [0.5 credit]**Analyse du français**

Étude du français, dans ses dimensions morphologiques, syntaxiques ou phonologiques. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Also listed as LING 4414.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the department.

Also offered at the graduate level, with different requirements, as FREN 5414 and LING 5414, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4415 [0.5 credit]**Variation du français**

Étude des variations internes de la langue, dans ses dimensions orales et écrites. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Also listed as LING 4415.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5415 and LING 5415, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4511 [0.5 credit]**Traduction : méthodologie et pratique**

Initiation à différents principes et approches méthodologiques de la traduction. Analyse de texte appliquée à la traduction, repérage raisonné des difficultés, typologie des fautes de traduction, étude de divers procédés, documentation, terminologie et révision. Approche privilégiant une typologie textuelle variée.

Prerequisite(s): FREN 3511 or permission of the Department.

Cours trois heures par semaine.

FREN 4801 [1.0 credit]**Tutorial A**

Special topics in an aspect of French studies under the supervision of a faculty member.

Prerequisite(s): fourth-year standing or permission of the Department.

Hours to be determined.

FREN 4802 [0.5 credit]**Tutorial B**

Special topics in an aspect of French studies under the supervision of a faculty member.

Prerequisite(s): fourth-year standing or permission of the Department.

Hours to be determined.

FREN 4900 [0.5 credit]**Thème choisi en apprentissage et enseignement du français langue seconde**

Approfondissement de considérations théoriques et pratiques reliées à l'enseignement et l'apprentissage du français comme langue seconde. Analyse de composantes pédagogiques générales et en contexte, applications didactiques. Évaluation, critères et standards. Le contenu précis de ce cours varie selon les années. Consulter le site Web.

Prerequisite(s): fourth-year standing or permission of the Department.

Cours trois heures par semaine.

Geography

This section presents the requirements for programs in:

- Geography B.A. Honours
- Geography with Concentration in Physical Geography B.A. Honours

- Geography with Concentration in Urban Geography B.A. Honours
- Geography B.A. Combined Honours
- Geography B.A.
- Earth Sciences and Geography: Concentration in Terrain Science B.Sc. Combined Honours
- Earth Sciences and Physical Geography B.Sc. Combined Honours
- Physical Geography B.Sc. Honours
- Specialization in Globalization and the Environment B.G.In.S. Honours
- Stream in Globalization and the Environment B.G. In.S.
- Minor in Geography
- Minor in Physical Geography
- Minor in Urban Studies

Program Requirements

Geography

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 1.5 credits in:	1.5
GEOG 1010 [0.5] Global Environmental Systems	
GEOG 1020 [0.5] People, Places and Environments	
GEOM 1004 [0.5] Maps, Satellites and the Geospatial Revolution	
2. 0.5 credit from:	0.5
GEOG 2020 [0.5] Ecosystems of Canada	
GEOG 2013 [0.5] Weather and Water	
GEOG 2014 [0.5] The Earth's Surface	
3. 1.0 credit in:	1.0
GEOG 2005 [0.5] Introduction to Qualitative Research	
GEOG 2006 [0.5] Introduction to Quantitative Research	
4. 1.5 credits from:	1.5
GEOG 2023 [0.5] Cities, Inequality and Urban Change	
GEOG 2200 [0.5] Global Connections	
GEOG 2300 [0.5] Space, Place and Culture	
GEOG 2500 [0.5] Climate Change: Social Science Perspectives	
5. 0.5 credit from:	0.5
GEOG 3000 [0.5] Honours Field Course	
GEOG 3030 [0.5] Regional Field Excursion	
6. 0.5 credit from:	0.5
GEOG 3001 [0.5] Doing Qualitative Research	
GEOG 3003 [0.5] Quantitative Geography	
GEOM 2007 [0.5] Points, Lines and Polygons	
GEOM 3002 [0.5] Introduction to Remote Sensing	
GEOM 3007 [0.5] Cartographic Theory and Design	
7. 1.0 credit from:	1.0
GEOG 3021 [0.5] Geographies of Culture and Identity	
GEOG 3022 [0.5] Environmental and Natural Resources	
GEOG 3023 [0.5] Cities in a Global World	
GEOG 3024 [0.5] Understanding Globalization	
GEOG 3025 [0.5] Geographies of Selected Regions	

GEOG 3026 [0.5] Topics in the Geography of Canada	
GEOG 3206 [0.5] Health, Environment, and Society	
GEOG 3209 [0.5] Sustainability and Environment in the South	

GEOG 3501 [0.5] Geographies of the Canadian North	
---	--

8. 1.0 credit in GEOG and/or GEOM at the 3000- level or above **1.0**

9. 2.5 credits from: **2.5**

a) Thesis pathway:

GEOG 4909 [1.0] plus 1.5 credits from GEOG/GEOM and/or ENST at the 4000-level

b) Course pathway:

2.5 credits from GEOG/GEOM and/or ENST at the 4000-level

B. Credits Not Included in the Major CGPA (10.0 credits)

10. 8.0 credits in electives not in GEOG **8.0**

11. 2.0 credits in free electives **2.0**

Total Credits **20.0**

Geography with Concentration in Physical Geography

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 1.5 credits in:	1.5
GEOG 1010 [0.5] Global Environmental Systems	
GEOG 1020 [0.5] People, Places and Environments	
GEOM 1004 [0.5] Maps, Satellites and the Geospatial Revolution	
2. 2.0 credits in:	2.0
GEOG 2005 [0.5] Introduction to Qualitative Research	
GEOG 2006 [0.5] Introduction to Quantitative Research	
GEOG 2013 [0.5] Weather and Water	
GEOG 2014 [0.5] The Earth's Surface	
3. 1.0 credit from:	1.0
GEOG 2023 [0.5] Cities, Inequality and Urban Change	
GEOG 2200 [0.5] Global Connections	
GEOG 2300 [0.5] Space, Place and Culture	
GEOG 2500 [0.5] Climate Change: Social Science Perspectives	
4. 0.5 credit in:	0.5
GEOG 3000 [0.5] Honours Field Course	
GEOG 3010 [0.5] Field Methods in Physical Geography	
5. 2.0 credits from:	2.0
GEOG 3003 [0.5] Quantitative Geography	
GEOG 3102 [0.5] Geomorphology	
GEOG 3103 [0.5] Watershed Hydrology	
GEOG 3104 [0.5] Principles of Biogeography	
GEOG 3105 [0.5] Climate and Atmospheric Change	
GEOG 3106 [0.5] Aquatic Science and Management	
GEOG 3108 [0.5] Soil Properties	
GEOM 3002 [0.5] Introduction to Remote Sensing	
6. 0.5 credit in:	0.5
a) Co-op students must complete:	

0.5 cr in GEOG or GEOM at 4000-level, excluding GEOG 4406, GEOG 4408, GEOM 4406, GEOM 4408	
b) All other students must complete:	
GEOG 4406 [0.5] Practicum I	
7. 2.5 credits from:	2.5
a) Thesis pathway:	
i. 1.0 credit in:	
GEOG 4909 [1.0] Honours Research Thesis	
ii. 1.5 credits from:	
GEOM 4003 [0.5] Remote Sensing of the Environment	
GEOG 4004 [0.5] Environmental Impact Assessment	
GEOG 4005 [0.5] Directed Studies in Geography	
GEOG 4013 [0.5] Cold Region Hydrology	
GEOG 4017 [0.5] Global Biogeochemical Cycles	
GEOG 4101 [0.5] Two Million Years of Environmental Change	
GEOG 4103 [0.5] Water Resources Engineering	
GEOG 4104 [0.5] Microclimatology	
GEOG 4108 [0.5] Permafrost	
OR	
b) Course pathway:	
2.5 credits from:	
GEOM 4003 [0.5] Remote Sensing of the Environment	
GEOG 4004 [0.5] Environmental Impact Assessment	
GEOG 4005 [0.5] Directed Studies in Geography	
GEOG 4013 [0.5] Cold Region Hydrology	
GEOG 4017 [0.5] Global Biogeochemical Cycles	
GEOG 4101 [0.5] Two Million Years of Environmental Change	
GEOG 4103 [0.5] Water Resources Engineering	
GEOG 4104 [0.5] Microclimatology	
GEOG 4108 [0.5] Permafrost	
GEOG 4408 [0.5] Practicum II	
B. Credits Not Included in the Major CGPA (10.0 credits)	
8. 8.0 credits in electives not in GEOG	8.0
9. 2.0 credits in free electives.	2.0
Total Credits	20.0

Geography with Concentration in Urban Geography

B.A. Honours (20.0 credits)

A. Credits included in the Major CGPA (11.0 credits)

1. 1.0 credit in:	1.0
GEOG 1010 [0.5] Global Environmental Systems	
GEOG 1023 [0.5] Introduction to Cities and Urbanization	
2. 0.5 credit from:	0.5
GEOM 1004 [0.5] Maps, Satellites and the Geospatial Revolution	
GEOG 1020 [0.5] People, Places and Environments	
3. 0.5 credit from:	0.5
GEOG 2013 [0.5] Weather and Water	
GEOG 2014 [0.5] The Earth's Surface	
GEOG 2020 [0.5] Ecosystems of Canada	
4. 1.0 credit in:	1.0

GEOG 2005 [0.5] Introduction to Qualitative Research	
GEOG 2006 [0.5] Introduction to Quantitative Research	
5. 0.5 credit in:	0.5
GEOG 2023 [0.5] Cities, Inequality and Urban Change	
6. 1.0 credit from:	1.0
GEOG 2200 [0.5] Global Connections	
GEOG 2300 [0.5] Space, Place and Culture	
GEOG 2500 [0.5] Climate Change: Social Science Perspectives	
7. 0.5 credit from:	0.5
GEOG 3000 [0.5] Honours Field Course	
GEOG 3030 [0.5] Regional Field Excursion	
8. 0.5 credit from:	0.5
GEOM 2007 [0.5] Points, Lines and Polygons	
GEOG 3001 [0.5] Doing Qualitative Research	
GEOM 3002 [0.5] Introduction to Remote Sensing	
GEOG 3003 [0.5] Quantitative Geography	
GEOM 3007 [0.5] Cartographic Theory and Design	
9. 0.5 credit in:	0.5
GEOG 3023 [0.5] Cities in a Global World	
10. 0.5 credit from:	0.5
GEOG 3021 [0.5] Geographies of Culture and Identity	
GEOG 3022 [0.5] Environmental and Natural Resources	
GEOG 3024 [0.5] Understanding Globalization	
GEOG 3025 [0.5] Geographies of Selected Regions	
GEOG 3026 [0.5] Topics in the Geography of Canada	
GEOG 3206 [0.5] Health, Environment, and Society	
GEOG 3209 [0.5] Sustainability and Environment in the South	
GEOG 3501 [0.5] Geographies of the Canadian North	
11. 1.0 credit in:	1.0
GEOG 4023 [0.5] Seminar in Special Topics on the City	
GEOG 4323 [0.5] Urban and Regional Planning	
12. 0.5 credit from:	0.5
AFRI 3004 [0.5] The African City	
ARCU 3100 [0.5] The Morphology of the City	
HIST 3209 [0.5] Canadian Urban History	
HUMR 3002 [0.5] Right to the City	
13. 0.5 credit from:	0.5
ARCU 4103 [0.5] Cities	
ARCU 4300 [0.5] History of Theories of Urbanism	
ARCU 4600 [0.5] Post-WWII Urbanism	
ARCU 4801 [0.5] Topics in Urbanism	
CDNS 4300 [0.5] Contested Spaces and Communities	
GEOG 4000 [0.5] Field Studies (when offered with an urban theme)	
GEOG 4005 [0.5] Directed Studies in Geography (with urban theme)	
GEOG 4007 [0.5] Special Topics in Geography and Environmental Studies	
INDG 4001 [0.5] Indigeneity in the City	
14. 2.5 credits from:	2.5

a) Thesis pathway:
 GEOG 4909 [1.0] Honours Research Thesis
 1.5 credits in GEOG/GEOM and/or ENST at the 4000 level

b) Course pathway:
 2.5 credits in GEOG/GEOM and/or ENST at the 4000 level

B. Credits Not Included in the Major CGPA (9.0 credits)	
15. 7.5 credits in electives not in GEOG	7.5
16. 1.5 credits in free electives	1.5
Total Credits	20.0

Geography

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Geography Major CGPA (7.0 credits)

1. 1.0 credit in: 1.0
 GEOG 1010 [0.5] Global Environmental Systems
 GEOG 1020 [0.5] People, Places and Environments

2. 0.5 credit from: 0.5
 GEOG 2020 [0.5] Ecosystems of Canada
 GEOG 2013 [0.5] Weather and Water
 GEOG 2014 [0.5] The Earth's Surface

3. 1.0 credit from: 1.0
 GEOG 2023 [0.5] Cities, Inequality and Urban Change
 GEOG 2200 [0.5] Global Connections
 GEOG 2300 [0.5] Space, Place and Culture
 GEOG 2500 [0.5] Climate Change: Social Science Perspectives

4. 1.0 credit from: 1.0
 GEOM 1004 [0.5] Maps, Satellites and the Geospatial Revolution
 GEOG 2005 [0.5] Introduction to Qualitative Research
 GEOG 2006 [0.5] Introduction to Quantitative Research

5. 1.5 credits in GEOG and/or GEOM at the 3000- level or above 1.5

6. 1.0 credit in GEOG and/or GEOM at the 4000- level 1.0

7. 1.0 credit in: 1.0

a) Thesis pathway

GEOG 4909 [1.0] Honours Research Thesis
 OR

b) Course pathway

1.0 credit in GEOG at the 4000-level

B. Additional Requirements (13.0 credits) 13.0

8. The requirements of the other Honours discipline must be satisfied

9. Sufficient free electives to total 20.0 credits for the program.

Total Credits	20.0
----------------------	-------------

Geography

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)

1. 1.0 credit in: 1.0
 GEOG 1010 [0.5] Global Environmental Systems
 GEOG 1020 [0.5] People, Places and Environments

2. 0.5 credit from: 0.5
 GEOG 2020 [0.5] Ecosystems of Canada
 GEOG 2013 [0.5] Weather and Water
 GEOG 2014 [0.5] The Earth's Surface

3. 1.0 credit from: 1.0
 GEOM 1004 [0.5] Maps, Satellites and the Geospatial Revolution

GEOG 2005 [0.5] Introduction to Qualitative Research
 GEOG 2006 [0.5] Introduction to Quantitative Research

4. 1.0 credit from: 1.0

GEOG 2023 [0.5] Cities, Inequality and Urban Change
 GEOG 2200 [0.5] Global Connections
 GEOG 2300 [0.5] Space, Place and Culture
 GEOG 2500 [0.5] Climate Change: Social Science Perspectives

5. 1.0 credit in GEOG and/or GEOM at the 2000- level or above 1.0

6. 2.5 credits in GEOG and/or GEOM at the 3000- level or above 2.5

B. Credits Not Included in the Geography Major CGPA (8.0 credits)

7. 6.0 credits in electives not in GEOG 6.0

8. 2.0 credit in free electives. 2.0

Total Credits	15.0
----------------------	-------------

Course Categories for B.Sc. Geography

Lists of courses for all other categories (Science Continuation, Approved Experimental Science, Science Faculty Electives and Approved Arts or Social Sciences Electives) are located at the Academic Regulations for the B.Sc. page.

Earth Sciences and Geography:

Concentration in Terrain Science

B.Sc. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.5 credits)

1. 0.5 credit in: 0.5
 GEOG 2014 [0.5] The Earth's Surface

2. 0.5 credit in: 0.5
 EARTH 1006 [0.5] Exploring Planet Earth

3. 2.5 credits in: 2.5
 EARTH 2102 [0.5] Mineralogy to Petrology

ERTH 2104 [0.5] Igneous Systems, Geochemistry and Processes

ERTH 2314 [0.5] Sedimentation and Stratigraphy

ERTH 2406 [0.5] Geology and Map Interpretation

ERTH 2802 [0.5] Field Geology I

4. 0.5 credit from: 0.5

ERTH 3203 [0.5] Sedimentology

ERTH 3206 [0.5] Sedimentary Depositional Systems (See Note, below)

5. 1.5 credits in: 1.5

ERTH 3205 [0.5] Physical Hydrogeology

ERTH 3207 [0.5] Metamorphic Petrology and Processes

ERTH 3806 [0.5] Structural Geology

6. 1.0 credit in EARTH at the 4000-level	1.0
7. 0.5 credit from:	0.5
GEOG 2006 [0.5] Introduction to Quantitative Research	
STAT 2507 [0.5] Introduction to Statistical Modeling I	
8. 1.5 credits in:	1.5
GEOM 1004 [0.5] Maps, Satellites and the Geospatial Revolution	
GEOM 2007 [0.5] Points, Lines and Polygons	
GEOG 2013 [0.5] Weather and Water	
9. 2.0 credits in:	2.0
GEOM 3002 [0.5] Introduction to Remote Sensing	
GEOG 3102 [0.5] Geomorphology	
GEOG 3105 [0.5] Climate and Atmospheric Change	
GEOG 3108 [0.5] Soil Properties	
10. 1.0 credit in:	1.0
GEOG 4101 [0.5] Two Million Years of Environmental Change	
GEOG 4108 [0.5] Permafrost	
11. 1.0 credit from:	1.0
GEOG 4906 [1.0] Honours Research Project	
ERTH 4908 [1.0] Honours Thesis	
ERTH 4909 and 0.5 credit 4000-level EARTH	
B. Credits Not Included in the Major CGPA (7.5 credits)	
12. 1.0 credit in:	1.0
MATH 1007 [0.5] Elementary Calculus I	
MATH 1107 [0.5] Linear Algebra I	
13. 1.0 credit from:	1.0
CHEM 1001 [0.5] General Chemistry I & CHEM 1002 [0.5] General Chemistry II	
CHEM 1005 [0.5] Elementary Chemistry I & CHEM 1006 [0.5] Elementary Chemistry II	
14. 1.0 credit from:	1.0
PHYS 1003 [0.5] Introductory Mechanics and & PHYS 1004 [0.5] Thermodynamics	
PHYS 1007 [0.5] Elementary University Physics I & PHYS 1008 [0.5] Elementary University Physics II	
15. 0.5 credit in:	0.5
COMP 1005 [0.5] Introduction to Computer Science I	
16. 0.5 credit in:	0.5
BIOL 1104 [0.5] Foundations of Biology II	
17. 0.5 credit in Advanced Science Faculty electives	0.5
18. 0.5 credit in:	0.5
NSCI 1000 [0.5] Seminar in Science (or approved course outside the faculties of Science and Engineering and Design)	
19. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design	1.5
20. 1.0 credit in free electives.	1.0
Total Credits	20.0

Note: for **Item 4** above, EARTH 3203 is required if prerequisite conditions are met.

Earth Sciences and Physical Geography B.Sc. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (13.0 credits)

1. 1.0 credit in:	1.0
ERTH 1006 [0.5] Exploring Planet Earth	
GEOG 1010 [0.5] Global Environmental Systems	
2. 1.0 credit in:	1.0
GEOG 2013 [0.5] Weather and Water	
GEOG 2014 [0.5] The Earth's Surface	
3. 2.0 credits in:	2.0
ERTH 2102 [0.5] Mineralogy to Petrology	
ERTH 2104 [0.5] Igneous Systems, Geochemistry and Processes	
ERTH 2314 [0.5] Sedimentation and Stratigraphy	
ERTH 2406 [0.5] Geology and Map Interpretation	
4. 0.5 credit in:	0.5
ERTH 2802 [0.5] Field Geology I	
5. 1.5 credits in:	1.5
ERTH 3003 [0.5] Geochemistry and Geochronology	
ERTH 3405 [0.5] Geophysical Methods	
ERTH 3806 [0.5] Structural Geology	
6. 0.5 credit from:	0.5
ERTH 3205 [0.5] Physical Hydrogeology	
GEOG 3103 [0.5] Watershed Hydrology	
7. 1.0 credit in:	1.0
ERTH 2004 [0.5] Maps, Satellites and the Geospatial Revolution	
GEOM 3002 [0.5] Introduction to Remote Sensing	
8. 2.0 credits from:	2.0
GEOG 3003 [0.5] Quantitative Geography	
GEOG 3010 [0.5] Field Methods in Physical Geography	
GEOG 3102 [0.5] Geomorphology	
GEOG 3104 [0.5] Principles of Biogeography	
GEOG 3105 [0.5] Climate and Atmospheric Change	
GEOG 3106 [0.5] Aquatic Science and Management	
GEOG 3108 [0.5] Soil Properties	
9. 0.5 credit from:	0.5
ERTH 3203 [0.5] Sedimentology	
ERTH 3206 [0.5] Sedimentary Depositional Systems	
10. 1.0 credit in Science Geography or Geomatics courses at the 2000-level or above	1.0
11. 1.0 credit in Earth Sciences, Science Geography or Geomatics courses at the 4000-level	1.0
12. 1.0 credit from:	1.0
ERTH 4908 [1.0] Honours Thesis	
OR	
ERTH 4909 [0.5] Research in Earth Sciences and 0.5 credit in EARTH, GEOG or GEOM at the 4000-level	
OR	
GEOG 4005 [0.5] Directed Studies in Geography and 0.5 credit in EARTH, GEOG or GEOM at the 4000-level	
OR	
GEOG 4906 [1.0] Honours Research Project	
B. Credits Not Included in the Major CGPA (7.0 credits)	

13. 1.0 credit in:	1.0
MATH 1007 [0.5] Elementary Calculus I	
MATH 1107 [0.5] Linear Algebra I	
14. 1.0 credit from:	1.0
CHEM 1001 [0.5] General Chemistry I & CHEM 1002 [0.5] General Chemistry II	
CHEM 1005 [0.5] Elementary Chemistry I & CHEM 1006 [0.5] Elementary Chemistry II	
15. 1.0 credit in:	1.0
PHYS 1007 [0.5] Elementary University Physics I & PHYS 1008 [0.5] Elementary University Physics II	
16. 0.5 credit from:	0.5
GEOG 2006 [0.5] Introduction to Quantitative Research	
STAT 2507 [0.5] Introduction to Statistical Modeling I	
17. 0.5 credit in:	0.5
COMP 1005 [0.5] Introduction to Computer Science I	
18. 0.5 credit in approved electives (see list below)	0.5
19. 0.5 credit in:	0.5
NSCI 1000 [0.5] Seminar in Science (or approved course outside of the faculties of Science and Engineering and Design)	
20. 1.5 credits in approved courses outside of the faculties of Science and Engineering and Design	1.5
21. 0.5 credit in free elective	0.5
Total Credits	20.0

Approved Electives - B.Sc. Earth Sciences and Physical Geography

Biology

BIOL 1103 [0.5] Foundations of Biology I	
BIOL 1104 [0.5] Foundations of Biology II	

Computer Science

Physical Geography

B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 1.0 credit from:	1.0
GEOG 1010 [0.5] Global Environmental Systems or EARTH 1006 [0.5] Exploring Planet Earth	
and	

GEOG 1004 [0.5] Maps, Satellites and the Geospatial Revolution

2. 1.0 credit in:	1.0
GEOG 2013 [0.5] Weather and Water	
GEOG 2014 [0.5] The Earth's Surface	
3. 0.5 credit from:	0.5
GEOG 2006 [0.5] Introduction to Quantitative Research	
STAT 2507 [0.5] Introduction to Statistical Modeling I	
4. 0.5 credit from:	0.5
GEOG 3000 [0.5] Honours Field Course	
GEOG 3010 [0.5] Field Methods in Physical Geography	
5. 2.5 credits from:	2.5
GEOG 3003 [0.5] Quantitative Geography	
GEOG 3102 [0.5] Geomorphology	
GEOG 3103 [0.5] Watershed Hydrology	
GEOG 3104 [0.5] Principles of Biogeography	
GEOG 3105 [0.5] Climate and Atmospheric Change	
GEOG 3106 [0.5] Aquatic Science and Management	
GEOG 3108 [0.5] Soil Properties	
GEOG 3002 [0.5] Introduction to Remote Sensing	
6. 1.5 credits from:	1.5
GEOG 3000 [0.5] Honours Field Course	
GEOG 3003 [0.5] Quantitative Geography	
GEOG 3010 [0.5] Field Methods in Physical Geography	
GEOG 3102 [0.5] Geomorphology	
GEOG 3103 [0.5] Watershed Hydrology	
GEOG 3104 [0.5] Principles of Biogeography	
GEOG 3105 [0.5] Climate and Atmospheric Change	
GEOG 3108 [0.5] Soil Properties	
GEOG 4000 [0.5] Field Studies	
GEOG 4005 [0.5] Directed Studies in Geography	
GEOG 4013 [0.5] Cold Region Hydrology	
GEOG 4017 [0.5] Global Biogeochemical Cycles	
GEOG 4101 [0.5] Two Million Years of Environmental Change	
GEOG 4103 [0.5] Water Resources Engineering	
GEOG 4104 [0.5] Microclimatology	
GEOG 4108 [0.5] Permafrost	
7. 2.0 credits from:	2.0
GEOG at the 4000 level or	
GEOG 4000 [0.5] Field Studies	
GEOG 4004 [0.5] Environmental Impact Assessment	
GEOG 4005 [0.5] Directed Studies in Geography	
GEOG 4013 [0.5] Cold Region Hydrology	
GEOG 4017 [0.5] Global Biogeochemical Cycles	
GEOG 4101 [0.5] Two Million Years of Environmental Change	
GEOG 4103 [0.5] Water Resources Engineering	
GEOG 4104 [0.5] Microclimatology	
GEOG 4108 [0.5] Permafrost	
GEOG 4406 [0.5] Practicum I	
GEOG 4408 [0.5] Practicum II	
8. 1.0 credit in:	1.0
GEOG 4906 [1.0] Honours Research Project	

B. Credits Not Included in the Major CGPA (10.0 credits)

9. 1.0 credit in Experimental Science Electives	1.0
10. 0.5 credit in:	0.5
MATH 1007 [0.5] Elementary Calculus I	
11. 0.5 credit in MATH or COMP	0.5
12. 2.0 credits in Science Continuation, not in GEOG	2.0
13. 1.0 credits in Science Faculty Electives	1.0
14. 0.5 credit from:	0.5
NSCI 1000 [0.5] Seminar in Science (or approved courses outside the faculties of Science and Engineering and Design)	
15. 1.0 credit in approved courses outside the faculties of Science and Engineering and Design, not in GEOG	1.0
16. 0.5 credit in approved courses outside the faculties of Science and Engineering and Design	0.5
17. 3.0 credits in free electives.	3.0
Total Credits	20.0

Specialization in Globalization and the Environment**B.G.In.S. Honours (20.0 credits)****A. Credits Included in the Major CGPA (12.0 credits)**

1. 4.5 credits in:	4.5
GINS 1000 [0.5] Global History	
GINS 1010 [0.5] International Law and Politics	
GINS 1020 [0.5] Ethnography, Globalization and Culture	
GINS 2000 [0.5] Ethics and Globalization	
GINS 2010 [0.5] Globalization and International Economic Issues	
GINS 2020 [0.5] Global Literatures	
GINS 3010 [0.5] Global and International Theory	
GINS 3020 [0.5] Places, Boundaries, Movements and Global Environmental Change	
GINS 4090 [0.5] Honours Seminar in Global and International Studies	
2. 0.0 credit in: International Experience Requirement Preparation	
GINS 1300 [0.0] International Experience Requirement Preparation	
3. 7.5 credits in: the Specialization	
a. 1.5 credits in: Foundations	1.5
GEOG 1010 [0.5] Global Environmental Systems	
GEOG 1020/ENST 200 [0.5] People, Places and Environments	
GEOG 2200 [0.5] Global Connections	
b. 1.5 credits from: Globalization	1.5
GEOG 2023 [0.5] Cities, Inequality and Urban Change	
GEOG 2300 [0.5] Space, Place and Culture	
GEOG 3023 [0.5] Cities in a Global World	
GEOG 3024 [0.5] Understanding Globalization	
GEOG 3025 [0.5] Geographies of Selected Regions	
GEOG 3030 [0.5] Regional Field Excursion	
GEOG 3404 [0.5] Geographies of Economic Development	
c. 2.0 credits from: Global Environment	2.0
ANTH 3355 [0.5] Anthropology and the Environment	

GEOG 2500/ENST 2500 [0.5] Change: Social Science Perspectives	
GEOG 3022/ENST 3022 [0.5] Environmental and Natural Resources	
GEOG 3206 [0.5] Health, Environment, and Society	
GEOG 3209 [0.5] Sustainability and Environment in the South	
HUMR 3503 [0.5] Global Environmental Justice	
PSCI 3801 [0.5] Environmental Politics	
TSES 3002 [0.5] Energy and Sustainability	
d. 1.0 credit in: Research Methodologies	1.0
GEOG 2005/ENST 2005 [0.5] Introduction to Qualitative Research	
GEOG 2006/ENST 2006 [0.5] Introduction to Quantitative Research	
e. 1.5 credits from: Honours Seminars	1.5
GEOG 4005/ENST 4005 [0.5] Directed Studies in Geography (topic in Global Environmental Issues)	
GEOG 4022 [0.5] Seminar in People, Resources and Environmental Change	
GEOG 4023 [0.5] Seminar in Special Topics on the City	
GEOG 4024 [0.5] Seminar in Globalization	
GEOG 4909 [1.0] Honours Research Thesis (topic in Globalization and the Environment)	
PSCI 4808 [0.5] Global Environmental Politics	
B. Credits Not Included in the Major CGPA (8.0 credits)	
4. 8.0 credits in: free electives	8.0
C. Additional Requirements	
5. The International Experience requirement must be met.	
6. The Language requirement must be met.	
Total Credits	20.0

Stream in Globalization and the Environment**B.G. In.S. (15.0 credits)****A. Credits Included in the Major CGPA (8.0 credits)**

1. 4.0 credits in: Core Courses	4.0
GINS 1000 [0.5] Global History	
GINS 1010 [0.5] International Law and Politics	
GINS 1020 [0.5] Ethnography, Globalization and Culture	
GINS 2000 [0.5] Ethics and Globalization	
GINS 2010 [0.5] Globalization and International Economic Issues	
GINS 2020 [0.5] Global Literatures	
GINS 3010 [0.5] Global and International Theory	
GINS 3020 [0.5] Places, Boundaries, Movements and Global Environmental Change	
2. 4.0 credits from: the Stream	4.0
a. Foundations	
GEOG 1010 [0.5] Global Environmental Systems	
GEOG 1020/ENST 200 [0.5] People, Places and Environments	
GEOG 2200 [0.5] Global Connections	
b. Globalization	
GEOG 2023 [0.5] Cities, Inequality and Urban Change	
GEOG 2300 [0.5] Space, Place and Culture	
GEOG 3023 [0.5] Cities in a Global World	

GEOG 3024 [0.5]	Understanding Globalization
GEOG 3025 [0.5]	Geographies of Selected Regions
GEOG 3404 [0.5]	Geographies of Economic Development

c. Global Environment

ANTH 3355 [0.5]	Anthropology and the Environment
GEOG 2500/ENST 2500 [0.5]	Climate Change: Social Science Perspectives
GEOG 3022/ENST 3022 [0.5]	Environmental and Natural Resources
GEOG 3206 [0.5]	Health, Environment, and Society
GEOG 3209 [0.5]	Sustainability and Environment in the South
HUMR 3503 [0.5]	Global Environmental Justice
PSCI 3801 [0.5]	Environmental Politics
TSES 3002 [0.5]	Energy and Sustainability

d. Research Methodologies

GEOG 2005/ENST 2005 [0.5]	Introduction to Qualitative Research
GEOG 2006/ENST 2006 [0.5]	Introduction to Quantitative Research

B. Credits Not Included in the Major CGPA (7.0 credits):

3. 7.0 credits in:	Free Electives	7.0
---------------------------	----------------	-----

C. Additional Requirements

4. The Language requirement must be met.	
--	--

Total Credits	15.0
----------------------	-------------

Minor in Geography (4.0 credits)

Open to all undergraduate degree students not in Geography programs or the B.G.In.S. Specialization or Stream in Globalization and the Environment.

Requirements:

1. 1.0 credit in:		1.0
GEOG 1010 [0.5]	Global Environmental Systems	
GEOG 1020 [0.5]	People, Places and Environments	
2. 0.5 credit from:		0.5
GEOG 2013 [0.5]	Weather and Water	
GEOG 2014 [0.5]	The Earth's Surface	
GEOG 2020 [0.5]	Ecosystems of Canada	
3. 0.5 credit from:		0.5
GEOG 2005 [0.5]	Introduction to Qualitative Research	
GEOG 2006 [0.5]	Introduction to Quantitative Research	
GEOM 1004 [0.5]	Maps, Satellites and the Geospatial Revolution	
4. 0.5 credit from:		0.5
GEOG 2023 [0.5]	Cities, Inequality and Urban Change	
GEOG 2200 [0.5]	Global Connections	
GEOG 2300 [0.5]	Space, Place and Culture	
GEOG 2500 [0.5]	Climate Change: Social Science Perspectives	
5. 1.0 credit in	GEOG and/or GEOM at the 3000- level or above	1.0
6. 0.5 credit in	GEOG or GEOM	0.5

7. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits	4.0
----------------------	------------

Minor in Physical Geography (4.0 credits)

Open to all undergraduate degree students not in Geography programs.

Requirements:

1. 0.5 credit from:		0.5
GEOG 1010 [0.5]	Global Environmental Systems	
ERTH 1006 [0.5]	Exploring Planet Earth	
2. 1.0 credit in:		1.0
GEOG 2013 [0.5]	Weather and Water	
GEOG 2014 [0.5]	The Earth's Surface	
3. 2.5 credits from:		2.5
GEOM 3002 [0.5]	Introduction to Remote Sensing	
GEOG 3003 [0.5]	Quantitative Geography	
GEOG 3102 [0.5]	Geomorphology	
GEOG 3103 [0.5]	Watershed Hydrology	
GEOG 3104 [0.5]	Principles of Biogeography	
GEOG 3105 [0.5]	Climate and Atmospheric Change	
GEOG 3106 [0.5]	Aquatic Science and Management	
GEOG 3108 [0.5]	Soil Properties	
GEOG 4013 [0.5]	Cold Region Hydrology	
GEOG 4017 [0.5]	Global Biogeochemical Cycles	
GEOG 4101 [0.5]	Two Million Years of Environmental Change	
GEOG 4104 [0.5]	Microclimatology	
GEOG 4108 [0.5]	Permafrost	

4. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits	4.0
----------------------	------------

Minor in Urban Studies (4.0 credits)

Only students pursuing an undergraduate program (except the BA Honours in Geography with a Concentration in Urban Geography) requiring at least 20.0 credits to graduate may be admitted to the Urban Studies minor.

Requirements:

1. 1.0 credit from:		1.0
FYSM 1107 [1.0]	Social Justice and the City	
GEOG 1020 [0.5]	People, Places and Environments	
GEOG 1023 [0.5]	Introduction to Cities and Urbanization	
GEOM 1004 [0.5]	Maps, Satellites and the Geospatial Revolution	
2. 1.0 credit from:		1.0
GEOG 2023 [0.5]	Cities, Inequality and Urban Change	
GEOG 2200 [0.5]	Global Connections	
GEOM 2007 [0.5]	Points, Lines and Polygons	
3. 0.5 credit in:		0.5
GEOG 3023 [0.5]	Cities in a Global World	
4. 0.5 credit from:		0.5
AFRI 3004 [0.5]	The African City	
ARCU 3100 [0.5]	The Morphology of the City	
HIST 3209 [0.5]	Canadian Urban History	
HUMR 3002 [0.5]	Right to the City	

5. 0.5 credit from:	0.5
GEOG 4023 [0.5]	Seminar in Special Topics on the City
GEOG 4323 [0.5]	Urban and Regional Planning
6. 0.5 credit from:	0.5
ARCU 4103 [0.5]	Cities
ARCU 4300 [0.5]	History of Theories of Urbanism
ARCU 4600 [0.5]	Post-WWII Urbanism
ARCU 4801 [0.5]	Topics in Urbanism
CDNS 4300 [0.5]	Contested Spaces and Communities
GEOG 4000 [0.5]	Field Studies (when offered with an urban theme)
GEOG 4005 [0.5]	Directed Studies in Geography (with urban theme)
GEOG 4007 [0.5]	Special Topics in Geography and Environmental Studies
INDG 4001 [0.5]	Indigeneity in the City
7. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in Good Standing.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

1. 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in science continuation courses in each of the two majors**
2. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

1. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for fewer than 10.0 credits.
2. 1.0 credit in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for 10.0 or more credits.

Declared and Undeclared Students

Students who are registered in a program within the degree are called Declared students. Most students designate a program of study when they first apply for admission and so begin their studies as Declared students. Students may also choose to begin their studies within the B.Sc. degree without being registered in a program. These students are referred to as Undeclared students. The recommended course pattern for Undeclared students is provided in the Undeclared entry of the Programs section of this Calendar. Undeclared students normally must apply to enter a program before beginning their second year of study. The Science Student

Success Centre (SSSC) provides Undeclared students guidance to the appropriate support services in making this decision.

Change of Program within the B.Sc. Degree

Students may transfer to a program within the B.Sc. degree if upon entry to the new program they would be in good academic standing.

Other applications for change of program will be considered on their merits; students may be accepted in the new program in *Good Standing* or on *Academic Warning*.

Applications to declare or change their program within the B.Sc. Degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program or into a program element or option is subject to any enrolment, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may add a minor, concentration or specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a minor, concentration or specialization requires that the student be in *Good Standing* and is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of experimental science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry

BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering

Biology

BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology

Chemistry

CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I

CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2800 [0.5]	Foundations for Environmental Chemistry

Earth Sciences

ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time
ERTH 2102 [0.5]	Mineralogy to Petrology
ERTH 2404 [0.5]	Engineering Geoscience
ERTH 2802 [0.5]	Field Geology I
ERTH 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds
ERTH 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians
ERTH 3204 [0.5]	Mineral Deposits
ERTH 3205 [0.5]	Physical Hydrogeology
ERTH 3806 [0.5]	Structural Geology

Food Sciences

FOOD 3001 [0.5]	Food Chemistry
FOOD 3002 [0.5]	Food Analysis
FOOD 3005 [0.5]	Food Microbiology

Geography

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 3108 [0.5]	Soil Properties

Neuroscience

NEUR 3206 [0.5]	Sensory and Motor Neuroscience
NEUR 3207 [0.5]	Systems Neuroscience
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy

Physics

PHYS 1001 [0.5]	Foundations of Physics I
PHYS 1002 [0.5]	Foundations of Physics II
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I
PHYS 1008 [0.5]	Elementary University Physics II
PHYS 2202 [0.5]	Wave Motion and Optics
PHYS 2604 [0.5]	Modern Physics I
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars
PHYS 3606 [0.5]	Modern Physics II
PHYS 3608 [0.5]	Modern Applied Physics

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 2006 [0.5]	Introduction to Quantitative Research
GEOG 2013 [0.5]	Weather and Water
GEOG 2014 [0.5]	The Earth's Surface
GEOG 3003 [0.5]	Quantitative Geography
GEOG 3010 [0.5]	Field Methods in Physical Geography
GEOG 3102 [0.5]	Geomorphology
GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3104 [0.5]	Principles of Biogeography
GEOG 3105 [0.5]	Climate and Atmospheric Change

GEOG 3106 [0.5]	Aquatic Science and Management
GEOG 3108 [0.5]	Soil Properties
GEOG 4000 [0.5]	Field Studies
GEOG 4005 [0.5]	Directed Studies in Geography
GEOG 4013 [0.5]	Cold Region Hydrology
GEOG 4017 [0.5]	Global Biogeochemical Cycles
GEOG 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103 [0.5]	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Science Psychology Courses

PSYC 2001 [0.5]	Introduction to Research Methods in Psychology
PSYC 2002 [0.5]	Introduction to Statistics in Psychology
PSYC 2700 [0.5]	Introduction to Cognitive Psychology
PSYC 3000 [1.0]	Design and Analysis in Psychological Research
PSYC 3506 [0.5]	Cognitive Development
PSYC 3700 [1.0]	Cognition (Honours Seminar)
PSYC 3702 [0.5]	Perception
PSYC 2307 [0.5]	Human Neuropsychology I
PSYC 3307 [0.5]	Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

BIOC (Biochemistry)

BIOL (Biology)

CHEM (Chemistry)

COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except EARTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use EARTH 2401, EARTH 2402, and EARTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except EARTH 1010, EARTH 1011 and EARTH 2415. Earth Sciences students may use EARTH 2401, EARTH 2402, and EARTH 2403 only as free electives.

Engineering

ENSC 2001

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Science)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)

Science Psychology (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) Biology students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5]	Education Research in Biology
CHEM 1003 [0.5]	The Chemistry of Food, Health and Drugs
CHEM 1004 [0.5]	Drugs and the Human Body

CHEM 1007 [0.5]	Chemistry of Art and Artifacts
ERTH 1010 [0.5]	Our Dynamic Planet Earth
ERTH 1011 [0.5]	Evolution of the Earth
ERTH 2415 [0.5]	Natural Disasters
ISCI 1001 [0.5]	Introduction to the Environment
ISCI 2000 [0.5]	Natural Laws
ISCI 2002 [0.5]	Human Impacts on the Environment
MATH 0107 [0.5]	Algebra and Geometry
PHYS 1901 [0.5]	Planetary Astronomy
PHYS 1902 [0.5]	From our Star to the Cosmos
PHYS 1905 [0.5]	Physics Behind Everyday Life
PHYS 2903 [0.5]	Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5]	Introduction to Computational Thinking for Arts and Social Science Students
MATH 0005 [0.5]	Precalculus: Functions and Graphs
MATH 0006 [0.5]	Precalculus: Trigonometric Functions and Complex Numbers
MATH 1009 [0.5]	Mathematics for Business
MATH 1119 [0.5]	Linear Algebra: with Applications to Business
MATH 1401 [0.5]	Elementary Mathematics for Economics I
MATH 1402 [0.5]	Elementary Mathematics for Economics II

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for

each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.A. Honours Geography, Geography with Concentration in Physical Geography, B.Sc. Honours Physical Geography: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered in B.A. Honours Geography, Geography with a Concentration in Physical Geography, Geography with a Concentration in Urban Geography, or B.Sc. Honours Physical Geography;
2. Obtained and maintained an overall minimum CGPA of 9.5 and a minimum major CGPA of 9.5;
3. Have obtained third-year standing;
4. Successfully completed, by the start date of the first work term:
 - a. the required second-year methods courses in their program (GEOG 2005, GEOG 2006)
 - b. the required field course in their program (GEOG 3000, GEOG 3010, GEOG 3030)
5. Be registered as a full-time student.

B.A. Honours Geography, Geography with a Concentration in Physical Geography, Geography with a Concentration in Urban Geography, B.Sc. Honours Physical Geography students must successfully complete three (3) work terms to obtain the Co-op designation.

Co-op work term course: GEOG 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	S/W	Fall	O
Winter	S	Winter	S	Winter	S	Winter	S/W	Winter	S
Summer		Summer		Summer	W	Summer	S/W		

Legend

- S:** Study
W: Work
O: Optional

- * indicates recommended work study pattern
- ** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section “English Language Requirements” in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System.

Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions and two of Biology, Chemistry, Earth and Space Sciences or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For the Combined Honours program in Chemistry and Computer Science, 4U Chemistry and Calculus and Vectors are strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

For entry to an Honours program after the completion of 5.0 included credits, a student must have a major CGPA of 5.50 or higher, an overall CGPA of 4.50 or higher and the recommendation of the Honours department or committee. A student beginning the final 10.0 credits towards an Honours degree must present a major CGPA of 6.00 or higher, an overall CGPA of 5.00 or higher and the recommendation of the Honours department or committee. A student beginning the final 5.0 credits towards an Honours degree must present a major CGPA of 6.50 or higher and an overall CGPA of 5.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

B.Sc. Major Program

B.Sc. Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics. 4U Physics is strongly recommended. Equivalent courses may be substituted between the old and new Ontario mathematics curriculum.

Advanced Standing

For entry to a B.Sc. or B.Sc. Major program after the completion of 5.0 included credits, a student must have a major and core CGPA of 3.50 or higher and an overall CGPA of 3.50 or higher. A student beginning the final 5.0 credits towards a B.Sc. or B.Sc. Major degree must present a major and core CGPA of 4.00 or higher and an overall CGPA of 4.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are

described in the Co-operative Education Regulations section of this Calendar.

Geography (GEOG) Courses

4000-level courses are normally restricted to students with fourth-year Honours standing. However, students with third-year standing may take 4000-level courses provided they have the necessary prerequisites, a Geography CGPA of 6.50 or better, and permission of the Department.

GEOG 1010 [0.5 credit]

Global Environmental Systems

Principles, processes and interactions in the Earth's environment emphasizing the flow of energy and matter within global systems. Atmospheric and oceanic processes, earth surface processes and biogeochemical cycling. Case studies on the interaction between human activity and the natural environment.

Includes: Experiential Learning Activity

Lectures three hours a week, laboratory two hours a week.

GEOG 1020 [0.5 credit]

People, Places and Environments

Introduction to human geography. Examination of relationships between people, communities, society and the natural environment at local to global scales. Population change, cultural patterns, and historical, economic, political and environmental forces that shape human activity and experiences from place to place.

Includes: Experiential Learning Activity

Also listed as ENST 1020.

Lectures two hours a week and tutorial one hour a week.

GEOG 1023 [0.5 credit]

Introduction to Cities and Urbanization

Introduction to the study of cities, urbanization and suburbanization. Geography of urban experience, development and change across an urbanizing planet. Urbanization processes, patterns and issues in different cities and regions; the relationships among urban areas.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 2400 (no longer offered).

Lectures two hours per week and tutorials one hour per week.

GEOG 2005 [0.5 credit]

Introduction to Qualitative Research

Introduction to the research process, from generating questions to reporting results. Topics include intensive and extensive research approaches; the use of surveys, interviews and other data collection methods; the analysis of qualitative information; and the ethical dimensions of doing research with people and communities.

Includes: Experiential Learning Activity

Also listed as ENST 2005.

Prerequisite(s): 1.0 credit in GEOG or ENST at the 1000-level and second-year standing, or permission of the Department.

Lectures two hours a week, workshop two hours a week.

GEOG 2006 [0.5 credit]**Introduction to Quantitative Research**

Introduction to solving problems using descriptive and inferential statistical methods. Graphical and numerical tools to describe distributions. Probability, sampling and estimates, and hypothesis testing. Fundamentals of spatial statistics and analysis.

Includes: Experiential Learning Activity

Also listed as ENST 2006.

Precludes additional credit for BIT 2000, BIT 2009, BIT 2100 (no longer offered), BIT 2300 (no longer offered), NEUR 2002, PSCI 2702, STAT 2507, STAT 2606.

Lectures two hours a week, laboratory two hours a week.

GEOG 2013 [0.5 credit]**Weather and Water**

Introduction to climate, weather and the hydrological cycle. Physical properties of the atmosphere, radiation and energy balances, global circulation, atmospheric moisture and precipitation, weather systems and forecasting, mechanisms of climate change.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 1010 or EARTH 1006 or ISCI 1001.

Lectures three hours a week, laboratory three hours a week.

GEOG 2014 [0.5 credit]**The Earth's Surface**

Introduction to geomorphology. Weathering, slope and fluvial processes within drainage basins, and glacial and periglacial processes.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 1010 or EARTH 1006 or ISCI 1001.

Lectures three hours a week, laboratory three hours a week.

GEOG 2020 [0.5 credit]**Ecosystems of Canada**

Introduction to world biomes and in-depth analysis of the distribution and development of Canada's major ecosystems including the boreal forest, temperate forest, tundra, grasslands, wetlands, and aquatic environments; Current issues in ecosystem science and conservation such as agricultural management, forestry and urban ecology.

Prerequisite(s): GEOG 1010 or EARTH 1006 or EARTH 1010 or ISCI 1001.

Lectures three hours a week.

GEOG 2023 [0.5 credit]**Cities, Inequality and Urban Change**

Geographical perspectives on the uneven power relationships and politics that shape urban lives and urban space. Key topics may include housing and segregation, planning for sustainable cities, urban social movements, urban inequality and changing livelihoods.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 2400 (no longer offered).

Prerequisite(s): GEOG 1023, or second-year standing, or permission of the department.

Lectures two hours per week and tutorials one hour per week.

GEOG 2200 [0.5 credit]**Global Connections**

Globalization and global environmental change as linked processes. Geographical analysis of economic, cultural and political transformations acting at global, national and local scales. Choices and constraints underlying economic, social and environmental sustainability.

Prerequisite(s): second-year standing or permission of the Department.

Lectures three hours a week.

GEOG 2300 [0.5 credit]**Space, Place and Culture**

Introduction to social and cultural geography, including how theories of space, place, landscape, power, and knowledge can be used to understand the geographic dimensions of social and cultural life. Topics include culture and identity, migration and transnationalism, nature, gender, sexuality, race, colonialism, consumption, and work.

Prerequisite(s): second-year standing or permission of the Department.

Lectures two hours a week, discussion one hour a week.

GEOG 2500 [0.5 credit]**Climate Change: Social Science Perspectives**

An introduction to climate change as a political, economic and socio-cultural phenomenon, including the political-economic and world-historical causes of anthropogenic greenhouse gas emissions; variations in impact and vulnerability; climate justice and other political movements; global mitigation and adaptation strategies; and proposals for radical systemic change.

Includes: Experiential Learning Activity

Also listed as ENST 2500.

Prerequisite(s): second-year standing or permission of the Department.

Lectures two hours a week, discussion groups one hour a week.

GEOG 2600 [0.5 credit]**Geography Behind the Headlines**

Exploration of the geographical backgrounds to selected issues of current public interest, through geography's perspective of integrating human and physical environments. Issues selected will be structured from the global through the national/regional to the local, identifying the interdependencies among the scales. Lecture three hours a week.

GEOG 3000 [0.5 credit]**Honours Field Course**

Field research, with a focus on data collection methods, analysis and presentation of findings. Design and conduct research that links the human and biophysical environment. Topics may change from year to year. Includes: Experiential Learning Activity
Also listed as ENST 3900.

Precludes additional credit for ENST 2900 (no longer offered).

Prerequisite(s): GEOG 2005/ENST 2005 and GEOG 2006/ENST 2006, third-year Honours standing in Geography, Geomatics or Environmental Studies, or permission of the Department.

Normally consists of a multi-day field excursion in the Ottawa region. A supplementary charge may apply. Consult the department regarding course details.

GEOG 3001 [0.5 credit]**Doing Qualitative Research**

Theory and methods used in qualitative approaches to research in human geography; hands-on experience and discussion of beliefs and claims underlying scholarly work. Ethical and practical dilemmas confronting researchers. Gathering and interpreting qualitative information; representing knowledge.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2005 or ENST 2005.

Lecture and discussion three hours per week.

GEOG 3003 [0.5 credit]**Quantitative Geography**

Quantitative methods used in geographical research: multiple correlation and regression, principal component/factor analysis, spatial statistics, cluster analysis, and a review of other selected techniques. Computer-based analysis.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2006 or ENST 2006 or STAT 2507 or permission of the Department.

Lecture two hours a week, laboratory two hours a week.

GEOG 3009 [0.5 credit]**Special Topics in Human Geography**

Selected topics concerning human geography not usually included in regular course offerings. Topic varies from year to year. Students should check with the Department for more information.

Precludes additional credit for GEOG 2505 (no longer offered).

Prerequisite(s): GEOG 1020 or ENST 1020 and third-year standing, or permission of the Department.

Lecture three hours per week.

GEOG 3010 [0.5 credit]**Field Methods in Physical Geography**

Field and laboratory approaches, methodologies and techniques in physical geography. Field projects will be undertaken to collect data for analysis, evaluation and presentation.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2006 or ENST 2006 or STAT 2507 and GEOG 2013 or GEOG 2014 or permission of the Department.

Normally consists of a multi-day field camp, including lodging, during Fall or Winter Break, and regular classroom meetings. A supplementary charge will apply.

GEOG 3021 [0.5 credit]**Geographies of Culture and Identity**

Examination of culture, identity and place over time. Colonial and other historical processes that have shaped societies from place to place; relationships between cultural groups and their natural surroundings; gender, ethnicity, nationality and other dimensions of identity; impacts of globalization.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2300 and third-year standing, or permission of the Department.

Lecture three hours a week.

GEOG 3022 [0.5 credit]**Environmental and Natural Resources**

Exploration of complexity, dynamics, uncertainty and equity issues underpinning environmental and resource issues; review and appraisal of selected contemporary methods to assess and manage environmental and natural resources.

Includes: Experiential Learning Activity

Also listed as ENST 3022.

Prerequisite(s): third-year standing in Geography or Environmental Studies or BGIInS Specialization/Stream in Globalization and Environment or permission of the Department.

Lecture three hours a week.

GEOG 3023 [0.5 credit]**Cities in a Global World**

Introduces the study of cities as "systems of cities", the political economy of linkages between urban places located unevenly in space, and "cities as systems". Case studies of socio-cultural, political and economic relations within biophysical and built environments.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2023 and third-year standing, or permission of the department.

Lecture and discussion three hours a week.

GEOG 3024 [0.5 credit]**Understanding Globalization**

Geographical analysis of processes of globalization: theoretical frameworks, historical context and contemporary challenges.

Prerequisite(s): GEOG 2200 and third-year standing, or permission of the Department.

Lecture three hours a week.

GEOG 3025 [0.5 credit]**Geographies of Selected Regions**

Geographical analysis of key questions facing a selected region of the world. Attention will focus on selected topics within one or more regions and their related global context.

Prerequisite(s): third-year standing in a B.A. program or BGIInS Specialization/Stream in Globalization and Environment or permission of the Department.

Lecture three hours a week.

GEOG 3026 [0.5 credit]**Topics in the Geography of Canada**

Selected topic concerning the geography of Canada. Topic varies from year to year.

Precludes additional credit for GEOG 2505 [no longer offered].

Prerequisite(s): GEOG 1020 or ENST 1020 and second-year standing, or permission of the Department.

Lecture three hours a week.

GEOG 3030 [0.5 credit]**Regional Field Excursion**

Guided and independent geographic field research, with a focus on data collection methods, and analysis and presentation of findings. Consists of an excursion outside of the Ottawa region. A supplementary charge may apply.

Includes: Experiential Learning Activity

Prerequisite(s): third-year Honours standing in Geography or BGIInS Specialization in Globalization and Environment or permission of the Department.

A seven- to ten-day field excursion.

GEOG 3102 [0.5 credit]**Geomorphology**

Geomorphological agents of landscape change at the Earth's surface, emphasizing the role of water, ice and wind in erosion and deposition; use of geomorphic indicators in studies of environmental change. A supplementary charge may apply.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2014 and third-year standing, or permission of the Department.

Lectures two hours a week, laboratory two hours a week, one field excursion.

GEOG 3103 [0.5 credit]**Watershed Hydrology**

Principles of hydrology at local and watershed scales, emphasizing: soil moisture regimes; field data collection and analysis of surface water or snow and ice conditions; hydrologic processes in cold environments; and regional runoff regimes in Canada.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2013 or permission of the Department.

Lectures three hours a week, laboratory two hours a week.

GEOG 3104 [0.5 credit]**Principles of Biogeography**

Contemporary and past controls on distribution of plants and animals at global, regional and local scales; significance of these distributions.

Includes: Experiential Learning Activity

Also listed as BIOL 3608.

Prerequisite(s): GEOG 1010 or BIOL 2600, or permission of the Department.

Lectures, laboratory, and fieldwork five hours a week.

GEOG 3105 [0.5 credit]**Climate and Atmospheric Change**

The global climate system, with emphasis on global change variability over the historical and modern periods; the changing composition of the atmosphere and its impact on climate; analysis and interpretation of climatic and atmospheric data; modeling of climate systems.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2013 or permission of the Department.

Lecture two hours a week, laboratory two hours a week.

GEOG 3106 [0.5 credit]**Aquatic Science and Management**

Fundamentals of aquatic science. The physical, chemical, and biotic aspects of lake, river, and estuary systems including human impacts, management and conservation.

Includes: Experiential Learning Activity

Also listed as ENSC 3106.

Prerequisite(s): third-year standing and a second-year science or engineering course.

Workshop four hours per week.

GEOG 3108 [0.5 credit]**Soil Properties**

The physical and chemical properties of soils; soil-water relationships, weathering processes, soil mineralogy, cation exchange, soil pH. A plant-oriented perspective predominates.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2013 or GEOG 2014 or permission of the Department.

Lectures and laboratory five hours a week.

GEOG 3206 [0.5 credit]**Health, Environment, and Society**

Factors influencing human health in an ecological framework involving population structure, habitat, and behaviour. Changes in the distribution of communicable and degenerative diseases are portrayed as being related to historical and contemporary development and globalization processes. Sources, types and characteristics of geographically referenced health information.

Prerequisite(s): third-year standing.

Lectures three hours a week.

GEOG 3209 [0.5 credit]**Sustainability and Environment in the South**

Analysis of the relationships between people and environment in selected regions in the South (Africa, Asia, Latin America). Emphasis on sustainable livelihoods and local action in relation to broader socio-economic and political processes. Regions selected vary from year to year.

Prerequisite(s): third-year standing and ENST 2000 or ENST 2001 or GEOG 2200 or GEOG 2300 or permission of the Department.

Lecture and discussion three hours a week.

GEOG 3404 [0.5 credit]**Geographies of Economic Development**

Geographical approaches to economic development and difference at local, regional and global scales. Critical historical, cultural, social and political economic perspectives on 'development', including theories of the state, colonial power, and development institutions. Spatial dynamics and environmental impacts of economic activity.

Prerequisite(s): GEOG 2200 or permission of the Department.

Lectures three hours a week.

GEOG 3501 [0.5 credit]**Geographies of the Canadian North**

The physical characteristics, historical geography, economic resources, settlement patterns and problems and the future development of Arctic and Subarctic lands, focusing primarily on Canada.

Prerequisite(s): third-year standing or permission of the Department.

Lectures three hours a week.

GEOG 3700 [0.5 credit]**Population Geography**

The distributional aspects of population attributes; areal patterns of population characteristics and their spatial variations associated with differences in the nature of places; migratory movements within the framework of spatial models of interactions between locations.

Prerequisite(s): GEOG 2200 or GEOG 2300, or permission of the Department.

Lectures three hours a week.

GEOG 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

GEOG 4000 [0.5 credit]**Field Studies**

Field observation and methodology in a selected region; individual or group basis.

Includes: Experiential Learning Activity

Also listed as ENST 4400.

Prerequisite(s): third-year Honours standing and permission of the Department.

Hours to be arranged.

GEOG 4004 [0.5 credit]**Environmental Impact Assessment**

Principles, scope and purpose of environmental impact assessment, from conceptual and methodological points of view; range of environmental issues, with emphasis on Canadian case studies.

Includes: Experiential Learning Activity

Also listed as ENST 4004.

Prerequisite(s): GEOG 3022 or ENST 3022, and fourth-year Honours standing in Geography or Environmental Studies or Environmental Science, or permission of the Department.

Lectures and seminars three hours a week.

GEOG 4005 [0.5 credit]**Directed Studies in Geography**

Students pursue their interest in a selected theme in geography on a tutorial basis with a member of the Department.

Prerequisite(s): permission of the Department.

GEOG 4007 [0.5 credit]**Special Topics in Geography and Environmental Studies**

Selected topics in geography and/or environmental studies.

Also listed as ENST 4007.

Precludes additional credit for GEOG 4006.

Prerequisite(s): fourth-year Honours standing in the Department or permission of the Department.

Seminar three hours per week.

GEOG 4013 [0.5 credit]**Cold Region Hydrology**

An examination of cold region hydrologic processes via experimental and observational studies; analysis of hydrologic data and application of hydrologic models.

Prerequisite(s): GEOG 3103.

Lecture three hours a week.

GEOG 4017 [0.5 credit]**Global Biogeochemical Cycles**

Processes that control the fluxes and reservoirs of biologically active chemical constituents on land, in the atmosphere, and in the oceans. Interactions between biogeochemical cycles and the Earth's climate; impact of land use and fossil fuel emissions on biogeochemical cycles and global change.

Prerequisite(s): GEOG 3108 or permission of the Department.

Lectures three hours a week.

GEOG 4021 [0.5 credit]**Seminar in Culture, Identity and Place**

Selected topic or field of inquiry concerning the geographic dimensions of culture, identity and place.

Prerequisite(s): GEOG 3021 and fourth-year Honours standing in Geography or permission of the Department.

Seminar three hours a week.

GEOG 4022 [0.5 credit]**Seminar in People, Resources and Environmental Change**

A selected topic or field of inquiry concerning natural resource use and environmental change.

Also listed as ENST 4022.

Prerequisite(s): GEOG 3022 or ENST 3022 and fourth-year Honours standing in Geography or Environmental Studies or BGIInS Specialization in Globalization and Environment or permission of the Department.

Seminar three hours a week.

GEOG 4023 [0.5 credit]**Seminar in Special Topics on the City**

A selected topic or field of inquiry concerning urban geography.

Prerequisite(s): GEOG 3023 and fourth-year Honours standing in Geography or Environmental Studies or BGIInS Specialization in Globalization and Environment or permission of the Department.

Seminar three hours per week.

GEOG 4024 [0.5 credit]**Seminar in Globalization**

A selected issue or topic related to globalization.

Prerequisite(s): GEOG 3024 and fourth-year Honours standing in Geography or BGIInS Specialization in Globalization and Environment or permission of the Department.

Seminar three hours week.

GEOG 4040 [0.5 credit]**Geographic Thought**

Major intellectual issues and debates in the development of contemporary human geography, including history of geographic thought, geographic responses to social and political movements and debates, and geographic engagement with contemporary critical theory.

Prerequisite(s): fourth-year Honours standing in Geography or permission of the Department.

Seminar three hours per week.

GEOG 4050 [0.5 credit]**Environmental and Geographic Education**

Selected theoretical and applied issues concerning environmental and geographic education.

Also listed as ENST 4050.

Prerequisite(s): third-year Honours standing in Geography or Environmental Studies, or permission of the Department.

Seminar three hours per week.

GEOG 4101 [0.5 credit]**Two Million Years of Environmental Change**

Multidisciplinary scientific study of the changes in the physical environment of the Earth during the last two million years and methods of studying recent Earth history, with focus on current research.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in a B.Sc. program, or a third year Science Geography Elective or a third year EARTH course, or permission of the Department. Note: GEOG 3105 is recommended.

Lectures three hours a week.

GEOG 4103 [0.5 credit]**Water Resources Engineering**

A quantitative analysis of natural water systems and the development of these systems as a resource.

Components of the hydrologic cycle. Quantitative analysis of stream flow. Probability concepts in water resources. Reservoir design and operation. Availability of groundwater. Storm water management.

Also listed as ENVE 3003.

Prerequisite(s): permission of the Department.

Recommended background: MAAE 2300.

Lectures three hours a week, problem analysis one hour a week.

GEOG 4104 [0.5 credit]**Microclimatology**

The formation of microclimates near the Earth's surface; energy and water flows; the interaction of atmospheric processes with the physical properties of surfaces.

Prerequisite(s): GEOG 2013 or permission of the Department.

Lectures three hours a week.

GEOG 4108 [0.5 credit]**Permafrost**

Distribution, development, and degradation of permafrost in Canada; thermal and hydrologic regime of permafrost terrain; development of landforms in permafrost regions; geotechnical consideration in northern construction.

Prerequisite(s): GEOG 3108 or permission of the Department.

Lectures three hours a week.

GEOG 4304 [0.5 credit]**Transportation Engineering and Planning**

Transportation and the socio-economic environment; modal and intermodal systems and components; vehicle motion; human factors, system and facility design; traffic flow; capacity analysis; planning methodology; environmental impacts; evaluation methods.

Also listed as CIVE 3304.

Prerequisite(s): third-year standing, or permission of the Department.

Lectures three hours a week, problem analysis three hours alternate weeks.

GEOG 4323 [0.5 credit]**Urban and Regional Planning**

History, theories, and practice of urban planning, as well as the policies, plans, and programs developed and implemented in diverse communities. Course topics may include the integration of community development and social planning, urban design, transportation and infrastructure, and environmental management.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 3023 and fourth-year standing in Geography or Environmental Studies, or permission of the department.

Lectures three hours per week.

GEOG 4406 [0.5 credit]**Practicum I**

Experience in an employment environment through field placement. Observation and involvement in issues and research methods used by professional geographers. May be taken for credit in addition to GEOG/GEOM 4408.

Includes: Experiential Learning Activity

Also listed as GEOM 4406.

Prerequisite(s): fourth-year Honours standing in Geography or Geomatics and permission of the Department.

Field placement one day a week.

GEOG 4408 [0.5 credit]**Practicum II**

Experience in an employment environment through field placement. Observation and involvement in issues and research methods used by professional geographers. May be taken for credit in addition to GEOG/GEOM 4406.

Includes: Experiential Learning Activity

Also listed as GEOM 4408.

Prerequisite(s): fourth-year Honours standing in Geography or Geomatics and permission of the Department.

Field placement of one day a week.

GEOG 4450 [0.5 credit]**Community-Engaged Research**

Working in partnership with local organizations, students apply their geographical knowledge to conduct community-engaged research. Student projects will generate outputs for community partners. Research topics vary year to year.

Includes: Experiential Learning Activity

Also listed as ENST 4450.

Prerequisite(s): fourth-year standing, or permission of the department.

Lectures, discussion and project work three hours a week.

GEOG 4906 [1.0 credit]**Honours Research Project**

A research project based on a modeling, laboratory or field problem. The project is supervised by a member of the department and a written thesis and poster must be submitted.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 4904/GEOM 4904 (no longer offered), GEOM 4906, GEOG 4909, GEOM 4909, ENST 4906, and ENST 4907.

Prerequisite(s): fourth-year Honours standing in B.Sc. Geography, and an approved research topic and adviser. Hours to be arranged with faculty adviser.

GEOG 4909 [1.0 credit]**Honours Research Thesis**

Independent design and implementation of a research project leading to the submission of a research thesis. Students work with an individual faculty adviser. The subject for research is decided upon in consultation with the supervisor.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 4904/GEOM 4904 (no longer offered), GEOG 4906, GEOM 4906, GEOM 4909, ENST 4906, and ENST 4907.

Prerequisite(s): fourth-year Honours standing in B.A. Geography or B.Globalization and International Studies, a minimum CGPA of 9.00 in the major or permission of the Department, and an approved research topic and adviser. Hours to be arranged with faculty adviser.

Geomatics

This section presents the requirements for programs in:

- Geomatics B.A. Honours
- Geomatics B.Sc. Honours
- Minor in Geomatics

Program Requirements**Course Categories for B.Sc. Geomatics**

See Academic Regulations for the Bachelor of Science Degree for a list of courses in these categories.

- Science Continuation
- Experimental Science Electives
- Science Faculty Electives

- Approved Courses Outside the Faculties of Science and Engineering and Design
- Science Geography courses

Geomatics

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 1.0 credit in:	1.0
GEOG 1010 [0.5] Global Environmental Systems	
GEOG 1020 [0.5] People, Places and Environments	
2. 2.5 credits in:	2.5
GEOM 1004 [0.5] Maps, Satellites and the Geospatial Revolution	
GEOM 2005 [0.5] Introduction to Geospatial Programming	
GEOG 2006 [0.5] Introduction to Quantitative Research	
or STAT 2507 [0.5] Introduction to Statistical Modeling I	
GEOM 2007 [0.5] Points, Lines and Polygons	
GEOM 2008 [0.5] Pixels and Grids	
3. 2.5 credits in:	2.5
GEOG 3000 [0.5] Honours Field Course	
or GEOG 3010 [0.5] Field Methods in Physical Geography	
GEOM 3002 [0.5] Introduction to Remote Sensing	
GEOG 3003 [0.5] Quantitative Geography	
GEOM 3005 [0.5] Geospatial Analysis	
GEOM 3007 [0.5] Cartographic Theory and Design	
4. 1.5 credits from:	1.5
GEOM 4001 [0.5] Special Topics in Geomatics	
GEOM 4003 [0.5] Remote Sensing of the Environment	
GEOM 4005 [0.5] Directed Studies in Geomatics	
GEOM 4008 [0.5] Advanced Topics in Geographic Information Systems	
GEOM 4009 [0.5] Applications in Geographic Information Systems	
5. 0.5 credit in:	0.5
a) Co-op students must complete:	
0.5 cr in GEOG or GEOM at 4000-level, excluding GEOG 4406, GEOG 4408, GEOM 4406, GEOM 4408	
b) All other students must complete:	
GEOM 4406 [0.5] Practicum I (with placement in a Geomatics-related setting)	
6. 1.0 credit in GEOG at the 2000-level or higher	1.0
7. 1.0 credit from:	1.0
a) Thesis pathway	
GEOM 4909 [1.0] Honours Research Thesis	
or	
b) Course pathway	
1.0 credit in GEOM or GEOG at the 4000-level	
B. Credits not included in the Major CGPA (10.0 credits)	
8. 8.0 credits in electives not in Geomatics	8.0
9. 2.0 credits in free electives.	2.0
Total Credits	20.0

Geomatics

B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.5 credits)

1. 0.5 credit from:	0.5
GEOG 1010 [0.5] Global Environmental Systems	
ERTH 1006 [0.5] Exploring Planet Earth	
2. 3.5 credits in:	3.5
GEOM 1004 [0.5] Maps, Satellites and the Geospatial Revolution	
GEOG 2013 [0.5] Weather and Water	
GEOM 2005 [0.5] Introduction to Geospatial Programming	
GEOG 2006 [0.5] Introduction to Quantitative Research	
or STAT 2507 [0.5] Introduction to Statistical Modeling I	
GEOM 2007 [0.5] Points, Lines and Polygons	
GEOM 2008 [0.5] Pixels and Grids	
CIVE 2004 [0.5] GIS, Surveying, CAD and BIM	
3. 2.5 credits in:	2.5
GEOG 3000 [0.5] Honours Field Course	
or GEOG 3010 [0.5] Field Methods in Physical Geography	
GEOM 3002 [0.5] Introduction to Remote Sensing	
GEOG 3003 [0.5] Quantitative Geography	
GEOM 3005 [0.5] Geospatial Analysis	
GEOM 3007 [0.5] Cartographic Theory and Design	
4. 1.5 credits from:	1.5
GEOM 4001 [0.5] Special Topics in Geomatics	
GEOM 4003 [0.5] Remote Sensing of the Environment	
GEOM 4005 [0.5] Directed Studies in Geomatics	
GEOM 4008 [0.5] Advanced Topics in Geographic Information Systems	
GEOM 4009 [0.5] Applications in Geographic Information Systems	
5. 0.5 credit in:	0.5
a) Co-op students must complete:	
0.5 cr in GEOM or GEOG at 4000-level, excluding GEOG 4406, GEOG 4408, GEOM 4406, GEOM 4408	
b) All other students must complete:	
GEOM 4406 [0.5] Practicum I	
6. 1.0 credits in GEOG at the 2000-level or higher	1.0
7. 1.0 credit in:	1.0
GEOM 4906 [1.0] Honours Research Project	
B. Credits Not Included in the Major CGPA (9.5 credits)	
8. 1.0 credit in Experimental Science Electives	1.0
9. 1.0 credits in:	1.0
MATH 1007 [0.5] Elementary Calculus I	
MATH 1107 [0.5] Linear Algebra I	
10. 1.0 approved credits in Computer Science	1.0
11. 2.0 credits in Science Continuation not in GEOM	2.0
12. 1.0 credit in Science Faculty Electives	1.0
13. 0.5 credit in:	0.5
NSCI 1000 [0.5] Seminar in Science (or approved courses outside the faculties outside the faculties of Science and Engineering and Design)	
14. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design	1.5

15. 1.5 credits in free electives 1.5

Total Credits 20.0

Minor in Geomatics (4.0 credits)

Only students pursuing undergraduate programs requiring at least 20.0 credits to graduate may be admitted to the minor in Geomatics.

Requirements

1. 0.5 credit in: 0.5

GEOM 1004 [0.5] Maps, Satellites and the Geospatial Revolution

2. 1.0 credit from: 1.0

GEOM 2005 [0.5] Introduction to Geospatial Programming

GEOM 2007 [0.5] Points, Lines and Polygons

GEOM 2008 [0.5] Pixels and Grids

3. 0.5 credit from: 0.5

GEOG 2006 [0.5] Introduction to Quantitative Research

STAT 2507 [0.5] Introduction to Statistical Modeling I

4. 1.5 credits from: 1.5

GEOM 3002 [0.5] Introduction to Remote Sensing

GEOG 3003 [0.5] Quantitative Geography

GEOM 3005 [0.5] Geospatial Analysis

GEOM 3007 [0.5] Cartographic Theory and Design

5. 0.5 credit from: 0.5

GEOM 4001 [0.5] Special Topics in Geomatics

GEOM 4003 [0.5] Remote Sensing of the Environment

GEOM 4005 [0.5] Directed Studies in Geomatics

GEOM 4008 [0.5] Advanced Topics in Geographic Information Systems

GEOM 4009 [0.5] Applications in Geographic Information Systems

6. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits 4.0

Note: Familiarity with computers is assumed. Students with little computer experience may wish to take one of the following courses as part of their program of study:

BUSI 1402 [0.5] Introduction to Business Information and Communication Technologies

COMP 1001 [0.5] Introduction to Computational Thinking for Arts and Social Science Students

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits

of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial

Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, ERTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in Good Standing.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

1. 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in science continuation courses in each of the two majors**
2. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

1. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for fewer than 10.0 credits.
2. 1.0 credit in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for 10.0 or more credits.

Declared and Undeclared Students

Students who are registered in a program within the degree are called Declared students. Most students designate a program of study when they first apply for admission and so begin their studies as Declared students. Students may also choose to begin their studies within the B.Sc. degree without being registered in a program. These students are referred to as Undeclared students. The recommended course pattern for Undeclared students is provided in the Undeclared entry of the Programs section of this Calendar. Undeclared students normally must apply to enter a program before beginning their second year of study. The Science Student Success Centre (SSSC) provides Undeclared students guidance to the appropriate support services in making this decision.

Change of Program within the B.Sc. Degree

Students may transfer to a program within the B.Sc. degree if upon entry to the new program they would be in good academic standing.

Other applications for change of program will be considered on their merits; students may be accepted in the new program in *Good Standing* or on *Academic Warning*.

Applications to declare or change their program within the B.Sc. Degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program or into a program element or option is subject to any enrolment, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may add a minor, concentration or specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a minor, concentration or specialization requires that the student be in *Good Standing* and is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of experimental science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry	
BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering
Biology	
BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology
Chemistry	
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2800 [0.5]	Foundations for Environmental Chemistry
Earth Sciences	
ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time
ERTH 2102 [0.5]	Mineralogy to Petrology
ERTH 2404 [0.5]	Engineering Geoscience
ERTH 2802 [0.5]	Field Geology I
ERTH 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds
ERTH 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians
ERTH 3204 [0.5]	Mineral Deposits
ERTH 3205 [0.5]	Physical Hydrogeology
ERTH 3806 [0.5]	Structural Geology
Food Sciences	
FOOD 3001 [0.5]	Food Chemistry
FOOD 3002 [0.5]	Food Analysis
FOOD 3005 [0.5]	Food Microbiology
Geography	
GEOG 1010 [0.5]	Global Environmental Systems
GEOG 3108 [0.5]	Soil Properties
Neuroscience	
NEUR 3206 [0.5]	Sensory and Motor Neuroscience
NEUR 3207 [0.5]	Systems Neuroscience
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy
Physics	
PHYS 1001 [0.5]	Foundations of Physics I
PHYS 1002 [0.5]	Foundations of Physics II
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I

PHYS 1008 [0.5]	Elementary University Physics II
PHYS 2202 [0.5]	Wave Motion and Optics
PHYS 2604 [0.5]	Modern Physics I
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars
PHYS 3606 [0.5]	Modern Physics II
PHYS 3608 [0.5]	Modern Applied Physics

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 2006 [0.5]	Introduction to Quantitative Research
GEOG 2013 [0.5]	Weather and Water
GEOG 2014 [0.5]	The Earth's Surface
GEOG 3003 [0.5]	Quantitative Geography
GEOG 3010 [0.5]	Field Methods in Physical Geography
GEOG 3102 [0.5]	Geomorphology
GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3104 [0.5]	Principles of Biogeography
GEOG 3105 [0.5]	Climate and Atmospheric Change
GEOG 3106 [0.5]	Aquatic Science and Management
GEOG 3108 [0.5]	Soil Properties
GEOG 4000 [0.5]	Field Studies
GEOG 4005 [0.5]	Directed Studies in Geography
GEOG 4013 [0.5]	Cold Region Hydrology
GEOG 4017 [0.5]	Global Biogeochemical Cycles
GEOG 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103 [0.5]	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Science Psychology Courses

PSYC 2001 [0.5]	Introduction to Research Methods in Psychology
PSYC 2002 [0.5]	Introduction to Statistics in Psychology
PSYC 2700 [0.5]	Introduction to Cognitive Psychology
PSYC 3000 [1.0]	Design and Analysis in Psychological Research
PSYC 3506 [0.5]	Cognitive Development
PSYC 3700 [1.0]	Cognition (Honours Seminar)
PSYC 3702 [0.5]	Perception
PSYC 2307 [0.5]	Human Neuropsychology I
PSYC 3307 [0.5]	Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

- BIOC (Biochemistry)
- BIOL (Biology)
- CHEM (Chemistry)

COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except EARTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use EARTH 2401, EARTH 2402, and EARTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except EARTH 1010, EARTH 1011 and EARTH 2415. Earth Sciences students may use EARTH 2401, EARTH 2402, and EARTH 2403 only as free electives.

Engineering

ENSC 2001

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Science)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)

Science Psychology (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) Biology students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5]	Education Research in Biology
CHEM 1003 [0.5]	The Chemistry of Food, Health and Drugs
CHEM 1004 [0.5]	Drugs and the Human Body
CHEM 1007 [0.5]	Chemistry of Art and Artifacts
ERTH 1010 [0.5]	Our Dynamic Planet Earth
ERTH 1011 [0.5]	Evolution of the Earth
ERTH 2415 [0.5]	Natural Disasters
ISCI 1001 [0.5]	Introduction to the Environment
ISCI 2000 [0.5]	Natural Laws
ISCI 2002 [0.5]	Human Impacts on the Environment
MATH 0107 [0.5]	Algebra and Geometry
PHYS 1901 [0.5]	Planetary Astronomy
PHYS 1902 [0.5]	From our Star to the Cosmos
PHYS 1905 [0.5]	Physics Behind Everyday Life
PHYS 2903 [0.5]	Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5]	Introduction to Computational Thinking for Arts and Social Science Students
MATH 0005 [0.5]	Precalculus: Functions and Graphs
MATH 0006 [0.5]	Precalculus: Trigonometric Functions and Complex Numbers
MATH 1009 [0.5]	Mathematics for Business
MATH 1119 [0.5]	Linear Algebra: with Applications to Business
MATH 1401 [0.5]	Elementary Mathematics for Economics I
MATH 1402 [0.5]	Elementary Mathematics for Economics II

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The

summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.A. Honours, B.Sc. Honours Geomatics: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered in the Bachelor of Arts Honours or Bachelor of Science Honours in Geomatics;
2. Obtained and maintained an overall minimum CGPA of 9.5 and a major CGPA of 9.5;
3. Have obtained third-year standing;

4. Successfully completed, by the start-date of the first work term:
 - a. the required second-year methods courses in their program (GEOG 2005/ENST 2005, GEOG 2006/ENST 2006)
 - b. the required field course in their program (ENST 3900/GEOG 3000/GEOG 3010/GEOG 3030)
5. Be registered as a full-time student.

B.A. and B.Sc. Honours Geomatics students must successfully complete three (3) work terms to obtain the co-op designation.

Work Term Course: GEOM 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	S/W	Fall	O
Winter	S	Winter	S	Winter	S	Winter	S/W	Winter	S
Summer		Summer		Summer	W	Summer	S/W		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language

is not English, the requirement of English can also be met under the conditions outlined in the section “English Language Requirements” in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions and

two of Biology, Chemistry, Earth and Space Sciences or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For the Combined Honours program in Chemistry and Computer Science, 4U Chemistry and Calculus and Vectors are strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

For entry to an Honours program after the completion of 5.0 included credits, a student must have a major CGPA of 5.50 or higher, an overall CGPA of 4.50 or higher and the recommendation of the Honours department or committee. A student beginning the final 10.0 credits towards an Honours degree must present a major CGPA of 6.00 or higher, an overall CGPA of 5.00 or higher and the recommendation of the Honours department or committee. A student beginning the final 5.0 credits towards an Honours degree must present a major CGPA of 6.50 or higher and an overall CGPA of 5.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

B.Sc. Major Program

B.Sc. Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics. 4U Physics is strongly recommended. Equivalent courses may be substituted between the old and new Ontario mathematics curriculum.

Advanced Standing

For entry to a B.Sc. or B.Sc. Major program after the completion of 5.0 included credits, a student must have a major and core CGPA of 3.50 or higher and an overall CGPA of 3.50 or higher. A student beginning the final 5.0 credits towards a B.Sc. or B.Sc. Major degree must present a major and core CGPA of 4.00 or higher and an overall CGPA of 4.00 or higher, as calculated for

graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Geomatics (GEOM) Courses

GEOM 1004 [0.5 credit]

Maps, Satellites and the Geospatial Revolution

Introduction to the creation and use of maps using a variety of geospatial tools to better understand and resolve physical, social and environmental problems. Overview of geomatics (cartography and map design, geographic information systems, GPS, remote sensing).

Includes: Experiential Learning Activity

Also listed as EARTH 2004.

Precludes additional credit for GEOM 2004 (no longer offered).

Lectures and laboratory, four hours a week.

GEOM 2005 [0.5 credit]

Introduction to Geospatial Programming

Computer programming for geomatics students focusing on storage, manipulation, management, visualization and analysis of geospatial data; Essential coding concepts and best practices including variables, loops, and conditional statements; programmatic handling of raster and vector data structures; batch geoprocessing and map production; GIS tool customization.

Includes: Experiential Learning Activity

Lectures and laboratory, four hours per week.

GEOM 2007 [0.5 credit]**Points, Lines and Polygons**

Storage, visualization, manipulation and analysis of vector geospatial data. Vector geoprocessing including buffering, overlays and topological analysis; feature classification and cartographic representation; managing coordinate reference systems for vector layers; selected applications of vector GIS such as urban planning, environmental and resource management and socio-economic mapping.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 1004 or permission of the Department.

Lectures and laboratory, four hours a week.

GEOM 2008 [0.5 credit]**Pixels and Grids**

Storage, visualization, manipulation, and analysis of gridded geospatial data; 3D raster visualization; digital terrain analysis; interpolation and filtering; raster geoprocessing and projections; selected topics in raster GIS such as least-cost path analysis, natural hazard assessment, pollution mapping, hotspot analysis for crime and disease mapping.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 1004 or permission of the Department.

Lectures and laboratory, four hours per week.

GEOM 3002 [0.5 credit]**Introduction to Remote Sensing**

Principles and methods of remote sensing; visual interpretation of air photos and satellite imagery; digital image processing, analysis and classification for thematic mapping; introduction to various active and passive remote sensing imagery types such as optical, hyperspectral, RADAR and LiDAR.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 2008 and third-year standing, or permission of the Department.

Lectures two hours a week, laboratory two hours a week.

GEOM 3005 [0.5 credit]**Geospatial Analysis**

An advanced course in geospatial analysis theory and practice; geoprocessing; geo-visualization; geostatistics; spatial modelling; working with spatio-temporal data structures; advanced site-suitability and network analysis; intermediate GIS tool customization.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 2007 and GEOM 2008.

Lecture and laboratories five hours a week.

GEOM 3007 [0.5 credit]**Cartographic Theory and Design**

Principles of and issues in cartography, cartographic communication and map design; practical aspects of cartographic representation using multimedia and online/interactive mapping.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 2007 or GEOM 2008 or permission of the Department.

Lectures and laboratory four hours a week.

GEOM 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

GEOM 4001 [0.5 credit]**Special Topics in Geomatics**

A seminar focusing on selected topics in geomatics including advanced theory and/or application.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Geomatics or permission of the department.

Laboratory or seminar three hours a week.

GEOM 4003 [0.5 credit]**Remote Sensing of the Environment**

Advanced image enhancement; land cover classification for thematic mapping; biophysical modeling; applications in resources, environment, and urban mapping.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 3002 and Honours standing, or permission of the Department.

Lectures two hours a week, laboratory two hours a week.

GEOM 4005 [0.5 credit]**Directed Studies in Geomatics**

Students pursue their interest in a selected theme in Geomatics on a tutorial basis with a member of the Department.

Prerequisite(s): permission of the Department.

GEOM 4008 [0.5 credit]**Advanced Topics in Geographic Information Systems**

Advanced methods and techniques in GIS applications including: positional and attribute error analysis, multiple criteria decision making, interpolation, elevation modeling and ortho-imaging, and spatial pattern measurement.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 3005 and Honours standing.

Lectures two hours a week, laboratory two hours a week.

GEOM 4009 [0.5 credit]**Applications in Geographic Information Systems**

Project design and customization, application development within a GIS, digital atlas compilation and geomatics education.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 3005 and (COMP 1006 or GEOG 3003), or permission of the department.

Workshop three hours a week.

GEOM 4406 [0.5 credit]**Practicum I**

Experience in an employment environment through field placement. Observation and involvement in issues and research methods used by professional geographers. May be taken for credit in addition to GEOG/GEOM 4408.

Includes: Experiential Learning Activity

Also listed as GEOG 4406.

Prerequisite(s): fourth-year Honours standing in Geomatics or Geography and permission of the Department.

Field placement one day a week.

GEOM 4408 [0.5 credit]**Practicum II**

Experience in an employment environment through field placement. Observation and involvement in issues and research methods used by professional geographers. May be taken for credit in addition to GEOG/GEOM 4406.

Includes: Experiential Learning Activity

Also listed as GEOG 4408.

Prerequisite(s): fourth-year Honours standing in Geomatics or Geography and permission of the Department.

Field placement one day a week.

GEOM 4906 [1.0 credit]**Honours Research Project**

Candidates for B.Sc. with Concentration in Geomatics undertake a research project within their area of specialization. The project is supervised by a member of the department and a written report must be submitted. The candidate may be examined orally on the report.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 4904/GEOM 4904 (no longer offered), GEOG 4906, GEOG 4909, GEOM 4909, ENST 4906, and ENST 4907.

Prerequisite(s): fourth-year Honours standing in BSc Geomatics, and an approved research topic and adviser. Hours to be arranged with faculty adviser.

GEOM 4909 [1.0 credit]**Honours Research Thesis**

Independent design and implementation of a research project leading to the submission of a research thesis. Students work with an individual faculty adviser. The subject for research is decided upon in consultation with the supervisor.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 4904 / GEOM 4904 (no longer offered), GEOG 4906, GEOM 4906, GEOG 4909, ENST 4906 and ENST 4907.

Prerequisite(s): fourth-year Honours standing in B.A. Geomatics, a minimum CGPA of 9.00 in the major or permission of the Department, and an approved research topic and adviser.

Hours to be arranged with faculty adviser.

German (Minor)

This section presents the requirements for programs in:

- Minor in German

Minor in German (4.0 credits)

Open to all undergraduate degree students.

Requirements:

1. 3.0 credits in GERM	3.0
2. 1.0 credit in GERM at the 3000-level or higher	1.0
3. Subject to approval of the School, a maximum of 2.0 credits may be substituted for the above by taking courses at the 2000-level or higher in another discipline relevant to the language.	
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	

Total Credits **4.0**

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

Regulations

In addition to the requirements listed here, students must satisfy:

1. the University regulations including the process of Academic Performance Evaluation (see the Academic Regulations of the University section of this Calendar).

German (GERM) Courses**Placement for Language Students**

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

GERM 1010 [0.5 credit]**First-Year German I**

For students with no knowledge of German. Oral skills, reading and writing. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for GERM 1110.

Four hours a week.

GERM 1020 [0.5 credit]**First-Year German II**

Continuation of first-year German. Oral skills, reading and writing. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for GERM 1110.

Prerequisite(s): grade of C or higher in GERM 1010, or permission of the School.

Four hours a week.

GERM 1110 [1.0 credit]**Intensive First-Year German**

For students with no knowledge of German. Oral skills, reading and writing. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for GERM 1010 and GERM 1020.

Eight hours a week (one term).

GERM 2000 [0.5 credit]**Reading in German I**

For students with no prior knowledge of German who would like to develop the skills to read a variety of German texts, including passages from scholarly journals, reports, online newspaper or magazine articles.

Includes: Experiential Learning Activity

Three hours a week.

GERM 2010 [0.5 credit]**Second-Year German I**

Further study of German to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for GERM 2110.

Prerequisite(s): grade of C or higher in GERM 1020, GERM 1110, or permission of the School.

Four hours a week.

GERM 2020 [0.5 credit]**Second-Year German II**

Continuation of second-year German. Further study of German to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for GERM 2110.

Prerequisite(s): grade of C or higher in GERM 2010, or permission of the School.

Four hours a week.

GERM 2110 [1.0 credit]**Intensive Second-Year German**

Further study of German to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for GERM 2010 and GERM 2020.

Prerequisite(s): grade of C or higher in GERM 1020, GERM 1110, or permission of the School.

Eight hours a week (one term).

GERM 3000 [0.5 credit]**Reading in German II**

A continuation of Reading in German I. Further development of reading skills in German.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in GERM 2000 or permission of the School.

Three hours a week.

GERM 3110 [1.0 credit]**Intensive Third-Year German**

Continuation of the study of German to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in GERM 2020, GERM 2110, or permission of the School.

Six hours a week (one term).

GERM 4110 [1.0 credit]**Intensive Fourth-Year German**

Advanced spoken and written German with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in GERM 3110, or permission of the School.

Six hours a week (one term).

GERM 4215 [0.5 credit]**German for Specific Purposes**

Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in GERM 4110, or permission of the School.

Three hours per week.

GERM 4380 [0.5 credit]**Topics in German-speaking Cultures**

Selected topics in German-speaking cultures and societies. Development of advanced language skills.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in GERM 4110, or permission of the School.

Three hours per week.

GERM 4900 [1.0 credit]

Independent Study

Research in a topic in German language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in German, grade of C or higher in GERM 4110 or equivalent, or permission of the School.

GERM 4901 [0.5 credit]

Independent Study

Research in a topic in German language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in German, grade of C or higher in GERM 4110 or equivalent, or permission of the School.

Global and International Studies

This section presents the requirements for programs in:

- Specialization in Africa and Globalization B.G.In.S. Honours
- Specialization in Europe and Russia in the World B.G.In.S. Honours
- Specialization in French and Francophone Studies B.G.In.S. Honours
- Specialization in Global and Transnational History B.G.In.S. Honours
- Specialization in Global Development B.G.In.S. Honours
- Specialization in Global Genders and Sexualities B.G.In.S. Honours
- Specialization in Global Inequalities and Social Change B.G.In.S. Honours
- Specialization in Global Law and Social Justice B.G.In.S. Honours
- Specialization in Global Literatures B. G. In. S. Honours
- Specialization in Global Media and Communication B.G.In.S. Honours
- Specialization in Global Migration and Transnationalism B.G.In.S. Honours
- Specialization in Global Politics B.G.In.S. Honours
- Specialization in Global Religions: Identity and Community B.G.In.S. Honours
- Specialization in Globalization and the Environment B.G.In.S. Honours
- Specialization in Globalization, Culture and Power B.G.In.S. Honours
- Specialization in International Economic Policy B.G.In.S. Honours
- Specialization in Latin American and Caribbean Studies B.G.In.S. Honours

- Specialization in Teaching English in Global Contexts B.G.In.S. Honours
- Stream in Africa and Globalization B.G.In.S.
- Stream in Europe and Russia in the World B.G.In.S.
- Stream in French and Francophone Studies B.G.In.S.
- Stream in Global and Transnational History B.G.In.S.
- Stream in Global Development B.G.In.S.
- Stream in Global Genders and Sexualities B.G.In.S.
- Stream in Global Inequalities and Social Change B.G.In.S.
- Stream in Global Law and Social Justice B.G.In.S.
- Stream in Global Literatures B.G.In.S.
- Stream in Global Media and Communication B.G.In.S.
- Stream in Global Migration and Transnationalism B.G.In.S.
- Stream in Global Politics B.G.In.S.
- Stream in Global Religions: Identity and Community B.G.In.S.
- Stream in Globalization and the Environment B.G. In.S.
- Stream in Globalization, Culture and Power B.G.In.S.
- Stream in International Economic Policy B.G.In.S.
- Stream in Latin American and Caribbean Studies B.G.In.S.
- Stream in Teaching English in Global Contexts B.G.In.S.

Program Requirements

International Experience Requirement

Prior to graduation, students in the Honours program must satisfy a requirement for international experience in ONE of the following ways:

1. **International exchange:** successful completion of at least 0.5 credit in approved courses through an international exchange agreement managed by the International Student Services Office, or
2. **Letter of Permission:** successful completion of at least 0.5 credit in approved courses by Letter of Permission, from an international or Canadian university offering a course taught outside Canada, or
3. **International placement:** successful completion of GINS 3900 [0.5] International Placement, or GINS 3901 [1.0] International Placement or GPOL 3100 [2.5] Internship in Global Politics, or an approved international placement offered through another unit, or
4. **Carleton course taught abroad:** successful completion of at least 0.5 credit in a Carleton course taught abroad, chosen from:

AFRI 3100 [0.5]	African Studies Abroad: Selected Topics
ARTH 3701 [0.5]	Art and Architecture on Site
ARTH 4701 [0.5]	Art and Architecture on Site
CLCV 3400 [0.5]	Greek and Roman Studies Abroad
EURR 4302 [0.5]	EU Summer Study Abroad
GEOG 3030 [0.5]	Regional Field Excursion

GINS 3300 [0.5] Global and International Studies Abroad: Selected Topics

RELI 3850 [0.5] Topics in the Study of Religion Abroad

5. **Group project:** successful completion of GINS 3100 [0.5] Global and International Group Project, or
6. **Experiential Learning Abroad:** successful completion of GINS 3200 [0.5] Experiential Learning Abroad.

Language Requirement

Students in the BGIInS programs must satisfy the language requirement. The language requirement may be satisfied in one of two ways:

1. By course work

Students who lack second language skill upon entry, or who wish to learn a new language, can satisfy the language requirement by satisfactorily completing language instruction courses in a modern language other than English up to an intermediate level. In most cases, this means completing the equivalent of two years (2.0 credits) of university-level language study. Listed below are the specific Carleton language instruction courses which satisfy the BGIInS language requirement. Courses taken at other institutions may also be used to meet the language requirement, as long as they are accepted by the Department of French or the School of Linguistics and Language Studies as being equivalent to, or at a higher level than, the courses specified below.

Minimum Course Requirements for Languages

American Sign Language

ASLA 2020 [0.5] Second-Year American Sign Language II

or ASLA 2110 [1.0] Intensive Second-Year American Sign Language

Arabic

ARAB 2110 [1.0] Intensive Second-Year Arabic

French

FREN 1100 [1.0] French 3

German

GERM 2020 [0.5] Second-Year German II

or GERM 2110 [1.0] Intensive Second-Year German

Italian

ITAL 2020 [0.5] Second-Year Italian II

or ITAL 2110 [1.0] Intensive Second-Year Italian

Japanese

JAPA 2110 [1.0] Intensive Second-Year Japanese

Mandarin Chinese

CHIN 2020 [0.5] Second-Year Mandarin Chinese II

or CHIN 2110 [1.0] Intensive Second-Year Mandarin Chinese

Portuguese

PORT 2110 [1.0] Intensive Second-Year Portuguese

Russian

RUSS 2020 [0.5] Second-Year Russian II

Spanish

SPAN 2020 [0.5] Second-Year Spanish II

or SPAN 2110 [1.0] Intensive Second-Year Spanish

Other Languages

LANG 2020 [0.5] Second-Year Language II

or LANG 2110 [1.0] Continuing Intensive Study of a Language

or LANG 2900 [1.0] Supervised Autonomous Language Learning

2. By demonstrating prior language proficiency

Students who already have intermediate or higher second language skills upon entry may be exempted from taking language courses. Students who wish to be exempted from taking language courses must apply for an exemption to the Program Director using the form available on the BGIInS website. Each application will be treated on its merits, but the following general guidelines apply:

- Secondary school language of instruction: Students whose secondary school transcripts show that their primary language of instruction in secondary school was a language other than English may be exempted from taking language courses.
- French immersion: Students who have successfully completed Grade 12 French immersion or the equivalent at a Canadian high school may be exempted from taking language courses.
- Proficient speakers: Students who do not qualify under either of the first two categories, but who nonetheless consider themselves proficient speakers of a language other than English, may be exempted from having to take language courses. For languages taught at Carleton, "proficiency" means a level at least equivalent to completion of one of the designated language courses listed above. For languages not taught at Carleton, "proficiency" means a level at least equivalent to two full years of university level language study. Proficiency may be demonstrated either through documentation (e.g. certification from a recognized language testing authority) or through testing. For languages not taught at Carleton, availability of a test depends upon faculty resource availability.

Note: For students enrolled in one of the geographically-defined regional Specializations or Streams, only certain languages relevant to that region of the world may be used to satisfy the language requirement. See the program requirements in each of the regional Specializations and Streams for further details.

Specializations

Specialization in Africa and Globalization B.G.In.S. Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.0 credits)

1. **4.5 credits in:** Core Courses 4.5

GINS 1000 [0.5] Global History

GINS 1010 [0.5] International Law and Politics

HIST 3500 [0.5]	Migration and Diaspora in Canada
HIST 3507 [0.5]	An Immigrant's Guide to Canada
PSCI 3608 [0.5]	Migration Governance
SOCI 3019 [0.5]	Sociology of International Migration

e. 1.5 credits from Approved 4000-level Honours Courses in Global Migration and Transnationalism

Notes:

1) Please see the list of Approved Courses in Global Migration and Transnationalism in this calendar for courses that fulfill the above thematic category and 4000-level Honours requirements.

2) Courses in the Specialization that potentially fulfill more than one specialization requirement can only be counted once.

3) Some upper-level courses on this list may have specific prerequisites. Students are encouraged to consult the course calendar when planning their schedules to be aware of those prerequisites and to fulfill them before registering. Prerequisites that do not count towards the Major CGPA may be counted towards free electives.

B. Credits Not Included in the Major CGPA (8.0 credits)

4. **8.0 credits in:** Free Electives 8.0

C. Additional Requirements

5. The International Experience requirements must be met.

6. The Language requirement must be met.

Total Credits **20.0**

Approved Courses in Global Migration and Transnationalism

This list contains approved courses in Global Migration and Transnationalism that fulfill the four thematic and 4000-level Honours requirements for the BGI NS Global Migration and Transnationalism Stream and Specialization. Students are advised that some courses may have prerequisites that must be met in order to register for a particular course.

Global Migration and Transnationalism Thematic Categories

- 1) Transnationalism in the Arts, Literature, and Music
- 2) Historical, Cultural, and Regional Contexts
- 3) Citizenship, Identity, and Rights
- 4) International Migration, Globalization, and Politics

Approved Courses in Global Migration and Transnationalism

1) Transnationalism in the Arts, Literature, and Music

B.G.In.S. Regulations

The regulations presented in this section apply to all Bachelor of Global and International Studies programs.

In addition to the program requirements and requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.G.In.S degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit of FYSM and can only register in a FYSM while they have first-year standing in their B.G.In.S program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Change of Specialization or Stream Within the B.G.In.S Degree

Students may change specialization or stream, or change from/to specialization or stream within the B.G.In.S. during the first or subsequent years of study if upon entry to the new specialization or stream they would be in good academic standing.

Minors

Students may apply to the Registrar's Office to be admitted to a minor during their first or subsequent years of study. Acceptance into a minor is subject to any specific requirements of the intended minor as published in the relevant Calendar entry. B.G.In.S. Honours students may take a maximum of one minor. B.G.In.S. students may take a maximum of two minors.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

Bachelor of Global and International Studies: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered as a full-time student in the Bachelor of Global and International Studies Honours program;
2. Obtained and maintained an overall CGPA of 9.5 or higher in the first two years of academic study;
3. Have obtained third-year standing;
4. Prior to the first work term, have successfully completed GINS 3010 and GINS 3020

Students in B.G.In.S must successfully complete three (3) work terms to obtain the Co-op designation.

Work Term Report Course: GINS 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	W	Fall	S
Winter	S	Winter	S	Winter	S	Winter	W	Winter	S
Summer		Summer		Summer	W	Summer	W/S		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- Bachelor of Global and International Studies (Honours)
- Bachelor of Global and International Studies

Admission Requirements

First Year

B.G.In.S. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*) and a FIF4U course for students applying to the Specialization in French and Francophone Studies. For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section English Language Requirements in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade

average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

B. G.In.S.

Access to the B.G.In.S. degree is limited to B.G.In.S. (Honours) students who apply to transfer.

Advanced Standing

B.G.In.S. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Global and International Studies (GINS) Courses

GINS 1000 [0.5 credit]

Global History

Introduction to political, social, cultural, economic and military developments in global and international history.

Prerequisite(s): Enrolment in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINS 1010 [0.5 credit]

International Law and Politics

Introduction to the evolution of the international system, including the rise of the state, sovereignty, and the challenge of international cooperation. The role of international law in addressing global issues such as human rights, security and trade.

Prerequisite(s): Enrolment in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINS 1020 [0.5 credit]

Ethnography, Globalization and Culture

Introduction to the intersection of globalization processes with social and cultural diversity as examined through ethnography and ethnographic methods. Topics may include cultural survival, growing economic inequality, ecological vulnerabilities, health practices, human rights, and shifting racialized, gendered, religious, ethnic, and national identities.

Prerequisite(s): Enrolment in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINS 1100 [0.5 credit]

Global Development

Introduction to key questions and issues in development studies, taught from an inter-disciplinary perspective.

Lectures two hours a week, tutorials one hour a week.

GINS 1300 [0.0 credit]

International Experience Requirement Preparation

This mandatory course introduces BGIInS students to the International Experience Requirement (IER) and to the various policies and procedures associated with it. Graded SAT/UNS.

Prerequisite(s): first-year standing in BGIInS.

Online course.

GINS 2000 [0.5 credit]

Ethics and Globalization

Introduction to global ethical issues, focusing on alternative lines of ethical argument. Topics may include poverty and unequal development, climate change, war and terrorism, reparations for colonialism and slavery, international relief services, ill effects of globalization, trafficking and forced labour, democracy and global governance.

Prerequisite(s): Second-year standing in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINS 2010 [0.5 credit]

Globalization and International Economic Issues

An introduction to the world economy, international trade and finance, and economic development. Social and economic implications for both rich and poor countries of lowered barriers to the international flows of goods, services, capital, labour, and information in the age of globalization.

Prerequisite(s): Second-year standing in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINS 2020 [0.5 credit]

Global Literatures

A study of the global dynamics of the contemporary literary imagination and literary production; literature as cultural practice; the politics of literary circulation; the politics of language and translation.

Prerequisite(s): second-year standing in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINS 3010 [0.5 credit]

Global and International Theory

Advanced analysis of global and international theories from a variety of perspectives, including realism, liberalism, postmodernism, constructivism, post-structuralism, literary and critical approaches.

Prerequisite(s): third-year standing in B.G.In.S.

Lectures three hours a week.

GINS 3020 [0.5 credit]

Places, Boundaries, Movements and Global Environmental Change

Examination of the relationship between individual places and global social and environmental processes. The changing nature of regions, states and political boundaries in the context of political and economic globalization and international migration. Social science perspectives on climate change vulnerability, adaptation and mitigation.

Prerequisite(s): third-year standing in B.G.In.S.

Lectures three hours a week.

GINS 3100 [0.5 credit]**Global and International Group Project**

Student teams work on a project related to global and international studies. Lectures are devoted to discussing group project-related issues and student presentations. A project proposal, a series of project reports and oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lecture one hour per week, tutorials two hours per week.

GINS 3200 [0.5 credit]**Experiential Learning Abroad**

An experiential learning opportunity combining volunteer work abroad with classroom instruction on the Carleton campus. Through experiential engagement outside Canada, together with critical reflection, students will learn about the challenges and rewards of global engagement.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing.

Lecture two hours a week plus a three week experiential learning trip abroad.

GINS 3300 [0.5 credit]**Global and International Studies Abroad: Selected Topics**

Based at a partner university around the world, and taught by a Carleton faculty member, the course will include lectures, seminars, guest speakers, field visits and group research projects to examine a topic in global and international studies. Topic and location will change annually.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and approval by the BGIInS Program Director.

Three week intensive course.

GINS 3900 [0.5 credit]**International Placement**

Placement for six weeks with a global and international focus.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in B.G.In.S.

GINS 3901 [1.0 credit]**International Placement**

Placement for twelve weeks with a global and international focus.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in B.G.In.S.

GINS 3930 [0.5 credit]**Carleton International Placement**

Placement for six weeks with a global and international focus for students outside of the BGIInS Program.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 3701, IPAF 3900 (no longer offered).

Prerequisite(s): Third-year standing and minimum CGPA of 9.0.

Placement hours to be negotiated with on-site placement supervisor. Required assignments and due dates will be set by the course instructor at Carleton University.

GINS 3931 [1.0 credit]**Carleton International Placement**

Placement for twelve weeks with a global and international focus for students outside of the BGIInS Program.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 3702, IPAF 3901 (no longer offered).

Prerequisite(s): Third-year standing and minimum CGPA of 9.0.

Placement hours to be negotiated with on-site placement supervisor. Required assignments and due dates will be set by the course instructor at Carleton University.

GINS 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

GINS 4090 [0.5 credit]**Honours Seminar in Global and International Studies**

Examination of key debates in global and international studies from a variety of disciplinary and interdisciplinary perspectives. Integration of knowledge from different areas of emphasis in global studies. A major research paper is required that undertakes to focus theoretical insight on practical concerns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in B.G.In.S. Seminar three hours a week.

GINS 4900 [0.5 credit]**Tutorial in Global and International Studies**

A tutorial on selected topics in which seminars are not available.

Prerequisite(s): fourth-year Honours standing in B.G.In.S. and permission of the Program Director.

GINS 4908 [1.0 credit]**Honours Research Essay**

Individual research project resulting in a major essay, completed under the supervision of a faculty member and evaluated by both the supervisor and an appointed reader. B.G.In.S. regulations apply.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in B.G.In.S. with a CGPA of 9.00 or higher, or permission of the Program Director.

Global Development (B.G.In.S. Specialization and Stream)

This section presents the requirements for programs in:

- Specialization in Global Development B.G.In.S. Honours
- Stream in Global Development B.G.In.S.

Program Requirements

Bachelor of Global and International Studies (B.G.In.S.)

Note: Details regarding graduation requirements, the international experience requirement, and the language requirement for the B.G.In.S. degree can be found at the B.G.In.S. program page.

Specialization in Global Development B.G.In.S. Honours (20.0 credits)

A. Credits included in the Major CGPA (12.0 credits)

1. 4.5 credits in: Core Courses	4.5
GINS 1000 [0.5] Global History	
GINS 1010 [0.5] International Law and Politics	
GINS 1020 [0.5] Ethnography, Globalization and Culture	
GINS 2000 [0.5] Ethics and Globalization	
GINS 2010 [0.5] Globalization and International Economic Issues	
GINS 2020 [0.5] Global Literatures	
GINS 3010 [0.5] Global and International Theory	
GINS 3020 [0.5] Places, Boundaries, Movements and Global Environmental Change	
GINS 4090 [0.5] Honours Seminar in Global and International Studies	
2. 0.0 credit in: International Experience Requirement Preparation	
GINS 1300 [0.0] International Experience Requirement Preparation	
3. 7.5 credits in: the Specialization	
a. 0.5 credit in: Foundations	0.5
GINS 1100 [0.5] Global Development	
b. 1.5 credits in: Anthropology	1.5
ANTH 1001 [0.5] Introduction to Socio-Cultural Anthropology	
or ANTH 1002 [0.5] Introduction to Issues in Anthropology	
ANTH 2850 [0.5] Development and Underdevelopment	
And one of:	
ANTH 3010 [0.5] Language, Culture, and Globalization	
ANTH 3025 [0.5] Anthropology and Human Rights	
ANTH 3027 [0.5] Studies in Globalization and Human Rights	
ANTH 3040 [0.5] The Global Middle Class	
ANTH 3045 [0.5] Children and Childhood in a Globalized World	
ANTH 3355 [0.5] Anthropology and the Environment	
c. 1.5 credits in: Economics	1.5

ECON 1001 [0.5] Introduction to Microeconomics (or FYSM 1003 in place of ECON 1001 and ECON 1002)	
ECON 1002 [0.5] Introduction to Macroeconomics (or FYSM 1003 in place of ECON 1001 and ECON 1002)	
ECON 3508 [0.5] Introduction to Economic Development	
d. 1.5 credits in: Geography	1.5
GEOG 2200 [0.5] Global Connections	
GEOG 3404 [0.5] Geographies of Economic Development	
And one of:	
GEOG 2023 [0.5] Cities, Inequality and Urban Change	
GEOG 3023 [0.5] Cities in a Global World	
GEOG 3209 [0.5] Sustainability and Environment in the South	
e. 1.5 credits in: Political Science	1.5
PSCI 2102 [0.5] Comparative Politics of the Global South	
One of:	
PSCI 3100 [0.5] Politics of Development in Africa	
PSCI 3204 [0.5] Politics of Latin America	
PSCI 3502 [0.5] Gender and Politics: Global South	
PSCI 3700 [0.5] Government and Politics of South Asia	
And one of:	
PSCI 4104 [0.5] Development in the Global South - Theory and Practice	
PSCI 4105 [0.5] Selected Problems in Development in the Global South	
f. 0.5 credit in: Research Methodologies	0.5
IPAF 2000 [0.5] Quantitative Approaches to Policy Analysis	
g. 0.5 credits from: Advanced courses	0.5
ANTH 4005 [0.5] Health and Globalization	
ANTH 4109/5109 [0.5] Ethnography, Gender and Globalization	
ANTH 4560 [0.5] Economic Anthropology	
ANTH 4610 [0.5] Advanced Studies in Indigenous Peoples	
ANTH 4620 [0.5] Advanced Studies in Contemporary Sub-Saharan Africa: Current Issues in Anthropological Research	
ANTH 4730 [0.5] Colonialism and Post-Colonialism	
ANTH 4750 [0.5] Advanced Studies in Globalization and Citizenship	
ECON 3509 [0.5] Development Planning and Project Evaluation	
ECON 3510 [0.5] African Economic Development	
ECON 4507 [0.5] The Economics of Development	
ECON 4508 [0.5] International Aspects of Economic Development	
ECON 4601 [0.5] International Trade Theory and Policy	
ECON 4602 [0.5] International Monetary Theory and Policy	
ECON 4800 [0.5] Spatial Economics	

GEOG 4021 [0.5]	Seminar in Culture, Identity and Place
GEOG 4024 [0.5]	Seminar in Globalization
PSCI 4104 [0.5]	Development in the Global South - Theory and Practice (if not used towards (e) above)
PSCI 4105 [0.5]	Selected Problems in Development in the Global South (if not used towards (e) above)
PSCI 4207 [0.5]	Globalization, Adjustment and Democracy in Africa
PSCI 4500 [0.5]	Gender and Globalization
PSCI 4603 [0.5]	Analysis of International Political Economy
PSCI 4605 [0.5]	Gender in International Relations
PSCI 4800 [0.5]	Advanced International Relations Theory
PSCI 4805 [0.5]	Political Economy of Global Money and Finance
PSCI 4808 [0.5]	Global Environmental Politics

Note: To meet the prerequisite requirements for the economics courses listed among the 4000-level Global Development electives above, students must have obtained a grade of C- or higher in one or both of ECON 2030 and ECON 2103 and, in the case of ECON 4800, a grade of C- or higher in ECON 2220 as well.

B. Credits Not Included in the Major CGPA (8.0 credits)

4. **8.0 credits in:** Free Electives 8.0

C. Additional Requirements

Global and International Studies (GINS) Courses

GINS 1000 [0.5 credit]

Global History

Introduction to political, social, cultural, economic and military developments in global and international history. Prerequisite(s): Enrolment in B.G.In.S. Lectures two hours a week, tutorials one hour a week.

GINS 1010 [0.5 credit]

International Law and Politics

Introduction to the evolution of the international system, including the rise of the state, sovereignty, and the challenge of international cooperation. The role of international law in addressing global issues such as human rights, security and trade. Prerequisite(s): Enrolment in B.G.In.S. Lectures two hours a week, tutorials one hour a week.

GINs 1020 [0.5 credit]**Ethnography, Globalization and Culture**

Introduction to the intersection of globalization processes with social and cultural diversity as examined through ethnography and ethnographic methods. Topics may include cultural survival, growing economic inequality, ecological vulnerabilities, health practices, human rights, and shifting racialized, gendered, religious, ethnic, and national identities.

Prerequisite(s): Enrolment in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINs 1100 [0.5 credit]**Global Development**

Introduction to key questions and issues in development studies, taught from an inter-disciplinary perspective.

Lectures two hours a week, tutorials one hour a week.

GINs 1300 [0.0 credit]**International Experience Requirement Preparation**

This mandatory course introduces BGIInS students to the International Experience Requirement (IER) and to the various policies and procedures associated with it. Graded SAT/UNS.

Prerequisite(s): first-year standing in BGIInS.

Online course.

GINs 2000 [0.5 credit]**Ethics and Globalization**

Introduction to global ethical issues, focusing on alternative lines of ethical argument. Topics may include poverty and unequal development, climate change, war and terrorism, reparations for colonialism and slavery, international relief services, ill effects of globalization, trafficking and forced labour, democracy and global governance.

Prerequisite(s): Second-year standing in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINs 2010 [0.5 credit]**Globalization and International Economic Issues**

An introduction to the world economy, international trade and finance, and economic development. Social and economic implications for both rich and poor countries of lowered barriers to the international flows of goods, services, capital, labour, and information in the age of globalization.

Prerequisite(s): Second-year standing in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINs 2020 [0.5 credit]**Global Literatures**

A study of the global dynamics of the contemporary literary imagination and literary production; literature as cultural practice; the politics of literary circulation; the politics of language and translation.

Prerequisite(s): second-year standing in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINs 3010 [0.5 credit]**Global and International Theory**

Advanced analysis of global and international theories from a variety of perspectives, including realism, liberalism, postmodernism, constructivism, post-structuralism, literary and critical approaches.

Prerequisite(s): third-year standing in B.G.In.S.

Lectures three hours a week.

GINs 3020 [0.5 credit]**Places, Boundaries, Movements and Global Environmental Change**

Examination of the relationship between individual places and global social and environmental processes. The changing nature of regions, states and political boundaries in the context of political and economic globalization and international migration. Social science perspectives on climate change vulnerability, adaptation and mitigation.

Prerequisite(s): third-year standing in B.G.In.S.

Lectures three hours a week.

GINs 3100 [0.5 credit]**Global and International Group Project**

Student teams work on a project related to global and international studies. Lectures are devoted to discussing group project-related issues and student presentations. A project proposal, a series of project reports and oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lecture one hour per week, tutorials two hours per week.

GINs 3200 [0.5 credit]**Experiential Learning Abroad**

An experiential learning opportunity combining volunteer work abroad with classroom instruction on the Carleton campus. Through experiential engagement outside Canada, together with critical reflection, students will learn about the challenges and rewards of global engagement.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing.

Lecture two hours a week plus a three week experiential learning trip abroad.

GINs 3300 [0.5 credit]**Global and International Studies Abroad: Selected Topics**

Based at a partner university around the world, and taught by a Carleton faculty member, the course will include lectures, seminars, guest speakers, field visits and group research projects to examine a topic in global and international studies. Topic and location will change annually.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and approval by the BGIInS Program Director.

Three week intensive course.

GINS 3900 [0.5 credit]**International Placement**

Placement for six weeks with a global and international focus.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in B.G.In.S.

GINS 3901 [1.0 credit]**International Placement**

Placement for twelve weeks with a global and international focus.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in B.G.In.S.

GINS 3930 [0.5 credit]**Carleton International Placement**

Placement for six weeks with a global and international focus for students outside of the BGINs Program.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 3701, IPAF 3900 (no longer offered).

Prerequisite(s): Third-year standing and minimum CGPA of 9.0.

Placement hours to be negotiated with on-site placement supervisor. Required assignments and due dates will be set by the course instructor at Carleton University.

GINS 3931 [1.0 credit]**Carleton International Placement**

Placement for twelve weeks with a global and international focus for students outside of the BGINs Program.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 3702, IPAF 3901 (no longer offered).

Prerequisite(s): Third-year standing and minimum CGPA of 9.0.

Placement hours to be negotiated with on-site placement supervisor. Required assignments and due dates will be set by the course instructor at Carleton University.

GINS 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

GINS 4090 [0.5 credit]**Honours Seminar in Global and International Studies**

Examination of key debates in global and international studies from a variety of disciplinary and interdisciplinary perspectives. Integration of knowledge from different areas of emphasis in global studies. A major research paper is required that undertakes to focus theoretical insight on practical concerns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in B.G.In.S. Seminar three hours a week.

GINS 4900 [0.5 credit]**Tutorial in Global and International Studies**

A tutorial on selected topics in which seminars are not available.

Prerequisite(s): fourth-year Honours standing in B.G.In.S. and permission of the Program Director.

GINS 4908 [1.0 credit]**Honours Research Essay**

Individual research project resulting in a major essay, completed under the supervision of a faculty member and evaluated by both the supervisor and an appointed reader. B.G.In.S. regulations apply.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in B.G.In.S. with a CGPA of 9.00 or higher, or permission of the Program Director.

Global Migration and Transnationalism (B.G.In.S. Specialization and Stream)

This section presents the requirements for programs in:

- Specialization in Global Migration and Transnationalism B.G.In.S. Honours
- Stream in Global Migration and Transnationalism B.G.In.S.

Program Requirements**Bachelor of Global and International Studies (B.G.In.S.)**

Note: Details regarding graduation requirements, the international experience requirement, and the language requirement for the B.G.In.S. degree can be found at the B.G.In.S. program page.

Specialization in Global Migration and Transnationalism**B.G.In.S. Honours (20.0 credits)****A. Credits Included in the Major CGPA (12.0 credits)**

1. 4.5 credits in Core Courses	4.5

SOCI 3019 [0.5]	Sociology of International Migration
e. 1.5 credits from Approved 4000-level Honours Courses in Global Migration and Transnationalism	
Notes:	
1) Please see the list of Approved Courses in Global Migration and Transnationalism in this calendar for courses that fulfill the above thematic category and 4000-level Honours requirements.	
2) Courses in the Specialization that potentially fulfill more than one specialization requirement can only be counted once.	
3) Some upper-level courses on this list may have specific prerequisites. Students are encouraged to consult the course calendar when planning their schedules to be aware of those prerequisites and to fulfill them before registering. Prerequisites that do not count towards the Major CGPA may be counted towards free electives.	

B. Credits Not Included in the Major CGPA (8.0 credits)	
4. 8.0 credits in: Free Electives	8.0
C. Additional Requirements	
5. The International Experience requirements must be met.	
6. The Language requirement must be met.	
Total Credits	20.0

Stream in Global Migration and Transnationalism B.G.In.S. (15.0 credits)

A. Credits Included in the Major CGPA (8.0 credits)	
1. 4.0 credits in Core Courses	4.0
GINS 1000 [0.5]	Global History

GINS 1010 [0.5]	International Law and Politics
GINS 1020 [0.5]	Ethnography, Globalization and Culture
GINS 2000 [0.5]	Ethics and Globalization

SOCI 1002 [0.5]	Introduction to Sociology II
b. 0.5 credit in Stream Core Course	
MGDS 2000 [0.5]	Global Migration and Transnationalism

c. 2.5 credits from Global Migration and Transnationalism Thematic Categories	
1) Transnationalism in the Arts, Literature, and Music	
2) Historical, Cultural, and Regional Contexts	
3) Citizenship, Identity, and Rights	
4) International Migration, Globalization, and Politics	
Must include 0.5 credit in at least three of the four categories. Only 0.5 credit at the 1000 level. At least 1.0 credit must be at the 3000 level.	

B. Credits Not Included in the Major CGPA (7.0 credits)

3. 7.0 credits in Free Electives	7.0
---	-----

C. Additional Requirements

4. The Language requirement must be met.	
--	--

Total Credits	15.0
----------------------	-------------

Approved Courses in Global Migration and Transnationalism

This list contains approved courses in Global Migration and Transnationalism that fulfill the four thematic and 4000-level Honours requirements for the BGInS Global Migration and Transnationalism Stream and Specialization. Students are advised that some courses may have prerequisites that must be met in order to register for a particular course.

Global Migration and Transnationalism Thematic Categories

- 1) Transnationalism in the Arts, Literature, and Music
- 2) Historical, Cultural, and Regional Contexts

3) Citizenship, Identity, and Rights

4) International Migration, Globalization, and Politics

Approved Courses in Global Migration and Transnationalism

1) Transnationalism in the Arts, Literature, and Music

Regulations

In addition to the requirements listed here, students must satisfy:

1. the University regulations including the process of Academic Performance Evaluation (see the Academic Regulations of the University section of this Calendar).

Migration and Diaspora Studies (MGDS) Courses

MGDS 2000 [0.5 credit]

Global Migration and Transnationalism

Introduction to the social, cultural, economic and political implications of the movement of people with a multidisciplinary and multiscale approach to topics such as migration and immigration, diaspora identities, global culture, and transnationalism.

Prerequisite(s): second-year standing.

Lecture and discussion three hours a week.

MGDS 4900 [0.5 credit]

Special Topics in Migration and Diaspora Studies

Advanced topics in Migration and Diaspora Studies. Topics vary from term to term.

Prerequisite(s): Fourth-year standing or permission of the department.

Also offered at the graduate level, with different requirements, as MGDS 5900, for which additional credit is precluded.

Seminar three hours a week

Greek and Roman Studies

This section presents the requirements for programs in:

- Greek and Roman Studies B.A. Honours
- Greek and Roman Studies B.A. Combined Honours
- Greek and Roman Studies B.A.
- Minor In Archaeology
- Minor in Greek and Roman Studies

Program Requirements

Greek and Roman Studies B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 1.0 credit in GREK or LATN	1.0
2. 3.0 credits in 2000-level CLCV, GREK, or LATN	3.0
3. 2.0 credits in 3000-level or higher in CLCV, GREK or LATN	2.0
4. 1.0 credit in 4000-level CLCV, GREK, or LATN	1.0
5. 3.0 credits in electives in Greek and Roman Studies (CLCV, GREK, LATN, FYSM 1106)	3.0

B. Credits Not Included in the Major CGPA (10.0 credits)

6. 8.0 credits in electives not in Greek and Roman Studies (CLCV, GREK, LATN)	8.0
7. 2.0 credits in free electives.	2.0

Total Credits **20.0**

Greek and Roman Studies

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)

1. 1.0 credit in GREK or LATN	1.0
2. 2.0 credits from 2000-level CLCV, GREK, LATN	2.0
3. 2.0 credits from 3000-level or higher CLCV, GREK, LATN	2.0
4. 1.0 credit in 4000-level CLCV, GREK or LATN	1.0
5. 1.0 credit in electives in Greek and Roman Studies (CLCV, GREK, LATN, FYSM 1106)	1.0

B. Additional Requirements (13.0 credits)	13.0
6. The requirements for the other discipline must be satisfied	
7. Sufficient free electives to make 20.0 credits total for the degree.	

Total Credits **20.0**

Greek and Roman Studies

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (6.0 credits)

1. 3.0 credits in 2000-level CLCV, GREK, or LATN	3.0
2. 2.0 credits in 3000-level CLCV, GREK, or LATN	2.0
3. 1.0 credit in electives in Greek and Roman Studies (CLCV, GREK, LATN, FYSM 1106)	1.0

B. Credits Not Included in the Major CGPA (9.0 credits)

4. 6.0 credits in electives not in Greek and Roman Studies (CLCV, GREK, LATN)	7.0
5. 3.0 credits in free electives	2.0

Total Credits **15.0**

Minor In Archaeology (4.0 credits)

This minor is available to all undergraduate degree students.

Requirements:

1. 1.0 credit in:	1.0
ARCY 1008 [0.5] Introduction to Archaeology I & ARCY 1009 [0.5] Introduction to Archaeology II	
Or	
CLCV 1008 [0.5] Introduction to Archaeology I & CLCV 1009 [0.5] Introduction to Archaeology II	
2. 1.0 credit in ARCY or approved electives at the 2000 level	1.0
3. 1.0 credit in ARCY or approved electives at the 3000 level	1.0
4. 1.0 credit in ARCY or approved electives at any level	1.0
5. The remaining requirements of the major discipline(s) and degree must be satisfied.	

Total Credits **4.0**

Approved Archaeology Electives

Other courses may be substituted for those specified below, when material on archaeology is central to the course. Such substitutions must be individually approved by the Greek and Roman Studies Program Coordinator.

Note: "R" designates that the course is repeatable.

Anthropology

---------------------------	--------------------------------

Minor in Greek and Roman Studies (4.0 credits)

Open to all undergraduate degree students not in the Greek and Roman Studies programs.

Requirements	
1. 1.0 credit from CLCV, GREK or LATN at the 2000-level or above	1.0
2. 1.0 credit from CLCV, GREK or LATN at the 3000-level or above	1.0
3. 2.0 credits from any level of CLCV, GREK, or LATN (may include FYSM 1106 [1.0])	2.0
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM,

GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in Good Standing.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section "English Language Requirements" in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Classical Civilization (CLCV) Courses

CLCV 1002 [0.5 credit]

Survey of Greek Civilization

Introduction to the study of Greek antiquity and the discipline of Classics and its methodologies. Greek culture and society are set in their historical contexts and studied through readings from representative ancient authors (in English translation) and through the art and architecture of the period.

Precludes additional credit for CLCV 1000, and CLCV 1109.

Lecture three hours a week.

CLCV 1003 [0.5 credit]

Survey of Roman Civilization

Introduction to the study of Roman antiquity and the discipline of Classics and its methodologies. The culture and society are set in their historical context and studied through readings from representative ancient authors (in English translation) and through the art and architecture of the period.

Precludes additional credit for CLCV 1000 and CLCV 1109.

Lecture three hours a week.

CLCV 1004 [0.5 credit]

Elementary Language Tutorial I

Elementary study of an ancient language.

Prerequisite(s): Permission of the unit.

Tutorial two hours a week plus out-of-class requirements.

CLCV 1005 [0.5 credit]

Elementary Language Tutorial II

Elementary study of an ancient language.

Prerequisite(s): Permission of the department.

Tutorial two hours a week plus out-of-class requirements.

CLCV 1008 [0.5 credit]

Introduction to Archaeology I

Introduction to the history, theory and practice of field archaeology. Excavations from all time periods and global regions will be discussed. Focus will be placed on excavation methods and technology, including dating, that enhance understanding of sites both on land and underwater.

Also listed as ARCY 1008.

Precludes additional credit for CLCV 2300 (no longer offered).

Lecture three hours a week.

CLCV 1009 [0.5 credit]

Introduction to Archaeology II

Continues the examination of various aspects of field archaeology begun in CLCV 1008. This course places greater focus on recent approaches to the interpretation of remains. These include environmental, cognitive and bioarchaeological approaches.

Also listed as ARCY 1009.

Precludes additional credit for CLCV 2300 (no longer offered).

Lecture three hours a week.

CLCV 2004 [0.5 credit]

Intermediate Language Tutorial I

Intermediate study of an ancient language.

Prerequisite(s): permission of the unit.

Tutorial two hours a week plus out-of-class requirements.

CLCV 2005 [0.5 credit]

Intermediate Language Tutorial II

Intermediate study of an ancient language.

Prerequisite(s): permission of the unit.

Tutorial two hours a week plus out-of-class requirements.

CLCV 2008 [0.5 credit]

Greek and Roman Epic

An examination of the genre of epic in Greco-Roman antiquity, including a close reading of translations of Homer and Vergil.

Also listed as ENGL 2012.

Precludes additional credit for CLCV 2009 and ENGL 2009 (no longer offered).

Prerequisite(s): second year standing or permission of the unit.

Lecture three hours a week.

CLCV 2010 [0.5 credit]

Greek and Roman Drama

An examination of the genres of tragedy and comedy in Greco-Roman antiquity.

Also listed as ENGL 2605.

Precludes additional credit for CLCV 2009 or ENGL 2009 (no longer offered).

Prerequisite(s): second year standing or permission of the unit.

Lecture three hours a week.

CLCV 2100 [0.5 credit]

Scientific and Medical terminology

Examination of Ancient Greek and Latin roots of technical terms found in the sciences, engineering, and medicine.

Lecture three hours a week.

CLCV 2103 [0.5 credit]

Greek Religion

A study of religion in ancient Greece.

Also listed as RELI 2735.

Precludes additional credit for CLCV 2102 and RELI 2734.

Lecture three hours a week.

CLCV 2104 [0.5 credit]

Roman Religion

A study of religion in ancient Rome.

Also listed as RELI 2737.

Precludes additional credit for CLCV 2102 and RELI 2734.

Lecture three hours a week.

CLCV 2105 [1.0 credit]**Greek Philosophy and the Western Tradition**

The Greek tradition from its pre-Socratic beginnings to Hellenistic and Roman philosophy (Cynicism, Epicureanism, Stoicism, Scepticism); focus on Socrates, Plato and Aristotle. Its conservation and reappropriation in the Middle Ages and Renaissance.

Also listed as PHIL 2005.

Precludes additional credit for PHIL 2006, CLCV 2006, PHIL 2007, CLCV 2007 (no longer offered).

CLCV 2303 [0.5 credit]**Greek Art and Archaeology**

The art, architecture and archaeology of ancient Greece. Vase painting, sculpture, architecture, town planning and analogous arts.

Also listed as ARTH 2102.

Precludes additional credit for CLCV 2302 (no longer offered) and ARTH 2100 (no longer offered).

Prerequisite(s): second-year standing or permission of the unit.

Lecture three hours a week.

CLCV 2304 [0.5 credit]**Roman Art and Archaeology**

The art, architecture and archaeology of the ancient Romans. Vase painting, sculpture, architecture, town planning and analogous arts are studied.

Also listed as ARTH 2105.

Precludes additional credit for CLCV 2302 and ARTH 2100.

Prerequisite(s): second-year standing or permission of the unit.

CLCV 2305 [1.0 credit]**Ancient Science and Technology**

The development and application of ancient science and technology in the fields of ancient engineering, machinery, metallurgy, transport, building, agriculture and Hippocratic medicine; the social position of craftsmen and artisans, the attitude of intellectuals to science and manual labour, the effects of slavery.

Also listed as TSES 2305.

Prerequisite(s): second-year standing or permission of the Department. This course is suitable for students with no previous knowledge of Greece or Rome.

Lecture three hours a week.

CLCV 2500 [0.5 credit]**Classical Mythology**

A study of classical mythology, emphasizing its use in Greek and Roman literature and its place in classical art and religion. There is some discussion of classical myths in terms of contemporary interpretations of myth.

Also listed as ENGL 2500.

Precludes additional credit for CLCV 2000 and ENGL 2007 (no longer offered).

Prerequisite(s): second-year standing or permission of the unit.

Lecture three hours a week.

CLCV 2902 [0.5 credit]**History of Ancient Greece I**

The history of ancient Greece from the Bronze Age through the Archaic period.

Also listed as HIST 2902.

Precludes additional credit for CLCV 2900 and HIST 2900.

Prerequisite(s): second-year standing or permission of unit.

Lecture three hours a week.

CLCV 2903 [0.5 credit]**History of Ancient Greece II**

The history of ancient Greece from the classical period to Alexander.

Also listed as HIST 2903.

Precludes additional credit for CLCV 2900 and HIST 2900.

Prerequisite(s): second-year standing or permission of the unit.

Lecture three hours a week.

CLCV 2904 [0.5 credit]**History of Ancient Rome I**

The history of ancient Rome from early Rome to the end of the Republic.

Also listed as HIST 2904.

Precludes additional credit for CLCV 2901 and HIST 2901.

Prerequisite(s): second-year standing or permission of the unit.

Lecture three hours a week.

CLCV 2905 [0.5 credit]**History of Ancient Rome II**

The history of ancient Rome from the end of the Republic to the coming of Islam.

Also listed as HIST 2905.

Precludes additional credit for CLCV 2901 (no longer offered) and HIST 2901 (no longer offered).

Prerequisite(s): second-year standing or permission of the unit.

Lecture three hours a week.

CLCV 2906 [0.5 credit]**Studies in Classical Civilization**

A study of a selected topic in ancient history, literature, languages, culture, archaeology and/or technology.

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3000 [0.5 credit]**Topics in Ancient History**

A study of a selected topic in ancient history.

Also listed as HIST 3000.

Prerequisite(s): third-year standing or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3001 [0.5 credit]**Early Greek Philosophy**

A study of the pre-Socratic philosophers and of the Sophists and Socrates.

Also listed as PHIL 3001.

Prerequisite(s): CLCV 2105 or PHIL 2005 or permission of the Philosophy department.

Lectures three hours a week.

CLCV 3003 [0.5 credit]**Topics in Classical Civilization**

A study of a selected topic in classical civilization.

Prerequisite(s): third-year standing or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3010 [0.5 credit]**The Later Roman Empire**

The study of major developments - administrative, ecclesiastical, cultural and societal - of the later Roman Empire.

Also listed as HIST 3010.

Precludes additional credit for CLCV 3002 and HIST 3002.

Prerequisite(s): a 2000-level CLCV course.

Lecture three hours a week.

CLCV 3011 [0.5 credit]**Topics in Ancient Philosophy**

A study of philosophers, texts, problems and issues in ancient philosophy, generally with a focus on Plato and Aristotle.

Also listed as PHIL 3000.

Prerequisite(s): 0.5 credit in PHIL and second-year standing, or permission of the Philosophy department.

Lectures three hours a week.

CLCV 3201 [0.5 credit]**Studies in Greek History**

Study of a period or theme in Greek History.

Also listed as HIST 3009.

Prerequisite(s): 1.0 credit in CLCV courses (or equivalent) or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3202 [0.5 credit]**Studies in Roman History**

Study of a period or theme in Roman History.

Also listed as HIST 3101.

Prerequisite(s): 1.0 credit in CLCV courses (or equivalent) or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3215 [0.5 credit]**Ancient Greek Science**

The history of Greek physical science from the Presocratics to Ptolemy. (Field a or e).

Also listed as HIST 3215.

Precludes additional credit for HIST 2201 or HIST 3210 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lecture three hours a week.

CLCV 3301 [0.5 credit]**Field Work I: Greek and Roman World**

Students will participate for a minimum of three weeks on an archaeological field project (i.e., excavation or survey) relevant to the Greek and Roman world. They will learn archaeological documentation and the analysis, recording, and processing of finds.

Includes: Experiential Learning Activity

Also listed as ARCY 3301.

Prerequisite(s): CLCV 1008 and CLCV 1009 or CLCV 2300 and permission of the unit. Permission of the unit is required to repeat this course.

CLCV 3306 [0.5 credit]**Studies in Greek Art**

A study of period or theme in the art and archaeology of Ancient Greece. Topics may vary from year to year.

Also listed as ARTH 3102, RELI 3732.

Precludes additional credit for RELI 3731 and ARTH 3101 (no longer offered) and RELI 3306 (if taken summer 2005, summer 2006, summer 2007).

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3307 [0.5 credit]**Studies in Roman Art**

A study of a period or theme in the art and archaeology of the ancient Romans. Topics may vary from year to year.

Also listed as ARTH 3105, RELI 3733.

Precludes additional credit for RELI 3731 and ARTH 3101 (no longer offered) and RELI 3306 (if taken summer 2005, summer 2006, summer 2007).

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3400 [0.5 credit]**Greek and Roman Studies Abroad**

This course combines academic study in Canada with first hand examination of museum collections and sites of the ancient world, normally in Greece and Italy. Course content varies from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): 1.0 credit in Greek and Roman Studies, any level (CLCV, GREK, or LATN). Permission of the unit is required to repeat this course.

Hours to be arranged.

CLCV 3701 [0.5 credit]**Studies in Greek Literature**

A study of an author or topic in Greek literature. Contents of this course vary from year to year.

Also listed as ENGL 3008.

Prerequisite(s): 1.0 credit in CLCV courses (or equivalent) at second year level or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3702 [0.5 credit]**Studies in Roman Literature**

A study of an author or topic in Roman literature.

Also listed as ENGL 3009.

Prerequisite(s): 1.0 credit in CLCV courses (or equivalent) at second year level or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 4000 [0.5 credit]**Field Work II: Greek and Roman World**

Students participate for a minimum of three weeks in a position of responsibility (for example, as a trench supervisor or lab assistant) on an archaeological field project relevant to the Greek and Roman world.

Includes: Experiential Learning Activity

Also listed as ARCY 4000.

Prerequisite(s): CLCV 3300 and permission of the unit.

Permission of the unit is required to repeat this course.

Field work

CLCV 4210 [0.5 credit]**Topics in Ancient History**

Intended for Honours students in History and Classics who should normally be in the third and fourth-years.

Includes: Experiential Learning Activity

Also listed as HIST 4210.

Prerequisite(s): CLCV 2902 (HIST 2902),

CLCV 2903 (HIST 2903) or CLCV 2904 (HIST 2904),

CLCV 2905 (HIST 2905) or CLCV 3201 or CLCV 3202 or permission of the unit.

Seminar three hours a week.

CLCV 4800 [0.5 credit]**Seminar in Greek and Roman Studies**

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Greek and Roman Studies B.A. program, or permission of the department.

Seminar three hours a week.

CLCV 4801 [0.5 credit]**Seminar in Greek and Roman Studies**

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Greek and Roman Studies B.A. program, or permission of the department.

Seminar three hours a week.

CLCV 4900 [0.5 credit]**Directed Readings and Research**

These courses consist of supervised readings and research projects in a specific area of Classical Civilization to be chosen in consultation with the Honours Supervisor.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing and permission of the unit.

Greek (GREK) Courses**GREK 1005 [0.5 credit]****Introduction to Greek I**

A course for beginners in ancient Greek, designed to give students a grasp of basic grammatical forms and vocabulary (with reference to English derivatives) through the reading of continuous Greek.

Includes: Experiential Learning Activity

Lectures and tutorials four hours a week.

GREK 1006 [0.5 credit]**Introduction to Greek II**

A course for students with some previous knowledge of the language: study of grammatical forms and constructions; acquisition of reading skills.

Includes: Experiential Learning Activity

Prerequisite(s): GREK 1005 or equivalent.

Lectures and tutorials four hours a week.

GREK 2200 [0.5 credit]**Intermediate Greek I**

Further study of the language; introduction to the reading of ancient Greek authors.

Includes: Experiential Learning Activity

Precludes additional credit for GREK 2001.

Prerequisite(s): GREK 1006 or equivalent.

Tutorials three hours a week.

GREK 2201 [0.5 credit]**Intermediate Greek II**

Continued study of the language; reading of selected prose and poetry by ancient Greek authors; development of translation skills.

Precludes additional credit for GREK 2001.

Prerequisite(s): GREK 2200 or equivalent.

Tutorials three hours a week.

GREK 3900 [0.5 credit]**Advanced Greek I**

Reading and critical discussion of selections from ancient Greek.

Prerequisite(s): GREK 2200, GREK 2201 or equivalent.

Tutorials three hours a week.

GREK 3901 [0.5 credit]**Advanced Greek II**

Reading and critical discussion of selections from ancient Greek.

Prerequisite(s): GREK 2200, GREK 2201 or equivalent.

Tutorials three hours a week.

GREK 4900 [0.5 credit]
Directed Study

GREK 4901 [0.5 credit]
Directed Study

Latin (LATN) Courses

LATN 1005 [0.5 credit]
Introduction to Latin I

A course for beginners in Latin, designed to give students a grasp of basic grammatical forms and vocabulary (with reference to English derivatives) through the reading of continuous Latin.

Includes: Experiential Learning Activity

Lectures and practice periods four hours a week.

LATN 1006 [0.5 credit]
Introduction to Latin II

A course for students with some previous knowledge of the language: study of grammatical forms and constructions; acquisition of reading skills.

Includes: Experiential Learning Activity

Prerequisite(s): LATN 1005 or equivalent.

Lectures and practice periods four hours a week.

LATN 2200 [0.5 credit]
Intermediate Latin I

Further study of the language; introduction to the reading of Latin authors.

Includes: Experiential Learning Activity

Precludes additional credit for LATN 2001.

Prerequisite(s): LATN 1006 or equivalent.

Tutorials three hours a week.

LATN 2201 [0.5 credit]
Intermediate Latin II

Continued study of the language; reading of selected prose and poetry by Latin authors; development of translation skills.

Precludes additional credit for LATN 2001.

Prerequisite(s): LATN 2200 or equivalent.

Tutorials three hours a week.

LATN 3900 [0.5 credit]
Advanced Latin I

Reading and critical discussion of selections from Latin poetry.

Prerequisite(s): LATN 2200, LATN 2201 or equivalent.

Tutorials three hours a week.

LATN 3901 [0.5 credit]
Advanced Latin II

Reading and critical discussion of selections from Latin prose.

Prerequisite(s): LATN 2200, LATN 2201 or equivalent.

Tutorials three hours a week.

LATN 4900 [0.5 credit]
Directed Study

LATN 4901 [0.5 credit]
Directed Study

Health Sciences

This section presents the requirements for programs in:

- Health Sciences with Concentration B.H.Sc. Honours
- Concentration in Biomedical Sciences
- Concentration in Disability and Chronic Illness
- Concentration in Environment and Health
- Concentration in Global Health
- Concentration in Health Throughout the Lifespan
- Health Sciences B.H.Sc.
- Journalism with Concentration in Health Sciences B.J. Honours
- Minor in Health Sciences

Program Requirements

Students in the B.H.Sc. Honours program choose to follow one of five concentrations. The selection must take place at admission.

Health Sciences with Concentration B.H.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA 10.5 credits)

1. 4.5 credits in: 4.5

HLTH 1000 [0.5]	Fundamentals of Health
HLTH 1002 [0.5]	Health Science Communication
HLTH 2001 [0.5]	Health Research Methods and Skills
HLTH 2002 [0.5]	Molecular and Cellular Pathology
HLTH 2003 [0.5]	Social Determinants of Health
HLTH 3101 [0.5]	Global Health
HLTH 3201 [0.5]	Epidemiology
HLTH 3302 [0.5]	Immunity and Immune-Related Disorders
HLTH 3404 [0.5]	Psychosocial and Biological Interactions in Health

2. 1.5 credits in: 1.5

a) Project/Field Placement pathway

0.5 credit from:

HLTH 3901 [0.5]	Emerging Issues in Health Sciences I
HLTH 3902 [0.5]	Emerging Issues in Health Sciences II
HLTH 3903 [0.5]	Emerging Issues in Health Sciences III
HLTH 3904 [0.5]	Emerging Issues in Health Sciences IV
HLTH 3905 [0.5]	Emerging Issues in Health Sciences V

and

1.0 credit from:

HLTH 4907 [1.0]	Capstone Course – Group Research Project
HLTH 4909 [1.0]	Capstone Course – Field Placement and Research Project
HLTH 4910 [1.0]	Honours Individual Research Thesis

OR

b) Essay pathway

0.5 credit in HLTH elective at the 3000 level or above

and		
1.0 credit in:		
HLTH 4906 [1.0]	Capstone course – Research Essay	
3. 0.5 credit in	HLTH at the 3000 level or above	0.5
4. 4.0 credits in	concentration electives at the 3000 level or above	4.0
B. Credits Not Included in the Major CGPA (9.5 credits)		
5. 2.5 credits in:		2.5
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
CHEM 1001 [0.5]	General Chemistry I	
CHEM 1002 [0.5]	General Chemistry II	
MATH 1007 [0.5]	Elementary Calculus I	
6. 1.0 credit from:		1.0
ECON 1001 [0.5]	Introduction to Microeconomics	
ECON 1002 [0.5]	Introduction to Macroeconomics	
PSYC 1001 [0.5]	Introduction to Psychology I	
PSYC 1002 [0.5]	Introduction to Psychology II	
7. 1.0 credit in:		1.0
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
STAT 2509 [0.5]	Introduction to Statistical Modeling II	
8. 1.0 credit in:		1.0
BIOL 2104 [0.5]	Introductory Genetics	
BIOL 2200 [0.5]	Cellular Biochemistry	
9. 0.5 credit in	approved 2000-level concentration electives	0.5
10. 0.5 credit from:		0.5
PHIL 1550 [0.5]	Introduction to Ethics and Social Issues	
PHIL 2408 [0.5]	Bioethics	
11. 3.0 credits in	free electives.	3.0

NOTE: The maximum allowed combined number of minors and concentrations for any student is two.

Total Credits 20.0

Concentration in Biomedical Sciences (5.0 credits)

1. 0.5 credit from:		0.5
CHEM 2203 [0.5]	Organic Chemistry I	
FOOD 2001 [0.5]	Principles of Nutrition	
NEUR 2201 [0.5]	Cellular and Molecular Neuroscience	
PSYC 2301 [0.5]	Introduction to Health Psychology	
2. 2.5 credits in:		2.5
BIOL 3104 [0.5]	Molecular Genetics	
BIOL 3305 [0.5]	Human and Comparative Physiology	
or BIOL 3306 [0.5]	Human Anatomy and Physiology

HIST 2311 [0.5]	Environmental History of Canada (b. 0.5 credit from:)	
b. 0.5 credit from:		0.5
INDG 1010 [0.5]	Introduction to Indigenous Peoplehood Studies	
INDG 1011 [0.5]	Introduction to Indigenous-Settler Encounters	
INDG 2011 [0.5]	Contemporary Indigenous Studies	
13. 5.0 credits in free electives. Students who take HIST 2304 to fulfill Item 12a will have 4.5 credits in free electives. Free elective credits may include JOUR courses in the 4300 series of courses, 4400 series of courses and 4500 series of courses, JOUR 4003, JOUR 4004 and JOUR 4005.		5.0
Total Credits		20.0

Minor in Health Sciences (4.0 credits)

This minor is open to all undergraduate degree students not in the Health Sciences program. Only students pursuing undergraduate programs requiring at least 20.0 credits to graduate and who have completed at least 4.0 credits towards their degree with a minimum Overall CGPA of 8.0 may be admitted to the Minor in Health Sciences.

Requirements:

1. 2.5 credits in:		2.5
HLTH 1001 [0.5]	Principles of Health I	
HLTH 2001 [0.5]	Health Research Methods and Skills	
HLTH 2002 [0.5]	Molecular and Cellular Pathology	
HLTH 2003 [0.5]	Social Determinants of Health	
HLTH 2020 [0.5]	Principles of Health II	
2. 1.5 credits in HLTH at the 3000-level or higher		1.5
3. The remaining requirements of the major discipline(s) and degree must be satisfied.		
Total Credits		4.0

Regulations

In addition to the program requirements described here, students must satisfy the University regulations (see the Academic Regulations of the University section of this Calendar).

Students should consult with the department when planning their program and selecting courses.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific

course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- Bachelor of Health Sciences (Honours)
- Bachelor of Health Sciences

Admission Requirements

First Year

B.H.Sc. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Biology, Chemistry, Earth and Space Sciences or Physics. (Calculus and Vectors is strongly recommended). A 4U course in English is recommended.

B.H.Sc.

Access to the B.H.Sc. degree is limited to B.H.Sc. (Honours) students who apply to transfer.

Advanced Standing

The program maintains a number of places for students who wish to transfer from Carleton or elsewhere. Normally, offers are made to students with an overall CGPA of 9.00 (B+) or higher.

Health Sciences (HLTH) Courses

HLTH 1000 [0.5 credit]

Fundamentals of Health

Introduction to what comprises a healthy body and mind, and what leads to illness and disease. Biomedical, psychosocial, and epidemiological approaches to current issues in the field of health. Policy and cultural/environmental contexts.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 1001.

Lectures three hours a week and group one hour a week.

HLTH 1001 [0.5 credit]

Principles of Health I

Health and illness will be considered from an interdisciplinary perspective, including biomedical, cultural, psychosocial and environmental.

Precludes additional credit for HLTH 1000.

Lecture three hours a week.

HLTH 1002 [0.5 credit]

Health Science Communication

Introduction to using library, database and/or bioinformatics resources to develop informed verbal, non-verbal and written communication within the context of healthcare, public health and health research. Concepts in ethical scholarship, proper use of sources and plagiarism will be introduced.

Lecture three hours a week.

HLTH 2001 [0.5 credit]

Health Research Methods and Skills

An introduction to quantitative and qualitative methods and designs in health sciences research. Basic research skills will also be provided, including regulatory aspects of conducting research, information literacy skills, evaluating published research and other sources of evidence in the digital age.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 1000 or HLTH 1001.

Lecture three hours a week, lab/workshop two hours a week.

HLTH 2002 [0.5 credit]

Molecular and Cellular Pathology

Introduction to the causes, natural history, and pathophysiology of common human diseases of various organ systems. Diseases related to structural and functional changes at the molecular, cellular and organ level.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 1000 and BIOL 1103 or HLTH 2020.

Lecture three hours a week.

HLTH 2003 [0.5 credit]

Social Determinants of Health

Overview of the social determinants of health, ranging from early life experiences, poverty, social status, migration, and the physical environment. The relation between social determinants and environmental vulnerabilities, health behaviours, illness prevalence, treatment outcomes, and access to health care.

Prerequisite(s): HLTH 1000 or HLTH 1001.

Lecture three hours a week.

HLTH 2004 [0.5 credit]

Microbiology and Virology

Introduction to the pathogenic microorganisms, including fungal, bacterial, viral and prion. Biochemical, genetic, pathological and epidemiological aspects in the human context; their interaction with host defense systems and strategies for antibiotic and vaccine development.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 3301 (no longer offered).

Prerequisite(s): HLTH 1000 and BIOL 1103 or permission of the department.

Lecture three hours a week, and laboratory three hours a week.

HLTH 2020 [0.5 credit]**Principles of Health II**

An overview of the history of medicine, its relationship to society, medical and health terminology, introduction to organ systems, diseases, illnesses and their diagnoses, current events in health and medicine.

Prerequisite(s): HLTH 1001 or permission of the department.

Lecture three hours a week.

HLTH 3101 [0.5 credit]**Global Health**

Overview of issues in global health with focus on low- and middle-income countries. Key indicators and determinants of global health, implementation and evaluation of global programs, challenges of research and interventions in under served areas, and key players in addressing global health issues.

Prerequisite(s): HLTH 2001 and HLTH 2003, or permission of the department.

Lecture and seminar, three hours per week.

HLTH 3102 [0.5 credit]**Indigenous Health in a Global World**

The health conditions of Indigenous peoples in different regions of the world; social and biological factors that contribute to greater risk and poor health; strategies of Indigenous peoples to restore health to their peoples.

Prerequisite(s): HLTH 2001 and HLTH 2003, or permission of the department.

Lecture and seminar three hours per week.

HLTH 3103 [0.5 credit]**Health Policy and Canada's Health Care System**

The history of Canada's health care system. The model of financing and intergovernmental responsibilities. Current and emerging policy debates facing our health care system, and the role of scientific evidence in decision-making and policy development.

Prerequisite(s): HLTH 1000 or HLTH 1001, or permission of the department.

Lecture and seminar three hours per week.

HLTH 3104 [0.5 credit]**Regulatory Issues and Human Health**

The general principles of health regulatory policies in Canada. The role of scientific evidence in developing legislation and regulations at different levels, including probable levels of risk, standards of evidence, cost-benefit analysis, ethical considerations, psychosocial factors influencing risk management and compliance, and evolving technologies.

Prerequisite(s): HLTH 1000 or HLTH 1001, or permission of the department.

Lecture and seminar three hours a week.

HLTH 3201 [0.5 credit]**Epidemiology**

Basic concepts of epidemiologic study designs and measures; inferences that are fundamental to the identification of causes and prevalence of diseases. Specialized issues within epidemiology including gene-environment interactions and the clustering of specific disease phenotypes.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 2507 and HLTH 2001, or permission of the department.

Lecture three hours a week, lab/workshop two hours a week.

HLTH 3302 [0.5 credit]**Immunity and Immune-Related Disorders**

Basic processes relevant to the immune system; the relationship between immune activity and functioning as related to the development of particular pathologies, such as virally-related illness, autoimmune disorders, inflammatory illnesses, and interactions with social and economic factors that promote immune-related disturbances.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 2002 and BIOL 2200 or permission of the department.

Lecture three hours a week, laboratory four hours a week. Labs require regular participation outside of the scheduled lab time.

HLTH 3303 [0.5 credit]**Molecular and Cellular Pathology II**

Advanced concepts in cell signaling and function, cell injury and death, tissue structure and wound healing and repair. This course will integrate genetic, biochemical and physiological mechanisms that contribute to health and disease.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 2002.

Lecture three hours a week, lab four hours a week.

HLTH 3401 [0.5 credit]**Diseases of Childhood**

Epidemiological, psychological and physiological basis for disease in childhood and adolescence. Topics will be discussed from a global and Canadian perspective and include the medicalization of these diseases.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of the department.

Lecture three hours a week.

HLTH 3402 [0.5 credit]**Diseases of Aging**

Aging is accompanied by increased illness related to cardiovascular, immune and neurodegenerative processes. This course assesses the fundamental mechanisms that determine these pathological conditions. Molecular mechanisms and psychosocial determinants; intervention and therapeutic strategies.

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of department.

Lecture three hours a week.

HLTH 3403 [0.5 credit]**Gender and Health**

The role of gender on psychosocial and biological mechanisms that alter the course of disease and treatment; health issues unique to women (e.g., reproductive and maternal health); the role of gender across cultures.

Prerequisite(s): HLTH 2002 and HLTH 2003, or permission of the department.

Lecture and seminar three hours a week.

HLTH 3404 [0.5 credit]**Psychosocial and Biological Interactions in Health**

The psychosocial and biological mechanisms that interact to influence health outcomes. Cultural, political, socioeconomic, and psychological factors that can impact the biological mechanisms underlying both mental and physical health; epigenetic and genetic alterations; implications for psychosocial interventions.

Precludes additional credit for HLTH 4402 (no longer offered).

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of the department.

Lecture and seminar three hours a week.

HLTH 3503 [0.5 credit]**Disability and Chronic Health Conditions**

An interdisciplinary view of disability and chronic health conditions, including risk factors, prevalence, and the trajectory of such conditions. Functional impact based on life stage. Strategies for health promotion, prevention, accommodations, treatment, and rehabilitation.

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of the department.

Lecture three hours a week.

HLTH 3901 [0.5 credit]**Emerging Issues in Health Sciences I**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses, and for skills development including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 3902 [0.5 credit]**Emerging Issues in Health Sciences II**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 3903 [0.5 credit]**Emerging Issues in Health Sciences III**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 3904 [0.5 credit]**Emerging Issues in Health Sciences IV**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 3905 [0.5 credit]**Emerging Issues in Health Sciences V**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 4101 [0.5 credit]**Global Health Governance**

Contemporary issues and debates in global health governance and effects on health monitoring and outcomes at individual and population levels. Historical patterns of global health, its regulatory framework, principal coordinating mechanisms and emerging challenges, and implications of globalization and international trade policies.

Prerequisite(s): HLTH 3101, or permission of the department.

Lecture and seminar three hours per week.

HLTH 4102 [0.5 credit]**New Health Technologies**

Overview of new and emerging health technologies, including medical and assistive devices, diagnostics and screening, genetics, reproduction, tissue regeneration, imaging, and health informatics. Health technology assessment methods and issues. Regulatory, ethical and social implications; considerations in the developing world.

Prerequisite(s): HLTH 1000 or HLTH 1001 and third-year standing or higher, or permission of the department. Also offered at the graduate level, with different requirements, as HLTH 5350, for which additional credit is precluded.

Lecture and seminar three hours a week.

HLTH 4201 [0.5 credit]**Applied Health Statistics**

Statistics concepts and procedures used in the analysis of health data; techniques commonly used to analyze data collected from different types of epidemiological and experimental study designs; how to interpret and present statistical findings.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 3201 and STAT 2507 or permission of the department.

Lecture three hours a week, lab/workshop two hours a week.

HLTH 4202 [0.5 credit]**Health Program Evaluation Tools and Methods**

Introduction to concepts, principles and processes of evaluating health care programs and interventions. Methodological tools including needs assessment, project management skills, use of health information management databases. Issues in communication with stakeholders, including change management and decision making.

Prerequisite(s): HLTH 2001 and STAT 2507 or permission of the department.

Lecture and seminar three hours a week.

HLTH 4301 [0.5 credit]**Pandemics and Infectious Disease**

Factors that influence disease processes, including viruses, bacteria, protozoa, fungi and infectious agents, how these agents come to have the effects that they do in a given individual, how they spread within and how to limit their spread.

Prerequisite(s): HLTH 2004 and HLTH 3302 or permission of the department.

Lecture three hours a week.

HLTH 4302 [0.5 credit]**Inflammatory and Endocrine Factors in Diseases**

Inflammatory and hormonal processes and their relevance to disease states. Immune-related disorders, heart disease and stroke, metabolic syndrome, diabetes, psychiatric conditions, and neurodegenerative disorders. The contribution of psychosocial and genetic factors to diseases.

Prerequisite(s): HLTH 3302 or BIOL 4200 or BIOC 4200 or permission of the department.

Lecture three hours a week.

HLTH 4303 [0.5 credit]**Fundamentals in Pharmacology and Toxicology**

Introduction to pharmacological principles, xenobiotics and their interactions within living systems. Topics include biological mechanisms of action of xenobiotics on macromolecules, cells and their effects on various organ systems. Social, legal and governmental policies will be discussed.

Prerequisite(s): HLTH 3303 or permission of the department.

Lecture and seminar three hours a week.

HLTH 4304 [0.5 credit]**Host-Pathogen Interactions**

Advanced cellular and molecular mechanisms governing host-pathogen interactions and their contribution to disease. Exploration of immune signaling and recognition, virulence factors, antimicrobial resistance and research techniques used in this field.

Prerequisite(s): HLTH 2004 and HLTH 3302 or permission of the department.

Also offered at the graduate level, with different requirements, as HLTH 5403, for which additional credit is precluded.

Seminar three hours per week.

HLTH 4401 [0.5 credit]**Maternal and Perinatal Determinants of Health**

The integrated genetic, physiologic and environmental events occurring in early life that impact pregnancy, fetal/infant development and disease risk throughout the lifecourse, with a focus on the mechanisms driving these events.

Prerequisite(s): HLTH 2003 and HLTH 3302 or permission of the department.

Lecture three hours a week.

HLTH 4502 [0.5 credit]**Disabilities and Disorders Related to Sensory Nervous System**

Congenital and acquired disabilities related to sensory organs and processes, including visual and hearing impairments, vestibular and balance disorders, reflex problems, and others. Interdisciplinary approach to causes, mechanisms, accessibility, accommodations and interventions.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 3501 (no longer offered).

Prerequisite(s): Either 1) HLTH 3503 and (BIOL 2005 or BIOL 3305 or BIOL 3306), or 2) NEUR 3206, or 3) permission of the department.

Lecture three hours a week, workshop two hours a week.

HLTH 4503 [0.5 credit]**Trauma-related Disability and Impairments**

Biomedical and psychosocial factors associated with trauma-related illnesses, stressors, injuries and disabilities, including traumatic brain injury, spinal cord injury, fractures, amputations, burns, post-traumatic stress disorder, and others. Short- and long-term considerations for care and rehabilitation.

Precludes additional credit for HLTH 3502 (no longer offered).

Prerequisite(s): HLTH 3503 and (BIOL 2005 or BIOL 3305 or BIOL 3306) or permission of the department.

Lecture three hours a week.

HLTH 4601 [0.5 credit]**Environmental Pollution and Health**

Introduction to environmental and occupational health; detection, assessment, management and mitigation of chemical, physical and biological hazards.

Prerequisite(s): HLTH 3104 or permission of the department.

Lecture and seminar three hours a week.

HLTH 4701 [0.5 credit]**Knowledge Translation**

The application of knowledge translation in the formulation of policy and the development of skills required to maximize the impact of scientific findings through real world programs and policies and communication skills for diverse audiences.

Prerequisite(s): fourth-year standing and permission of the Department of Health Science and permission of the instructor.

Also offered at the graduate level, with different requirements, as HLTH 5300, for which additional credit is precluded.

Seminar three hours a week.

HLTH 4901 [0.5 credit]**Directed Studies in Health**

Independent study, open to third- and fourth-year students to explore a particular health related topic, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the B.H.Sc. program, in addition to permission of the Faculty supervisor and the Department of Health Sciences.

HLTH 4906 [1.0 credit]**Capstone course – Research Essay**

Independent critical review and research proposal on a health- related topic, using library, database and/or bioinformatics resources, under the supervision of the course instructor. Seminar topics include identification and critical review of resources, development of scientific writing skills, and formulation of health science-related research.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 4907, HLTH 4908 (no longer offered), HLTH 4909, HLTH 4910.

Prerequisite(s): fourth-year standing in the B.H.Sc.

Honours and permission of the Department of Health Sciences.

Lecture/seminar three hours a week.

HLTH 4907 [1.0 credit]**Capstone Course – Group Research Project**

A collaborative project on a health related topic. Students, working together as a team, will complete a research project and develop communication and research skills under the supervision of the faculty supervisor. Evaluation will be based on a written report and oral presentation.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 4906, HLTH 4908 (no longer offered), HLTH 4909, HLTH 4910.

Prerequisite(s): fourth-year standing in the B.H.Sc.

Honours program, one of HLTH 3901, HLTH 3902, HLTH 3903, HLTH 3904 or HLTH 3905, a major CGPA of at least 9.0, and permission of the Faculty supervisor and the Department of Health Sciences.

Seminars three hours a week as scheduled by the course instructor; other hours as arranged with the Faculty Adviser.

HLTH 4909 [1.0 credit]

Capstone Course – Field Placement and Research Project

Field placement providing practical experience in a health-related field. Placements may be in institutional or community settings, governmental or non-governmental organizations. Sites may vary each year. Evaluation based on a written report and an oral presentation.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 4906, HLTH 4907, HLTH 4908 (no longer offered), HLTH 4910.

Prerequisite(s): fourth-year standing in B.H.Sc. Honours, one of HLTH 3901, HLTH 3902, HLTH 3903, HLTH 3904 or HLTH 3905, a major CGPA of at least 9.0 and permission of the Department of Health Sciences.

Schedules may vary depending on the field placement site, but students are required to spend a minimum of eight hours per week on-site and attend required seminars as arranged by the course instructor.

HLTH 4910 [1.0 credit]

Honours Individual Research Thesis

An independent health related research project under the direct supervision of a faculty member. Evaluation will be based on a written thesis and oral poster presentation (oral or poster).

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 4906, HLTH 4907, HLTH 4908, HLTH 4909.

Prerequisite(s): fourth-year standing in B.Sc. Honours Health Sciences, one of HLTH 3901, HLTH 3902, HLTH 3903, HLTH 3904 or HLTH 3905, a major CGPA of at least 10.0, and permission of the Faculty advisor and the Department of Health Sciences. Permission will depend, in part, on capacity, such that meeting the minimum requirements does not guarantee enrollment in this research thesis course.

History

This section presents the requirements for programs in:

- History B.A. Honours
- History B.A. Combined Honours
- History with Concentration in Public History B.A. Honours
- History B.A.
- Minor in History
- Specialization in Global and Transnational History B.G.In.S. Honours
- Stream in Global and Transnational History B.G.In.S.

Program Requirements

Course Categories

The following field definitions are used to classify history courses:

1. the world before 1750 (Field a)
2. modern Europe (Field b)
3. North America (Field c)

4. Asia, Africa, the Caribbean, and Latin America (Field d)
5. ideas, culture, and society (Field e)

The field classification of each course is included with the course description. Courses that do not have a history field classification cannot be used to meet the history field requirements of degree programs in History.

History

B.A. Honours (20.0 credits)

The requirements for this program are modified when the Honours Research Project is included.

Normal Pattern

A. Credits Included in the Major CGPA (10.0 credits)

1. **7.0 credits in history** including 0.5 credit in each of four of the five history fields below the 4000-level and satisfying:

- a. 1.0 credit at the 1000-level or FYSM 1405
- b. 2.0 credits at the 2000-level
- c. 3.0 credits at the 3000-level
- d. 1.0 credit at the 2000- or 3000-level.

2. **0.5 credit in:** 0.5

HIST 2809 [0.5] The Historian's Craft

3. **0.5 credit from:** 0.5

HIST 3810 [0.5] Historical Theory

HIST 3820 [0.5] Explorations in Historical Theory

4. **2.0 credits in 4000-level history seminars** 2.0

B. Credits Not Included in the Major CGPA (10.0 credits)

5. **8.0 credits in** electives not in HIST 8.0

6. **2.0 credits in** free electives (may be HIST) 2.0

Total Credits 20.0

Honours Research Project Pattern

A. Credits Included in the Major CGPA (10.0 credits)

1. **6.0 credits in history** including 0.5 credit in each of four of the five history fields below the 4000-level and satisfying:

- a. 1.0 credit at the 1000-level or FYSM 1405
- b. 2.0 credits at the 2000-level
- c. 2.0 credits at the 3000-level
- d. 1.0 credit at the 2000- or 3000-level

2. **0.5 credit in:** 0.5

HIST 2809 [0.5] The Historian's Craft

3. **0.5 credit from:** 0.5

HIST 3810 [0.5] Historical Theory

HIST 3820 [0.5] Explorations in Historical Theory

4. **2.0 credits in 4000-level history seminars** 2.0

5. **1.0 credits in:** 1.0

HIST 4910 [1.0] Honours Research Project

B. Credits Not Included in the Major CGPA (10.0 credits)

6. **8.0 credits in** electives not in HIST 8.0

7. **2.0 credits in** free electives (may be HIST) 2.0

Total Credits 20.0

Notes:

- Students should endeavour to have one course at the 2000- or 3000-level in the area of each fourth-year seminar.

History

B.A. Combined Honours (20.0 credits)

A. Credits Included in the History Major CGPA (6.0 credits)

1. **4.0 credits** in history including 0.5 credit in each of four of the five history fields below the 4000-level and satisfying: 4.0

- 1.0 credit in HIST at the 1000-level or FYSM 1405
- 2.0 credits in HIST at the 2000-level
- 1.0 credit in HIST at the 3000-level

2. **0.5 credit in:** 0.5
HIST 2809 [0.5] The Historian's Craft

3. **0.5 credit from:** 0.5
HIST 3810 [0.5] Historical Theory
HIST 3820 [0.5] Explorations in Historical Theory

4. **1.0 credit** in 4000-level history seminar(s) 1.0

B. Additional Credit Requirements (14.0 credits) 14.0

5. The requirements of the other discipline must be satisfied

6. Sufficient free elective credits to make 20.0 credits for the degree.

Total Credits **20.0**

History with Concentration in Public History

B.A. Honours (20.0 credits)

A. Credits included in the Major CGPA (11.0 credits)

1. **5.0 credits** in history including 0.5 credit in each of four of the five history fields below the 4000-level and satisfying: 5.0

- 1.0 credit at the 1000-level
- 1.0 credit at the 2000-level
- 2.0 credit at the 3000-level
- 1.0 credit at the 2000- or 3000-level

2. **0.5 credit in:** 0.5
HIST 2809 [0.5] The Historian's Craft

3. **0.5 credit in:** 0.5
HIST 2811 [0.5] Public History from Memory to Museums

4. **0.5 credit from:** 0.5
HIST 3810 [0.5] Historical Theory
HIST 3820 [0.5] Explorations in Historical Theory

5. **0.5 credit in:** 0.5
HIST 3809 [0.5] Historical Representations

6. **0.5 credit from:** 0.5
HIST 3807 [0.5] Practicum in History
HIST 3815 [0.5] Group Practicum

7. **1.5 credits from** (with at least 1.0 credit at the 3000-level): 1.5

- | | |
|-----------------|---|
| HIST 2812 [0.5] | Special Subject in Public History |
| HIST 3001 [0.5] | History at the Movies |
| HIST 3507 [0.5] | An Immigrant's Guide to Canada |
| HIST 3812 [0.5] | Digital History |
| HIST 3814 [0.5] | Crafting Digital History |
| HIST 3807 [0.5] | Practicum in History (if not used toward Item 6, above) |

HIST 3815 [0.5]	Group Practicum (if not used toward Item 6, above)
-----------------	--

HIST 3909 [0.5]	Topic in Public History
-----------------	-------------------------

0.5 credit from approved electives may be counted towards this requirement.

8. **2.0 credits** in 4000-level history seminars with at least 0.5 credits from: 2.0

HIST 4916 [0.5]	Topic in Public History
HIST 4920 [1.0]	Seminar in Public History

B. Credits Not Included in the Major CGPA (9.0 credits)

9. **8.0 credits** in electives not in HIST 8.0

10. **1.0 credit** in free electives (may be HIST) 1.0

Total Credits **20.0**

History

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)

1. **7.0 credits** in history including 0.5 credit in each of four of the five history fields below the 4000-level and satisfying: 7.0

- 1.0 credit in HIST at the 1000-level or FYSM 1405
- 2.5 credits in HIST at the 2000-level
- 0.5 credit in HIST 2809
- 0.5 credit from

HIST 3810 [0.5]	Historical Theory
HIST 3820 [0.5]	Explorations in Historical Theory

e. 2.5 credits in HIST at the 3000-level

B. Credits Not Included in the Major CGPA (8.0 credits)

2. **6.0 credits** not in HIST 6.0

3. **2.0 credit** in free electives (may be HIST) 2.0

Total Credits **15.0**

Minor in History (4.0 credits)

Open to all undergraduate degree students not in history programs or the B.G.In.S. Specialization or Stream in Global and Transnational History.

Requirements

1. **1.0 credit** in HIST at the 1000 level or FYSM 1405 1.0

2. **1.0 credit** in HIST at the 2000 level 1.0

3. **1.0 credit** in HIST at the 3000 level 1.0

4. **1.0 credit** in HIST from any combination of courses at the 2000, 3000, or 4000 level 1.0

5. The remaining requirements of the major discipline(s) and degree must be satisfied

Total Credits **4.0**

Bachelor of Global and International Studies (B.G.In.S.)

Note: Details regarding graduation requirements, the international experience requirement, and the language requirement for the B.G.In.S. degree can be found at the B.G.In.S. program page.

Specialization in Global and Transnational History

B.G.In.S. Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.0 credits)

1. **4.5 credits in:** Core Courses 4.5

Regulations

First Year Courses

There is a limit on the number of history courses permitted in a B.A. degree in History. To avoid the course designation of "Extra to Degree (ETD)" students should not exceed the maximum of two 1000-level history courses (including FYSM courses designated with topics in history).

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented

here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EARR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in Good Standing.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

B.G.In.S. Regulations

The regulations presented in this section apply to all Bachelor of Global and International Studies programs.

In addition to the program requirements and requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.G.In.S degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit of FYSM and can only register in a FYSM while they have first-year standing in their B.G.In.S program. Students who

have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Change of Specialization or Stream Within the B.G.In.S Degree

Students may change specialization or stream, or change from/to specialization or stream within the B.G.In.S. during the first or subsequent years of study if upon entry to the new specialization or stream they would be in good academic standing.

Minors

Students may apply to the Registrar's Office to be admitted to a minor during their first or subsequent years of study. Acceptance into a minor is subject to any specific requirements of the intended minor as published in the relevant Calendar entry. B.G.In.S. Honours students may take a maximum of one minor. B.G.In.S. students may take a maximum of two minors.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course).

Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a

student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to

accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.A. Honours History: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered in the B.A. Honours History;
2. Obtained and maintained an overall minimum CGPA of 8.0;
3. Have obtained second-year standing;
4. Be registered as a full-time student.

Students in B.A. Honours History must successfully complete three (3) work terms to obtain the Co-op designation.

Co-op Work Term Course: HIST 3999

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow

the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section "English Language Requirements" in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Direct Admission to the First Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European, Russian, and Eurasian Studies, French, Geography, Geography with a Concentration in Physical Geography, Geomatics, History, Law (Business Law), Law (Law, Policy and Government), Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements

for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- Bachelor of Global and International Studies (Honours)
- Bachelor of Global and International Studies

Admission Requirements

First Year

B.G.In.S. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*) and a FIF4U course for students applying to the Specialization in French and Francophone Studies. For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section English Language Requirements in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

B. G.In.S.

Access to the B.G.In.S. degree is limited to B.G.In.S. (Honours) students who apply to transfer.

Advanced Standing

B.G.In.S. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

History (HIST) Courses

Please note: not all of the following courses are offered in a given year. Consult the public class schedule at Carleton Central for the most up-to-date offerings. For further details concerning courses, see the departmental website at carleton.ca/history.

4000-level History **seminars** have limited enrolment. Priority in enrolment is given to students in History Honours and Combined Honours programs.

Topics in 4000-level History **seminars** change from year to year. Current topics are posted on the department's website at carleton.ca/history

HIST 1001 [1.0 credit]

The Making of Europe

A survey of the major events, ideas and movements that have shaped Europe from Antiquity to the 21st century. (Field a or b).

Lectures/groups three hours a week.

HIST 1002 [1.0 credit]

Europe in the 20th Century

An introduction to some of the major ideological, political, diplomatic, military, social, cultural and economic developments that have shaped contemporary Europe. (Field b).

Lectures/groups three hours a week.

HIST 1010 [0.5 credit]

History of Northern Canada

A historical introduction to northern Canada from pre-contact times to the present. Open only to students in the Nunavut Public Administration certificate program. (Field c).

HIST 1301 [0.5 credit]

Conflict and Change in Early Canadian History

This course explores how colonialism and conflict altered peoples, cultures, and places in what came to be called Canada from pre-contact to the first age of industrialization. Course covers subjects including imperialism, Indigenous-settler relations, slavery, migration, and government, providing context for contemporary issues. (Field c).

Precludes additional credit for HIST 1300 (no longer offered).

Lectures/groups three hours a week.

HIST 1302 [0.5 credit]

Rethinking Modern Canadian History

This course explores how major political, economic, legal, social, and cultural changes shaped modern-day Canada from the late 1800s to the present. It provides context for contemporary issues, including colonialism, redress, reconciliation, race relations, migration and urbanization, globalization, technology, and the environment. (Field c). Precludes additional credit for HIST 1300 (no longer offered).

Lectures/groups three hours a week.

HIST 1707 [1.0 credit]

World History

This course will follow the global community from 1400 to the present exploring how global connections, movements and trends have shaped our world with a particular focus on the non-western world. (Field a or d).

Lectures/groups three hours a week.

HIST 1900 [0.5 credit]

Topics in History

A lecture course on a special topic, theme, or period. Topic varies from year to year. (Field will depend on topic).

Lectures/groups three hours a week.

HIST 2000 [1.0 credit]

Medieval Europe

The history of medieval Europe from the fourth to the fifteenth century. (Field a).

Precludes additional credit for HIST 2001 and HIST 2002 (no longer offered).

Lectures/groups three hours a week.

HIST 2102 [0.5 credit]

Modern Thought and Culture: the Nineteenth Century

A broad examination of Western thought and culture in the 19th century with a focus on Europe and emphasis on major thinkers and intellectual, ideological, and cultural movements. The course is intended for students from varied disciplinary backgrounds. (Field e).

Precludes additional credit for HIST 2101 and HIST 3100 (no longer offered).

Lectures/groups three hours a week.

HIST 2103 [0.5 credit]

Modern Thought and Culture: the Twentieth Century

A broad examination of Western thought and culture in the 20th century with a focus on Europe and emphasis on major thinkers and intellectual, ideological, and cultural movements. The course is intended for students from varied disciplinary backgrounds. (Field e).

Precludes additional credit for HIST 2101 and HIST 3100 (no longer offered).

Lectures/groups three hours a week.

HIST 2204 [0.5 credit]**Early Modern Europe 1350-1650**

A survey of the major social, political and cultural developments in continental Europe from the 14th to the 17th centuries. (Field a).

Precludes additional credit for HIST 2203 (no longer offered).

Lectures/groups three hours a week.

HIST 2206 [0.5 credit]**Early Modern Europe 1600-1800**

A survey of the major social, political and cultural developments in continental Europe during the 17th and 18th centuries. (Field a).

Precludes additional credit for HIST 2203 (no longer offered).

Lectures/groups three hours a week.

HIST 2207 [1.0 credit]**Nineteenth-Century Europe**

A study of critical episodes in the history of continental Europe during the nineteenth century. Themes may include the struggles for democracy in France, modernizing reform in Russia, and national unification in Italy and Germany. (Field b).

Lectures/groups three hours a week.

HIST 2301 [0.5 credit]**Canadian Political History**

An historical survey of political experiences in Canada. (Field c).

Precludes additional credit for HIST 2303 (no longer offered).

Lectures/groups three hours a week.

HIST 2304 [1.0 credit]**Social and Cultural History of Canada**

A thematic exploration of how the spaces of home, work, and play have been historically produced, understood, and experienced in Canada. (Field c).

Lectures/groups three hours a week.

HIST 2308 [0.5 credit]**Colonial Latin America**

From ancient civilizations to the era of Independence, this class follows conquest, colonization and development of national identity in the countries of Latin America. (Field d).

Precludes additional credit for HIST 2307 (no longer offered).

Lectures/groups three hours a week.

HIST 2309 [0.5 credit]**Modern Latin America**

From the Wars of Independence until the end of the twentieth century, this class follows the emergence of Latin American nations, their economies, politics, culture and international relations. (Field d).

Precludes additional credit for HIST 2307 (no longer offered).

Lectures/groups three hours a week.

HIST 2311 [0.5 credit]**Environmental History of Canada**

A survey of Canadian history considering nature, landscape and geography. Topics include the history of energy regimes and climate change; Indigenous ecological knowledge; colonization and settlement; resource extraction; commodity production; environmental policies and movements. (Field c or e).

Precludes additional credit for HIST 2310 (no longer offered).

Lectures/groups three hours a week.

HIST 2312 [0.5 credit]**History of the Indian Ocean World**

The Indian Ocean is one of the oldest maritime highways in the history of humanity and also an epicentre of global economy in the pre-modern world. The aim of the course is to familiarize students with the non-Western antecedents of modern global history. (Field d).

Precludes additional credit for HIST 3716 (no longer offered).

Lectures/groups three hours a week.

HIST 2401 [0.5 credit]**History of the United States to 1865**

A survey of United States politics and society from the American Revolution to the Civil War. (Field c).

Precludes additional credit for HIST 2400 (no longer offered).

Lectures/groups three hours a week.

HIST 2402 [0.5 credit]**History of the United States from 1865**

A survey of United States politics and society from Reconstruction to the era of globalization. (Field c).

Precludes additional credit for HIST 2400 (no longer offered).

Lectures/groups three hours a week.

HIST 2501 [0.5 credit]**Early Modern Britain**

A survey of significant political and social developments in Britain from the 15th to the 18th century. (Field a).

Precludes additional credit for HIST 2500 [1.0], no longer offered.

Lectures/groups three hours a week.

HIST 2502 [0.5 credit]**Modern Britain**

A survey of significant political and social developments in Britain from the 18th to the late 20th century. (Field b).

Precludes additional credit for HIST 2500 [1.0], no longer offered.

Lectures/groups three hours a week.

HIST 2506 [0.5 credit]**Introduction to Women's and Gender History**

An introductory study of women's and gender history. Themes may include sexuality, masculinity, women's activism, consumer culture, religion, and reproductive rights. Geographic and temporal focus varies from year to year. (Field e).

Precludes additional credit for HIST 2504 (no longer offered).

Lectures/groups three hours a week.

Introduction to the history of the Caribbean that examines the indigenous populations, the role of colonialism and slavery in the construction of plantation societies, the impact of emancipation, and the social, cultural, economic, and political dynamics of the Caribbean in the post-emancipation period. (Field d).

Precludes additional credit for HIST 2704 (no longer offered).

Lectures/groups three hours a week.

HIST 2802 [0.5 credit]**War and Society in Modern Europe, 1789-1914**

A thematic study of the experience of war and its consequences. The European country or region to be studied, will vary from year to year. (Field b).

Precludes additional credit for HIST 2801 (no longer offered).

Lectures/groups three hours a week.

HIST 2803 [0.5 credit]**War and Society in Modern Europe, 1914-1950**

A thematic study of the experience of war and its consequences. The European country or region to be studied, will vary from year to year. (Field b).

Precludes additional credit for HIST 2801 (no longer offered).

Lectures/groups three hours a week.

HIST 2806 [1.0 credit]**History of Japan**

A survey of Japanese history from the legendary beginning of the country in 660 B.C. to the end of World War Two. (Field a or d).

Lectures/groups three hours a week.

HIST 2809 [0.5 credit]**The Historian's Craft**

Lectures and workshops on historical methods and materials. Topics will include the discovery, evaluation, use and analysis of documents in historical context, non-documentary evidence, statistics, and bibliographical tools. Includes: Experiential Learning Activity

Precludes additional credit for HIST 2808 [1.0 credit], no longer offered.

Prerequisite(s): open only to History majors with at least second-year standing.

Lectures/groups three hours a week.

HIST 2811 [0.5 credit]**Public History from Memory to Museums**

Historical representation in the public arena and public engagement with the past, including archives, museums, films, novels, and video games. This course will involve online work, collaborative projects, and field trips. (Field e). Includes: Experiential Learning Activity
Lectures three hours a week or online.

HIST 2812 [0.5 credit]**Special Subject in Public History**

A lecture course on a special topic, theme, or period in public history. Topic varies from year to year. (Field e).
Lectures three hours a week.

HIST 2902 [0.5 credit]**History of Ancient Greece I**

The history of ancient Greece from the Bronze Age through the Archaic period. (Field a).

Also listed as CLCV 2902.

Precludes additional credit for CLCV 2900, HIST 2900 (no longer offered).

Prerequisite(s): second-year standing or permission of the unit.

Lectures three hours a week.

HIST 2903 [0.5 credit]**History of Ancient Greece II**

The history of ancient Greece from the classical period to Alexander. (Field a).

Also listed as CLCV 2903.

Precludes additional credit for CLCV 2900, HIST 2900 (no longer offered).

Prerequisite(s): second-year standing or permission of the unit.

Lectures three hours a week.

HIST 2904 [0.5 credit]**History of Ancient Rome I**

The history of ancient Rome from early Rome to the end of the Republic (Field a).

Also listed as CLCV 2904.

Precludes additional credit for CLCV 2901 and HIST 2901 (no longer offered).

Prerequisite(s): second-year standing or permission of the unit.

Lectures three hours a week.

HIST 2905 [0.5 credit]**History of Ancient Rome II**

The history of ancient Rome from the end of the Republic to the coming of Islam. (Field a).

Also listed as CLCV 2905.

Precludes additional credit for CLCV 2901, HIST 2901 (no longer offered).

Prerequisite(s): second-year standing or permission of the unit.

Lectures three hours a week.

HIST 2910 [0.5 credit]**Special Subject in History**

A lecture course on a special topic, theme, or period. Topic varies from year to year. (Field will depend on topic).

Lectures/groups three hours a week.

HIST 2912 [0.5 credit]**Science and Technology in History**

Major findings and discussions about the role of science and technology in the past. Topic and time period will vary. (Field a, b, or e).

Precludes additional credit for HIST 2911 (no longer offered).

Lectures/groups three hours a week.

HIST 2913 [0.5 credit]**History of Oil**

Explores the history of oil from the ancient period to the present day. The course uses a transnational approach designed to introduce students to the interconnected histories of oil in countries across the world. (Field e).

Includes: Experiential Learning Activity

Lectures three hours a week.

HIST 3000 [0.5 credit]**Topics in Ancient History**

A study of a selected topic in ancient history. (Field a).

Also listed as CLCV 3000.

Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3001 [0.5 credit]**History at the Movies**

Considering opportunities offered by historical feature film in the representation of the past, focusing on how historical themes and subjects have been treated in feature films, cinematic uses of the past, the role of film in shaping public memory and understanding the past. (Field e).

Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.

Lectures three hours a week.

An examination of aspects of the social, cultural, and political history of African-American women since the eighteenth century. (Field c or e).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3410 [0.5 credit]**Popular Culture in the U.S.**

The development of popular culture in the United States. Focusing on a selected theme or time period, the course will examine how popular culture both shaped and reflected broader historical and social developments. Topics may include music, theatre, public entertainments, movies, and television. (Field c).

Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.

Lectures three hours a week or online.

HIST 3412 [0.5 credit]**Ideas, Culture, and Society in U.S. History**

The intellectual, social, and cultural production of the United States, focusing on, among other things, a series of creative tensions: tradition versus modernity; rural versus urban; white versus black; masculine versus feminine; homogenous versus cosmopolitan. (Field c).

Precludes additional credit for HIST 3904, Topics in U.S. History (offered in the fall terms of 2009, 2011 and 2012).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3413 [0.5 credit]**The United States and Its Borderlands**

A history of the United States, focusing on the interactions along and across its borders with Mexico, Canada, and the Pacific Rim. This course examines the contests that emerged over colonization, migration, and American state-making. (Field c).

Precludes additional credit for HIST 3904 (offered in winter terms of 2017 and 2014, and fall term of 2014).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3414 [0.5 credit]**The United States in the World**

The history of the US in a global context. Time period will vary, topics could include world revolutions, imperialism and decolonization, immigration, transnational flows of ideas and people, war, peace, urbanization, capitalism, international law, and the environment. (Field c).

Precludes additional credit for HIST 3400 and HIST 3405.

Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.

Lectures three hours a week or online.

HIST 3500 [0.5 credit]**Migration and Diaspora in Canada**

A study of migration and settlement in Canada from the 17th century to the present. (Field c).

Includes: Experiential Learning Activity

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3505 [0.5 credit]**Women in Canada**

Selected issues in the history of women in Canada. Themes include women and war, aboriginal women's history, sexuality, the women's movement, immigration, and motherhood. Attention will be paid to the social construction of gender and the intersections of gender with class, ethnicity, race. (Field c).

Precludes additional credit for HIST 3504 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3507 [0.5 credit]**An Immigrant's Guide to Canada**

A course that critically engages with programs designed to assist the settlement and integration of newcomers to Canada as well as the lived experiences of immigrants and ethnic and diasporic groups in the Canadian context. (Field c).

Includes: Experiential Learning Activity

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Seminars three hours a week.

HIST 3510 [0.5 credit]**Indigenous Peoples of Canada**

A survey of indigenous histories in northern North America from earliest times to the present. The course will cover pre-contact histories; military, economic, social, and cultural encounters with newcomers; indigenous experiences with settler colonialism; and the struggle over decolonization. (Field c).

Precludes additional credit for HIST 3503 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3511 [0.5 credit]**Themes in Indigenous History**

Key themes in the history of North America's indigenous peoples. Topics may include land and treaties, religious encounters, the law, cultural identity, and transnational indigenous experiences (Field c).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3515 [0.5 credit]**Madness in Modern Times**

History of insanity from the eighteenth to the twentieth century. Themes include changing public and medical understandings of madness, patients' experiences and artistic portrayals of mental hospital life, cultural representations of madness in various media, and the history of the asylum. (Field e).

Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.

Online course.

HIST 3604 [0.5 credit]**Gender and Sexuality in Modern Europe**

Exploration of gender, sexuality, and women's history in Modern Europe. (Field b or e).

Precludes additional credit for HIST 3603 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3704 [0.5 credit]**Aztecs**

An examination of the Aztec social system, culture, religion, and philosophy both before and after the Spanish conquest. (Field a or d).

Prerequisite(s): A 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3708 [0.5 credit]**Reformation Europe**

A history of the Protestant and Catholic Reformations of the sixteenth century, with special emphasis on the theological disputes of the protagonists and the impact of these disputes on the social, political and cultural developments of the era. (Field a).

Also listed as RELI 3220.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3710 [0.5 credit]**Themes in Caribbean History**

Key themes in the making of the Caribbean. Topics may include slavery and emancipation, Indian and Chinese migration, colonialism, the independence movement, and race relations. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3712 [0.5 credit]**Mexico: Aztecs to Narcos**

An examination of the social and cultural history of Mexico from indigenous cultures to the problems of the 20th century. Themes include the continuities of indigenous structures, national identity, wars and political violence, and gender. (Field d).

Includes: Experiential Learning Activity

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3713 [0.5 credit]**Gender and Sexuality in Latin America**

An exploration of gender and sexualities in Latin America from the pre-conquest period to the end of the twentieth century. (Field d or e).

Precludes additional credit for HIST 3705 and HIST 3707 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3714 [0.5 credit]**Holocaust Encounters**

An examination of the experiences of different Jewish communities before, during, and after the Holocaust. Issues to be discussed include antisemitism, relations with non-Jewish neighbors, perpetrator motivation, local collaboration, resistance, postwar trials, and memory. (Field b).

Also listed as RELI 3140.

Prerequisite(s): a 2000-level History course or third-year standing and 1.0 credit in History.

Lectures three hours a week.

HIST 3715 [0.5 credit]**Themes in South Asian History**

Key themes in South Asian history. Topics may include the Mughal empire, the British colonial era, the creation and development of states in India, Pakistan, Bangladesh, and Sri Lanka, and various 20th century historical phenomenon. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3717 [0.5 credit]**Gender and Sexuality in Africa**

An exploration of gender and sexualities in Africa from the beginning of colonial rule until the beginning of the 21st century. (Field d or e).

Precludes additional credit for HIST 3711 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3719 [0.5 credit]**South African War, 1899-1902**

Examines causes, major events and consequences of the war. Themes include: the war as part of the Scramble for Africa, emergence of settler nationalism, British "scorched earth policy", establishment of concentration camps, importance of gender, African involvement, international responses, and long-term effects. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3800 [0.5 credit]**International History 1914-41**

A survey of international history from the First World War to the outbreak of the Second World War, focusing on peacemaking, inter-war diplomacy, anti-imperialism, global capitalism, migration, labour, and the origins of the Second World War. (Field b).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3801 [0.5 credit]**International History 1941-90**

A survey of international history from the Second World War to the end of the Cold War that examines the conflict over the reconstruction of the postwar world, including decolonization, emergence of the European Union, and other dimensions of global order and disorder. (Field b). Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3805 [0.5 credit]**Twentieth-Century China**

A political history of China from the 1911 Revolution to the present. Emphasis on the development of Chinese communism and the People's Republic since 1949. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3806 [0.5 credit]**Japan Since 1945**

A political, intellectual and economic history of Japan in the twentieth century, concentrating on the period since the end of the Pacific War. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3807 [0.5 credit]**Practicum in History**

An historical research project in a museum or public institution in the Ottawa area conducted under the supervision of the external institution and the History Department. Work includes reading, reports, and meetings. Students should be prepared to devote one day a week to the project.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in a History program, a CGPA of 9.00 or better in history courses, and permission of the Department.

HIST 3809 [0.5 credit]**Historical Representations**

An examination of how historical narratives have been produced in relation to sites of public memory. The public presentation of history through a wide range of themes, which may include museum exhibits, commemorations and popular culture. (Field e).

Includes: Experiential Learning Activity

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3810 [0.5 credit]**Historical Theory**

An examination of a wide range of theoretical approaches to history, and a critical reflection on history as a discipline.

Prerequisite(s): HIST 2809 or permission of the Department.

Lectures two hours a week and one hour discussion group.

HIST 3811 [0.5 credit]**History of Historical Thought**

An examination of questions concerning the nature and value of historical inquiry and the meaning of the course of history. (Field e).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3812 [0.5 credit]**Digital History**

The digital representation of history, exploring the approaches, issues, and methods of working in this environment. Topics may include gaming, virtual environments, digital research tools, public digital history. (Field e).

Includes: Experiential Learning Activity

Also listed as DIGH 3812.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3813 [0.5 credit]**Problems in Global and Transnational Histories**

Historical encounters across geographical regions and ways in which historians studied them. Categories of "national," "international," "transnational," "world," and "global" history will be evaluated. Themes include: imperialism, postcolonialism, the environment, migration, trade, religion, the body, war, culture, disease. (Field d or e).

Includes: Experiential Learning Activity

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history including at least 0.5 credit in Field d courses (Asia, Africa, the Caribbean, and Latin America).

Lectures three hours a week.

HIST 3814 [0.5 credit]**Crafting Digital History**

This course applies the creative use of information and media/computing technologies to address the digital cultural heritage issues of public historians, archaeologists, and anthropologists. Topics may include webscraping, data mining, designing and implementing research databases, and visual storytelling of those results. (Field e).

Includes: Experiential Learning Activity

Also listed as DIGH 3814.

Precludes additional credit for HIST 3907 Section "B" offered in winter 2015 and HIST 3907 Section "O" offered in winter 2016.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week or online.

HIST 3815 [0.5 credit]**Group Practicum**

A class-based group historical research project done in collaboration with an external institution under the supervision of the institution and the Department. Work includes readings, reports, and meetings. Students should be prepared to devote one full day per week to the project. (Field e).

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in a History program and permission of the Department.

HIST 3820 [0.5 credit]**Explorations in Historical Theory**

Taking a specific historical topic as its focus, this course examines how historians have applied a wide range of theoretical approaches in order to understand and interpret that topic's historical significance. Topics will vary.

Prerequisite(s): HIST 2809, or permission of the unit.

Lectures two hours a week and one hour discussion group.

HIST 3902 [0.5 credit]**Topics in European History**

A lecture course on a special topic in European history. Topic varies from year to year. (Field will depend on topic.).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3903 [0.5 credit]**Topics in Canadian History**

A lecture course on a special topic in Canadian history. Topic varies from year to year. (Field c).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3904 [0.5 credit]**Topics in U.S. History**

A lecture course on a special topic in United States history. Topic varies from year to year. (Field c).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3905 [0.5 credit]**Topics in International History**

A lecture course on a special topic in international political or economic history. Topic varies from year to year. (Field b).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3906 [0.5 credit]**Topics in World History**

A lecture course on a special topic in African, Asian, Caribbean, or Latin American history. Topic varies from year to year. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3907 [0.5 credit]**Transnational Topic**

A lecture course on a special topic that takes a transnational approach to history. Course content will vary from year to year. (Field e).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3908 [0.5 credit]**Thematic Topic**

A lecture course on a special topic that takes a thematic approach to history. Course content will vary from year to year. (Field e).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3909 [0.5 credit]**Topic in Public History**

A lecture course on a special topic, theme, or period in public history. Topic varies from year to year. (Field e).

Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

HIST 4006 [1.0 credit]**Seminar in Medieval History**

An examination of a selected problem in the history of medieval Europe.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4007 [0.5 credit]**Medieval History**

Selected topic in Medieval History. The topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4100 [1.0 credit]**Seminar in Early Modern European History**

A study of a selected problem in the history of Europe during the early modern period.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4101 [0.5 credit]**Early Modern European History**

Selected topic in the history of Europe during the early modern period. The topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4200 [1.0 credit]**Seminar in European History**

Examination of a selected problem or period in the history of Continental Europe.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4201 [0.5 credit]**Modern European History**

Selected topic in the history of Europe. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4210 [0.5 credit]**Topics in Ancient History**

Intended for Honours students in History and Classics who should normally be in their third- or fourth-year.

Also listed as CLCV 4210.

Precludes additional credit for CLCV 4209, HIST 4209 (no longer offered).

Prerequisite(s): CLCV 2902 (HIST 2902) and CLCV 2903 (HIST 2903) or CLCV 2904 (HIST 2904) and CLCV 2905 (HIST 2905) or CLCV 3201 (HIST 3009) or CLCV 3202 (HIST 3101) or permission of the Department.

Seminar three hours a week.

HIST 4302 [1.0 credit]**Canada: Ideas & Culture**

A seminar on ideas, culture, and society in Canada.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4303 [0.5 credit]**Society and Culture in Canada**

A 0.5 credit seminar course that examines a selected topic on ideas, culture, and society in Canada. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4304 [1.0 credit]**Canada: Politics & Society**

A seminar on politics and society in Canada.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4305 [0.5 credit]**Political History in Canada**

A 0.5 credit seminar course that examines a selected topic on politics and society in Canada. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4400 [1.0 credit]**Seminar in U.S. History**

An examination of a selected problem or period in the history of the United States.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4401 [0.5 credit]**United States History**

A 0.5 credit seminar course that examines a selected topic in the history of the United States. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4500 [1.0 credit]**Seminar in British History**

An explanation of a selected problem or period in the history of Great Britain.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4501 [0.5 credit]**British History**

An explanation of a selected problem or period in the history of Great Britain.

Includes: Experiential Learning Activity

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4505 [1.0 credit]**Seminar in Women's and Gender History**

A seminar on the history of women and gender. The particular approach, themes, and historical period will be specified each year.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4506 [0.5 credit]**Gender, Sexuality and Women's History**

A 0.5 credit seminar course that examines a selected topic on the history of women and gender. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4600 [1.0 credit]**Seminar in Russian History**

An examination of a selected problem or period in the history of Imperial or post-Imperial Russia.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4604 [0.5 credit]**Central Europe, Past and Present**

Evolution and current status of Central Europe from periods of foreign control in the late nineteenth and twentieth centuries to independent statehood. Particular emphasis will be placed on national accommodations and conflicts.

Also listed as EURR 4204.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4605 [0.5 credit]**The Balkans in Transition – 1918 to 1989**

The seminar uses the concept of transition to understand the Balkan encounter with modernity and Europe. Key periods to be examined include the interwar era and the period of communist rule, with an emphasis on political, social and economic themes.

Also listed as EURR 4101.

Prerequisite(s): fourth-year standing and one of PSCI 3704, PSCI 3208, PSCI 3209, HIST 2600; or permission of the Department.

Seminar three hours a week.

HIST 4606 [0.5 credit]**Contemporary Europe: From Postwar to the European Union**

History of contemporary Europe from 1945 to present covering both eastern and western halves of the continent and including social, cultural, political, and economic dimensions.

Includes: Experiential Learning Activity

Also listed as EURR 4303.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminars three hours a week.

HIST 4607 [0.5 credit]**Imperial Russia and the Russian Revolution**

Examination of the expansion and downfall of tsarist Russia from the eighteenth century to the revolutionary era and the establishment of Bolshevik rule. Topics include the relationship between the monarchy and subject peoples, social and economic change, and daily life.

Includes: Experiential Learning Activity

Also listed as EURR 4305.

Also offered at the graduate level, with different requirements, as HIST 5607, for which additional credit is precluded.

Seminar three hours a week.

HIST 4608 [0.5 credit]**The Soviet Union**

Examination of the rise of the Soviet Union to a global power and subsequent tensions that promoted its collapse. The course will analyze Stalinism, the Second World War, the Thaw, and Brezhnev and Gorbachev eras through the lens of the USSR's citizens.

Includes: Experiential Learning Activity

Also listed as EURR 4306.

Also offered at the graduate level, with different requirements, as HIST 5608, for which additional credit is precluded.

Seminar three hours a week.

HIST 4700 [1.0 credit]**Seminar in World History**

An examination of a selected problem or period in the history of Asia, Africa, the Caribbean or Latin America.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4701 [0.5 credit]**African History**

A 0.5 credit seminar course that examines a selected topic in the history of Africa. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4702 [0.5 credit]**South Asian History**

A 0.5 credit seminar course that examines a selected topic in the history of South Asia. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4703 [0.5 credit]**The Global South**

A 0.5 credit seminar course that examines a selected topic in the history of the Global South. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4704 [0.5 credit]**Caribbean and Latin American History**

A 0.5 credit seminar course that examines a selected topic in Caribbean and Latin American history. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4705 [0.5 credit]**Asian History**

A 0.5 credit seminar course that examines a selected topic in the history of Asia. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4802 [1.0 credit]**Seminar in International History**

An examination of a selected problem or period in the history of international relations.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4805 [1.0 credit]**Seminar on a Transnational or Thematic Topic**

A seminar on a transnational or thematic topic. The particular topic will be specified each year.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4806 [0.5 credit]**Global, Transnational, or Thematic History**

Selected topic in global and transnational history or on a thematic topic in history. The topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4910 [1.0 credit]**Honours Research Project**

The project will be a substantial piece of original research conducted under the supervision of a faculty member in History. The medium of presentation will be agreed upon between student and supervisor, and may include a research paper, a documentary film, or a web-based project.

Includes: Experiential Learning Activity

Precludes additional credit for HIST 4908, HIST 4909 (no longer offered).

Prerequisite(s): fourth-year standing in History Honours program, a minimum GPA of 9.0 (B+) in the History major, and permission of the department, or in exceptional circumstances with permission of the department only.

HIST 4915 [0.5 credit]**Topics in History**

Intended for Honours students in History. Topics will vary from year to year.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4916 [0.5 credit]**Topic in Public History**

Topics will vary from year to year. (Field e).
Prerequisite(s): HIST 2811, HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.
Seminar three hours a week.

HIST 4920 [1.0 credit]**Seminar in Public History**

Topics will vary from year to year. (Field e).
Prerequisite(s): HIST 2811, HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.
Seminar three hours a week.

ARTH 4107 [0.5]	Topics in Islamic Architecture and Art	
ARTH 4202 [0.5]	Topics in Medieval Architecture and Art	
ARTH 4610 [0.5]	Topics in Modern Architecture or Design	
ARTH 4800 [0.5]	Topics in Architectural History	

4. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits 4.0

Post-Baccalaureate Diploma in History and Theory of Architecture (4.0 credits)

Admission to this program requires the permission of the History and Theory of Architecture program. Normally, students would be required to have completed an undergraduate degree with a minimum B average or higher to be admitted. Applications will be reviewed on a case-by-case basis.

Requirements:

1. 1.0 credit in:		1.0
ARTH 3100 [0.5]	History and Methods of Art and Architectural History	
ARTH 3107 [0.5]	History and Methods of Architectural History	
2. 2.0 credit in ARTH at the 2000-level or above (excluding ARTH 2710)		2.0
3. 1.0 credit in ARTH at the 4000-level		1.0
Total Credits		4.0

With the approval of the History and Theory of Architecture undergraduate supervisor, 0.5 credit may be taken outside the department.

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public

Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in Good Standing.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

Regulations

Post-Baccalaureate Diploma

In addition to the requirements presented here, students must satisfy the University regulations (see the Academic Regulations of the University section of this Calendar).

Definition

A post-baccalaureate diploma is defined as a stand-alone undergraduate credential intended to:

- qualify a candidate for consideration for entry into a master's program, or
- bring a candidate who already possesses a bachelor's degree up to a level of a bachelor's degree of 20.0 credits or more in another discipline, or
- provide a candidate who already possesses a twenty-credit bachelor's degree in the same discipline the opportunity to bring their previous studies to current equivalents and/or to examine alternative areas, or
- provide a candidate with a professional undergraduate credential for which the prior completion of an undergraduate degree program is appropriate.

Program Requirements

- A post-baccalaureate diploma is normally constituted of a minimum of 3.0 credits to a maximum of 5.0 credits of advanced undergraduate courses.
- A minimum of 3.0 residency credits counting toward the post-baccalaureate diploma.

English as a Second Language Requirement

In addition to the program requirements, completion of English as a Second Language (ESLA) courses may be required from the following sequence: ESLA 1300, ESLA 1500, ESLA 1900, ESLA 1905. No credits from this sequence will be counted toward the post-baccalaureate diploma.

Continuation

All post-baccalaureate diploma students are expected to complete their diploma requirements within two calendar years after the date of initial registration. After this period student may be withdrawn.

Graduation

- A candidate for a post-baccalaureate diploma must have an overall CGPA of at least 6.5 to graduate.
- A candidate for a post-baccalaureate diploma must obtain a grade of C- or higher in each course taken in fulfillment of the program requirements.
- Students should consult with the Department, School or Institute when planning their diploma and selecting courses.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- **Bachelor of Arts (B.A.)(Honours)**
- **Bachelor of Arts (B.A.)**

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section "English Language Requirements" in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Art and Architectural History (ARTH) Courses

ARTH 1100 [0.5 credit]

Art and Society: Prehistory to the Renaissance

A survey of art, architecture and artifacts from prehistory to the Renaissance. Ways of understanding visual culture through this span of history.

Precludes additional credit for ARTH 1000.

Lectures two hours a week, tutorial one hour a week.

ARTH 1101 [0.5 credit]

Art and Society: Renaissance to the Present

A survey of art, architecture and related visual forms in their expanding contexts from the Renaissance to the present. Ways of understanding visual culture through this span of history.

Precludes additional credit for ARTH 1000.

Lectures two hours a week, tutorial one hour a week.

ARTH 1105 [0.5 credit]

Art as Visual Communication

A variety of visual material is organized topically to examine the elements of art (line, shape, value, colour, texture, space), the principles of pictorial organization, the materials and techniques of art, and recurrent tendencies in artistic styles and outlooks.

Lectures three hours a week.

ARTH 1200 [0.5 credit]

History and Theory of Architecture: Prehistory to 1500

An introduction to the history of architecture from prehistory to ca. 1500, considering technological, formal, intellectual and social developments that informed the built environment through a range of building types.

Lectures two hours a week, tutorial one hour a week.

ARTH 1201 [0.5 credit]

History and Theory of Architecture: 1500 to Present

An introduction to the history of architecture from ca. 1500 to the present, considering technological, formal, intellectual, and social developments that informed the built environment through a range of building types. Precludes additional credit for ARTH 2608 (no longer offered).

Lectures two hours a week, tutorial one hour a week.

ARTH 2002 [0.5 credit]**Canadian Historical Art**

A survey of historical Canadian art, from the period of European settlement to the early twentieth century, examining craft and fine art, amateur and professional artists, art institutions, gender, nationalism, regionalism and ethnicity. Students will be exposed to works in the National Capital region.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2003 [0.5 credit]**Canadian Twentieth-Century and Contemporary Art**

A survey of twentieth-century and contemporary Canadian art in a variety of media within social, political and cultural contexts. Regionalism, multiculturalism, nationalism, gender, race and identity will be considered in relation to local and national collections in Ottawa.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2005 [0.5 credit]**Arts of the First Peoples: The Woodlands, the Plains and the Subarctic**

Introduction to the visual arts of Indigenous peoples of the eastern and central regions of North America. A post-colonial perspective will be used to consider selected examples of creative production from time immemorial to the present.

Prerequisite(s): second-year standing or permission of the discipline.

Lectures three hours a week.

ARTH 2006 [0.5 credit]**Arts of the First Peoples: The Southwest, the West Coast and the Arctic**

Introduction to the visual arts of Indigenous peoples of the western and northern regions of North America. A post-colonial perspective will be used to consider selected examples of visual materials from time immemorial to the present.

Prerequisite(s): second-year standing or permission of the discipline.

Lectures three hours a week.

ARTH 2007 [0.5 credit]**Asian Art**

Surveys Asian art from second-century China to post-war Japan. Representational strategies of court artists and artists from the capital are compared with artists on the periphery. Articulation of power in tombs, palaces and war propaganda is examined, as is the individual and the eccentric.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2008 [0.5 credit]**Inuit Art**

Survey of visual art produced by Canadian Inuit from the circumpolar area.

Precludes additional credit for ARTH 3104.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2009 [0.5 credit]**Art Live: Art History Workshop**

Examination of techniques, materials and institutions of art history; lectures and workshops on art historical research and writing, the materials of art, professional skills; site visits to art institutions.

Includes: Experiential Learning Activity

Prerequisite(s): ARTH 1100 and ARTH 1101, or permission of the discipline. Restricted to students enrolled in the Art History B.A. or B.A. Honours.

Lecture three hours a week.

ARTH 2102 [0.5 credit]**Greek Art and Archaeology**

The art, architecture and archaeology of ancient Greece. Vase painting, sculpture, architecture, town planning and analogous arts are studied.

Also listed as CLCV 2303.

Precludes additional credit for CLCV 2302 (no longer offered), ARTH 2100 (no longer offered).

Prerequisite(s): second-year standing or permission of the Department.

Lecture three hours a week.

ARTH 2105 [0.5 credit]**Roman Art and Archaeology**

The art, architecture and archaeology of the ancient Romans. Vase painting, sculpture, architecture, town planning and analogous arts are studied.

Also listed as CLCV 2304.

Precludes additional credit for CLCV 2302 (no longer offered), ARTH 2100 (no longer offered).

Prerequisite(s): second-year standing or permission of the Department.

Lecture three hours a week.

ARTH 2106 [0.5 credit]**Chinese Art and Visual Culture**

A survey of Chinese art from the pre-modern era to re-inventions of traditions in modern and contemporary art. Artworks in various media (ink painting, calligraphy, Buddhist sculpture, ceramics, lacquer and garden architecture) will be studied in their historical, cultural and socio-political contexts.

Prerequisite(s): second-year standing or permission of the Department.

Lecture three hours a week.

ARTH 2107 [0.5 credit]**Islamic Architecture and Art**

Survey of artistic movements in Islamic art and architecture in the Mediterranean, the Near East, and Central and South Asia, from the seventh century to ca. 1450. Commonalities and differences between major dynastic visual cultures will be explored.

Prerequisite(s): second-year standing or permission of the Discipline.

Lecture three hours a week.

ARTH 2108 [0.5 credit]**Art Worlds**

Survey of an area of global art history. Topics may vary from year to year, and will be posted on the School for Studies in Art and Culture website.

Prerequisite(s): second-year standing or permission of the Department.

Lecture three hours a week.

ARTH 2202 [0.5 credit]**Medieval Architecture and Art**

A survey of architecture and art in Europe from ca. 313-1500 C.E. Sacred, secular, and domestic works will be discussed with reference to cultural meaning, social function, structure, and form.

Precludes additional credit for ARTH 2200 and ARTH 2201.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2300 [0.5 credit]**Italian Renaissance Art**

An examination of major works of art and architecture, issues and themes in the Italian Renaissance; emphasis on the fifteenth and sixteenth centuries, with a look at roots in the fourteenth.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2310 [0.5 credit]**Architecture of the Early Modern World [1400-1750]**

An examination of architecture from the late medieval period to the 18th century with particular attention paid to architecture and design cultures within the European and Islamic worlds and their cross-cultural interactions.

Precludes additional credit for ARTH 3305 (no longer offered).

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2404 [0.5 credit]**Art of the 17th and 18th Centuries**

Tracing developments in 17th- and 18th-century painting, graphic art, sculpture, and architecture. Introduction to artists, art works, and issues central to the relationship between art and society.

Precludes additional credit for ARTH 2403 (no longer offered), ARTH 2405 (no longer offered) and ARTH 2406 (no longer offered).

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2502 [0.5 credit]**Art of the 19th Century**

Tracing developments in 19th-century painting, graphic art, sculpture, and architecture. Introduction to artists, art works, and issues central to the relationship between art and modernity.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2510 [0.5 credit]**Architecture of the 18th and 19th Centuries**

A survey of key monuments, theories, forms and technological developments of eighteenth- and nineteenth-century architecture.

Precludes additional credit for ARTH 3809 Section "B" taken in 2014.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2600 [0.5 credit]**Modern European Art 1900-1945**

Major artistic movements in Europe from about 1900 to 1945.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2601 [0.5 credit]**History and Theory of Photography**

Issues, themes, movements in photography and individual photographers from the origins of the medium to the present.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2610 [0.5 credit]**Twentieth-Century Architecture**

Developments in architectural form and culture through the course of the twentieth century, with emphasis on the formation and subsequent critique of the Modern Movement.

Precludes additional credit for ARTH 3609 and ARCH 3009.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2710 [0.5 credit]**Experiencing Architecture**

Development of critical thinking, writing, and looking skills in connection to architecture, through a combination of site visits, workshops and classroom exercises.

Includes: Experiential Learning Activity

Prerequisite(s): ARTH 1200 and ARTH 1201 or permission of the discipline. Restricted to students in the History and Theory of Architecture B.A. or B.A. Honours program.

Lecture three hours a week.

ARTH 2807 [0.5 credit]**Philosophy of Art**

Philosophical approaches to the study of art. Topics such as: the nature of art and artistic value; representation and symbolism in art; art and artifice; art and the emotions; art, culture and ideology; post-structuralism and art; theories of creativity; relationship between artworks and audiences.

Also listed as PHIL 2807.

Lectures three hours a week.

ARTH 3000 [0.5 credit]**Themes in Canadian Art**

Selected aspects of Canadian art in a variety of media.

Students will be exposed to works in the National Capital region.

Prerequisite(s): ARTH 2002 or ARTH 2003 or (for a photography topic) ARTH 2601 and second-year standing or higher, or permission of the Discipline.

Lectures three hours a week.

ARTH 3002 [0.5 credit]**Canadian Architecture**

Canadian architecture from the seventeenth century to the present day, covering both stylistic and technological developments. Building styles, methods, and materials in the context of social and economic conditions and construction techniques.

Includes: Experiential Learning Activity

Also listed as ARCH 4002.

Prerequisite(s): ARTH 1100 and ARTH 1101, or ARTH 1200 and ARTH 1201, or ARCH 1002 and ARCH 1201, and second-year standing or higher, or permission of the Discipline.

ARTH 3003 [0.5 credit]**Architecture and Representation**

Examination of the intersections between architecture, representations, and cultures.

Prerequisite(s): ARTH 1100 or ARTH 1101 or ARTH 1200 or ARTH 1201 and second-year standing, or permission of the Discipline.

Lectures and/or seminars three hours a week.

ARTH 3005 [0.5 credit]**American Architecture**

The cultural history of the United States as expressed through its architectural heritage. Selected buildings and complexes from the earliest settlements through the early twentieth century are examined.

Prerequisite(s): ARTH 1201 and second-year standing or higher, or permission of the Discipline.

Lectures three hours a week.

ARTH 3007 [0.5 credit]**Modern Asian Art**

Modern and contemporary art in East Asia, beginning in Japan with the 1868 Meiji revolution and the 1911 revolution in China.

Prerequisite(s): second-year standing or higher, or permission of the Discipline.

ARTH 3008 [0.5 credit]**Contemporary Chinese Art and Art History**

Modern and contemporary art in China and beyond from the reform period in 1979 until today. Artworks will be examined in terms of their (art-)historical, discursive, socio-political, infrastructural and transcultural conditions of production and reception.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 3100 [0.5 credit]**History and Methods of Art and Architectural History**

The study of the history of art and architectural history and the methodologies and research tools employed.

Precludes additional credit for ARTH 3106 (no longer offered).

Prerequisite(s): third-year or higher standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 3102 [0.5 credit]**Studies in Greek Art**

A study of period or theme in the art and archaeology of Ancient Greece. Topics may vary from year to year. This course is repeatable for credit when the topic changes.

Also listed as CLCV 3306, RELI 3732.

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit required to repeat.

Lecture three hours a week.

ARTH 3105 [0.5 credit]**Studies in Roman Art**

A study of a period or theme in the art and archaeology of the ancient Romans. Topics may vary from year to year.

Also listed as CLCV 3307, RELI 3733.

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit required to repeat.

Lecture three hours a week.

ARTH 3107 [0.5 credit]**History and Methods of Architectural History**

The study of the methodologies and research approaches employed by architectural historians.

Prerequisite(s): ARTH 3100 and third-year standing or higher in History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 3108 [0.5 credit]**History and Methods of Art History**

The study of current methodologies and research tools employed by art historians.

Precludes additional credit for ARTH 3106 (no longer offered).

Prerequisite(s): ARTH 3100 and third-year standing or higher in Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 3400 [0.5 credit]**History of Printmaking**

Exploration of printmaking techniques from the 16th century to the present focusing on the work of famous and lesser-known printmakers. Topics may include: printmaking genres (from fine art prints to caricature), originality versus reproduction, book illustration, the art market, posters and propaganda.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing or higher, or permission of the Discipline.

Lectures and/or seminars three hours a week.

ARTH 3507 [0.5 credit]**The Artist in Context**

An examination of one artist's or group of artists' life and work. Relevant artistic, intellectual, social, political and theoretical contexts are considered.

Prerequisite(s): ARTH 1101 or ARTH 2502 and second-year standing or higher, or permission of the Discipline.

Lectures three hours a week.

ARTH 3600 [0.5 credit]**Art Since 1945**

Contemporary art in the global context from 1945 to the present, including Abstract Expressionism, Pop Art, Postmodernism, object art, performance art and installations.

Prerequisite(s): second-year standing or higher, or permission of the Discipline.

Lecture three hours a week.

ARTH 3701 [0.5 credit]**Art and Architecture on Site**

The study of art and/or architecture on site outside the National Capital Region, in Canada or internationally.

May include a combination of study in Ottawa and on site. Locations vary. Students are expected to bear all travel and other costs arising from site visits.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Discipline. Applicants will normally have third-year standing with a minimum of 1.0 credit in Art History or History and Theory of Architecture and a GPA of 8.0 or above.

Hours to be arranged. Locations will vary.

ARTH 3705 [0.5 credit]**Selected Museum Exhibition**

This seminar complements a major exhibition held at a specific museum. Students enrolled in this course are expected to bear all travel and other costs arising from required visits to the museum.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing or higher or permission of the Discipline.

Seminar and/or lectures three hours a week.

ARTH 3710 [0.5 credit]**Architecture and Empire**

The impact of imperial power and aspiration on the built environment, from the Ancient world to the present day, taking 'empire' in its broadest political, social and economic sense.

Prerequisite(s): ARTH 1100 or ARTH 1101 or ARTH 1200 or ARTH 1201 and second-year standing or permission of the Discipline.

Seminar and/or lectures three hours a week.

ARTH 3809 [0.5 credit]**A Closer Look at Art and Visual Culture**

Selected aspects of art history and visual culture from ancient times to the present.

Prerequisite(s): third-year standing or permission of the Discipline.

Lectures and/or seminars three hours a week.

ARTH 3810 [0.5 credit]**A Closer Look at the Designed Environment**

Selected aspects of the history of the designed environment, from ancient times to the present.

Prerequisite(s): ARTH 1100 or ARTH 1101 or ARTH 1200 or ARTH 1201 and second-year standing or permission of the Discipline.

Lectures and/or seminars three hours a week.

ARTH 3900 [0.5 credit]**Practicum in Art and Architectural History**

Practical experience gained by working on specific projects under the supervision of the staff of a museum, cultural institution, public- or private-sector organization associated with art, architecture, design, or heritage. A maximum of 1.0 credit in practicum courses may be used to fulfill program requirements.

Includes: Experiential Learning Activity

Prerequisite(s): B.A. or B.A. (Honours) in Art History or History and Theory of Architecture with third-year standing or higher and a CGPA of 9.00 or better in ARTH courses, and permission of the Discipline.

ARTH 4000 [0.5 credit]**Topics in Canadian Art**

Selected topics in Canadian art. Students will be exposed to works in the collections of the National Capital region.

Prerequisite(s): one of ARTH 2002, ARTH 2003, ARTH 3000 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminars three hours a week.

ARTH 4003 [0.5 credit]**Topics in Contemporary Chinese Art**

Critical examination of contemporary Chinese art. Topics include socially engaged art, historiographies of Chinese contemporary art, re-inventions of traditions, gender and politics of the body, exhibition histories and infrastructures of contemporary art in China.

Prerequisite(s): fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4005 [0.5 credit]**Topics in Contemporary Indigenous Art**

This course will use critical theory to examine aspects of contemporary visual art created by the Inuit and First Peoples in North America.

Prerequisite(s): ARTH 2005 or ARTH 2006 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4007 [0.5 credit]**Topics in Asian Art**

A selected topic in East Asian Art, which may include 19th century Ukiyo-e woodblock prints, The Gutai Group, performance art in China and Japan, and contemporary Chinese art.

Prerequisite(s): fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4008 [0.5 credit]**Transnational Theory**

Critical examination of transnational theories of cultural analysis, including Orientalism, Post-Colonial theory, translation theory and theories of cultural hybridity.

Precludes additional credit for ARTH 3103.

Prerequisite(s): fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4107 [0.5 credit]**Topics in Islamic Architecture and Art**

Selected aspects of Islamic Architecture and Art.

Prerequisite(s): ARTH 2107 or ARTH 2310 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4202 [0.5 credit]**Topics in Medieval Architecture and Art**

Selected aspects of Medieval or Medievalist Architecture and Art.

Prerequisite(s): ARTH 2202 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4305 [0.5 credit]**Topics in Renaissance Art**

Selected aspects of Renaissance art and society.

Prerequisite(s): ARTH 2300 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4402 [0.5 credit]**Topics in Art of the 18th and 19th Centuries**

Selected aspects of 18th-century and/or 19th-century art. Precludes additional credit for ARTH 4406 (no longer offered), ARTH 4505 (no longer offered).

Prerequisite(s): ARTH 2404 or ARTH 2405 or ARTH 2406 or ARTH 2502 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4600 [0.5 credit]**Art, Architecture, and Gender**

Art and/or architectural creation, reception and/or historiography through the lens of gender identities.

Prerequisite(s): fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4602 [0.5 credit]**Issues in the Theory and History of Photography**

Relates the themes of selected theoretical texts on photography to specific examples of photographic practice.

Prerequisite(s): ARTH 2601 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4610 [0.5 credit]**Topics in Modern Architecture or Design**

Selected topics in architecture and design of the Modern era.

Prerequisite(s): ARTH 2610 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4701 [0.5 credit]**Art and Architecture on Site**

Intensive study of art and/or architecture on site outside the National Capital region, in Canada or internationally. May include a combination of study in Ottawa and on site. Students are expected to bear all travel and other costs arising from site visits.

Includes: Experiential Learning Activity

Prerequisite(s): Permission of the Discipline. Applicants will normally have fourth-year standing in Art History or History and Theory of Architecture and a CGPA of 8.0 or above.

Hours to be arranged. Locations vary.

ARTH 4705 [0.5 credit]**Seminar: Selected Museum Exhibition**

Studies a major exhibition held at a specific museum. Students enrolled in this course are expected to bear all travel and other costs arising from required visits to the museum.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Art History or History and Theory of Architecture and permission of the Discipline.

Lectures and/or seminar three hours a week.

ARTH 4800 [0.5 credit]**Topics in Architectural History**

Selected aspects of architectural history from ancient times to the present.

Prerequisite(s): fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4809 [0.5 credit]**Topics in Art History and Criticism**

Selected aspects of art history and/or criticism from ancient times to the present.

Prerequisite(s): fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4900 [0.5 credit]**Directed Readings and Research**

Supervised readings and research projects. Guidelines must be obtained from the Undergraduate Supervisor prior to registration. A written project outline, approved by the supervising Art History or History and Theory of Architecture faculty member, must be submitted by the last day for course changes.

Prerequisite(s): fourth-year Honours standing in Art History or History and Theory of Architecture and permission of the Discipline.

ARTH 4909 [1.0 credit]**Honours Research Essay**

An essay of approximately 10,000 words, resulting from independent research, supervised by Art History or History and Theory of Architecture faculty.

Prerequisite(s): fourth-year Honours standing in Art History or History and Theory of Architecture with a minimum CGPA of 9.00 and permission of the Discipline.

Human Rights and Social Justice

This section presents the requirements for programs in:

- Human Rights and Social Justice B.A. Honours
- Human Rights and Social Justice B.A. Combined Honours
- Human Rights and Law with Concentration in Transnational Law and Human Rights B.A. Combined Honours
- Human Rights and Social Justice B.A.
- Minor in Human Rights and Social Justice

Program Requirements**Human Rights and Social Justice****B.A. Honours (20.0 credits)****A. Credits Included in the Major CGPA (9.0 credits)**

1. 1.0 credit from:		1.0
HUMR 1001 [1.0]	Introduction to Human Rights	
FYSM 1104 [1.0]	Human Rights: Issues and Investigations	
FYSM 1502 [1.0]	Selected Topics in Legal Studies (specifically the section on Global Governance and Human Rights)	
	or approved FYSM	
2. 0.5 credit in:		0.5
HUMR 2001 [0.5]	Human Rights: Theories and Foundations	
3. 0.5 credit in:		0.5
HUMR 2202 [0.5]	Power Relations and Human Rights	
4. 0.5 credit from:		0.5
LAWS 2105 [0.5]	Social Justice and Human Rights	
PHIL 2103 [0.5]	Philosophy of Human Rights	
PSCI 3307 [0.5]	Politics of Human Rights	
5. 2.5 credits, comprised of 0.5 credit from each of the five Thematic Groups (see list under Course Categories)		2.5
6. 1.0 credit at the 4000-level from Thematic Groups and/or Human Rights Electives (see lists under Course Categories)		1.0

7. **3.0 credits from** Thematic Groups and/or Human Rights Electives (see lists under Course Categories) 3.0

B. Credits Not Included in the Major CGPA (11.0 credits)

8. **11.0 credits in** free electives. 11.0

Total Credits 20.0

Human Rights and Social Justice

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)

1. **1.0 credit from:** 1.0

HUMR 1001 [1.0] Introduction to Human Rights

FYSM 1104 [1.0] Human Rights: Issues and Investigations

FYSM 1502 [1.0] Selected Topics in Legal Studies (specifically the section on Global Governance and Human Rights)

or approved FYSM

2. **0.5 credit in:** 0.5

HUMR 2001 [0.5] Human Rights: Theories and Foundations

3. **0.5 credit in:** 0.5

HUMR 2202 [0.5] Power Relations and Human Rights

4. **0.5 credit from:** 0.5

LAWS 2105 [0.5] Social Justice and Human Rights

PHIL 2103 [0.5] Philosophy of Human Rights

PSCI 3307 [0.5] Politics of Human Rights

5. 2.5 credits, comprised of 0.5 credit from each of the five Thematic Groups (see list under Course Categories) 2.5

6. **1.0 credit at** the 4000-level from Thematic Groups and/or Human Rights Electives (see lists under Course Categories) 1.0

7. **1.0 credit from** Thematic Groups and/or Human Rights Electives (see lists under Course Categories) 1.0

B. Additional Credit Requirements (13.0 credits) 13.0

8. The requirements for the other discipline must be satisfied

9. Sufficient free electives to make 20.0 credits total for the program

Total Credits 20.0

Human Rights and Law with Concentration in Transnational Law and Human Rights

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)

1. **1.0 credit from:** 1.0

HUMR 1001 [1.0] Introduction to Human Rights

FYSM 1104 [1.0] Human Rights: Issues and Investigations

FYSM 1502 [1.0] Selected Topics in Legal Studies (the section on Global Governance and Human Rights)

or approved FYSM

2. **0.5 credit in:** 0.5

HUMR 2001 [0.5] Human Rights: Theories and Foundations

3. **0.5 credit in:** 0.5

HUMR 2202 [0.5] Power Relations and Human Rights

4. 2.5 credits, comprised of 0.5 credit from each of the five Thematic Groups (see list under Course Categories) 2.5

5. **1.0 credit at** the 4000-level from Thematic Groups and/or Human Rights Electives (see lists under Course Categories) 1.0

6. **1.5 credits from** Thematic Groups and/or Human Rights Electives (see lists under Course Categories) 1.5

B. Additional Credit Requirements (13.0 credits) 13.0

7. The requirements for the other discipline must be satisfied

8. Sufficient free electives to make 20.0 credits total for the program .

Total Credits 20.0

Human Rights and Social Justice

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)

1. **1.0 credit from:** 1.0

HUMR 1001 [1.0] Introduction to Human Rights

FYSM 1104 [1.0] Human Rights: Issues and Investigations

FYSM 1502 [1.0] Selected Topics in Legal Studies (specifically the section on Global Governance and Human Rights)

or an approved First-Year Seminar

2. **0.5 credit in:** 0.5

HUMR 2001 [0.5] Human Rights: Theories and Foundations

3. **0.5 credit in:** 0.5

HUMR 2202 [0.5] Power Relations and Human Rights

4. **0.5 credit from:** 0.5

LAWS 2105 [0.5] Social Justice and Human Rights

PHIL 2103 [0.5] Philosophy of Human Rights

PSCI 3307 [0.5] Politics of Human Rights

5. 2.5 credits, comprised of 0.5 credit from each of the five Thematic Groups (see list under Course Categories) 2.5

6. **1.0 credit at** the 3000- or 4000-level from Thematic Groups and/or Human Rights Electives (see lists under Course Categories) 1.0

7. **1.0 credit from** Thematic groups and/or Human Rights Electives (see lists under Course Categories) 1.0

B. Credits Not Included in the Major CGPA (8.0 credits)

8. **8.0 credits in** free electives. 8.0

Total Credits 15.0

Minor in Human Rights and Social Justice (4.0 credits)

Open to all undergraduate students not in Human Rights and Social Justice B.A. programs.

Requirements:

1. **1.0 credit from:** 1.0

HUMR 1001 [1.0] Introduction to Human Rights

FYSM 1104 [1.0] Human Rights: Issues and Investigations

2. **1.0 credit in:** 1.0

HUMR 2001 [0.5] Human Rights: Theories and Foundations

HUMR 2202 [0.5] Power Relations and Human Rights

3. **1.0 credit at** the 2000-level or higher in Human Rights (HUMR) courses 1.0

4. **1.0 credit** at the 3000-level or higher in Human Rights (HUMR) courses 1.0

Total Credits 4.0

Course Categories by Thematic Group

Some of the Human Rights Electives have prerequisites that are not explicitly included in the program. Students should plan to have credit for the prerequisites of each course in their program or ask to have the prerequisite waived.

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, ERTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies,

Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in Good Standing.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section "English Language Requirements" in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement.

Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Human Rights (HUMR) Courses

HUMR 1001 [1.0 credit]

Introduction to Human Rights

Human rights from an interdisciplinary perspective. Topics may include the foundations and nature of rights, roots of inequality and oppression, aboriginal rights, racism, women and rights, sexual orientation, state and corporate power, economic exploitation, the environment and rights, warfare, torture, and social movements.

Includes: Experiential Learning Activity
Precludes additional credit for FYSM 1104.

Lecture and discussion groups/tutorials three hours a week.

HUMR 2001 [0.5 credit]

Human Rights: Theories and Foundations

Historical overview of the theoretical and philosophical approaches underlying the human rights movement and relevant to the normative ideals and aspirations of human rights and to the strategies of their implementation.

Includes: Experiential Learning Activity
Prerequisite(s): second-year standing.

Lectures and discussion groups/tutorials three hours a week.

HUMR 2102 [0.5 credit]

Sexuality, Gender, and Security

Historical and contemporary analysis of surveillance, security, and regulation of sexuality, race, class, and gender. Students will critically examine how 'subversives' were created through discourse and administrative logics such as policy and law.

Includes: Experiential Learning Activity

Also listed as SXST 2102.

Prerequisite(s): second year standing or permission from the Institute.

Lectures and discussions three hours a week.

HUMR 2202 [0.5 credit]**Power Relations and Human Rights**

The study of power from a critical, transnational perspective; the impact on human rights of different forms and modalities of power, including those emanating from the state and corporations and those implicated in socio-economic and other hierarchical relations.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing.

Lectures and discussion groups/tutorials three hours a week.

HUMR 2301 [0.5 credit]**Human Rights and Sexualities**

Human rights issues in various cultural contexts concerning sex and/or gender, with attention to sexual minorities such as gay, lesbian, and transgendered persons. Forms of discrimination against sexual minorities and the mechanisms and strategies for redress.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HUMR 2401 [0.5 credit]**Political Repression**

Canada is home-in-exile to many who have faced severe and often life-threatening political repression such as imprisonment, torture, surveillance, population transfer, etc. This course examines the impacts on survivors of political repression, and strategies used to overcome its legacies.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HUMR 2502 [0.5 credit]**Social and Political Movements**

The underlying conditions and developments of historical and contemporary social and political movements; specific social movements such as civil rights or gay rights.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HUMR 3001 [0.5 credit]**Special Topics in Human Rights**

This advanced seminar will cover current and topical issues and/or debates in human rights, and will enable students to engage in focused discussions and analyses of these issues. Topics will vary from year to year.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3002 [0.5 credit]**Right to the City**

"The right to the city" as an emerging focus of advocacy and analysis in urban movements for social justice around especially the local and transnational dimensions of the "right to the city" movement.

Precludes additional credit for HUMR 3001 if taken prior to 2013-14.

Prerequisite(s): third year standing.

Lectures three hours a week.

HUMR 3202 [0.5 credit]**Human Rights and Resistance**

This course problematizes human rights paradigms and critically examines the limitations of the political within liberal democracies. Bringing together theory and politics, alternative approaches to activism are explored. Topics may include struggles grounded in radical democracy, anti-capitalism, and social justice perspectives.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3301 [0.5 credit]**Racialization, Racism and Human Rights**

The forms and effects of systemic race-based human rights abuses. Topics may include immigration and refugee policies and practices, anti-apartheid regimes, racial profiling, the racial politics of "nationhood" and armed conflict, civil rights and resistance movements in differing cultural contexts.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Seminar and discussion groups three hours a week.

HUMR 3302 [0.5 credit]**Culture, Religion, and Women's Human Rights**

The impact of cultural and religious traditions on gender, race, ethnicity and sexuality. Topics may include debates related to power dynamics, historical issues, geopolitics, and cultural relativism.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3303 [0.5 credit]**Children's Rights**

This course examines children's rights from a range of historical, cultural, and global perspectives. Topics may include the rights for Indigenous children, children with disabilities, female, trans and queer children, children in armed conflict and refugees in Canada and transnational contexts.

Includes: Experiential Learning Activity

Also listed as CHST 3303.

Precludes additional credit for CHST 3901 (no longer offered).

Prerequisite(s): third-year standing.

Lectures and discussion groups three hours a week.

HUMR 3304 [0.5 credit]**Disability Rights**

A critical approach to the study of disability rights that explores the intersections of disability with race, sexuality, gender, colonialism, 'health', and other discourses.

Precludes additional credit for HUMR 4303 (no longer offered).

Prerequisite(s): third-year standing.

Lecture three hours a week.

HUMR 3401 [0.5 credit]**Histories of Persecution and Genocide**

Case studies in persecution and/or genocide in different cultural contexts. The social, political, and legal conditions that have enabled the institutional or state-sanctioned persecution of targeted groups, and the circumstances that had an impact on their decline.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3501 [0.5 credit]**Social, Economic and Cultural Rights**

The development of social, economic and cultural rights, including rights to housing, healthcare, education and employment. Topics may include the international geopolitics of the historical tension between these rights and civil and political rights.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3503 [0.5 credit]**Global Environmental Justice**

Overview of critical debates on environmental issues from a global social justice perspective. Topics may include corporate mining, food sovereignty, poverty, economic exploitation, Indigenous cosmologies and environmental justice, militarization and environmental degradation, privatization of water and climate change.

Prerequisite(s): third-year standing.

Lectures and discussion groups three hours a week.

HUMR 3504 [0.5 credit]**Public Health and Human Rights**

Through a social-scientific analysis of AIDS, this course explores HIV/AIDS as a case study for understanding the politics of public health. Students will critically interrogate the authority of science and explore avenues for democratizing biomedicine and public health policy in various national and policy contexts.

Includes: Experiential Learning Activity

Precludes additional credit for HUMR 3001 Section "A" if taken in 2013-14 and 2014-15.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 4201 [0.5 credit]**Citizenship and Human Rights**

The relationship between citizenship and human rights; how large groups of people, including non-citizens and refugees, are excluded from entitlements to rights.

Why human rights rest on citizenship, and with what implications.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4302 [0.5 credit]**Transgender Human Rights**

Critical analyses of human rights through an examination of transgender subjectivities. The systemic erasure of trans people within society and the struggles of some activists to normalize trans identities.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4305 [0.5 credit]**Disability and Social Justice**

An intersectional national/transnational approach to social justice issues such as poverty/exploitation, labour, representation, decolonization, race/racism, sexuality and gender from a critical disability studies perspective.

Prerequisite(s): fourth-year standing in Human Rights or Disability Studies.

Seminar three hours a week.

HUMR 4401 [0.5 credit]**Gender, Citizenship and Social Justice in a Transnational World**

This seminar critically engages with transnational, gendered, classed, and racialized discursive practices of citizenship, human rights, the geopolitics of knowledge and processes of dehumanization through the lenses of decolonial social justice.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4404 [0.5 credit]**Rights of Refugees and Displaced Persons**

Contemporary issues concerning the rights of refugees and displaced persons, from social, political, and legal perspectives; Canadian and international dimensions of these issues.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing.

Seminar and discussion groups three hours a week.

HUMR 4409 [0.5 credit]**Counter-terrorism and Human Rights**

Examines policies and strategies states and international organizations use to combat global terrorism and the challenges these initiatives pose to the international human rights regime, democratic norms, and social justice.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing.

Seminar three hours per week.

HUMR 4502 [0.5 credit]**Global Indigenous Knowledges and Movements**

Indigenous Peoples contributions to world knowledge through community resistance, social movements and scholarship. How processes of corporate globalization impact Indigenous Peoples lives as an ongoing process of normalizing a reconfigured modern coloniality of power.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4905 [0.5 credit]**Practicum Placement in Human Rights I**

This course provides students with the opportunity to spend one day per week (6-8 hours) working and learning at a human rights-related government, research or advocacy organization. A written report is required at the end of the placement. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Human Rights or permission of the Institute.

HUMR 4906 [0.5 credit]**Practicum Placement in Human Rights II**

This course provides students with the opportunity to spend one day per week (6-8 hours) working and learning at a human rights-related government, research or advocacy organization. A written report is required at the end of the placement. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Human Rights and a GPA of 9.8 or higher or permission of the Institute.

HUMR 4907 [0.5 credit]**Special Topic in Human Rights**

This course features a detailed study of a special topic in any area of Human Rights. Topics and themes will vary from year to year.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4908 [0.5 credit]**Independent Study**

Essays and/or examinations based on a bibliography constructed by the student in consultation with an instructor.

Includes: Experiential Learning Activity

Prerequisite(s): normally restricted to students with at least 3.0 credits of Human Rights courses with at least a CGPA of 9.0 or better in Human Rights courses and permission of the Institute.

Humanities

This section presents the requirements for programs in:

- Humanities B.Hum. Honours
- Humanities B.Hum. Combined Honours
- Biology and Humanities B.Hum. Combined Honours

The B.Hum. Honours is available with a Study Year Abroad option. Consult the B.Hum. Honours program requirements for more information.

Program Requirements**Language Requirement**

Language courses are normally selected from the following list and chosen in consultation with the College's Academic Advisor. It may be necessary to fulfill a prerequisite before taking these courses.

- GREK 2200 and GREK 2201
- LATN 2200 and LATN 2201

- FREN 1100 [1.0] or FREN 2100 [1.0]
- GERM 2010 and GERM 2020, or GERM 2110 [1.0]
- ITAL 2010 and ITAL 2020, or ITAL 2110 [1.0]
- RELI 2010
- RUSS 2010 and RUSS 2020
- SPAN 2010 and SPAN 2020, or SPAN 2110 [1.0]

Humanities**B.Hum. Honours (20.0 credits)**

1. 4.0 credits in Humanities Core:		4.0
HUMS 1000 [1.0]	Myth and Symbol	
HUMS 2000 [1.0]	Reason and Revelation	
HUMS 3000 [1.0]	Culture and Imagination	
HUMS 4000 [1.0]	Politics, Modernity and the Common Good	
2. 3.0 credits in:		3.0
HUMS 1005 [0.5]	Early Human Cultures	
HUMS 1200 [0.5]	Humanities and Classical Civilisation	
HUMS 3200 [1.0]	European Literature	
HUMS 4103 [0.5]	Science in the Modern World	
HUMS 4500 [0.5]	Modern Intellectual History	
3. 2.0 credits in:		2.0
HUMS 2101 [0.5]	Art from Antiquity to the Medieval World	
HUMS 2102 [0.5]	Modern European Art 1527-2000	
HUMS 3102 [0.5]	Western Music 1000-1850	
HUMS 3103 [0.5]	Western Music 1850-2000	
(See Note, below)		
4. 2.0 credits in:		2.0
RELI 1731 [0.5]	Varieties of Religious Experience	
RELI 2710 [1.0]	Maccabees to Muhammad	
CLCV 2008/ENGL 2008 [0.5]	Classical and Roman Epic	
or		
CLCV 2010/ENGL 2010 [0.5]	Classical and Roman Drama	
5. 1.0 credit fulfilling the language requirement		1.0
6. 1.0 credit from:		1.0
CLCV 2902 [0.5]	History of Ancient Greece I	
CLCV 2903 [0.5]	History of Ancient Greece II	
CLCV 2904 [0.5]	History of Ancient Rome I	
CLCV 2905 [0.5]	History of Ancient Rome II	
HIST 3215 [0.5]	Ancient Greek Science	
HIST 3216 [0.5]	The Scientific Revolution	
PHIL 2005 [1.0]	Ancient Philosophy: The Search for Wisdom	
PSCI 2301 [0.5]	History of Political Thought I	
PSCI 2302 [0.5]	History of Political Thought II	
7. 5.0 credits in:		5.0
a. 1.0 credit at the 2000 level or above		
b. 1.0 credit from:		
HUMS 4901 [0.5]	Research Seminar: Antiquity to the Middle Ages	
HUMS 4902 [0.5]	Research Seminar: Renaissance to Enlightenment	
HUMS 4903 [0.5]	Research Seminar: Romanticism to the Present	
HUMS 4904 [0.5]	Research Seminar: Non-Western Traditions	

c. 1.0 credit from:	
DIGH 3001 [0.5]	The Book in the Digital Age
ENGL 3305 [0.5]	Shakespeare and the Stage
ENGL 3306 [0.5]	Shakespeare and Film
HIST 2204 [0.5]	Early Modern Europe 1350-1650
HIST 2206 [0.5]	Early Modern Europe 1600-1800
HUMS 3500 [0.5]	Ancient and Medieval Intellectual History
HUMS 3550 [0.5]	Renaissance and Early Modern Intellectual History
PHIL 3002 [0.5]	17th Century Philosophy
PHIL 3003 [0.5]	18th Century Philosophy
d. 2.0 credits in electives	
or (for Study Year Abroad)	
a. 5.0 pre-approved credits to be taken at an accredited international institution. Acceptable courses that cannot be equivalenced in a specific discipline will be equivalenced as HUMS courses.	
8. 2.0 credits in free electives.	2.0
Total Credits	20.0

Note: for Item 3 above, students who transfer into the B. Hum. may use up to 2.0 credits of any previously completed art and/or music courses (with the exception of advanced placement courses); students who study abroad may use up to 2.0 credits of art and/or music courses taken abroad; students enrolled in a Combined Honours in Humanities and Art History or Humanities and Music may substitute up to 1.0 credit of music or art from their combined discipline for the respective requirement or part thereof.

Humanities

B.Hum. Combined Honours (20.0 credits)

Students already admitted to the B.Hum. may register for a Combined Honours degree in Humanities and any other discipline offered within the B.A. Honours degree as a Combined Honours. They may also register for a Combined Honours with any other degree program at Carleton that allows the combination. Credits used to satisfy Items 1 through 7 below may also be used to satisfy up to 2.0 credits of the requirements of the other discipline under Item 8. A core seminar in Humanities used to fulfill the requirements of the other discipline will satisfy the 1.5 advanced credit requirement of that discipline. In this case the requirement that advanced credits be 3000-level or above is waived.

Requirements

1. 4.0 credits in Humanities Core:	4.0
HUMS 1000 [1.0]	Myth and Symbol
HUMS 2000 [1.0]	Reason and Revelation
HUMS 3000 [1.0]	Culture and Imagination
HUMS 4000 [1.0]	Politics, Modernity and the Common Good
2. 3.0 credits in:	3.0
HUMS 1005 [0.5]	Early Human Cultures
HUMS 1200 [0.5]	Humanities and Classical Civilisation
HUMS 3200 [1.0]	European Literature
HUMS 4103 [0.5]	Science in the Modern World

HUMS 4500 [0.5]	Modern Intellectual History	
3. 2.0 credits in:		2.0
HUMS 2101 [0.5]	Art from Antiquity to the Medieval World	
HUMS 2102 [0.5]	Modern European Art 1527-2000	
HUMS 3102 [0.5]	Western Music 1000-1850	
HUMS 3103 [0.5]	Western Music 1850-2000	
(See Note, below)		
4. 2.0 credits in:		2.0
RELI 1731 [0.5]	Varieties of Religious Experience	
RELI 2710 [1.0]	Maccabees to Muhammad	
CLCV 2008/ENGL 2	Greek and Roman Epic	
or		
CLCV 2010/ENGL 2	Greek and Roman Drama	
5. 1.0 credit fulfilling the language requirement		1.0
6. 0.5 credit at the 2000 level or above		0.5
7. 0.5 credit from:		0.5
HUMS 4901 [0.5]	Research Seminar: Antiquity to the Middle Ages	
HUMS 4902 [0.5]	Research Seminar: Renaissance to Enlightenment	
HUMS 4903 [0.5]	Research Seminar: Romanticism to the Present	
HUMS 4904 [0.5]	Research Seminar: Non-Western Traditions	
8. 7.0 credits in electives that include the requirements for the other discipline of the combined degree or the minor.		7.0
Total Credits		20.0

Note: For Item 3 above, students who transfer into the B. Hum. may use up to 2.0 credits of any previously completed art and/or music courses (with the exception of advanced placement courses); students who study abroad may use up to 2.0 credits of art and/or music courses taken abroad; students enrolled in a Combined Honours in Humanities and Art History or Humanities and Music may substitute up to 1.0 credit of music or art from their combined discipline for the respective requirement or part thereof.

Biology and Humanities

B.Hum. Combined Honours (20.0 credits)

A. Credits Included in the Humanities CGPA:

1. 4.0 credits in Humanities Core:		4.0
HUMS 1000 [1.0]	Myth and Symbol	
HUMS 2000 [1.0]	Reason and Revelation	
HUMS 3000 [1.0]	Culture and Imagination	
HUMS 4000 [1.0]	Politics, Modernity and the Common Good	
2. 1.5 credits in:		1.5
HUMS 1200 [0.5]	Humanities and Classical Civilisation	
HUMS 3200 [1.0]	European Literature	
3. 1.0 credit in:		1.0
HUMS 1005 [0.5]	Early Human Cultures	
RELI 1731 [0.5]	Varieties of Religious Experience	
or 1.0 credit in an approved Beginner's-level language.		
4. 2.0 credits in:		2.0

HUMS 2101 [0.5]	Art from Antiquity to the Medieval World	
HUMS 2102 [0.5]	Modern European Art 1527-2000	
HUMS 3102 [0.5]	Western Music 1000-1850	
HUMS 3103 [0.5]	Western Music 1850-2000	
(See Note, below)		
5. 1.5 credits in:		1.5
RELI 2710 [1.0]	Maccabees to Muhammad	
CLCV 2008/ENGL 2	Greek and Roman Epic	
or		
CLCV 2010/ENGL 2	Greek and Roman Drama	
6. 0.5 credit from:		0.5
HUMS 4901 [0.5]	Research Seminar: Antiquity to the Middle Ages	
HUMS 4902 [0.5]	Research Seminar: Renaissance to Enlightenment	
HUMS 4903 [0.5]	Research Seminar: Romanticism to the Present	
HUMS 4904 [0.5]	Research Seminar: Non-Western Traditions	
7. 1.0 credit fulfilling the language requirement		1.0
8. 0.5 credit at the 2000-level or above.		0.5
B. Credits Included in the Biology CGPA:		
9. 3.0 credits in:		3.0
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
BIOL 2001 [0.5]	Animals: Form and Function	
or BIOL 2002 [0.5] Plants: Form and Function		
BIOL 2104 [0.5]	Introductory Genetics	
or BIOL 2107 [0.5] Fundamentals of Genetics		
BIOL 2200 [0.5]	Cellular Biochemistry	
or BIOL 2201 [0.5] Cell Biology and Biochemistry		
BIOL 2303 [0.5]	Microbiology	
or BIOL 2600 [0.5] Ecology		
10. 2.0 credits from:		2.0
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 1005 [0.5]	Elementary Chemistry I	
& CHEM 1006 [0.5]	Elementary Chemistry II	
CHEM 2203 [0.5]	Organic Chemistry I	
CHEM 2204 [0.5]	Organic Chemistry II	
CHEM 2207 [0.5]	Introduction to Organic Chemistry I	
& CHEM 2208 [0.5]	Introduction to Organic Chemistry II	
11. 3.0 credits in BIOL or BIOC at the 3000 level or above.		3.0
Total Credits		20.0

Note:

- For Item 4 above, students who transfer into the B. Hum. may use up to 2.0 credits of any previously completed art and/or music courses (with the exception of advanced placement courses); students who study abroad may use up to 2.0 credits of art and/or music courses taken abroad; students enrolled in a Combined Honours in Humanities and Art History or Humanities and Music may substitute up to 1.0 credit of music or art from their combined discipline for the respective requirement or part thereof.

- For Items 3 and 7 above, students who must take a beginner's-level prerequisite to their Intermediate Language Requirement should do so in place of RELI 1731 & HUMS 1005. Students who are already able to demonstrate a proficiency in a second-language at an intermediate level may have the requirement waived, and in that case may be required to take an additional elective credit at the 2000-level or above in order to bring their total number of credits up to the required 20.0.
- For items 9 and 10, students taking CHEM 1005 and CHEM 1006 will be required to obtain a grade of B- or higher in CHEM 1006 to take BIOL 2200, and more advanced courses in BIOC and CHEM and advanced laboratory courses in BIOL for which BIOL 2200 is a prerequisite.

B.Hum. with Minor

Students already admitted to the B.Hum may add a minor to their program in any other discipline in the University which offers a minor. Students registered in the Humanities - B.Hum. Honours who add a minor follow the requirements listed under items 6 to 8 of Humanities - B.Hum. Combined Honours instead of the requirements listed under items 6 to 8 of the Humanities - B.Hum. Honours degree.

Regulations

In addition program requirements described in this section, students must satisfy the Academic Regulations of the University, including the process of Academic Performance Evaluation.

Students should consult the College and its Web site when planning their program and selecting courses.

Requirement for Full-Time Study

Students in the Humanities program must complete a minimum of 4.0 credits by the end of the summer session. The College may permit students to study abroad for a year while remaining registered in the program. For those students permitted to study abroad, Carleton credits commensurate to studies taken abroad will be determined by the College and awarded towards the student's degree. In exceptional circumstances (usually financial need or sickness) the College may also permit students to take a leave of absence for one year while remaining registered in the program.

Academic Performance Evaluation for Bachelor of Humanities

Bachelor of Humanities students are evaluated on the basis of their Overall CGPA and their Core CGPA.

Students are in *Good Standing* if the Overall CGPA at least 7.00 and the Core CGPA at least 7.00.

A student who is not in *Good Standing* but has Overall CGPA at least 6.00 and Core CGPA at least 6.00 is on *Academic Warning*.

A student is required to leave the program with the status *Continue in Alternate (CA)* or the status *Dismissed from Program (DP)* if:

1. the student was on *Academic Warning* and does not achieve *Good Standing* at the next Academic Performance Evaluation,
or
2. the student has Overall CGPA less than 6.00 or Core CGPA less than 6.00 at any Academic Performance Evaluation.

A student who has completed the first year of the B.Hum. may apply to transfer to the second year of the B.J.Hum. Transfers into higher years will not be considered.

Transfer from B.Hum. to B.J.Hum.

A student who has completed the first year of the B.Hum. in *Good Standing* may apply to transfer into the second year of the B.J. Hum. and will be accepted at the discretion of the School of Journalism and the College of Humanities, and must normally have an overall CGPA of 10.00 (A-) or higher. Transfers into higher years will not be considered.

The Humanities Core

HUMS 1000, HUMS 2000, HUMS 3000, HUMS 4000

Academic Performance Evaluation for Bachelor of Journalism and Humanities

The Bachelor of Journalism and Humanities degree distinguishes between a student's Overall CGPA and their Core Humanities CGPA.

The Core Humanities CGPA is calculated on the basis of the following four courses: HUMS 1000, HUMS 2000, HUMS 3000, HUMS 4000.

Continuation Regulations

1. Continuation in the Bachelor of Journalism and Humanities program requires the successful completion of 4.0 credits, including JOUR 1001 and JOUR 1002, by the first Academic Performance Evaluation.
 - a. Students are in *Good Standing* at the first APE if they have an Overall CGPA of at least 7.0 and a Core Humanities CGPA of 7.00.
 - b. Students who do not achieve *Good Standing* but who have an Overall CGPA of at least 6.0 and a Core Humanities CGPA of at least 6.00 are on *Academic Warning*. Those on *Academic Warning* must complete the following 2.0 credits of Journalism courses by the next APE, with a minimum final grade of C in each: JOUR 2201, JOUR 2202, JOUR 2501. (Note that the overall CGPA must be 7.0 or above by the next APE to be eligible to continue in *Good Standing* in the Bachelor of Journalism and Humanities.) Students who do not meet this requirement must leave the program with the status *Continue in Alternate (CA)* or the status *Dismissed from Program (DP)*.
 - c. Students who do not achieve *Good Standing* and who have an Overall CGPA or a Core Humanities CGPA of less than 6.0 are required to leave the program with the status *Continue in Alternate (CA)* or the status *Dismissed from Program (DP)*.

2. Students are in *Good Standing* at any subsequent Academic Performance Evaluation if they have an Overall CGPA of 7.00 or higher and a Core Humanities CGPA of 7.00 or higher. A student who is not in *Good Standing* but who has an Overall CGPA of 6.00 or higher and Core Humanities CGPA of 6.00 or higher is on *Academic Warning*.
3. A student is required to leave the program with the status *Continue in Alternate (CA)* or the status *Dismissed from Program (DP)* if:
 - a. the student was on *Academic Warning* and does not achieve *Good Standing* at the next Academic Performance Evaluation, **OR**
 - b. the student has an Overall CGPA of less than 6.00 or a Core Humanities CGPA of less than 6.00 at any Academic Performance Evaluation.

Transfer into second year of the B.J.Hum.

The School maintains a number of places in second year for students who wish to transfer from Carleton or elsewhere. Normally, offers are made to students with an overall CGPA equivalent to 10.00 (A-) or better. Continuation in *Good Standing* at subsequent Academic Performance Evaluations requires an Overall CGPA of at least 7.0 and a Core Humanities CGPA of at least 7.0. An additional year may be necessary for transfer students to complete their degree requirements.

General prerequisite

1. Students may continue into 3000-level Journalism production courses JOUR 3207, JOUR 3208, JOUR 3225, JOUR 3235 if they attain a minimum grade of C in each of the following: JOUR 2201, JOUR 2202 and JOUR 2501. (Note that the overall CGPA must be 7.0 or above at each APE to be eligible to continue in *Good Standing* in the Bachelor of Journalism and Humanities.)
2. Students may continue into the 4000-level Journalism publication courses JOUR 4003, JOUR 4004 and JOUR 4005 if they attain a minimum grade of C in each of the following: JOUR 3207, JOUR 3208, JOUR 3225, JOUR 3235. (Note that the overall CGPA must be 7.0 or above at each APE to be eligible to continue in *Good Standing* in the Bachelor of Journalism and Humanities.)

Transferring from the B.J.Hum. to the B.J. or B.Hum.

A student who wishes to transfer from the B.J.Hum. to the B.J. or the B.Hum. may apply through Admissions and will be accepted if, upon entry to the new program, they would be in *Good Standing*.

A student who fails any A.P.E. and who is consequently on *Academic Warning* or who must leave the program with *Continue in Alternate (CA)* may transfer into the B.J. or the B.Hum. only if they would be in *Good Standing* upon entry into their new degree.

Degrees

- B. Hum. (Honours)
- B. Hum. and Biology (Honours)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The Bachelor of Humanities and Biology option must include 4U Chemistry or 4U Biology.

Note:

The overall admission cut-off average and/or prerequisite average may be considerably higher than the stated minimum requirements for admission. Applicants with lower averages may be asked to submit a portfolio in support of their application. For detailed information about the portfolio and whether you are required to submit one, please consult with the Bachelor of Humanities website. The portfolio should be submitted to the College of the Humanities, Carleton University.

Advanced Standing

Applications for admission with advanced standing to the program leading to the Bachelor of Humanities will be evaluated individually. On admission, students will not receive credit for courses graded below C-. The College also maintains a number of places in second and third year for students who wish to transfer from Carleton or elsewhere. Applications will be assessed on their merits but normally an overall CGPA of 8.0 (B) or higher is required. On admission, students will not receive credit for courses graded below C-.

Humanities (HUMS) Courses

HUMS 1000 [1.0 credit]

Myth and Symbol

Recurring symbols in myth, epic and ritual representing the relation between the sacred and the profane, the origin of the cosmos, the basis of community, and formative human experiences. Primary sources drawn from ancient India and China, Mesopotamia, the Hebrew Bible, and Indigenous cultures.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 1005 [0.5 credit]

Early Human Cultures

Cultural experiences of small scale societies, including kinship, rituals, magic, social structure, and subsistence. Reading may include the works of classic anthropologists such as Maine, Tylor, Morgan, and Boas.

Precludes additional credit for ANTH 1001 and ANTH 1003.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 1200 [0.5 credit]

Humanities and Classical Civilisation

The ideas which animated ancient Greek and Roman civilisation and which influenced later western cultural movements through a reading of literary, historical, and philosophical works. Authors include Homer, Herodotus, Thucydides, the Greek Tragedians, Plato, Vergil, and Cicero.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 1500 [0.5 credit]

Introduction to the Humanities: Five Books that Changed the World

A reading-intensive course on five influential books from Antiquity to the present day. Works may include the Bible, the Bhagavad Gita, Homer's Odyssey, Plato's Republic, Dante's Inferno, Machiavelli's The Prince, Shakespeare's Hamlet, Mary Shelley's Frankenstein, Nietzsche's Beyond Good and Evil, Marx's Communist Manifesto.

Prerequisite(s): enrolment in a degree program in the Faculty of Arts and Social Sciences, or the Faculty of Public Affairs. Students enrolled in the BHum. program are not eligible to register in this course.

Lecture three hours per week.

HUMS 2000 [1.0 credit]

Reason and Revelation

The origins of philosophy in ancient Greece and its pursuit in the medieval West, with special attention to knowledge, happiness, and love. Readings include works by Plato, Aristotle, Plotinus, Augustine, Boethius, Aquinas, and Dante.

Prerequisite(s): HUMS 1000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 2101 [0.5 credit]

Art from Antiquity to the Medieval World

A chronological and thematic survey of the Arts from the earliest times to ca. 1400.

Precludes additional credit for HUMS 4101 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 2102 [0.5 credit]

Modern European Art 1527-2000

A chronological and thematic survey of the Arts from the sixteenth to the twenty-first century.

Precludes additional credit for HUMS 4101 (no longer offered) and HUMS 3101 (no longer offered).

Prerequisite(s): HUMS 2101 and restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 3000 [1.0 credit]**Culture and Imagination**

Major forms of literary, artistic, and philosophical expression from 1500-1800. Sources drawn from renaissance humanism, reformation theology, enlightenment and romantic philosophy.

Prerequisite(s): HUMS 2000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 3102 [0.5 credit]**Western Music 1000-1850**

Introduction to basic theory, harmony, history and interpretation of Western music including the Medieval, Renaissance, Baroque, Classical and early Romantic periods.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4102 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 3103 [0.5 credit]**Western Music 1850-2000**

Western music from the mid-nineteenth century to the present with emphasis on the seminal contributions of Liszt, Wagner, Mahler, Debussy, Stravinsky, Schönberg and others.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4102 (no longer offered).

Prerequisite(s): HUMS 3102 and restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 3200 [1.0 credit]**European Literature**

Major movements and works from Dante's Divine Comedy through Voltaire's Candide. Themes include the New Humanism vs. old Chivalry in the Renaissance and Baroque periods; the rise of the modern novel and drama; reason, nature, and the Enlightenment project.

Also listed as ENGL 3201.

Prerequisite(s): HUMS 2000 and third-year standing in the Bachelor of Humanities program. English students should have third-year standing with a GPA of B or above.

Lectures three hours a week.

HUMS 3500 [0.5 credit]**Ancient and Medieval Intellectual History**

Examination of some of the major philosophical, religious, political, artistic, and/or literary ideas, works, and movements from Archaic Greece to the High Middle Ages.

Prerequisite(s): third-year standing in the Bachelor of Humanities program, or permission of the instructor.

Lectures three hours a week.

HUMS 3550 [0.5 credit]**Renaissance and Early Modern Intellectual History**

Examination of some of the major philosophical, religious, political, artistic, and/or literary ideas, works, and movements from the Early Renaissance to 1800.

Prerequisite(s): third-year standing in the Bachelor of Humanities program, or permission of the instructor.

Lectures three hours a week.

HUMS 4000 [1.0 credit]**Politics, Modernity and the Common Good**

Modern and post-modern ways of thinking and doing, including revolutionary new ideas in politics, philosophy, culture, economics, and international relations. Thinkers considered include Arendt, Foucault, Hegel, Heidegger, Hobbes, Kant, Marx, Nietzsche, Polanyi, Rousseau, Said, and Taylor.

Includes: Experiential Learning Activity

Prerequisite(s): HUMS3000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 4001 [0.5 credit]**Directed Studies in the Humanities**

A course for independent study and writing, under the supervision of a College designated faculty member. This course involves supervised readings and written essays.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

HUMS 4002 [0.5 credit]**Directed Studies in the Humanities**

A course for independent study and writing, under the supervision of a College designated faculty member. This course involves supervised readings and written essays.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program and Good Standing in the program.

HUMS 4103 [0.5 credit]**Science in the Modern World**

An introduction to the major scientific ideas of our time (such as Big Bang theory, molecular genetics, evolution, atomic structure), and the impact of technology on society (e.g. global warming, pollution, genetically modified foods, viral infections).

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4100 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 4500 [0.5 credit]**Modern Intellectual History**

Examination of some of the major ideas and ideologies from 1800 to the present, including romanticism, liberalism, nationalism, symbolism, socialism, Freudianism, communism, feminism, and postmodernism.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4104.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 4901 [0.5 credit]**Research Seminar: Antiquity to the Middle Ages**

An interdisciplinary seminar on a selected topic in the humanities from Antiquity to the Middle Ages. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4902 [0.5 credit]**Research Seminar: Renaissance to Enlightenment**

An interdisciplinary seminar on a selected topic in the humanities from the Renaissance to the Enlightenment. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4903 [0.5 credit]**Research Seminar: Romanticism to the Present**

An interdisciplinary seminar on a selected topic in the humanities from Romanticism to the present. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4904 [0.5 credit]**Research Seminar: Non-Western Traditions**

An interdisciplinary seminar on a selected topic in the humanities as expressed in aboriginal and Non-Western cultures. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

Indigenous Studies

This section presents the requirements for programs in:

- Indigenous Studies B.A. Combined Honours
- Minor in Indigenous Studies

Program Requirements**Indigenous Studies****B.A. Combined Honours (20.0 Credits)****A. Credits Included in the Indigenous Studies Major (7.0 credits)**

1. 1.0 credit in:		1.0
INDG 1010 [0.5]	Introduction to Indigenous Peoplehood Studies	
INDG 1011 [0.5]	Introduction to Indigenous-Settler Encounters	
2. 1.5 credits in:		1.5
INDG 2011 [0.5]	Contemporary Indigenous Studies	
INDG 2015 [0.5]	Indigenous Ecological Ways of Knowing	
INDG 2020 [0.5]	Decolonizing Gender, Sex, and Sexuality	
3. 1.0 credit in:		1.0
INDG 3001 [0.5]	Indigenous Governance	
INDG 3015 [0.5]	Indigenous Ecological Ways of Knowing and the Academy	
4. 1.0 credit in:		1.0
INDG 4001 [0.5]	Indigeneity in the City	
INDG 4011 [0.5]	Indigenous Representations	
5. 1.5 credits from the list of Approved INDG electives		1.5
6. 1.0 credit at the 4000-level from the list of Approved INDG electives		1.0
B. Additional Requirements (13.0 credits)		13.0
7. The requirements for Combined Honours in the other discipline must be satisfied		
8. Sufficient free electives to achieve a total of 20.0 credits for the program		
Total Credits		20.0

Indigenous Studies Electives

The following courses are deemed by the School of Indigenous and Canadian Studies to have significant Indigenous content, and can be included where appropriate as part of a minor in Indigenous Studies. Carleton courses not on this list may be applied as approved Indigenous Studies electives, but they must be approved by the Undergraduate Supervisor. Students taking courses at the University of Ottawa should consult with the Undergraduate Supervisor to gain approval for substituting them as approved Indigenous Studies electives.

African Studies

AFRI 1001 [0.5]	Introduction to African Studies I
AFRI 1002 [0.5]	Introduction to African Studies II
AFRI 3001 [0.5]	Globalization and Popular Culture in Africa
AFRI 3100 [0.5]	African Studies Abroad: Selected Topics
AFRI 4000 [0.5]	Advanced Topics in African Studies
AFRI 4050 [0.5]	Selected Topics in African Studies

Anthropology

ANTH 2610 [0.5]	Studies in Indigenous Peoples of North America: Current Issues in Anthropological Research
ANTH 2620 [0.5]	Ethnography of Sub-Saharan Africa

ANTH 2630 [0.5]	Studies in Asian Societies: Current Issues in Anthropological Research
ANTH 2640 [0.5]	Andean Ethnography
ANTH 2650 [0.5]	Ethnography of Mesoamerica
ANTH 2660 [0.5]	Ethnography of North Africa
ANTH 2670 [0.5]	Ethnography of Brazil
ANTH 3570 [0.5]	Studies in Art, Culture and Society
ANTH 3600 [0.5]	Studies in Anthropology and Indigenous Peoples
ANTH 4610 [0.5]	Advanced Studies in Indigenous Peoples
ANTH 4620 [0.5]	Advanced Studies in Contemporary Sub-Saharan Africa: Current Issues in Anthropological Research
ANTH 4730 [0.5]	Colonialism and Post-Colonialism

Art History

ARTH 2005 [0.5]	Arts of the First Peoples: The Woodlands, the Plains and the Subarctic
ARTH 2006 [0.5]	Arts of the First Peoples: The Southwest, the West Coast and the Arctic
ARTH 2008 [0.5]	Inuit Art
ARTH 4005 [0.5]	Topics in Contemporary Indigenous Art

Canadian Studies

CDNS 4800 [1.0]	Internship Practicum
CDNS 4801 [0.5]	Internship/Practicum
CDNS 4802 [0.5]	Internship/Practicum
CDNS 4901 [0.5]	Selected Topics in Canadian Studies
CDNS 4902 [0.5]	Selected Topics in Canadian Studies
CDNS 4903 [0.5]	Études dirigées I
CDNS 4904 [0.5]	Études dirigées II
CDNS 4905 [0.5]	Directed Studies I
CDNS 4906 [0.5]	Directed Studies II
CDNS 4907 [1.0]	Directed Studies III (Provided they have Indigenous content)

Child Studies

CHST 3002 [0.5]	Special Topics in Child Studies
-----------------	---------------------------------

English

ENGL 2709 [0.5]	Indigenous Drama

Linguistics and Language Studies

LANG 1010 [0.5]	Introduction to a Language I
LANG 1020 [0.5]	Introduction to a Language II

(When the language offered is an Indigenous language of Canada)

Music

MUSI 3106 [0.5]	Popular Musics of the World
MUSI 4104 [0.5]	First Peoples Music in Canada
MUSI 4105 [0.5]	Issues and Processes in African Music

Political Science

PSCI 3101 [0.5]	Politics of War in Africa
PSCI 3105 [0.5]	Imperialism
PSCI 3203 [0.5]	Government and Politics in the Middle East
PSCI 3204 [0.5]	Politics of Latin America

PSCI 3205 [0.5]	Mexican Politics
PSCI 3700 [0.5]	Government and Politics of South Asia
PSCI 4109 [0.5]	The Politics of the Canadian Charter of Rights and Freedoms
PSCI 4203 [0.5]	Southern Africa After Apartheid
PSCI 4206 [0.5]	Indigenous Politics of North America
PSCI 4207 [0.5]	Globalization, Adjustment and Democracy in Africa

Religion

RELI 2720 [0.5]	Indigenous Religions of Canada
RELI 2800 [0.5]	Indigenous Traditions

Sexuality Studies

SXST 2101 [0.5]	Sexuality Studies: A Critical Introduction
SXST 3104 [0.5]	Transnational Sexualities

Social Work

SOWK 4102 [0.5]	Indigenous Peoples and Social Policy
-----------------	--------------------------------------

South Asian Studies

SAST 1001 [0.5]	Introduction to South Asian Studies I
SAST 1002 [0.5]	Introduction to South Asian Studies II

Women's and Gender Studies

WGST 2800 [0.5]	Intersectional Identities
WGST 3803 [0.5]	Feminisms and Transnationalism
WGST 3807 [0.5]	Gendered Violence

Minor in Indigenous Studies (4.0 credits)

The Minor in Indigenous Studies is open to all undergraduate degree students.

Requirements:

1. 1.0 credit in:		1.0
INDG 1010 [0.5]	Introduction to Indigenous Peoplehood Studies	
INDG 1011 [0.5]	Introduction to Indigenous-Settler Encounters	
2. 1.0 credit from:		1.0
INDG 2011 [0.5]	Contemporary Indigenous Studies	
INDG 2012 [0.5]	Anishinaabe Studies	
INDG 2013 [0.5]	Haudenosaunee Studies	
INDG 2015 [0.5]	Indigenous Ecological Ways of Knowing	
INDG 2020 [0.5]	Decolonizing Gender, Sex, and Sexuality	
3. 1.0 credit from:		1.0
INDG 3001 [0.5]	Indigenous Governance	
INDG 3011 [0.5]	Indigenous Rights, Resistance, and Resurgence	
INDG 3015 [0.5]	Indigenous Ecological Ways of Knowing and the Academy	
INDG 3901 [0.5]	Selected Topics in Indigenous Studies	
INDG 4001 [0.5]	Indigeneity in the City	
INDG 4011 [0.5]	Indigenous Representations	
INDG 4015 [0.5]	Land as a Relation	
INDG 4020 [0.5]	Practicum	

INDG 4905 [0.5]	Directed Studies I	
4. 1.0 credit from	the list of approved Indigenous Studies Electives	1.0
5.	The remaining requirements of the major discipline(s) and degree must be satisfied.	

Total Credits **4.0**

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would

be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in *Good Standing*.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off

averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section "English Language Requirements" in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Indigenous Studies (INDG) Courses

INDG 1000 [1.0 credit]

Introduction to Indigenous Studies

Survey of historical and contemporary issues relating to Indigenous peoples in Canada. Cultural traditions and the social interactions between Indigenous and non-Indigenous societies are approached from an interdisciplinary perspective. Precludes additional credit for INDG 1010 and INDG 1011. Online only.

INDG 1010 [0.5 credit]

Introduction to Indigenous Peoplehood Studies

This course begins by looking at Creation Stories of different Indigenous peoples and builds to discuss Indigenous worldviews, ways of living, ecological relationships, inter-Indigenous relations and diplomacy among Indigenous peoples. Course materials are rooted in self-situated and collective understandings of Indigenous peoples.

Precludes additional credit for INDG 1000.

Lecture/groups, three hours a week.

INDG 1011 [0.5 credit]

Introduction to Indigenous-Settler Encounters

An interdisciplinary examination of the history of relations between different Indigenous peoples and settler populations from first meetings to the mid-20th century. Topics vary by year, but may include diplomatic relations, trade, spirituality and religion, military alliances, policy, education.

Precludes additional credit for INDG 1000.

Lecture/groups, three hours a week.

INDG 2011 [0.5 credit]

Contemporary Indigenous Studies

Indigenous and non-Indigenous perspectives on issues since the 1960s. Topics include: contemporary explorations of treaty relationship and governance, cultural appropriation, identity politics, urban Aboriginality and contemporary social and cultural issues.

Precludes additional credit for CDNS 2100 and CDNS 2011.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

INDG 2012 [0.5 credit]

Anishinaabe Studies

In-depth look at the Anishinaabe peoples. Topics may include: Anishinaabe creation stories, migration, the clan system, worldviews; oral, written, and recorded history; treaties, contemporary events, ecological knowing, cultural production, relations with settler-colonies and other nations, self-governance, diplomatic relations.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups three hours a week.

INDG 2013 [0.5 credit]

Haudenosaunee Studies

Focuses on the Haudenosaunee from the founding of the Confederacy to present. Discussion of the culture, language, and structure of Haudenosaunee society, the Kaienerekowa (Great Law of Peace) and the Code of Handsome Lake, symbolism, and contemporary issues, including the impact of Euro-Canadian government policies.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups, three hours a week.

INDG 2015 [0.5 credit]**Indigenous Ecological Ways of Knowing**

Indigenous peoples' relationships with the non-human world in both historical and contemporary contexts. Topics may include: the origins of Indigenous ecological ways of knowing, Indigenous languages, collective stewardship, water, land, and challenges to maintaining traditional knowledge.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups, three hours a week.

INDG 2020 [0.5 credit]**Decolonizing Gender, Sex, and Sexuality**

Effects of colonization in unbalancing Indigenous peoples' lives through the imposition of constructions of gender, sex, and sexuality, and the ways that Indigenous peoples are working to restore balance to their families and communities. Topics vary by year.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups, three hours a week.

INDG 2709 [0.5 credit]**Indigenous Drama**

A study of dramatic literatures and theatre practice from Indigenous theatre makers, including playwrights, directors and other practitioners.

Also listed as ENGL 2709.

Prerequisite(s): second-year standing or permission of the School.

Lecture three hours per week

INDG 3001 [0.5 credit]**Indigenous Governance**

An examination and discussion of different Indigenous forms of governance. Topics will vary by year and may include: Indigenous ways of knowing and forms of governance, community leadership, diplomatic relations, and struggles for self-determination.

Precludes additional credit for INDG 3000 (no longer offered).

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 3011 [0.5 credit]**Indigenous Rights, Resistance, and Resurgence**

Indigenous approaches to restoring balance within their nations. Topics include: direct action; political organizing; land claims; rights, courts, and legal action; everyday acts of resistance and resurgence such as petitioning, social media, arts-based movements, and community initiatives.

Includes: Experiential Learning Activity

Precludes additional credit for INDG 3010 (no longer offered).

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 3015 [0.5 credit]**Indigenous Ecological Ways of Knowing and the Academy**

The relationship between Indigenous traditional ecological knowledges and the academy. Topics include: linguistic barriers, tensions in diffuse ways of knowing, research ethics with respect to Indigenous traditional knowledge, and working with knowledge holders.

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 3901 [0.5 credit]**Selected Topics in Indigenous Studies**

Topics vary from year to year.

Prerequisite(s): third- or fourth-year standing, or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 4001 [0.5 credit]**Indigeneity in the City**

This course begins with an examination of the relationship between Indigenous peoples and the construction of cities and urban space. Culminates in the undertaking of research projects that directly link students to the urban Indigenous community in Ottawa.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 4011 [0.5 credit]**Indigenous Representations**

Through an examination of instances of Indigenous misrepresentation, students will explore how Indigenous peoples have used cultural production in various forms (such as literature, film, television, visual arts, music, performance) to put forth their own visions of their peoples, worldviews, and lives.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

INDG 4015 [0.5 credit]**Land as a Relation**

This is an intensive 14-day field course that brings students together with knowledge holders on the land. The connections between Indigenous ways of knowing, the land, Indigenous languages, and the land's non-human inhabitants, will be explored. Locations and course fee varies by year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Fourteen-day field course.

INDG 4020 [0.5 credit]

Practicum

Students will learn to apply their knowledge of topics in Indigenous Studies with a local organization whose mandate involves working with and/or for Indigenous peoples. To be arranged in consultation with the Program Coordinator.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

INDG 4901 [0.5 credit]

Selected Topics in Indigenous Studies

Topics vary from year to year.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 4905 [0.5 credit]

Directed Studies I

An optional course normally restricted to fourth-year Honours students in Canadian Studies or Indigenous Studies and to Qualifying-year Graduate students.

Includes supervised reading and written work in an Indigenous Studies area.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Industrial Design

This section presents the requirements for programs in:

- Industrial Design B.I.D.
- Minor in Design

Program Requirements

Industrial Design

B.I.D. (20.0 credits)

First Year

1. 5.0 credits in: 5.0

IDES 1000 [0.5] Theory and History of Design

IDES 1001 [0.5] Industrial Design Analysis

IDES 1300 [0.5] Projects IA

IDES 1301 [0.5] Projects IB

ECON 1001 [0.5] Introduction to Microeconomics

ECON 1002 [0.5] Introduction to Macroeconomics

MATH 1107 [0.5] Linear Algebra I

PSYC 1001 [0.5] Introduction to Psychology I

PSYC 1002 [0.5] Introduction to Psychology II

PHYS 1007 [0.5] Elementary University Physics I

Second Year

2. 4.0 credits in: 4.0

IDES 2101 [0.5] Design for Manufacturing A

IDES 2102 [0.5] Design for Manufacturing B

IDES 2105 [0.5] Computer Applications

IDES 2205 [0.5] Sensory Aspects of Design for User Experience

IDES 2300 [0.5] Projects IIA

IDES 2302 [0.5] Projects IIB

IDES 2600 [0.5] Human Factors/Ergonomics in Design

PSYC 3702 [0.5] Perception

3. 1.0 credit in free electives 1.0

Third Year

4. 2.0 credits in: 2.0

IDES 3310 [0.5] Projects IIIA

IDES 3302 [0.5] Projects IIIB

IDES 3502 [0.5] Contextual Nature of Products

IDES 3601 [0.5] Research for Design

5. 0.5 credit in: 0.5

BUSI 2204 [0.5] Basic Marketing

6. 1.0 credit in free electives at the 2000-level or above 1.0

7. 1.5 credits from: 1.5

IDES 3107 [0.5] Design and Sustainability

IDES 3104 [0.5] Exhibition Design

IDES 3105 [0.5] Visual Communication and Package Design

IDES 3106 [0.5] Advanced Computer Applications

IDES 3202 [0.5] Advanced Studies in Form and Colour

IDES 3305 [0.5] Special Studies

IDES 3306 [0.5] Special Studies

Fourth Year

8. 3.5 credits in: 3.5

IDES 4001 [0.5] Industrial Design Seminar

IDES 4002 [0.5] Professional Practice

IDES 4301 [0.5] Minor Projects

IDES 4310 [1.5] Capstone Project

IDES 4400 [0.5] Internship Field Report

9. 1.5 credits in free electives at the 3000-level or above 1.5

Total Credits 20.0

Notes:

1. Fourth-year students are required to register in IDES 4301 and IDES 4310 in the same academic year.
2. One successfully completed Industrial Design Co-op work term between the third and fourth year of study is equivalent to IDES 4400.
3. The electives chosen should serve to deepen the student's understanding of fields related to Industrial Design or disciplines that are relevant for industrial designers.

Minor in Design (4.0 credits)

This minor is open to all undergraduate degree students not in the Industrial Design program.

Only students pursuing undergraduate programs requiring at least 20.0 credits to graduate and who have completed at least 4.0 credits toward their degrees with a minimum overall CGPA of 7.00 may be admitted to the Minor in Design.

1. 1.5 credits in: 1.5

IDES 1000 [0.5] Theory and History of Design

IDES 1001 [0.5] Industrial Design Analysis

IDES 2205 [0.5] Sensory Aspects of Design for User Experience

2. 2.5 credits from: 2.5

IDES 2600 [0.5]	Human Factors/Ergonomics in Design
IDES 3104 [0.5]	Exhibition Design
IDES 3105 [0.5]	Visual Communication and Package Design
IDES 3107 [0.5]	Design and Sustainability
IDES 3305 [0.5]	Special Studies
IDES 3306 [0.5]	Special Studies
IDES 3502 [0.5]	Contextual Nature of Products
IDES 3601 [0.5]	Research for Design
IDES 4001 [0.5]	Industrial Design Seminar
IDES 4101 [0.5]	Adv. Studies in Manufacturing
IDES 4200 [0.5]	Form Organization
IDES 4305 [0.5]	Special Studies
IDES 4306 [0.5]	Special Studies

3. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits **4.0**

Regulations

The regulations presented in this section apply to all students in the Bachelor of Industrial Design program.

In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

Year Status and General Prerequisites

In the Bachelor of Industrial Design degree program, year status is defined as follows:

1st year: Admission to the program.

2nd year: Successful completion of IDES 1001 , IDES 1301 and must not be deficient in any more than one of the other first year courses.

3rd year: Successful completion of of IDES 2302 and all first and second year course requirements.

4th year: Successful completion of IDES 3302 and all third year course requirements.

Prerequisites

The following broad course prerequisites specify requirements for access to upper year project courses:

- Registration in IDES 2300 Projects IIA normally requires successful completion of IDES 1001, IDES 1301 and must not be deficient in any more than one of the other **first-year** courses.
- Registration in IDES 4310 [1.5] Capstone Project normally requires successful completion of all **third-year** course requirements.

Academic Performance Evaluation for Bachelor of Industrial Design

1. Students in the Bachelor of Industrial Design degree are assessed at each Academic Performance Evaluation using their Overall CGPA and the Industrial Design Core courses. (The Industrial Design program does not distinguish a set of courses forming a Major).

The following evaluation criteria apply:

1. students are subject to an evaluation at the end of the winter term if they have completed 4.0 credits since admission or since the preceding evaluation;
2. in addition, students will receive an evaluation of their Industrial Design Core courses at the end of each Winter term as long as they have completed a Core course in the preceding summer, fall or winter terms.

INDUSTRIAL DESIGN CORE COURSES

IDES 1300 [0.5]	Projects IA
IDES 1301 [0.5]	Projects IB
IDES 2300 [0.5]	Projects IIA
IDES 2302 [0.5]	Projects IIB
IDES 3302 [0.5]	Projects IIIB
IDES 3310 [0.5]	Projects IIIA
IDES 4301 [0.5]	Minor Projects

1. *Good Standing* - *Good Standing* requires a grade of C- or better in each of the Industrial Design Core courses as well as an Overall CGPA at or above the minimum given in Table 1 of Section 3.2.7.
2. *Academic Warning* - Students who are not assigned the status *Good Standing* (GS), *Continue in Alternate* (CA) or *Dismissed from Program* (DP) will be on *Academic Warning*. The following conditions apply:
 - a. a student who is on *Academic Warning* due to a grade less than C- in a Core course, but with an Overall CGPA high enough for *Good Standing* will be given permission to repeat this Core course and must achieve a grade of C- or better before the next evaluation.
 - b. a student who is on *Academic Warning* due to an Overall CGPA less than the minimum required for *Good Standing*, and who also has a grade less than C- in a Core course must raise both the Overall CGPA and pass the Core course with a grade of C- or better before the next evaluation. This student must first raise his or her Overall CGPA to a level sufficient to achieve *Good Standing*, if an evaluation were made, before permission will be given to re-register in the Core course.
3. *Continue in Alternate* or *Dismissed from Program* - Students satisfying any of the following conditions must leave the Industrial Design program with the status *Continue in Alternate* (CA) or *Dismissed from Program* (DP):
 - a. have an Overall CGPA that is less than 1.00,
 - b. have failed to achieve a *Good Standing* assessment at the next Academic Performance Evaluation while on *Academic Warning*,
 - c. have exceeded the maximum allowable number of discredits for the program,
 - d. have failed to satisfy any additional course requirements received on admission,
 - e. have received a grade of less than C- in the same Core course twice,

- f. have not completed the program within seven years.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job.

It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

Bachelor of Industrial Design: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to:

1. Registered as a full-time student in the Industrial Design program

2. Obtained a CGPA of 8.00 or higher in industrial design core courses and an overall CGPA of 6.50 or higher

Students in the Bachelor of Industrial Design must complete three (3) work terms to obtain the co-op designation.

Co-op Work Term Course: IDES 3999

Work-Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	W	Fall	S
Winter	S	Winter	S	Winter	S	Winter	W/S	Winter	S
Summer		Summer	W	Summer	W	Summer	W/S		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Industrial Design (B.I.D.)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and Physics. Calculus and Vectors, Design Technology and Visual Arts are strongly recommended. Equivalent courses may be substituted between the old and new Ontario mathematics curriculum.

Note: candidates must present a portfolio of any kind of work that could demonstrate creativity and aptitude for the study of industrial design. Attending an information session at the School is recommended.

Advanced Standing

Applications for admission to second or subsequent years will be assessed on their merits and on space availability in the program. Advanced standing will be granted only for those courses that are determined to be appropriate and is subject to space availability.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Industrial Design program;
3. be eligible for work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Industrial Design (IDES) Courses

IDES 1000 [0.5 credit]

Theory and History of Design

The theoretical and historical background of industrial design and design; disciplinary foundations and interdisciplinary connections; methodological aspects and economic and social contexts; contemporary scenarios in design; technological innovation and manufacturing processes.

Also listed as ARCH 2006.

Lectures three hours a week.

IDES 1001 [0.5 credit]

Industrial Design Analysis

Principles of comparative product design analysis covering marketing and sales, manufacturing techniques and materials, ambiance and qualities of the object/context relationship, and design analysis from the perspective of the designer, the end-user and the environment.

Includes: Experiential Learning Activity

Also listed as ARCH 2101.

Prerequisite(s): IDES 1000 or ARCH 2006.

Lectures three hours a week.

IDES 1300 [0.5 credit]

Projects IA

An introduction to the skills and processes of industrial design including drawing and sketching as an aid to design, basics of line, shape, ideation, and visualization, product drawing, presentation techniques, basic model making, studio equipment and practices, introduction to the design process.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1000 (may be taken concurrently).

Studio and lectures six hours a week.

IDES 1301 [0.5 credit]

Projects IB

Aspects of industrial design theory and practice, specifically those dealing with principles of product development, fundamentals of form and colour and case studies. Students will explore the design process with emphasis on creative problem-solving techniques and visual communication in design.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1300.

Studio and lectures six hours a week.

IDES 2101 [0.5 credit]

Design for Manufacturing A

Transformation techniques applied to manufacturing materials. Part-design requirements and cost factors for manufacturing processes. Influences and role of assembly, finishing, production tooling, and costing.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1001, IDES 1301.

Lecture and tutorials three hours a week, laboratory three hours a week.

IDES 2102 [0.5 credit]

Design for Manufacturing B

Continuation of IDES 2101. Transformation techniques applied to manufacturing materials. Part-design requirements and cost factors for manufacturing processes. The influences and role of assembly, finishing, production tooling, costing are addressed.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2101 or permission of the School of Industrial Design.

Lecture and tutorials three hours a week, laboratory three hours a week.

IDES 2105 [0.5 credit]

Computer Applications

Provides industrial design students with a working knowledge of design related 3D computer applications, as well as graphic manipulation and illustration software. Labs and projects are oriented towards building a foundation in software and group work skills for studio courses.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1301.

Lecture and tutorials three hours a week.

IDES 2205 [0.5 credit]**Sensory Aspects of Design for User Experience**

An exploration of multi-sensory qualities derived from and designed into products to optimize product-interaction experiences. Visual, tactile, auditory, and other related sensory aspects of design and design principles that contribute to the product multi-sensory characteristics while adding meaning and emotional value.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 2203 (no longer offered).

Prerequisite(s): IDES 1001 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 2300 [0.5 credit]**Projects IIA**

Principles of design sketching used in the industrial design process. Topics include: sketching as a tool for problem definition; idea exploration and form development; rendering techniques and the communication of design concepts; basic physical prototyping and modeling-making techniques.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1001 and IDES 1301, or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 2302 [0.5 credit]**Projects IIB**

Introduction to the design principles associated with adapting products to an existing product semantic. Topics covered: principles of design, product semantics, design analysis, design synthesis, design evaluation, and modeling techniques. The design project(s) explore some or all of the design principles covered in the lectures.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2300 or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 2600 [0.5 credit]**Human Factors/Ergonomics in Design**

Foundation course in human factors/ergonomics providing an overview of physical and cognitive considerations in product design and related design fields. Anthropometrics, biomechanical considerations, cognition, social interaction, and emotional interaction are introduced in relation to supporting user experience, health and safety, performance and productivity.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 1001 and PSYC 1002, or PSYC 1000.

Lectures and discussion three hours a week.

IDES 3104 [0.5 credit]**Exhibition Design**

Exhibition design is explored through lectures, case studies, field trips and guest lectures. Students participate in exercises and apply design skills to a variety of exhibition design realms. Introduces students to the potential of the built environment for exploring a range of diverse exhibit applications.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1301 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 3105 [0.5 credit]**Visual Communication and Package Design**

A survey of visual communication and package design principles relevant to industrial designers. Product/brand definition and corporate identity through package design.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1301 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 3106 [0.5 credit]**Advanced Computer Applications**

Examination of complex product geometry utilizing 3D computer applications. Topics include spline, surface and solids construction, surface verification tools, and rendering tools and techniques. Workflow, robust design, reverse design techniques and 3D printing will be explored through exercises.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2105.

Lecture and tutorials three hours a week.

IDES 3107 [0.5 credit]**Design and Sustainability**

Explores the industrial designer's role in creating more environmentally and socially responsible products. Addresses imperatives and drivers for integrating sustainability into products. Includes: sustainable design strategies, strategies and tools, sustainable design business case, circular economy model for designed products, and case studies.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1301 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 3202 [0.5 credit]**Advanced Studies in Form and Colour**

Students may continue the research and study encountered in IDES 2205, IDES 2300 and IDES 2302 by doing advanced research in the phenomena of form and/or colour and their communicative functions in products. Directed Study.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Lecture and tutorials three hours a week.

IDES 3302 [0.5 credit]**Projects IIIB**

Introduction to the principles of innovation as found in industrial design. Invention, innovation, entrepreneurship, basic mechanisms. The design project(s) explore some or all of the design principles covered in the lectures.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 3301 (no longer offered).

Prerequisite(s): IDES 3300 or IDES 3310 or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 3305 [0.5 credit]**Special Studies**

Special Industrial Design Studies deal with specific projects, which may differ from year to year depending on the availability of specialists in a particular field or study opportunities as they present themselves.

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 3306 [0.5 credit]**Special Studies**

Special Industrial Design Studies deal with specific projects, which may differ from year to year depending on the availability of specialists in a particular field or study opportunities as they present themselves.

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 3310 [0.5 credit]**Projects IIIA**

Introduction to the design principles associated with the evaluation and re-design of an existing product. Topics include: user/machine relationship, component packaging, and manufacturability. The design project(s) explore some or all of the design principles covered in the lectures.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 3300 (no longer offered).

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Studio and lectures twelve hours a week.

IDES 3502 [0.5 credit]**Contextual Nature of Products**

Cultural subjects which have an influence on contemporary industrial design. The perspective of the course is anthropological: the context and cultural relevance of industrial design.

Prerequisite(s): IDES 1000 (ARCH 2006).

Lectures and tutorials three hours a week.

IDES 3601 [0.5 credit]**Research for Design**

Basic design research techniques to foster design exploration. Methods focus on understanding context and user experience to produce meaningful, actionable insights and design opportunities. Processes include qualitative and quantitative research, as well as creative and evaluative research with people. Teamwork and collaboration are explored.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2600.

Lectures or laboratory three hours a week.

IDES 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

IDES 4001 [0.5 credit]**Industrial Design Seminar**

Topics vary yearly and address key contemporary industrial design issues. There is a focus on writing, discussion, and debate. Students organize a seminar with design professionals and other community experts including student and professional presentations, interaction, and discussion.

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Seminar three hours a week.

IDES 4002 [0.5 credit]**Professional Practice**

The organizational aspects of consultancies and client responsibilities within the framework of corporate management. Topics include: the form of contracts for consultancy, determination of fees, legal implications, patents and copyrights. Guest lecturers.

Precludes additional credit for IDES 3503 (no longer offered).

Prerequisite(s): IDES 3300 or IDES 3310 or permission of the School of Industrial Design.

Lectures and discussion three hours a week.

IDES 4101 [0.5 credit]**Adv. Studies in Manufacturing**

Advanced manufacturing concepts and workflows are examined through a series of workshops and minor projects utilizing state-of-the-art equipment.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2101 and IDES 2102.

Lectures or laboratory three hours a week.

IDES 4200 [0.5 credit]**Form Organization**

Using form organization as a tool to design, the definition and prescription of monolithic solids by means of an abstract system; making and verifying materialized approximations of such solids.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2300 and IDES 2302 or permission of the School of Industrial Design.

Lectures, tutorials and laboratory six hours a week.

IDES 4301 [0.5 credit]

Minor Projects

Advanced skills-based course that enhances student experience in novel, experimental processes and techniques in design. Workshop-style activities and short projects focus on increasing skill competence and versatility in a variety of fields. Emphasis on time management and the ability to work independently.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 4305 [0.5 credit]

Special Studies

Like the third-year Special Industrial Design Studies, those of fourth year deal with specific projects, which may differ each year depending on the availability of specialists among the faculty of the School of Industrial Design or on particular opportunities as they present themselves.

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 4306 [0.5 credit]

Special Studies

Like the third-year Special Industrial Design Studies, those of fourth year deal with specific projects, which may differ each year depending on the availability of specialists among the faculty of the School of Industrial Design or on particular opportunities as they present themselves.

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 4310 [1.5 credit]

Capstone Project

Application of design principles in a comprehensive design project. Problem area should be product-oriented and of sufficient complexity. Normally undertaken in consultation with off-campus organizations and/or industry. Supervised by faculty and/or sessional members.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 4300 (no longer offered).

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Studio and lectures six hours a week in Fall and twelve hours a week in Winter.

IDES 4400 [0.5 credit]

Internship Field Report

Work experience related to industrial design. Following the internship period, normally 12 weeks, a comprehensive report describing observations and insights will be submitted. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 3300 or IDES 3310 or permission of the School of Industrial Design.

Tutorial hours arranged.

Information Technology

This section presents the requirements for programs in:

- Information Resource Management B.I.T.
- Interactive Multimedia and Design B.I.T.
- Interactive Multimedia and Design Animation & Visual Effects Stream B.I.T.
- Interactive Multimedia and Design Game Design/Development Stream B.I.T.
- Interactive Multimedia and Design Web & User Interfaces Stream B.I.T.
- Network Technology B.I.T.
- Optical Systems and Sensors B.I.T.

Program Requirements

Course Categories

- Carleton University Electives
- Algonquin college Electives

Please check the current lists of approved electives on the program web site.

Information Resource Management B.I.T. (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 2.5 credits in:		2.5
BIT 1400 [0.5]	Introduction to Programming and Problem Solving	
IRM 1002 [0.5]	Reference and Information Services	
IRM 1005 [0.5]	Web Interface Development	
IRM 1006 [0.5]	Subject Analysis and Indexing	
IRM 1007 [0.5]	Cataloguing	
2. 3.0 credits in:		3.0
BIT 2008 [0.5]	Multimedia Data Management	
BIT 2400 [0.5]	Intermediate Programming	
IRM 2002 [0.5]	Legal and Business Information	
IRM 2003 [0.5]	Classification	
IRM 2004 [0.5]	Information Management and Digital Preservation	
IRM 2005 [0.5]	Advanced Cataloguing	
3. 2.5 credits in:		2.5
IRM 3001 [0.5]	Scientific and Medical Information	
IRM 3003 [0.5]	Legal Issues in Information Resource Management	
IRM 3006 [0.5]	Data Analysis and Research Methodology	
IRM 3007 [0.5]	Practicum for IRM	
IRM 3008 [0.5]	Metadata for IRM	
4. 2.0 credits in:		2.0
IRM 4000 [0.5]	Library Software	
IRM 4004 [0.5]	Applied Big Data and Artificial Intelligence	
IRM 4900 [1.0]	IRM Capstone Project	
B. Credits Not Included in the Major (10.0 credits)		
5. 1.5 credits in:		1.5
IRM 1003 [0.5]	Collections management	
IRM 1004 [0.5]	Reader's Advisory Services	

IRM 1008 [0.5]	Introduction to Information Resource Management	
6. 1.5 credits in:		1.5
BIT 2001 [0.5]	Introduction to Business	
BIT 2002 [0.5]	Marketing in the IT sector	
BIT 2009 [0.5]	Statistics for Technology	
7. 1.0 credit in:		1.0
CCDP 3006 [0.5]	Communication Skills for IRM	
IRM 3004 [0.5]	Project management	
8. 1.0 credit in:		1.0
IRM 4001 [0.5]	Archives and Special Collections	
IRM 4002 [0.5]	Network Technology	
9. 1.0 credit in	French Language (see Note 2, below)	1.0
10. 4.0 credits in	electives to be fulfilled by courses taken to complete a Minor (see Note 1, below)	4.0
Total Credits		20.0

Notes:

- 1. Additional requirements:** students must complete a Minor in another academic discipline.
- 2. Language requirement:** all students are expected to improve their current French language skill by one credit. Should a student be assessed as fluently bilingual, 1.0 credit of alternate language courses will be accepted. Canadian Aboriginal languages would be encouraged in such cases.

Interactive Multimedia and Design B.I.T. (20.0 credits)

A. Credits Included in the Major CGPA (11.0 credits)

1. 2.0 credits in:		2.0
IMD 1001 [0.5]	Visual Communication	
IMD 1002 [0.5]	Visual Dynamics	
IMD 1004 [0.5]	Design Processes	
IMD 1005 [0.5]	Web Development	
2. 3.0 credits in:		3.0
BIT 2008 [0.5]	Multimedia Data Management	
BIT 2400 [0.5]	Intermediate Programming	
IMD 2003 [0.5]	Audio and Video	
IMD 2007 [0.5]	Intro to 3D Animation	
IMD 2900 [1.0]	Design Studio 1	
3. 3.0 credits in:		3.0
IMD 3004 [0.5]	Human Computer Interaction and Design	
IMD 3005 [0.5]	Sensor-Based Interaction	
IMD 3900 [1.0]	Design Studio 2	
IMD 3901 [1.0]	Design Studio 3	
4. 1.5 credits from:		1.5
IMD 4006 [0.5]	Advanced Game Design and Development	
IMD 4008 [0.5]	Mobile User Interface Design and Development	
ITEC 4007 [0.5]	Dynamics and Physics-Based Animation	
ITEC 4009 [0.5]	Rigging and Advanced Character Animation	
ITEC 4010 [0.5]	Visual Effects and Compositing	
ITEC 4011 [0.5]	Artificial Intelligence for Digital Media	

ITEC 4012 [0.5]	Web Application Frameworks	
ITEC 4014 [0.5]	User Experience Design and Accessibility	
5. 1.5 credits in:		1.5
IMD 4901 [1.5]	IMD Capstone Project	
B. Credits Not Included in the Major CGPA (9.0 credits)		
6. 2.5 credits in:		2.5
BIT 1002 [0.5]	Physics for Information Technology I	
BIT 1100 [0.5]	Mathematics I for IMD	
BIT 1101 [0.5]	Mathematics II for IMD	
BIT 1400 [0.5]	Introduction to Programming and Problem Solving	
IMD 1000 [0.5]	Introduction to Interactive Multimedia Design	
7. 2.0 credits in:		2.0
BIT 2002 [0.5]	Marketing in the IT sector	
BIT 2006 [0.5]	Elective	
BIT 2009 [0.5]	Statistics for Technology	
IMD 2006 [0.5]	Introduction to Game Design and Development	
8. 1.5 credits in:		1.5
CCDP 3003 [0.5]	Communication Skills for IMD	
IMD 3002 [0.5]	3D Computer Graphics	
IMD 3006 [0.5]	Software Design for Multimedia Applications	
9. 0.5 credit in:		0.5
IMD 4002 [0.5]	Technology and Culture	
10. 1.0 credit in	Arts and Humanities elective outside the faculties of Business, Science and Engineering.	1.0
11. 1.5 credits in	electives for IMD, Directed Studies, or courses listed in but not used to fulfill Item 4 above:	1.5
BIT 4000 [0.5]	Directed Studies	
IRM 4002 [0.5]	Network Technology	
ITEC 3100 [0.5]	Immersive Storytelling	
ITEC 4015 [0.5]	Digital Audio and Music	
ITEC 4016 [0.5]	Virtual and Augmented Reality	
ITEC 4017 [0.5]	Photo and Non-Photo-Realistic Rendering	
ITEC 4018 [0.5]	GPU Programming and Real-Time Rendering	
ITEC 4019 [0.5]	Directing and Cinematography for Digital Storytelling	
ITEC 4020 [0.5]	Environment and Architectural Modelling	
Total Credits		20.0

Interactive Multimedia and Design Animation & Visual Effects Stream B.I.T. (20.0 credits)

This stream is open to students in the Interactive Multimedia and Design B.I.T. program with 4th year standing.

A. Credits Included in the Major CGPA (11.0 credits)

1. 2.0 credits in:		2.0
IMD 1001 [0.5]	Visual Communication	
IMD 1002 [0.5]	Visual Dynamics	
IMD 1004 [0.5]	Design Processes	
IMD 1005 [0.5]	Web Development	

2. 3.0 credits in:		3.0
BIT 2008 [0.5]	Multimedia Data Management	
BIT 2400 [0.5]	Intermediate Programming	
IMD 2003 [0.5]	Audio and Video	
IMD 2007 [0.5]	Intro to 3D Animation	
IMD 2900 [1.0]	Design Studio 1	
3. 3.0 credits in:		3.0
IMD 3004 [0.5]	Human Computer Interaction and Design	
IMD 3005 [0.5]	Sensor-Based Interaction	
IMD 3900 [1.0]	Design Studio 2	
IMD 3901 [1.0]	Design Studio 3	
4. 1.5 credits in:		1.5
ITEC 4007 [0.5]	Dynamics and Physics-Based Animation	
ITEC 4009 [0.5]	Rigging and Advanced Character Animation	
ITEC 4010 [0.5]	Visual Effects and Compositing	
5. 1.5 credits in:		1.5
IMD 4901 [1.5]	IMD Capstone Project (1.5)	
B. Credits Not Included in the Major CGPA (9.0 credits)		
6. 2.5 credits in:		2.5
BIT 1002 [0.5]	Physics for Information Technology I	
BIT 1100 [0.5]	Mathematics I for IMD	
BIT 1101 [0.5]	Mathematics II for IMD

Retention of Work (Interactive Multimedia and Design Program Only)

A portfolio represents a record of the student's progress and design experience over the years, and is an indispensable requirement for any future job application. A portfolio is started in first year and continues to expand until graduation. The School, therefore, requires that each student produce reproductions (on a digital storage device, e.g. flash drive) of their work at the end of each term. One copy of the work should be put in the student's portfolio and the other turned in to the instructor for retention in the School's archives. (This facilitates retrospective exhibitions of work, accreditation, publications and any future references for pedagogic purposes.) Original work is the property of the students, but the School retains the right to keep work of merit for up to four years after the date of submission. The School will make every effort to preserve the work in good condition, and will give authorship credit and take care of its proper use.

Regulations

The regulations presented in this section apply to all students in the Bachelor of Information Technology program.

In addition to the program requirements, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

Joint Status

A student registered in the BIT degree has student status at both Algonquin College and Carleton University. At Algonquin College the student is considered to be a post-secondary student; at Carleton University, the student is considered to be a degree student. Students registered in the BIT degree have access to all student services on the Carleton University campus and selected services on the Algonquin College campus.

Academic Regulations

The academic regulations governing the B.I.T. are the academic regulations of Carleton University. These regulations are defined in full in the Academic Regulations of the University section of this Calendar and apply to B.I.T. students on both campuses. Within the context of these regulations, B.I.T. is considered to be a non-honours degree with a defined Major CGPA and requires 20.0

credits. Courses with the designations BIT, NET or IMD are not normally transferable to Engineering, Computer Science or other programs at Carleton University.

Students should note that there are significant differences between the academic regulations of Carleton University and Algonquin College; it is the regulations of Carleton University that apply in all cases as related both to course registrations and program rules.

At Carleton University, the chief examination officer of the BIT is the Dean of Engineering and Design. At Algonquin College, grades are approved by the Dean of the respective School.

Graduation

In order to graduate with the Bachelor of Information Technology Degree and the Advanced Diploma of Technology or Advanced Diploma of Applied Arts, the student must:

1. satisfy all requirements for the program of study;
2. be recommended for graduation by Bachelor of Information Technology Academic Council;
3. be approved for graduation by the Senate of Carleton University;
4. be approved for graduation by the Registrar of Algonquin College.

Discipline

The regulations, procedures and sanctions that apply to student discipline on either campus, both concerning Instructional Offences and Offences of Conduct are those of Carleton University and are described in the Carleton University Undergraduate Calendar. However, while students are on Algonquin's campus, they are expected to follow Algonquin's Directives regarding Student Misconduct and Use of Electronic Devices.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via

the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment.

Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

Bachelor of Information Technology: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Obtained and maintained a major CGPA of 8.0;
2. Successfully completed all required first-year courses, and
3. Registered as a full-time student in the Bachelor of Information Technology program

Students in the Bachelor of Information Technology must complete three (3) work terms to obtain the co-op designation.

Co-op Work Term Course: BIT 3999

Work/Study Pattern:

Interactive Multimedia and Design, Information Resource management, Network Technology, Photonics and Laser Technology

Admission

Degree

- Bachelor of Information Technology (B.I.T.)

The Bachelor of Information Technology is offered jointly with Algonquin College.

Admission Requirements

First Year

To be eligible for admission to the first year of the Bachelor of Information Technology, the applicant must have:

1. The Ontario Secondary School Diploma (OSSD) or equivalent, including a minimum of six 4U or M courses.
2. For Information Resource Management:
The six 4U or M courses must include English and one of Advanced Functions or Calculus and Vectors or Mathematics of Data Management.
3. For Multimedia and Design:
The six 4U or M courses must include Advanced Functions. In addition, candidates for BIT in Interactive Multimedia and Design must submit a portfolio of any kind of work that demonstrates the applicant's creativity and aptitude in design work.
4. For Network Technology:
The six 4U or M courses must include one of Advanced Functions or Calculus and Vectors or Mathematics of Data Management (Calculus and Vectors recommended).
5. For Optical Systems & Sensors:
The six 4U or M courses must include Advanced Functions.

Advanced Standing

Applications for Advanced Standing towards the program leading to the Bachelor of Information Technology will be evaluated on an individual basis upon admission to the program. Students may request that additional courses be considered toward Advanced Standing. Such requests may be made only once and must be received by the BIT Joint Council (comprised of instructors from Carleton University and Algonquin College) by August 30 of the year in which the student is admitted to the program. Requests must follow the submission format outlined on the BIT web site.

Only university- and college-level courses in which a student has achieved a grade of C- or higher are eligible to be considered for Advanced Standing.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in one of the streams of the Information Technology degree stated in this section;

3. be eligible for work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the Co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Information Resource Management (IRM) Courses

IRM 1002 [0.5 credit]

Reference and Information Services

Introduction to the theory and techniques needed to conduct reference interviews and interpret reference queries. Students learn to select and use general reference sources such as dictionaries, encyclopedias, directories, bibliographies, periodical indexes, almanacs, and handbooks in print, and electronic formats.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 1003 [0.5 credit]

Collections management

Introduction to the principals of collections management including techniques and procedures for selecting, ordering and receiving library materials, accounting, collection development and automated acquisitions. Students also learn policies and procedures required for circulation, document delivery and interlibrary loans.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 1004 [0.5 credit]

Reader's Advisory Services

Students become familiar with fiction and non-fiction materials available to various categories of clients and learn how to market them. In addition, students further develop through various assignments their researching, writing, speaking, listening and communication skills.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 1005 [0.5 credit]

Web Interface Development

Combining graphics, text, audio and video to develop websites on an individual basis and in groups, using latest versions of HyperText Markup Language(HTML), Cascading Style Sheets (CSS), JavaScript and data interchange formats such as Extensible Markup Language(XML) and JavaScript Object Notation(JSON).

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

IRM 1006 [0.5 credit]

Subject Analysis and Indexing

Students learn the basic theory of subject analysis and indexing methods used to provide access to library materials and literature. Practical instruction makes use of thesauri, as well as standard subject heading lists, such as Sears and Library of Congress.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hour a week.

IRM 1007 [0.5 credit]

Cataloguing

The catalogue is the main finding aid to the collection of the library. Students learn the basic principles and concepts of international standards used to describe library materials. In-class exercises, lectures and practical experience help students apply these cataloguing standards.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 1001 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. program.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 1008 [0.5 credit]

Introduction to Information Resource Management

Students develop understanding of the concepts of information retrieval, creation, evaluation, organization and client service. Knowledge of legal and ethical implications of information and current trends in the field is studied. Through in-class lectures and hands-on activities, students gain an overview of the field.

Precludes additional credit for IRM 1000 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 2002 [0.5 credit]**Legal and Business Information**

Students develop skills in planning and executing information searches and evaluating print and electronic resources. Students learn to locate information on selected topics, compile subject-specific annotated bibliographies and instruct library clients in the use of specialized materials and databases.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 1002.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 2003 [0.5 credit]**Classification**

How to interpret and apply Dewey Decimal and Library of Congress Classification systems. Also includes analysis of the subject content of materials, building notation, using tables, shelf-listing techniques and creating unique book numbers.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 1006.

Lectures two hours a week, tutorial/laboratory one hour a week.

IRM 2004 [0.5 credit]**Information Management and Digital Preservation**

Essentials of information management in an organization including the life cycle management of files in paper and the electronic environment. This course will also cover contemporary issues in information management and digital preservation.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 1008.

Lectures two hours a week, tutorial/laboratory one hour a week.

IRM 2005 [0.5 credit]**Advanced Cataloguing**

Libraries purchase and provide access to a wide variety of print and electronic resources. Building on work done in IRM 1007, students learn to interpret international cataloguing standards to describe more complex materials. In-class exercises, lectures and practical experience help students apply these cataloguing standards.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 2001.

Prerequisite(s): IRM 1007.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 3001 [0.5 credit]**Scientific and Medical Information**

Students enhance their knowledge of print and electronic reference sources in science and technology. Students learn to compile specialized subject-specific bibliographies and assignments provide training in the use of science and technology reference sources.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 2002.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 3003 [0.5 credit]**Legal Issues in Information Resource Management**

In-depth analysis and assessment of copyright and other forms of intellectual property. Legal issues related to information technology. Topics may include privacy, surveillance and monitoring, access to information, freedom of expression, Charter and human rights issues, and security.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 3004 [0.5 credit]**Project management**

Identification, selection, initiation, and organization of projects. Risk assessment, budget issues, communication, project scheduling, performance monitoring and control. Emphasis on practical techniques related to the field of information management using case studies.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in the Information resource management program.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 3006 [0.5 credit]**Data Analysis and Research Methodology**

Introduction to the logic and design of research. Qualitative and quantitative research methodology with emphasis on the application and interpretation of statistical techniques for data analysis. These may include, but are not limited to, bivariate and multivariate analysis, distribution analysis, visual data analysis, market basket analysis.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 3002 (no longer offered).

Prerequisite(s): BIT 2000.

Lectures three hours a week.

IRM 3007 [0.5 credit]**Practicum for IRM**

Students will design and complete a project related to information management under the supervision of a faculty member or librarian. This course provides the opportunity to apply knowledge gained in previous courses.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the Information resource management program.

Tutorial/laboratory eight hours a week.

IRM 3008 [0.5 credit]**Metadata for IRM**

Students develop an understanding of key metadata schema and apply standards to describe range of digital resources. The metadata schemes include focus on Dublin Core (DC) and MODS with select coverage of specialist schema. Through in-class lectures and hands-on activities, students apply metadata schemes.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 3000 (no longer offered).

Prerequisite(s): IRM 2005.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 4000 [0.5 credit]**Library Software**

Using skills and knowledge of automated systems already developed in introductory courses, students learn the theory and receive the hands-on practice needed to use library databases. A component on choosing and comparing library software is included.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory one hour a week.

IRM 4001 [0.5 credit]**Archives and Special Collections**

Principles and methods used by archivists and record managers in organizing their collections for better access and retrieval. Students also learn aspects of physical bibliography, the book trade, preservation and conservation of books and how to exhibit such material.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 4002 [0.5 credit]**Network Technology**

Foundation knowledge for computer networks and communications. Topics include basic network design, layered communications models, IP addressing and subnets, and industry standards for networking media and protocols, with an emphasis on TCP/IP protocol suite and Ethernet environments.

Includes: Experiential Learning Activity

Lectures two hours a week, tutorial/laboratory one hour a week.

IRM 4004 [0.5 credit]**Applied Big Data and Artificial Intelligence**

Introduction to applied Big Data, Machine Learning and Artificial Intelligence. Topics include: Association Rule Mining, Classification, Clustering, Regression, basics of Artificial Neural Networks, Hadoop Distributed File System, and related technologies. Applications on other domains like networks, finance, and/or business.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 3006.

Lectures three hours a week.

IRM 4900 [1.0 credit]**IRM Capstone Project**

Student-initiated project developed in association with a project supervisor and external information resource management advisor. Project is supported by a written report, seminar discussions and final presentation. All proposals must be approved by the IRM Program Project Committee.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 3004, IRM 3007 or LIB 2030 and LIB 2047 and fourth year standing in the IRM program.

Tutorial hours arranged.

Information Technology (BIT) Courses**BIT 1000 [0.5 credit]****Mathematics I for NET**

Tailored for students in the Network Technology program, this course covers basic concepts in functions (polynomials, exponential, logarithmic) and introduces concepts of limits, derivatives and rules of differentiation, applications of differentiation (max-min problems, curve sketching) and integration.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1100, BIT 1200, ECON 1401, ECON 1402, MATH 1002, MATH 1004, MATH 1007, MATH 1009, MATH 1052, MATH 1401, MATH 1402.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 1001 [0.5 credit]**Mathematics II for NET**

Tailored for students in the Network Technology program, this course covers systems of linear equations, vector space of n-tuples, subspaces and bases, matrix transformations, kernel, range, matrix algebra and determinants, inner products and orthogonality, eigenvalues, diagonalization and applications.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1101, BIT 1201, ECON 1401, ECON 1402, MATH 1104, MATH 1107, MATH 1119, MATH 1152, MATH 1401, MATH 1402.

Prerequisite(s): BIT 1000.

Lectures three hours a week, tutorial and laboratory one hour a week.

BIT 1002 [0.5 credit]**Physics for Information Technology I**

An introductory course on energy, thermodynamics, sound and electromagnetic waves, optics, and modern physics. Practical skills are learned in the laboratory, which is a required part of the course.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1203, PHYS 1001, PHYS 1003, PHYS 1007.

Prerequisite(s): BIT 1100.

Lectures three hours a week, tutorial three hours/ laboratory three hours alternate weeks.

BIT 1006 [0.5 credit]**Achieving Success in Changing Environments**

Students explore the possibilities ahead, assess their own aptitudes and strengths, and apply critical thinking and decision-making tools to help resolve some of the important issues in our complex society with its competing interests.

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week.

BIT 1007 [0.5 credit]**Physics for NET**

An introductory course on energy, electrical networks (AC and DC circuits, resistance, impedance, capacitance), electrostatics (electric fields, static electricity), electromagnetism, electromagnetic waves, optics, and other topics in modern physics. Practical skills are learned in the laboratory, which is a required part of the course.

Precludes additional credit for BIT 1003 (no longer offered), BIT 1204, PHYS 1002, PHYS 1004, PHYS 1008.

Prerequisite(s): BIT 1000, Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial three hours/ laboratory three hours alternate weeks

BIT 1100 [0.5 credit]**Mathematics I for IMD**

Tailored for students in the Interactive Multimedia Design program, this course covers basic concepts in functions (polynomials, exponential, logarithmic) and introduces concepts of limits, derivatives and rules of differentiation, applications of differentiation (max-min problems, curve sketching) and integration.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1000, BIT 1200, ECON 1401, ECON 1402, MATH 1002, MATH 1004, MATH 1007, MATH 1009, MATH 1052, MATH 1401, MATH 1402.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 1101 [0.5 credit]**Mathematics II for IMD**

Tailored for students in the Interactive MultiMedia Design program, this course covers systems of linear equations, vector space of n-tuples, subspaces and bases, matrix transformations, kernel, range, matrix algebra and determinants, inner products and orthogonality, eigenvalues, diagonalization and applications.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1001, BIT 1201, ECON 1401, ECON 1402, MATH 1104, MATH 1107, MATH 1119, MATH 1152, MATH 1401, MATH 1402.

Prerequisite(s): BIT 1100.

Lectures three hours a week, tutorial and laboratory one hour a week.

BIT 1200 [0.5 credit]**Calculus**

Limits. Differentiation of the elementary functions, including trigonometric functions. Rules of differentiation. Applications of differentiation: max-min problems, curve sketching, approximations. Introduction to integration: definite and indefinite integrals, areas under curves, fundamental theorem of calculus.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1000, BIT 1100, MATH 1002, MATH 1004, MATH 1007, MATH 1009, MATH 1052, MATH 1401/ECON 1401, MATH 1402/ECON 1402.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions; or MATH 0005 and MATH 0006; or equivalent.

Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 1201 [0.5 credit]**Linear Algebra**

Systems of linear equations; vector space of n-tuples, subspaces and bases; matrix transformations, kernel, range; matrix algebra and determinants. Dot product. Complex numbers (including de Moivre's Theorem, and n-th roots). Eigenvalues, diagonalization and applications. Note: MATH 1119 is not an acceptable substitute for BIT 1201.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1001, BIT 1101, MATH 1102, MATH 1104, MATH 1107, MATH 1119, MATH 1152, MATH 1401/ECON 1401, MATH 1402/ECON 1402.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent, or permission of the School. restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial and laboratory one hour a week.

BIT 1203 [0.5 credit]**Newtonian Physics**

Mechanics, properties of matter, thermodynamics.

Applications chosen in part from the life sciences.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1002, PHYS 1001, PHYS 1003, PHYS 1007.

Prerequisite(s): (i) Grade 12 Mathematics: Advanced Functions or equivalent; or (ii) Grade 12 Mathematics: Calculus and Vectors or equivalent, or MATH 1007 or BIT 1200 (may be taken concurrently); or (iii) permission of the Department. Restricted to students in the B.I.T. degree program.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIT 1204 [0.5 credit]**Electromagnetism & Modern Physics**

Electricity and magnetism, DC and AC circuits,

wave motion and light. Elements of modern physics.

Applications chosen in part from the life sciences.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, PHYS 1002, PHYS 1004, PHYS 1008.

Prerequisite(s): BIT 1203 or PHYS 1001 or PHYS 1003 or PHYS 1007 or permission of the Department. Restricted to students in the B.I.T. degree program.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIT 1400 [0.5 credit]**Introduction to Programming and Problem Solving**

Introduction to basic concepts of procedural programming and algorithm design in C. Topics include: basic variables, functions, operators, program control with iteration and conditionals, I/O operations, text and file processing, structures, arrays, pointers, debugging, algorithmic thinking and pseudocode, computer architecture, operating systems, and libraries.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 1005, COMP 1405, ITEC 1400, ITEC 1401.

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory three hours a week.

BIT 2000 [0.5 credit]**Introduction to Statistics**

This course covers data analysis, introduction to probability theory, some standard discrete and continuous distributions and their application to interval estimation and significance testing, computational aspects of statistics.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 2009, BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2201 (no longer offered), ECON 2210, ENST 2006, GEOG 2006, STAT 2507, STAT 2606, and STAT 3502.

Prerequisite(s): restricted to students in the BIT degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 2001 [0.5 credit]**Introduction to Business**

An overview of the most fundamental business functions.

The management of people, human resources, marketing, accounting and finances, business law and operations.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures: three hours a week.

BIT 2002 [0.5 credit]**Marketing in the IT sector**

Basic problems and practices in marketing. Marketing strategies, planning, packaging, branding and promotion at the level of the individual firm; distribution channels.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 2204.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week.

BIT 2006 [0.5 credit]**Elective**

Students must choose from among a list of approved Electives at Algonquin College.

Precludes additional credit for BIT 3003 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, or as arranged.

BIT 2008 [0.5 credit]**Multimedia Data Management**

Concepts and fundamentals of database systems.

Design of relational databases, normalisation, referential integrity, structured query language (SQL), server-side scripting, organisation of multimedia content, dynamic page loading, storage and compression of media, media network considerations, digital watermarking and rights management.

Includes: Experiential Learning Activity

Precludes additional credit for ITEC 2000, IMD 2000 (no longer offered), IRM 2000 (no longer offered).

Prerequisite(s): BIT 1400 and IMD 1005 or IRM 1005.

Lecture three hours a week, tutorial/laboratory two hours a week.

BIT 2009 [0.5 credit]**Statistics for Technology**

This course covers statistical data analysis with an emphasis on hypothesis testing including parametric tests (e.g., t-tests, ANOVA) and non-parametric tests (e.g., Kruskal-Wallis, Friedman, chi-square), correlation and linear regression. Provides an introduction to probability theory and distributions (e.g. binomial, normal).

Includes: Experiential Learning Activity

Precludes additional credit for BIT 2000, BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2201 (no longer offered), ECON 2210, ENST 2006, GEOG 2006, STAT 2507, STAT 2606, and STAT 3502.

Prerequisite(s): Restricted to students in the BIT degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 2010 [0.5 credit]**Differential Equations & Multivariate Calculus**

Curves and surfaces. Polar, cylindrical and spherical coordinates. Partial derivatives, gradients, extrema and Lagrange multipliers. Exact differentials. Multiple integrals over rectangular and general regions. Integrals over surfaces. Line integrals. Vector differential operators. Green's Theorem, Stokes' theorem, Divergence Theorem. Applications.

Prerequisite(s): BIT 1200.

Lectures three hours a week, tutorial one hour a week.

BIT 2400 [0.5 credit]**Intermediate Programming**

Introduction to object-oriented programming and algorithm design in C++. Topics include code and data encapsulation using classes and objects, inheritance, polymorphism, object-oriented design, data and code abstraction, program efficiency, user interface objects, event-driven systems, and an introduction to linked-lists and searching.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 1006, COMP 1406, ITEC 2400, ITEC 2401.

Prerequisite(s): BIT 1400. Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory three hours a week.

BIT 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

BIT 4000 [0.5 credit]**Directed Studies**

Independent study under the supervision of a member of the School of Information Technology, open only to students in the B.I.T. program. Students are required to obtain their supervisor's written approval prior to registration and are limited to one such course in their program.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School of Information Technology.

BIT 4001 [0.5 credit]**Selected Topics in Information Technology**

Topics not ordinarily treated in the regular course program due to their contemporary subject matter. The choice of topics varies from year to year.

Prerequisite(s): third-year standing in the BIT Program or permission of the department.

Lecture three hours a week.

Interactive Multimedia and Design (IMD) Courses**IMD 1000 [0.5 credit]****Introduction to Interactive Multimedia Design**

Overview of interactive multimedia design including copyright, user-centred design, web design and mark-up languages, general logic design, multimedia project management, design processes for animated film, video game development, visual effects in movies, ethics and current trends in the field.

Includes: Experiential Learning Activity

Precludes additional credit for ITEC 1100.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lecture three hours a week.

IMD 1001 [0.5 credit]**Visual Communication**

Visual communication techniques commonly used to draft concepts and ideas to support scripts for film, animation, HCI, and/or game development. Topics include: storyboarding, composition, vanishing point, line quality, visual timing, perspective, depth of field, body language and life drawing. A digital drawing tablet is required.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 1000 and IMD 1002.

Workshop three hours a week.

IMD 1002 [0.5 credit]**Visual Dynamics**

Fundamentals of composition with emphasis on realistic rendering. Students learn how to execute thumbnails and design comprehensives. Topics include illustration, type, colour, texture, proximity and unity, alignment, repetition and continuity, contrast, size relationships, balance, rhythm, negative space, cropping and view selection.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Workshop three hours a week.

IMD 1004 [0.5 credit]**Design Processes**

Design fundamentals using industry standard software techniques and workflow are explored. Topics include: gestalt principles, grids systems, colour, texture, raster and vector image production, and typography. Students design for publication to output such as Web, print, and electronic book formats. Required digital drawing tablet.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Workshop three hours a week.

IMD 1005 [0.5 credit]**Web Development**

Introduction to Web development. Combining graphics, text, audio, and video to create Web sites; developing different, major working Web sites on an individual basis and in groups, using valid xHTML, cascading style sheets (CSS), JavaScript and XML structures.

Includes: Experiential Learning Activity

Precludes additional credit for ITEC 1005.

Prerequisite(s): IMD 1000 and IMD 1004.

Workshop five hours a week.

IMD 2003 [0.5 credit]**Audio and Video**

The creation, production and editing of audio and video for multimedia applications. Topics include single camera recording and capture techniques through to post-production editing. Emphasis is placed on production and operation skills while adhering to industry standard costs and deadlines.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 1000 and IMD 1002.

Workshop four hours a week.

IMD 2006 [0.5 credit]**Introduction to Game Design and Development**

Basic concepts in the design and development of computer games, including: fundamentals of production cycle, genres, gameplay and game mechanics, story and character development, level design, artificial intelligence for games, game user interface, and common development tools.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400 and second-year standing in the IMD program.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 2007 [0.5 credit]**Intro to 3D Animation**

Introduction to the basics of 3D computer animation.

Topics include: introduction of 3D animation packages, 12 Principles of Animation, character design, character animation (walking/locomotion, motion, and poses), soft-body animation (shape interpolation and facial animation), and acting for animators.

Includes: Experiential Learning Activity

Precludes additional credit for IMD 2005 (no longer offered).

Prerequisite(s): BIT 1002 and second-year standing in the IMD program.

Lecture/workshop three hours a week.

IMD 2900 [1.0 credit]**Design Studio 1**

Advanced practical studio-based sessions in project management and web development. Topics include: project management styles, team collaboration techniques, prototyping, project and content management, marketing, testing, and product evaluation culminating into a major group web project using client-side and server-side technologies.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the IMD program.

Studio/lecture eight hours a week.

IMD 3002 [0.5 credit]**3D Computer Graphics**

Technical aspects of 3D computer graphics.

Homogeneous transformations, viewing pipeline, cinematography, modeling techniques (explicit and implicit), scene composition, level of detail methods, advanced lighting techniques (BRDF, IBL, subsurface-scattering), 2D/3D texturing, local/global illumination, rendering methods, and shaders.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 1101, BIT 2400 and IMD 3900.

Lectures three hours a week, tutorial/laboratory two hours per week.

IMD 3004 [0.5 credit]**Human Computer Interaction and Design**

Introduction to concepts centered on Human-Computer Interaction from hardware and software perspectives.

Topics include design principles, usability principles and engineering, solving user-centred problems, device interaction, and graphical user interface design (2D and 3D interfaces).

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2009 and third-year standing in the IMD program.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 3005 [0.5 credit]**Sensor-Based Interaction**

Development of interactive applications that connect the physical and virtual space. Topics include using external devices and sensor hardware, sensing objects and people, gestural input, computer vision, processing of live audio input, and networked software and devices.

Includes: Experiential Learning Activity

Precludes additional credit for IMD 2001 (no longer offered).

Prerequisite(s): BIT 2400.

Lecture/ workshop four hours a week.

IMD 3006 [0.5 credit]**Software Design for Multimedia Applications**

Provides students with knowledge and expertise to design and develop complex software systems and programs for common multimedia applications. Topics include: data structures, system and requirement analysis, component identification, common design patterns, and working with reusable components.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 3900 [1.0 credit]**Design Studio 2**

Intermediate practical studio sessions covering the creative aspects of 3D graphics and animation. Topics include: environment and character modeling, texturing, using bump/displacement maps, advanced materials, 3D cameras, various lighting, keyframe animation, and rendering methods.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 2007 and third-year standing in the IMD program.

Studio/lecture eight hours a week.

IMD 3901 [1.0 credit]**Design Studio 3**

Studio-based course focuses on interdisciplinary group work, and the use of reality-based/ natural-based interfaces for multiuser interaction, understanding social and environmental context in physical design, basic networking, advanced sound design, and haptic feedback.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the IMD program, IMD 2900 and IMD 3005.

Studio/lecture eight hours a week.

IMD 4002 [0.5 credit]**Technology and Culture**

An examination of the relationship between communication technology and society. The course examines the factors that contribute to changes in the collection, storage and distribution of information and the cultural implications of these changes.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the IMD program.

Seminar three hours a week.

IMD 4005 [0.5 credit]**Advanced Topics in Multimedia**

Advanced topics in multimedia industry not ordinarily treated in the regular course program due to their contemporary subject matter. The choice of topics varies from year to year.

Includes: Experiential Learning Activity

Precludes additional credit for IMD 4004 (no longer offered).

Prerequisite(s): fourth-year standing in the IMD program.

Lecture three hours a week.

IMD 4006 [0.5 credit]**Advanced Game Design and Development**

Provides students with knowledge and expertise to design and develop professional computer games with advanced and novel features. Topics include: target audience and inclusive/accessible design, interaction design and emerging technologies, artificial intelligence, interactive stories, procedural content generation, serious games and gamification.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 2006 and IMD 3002.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 4008 [0.5 credit]**Mobile User Interface Design and Development**

Design, development, and evaluation of user interfaces for mobile applications. Topics include: user-centered design methods and develop mobile applications employing the various input and output capabilities available on mobiles, e.g., multi-touch, device motion/rotation, video/audio capture, vibration.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 3004 and IMD 3006.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 4901 [1.5 credit]**IMD Capstone Project**

Student-initiated digital media project, under the supervision of a project advisor, consisting of complete end-to-end production, from design to final product.

Development will be assessed via design documents, project plans, progress presentations, culminating in a final exposition in front of a panel of industry experts.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 2900, IMD 3004, IMD 3900, IMD 3901 and fourth-year standing in the IMD program.

Tutorial hours arranged.

Network Technology (NET) Courses

NET 1001 [0.5 credit]

Computer Technology Basics

Construction and function of PCs. Introduces technical concepts and terminology relating to system boards, system busses, input/output devices, memory, microprocessors and peripherals. Interaction of software and hardware; data storage; performance issues.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

NET 1002 [0.5 credit]

Networking Fundamentals

Foundation knowledge for computer networks and communications. Topics include basic network design, layered communications models, IP addressing and subnets, and industry standards for networking media and protocols, with an emphasis on TCP/IP protocol suite and Ethernet environments.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 1006 [0.5 credit]

Routing and Switching

Introduction to routing and switching concepts including, static and dynamic routing, trunking and VLANs. Topics include configuring routers and switches and resolving common configuration and reachability issues.

Includes: Experiential Learning Activity

Precludes additional credit for NET 1005 (no longer offered).

Prerequisite(s): NET 1002.

Lecture three hours a week, tutorial/laboratory three hours a week.

NET 2000 [0.5 credit]

Intermediate Networking

Architecture, components and operations of routers and switches in Enterprise networks. Topics include configuration and troubleshooting of OSPF, including Multi-area, redundancy, NAT and troubleshooting techniques.

Includes: Experiential Learning Activity

Prerequisite(s): NET 1006.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 2007 [0.5 credit]

Basics of Transmission Systems

Introduction to the fundamentals of information transmissions systems used in physical layer of the Internet. Covers time- and frequency-domain concepts, digital and analog transmission, signal encoding, sampling, modulation, demodulation, error detection and correction. Examples: DSL, Cable modem, and wireless LAN. Includes: Experiential Learning Activity.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 1001 and BIT 1007.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 2008 [0.5 credit]

DevOps

Exposure to unifying software development (Dev) and software operation (Ops). Use of Python to monitor and automate network management tasks.

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 2010 [0.5 credit]

Desktop and Server Environments I

Using Linux and Windows Server, study of the basic features such as file system, system utilities, memory management, boot process troubleshooting and UI customizations. Client-Server architecture is examined with a focus on basic Server configuration and administration. Includes: Experiential Learning Activity. Includes: Experiential Learning Activity. Precludes additional credit for NET 2002 (no longer offered).

Prerequisite(s): NET 1001.

Lecture two hours a week, tutorial/laboratory two hours a week.

NET 2011 [0.5 credit]

Desktop and Server Environments II

Using Unix and Linux Operating systems, study of the command line and network Server operating environments. Configuring Services and Protocols such as DNS, NTP, SSH, SMB, SMTP, POP3, IMAP, HTTP, and DHCP. Basic Server security using firewalls is also introduced. Includes: Experiential Learning Activity. Includes: Experiential Learning Activity. Precludes additional credit for NET 2003 (no longer offered).

Prerequisite(s): NET 2010.

Lecture two hours a week, tutorial/laboratory two hours a week.

NET 2012 [0.5 credit]**Networking Technologies and Automation**

Enterprise technologies and QoS mechanisms used for networks access. Topics include virtualization, and automation concepts. Software-defined networking, controller-based architectures and how application programming interfaces (APIs) enable network automation.

Includes: Experiential Learning Activity

Precludes additional credit for NET 2001 (no longer offered).

Prerequisite(s): NET 2000.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 2013 [0.5 credit]**Computer Systems Foundations**

Introduction to the design and implementation of digital circuits and microprocessors. Topics include: binary numbers and arithmetic, fundamentals of boolean algebra, combinational circuits, sequential circuits, computer architecture and organization: CPU, cache, memory, input/output, bus structures, interrupts, computer arithmetic, CPU assembly instruction sets.

Includes: Experiential Learning Activity

Precludes additional credit for NET 1004 (no longer offered), PLT 1007 (no longer offered), NET 2009 (no longer offered), PLT 2009 (no longer offered), OSS 2009.

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory one hour a week.

NET 3000 [0.5 credit]**Database Concepts and SQL**

Concepts and fundamentals of relational database systems. Students learn how to design relational databases starting from a conceptual data model, following accepted logical and physical design principles. Topics include normalisation, referential integrity, SQL, DDL and SQL DML & ODBC and data extraction/filtering techniques.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the Networking program.

Lecture two hours a week, tutorial/laboratory two hours a week.

NET 3001 [0.5 credit]**Real-time Systems**

Principles of event-driven systems, review of computer organization; parallel and serial interfaces; programmable timer; I/O methods; polling and interrupts. Real-time kernels. Critical design consideration: concurrency, dead lock, synchronization. Maintaining and improving system performance. Programming exercises in low and high level languages.

Includes: Experiential Learning Activity

Also listed as OSS 3001.

Prerequisite(s): NET 2013.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3004 [0.5 credit]**Data Structures**

Specification and design of abstract data types and their implementation as stacks, queues, trees, tables and graphs. Common and useful examples. Parsing and finite state machines. Analysis of algorithms, recursion, re-entrance. Special focus: abstraction, interface specification and hierarchical design using object-oriented programming.

Includes: Experiential Learning Activity

Also listed as OSS 3004.

Precludes additional credit for PLT 3010 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3006 [0.5 credit]**Network Management and Measurements**

Key network management models (FCAPS, TMN), protocols and standards, such as SNMP. Introduction to and use of various management tools and methodologies. Current trends in network management and measurement. Security issues in collecting networking management information.

Includes: Experiential Learning Activity

Prerequisite(s): NET 3000 and NET 3004.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3007 [0.5 credit]**Network Security**

Basics of network security. Students are introduced to the goals of IT security, common threats and countermeasures including firewalls, intrusion detection and prevention systems (IDPS) and virtual private networks. Several operating environments will be studied as examples. Also includes a section on computer ethics.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2012.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3008 [0.5 credit]**Advanced Network Routing**

Routing IP at the enterprise level, within and between, autonomous systems. Advanced control and optimization of routing protocols and manipulation of traffic paths with multiple routing protocols. Working knowledge of Internet reachability via BGP.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2012.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 3010 [0.5 credit]**Web Programming**

Architectures, protocols and languages used to develop dynamic Web content, including HyperText Markup Language (HTML, DHTML), Universal Resource Identifiers (URI) and HyperText Transport Protocol (HTTP) and Common Gateway Interface (CGI). JavaScript and Java are used to model cross-platform Web programming.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400, NET 3000.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3011 [0.5 credit]**Advanced Network Switching**

VLANs and inter-VLAN routing in a multilayer switched environment. Variants of STP and the use of related enhancements. Techniques for network redundancy and load balancing. Securing a switched infrastructure. Architectures and techniques for delivering converged traffic in an enterprise environment.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2012.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 3012 [0.5 credit]**IP Architectures and Solutions**

An exploration of deployment options that can be implemented atop of a MPLS network. The focus is on technologies and architectures that serve to enhance IP delivery, or IP service leveraging the MPLS infrastructure. Includes Layer 2 and 3 tunneling techniques. Includes: Experiential Learning Activity.

Includes: Experiential Learning Activity

Prerequisite(s): NET 3008.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3900 [0.5 credit]**Wireless Networks**

Design and configuration of Wi-Fi networks as used in commercial and enterprise venues. Topics include 802.11 family of protocols, wireless transmission, RF design, security methods and protocols, and system design. Topologies include campus, bridge and remote access.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2007.

Lectures two hours a week, tutorial/laboratory three hours a week.

NET 4000 [0.5 credit]**Emerging Network Technologies**

Overview of technologies, protocols and techniques related to Information Technology networking that are either in their early stage of adoption or are not yet mainstream (i.e. beta or prototype stage). Focus will vary from year to year to reflect the evolutionary nature of this domain.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Networking program or permission of the instructor.

Also offered at the graduate level, with different requirements, as ITEC 5110, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4001 [0.5 credit]**Network Simulation**

Introduction to discrete event simulation; fundamental stochastic models for networking; queueing theory; deterministic algorithms for networking; confidence intervals; introduction to network modeling. Use of simulation tools to develop and test scenarios including traffic monitoring, congestion, routing protocols, resource utilization and growth planning.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2000.

Also offered at the graduate level, with different requirements, as ITEC 5113, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4003 [0.5 credit]**Computer Systems Architecture**

History and evolution of computers. Models and functional descriptions of CPU, bus, memory, I/O. Internal data transfer and storage concepts. Bus protocols. Memory organization and cache principles. Digital logic and simple logic designs of CPU, buses, memory. Concepts of virtual machines, parallel computing, cloud computing.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in the Networking program, NET 2003 and NET 3001.

Lectures three hours a week, tutorial/laboratory one hour a week.

NET 4005 [0.5 credit]**Networked Applications**

Architectures for computing in modern data networks that adopt the Internet architecture. Topics covered include socket programming, RPC and RMI. Client-server and peer-to-peer models. Emerging application architectures. Includes: Experiential Learning Activity

Prerequisite(s): NET 3004 and NET 3010.

Also offered at the graduate level, with different requirements, as ITEC 5114, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4007 [0.5 credit]**Multimedia Networking**

Audio and video compression. H.261, JPEG, MPEG and DVI. Accessing audio and video from a web server. Real Time Streaming Protocol (RTSP). Multimedia operating systems. Multimedia database. Network support for multimedia applications. Multimedia synchronization. Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing in Networking program or permission of the instructor.
Also offered at the graduate level, with different requirements, as ITEC 5111, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4009 [0.5 credit]**Troubleshooting IP Networks**

Integrates planned maintenance and troubleshooting techniques, including, tools, applications and formalized methodologies. Study of issues in focused areas (such as routed vs. switched environments, addressing services, performance, security, VPN), culminating in problem resolution throughout a complex enterprise network. Includes: Experiential Learning Activity
Prerequisite(s): NET 3011, NET 3008.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 4010 [0.5 credit]**Secure Mobile Networking**

The concept, principle and rationale of mobile networking. Mobile network architecture, protocols, mobility management, routing and mobile TCP/IP; Security challenges, vulnerabilities and threats in mobile networks; Security defense techniques and countermeasures in mobile networks.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing in Networking program or permission of the instructor.

Also offered at the graduate level, with different requirements, as ITEC 5112, for which additional credit is precluded.
Lectures three hours a week, tutorial/laboratory one hour a week.

NET 4011 [0.5 credit]**Advanced Topics in Network Security**

Understanding classes of advanced attacks. Building secure networks. Adversarial Machine Learning. Security in clouds, virtualized networks, and IoT. Understanding impact of OS and software security issues. Security in next generation networks such as 5G.
Prerequisite(s): NET 3007.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4901 [1.0 credit]**NET Capstone Project**

This course provides the opportunity to apply knowledge gained in previous courses towards the design and implementation of a major Networking related project. Working in teams or as individuals under the direction of faculty members, students undertake projects internally or in collaboration with industry.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing in the Networking program.
Tutorial hours arranged.

Optical Systems and Sensors (OSS) Courses**OSS 1002 [0.5 credit]****Applications in Photonics & Optoelectronics**

Survey of the history and future of photonics. Photonics benefits and impact on technology and society. Emerging applications of photonics in industry and commercial products. The forces (business, social, political, economic, technical, and educational) that influence the development, adoption and success or failure of technologies.

Includes: Experiential Learning Activity
Precludes additional credit for PLT 1002 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 1003 [0.5 credit]**Optics/Optical Fibers (Principles)**

Principles of optics, optical fiber, waveguides and hands-on experience with optical components. Optical fiber manufacturing and variety of industrial applications. Topics covered include: optical sources, detectors, fiber modes and mode-coupling, couplers, multiplexers, optical amplifiers, physical layer of optical networks, dispersion and nonlinear effects management.

Includes: Experiential Learning Activity
Precludes additional credit for PLT 1003 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 1005 [0.5 credit]**Introduction to Optics**

Physics of waves, optics and light propagation through lectures and lab experiments. Geometrical optics, refraction and reflection, interference, diffraction and polarization, thin lens equation, laser beams, Michelson interferometer, birefringence, and Abbe theory of imaging. Electromagnetic spectrum, quantum nature of light, photons, and photoelectric effect.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1005 (no longer offered).

Prerequisite(s): BIT 1203, restricted to students in the B.I.T. degree program.

Lectures two hour a week, tutorial/laboratory three hours a week.

OSS 1006 [0.5 credit]**Introduction to Automation and Simulation**

Introduction to basic programming in both the Matlab and Labview environments. Program development, basic structures (loops, control structures), I/O, data visualization and graphing will be covered. Students will learn to use Labview to develop basic applications and model simple physical systems with Matlab.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1006 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hour a week, tutorial/laboratory two hours a week.

OSS 2001 [0.5 credit]**Fundamentals of Light Sources**

Introduction to incoherent light sources and lasers. Lasers operation, energy levels, quantum mechanics basics. Pumping/excitation, population inversion, laser cavity design, gain and loss, and characteristics of laser emission. An extensive lab manual of relevant experiments, variety of lasers, spectrometers, and detection equipment will be used.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2001 (no longer offered).

Prerequisite(s): BIT 1201. Restricted to students in the BIT degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 2002 [0.5 credit]**Optical Communication Networks I**

Adaptive Optical Communication Networks with 10Gb/s-200Gb/s Packet-Optical Platforms and WebServers, OTN, flexible WaveLogic Photonics, ROADM, SONET/SDH, programmable network, optimized mapping techniques, optical carriers (OC-n/STM-m).

Extensive hands-on experience using state-of-the-art Optophotonics Lab to work on OAM&P, facility/equipment, synchronization, bandwidth management, performance monitoring and other functionalities.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2002 (no longer offered).

Prerequisite(s): OSS 1003.

Lectures two hours a week, tutorial/laboratory three hours a week.

OSS 2003 [0.5 credit]**Laser Systems**

Laser theory, devices and systems. Safety procedures, laser power supplies, and laser system applications. Solid state, gas, and other types of lasers. Basic material processing, micro machining, bio/medical, and military applications will be covered. Hands-on experience with advanced laser equipment in lab.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2003 (no longer offered).

Prerequisite(s): OSS 2001 or PLT 2001 (no longer offered).

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 2005 [0.5 credit]**Circuits and Signals**

Students learn properties of electricity and measurement techniques. Topics covered include RMS, average, applied, peak-to-peak and instantaneous values. Lab experiments deal with RC and RL circuits and LC filters. RLC circuits, and series and parallel resonance are also covered.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2005 (no longer offered).

Prerequisite(s): BIT 1204 or PHYS 1004 or PHYS 1002.

Restricted to students in the BIT degree program.

Lectures two hours a week, laboratory and problem analysis three hours a week.

OSS 2006 [0.5 credit]**Integrated Circuits**

Fundamentals of logic circuitry in digital systems are studied including basic logic gates, Boolean algebra, signal decoding, logic circuit design, flip-flop circuits, timers and counters. The proper use of semi-conductor components is demonstrated through the use of laboratory experiments.

Includes: Experiential Learning Activity

Precludes additional credit for ELEC 2507, PLT 2006 (no longer offered).

Prerequisite(s): OSS 2005 or PLT 2005 (no longer offered). Restricted to students in the B.I.T. degree program.

Lectures two hours a week, laboratory and problem analysis three hours a week.

OSS 2008 [0.5 credit]**Manufacturing Photonics Components**

Manufacturing techniques and methods used to produce photonics components and devices/systems. Micro assembly, adhesives, optical tests and measurement, lean manufacturing and quality control standards (Telcordia). Laboratory exposure to optical component production processes: grinding, polishing, coating, mounting, tolerance and accuracy.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1004 and PLT 2008 (no longer offered).

Prerequisite(s): OSS 1002 or PLT 1002 (no longer offered). Restricted to students in the B.I.T. degree program.

Lectures two hours a week, laboratory two hours a week.

OSS 2009 [0.5 credit]**Assembly and Machine Language**

Structured approach to assembly language programming. Topics include data and address registers, data and address busses, condition code register and stack pointers, machine code format, instruction sizes, operand encoding, translation of source code into machine language, and how the processor executes instructions.

Includes: Experiential Learning Activity

Precludes additional credit for NET 1004 (no longer offered), NET 2013, PLT 1007 (no longer offered), PLT 2009 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory one hour a week.

OSS 2010 [0.5 credit]**Signals and Systems**

This course provides a solid theoretical foundation for the analysis and processing of experimental data, and real-time experimental control methods. Topics include various properties of signals and systems, convolution, the Fourier transform, sampling theorem, z-transform, spectral analysis, filter design, and system identification.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2010 (no longer offered).

Prerequisite(s): BIT 1200 and BIT 1201. Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial one hour a week.

OSS 3000 [0.5 credit]**Optical Communication Networks II**

Operation, management and maintenance of metro/long-haul optical network elements and systems. Hands-on skills using GUI, Transaction Language One (TL1), optical network management to perform: alarm provisioning, line and path protection switching, security, data communications management, optical network backup and restore, load upgrade and installation management.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3000 (no longer offered).

Prerequisite(s): OSS 2002.

Lectures two hours a week, tutorial/laboratory three hours a week.

OSS 3001 [0.5 credit]**Real-time Systems**

Principles of event-driven systems, review of computer organization; parallel and serial interfaces; programmable timer; I/O methods; polling and interrupts. Real-time kernels. Critical design consideration: concurrency, dead lock, synchronization. Maintaining and improving system performance. Programming exercises in low and high level languages.

Includes: Experiential Learning Activity

Also listed as NET 3001.

Precludes additional credit for PLT 3002 (no longer offered).

Prerequisite(s): OSS 2009 or PLT 2009 (no longer offered).

Lectures three hours a week, tutorial/laboratory two hours a week.

OSS 3002 [0.5 credit]**Design of Optical Components and Systems**

Optical ray-tracing for analysing systems of sources, lenses, mirrors, prisms, fibers, diffractive elements, MEMS. Zemax® fundamentals, pupils, aspherics, non-sequential tracing, aberrations, image metrics, optimization/merit functions. Applications: imaging, illumination, lasers. Trade-offs, mechanical constraints, tolerances and cost. Physical optics modeling of beam propagation. Near-field diffraction and waveguides.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3004 (no longer offered).

Prerequisite(s): OSS 1003 or PLT 1003 (no longer offered).

Lectures two hours a week, tutorial/laboratory three hours a week.

OSS 3003 [0.5 credit]**Fundamentals of Electromagnetics**

Review of basic vector calculus followed by an introduction to electrostatics and magnetostatics. Maxwell's equations and EM wave solutions. EM waves in dielectrics media, reflection, refraction, Fresnel relations and Brewster angle. Introduction to guided waves emphasizing slab waveguides.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3003 (no longer offered).

Prerequisite(s): BIT 1204 and BIT 2010.

Lecture and tutorial three hours a week.

OSS 3004 [0.5 credit]**Data Structures**

Specification and design of abstract data types and their implementation as stacks, queues, trees, tables and graphs. Common and useful examples. Parsing and finite state machines. Analysis of algorithms, recursion, re-entrance. Special focus: abstraction, interface specification and hierarchical design using object-oriented programming.

Includes: Experiential Learning Activity

Also listed as NET 3004.

Precludes additional credit for PLT 3010 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory two hours a week.

OSS 3009 [0.5 credit]**Project Management**

Identification, selection, initiation, and organization of projects. Risk assessment, budget issues, communication, project scheduling, performance monitoring and control. Emphasis on practical techniques related to the field of photonics using case studies.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3009 (no longer offered).

Prerequisite(s): third year standing in the Optical Systems and Sensors program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 3012 [0.5 credit]**Digital Signal Processing**

Operations-related topics including: sampling/reconstruction of continuous time signals, Fourier and Z-transforms, Discrete Fourier Transform (DFT), Fast Fourier Transform (FFT). Examination of other time and frequency domain techniques for designing and applying infinite impulse response (IIR) and finite impulse response (FIR) digital filters.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3012 (no longer offered).

Prerequisite(s): OSS 2010 or PLT 2010 (no longer offered).

Lectures three hours a week, tutorial one hour a week.

OSS 3013 [0.5 credit]**Software Design for Optical Systems and Sensors**

Provides students with knowledge and expertise to design and develop complex software systems and programs for common optical systems and sensors. Topics include: system and requirement analysis, algorithms, component identification, common design patterns, and working with reusable components.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3013 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial two hours a week.

OSS 3014 [0.5 credit]**Optical Waves, Waveguides, and Sensors**

Analysis of guided-wave propagation and sensors. Topics include Maxwell's time-dependent wave equations, dielectric waveguides (slab, planar, segmented, rib, strip), optical fibres (modes, dispersion relations, propagation in dispersive media, nonlinear fibres), beam propagation methods, free space beam propagation, waveguide devices, and study of sensors technology.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3014 (no longer offered).

Prerequisite(s): OSS 3003 or PLT 3003 (no longer offered).

Lectures three hours a week, tutorial two hours a week.

OSS 4001 [0.5 credit]**Optoelectronic Devices**

Review of semiconductors, semiconductor lasers, detectors, photovoltaics. Electro, magneto and acousto-optic modulation devices. Transmitters, receivers, photo diodes, fiber sensors, and amplifiers, Mach–Zehnder interferometers. Polarization-mode dispersion. Experiments on non-linear optical elements, Sagnac and ring resonator, optical modulation.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4001 (no longer offered).

Prerequisite(s): OSS 3004 or PLT 3004 (no longer offered).

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 4004 [0.5 credit]**Medical Imaging and Biosensors**

Biological and medical photonics. Effect of light on biological systems, medical imaging, medical treatments, biological research and bio/medical applications. Laser manipulation of cells, laser surgery, and photo-therapy. Biophotonic lab experiments with scanning confocal microscopes, endoscopes, DNA scanners.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4004 (no longer offered).

Prerequisite(s): OSS 3003 or PLT 3003 (no longer offered).

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 4006 [0.5 credit]**Image Processing**

Developing and evaluating algorithms for extracting the necessary information signals. Topics include filter design, fast transforms, adaptive filters, spectrum estimation and modeling, sensor array processing, image processing, motion estimation from images, applications in biomed, computer-aided tomography, image restoration, robotic vision, and pattern recognition.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4006 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory two hours a week.

OSS 4008 [0.5 credit]**Remote Sensing**

Introduction to the basics of remote sensing, characteristics of remote sensors, and applications. Topics include: image acquisition and data collection, LIDAR sensors and platforms and derived digital products, imagery analysis, topographic mapping, and 3D modeling of urban infrastructure for autonomous vehicles.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4008 (no longer offered).

Prerequisite(s): OSS 3014 or PLT 3014 (no longer offered).

Lectures three hours a week, tutorial two hours a week.

OSS 4009 [0.5 credit]**Computer Vision**

Introduction to topics in computer vision, including: fundamentals of image formation, camera imaging geometry, f camera models, camera calibration, structure from motion, feature detection and matching, depth and stereo, image stabilization, image classification, automated alignment, scene understanding, recognition, and image searching.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4009 (no longer offered).

Prerequisite(s): OSS 4006 or PLT 4006 (no longer offered).

Lectures three hours a week, tutorial two hours a week.

OSS 4900 [1.0 credit]**OSS Capstone Project**

Research project develops students' ability to direct own learning and pursue advanced study in variety of subjects. Select topic, perform literature search, theoretical background, preliminary measurements, calculations, and design. Present findings in a preliminary thesis. Encourage writing technical papers. Research opportunities with industry and academia.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4900 (no longer offered).

Prerequisite(s): fourth-year standing.

Tutorial hours arranged.

Interdisciplinary Science and Practice

This section presents the requirements for programs in:

- Interdisciplinary Science and Practice B.Sc. Honours
- Interdisciplinary Science and Practice B.Sc.

Interdisciplinary Science and Practice B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 4.0 credits in:		4.0
ISAP 1001 [0.5]	Introduction to Interdisciplinary Science	
ISAP 1002 [0.5]	Seminar in Interdisciplinary Science	
ISAP 2001 [0.5]	Foundations in Critical Inquiry	

ISAP 2002 [0.5]	Research Principles for Interdisciplinary Science	
ISAP 3001 [0.5]	Principles and Applications in Data Analysis	
ISAP 3002 [0.5]	Applications in Interdisciplinary Research	
ISAP 3003 [0.5]	Science Communication	
ISAP 3004 [0.5]	Science Policy	
2. 1.0 credit from:		1.0
ISAP 4906 [1.0]	Capstone Course - Group Research Project	
ISAP 4907 [1.0]	Capstone Course - Research Essay	
ISAP 4908 [1.0]	Capstone Course - Individual Research Project	
3. 1.0 credit in:		1.0
COMP 1005 [0.5]	Introduction to Computer Science I	
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
4. 0.5 credit from:		0.5
MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I	
5. 0.5 credit from:		0.5
COMP 1006 [0.5]	Introduction to Computer Science II	
STAT 2509 [0.5]	Introduction to Statistical Modeling II	
6. 1.0 credit from the Faculty of Science at the 2000 level or higher		1.0
7. 2.0 credits from the Faculty of Science at the 3000 level or higher		2.0
B. Credits Not Included in the Major CGPA (10.0 credits)		
8. 1.0 credit in:		1.0
ECON 1001 [0.5]	Introduction to Microeconomics	
ECON 1002 [0.5]	Introduction to Macroeconomics	
9. 2.0 credits in Approved Experimental Science Courses as defined in the Regulations for the Bachelor of Science		2.0
10. 2.0 credits from the Faculty of Science at the 2000 level or higher		2.0
11. 2.0 credit in Approved courses outside the Faculties of Science and Engineering and Design, as defined in the Regulations for the Bachelor of Science. Note: students in the ISAP program may not use NSCI 1000 in this category.		2.0
12. 3.0 credits in free electives		3.0
13. Students are required to complete one minor from the Faculty of Science. A second minor (from any faculty, including Science) is encouraged. Students should consult with their academic advisor to ensure compliance with this requirement.		
Total Credits		20.0

Interdisciplinary Science and Practice

B.Sc. (15.0 credits)

A. Credits Included in the Major CGPA (8.0 credits)

1. 4.0 credits in:		4.0
ISAP 1001 [0.5]	Introduction to Interdisciplinary Science	
ISAP 1002 [0.5]	Seminar in Interdisciplinary Science	
ISAP 2001 [0.5]	Foundations in Critical Inquiry	
ISAP 2002 [0.5]	Research Principles for Interdisciplinary Science	

ISAP 3001 [0.5]	Principles and Applications in Data Analysis	
ISAP 3002 [0.5]	Applications in Interdisciplinary Research	
ISAP 3003 [0.5]	Science Communication	
ISAP 3004 [0.5]	Science Policy	
2. 1.0 credit in:		1.0
COMP 1005 [0.5]	Introduction to Computer Science I	
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
3. 0.5 credit from:		0.5
MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I

COMP 1006 [0.5]	Introduction to Computer Science II	
STAT 2509 [0.5]	Introduction to Statistical Modeling II	
5. 1.0 credit from the Faculty of Science at the 2000 level or higher		1.0
6. 1.0 credit from the Faculty of Science at the 3000 level or higher		1.0
B. Credits Not Included in the Major CGPA (7.0 credits)		
7. 1.0 credit in:		1.0
ECON 1001 [0.5]	Introduction to Microeconomics	
ECON 1002 [0.5]	Introduction to Macroeconomics	
8. 2.0 credits in Approved Experimental Science Courses as defined in the Regulations for the Bachelor of Science		2.0
9. 1.0 credit from the Faculty of Science at the 2000 level or higher		1.0
10. 1.0 credit in Approved courses outside the Faculties of Science and Engineering and Design, as defined in the Regulations for the Bachelor of Science. Note: students in the ISAP program may not use NSCI 1000 in this category.		1.0
11. 2.0 credits in free electives		2.0
12. Students are required to complete one Minor from the Faculty of Science. A second Minor from outside the Faculty of Science may be possible. Students should consult with their academic advisor to ensure compliance with this requirement.		
Total Credits		15.0

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

- 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in science continuation courses in each of the two majors**

2. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

1. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for fewer than 10.0 credits.
2. 1.0 credit in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for 10.0 or more credits.

Declared and Undeclared Students

Students who are registered in a program within the degree are called Declared students. Most students designate a program of study when they first apply for admission and so begin their studies as Declared students. Students may also choose to begin their studies within the B.Sc. degree without being registered in a program. These students are referred to as Undeclared students. The recommended course pattern for Undeclared students is provided in the Undeclared entry of the Programs section of this Calendar. Undeclared students normally must apply to enter a program before beginning their second year of study. The Science Student Success Centre (SSSC) provides Undeclared students guidance to the appropriate support services in making this decision.

Change of Program within the B.Sc. Degree

Students may transfer to a program within the B.Sc. degree if upon entry to the new program they would be in good academic standing.

Other applications for change of program will be considered on their merits; students may be accepted in the new program in *Good Standing* or on *Academic Warning*.

Applications to declare or change their program within the B.Sc. Degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program or into a program element or option is subject to any enrolment, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may add a minor, concentration or specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a minor, concentration or specialization requires that the student be in *Good Standing* and is subject to any specific requirements of the intended

Minor, Concentration or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of experimental science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry	
BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering
Biology	
BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology
Chemistry	
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2800 [0.5]	Foundations for Environmental Chemistry
Earth Sciences	
ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time
ERTH 2102 [0.5]	Mineralogy to Petrology
ERTH 2404 [0.5]	Engineering Geoscience
ERTH 2802 [0.5]	Field Geology I
ERTH 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds
ERTH 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians
ERTH 3204 [0.5]	Mineral Deposits
ERTH 3205 [0.5]	Physical Hydrogeology
ERTH 3806 [0.5]	Structural Geology
Food Sciences	
FOOD 3001 [0.5]	Food Chemistry
FOOD 3002 [0.5]	Food Analysis
FOOD 3005 [0.5]	Food Microbiology
Geography	
GEOG 1010 [0.5]	Global Environmental Systems
GEOG 3108 [0.5]	Soil Properties
Neuroscience	
NEUR 3206 [0.5]	Sensory and Motor Neuroscience
NEUR 3207 [0.5]	Systems Neuroscience
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy

Physics

PHYS 1001 [0.5]	Foundations of Physics I
PHYS 1002 [0.5]	Foundations of Physics II
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I
PHYS 1008 [0.5]	Elementary University Physics II
PHYS 2202 [0.5]	Wave Motion and Optics
PHYS 2604 [0.5]	Modern Physics I
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars
PHYS 3606 [0.5]	Modern Physics II
PHYS 3608 [0.5]	Modern Applied Physics

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 2006 [0.5]	Introduction to Quantitative Research
GEOG 2013 [0.5]	Weather and Water
GEOG 2014 [0.5]	The Earth's Surface
GEOG 3003 [0.5]	Quantitative Geography
GEOG 3010 [0.5]	Field Methods in Physical Geography
GEOG 3102 [0.5]	Geomorphology
GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3104 [0.5]	Principles of Biogeography
GEOG 3105 [0.5]	Climate and Atmospheric Change
GEOG 3106 [0.5]	Aquatic Science and Management
GEOG 3108 [0.5]	Soil Properties
GEOG 4000 [0.5]	Field Studies
GEOG 4005 [0.5]	Directed Studies in Geography
GEOG 4013 [0.5]	Cold Region Hydrology
GEOG 4017 [0.5]	Global Biogeochemical Cycles
GEOG 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103 [0.5]	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Science Psychology Courses

PSYC 2001 [0.5]	Introduction to Research Methods in Psychology
PSYC 2002 [0.5]	Introduction to Statistics in Psychology
PSYC 2700 [0.5]	Introduction to Cognitive Psychology
PSYC 3000 [1.0]	Design and Analysis in Psychological Research
PSYC 3506 [0.5]	Cognitive Development
PSYC 3700 [1.0]	Cognition (Honours Seminar)
PSYC 3702 [0.5]	Perception
PSYC 2307 [0.5]	Human Neuropsychology I
PSYC 3307 [0.5]	Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

BIOC (Biochemistry)

BIOL (Biology)

CHEM (Chemistry)

COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except ERTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except ERTH 1010, ERTH 1011 and ERTH 2415. Earth Sciences students may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering

ENSC 2001

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Science)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)

Science Psychology (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) Biology students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5]	Education Research in Biology
CHEM 1003 [0.5]	The Chemistry of Food, Health and Drugs
CHEM 1004 [0.5]	Drugs and the Human Body
CHEM 1007 [0.5]	Chemistry of Art and Artifacts
ERTH 1010 [0.5]	Our Dynamic Planet Earth
ERTH 1011 [0.5]	Evolution of the Earth
ERTH 2415 [0.5]	Natural Disasters
ISCI 1001 [0.5]	Introduction to the Environment
ISCI 2000 [0.5]	Natural Laws
ISCI 2002 [0.5]	Human Impacts on the Environment
MATH 0107 [0.5]	Algebra and Geometry
PHYS 1901 [0.5]	Planetary Astronomy
PHYS 1902 [0.5]	From our Star to the Cosmos
PHYS 1905 [0.5]	Physics Behind Everyday Life
PHYS 2903 [0.5]	Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5]	Introduction to Computational Thinking for Arts and Social Science Students
MATH 0005 [0.5]	Precalculus: Functions and Graphs
MATH 0006 [0.5]	Precalculus: Trigonometric Functions and Complex Numbers
MATH 1009 [0.5]	Mathematics for Business
MATH 1119 [0.5]	Linear Algebra: with Applications to Business
MATH 1401 [0.5]	Elementary Mathematics for Economics I

MATH 1402 [0.5] Elementary Mathematics for Economics II

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job.

It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.Sc. Interdisciplinary Science and Practice: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered as a full-time student (2.0 credits) in the Bachelor of Science Honours in Interdisciplinary Science and Practice;
2. Successfully completed, by the start date of the first work term, the following 2.0 credits: ISAP 3001, ISAP 3002, ISAP 3003, ISAP 3004.
3. Have obtained third-year standing;
4. Obtained and maintained a major CGPA of 9.0 or higher and an overall CGPA of 7.5 or higher in the first three years of academic study;

B.Sc. Honours Interdisciplinary Science and Practice students must successfully complete three (3) work terms to obtain the co-op designation.

Work Term Course: ISAP 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	W	Fall	S
Winter	S	Winter	S	Winter	S	Winter	W	Winter	S
Summer		Summer		Summer	W	Summer	W/S		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions and two of Biology, Chemistry, Earth and Space Sciences or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For the Combined Honours program in Chemistry and Computer Science, 4U Chemistry and Calculus and Vectors are strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

For entry to an Honours program after the completion of 5.0 included credits, a student must have a major CGPA of 5.50 or higher, an overall CGPA of 4.50 or higher and the recommendation of the Honours department or committee. A student beginning the final 10.0 credits towards an Honours degree must present a major CGPA of 6.00 or higher, an overall CGPA of 5.00 or higher and the recommendation of the Honours department or committee. A student beginning the final 5.0 credits towards an Honours degree must present a major CGPA of 6.50 or higher and an overall CGPA of 5.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

B.Sc. Major Program

B.Sc. Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics. 4U Physics is strongly recommended.

Equivalent courses may be substituted between the old and new Ontario mathematics curriculum.

Advanced Standing

For entry to a B.Sc. or B.Sc. Major program after the completion of 5.0 included credits, a student must have a major and core CGPA of 3.50 or higher and an overall CGPA of 3.50 or higher. A student beginning the final 5.0 credits towards a B.Sc. or B.Sc. Major degree must present a major and core CGPA of 4.00 or higher and an overall CGPA of 4.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Interdisciplinary Science and Practice (ISAP) Courses

ISAP 1001 [0.5 credit]

Introduction to Interdisciplinary Science

What is interdisciplinarity and what are the challenges and opportunities of collaboration within and across disciplines in science and beyond? Topics include types of biases, public datasets and science communication.

Lectures and discussion three hours per week.

ISAP 1002 [0.5 credit]

Seminar in Interdisciplinary Science

Exploring the role of interdisciplinarity in discovery and innovation, and discussion of selected issues facing society and the role of science. Topics include finding information, collaboration and science communication tools.

Prerequisite(s): ISAP 1001.

Seminar three hours per week.

ISAP 2001 [0.5 credit]

Foundations in Critical Inquiry

What is science and the scientific method? Topics include the scientific method, credible sources of information, knowledge gaps, the impact of scientific discoveries, and discussion of their local and global implications.

Prerequisite(s): ISAP 1002 or permission of the Institute.

Lecture three hours per week, workshop two hours per week.

ISAP 2002 [0.5 credit]

Research Principles for Interdisciplinary Science

Exploring how research is conducted. Topics include publicly available databases, the role of communication in research, stakeholders and participants, and the process of identifying knowledge gaps and developing research questions.

Prerequisite(s): ISAP 2001 or permission of the Institute.

Lecture three hours per week.

ISAP 3001 [0.5 credit]

Principles and Applications in Data Analysis

Development of strategies for obtaining and analyzing data. Topics include: survey of publicly available science-data resources; identification of coincidental, correlational and causal relationships; statistical data-analysis techniques; concepts of risk and error propagation in measured and calculated values. Applications in the physical and biological sciences.

Prerequisite(s): ISAP 2002, COMP 1005 and STAT 2507 or permission of the Institute.

Lecture three hours per week, workshop two hours per week.

ISAP 3002 [0.5 credit]

Applications in Interdisciplinary Research

Application of skills from Interdisciplinary Science and Practice (ISAP) courses to develop a research proposal. Topics include: research ethics; identification of stakeholders; inclusive consultation, collaboration and dissemination strategies.

Prerequisite(s): ISAP 2002 or permission of the Institute.

Lecture three hours per week, workshop two hours per week.

ISAP 3003 [0.5 credit]

Science Communication

How is science perceived and how has science been communicated? Students will use case studies to assess examples of science communication with varying outcomes. Topics include the principles of effective science communication, the range of tools available, and knowing the audience.

Includes: Experiential Learning Activity

Prerequisite(s): ISAP 2002 or permission of the Institute.

Lecture and seminar three hours per week.

ISAP 3004 [0.5 credit]**Science Policy**

Exploration of how science-related policy is developed and the impact of policy on science. Topics include policy frameworks, stakeholder roles, power relationships, commercialization and the funding of science.

Prerequisite(s): ISAP 3003 or permission of the Institute.
Lecture and seminar three hours per week.

ISAP 3700 [0.5 credit]**Topics in Interdisciplinary Science**

Specific topics of current interest. Topics may vary from year to year.

Includes: Experiential Learning Activity
Prerequisite(s): Second year standing in the Interdisciplinary Science and Practice program or permission of the Institute.
Seminar/workshop three hours per week.

ISAP 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

ISAP 4700 [0.5 credit]**Topics in Interdisciplinary Science**

Specific topics of current interest. Topics may vary from year to year.

Includes: Experiential Learning Activity
Prerequisite(s): Third year standing in the Interdisciplinary Science and Practice program or permission of the Institute.
Seminar three hours per week.

ISAP 4901 [0.5 credit]**Directed Studies**

Independent or group study, open to third- and fourth-year students to explore a particular topic, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work.

Includes: Experiential Learning Activity
Prerequisite(s): third-year standing in the Interdisciplinary Science and Practice (ISAP) program and permission of the instructor.

ISAP 4906 [1.0 credit]**Capstone Course - Group Research Project**

Students will collaborate on a project that addresses a real-world issue in a team environment. Focus includes: design and completion of a research project; development of communication, critical inquiry, data analysis and research skills; and the opportunity to develop initiative, creativity and self-reliance.

Includes: Experiential Learning Activity
Precludes additional credit for ISAP 4907, ISAP 4908.
Prerequisite(s): fourth-year standing in the Interdisciplinary Science and Practice (ISAP) Honours program and permission of the Institute.
Lecture, seminar and workshop four hours per week, as scheduled by the instructor.

ISAP 4907 [1.0 credit]**Capstone Course - Research Essay**

A substantial, independent essay or research proposal-based critical review and research proposal, using library, database and/or bioinformatic resources, under the direct supervision of the instructor. Topics include identification and critical review of resources, development of writing skills and formulation of research question and strategy.

Includes: Experiential Learning Activity
Precludes additional credit for ISAP 4906, ISAP 4908.
Prerequisite(s): fourth-year standing in the Interdisciplinary Science and Practice (ISAP) Honours program.
Lecture, seminar and workshop four hours per week, as scheduled by the instructor.

ISAP 4908 [1.0 credit]**Capstone Course - Individual Research Project**

An independent research project under the direct supervision of a faculty adviser. Evaluation is based on a written thesis and a poster presentation.

Includes: Experiential Learning Activity
Precludes additional credit for ISAP 4906, ISAP 4907.
Prerequisite(s): fourth-year standing in the Interdisciplinary Science and Practice (ISAP) Honours program, a major CGPA of 9.0 or higher, and permission of the Institute.
Lectures and discussion as scheduled by the course coordinator; other hours as arranged with the faculty advisor.

Italian (Minor)

This section presents the requirements for programs in:

- Minor in Italian

Minor in Italian (4.0 credits)

Open to all undergraduate degree students.

Requirements:

1. 3.0 credits in ITAL	3.0
2. 1.0 credit in ITAL at the 3000-level or higher	1.0
3. Subject to approval of the School, a maximum of 2.0 credits may be substituted for the above by taking courses at the 2000-level or higher in another discipline relevant to the language.	
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	

Total Credits **4.0**

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

Regulations

In addition to the requirements listed here, students must satisfy:

1. the University regulations including the process of Academic Performance Evaluation (see the Academic Regulations of the University section of this Calendar).

Italian (ITAL) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). Students should note that they cannot go backward in a sequence of levels in language courses.

ITAL 1010 [0.5 credit]

First-Year Italian I

For students with no knowledge of Italian. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for ITAL 1110.

Four hours a week.

ITAL 1020 [0.5 credit]

First-Year Italian II

Continuation of first-year Italian. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for ITAL 1110.

Prerequisite(s): grade of C or higher in ITAL 1010, or permission of the School.

Four hours a week.

ITAL 1110 [1.0 credit]

Intensive First-Year Italian

For students with no knowledge of Italian. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for ITAL 1010 and ITAL 1020.

Eight hours a week (one term).

ITAL 2010 [0.5 credit]

Second-Year Italian I

Further study of Italian to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for ITAL 2110.

Prerequisite(s): grade of C or higher in ITAL 1020 or ITAL 1110, or permission of the School.

Four hours a week.

ITAL 2020 [0.5 credit]

Second-Year Italian II

Continuation of second-year Italian. Further study of Italian to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language.

Compulsory attendance.

Precludes additional credit for ITAL 2110.

Prerequisite(s): grade of C or higher in ITAL 2010, or permission of the School.

Four hours a week.

ITAL 2110 [1.0 credit]

Intensive Second-Year Italian

Further study of Italian to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for ITAL 2010 or ITAL 2020.

Prerequisite(s): grade of C or higher in ITAL 1020, ITAL 1110, or permission of the School.

Eight hours a week (one term).

ITAL 3110 [1.0 credit]

Intensive Third-Year Italian

Further study of Italian to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in ITAL 2000 (no longer offered), ITAL 2020, ITAL 2110, or permission of the School.

Six hours a week (one term).

ITAL 4110 [1.0 credit]

Intensive Fourth-Year Italian

Advanced spoken and written Italian with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study.

Compulsory attendance.

Prerequisite(s): grade of C or higher in ITAL 3110, or permission of the School.

Six hours a week (one term).

ITAL 4900 [1.0 credit]

Independent Study

Research in a topic in Italian language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in Italian, grade of C or higher in ITAL 3110 or equivalent, or permission of the School.

ITAL 4901 [0.5 credit]

Independent Study

Research in a topic in Italian language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in Italian, grade of C or higher in ITAL 3110 or equivalent, or permission of the School.

Japanese Language (Minor)

This section presents the requirements for programs in:

- Minor in Japanese Language

Minor in Japanese Language (4.0 credits)

Open to all undergraduate degree students.

Requirements:

- | | |
|--|-----|
| 1. 3.0 credits in JAPA | 3.0 |
| 2. 1.0 credit in JAPA at the 3000-level or higher | 1.0 |

JAPA 1010 [0.5 credit]

First-Year Japanese I

For students with no knowledge of Japanese. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for JAPA 1110.

Four hours a week.

JAPA 1020 [0.5 credit]

First-Year Japanese II

Continuation of first-year Japanese. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for JAPA 1110.

Prerequisite(s): grade of C or higher in JAPA 1010, or permission of the School.

Four hours a week.

JAPA 1110 [1.0 credit]

Intensive First-Year Japanese

For students with no knowledge of Japanese. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for JAPA 1010 and JAPA 1020.

Eight hours a week (one term).

JAPA 2110 [1.0 credit]

Intensive Second-Year Japanese

Further study of Japanese to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 1020 or JAPA 1110, or permission of the School.

Eight hours a week (one term).

JAPA 3010 [0.5 credit]

Third-Year Japanese I

Further study of Japanese to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies.

Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 2110, or permission of the School.

Three hours a week.

JAPA 3011 [0.5 credit]

Reading in Japanese – Kanji I

Intended for students taking JAPA 3010 and those who want to learn kanji in depth and become proficient in reading various Japanese texts. The course is intended primarily for students who do not use Chinese characters in their first language.

Prerequisite(s): grade of C or higher in JAPA 2110 or permission of the School.

Three hours a week.

JAPA 3020 [0.5 credit]**Third-Year Japanese II**

Continuation of third-year Japanese to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 3010, or permission of the School.

Three hours a week.

JAPA 3021 [0.5 credit]**Reading in Japanese – Kanji II**

A continuation of Reading in Japanese – Kanji I. Further development of reading skills in Japanese. Intended primarily for students who do not use Chinese characters in their first language.

Prerequisite(s): grade of C or higher in JAPA 3011 or permission of the School.

Three hours a week.

JAPA 4010 [0.5 credit]**Fourth-Year Japanese I**

Development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 3020, or permission of the School.

Three hours a week.

JAPA 4020 [0.5 credit]**Fourth-Year Japanese II**

Continuation of fourth-year Japanese. Further development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 4010, or permission of the School.

Three hours a week.

JAPA 4210 [0.5 credit]**Functional Contemporary Japanese I**

Further study of Japanese to reach a more advanced level, aimed at developing speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Prerequisite(s): grade of C or higher in JAPA 4020 or permission of the School.

Three hours a week.

JAPA 4220 [0.5 credit]**Functional Contemporary Japanese II**

Continuation of JAPA 4210. Further development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Prerequisite(s): grade of C or higher in JAPA 4210 or permission of the School.

Three hours a week.

JAPA 4900 [1.0 credit]**Independent Study**

Research in a topic in Japanese language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing and enrolment in the Minor in Japanese, a grade of C or higher in JAPA 4020 or equivalent, or permission of the School.

JAPA 4901 [0.5 credit]**Independent Study**

Research in a topic in Japanese language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing and enrolment in the Minor in Japanese, JAPA 4020 or equivalent, or permission of the School.

Journalism

This section presents the requirements for programs in:

- Journalism B.J. Honours
- Journalism with Concentration in Health Sciences B.J. Honours
- Journalism B.J. Combined Honours
- Media Production and Design B.M.P.D. Honours
- Minor in News Media and Information

Program Requirements**Journalism****B.J. Honours (20.0 credits)****A. Credits Included in the Major CGPA (8.0 credits)**

1. 1.0 credit in:		1.0
JOUR 1001 [0.5]	Foundations: Journalism in Context	
JOUR 1002 [0.5]	Foundations: Practicing Journalism in a Diverse Society	
2. 2.0 credits in:		2.0
JOUR 2201 [1.0]	Fundamentals of Reporting	
JOUR 2202 [0.5]	Digital Journalism Toolkit	
JOUR 2501 [0.5]	Media Law	
3. 2.5 credits in:		2.5
JOUR 3207 [0.5]	Audio Journalism	
JOUR 3208 [0.5]	Video Journalism	
JOUR 3225 [0.5]	Reporting in Depth	
JOUR 3235 [0.5]	Digital Journalism	
JOUR 3300 [0.5]	Media Ethics in a Digital World	

4. 0.5 credit in:	0.5
JOUR 4001 [0.5] Journalism Now - and Next	
5. 2.0 credits from: Journalism Publications and/or Specialized Journalism and/or Professional Skills and/or Investigating Journalism (at least 0.5 credit must be taken from Journalism Publications courses and at least 0.5 credit must be taken from the Specialized Journalism courses)	2.0
Journalism Publications	
JOUR 4003 [0.5] The Digital Hub: Advanced Multimedia (Journalism Publications)	
JOUR 4004 [0.5] The Digital Hub: Advanced Audio	
JOUR 4005 [0.5] The Digital Hub: Advanced Video

JOUR 4504 [0.5] Investigating Journalism: The Media and International Development	
JOUR 4505 [1.0] Investigating Journalism: The Power and Politics of Government	

B. Credits Not Included in the Major CGPA (12.0 credits)

6. 4.0 credits must be taken in a field other than journalism, with at least 1.0 of these credits at the 3000 level or higher	4.0
7.a. 0.5 credits from:	0.5
HIST 1301 [0.5] Conflict and Change in Early Canadian History	
HIST 1302 [0.5] Rethinking Modern Canadian History	
HIST 2301 [0.5] Canadian Political History	
HIST 2304 [1.0] Social and Cultural History of Canada (See Item 8 below)	
HIST 2311 [0.5] Environmental History of Canada	
b. 0.5 credits from:	0.5
INDG 1010 [0.5] Introduction to Indigenous Peoplehood Studies	
INDG 1011 [0.5] Introduction to Indigenous-Settler Encounters	
INDG 2011 [0.5] Contemporary Indigenous Studies	
8. 7.0 credits in free electives. Students who take HIST 2304 to fulfill Item 7a will have 6.5 credits in free electives. Free elective credits may include JOUR courses in the 4300 series of courses, 4400 series of courses and 4500 series of courses, JOUR 4003, JOUR 4004 and JOUR 4005.	7.0

Total Credits **20.0**

Bachelor of Journalism Combined Honours

Bachelor of Journalism students may take Combined Honours programs in which Journalism is combined with another discipline. Students may choose a Combined Honours program in Journalism and Communication and Media Studies, or from Combined Honours programs offered within the B.A. The Journalism requirements for the Combined Honours program are normally the same as those for the Bachelor of Journalism with Honours listed above. The requirements of the other discipline are the same as those listed for the B.A. Combined Honours program in that discipline. Students are advised to consult the Combined Honours entry of their second discipline in this calendar for details. Combined Honours programs in Journalism and other disciplines are available only to students registered in Journalism.

Journalism with Concentration in Health Sciences

B.J. Honours (20.0 credits)

PHIL 2901 [0.5] Truth and Propaganda

PSCI 3108 [0.5] Politics of Popular Culture

PSCI 3406 [0.5] Public Affairs and Media Strategies

Total Credits 4.0

Regulations

In addition to the program requirements described here, students must satisfy the University regulations including the process of Academic Performance Evaluation.

Students should consult with the School when planning their program and selecting courses.

Note: students who already hold an undergraduate degree in another field are not eligible to apply for the B.J. (Honours) program. These students should consult the information on the Master of Journalism or the Master of Arts in Communication in the Graduate Calendar.

Graduation Requirements

In addition to the graduation requirements of the Faculty, a candidate for the degree of Bachelor of Journalism with Honours must have:

1. a Major CGPA of at least 6.50,
2. a minimum grade of C in each of the 2000-level and above JOUR courses required in the Major;

3. an Overall CGPA of at least 6.50, and
4. the recommendation of the School of Journalism and Communication for graduation.

Prohibited Courses

Courses below the 1000-level may not be used for credit in Journalism programs.

Bachelor of Journalism

Students in the Bachelor of Journalism are subject to the standard Academic Performance Evaluation (APE) process with the following additions and amendments:

1. Continuation in the Journalism program requires the successful completion of 4.0 credits, including JOUR 1001 and JOUR 1002, by the first Academic Performance Evaluation.
2. Students are in *Good Standing* at the first APE if they have a Major CGPA of at least 7.0 and an Overall CGPA of at least 7.0.
3. Students who do not achieve *Good Standing* but who have a Major CGPA of at least 6.0 and an Overall CGPA of at least 6.0 are on *Academic Warning*. Those on *Academic Warning* must complete the following 2.0 credits of Journalism courses by the next APE, with a minimum final grade of C in each: JOUR 2201, JOUR 2202, JOUR 2501. (Note that the major CGPA must be 6.5 or above by the next APE to be eligible for continuation in the Bachelor of Journalism.) Students who do not meet this requirement must leave the program with the status *Continue in Alternate (CA)* or the status *Dismissed from Program (DP)*.
4. Students who do not achieve *Good Standing* and who have a Major CGPA of less than 6.0 or an Overall CGPA of less than 6.0 are required to leave the program with the status *Continue in Alternate (CA)* or the status *Dismissed from Program (DP)*.
5. Students are in *Good Standing* at any subsequent APE if they have a Major CGPA of at least 6.5 and an Overall CGPA of at least 6.5.
6. Students who do not receive *Good Standing* at any subsequent Academic Performance Evaluation will be required to withdraw from the program with the status *Continue in Alternate (CA)* or the status *Dismissed from Program (DP)*.

Transfer into Second Year of B.J.

The School maintains a number of places in second year for students who wish to transfer from Carleton or elsewhere. Normally, offers are made to students with an overall CGPA equivalent to 10.00 (A-) or better. Continuation in *Good Standing* at subsequent Academic Performance Evaluations requires a Major CGPA of 6.50 and an Overall CGPA of at least 6.5.

Transfer from B.J. to B.J. Hum.

A student who has completed the first year of the B.J. in *Good Standing* may apply to transfer into the second year of the B.J. Hum. and will be accepted at the discretion of the School of Journalism and the College of Humanities, and must normally have an overall CGPA of 10.00 (A-) or higher. Transfers into higher years will not be considered.

General Prerequisites

1. Students may continue into 3000-level Journalism production courses JOUR 3207 , JOUR 3208 , JOUR 3225 , JOUR 3235 if they attain a minimum grade of C in each of the following: JOUR 2201 , JOUR 2202 and JOUR 2501 . (Note that the major CGPA and overall CGPA must be 6.5 or above at each APE to be eligible for continuation in the Bachelor of Journalism.)

2. Students may continue into the 4000-level Journalism publication courses JOUR 4003, JOUR 4004 and JOUR 4005 if they attain a minimum grade of C in each of the following: JOUR 3207 , JOUR 3208 , JOUR 3225 , JOUR 3235 . (Note that the major CGPA and overall CGPA must be 6.5 or above at each APE to be eligible for continuation in the Bachelor of Journalism.)

Academic Performance Evaluation for Bachelor of Journalism and Humanities

The Bachelor of Journalism and Humanities degree distinguishes between a student's Overall CGPA and their Core Humanities CGPA.

The Core Humanities CGPA is calculated on the basis of the following four courses: HUMS 1000, HUMS 2000, HUMS 3000, HUMS 4000.

Continuation Regulations

1. Continuation in the Bachelor of Journalism and Humanities program requires the successful completion of 4.0 credits, including JOUR 1001 and JOUR 1002, by the first Academic Performance Evaluation.
 - a. Students are in *Good Standing* at the first APE if they have an Overall CGPA of at least 7.0 and a Core Humanities CGPA of 7.00.
 - b. Students who do not achieve *Good Standing* but who have an Overall CGPA of at least 6.0 and a Core Humanities CGPA of at least 6.00 are on *Academic Warning*. Those on *Academic Warning* must complete the following 2.0 credits of Journalism courses by the next APE, with a minimum final grade of C in each: JOUR 2201, JOUR 2202, JOUR 2501. (Note that the overall CGPA must be 7.0 or above by the next APE to be eligible to continue in *Good Standing* in the Bachelor of Journalism and Humanities.) Students who do not meet this requirement must leave the program with the status *Continue in Alternate (CA)* or the status *Dismissed from Program (DP)*.
 - c. Students who do not achieve *Good Standing* and who have an Overall CGPA or a Core Humanities CGPA of less than 6.0 are required to leave the program with the status *Continue in Alternate (CA)* or the status *Dismissed from Program (DP)*.
2. Students are in *Good Standing* at any subsequent Academic Performance Evaluation if they have an Overall CGPA of 7.00 or higher and a Core Humanities CGPA of 7.00 or higher. A student who is not in *Good Standing* but who has an Overall CGPA of 6.00 or

higher and Core Humanities CGPA of 6.00 or higher is on Academic Warning.

3. A student is required to leave the program with the status *Continue in Alternate (CA)* or the status *Dismissed from Program (DP)* if:
 - a. the student was on Academic Warning and does not achieve *Good Standing* at the next Academic Performance Evaluation, **OR**
 - b. the student has an Overall CGPA of less than 6.00 or a Core Humanities CGPA of less than 6.00 at any Academic Performance Evaluation.

Transfer into second year of the B.J.Hum.

The School maintains a number of places in second year for students who wish to transfer from Carleton or elsewhere. Normally, offers are made to students with an overall CGPA equivalent to 10.00 (A-) or better. Continuation in *Good Standing* at subsequent Academic Performance Evaluations requires an Overall CGPA of at least 7.0 and a Core Humanities CGPA of at least 7.0. An additional year may be necessary for transfer students to complete their degree requirements.

General prerequisite

1. Students may continue into 3000-level Journalism production courses JOUR 3207, JOUR 3208, JOUR 3225, JOUR 3235 if they attain a minimum grade of C in each of the following: JOUR 2201, JOUR 2202 and JOUR 2501. (Note that the overall CGPA must be 7.0 or above at each APE to be eligible to continue in *Good Standing* in the Bachelor of Journalism and Humanities.)
2. Students may continue into the 4000-level Journalism publication courses JOUR 4003, JOUR 4004 and JOUR 4005 if they attain a minimum grade of C in each of the following: JOUR 3207, JOUR 3208, JOUR 3225, JOUR 3235. (Note that the overall CGPA must be 7.0 or above at each APE to be eligible to continue in *Good Standing* in the Bachelor of Journalism and Humanities.)

Transferring from the B.J.Hum. to the B.J. or B.Hum.

A student who wishes to transfer from the B.J.Hum. to the B.J. or the B.Hum. may apply through Admissions and will be accepted if, upon entry to the new program, they would be in *Good Standing*.

A student who fails any A.P.E. and who is consequently on Academic Warning or who must leave the program with *Continue in Alternate (CA)* may transfer into the B.J. or the B.Hum. only if they would be in *Good Standing* upon entry into their new degree.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or

supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- B.J. (Honours)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include 4U English. The Bachelor of Journalism with a Concentration in Health Sciences must also include one 4U Math and either 4U Chemistry or 4U Biology.

Note: Students who already hold an undergraduate degree in another field are not eligible to apply for the B.J. (Honours) program. These students should consult the information on the Master of Journalism or the Master of Arts in Communication in the Faculty of Graduate Studies and Research Calendar.

Advanced Standing

The School also maintains a number of places in second year for students who wish to transfer from Carleton or elsewhere. Normally, offers are made to students with an overall CGPA of 10.00 (A-) or higher.

Journalism (JOUR) Courses

JOUR 1001 [0.5 credit]

Foundations: Journalism in Context

This course charts a history of the fourth estate in the West from the invention of the printing press to the ascendance of networked digital communication, focusing on the political, economic and technological contexts that have shaped the news media as institutions and industries.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 1000.

Prerequisite(s): for Journalism Honours students only.

Lectures and discussion three hours a week.

JOUR 1002 [0.5 credit]

Foundations: Practicing Journalism in a Diverse Society

The course introduces students to the concepts, issues and challenges in the contemporary Canadian media environment that will shape their professional role as practicing journalists. It will also provide students with an initial opportunity to practice some basic journalistic skills.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 1000.

Prerequisite(s): for Journalism Honours students only.

Lectures and discussion three hours a week.

JOUR 1003 [0.5 credit]

Discovering Journalism: Traditional Tales to Tweets

Journalism's evolution as community creator and guardian of democracy; its greatest scoops and worst misdeeds.

From ancient news-sharing to 21st-century expression in blogs, tweets and investigative masterpieces, this course surveys ethical, political and economic contexts of journalism. Not open to Journalism majors.

Lecture three hours a week.

JOUR 2003 [0.5 credit]

Delivering Journalism: Innovators v. Imposters

Activists, imposters and innovators increasingly crowd in on traditional journalism's role of presenting reliable news and fair discussion. How is public awareness now shaped – and misshaped – and how must journalism reshape, update and defend its borders to serve communities better?

Prerequisite(s): JOUR 1001, JOUR 1002, JOUR 1003, or permission of the School of Journalism and Communication.

Lecture and discussion three hours a week.

JOUR 2106 [0.5 credit]

The Documentary

Examination of the work of individual film makers, of documentary styles and of organizations and institutions in the context of the history of documentary film making, including documentaries made for television. Non-fiction films other than documentaries may be considered.

Also listed as FILM 2106.

Precludes additional credit for JOUR 2105, FILM 2105.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

JOUR 2201 [1.0 credit]

Fundamentals of Reporting

Introduction to the techniques journalists use to gather information quickly, accurately and ethically, and to present reports and features in clear, engaging ways. Newsroom exercises provide experience in reporting, writing, editing and using digital tools, including photography and social media.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 1001 and JOUR 1002 and second year standing in the Bachelor of Journalism program.

Lectures, discussion and practicum six hours a week.

JOUR 2202 [0.5 credit]**Digital Journalism Toolkit**

An introduction to the digital tools and social media journalists use to gather, verify and present material to audiences. Lab exercises provide experience producing photographs, audio, and video for journalistic storytelling and the use of social media tools and platforms for reporting and publishing.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 1001 and JOUR 1002 and second year standing in the Bachelor of Journalism program.

Students must be enrolled in this course concurrently with JOUR 2201.

Lectures and lab three hours a week.

JOUR 2501 [0.5 credit]**Media Law**

A survey of laws that affect the Canadian media. Specific areas include the development of freedom of expression, the Charter of Rights and Freedoms, and statutory and common law limitations on freedoms of the press, including publication bans, libel and contempt of court. Also listed as COMS 2501, MPAD 2501.

Precludes additional credit for COMM 2501 (no longer offered).

Prerequisite(s): JOUR 1001, JOUR 1002, COMS 1001, COMS 1002, or JOUR 1003 and enrollment in the Minor in News Media and Information, or enrollment in the Communication and Policy Studies specialization of the Bachelor of Public Affairs and Policy Management, or permission of the School of Journalism and Communication.

Lectures and discussion three hours a week.

JOUR 3105 [0.5 credit]**Questions of Documentary Practice**

Theoretical implications of documentary film and documentary television practice.

Also listed as FILM 3105.

Prerequisite(s): 1.0 credit in Film Studies at the 2000-level, or permission of the School.

JOUR 3207 [0.5 credit]**Audio Journalism**

In this workshop students will build on the principles and practices of audio journalism to produce stories and audio in various formats suitable for radio and digital publication. Note: JOUR 3207 and JOUR 3208 may not be taken in the same term.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs six hours a week.

JOUR 3208 [0.5 credit]**Video Journalism**

In this workshop students will build on the principles and practices of video journalism to produce stories and video in various formats suitable for television and digital publication. Note: JOUR 3207 and JOUR 3208 may not be taken in the same term.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs six hours a week.

JOUR 3225 [0.5 credit]**Reporting in Depth**

Long-form journalistic writing skills development; techniques for thorough investigation of timely public issues. Study of outstanding feature and investigative writing examples. Students will pursue their own reporting projects.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 3205 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and practicum three hours a week.

JOUR 3235 [0.5 credit]**Digital Journalism**

Further development of digital journalism skills. Students will produce journalism for online audiences using formats including written and spoken language, still and moving images.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 3205 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs three hours a week.

JOUR 3300 [0.5 credit]**Media Ethics in a Digital World**

Ethical issues related to production and dissemination of news and other forms of content as they relate to digital environments. Different approaches to ethical decision-making and their application in contemporary settings. Also listed as MPAD 3300.

Precludes additional credit for JOUR 3215 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202 and JOUR 2501 with a grade of C or higher in each, or JOUR 1003, JOUR 2003 and JOUR 2501 with a grade of C or higher in each and enrollment in the Minor in News Media and Information.

Lectures three hours a week.

JOUR 3400 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3401 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3402 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3407 [0.5 credit]**Comparative Media Studies**

The comparative study of one or more media organizations and/or types of media content with reference to their operation, audiences, and impacts.

Also listed as COMS 3407.

Precludes additional credit for COMM 3407 (no longer offered).

Prerequisite(s): third-year standing in B.J. Hons. or permission of the School of Journalism and Communication.

Lectures three hours a week.

JOUR 4001 [0.5 credit]**Journalism Now - and Next**

Changes occurring in the media, in the public's relationship with the media and how journalists and news organizations respond. Practical issues and challenges in the professional life of a journalist.

Also listed as MPAD 4001.

Precludes additional credit for JOUR 4000 (no longer offered).

Prerequisite(s): fourth-year standing in the Bachelor of Journalism or in the Bachelor of Media Production and Design, or fourth-year standing and enrollment in the Minor in News Media and Information, or fourth-year standing in the Strategic Public Opinion stream of the Communication and Policy Studies specialization of the Bachelor of Public Affairs and Policy Management.

Lectures and discussion three hours a week.

JOUR 4003 [0.5 credit]**The Digital Hub: Advanced Multimedia**

A workshop designed to give students instruction in digital reporting and publishing as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3235 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5003, for which additional credit is precluded.

Workshops averaging eight hours a week.

JOUR 4004 [0.5 credit]**The Digital Hub: Advanced Audio**

A workshop designed to give students instruction in audio journalism as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4206 (no longer offered).

Prerequisite(s): JOUR 3207 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5004, for which additional credit is precluded.

Workshops averaging eight hours per week.

JOUR 4005 [0.5 credit]**The Digital Hub: Advanced Video**

A workshop designed to give students instruction in video journalism as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4207 (no longer offered).

Prerequisite(s): JOUR 3208 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5005, for which additional credit is precluded.

Workshops averaging eight hours a week.

JOUR 4100 [0.5 credit]**Special Topic**

Examination of a topic in journalism not covered in depth in other courses. Seminar three hours a week.

Seminar three hours a week.

JOUR 4101 [0.5 credit]**Special Topic**

An examination of a topic in journalism not covered in depth in other courses. Topics may vary from year to year. Seminar three hours a week.

JOUR 4300 [0.5 credit]**Specialized Journalism: Special Topic**

Examination of a topic not covered in depth in other specialized journalism courses. Topics may vary from year to year. Emphasis on explanatory/analytical reporting, culminating in an extended work of journalism.

Also listed as MPAD 4300.

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5300, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4301 [0.5 credit]**Specialized Journalism: Business and the Markets**

Core skills development for business journalism: reading financial documents, covering activities of corporations, functioning of stock and other markets, trade policy and the broader economy, focus on contemporary business news and local publicly-traded companies. Emphasis on explanatory/analytical reporting, production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5301, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4302 [0.5 credit]**Specialized Journalism: Business and Canadian Society**

The intersection between business and public policy, from climate change to taxation, pensions, labour and corporate social responsibility. What business does and how the media covers it. Emphasis on explanatory/analytical reporting, production of a related data project as an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5302, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4303 [0.5 credit]**Specialized Journalism: Health and Science**

The culture of health science research and major trends; key challenges confronting researchers and health science journalists around the world. Emphasis on explanatory/analytical reporting, production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5303, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4304 [0.5 credit]**Specialized Journalism: Environment and Science**

Major trends and research culture in climate and environmental sciences, focusing on key global concerns. Issues facing researchers and journalists. Focus on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5304, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4305 [0.5 credit]**Specialized Journalism: Canada and the U.S.**

Exploration of the unique issues in Canada-U.S. relations, from diplomacy to trade. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5315, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4306 [0.5 credit]**Specialized Journalism: Canada and the World**

Diplomacy, war, terrorism, migration, the international economy, development and other issues of interest to journalists who want to write about Canada and international affairs. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5306, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4308 [0.5 credit]**Specialized Journalism: Sports and Sport Culture**

Workshop equipping students with the skills to move beyond the clichés of sports writing and live event coverage. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5308, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4309 [0.5 credit]**Specialized Journalism: Arts and Culture**

Students are introduced to arts and culture journalism, exploring issues and trends that are key to understanding and covering the arts and related cultural policy in Canada. Emphasis on explanatory/analytical reporting, culminating in an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5309, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4310 [0.5 credit]**Specialized Journalism: Justice and the Law**

Areas of law that journalists may encounter along with a practical explanation of how law works. Students gain the language and tools needed to successfully analyze and write about legal issues. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5310, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4311 [0.5 credit]**Specialized Journalism: Justice and The Supreme Court**

Examination of the Supreme Court of Canada, and the role of journalists in covering it. Students attend hearings and gain insight into the court's role in the making and shaping of Canada. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5311, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4400 [0.5 credit]**Professional Skills: Special Topic**

Examination of a topic in journalism not covered in depth in other courses.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in B.J.

Honours or permission of the School.

Seminar three hours a week.

JOUR 4401 [0.5 credit]**Professional Skills: Data Storytelling**

Instruction in telling stories from data. Focus on searching for, analyzing and mapping data, turning numbers into powerful narratives.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4402 [0.5 credit]**Professional Skills: Longform Writing**

Instruction in longform story production. Focus on researching and writing, including the art and craft of writing for magazines.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4403 [0.5 credit]**Professional Skills: Strategic Communication**

Workshop pairing student teams with non-profit groups that are in need of strategic communication advice.

Instruction in planning and implementation.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Also offered at the graduate level, with different requirements, as JOUR 5508, for which additional credit is precluded.

Lecture and practicum three hours a week.

JOUR 4404 [0.5 credit]**Professional Skills: Freelancing for Media Professionals**

Workshop preparing students to compete in a market that values the skills and mindset of entrepreneurial media workers.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4500 [0.5 credit]**Investigating Journalism: Special Topic**

Examination of a topic in journalism not covered in depth in other courses.

Also listed as MPAD 4500.

Prerequisite(s): third- or fourth-year standing in B.J.

Honours or permission of the School.

Seminar three hours a week.

JOUR 4501 [0.5 credit]**Investigating Journalism: Gender, Identity and Inequality**

How social concepts of gender, identity and inequality influence journalism. Theoretical and textual analysis.

Historical and contemporary case studies from mainstream and alternative media exploring journalistic expression, professional practices, status and expectations, and cultural representations.

Includes: Experiential Learning Activity

Also listed as MPAD 4501.

Precludes additional credit for JOUR 4307 (no longer offered).

Prerequisite(s): third- or fourth-year standing in B.J. Honours or permission of the School.

Seminar three hours a week.

JOUR 4502 [0.5 credit]**Investigating Journalism: Journalism and Conflict**

For as long as there has been conflict between peoples, there have been those who bear witness and recount their observations. This course examines journalism and conflict with an emphasis on journalistic perspectives but also through discussion of interdisciplinary literature and academic research.

Includes: Experiential Learning Activity

Also listed as MPAD 4502.

Prerequisite(s): fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4503 [0.5 credit]**Investigating Journalism: Journalism, Indigenous Peoples and Canada**

Students will explore how journalism in Canada has been associated with colonialism, be challenged to confront misrepresentation in the news media, and learn to consider new strategies and ethical frameworks for covering Indigenous peoples in the era of reconciliation.

Includes: Experiential Learning Activity

Also listed as MPAD 4503.

Prerequisite(s): third-or fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4504 [0.5 credit]**Investigating Journalism: The Media and International Development**

A critical examination of the use of journalism as an instrument of international development, historically and currently. To what extent have these efforts been successful? On what grounds are they justified? In what regard have they been instruments of propaganda?.

Includes: Experiential Learning Activity

Also listed as MPAD 4504.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 4505 [1.0 credit]

Investigating Journalism: The Power and Politics of Government

In-depth exploration of Canada's government, public policy and politics; parliamentary debate and committee hearings. Explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4201 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4900 [1.0 credit]

Honours Tutorial

Students analyze some major achievements in contemporary journalism, through individual or group research. Students also have the opportunity to acquire background and experience in the managerial aspects and production of print and broadcast journalism.

Prerequisite(s): fourth-year B.J. (Honours) standing.

Journalism and Humanities

This section presents the requirements for programs in:

- Bachelor of Journalism and Humanities B.J. Hum.

Program Requirements

Intermediate Language Requirement

1. GREK 2200 and GREK 2201
2. LATN 2200 and LATN 2201
3. FREN 1100 or FREN 2100
4. GERM 2010 and GERM 2020, or GERM 2110
5. ITAL 2010 and ITAL 2020, or ITAL 2110
6. RELI 2010
7. RUSS 2010 and RUSS 2020
8. SPAN 2010 and SPAN 2020, or SPAN 2110

Bachelor of Journalism and Humanities B.J. Hum. (20.0 credits)

Note: students must enrol in this degree in their first year of study.

1. 1.0 credit in:	1.0

or		

1.0 credit in approved electives

Total Credits

20.0

Notes

- For **Item 9** above, students who transfer into the B.J. Hum. may use up to 1.0 credit of any previously completed art and/or music courses (with the exception of advanced placement courses). Students normally take HUMS 2101 and HUMS 2102, or HUMS 3102 and HUMS 3103. Other combinations of these requirements may be allowed at the discretion of the College of the Humanities.
- For **Items 13** and **14** above, students who must take a beginner's level prerequisite to their intermediate language requirement must do so in place of RELI 1731 and HUMS 1005. Students who are already able to demonstrate a proficiency in a second language at an intermediate level may have the requirement waived, and in that case may be required to take an additional elective credit at the 2000-level or above in order to bring their total number of credits up to the required 20.0.
- Students fulfilling the language requirement are not permitted to register in HIST 2304 to fulfill the requirement for **Item 6a**.

Regulations

In addition to the requirements listed below, students must satisfy:

- The University regulations, including the process of Academic Performance Evaluation (see the Academic Regulations of the University section of this Calendar).
- For B.J. Hum. students, the common regulations applying to all B.J. Hum. including those relating to Academic Performance Evaluation for the B.J. Hum as described in Section 7.5 of the Academic Regulations of the University section of this Calendar.
- In addition to the graduation requirements of the University, a graduation candidate for the degree of Bachelor of Journalism and Humanities with Honours must present:
 - a Core Humanities CGPA of at least 7.00,
 - a minimum grade of C in each of the 2000-level and above JOUR courses presented for the degree;
 - an overall CGPA of 7.00 or higher.

Requirement for Full Time Study

Students in second and higher years in the Bachelor of Journalism and Humanities program must complete a minimum of 4.0 credits by the end of the summer session. The School of Journalism and the College of the Humanities may permit students to study abroad for a year while remaining registered in the program. For those students permitted to study abroad, Carleton credits commensurate to studies taken abroad will be determined by the School of Journalism and the College of the Humanities and awarded towards the student's degree. In exceptional circumstances (usually financial need or sickness), the School of Journalism and the College of the Humanities may also permit students to take a leave

of absence for one year while remaining registered in the program.

Prohibited Courses

Courses below the 1000 level may not be used for credit in the Bachelor of Journalism and Humanities program.

Academic Performance Evaluation

Academic Performance Evaluation for Bachelor of Journalism and Humanities

The Bachelor of Journalism and Humanities degree distinguishes between a student's Overall CGPA and their Core Humanities CGPA.

The Core Humanities CGPA is calculated on the basis of the following four courses: HUMS 1000, HUMS 2000, HUMS 3000, HUMS 4000.

Continuation Regulations

1. Continuation in the Bachelor of Journalism and Humanities program requires the successful completion of 4.0 credits, including JOUR 1001 and JOUR 1002, by the first Academic Performance Evaluation.
 - a. Students are in *Good Standing* at the first APE if they have an Overall CGPA of at least 7.0 and a Core Humanities CGPA of 7.00.
 - b. Students who do not achieve *Good Standing* but who have an Overall CGPA of at least 6.0 and a Core Humanities CGPA of at least 6.00 are on *Academic Warning*. Those on *Academic Warning* must complete the following 2.0 credits of Journalism courses by the next APE, with a minimum final grade of C in each: JOUR 2201, JOUR 2202, JOUR 2501. (Note that the overall CGPA must be 7.0 or above by the next APE to be eligible to continue in Good Standing in the Bachelor of Journalism and Humanities.) Students who do not meet this requirement must leave the program with the status *Continue in Alternate (CA)* or the status *Dismissed from Program (DP)*.
 - c. Students who do not achieve *Good Standing* and who have an Overall CGPA or a Core Humanities CGPA of less than 6.0 are required to leave the program with the status *Continue in Alternate (CA)* or the status *Dismissed from Program (DP)*.
2. Students are in *Good Standing* at any subsequent Academic Performance Evaluation if they have an Overall CGPA of 7.00 or higher and a Core Humanities CGPA of 7.00 or higher. A student who is not in *Good Standing* but who has an Overall CGPA of 6.00 or higher and Core Humanities CGPA of 6.00 or higher is on *Academic Warning*.
3. A student is required to leave the program with the status *Continue in Alternate (CA)* or the status *Dismissed from Program (DP)* if:
 - a. the student was on *Academic Warning* and does not achieve *Good Standing* at the next Academic Performance Evaluation, **OR**
 - b. the student has an Overall CGPA of less than 6.00 or a Core Humanities CGPA of less than 6.00 at any Academic Performance Evaluation.

Transfer into second year of the B.J.Hum.

The School maintains a number of places in second year for students who wish to transfer from Carleton or elsewhere. Normally, offers are made to students with an overall CGPA equivalent to 10.00 (A-) or better. Continuation in *Good Standing* at subsequent Academic Performance Evaluations requires an Overall CGPA of at least 7.0 and a Core Humanities CGPA of at least 7.0. An additional year may be necessary for transfer students to complete their degree requirements.

General prerequisite

1. Students may continue into 3000-level Journalism production courses JOUR 3207, JOUR 3208, JOUR 3225, JOUR 3235 if they attain a minimum grade of C in each of the following: JOUR 2201, JOUR 2202 and JOUR 2501. (Note that the overall CGPA must be 7.0 or above at each APE to be eligible to continue in Good Standing in the Bachelor of Journalism and Humanities.)
2. Students may continue into the 4000-level Journalism publication courses JOUR 4003, JOUR 4004 and JOUR 4005 if they attain a minimum grade of C in each of the following: JOUR 3207, JOUR 3208, JOUR 3225, JOUR 3235. (Note that the overall CGPA must be 7.0 or above at each APE to be eligible to continue in Good Standing in the Bachelor of Journalism and Humanities.)

Transferring from the B.J.Hum. to the B.J. or B.Hum.

A student who wishes to transfer from the B.J.Hum. to the B.J. or the B.Hum. may apply through Admissions and will be accepted if, upon entry to the new program, they would be in *Good Standing*.

A student who fails any A.P.E. and who is consequently on *Academic Warning* or who must leave the program with *Continue in Alternate (CA)* may transfer into the B.J. or the B.Hum. only if they would be in *Good Standing* upon entry into their new degree.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Journalism and Humanities (B.J.Hum.) (Honours)

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include 4U English.

Note: students who already hold an undergraduate degree are not eligible to apply for the B.J.Hum. (Honours).

Advanced Standing

The B.J.Hum. (Honours) maintains a number of places in second year for students who wish to transfer from Carleton or elsewhere. Transfers into higher years will not be considered.

Normally, offers are made to students with an overall CGPA of 10.00 (A-) or higher.

Humanities (HUMS) Courses

HUMS 1000 [1.0 credit]

Myth and Symbol

Recurring symbols in myth, epic and ritual representing the relation between the sacred and the profane, the origin of the cosmos, the basis of community, and formative human experiences. Primary sources drawn from ancient India and China, Mesopotamia, the Hebrew Bible, and Indigenous cultures.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 1005 [0.5 credit]

Early Human Cultures

Cultural experiences of small scale societies, including kinship, rituals, magic, social structure, and subsistence. Reading may include the works of classic anthropologists such as Maine, Tylor, Morgan, and Boas.

Precludes additional credit for ANTH 1001 and ANTH 1003.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 1200 [0.5 credit]

Humanities and Classical Civilisation

The ideas which animated ancient Greek and Roman civilisation and which influenced later western cultural movements through a reading of literary, historical, and philosophical works. Authors include Homer, Herodotus, Thucydides, the Greek Tragedians, Plato, Vergil, and Cicero.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 1500 [0.5 credit]

Introduction to the Humanities: Five Books that Changed the World

A reading-intensive course on five influential books from Antiquity to the present day. Works may include the Bible, the Bhagavad Gita, Homer's Odyssey, Plato's Republic, Dante's Inferno, Machiavelli's The Prince, Shakespeare's Hamlet, Mary Shelley's Frankenstein, Nietzsche's Beyond Good and Evil, Marx's Communist Manifesto.

Prerequisite(s): enrolment in a degree program in the Faculty of Arts and Social Sciences, or the Faculty of Public Affairs. Students enrolled in the BHum. program are not eligible to register in this course.

Lecture three hours per week.

HUMS 2000 [1.0 credit]

Reason and Revelation

The origins of philosophy in ancient Greece and its pursuit in the medieval West, with special attention to knowledge, happiness, and love. Readings include works by Plato, Aristotle, Plotinus, Augustine, Boethius, Aquinas, and Dante.

Prerequisite(s): HUMS 1000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 2101 [0.5 credit]

Art from Antiquity to the Medieval World

A chronological and thematic survey of the Arts from the earliest times to ca. 1400.

Precludes additional credit for HUMS 4101 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 2102 [0.5 credit]

Modern European Art 1527-2000

A chronological and thematic survey of the Arts from the sixteenth to the twenty-first century.

Precludes additional credit for HUMS 4101 (no longer offered) and HUMS 3101 (no longer offered).

Prerequisite(s): HUMS 2101 and restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 3000 [1.0 credit]

Culture and Imagination

Major forms of literary, artistic, and philosophical expression from 1500-1800. Sources drawn from renaissance humanism, reformation theology, enlightenment and romantic philosophy.

Prerequisite(s): HUMS 2000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 3102 [0.5 credit]**Western Music 1000-1850**

Introduction to basic theory, harmony, history and interpretation of Western music including the Medieval, Renaissance, Baroque, Classical and early Romantic periods.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4102 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 3103 [0.5 credit]**Western Music 1850-2000**

Western music from the mid-nineteenth century to the present with emphasis on the seminal contributions of Liszt, Wagner, Mahler, Debussy, Stravinsky, Schönberg and others.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4102 (no longer offered).

Prerequisite(s): HUMS 3102 and restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 3200 [1.0 credit]**European Literature**

Major movements and works from Dante's Divine Comedy through Voltaire's Candide. Themes include the New Humanism vs. old Chivalry in the Renaissance and Baroque periods; the rise of the modern novel and drama; reason, nature, and the Enlightenment project.

Also listed as ENGL 3201.

Prerequisite(s): HUMS 2000 and third-year standing in the Bachelor of Humanities program. English students should have third-year standing with a GPA of B or above.

Lectures three hours a week.

HUMS 3500 [0.5 credit]**Ancient and Medieval Intellectual History**

Examination of some of the major philosophical, religious, political, artistic, and/or literary ideas, works, and movements from Archaic Greece to the High Middle Ages.

Prerequisite(s): third-year standing in the Bachelor of Humanities program, or permission of the instructor.

Lectures three hours a week.

HUMS 3550 [0.5 credit]**Renaissance and Early Modern Intellectual History**

Examination of some of the major philosophical, religious, political, artistic, and/or literary ideas, works, and movements from the Early Renaissance to 1800.

Prerequisite(s): third-year standing in the Bachelor of Humanities program, or permission of the instructor.

Lectures three hours a week.

HUMS 4000 [1.0 credit]**Politics, Modernity and the Common Good**

Modern and post-modern ways of thinking and doing, including revolutionary new ideas in politics, philosophy, culture, economics, and international relations. Thinkers considered include Arendt, Foucault, Hegel, Heidegger, Hobbes, Kant, Marx, Nietzsche, Polanyi, Rousseau, Said, and Taylor.

Includes: Experiential Learning Activity

Prerequisite(s): HUMS3000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 4001 [0.5 credit]**Directed Studies in the Humanities**

A course for independent study and writing, under the supervision of a College designated faculty member. This course involves supervised readings and written essays.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

HUMS 4002 [0.5 credit]**Directed Studies in the Humanities**

A course for independent study and writing, under the supervision of a College designated faculty member. This course involves supervised readings and written essays.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program and Good Standing in the program.

HUMS 4103 [0.5 credit]**Science in the Modern World**

An introduction to the major scientific ideas of our time (such as Big Bang theory, molecular genetics, evolution, atomic structure), and the impact of technology on society (e.g. global warming, pollution, genetically modified foods, viral infections).

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4100 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 4500 [0.5 credit]**Modern Intellectual History**

Examination of some of the major ideas and ideologies from 1800 to the present, including romanticism, liberalism, nationalism, symbolism, socialism, Freudianism, communism, feminism, and postmodernism.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4104.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 4901 [0.5 credit]**Research Seminar: Antiquity to the Middle Ages**

An interdisciplinary seminar on a selected topic in the humanities from Antiquity to the Middle Ages. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4902 [0.5 credit]**Research Seminar: Renaissance to Enlightenment**

An interdisciplinary seminar on a selected topic in the humanities from the Renaissance to the Enlightenment. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4903 [0.5 credit]**Research Seminar: Romanticism to the Present**

An interdisciplinary seminar on a selected topic in the humanities from Romanticism to the present. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4904 [0.5 credit]**Research Seminar: Non-Western Traditions**

An interdisciplinary seminar on a selected topic in the humanities as expressed in aboriginal and Non-Western cultures. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

Journalism (JOUR) Courses**JOUR 1001 [0.5 credit]****Foundations: Journalism in Context**

This course charts a history of the fourth estate in the West from the invention of the printing press to the ascendance of networked digital communication, focusing on the political, economic and technological contexts that have shaped the news media as institutions and industries.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 1000.

Prerequisite(s): for Journalism Honours students only.

Lectures and discussion three hours a week.

JOUR 1002 [0.5 credit]**Foundations: Practicing Journalism in a Diverse Society**

The course introduces students to the concepts, issues and challenges in the contemporary Canadian media environment that will shape their professional role as practicing journalists. It will also provide students with an initial opportunity to practice some basic journalistic skills.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 1000.

Prerequisite(s): for Journalism Honours students only.

Lectures and discussion three hours a week.

JOUR 1003 [0.5 credit]**Discovering Journalism: Traditional Tales to Tweets**

Journalism's evolution as community creator and guardian of democracy; its greatest scoops and worst misdeeds. From ancient news-sharing to 21st-century expression in blogs, tweets and investigative masterpieces, this course surveys ethical, political and economic contexts of journalism. Not open to Journalism majors.

Lecture three hours a week.

JOUR 2003 [0.5 credit]**Delivering Journalism: Innovators v. Imposters**

Activists, imposters and innovators increasingly crowd in on traditional journalism's role of presenting reliable news and fair discussion. How is public awareness now shaped – and misshaped – and how must journalism reshape, update and defend its borders to serve communities better?

Prerequisite(s): JOUR 1001, JOUR 1002, JOUR 1003, or permission of the School of Journalism and Communication.

Lecture and discussion three hours a week.

JOUR 2106 [0.5 credit]**The Documentary**

Examination of the work of individual film makers, of documentary styles and of organizations and institutions in the context of the history of documentary film making, including documentaries made for television. Non-fiction films other than documentaries may be considered. Also listed as FILM 2106.

Precludes additional credit for JOUR 2105, FILM 2105.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

JOUR 2201 [1.0 credit]**Fundamentals of Reporting**

Introduction to the techniques journalists use to gather information quickly, accurately and ethically, and to present reports and features in clear, engaging ways. Newsroom exercises provide experience in reporting, writing, editing and using digital tools, including photography and social media.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 1001 and JOUR 1002 and second year standing in the Bachelor of Journalism program.

Lectures, discussion and practicum six hours a week.

JOUR 2202 [0.5 credit]**Digital Journalism Toolkit**

An introduction to the digital tools and social media journalists use to gather, verify and present material to audiences. Lab exercises provide experience producing photographs, audio, and video for journalistic storytelling and the use of social media tools and platforms for reporting and publishing.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 1001 and JOUR 1002 and second year standing in the Bachelor of Journalism program.

Students must be enrolled in this course concurrently with JOUR 2201.

Lectures and lab three hours a week.

JOUR 2501 [0.5 credit]**Media Law**

A survey of laws that affect the Canadian media. Specific areas include the development of freedom of expression, the Charter of Rights and Freedoms, and statutory and common law limitations on freedoms of the press, including publication bans, libel and contempt of court. Also listed as COMS 2501, MPAD 2501.

Precludes additional credit for COMM 2501 (no longer offered).

Prerequisite(s): JOUR 1001, JOUR 1002, COMS 1001, COMS 1002, or JOUR 1003 and enrollment in the Minor in News Media and Information, or enrollment in the Communication and Policy Studies specialization of the Bachelor of Public Affairs and Policy Management, or permission of the School of Journalism and Communication.

Lectures and discussion three hours a week.

JOUR 3105 [0.5 credit]**Questions of Documentary Practice**

Theoretical implications of documentary film and documentary television practice.

Also listed as FILM 3105.

Prerequisite(s): 1.0 credit in Film Studies at the 2000-level, or permission of the School.

JOUR 3207 [0.5 credit]**Audio Journalism**

In this workshop students will build on the principles and practices of audio journalism to produce stories and audio in various formats suitable for radio and digital publication. Note: JOUR 3207 and JOUR 3208 may not be taken in the same term.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs six hours a week.

JOUR 3208 [0.5 credit]**Video Journalism**

In this workshop students will build on the principles and practices of video journalism to produce stories and video in various formats suitable for television and digital publication. Note: JOUR 3207 and JOUR 3208 may not be taken in the same term.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs six hours a week.

JOUR 3225 [0.5 credit]**Reporting in Depth**

Long-form journalistic writing skills development; techniques for thorough investigation of timely public issues. Study of outstanding feature and investigative writing examples. Students will pursue their own reporting projects.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 3205 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and practicum three hours a week.

JOUR 3235 [0.5 credit]**Digital Journalism**

Further development of digital journalism skills. Students will produce journalism for online audiences using formats including written and spoken language, still and moving images.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 3205 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs three hours a week.

JOUR 3300 [0.5 credit]**Media Ethics in a Digital World**

Ethical issues related to production and dissemination of news and other forms of content as they relate to digital environments. Different approaches to ethical decision-making and their application in contemporary settings. Also listed as MPAD 3300.

Precludes additional credit for JOUR 3215 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202 and JOUR 2501 with a grade of C or higher in each, or JOUR 1003, JOUR 2003 and JOUR 2501 with a grade of C or higher in each and enrollment in the Minor in News Media and Information.

Lectures three hours a week.

JOUR 3400 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3401 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3402 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3407 [0.5 credit]**Comparative Media Studies**

The comparative study of one or more media organizations and/or types of media content with reference to their operation, audiences, and impacts.

Also listed as COMS 3407.

Precludes additional credit for COMM 3407 (no longer offered).

Prerequisite(s): third-year standing in B.J. Hons. or permission of the School of Journalism and Communication.

Lectures three hours a week.

JOUR 4001 [0.5 credit]**Journalism Now - and Next**

Changes occurring in the media, in the public's relationship with the media and how journalists and news organizations respond. Practical issues and challenges in the professional life of a journalist.

Also listed as MPAD 4001.

Precludes additional credit for JOUR 4000 (no longer offered).

Prerequisite(s): fourth-year standing in the Bachelor of Journalism or in the Bachelor of Media Production and Design, or fourth-year standing and enrollment in the Minor in News Media and Information, or fourth-year standing in the Strategic Public Opinion stream of the Communication and Policy Studies specialization of the Bachelor of Public Affairs and Policy Management.

Lectures and discussion three hours a week.

JOUR 4003 [0.5 credit]**The Digital Hub: Advanced Multimedia**

A workshop designed to give students instruction in digital reporting and publishing as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3235 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5003, for which additional credit is precluded.

Workshops averaging eight hours a week.

JOUR 4004 [0.5 credit]**The Digital Hub: Advanced Audio**

A workshop designed to give students instruction in audio journalism as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4206 (no longer offered).

Prerequisite(s): JOUR 3207 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5004, for which additional credit is precluded.

Workshops averaging eight hours per week.

JOUR 4005 [0.5 credit]**The Digital Hub: Advanced Video**

A workshop designed to give students instruction in video journalism as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4207 (no longer offered).

Prerequisite(s): JOUR 3208 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5005, for which additional credit is precluded.

Workshops averaging eight hours a week.

JOUR 4100 [0.5 credit]**Special Topic**

Examination of a topic in journalism not covered in depth in other courses. Seminar three hours a week.

Seminar three hours a week.

JOUR 4101 [0.5 credit]**Special Topic**

An examination of a topic in journalism not covered in depth in other courses. Topics may vary from year to year. Seminar three hours a week.

JOUR 4300 [0.5 credit]**Specialized Journalism: Special Topic**

Examination of a topic not covered in depth in other specialized journalism courses. Topics may vary from year to year. Emphasis on explanatory/analytical reporting, culminating in an extended work of journalism.

Also listed as MPAD 4300.

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5300, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4301 [0.5 credit]**Specialized Journalism: Business and the Markets**

Core skills development for business journalism: reading financial documents, covering activities of corporations, functioning of stock and other markets, trade policy and the broader economy, focus on contemporary business news and local publicly-traded companies. Emphasis on explanatory/analytical reporting, production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5301, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4302 [0.5 credit]**Specialized Journalism: Business and Canadian Society**

The intersection between business and public policy, from climate change to taxation, pensions, labour and corporate social responsibility. What business does and how the media covers it. Emphasis on explanatory/analytical reporting, production of a related data project as an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5302, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4303 [0.5 credit]**Specialized Journalism: Health and Science**

The culture of health science research and major trends; key challenges confronting researchers and health science journalists around the world. Emphasis on explanatory/analytical reporting, production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5303, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4304 [0.5 credit]**Specialized Journalism: Environment and Science**

Major trends and research culture in climate and environmental sciences, focusing on key global concerns. Issues facing researchers and journalists. Focus on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5304, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4305 [0.5 credit]**Specialized Journalism: Canada and the U.S.**

Exploration of the unique issues in Canada-U.S. relations, from diplomacy to trade. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5315, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4306 [0.5 credit]**Specialized Journalism: Canada and the World**

Diplomacy, war, terrorism, migration, the international economy, development and other issues of interest to journalists who want to write about Canada and international affairs. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5306, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4308 [0.5 credit]**Specialized Journalism: Sports and Sport Culture**

Workshop equipping students with the skills to move beyond the clichés of sports writing and live event coverage. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5308, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4309 [0.5 credit]**Specialized Journalism: Arts and Culture**

Students are introduced to arts and culture journalism, exploring issues and trends that are key to understanding and covering the arts and related cultural policy in Canada. Emphasis on explanatory/analytical reporting, culminating in an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5309, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4310 [0.5 credit]**Specialized Journalism: Justice and the Law**

Areas of law that journalists may encounter along with a practical explanation of how law works. Students gain the language and tools needed to successfully analyze and write about legal issues. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5310, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4311 [0.5 credit]**Specialized Journalism: Justice and The Supreme Court**

Examination of the Supreme Court of Canada, and the role of journalists in covering it. Students attend hearings and gain insight into the court's role in the making and shaping of Canada. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5311, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4400 [0.5 credit]**Professional Skills: Special Topic**

Examination of a topic in journalism not covered in depth in other courses.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in B.J. Honours or permission of the School.

Seminar three hours a week.

JOUR 4401 [0.5 credit]**Professional Skills: Data Storytelling**

Instruction in telling stories from data. Focus on searching for, analyzing and mapping data, turning numbers into powerful narratives.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4402 [0.5 credit]**Professional Skills: Longform Writing**

Instruction in longform story production. Focus on researching and writing, including the art and craft of writing for magazines.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4403 [0.5 credit]**Professional Skills: Strategic Communication**

Workshop pairing student teams with non-profit groups that are in need of strategic communication advice.

Instruction in planning and implementation.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Also offered at the graduate level, with different requirements, as JOUR 5508, for which additional credit is precluded.

Lecture and practicum three hours a week.

JOUR 4404 [0.5 credit]**Professional Skills: Freelancing for Media Professionals**

Workshop preparing students to compete in a market that values the skills and mindset of entrepreneurial media workers.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4500 [0.5 credit]**Investigating Journalism: Special Topic**

Examination of a topic in journalism not covered in depth in other courses.

Also listed as MPAD 4500.

Prerequisite(s): third- or fourth-year standing in B.J. Honours or permission of the School.

Seminar three hours a week.

JOUR 4501 [0.5 credit]**Investigating Journalism: Gender, Identity and Inequality**

How social concepts of gender, identity and inequality influence journalism. Theoretical and textual analysis. Historical and contemporary case studies from mainstream and alternative media exploring journalistic expression, professional practices, status and expectations, and cultural representations.

Includes: Experiential Learning Activity

Also listed as MPAD 4501.

Precludes additional credit for JOUR 4307 (no longer offered).

Prerequisite(s): third- or fourth-year standing in B.J. Hons. or permission of the School.

Seminar three hours a week.

JOUR 4502 [0.5 credit]**Investigating Journalism: Journalism and Conflict**

For as long as there has been conflict between peoples, there have been those who bear witness and recount their observations. This course examines journalism and conflict with an emphasis on journalistic perspectives but also through discussion of interdisciplinary literature and academic research.

Includes: Experiential Learning Activity

Also listed as MPAD 4502.

Prerequisite(s): fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4503 [0.5 credit]**Investigating Journalism: Journalism, Indigenous Peoples and Canada**

Students will explore how journalism in Canada has been associated with colonialism, be challenged to confront misrepresentation in the news media, and learn to consider new strategies and ethical frameworks for covering Indigenous peoples in the era of reconciliation.

Includes: Experiential Learning Activity

Also listed as MPAD 4503.

Prerequisite(s): third- or fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4504 [0.5 credit]**Investigating Journalism: The Media and International Development**

A critical examination of the use of journalism as an instrument of international development, historically and currently. To what extent have these efforts been successful? On what grounds are they justified? In what regard have they been instruments of propaganda?.

Includes: Experiential Learning Activity

Also listed as MPAD 4504.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 4505 [1.0 credit]

Investigating Journalism: The Power and Politics of Government

In-depth exploration of Canada's government, public policy and politics; parliamentary debate and committee hearings. Explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4201 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4900 [1.0 credit]

Honours Tutorial

Students analyze some major achievements in contemporary journalism, through individual or group research. Students also have the opportunity to acquire background and experience in the managerial aspects and production of print and broadcast journalism.

Prerequisite(s): fourth-year B.J. (Honours) standing.

Korean Language (Minor)

This section presents the requirements for programs in:

- Minor in Korean Language

Minor in Korean Language (4.0 credits)

Open to all undergraduate degree students.

Requirements:

1. 3.0 credits in KORE	3.0
2. 1.0 credit in KORE at the 3000-level or higher	1.0
3. Subject to approval of the School, a maximum of 2.0 credits may be substituted for the above by taking courses at the 2000-level or higher in another discipline relevant to the language.	
4. The remaining requirements of the major discipline(s) and degree must be satisfied	

Total Credits	4.0
----------------------	------------

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

Regulations

In addition to the requirements listed here, students must satisfy:

1. the University regulations including the process of Academic Performance Evaluation (see the Academic Regulations of the University section of this Calendar).

Korean (KORE) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). KORE 1010 [0.5 credit]

First-Year Korean I

For students with no knowledge of Korean. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for LANG 1010, when the language of instruction was Korean.

Four hours a week.

KORE 1020 [0.5 credit]

First-Year Korean II

Continuation of first-year Korean. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for LANG 1020, when the language of instruction was Korean.

Prerequisite(s): grade of C or higher in KORE 1010, or in LANG 1010 (when the language of instruction was Korean), or permission of the School.

Four hours a week.

KORE 2010 [0.5 credit]

Second-Year Korean I

Further study of Korean to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for LANG 2010, when the language of instruction was Korean.

Prerequisite(s): grade of C or higher in KORE 1020, or in LANG 1020 (when the language of instruction was Korean), or permission of the School.

Four hours a week.

KORE 2020 [0.5 credit]
Second-Year Korean II

Continuation of second-year Korean. Further study of Korean to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for LANG 2020, when the language of instruction was Korean.

Prerequisite(s): grade of C or higher in KORE 2010, or in LANG 2010 (when the language of instruction was Korean), or permission of the School.

Four hours a week.

KORE 3010 [0.5 credit]
Third-Year Korean I

Continuation of the study of Korean to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Precludes additional credit for LING 3009 (when the language of instruction was Korean).

Prerequisite(s): grade of C or higher in KORE 2020 or LANG 2020 (if taken in winter 2017), or permission of the School.

Seminar three hours a week.

KORE 3020 [0.5 credit]
Third-Year Korean II

Continuation of third-year Korean. Progress toward a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Precludes additional credit for LING 3009 (when the language of instruction was Korean).

Prerequisite(s): grade of C or higher in KORE 3010, or permission of the School.

Seminar three hours a week.

KORE 4010 [0.5 credit]
Fourth-Year Korean I

Development of speaking and writing abilities more complex than those used in daily communication.

Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in KORE 3020, or permission of the School.

Seminar three hours a week.

KORE 4020 [0.5 credit]
Fourth-Year Korean II

Continuation of Fourth-Year Korean. Further development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Prerequisite(s): grade of C or higher in KORE 4010, or permission of the School.

Seminar three hours a week.

Latin American and Caribbean Studies

This section presents the requirements for programs in:

- Specialization in Latin American and Caribbean Studies B.G.In.S. Honours
- Stream in Latin American and Caribbean Studies B.G.In.S.
- Minor in Latin American and Caribbean Studies

Program Requirements

Bachelor of Global and International Studies (B.G.In.S.)

Note: Details regarding graduation requirements, the international experience requirement, and the language requirement for the B.G.In.S. degree can be found at the B.G.In.S. program page.

Specialization in Latin American and Caribbean Studies

B.G.In.S. Honours (20.0 credits)

A. Credits Included in Major CGPA (12.0 credits)

1. 4.5 credits in: Core Courses 4.5

Regulations

In addition to the program requirements described here, students must satisfy:

1. the University regulations including the process of Academic Performance Evaluation (see the Academic Regulations of the University section of this Calendar).
2. For B.G.In.S. students the regulations pertaining to the B.G.In.S. degree (see the Global and International Studies section of this Calendar).

Latin American and Caribbean Studies (LACS) Courses

LACS 1001 [0.5 credit]

Introduction to Latin American and Caribbean Studies I

An introduction to the history, culture, societies, and literatures of the region. Students will get a broad overview of the region and will be introduced to the disciplines used to study these societies.

Lectures three hours per week.

LACS 1002 [0.5 credit]

Introduction to Latin American and Caribbean Studies II

An interdisciplinary introduction to the major political, economic, environmental, and geographical issues confronting the region.

Lectures three hours per week.

LACS 4001 [0.5 credit]

Issues in Latin American and Caribbean Studies

An examination of the major issues confronting Latin America and the Caribbean including democratization, economic integration, indigenous and women's movements, human rights, social justice, and political change.

Prerequisite(s): fourth-year standing or permission from Latin American and Caribbean Studies.

Seminar three hours per week.

LACS 4819 [0.5 credit]

Latin America and the World

Latin America's changing relations with states, international institutions and non-state actors in the Global North and South. Topics may include security, South-South cooperation, trade, investment and transnational migration and drug trafficking.

Also listed as PSCI 4819.

Prerequisite(s): fourth-year standing or permission from Latin American and Caribbean Studies.

Seminar three hours a week.

Law

This section presents the requirements for programs in:

- Law B.A. Honours
- Law B.A. Combined Honours
- Law and Human Rights B.A. Combined Honours
- Law with Concentration in Law, Policy and Government B.A. Honours
- Law with Concentration in Law, Policy and Government B.A. Combined Honours
- Law with Concentration in Business Law B.A. Honours
- Law with Concentration in Business Law B.A. Combined Honours
- Law with Concentration in Transnational Law and Human Rights B.A. Honours
- Law with Concentration in Transnational Law and Human Rights B.A. Combined Honours
- Law B.A.
- Specialization in Global Law and Social Justice B.G.In.S. Honours
- Stream in Global Law and Social Justice B.G.In.S.
- Minor in Law
- Mention : français : Law

Program Requirements

Law

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (9.0 credits)

1. 1.0 credit in:		1.0
LAWS 1001 [0.5]	Introduction to Legal Studies 1	
LAWS 1002 [0.5]	Introduction to Legal Studies 2	
2. 0.5 credit from:		0.5
LAWS 2201 [0.5]	Persons and Property	
LAWS 2202 [0.5]	Obligations	
3. 0.5 credit from:		0.5
LAWS 2301 [0.5]	Criminal Justice System	
LAWS 2302 [0.5]	Criminal Law	
4. 0.5 credit from:		0.5
LAWS 2105 [0.5]	Social Justice and Human Rights	
LAWS 2501 [0.5]	Law, State and Constitution	
LAWS 2502 [0.5]	Law, State and Citizen	
LAWS 2601 [0.5]	Public International Law	
5. 0.5 credit from	Items 2-4 not already used to fulfil those items.	0.5
6. 1.0 credit in:		1.0
LAWS 2908 [0.5]	Methodological Approaches in Legal Studies 1	
LAWS 3908 [0.5]	Methodological Approaches in Legal Studies 2	
7. 3.0 credits in LAWS	at the 4000-level or above or in IPAF 4900 (with permission of the department).	3.0
8. 2.0 credits in LAWS		2.0
B. Credits Not Included in the Major CGPA (11.0 credits)		
9. 8.0 credits in	electives not in LAWS	8.0
10. 3.0 credits in	free electives.	3.0
Total Credits		20.0

Notes:

1. Students with a Major in Law are encouraged, but not required, to consider completing a Minor in another discipline in order to broaden their exposure to that discipline.

Law

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Law Major CGPA (6.5 credits)

1. 1.0 credit in:		1.0
LAWS 1001 [0.5]	Introduction to Legal Studies 1	
LAWS 1002 [0.5]	Introduction to Legal Studies 2	
2. 0.5 credit from:		0.5
LAWS 2201 [0.5]	Persons and Property	
LAWS 2202 [0.5]	Obligations	
3. 0.5 credit from:		0.5
LAWS 2301 [0.5]	Criminal Justice System	
LAWS 2302 [0.5]	Criminal Law	
4. 0.5 credit from:		0.5
LAWS 2105 [0.5]	Social Justice and Human Rights	
LAWS 2501 [0.5]	Law, State and Constitution	
LAWS 2502 [0.5]	Law, State and Citizen	
LAWS 2601 [0.5]	Public International Law	

5. 0.5 credit from Items 2-4 not already used to fulfil those items.	0.5
6. 1.0 credit in:	1.0
LAWS 2908 [0.5] Methodological Approaches in Legal Studies 1	
LAWS 3908 [0.5] Methodological Approaches in Legal Studies 2	
7. 0.5 credit in LAWS at the 3000 level or above	0.5
8. 2.0 credits in LAWS at the 4000 level or above	2.0
B. Additional Requirements (13.5 credits)	13.5
9. The requirements from the other discipline must be satisfied	
10. Sufficient free electives to make up 20.0 credits total for the program.	
Total Credits	20.0

Law and Human Rights

B.A. Combined Honours (20.0 credits)

Students may complete a B.A.(Honours) in Law and Human Rights. Students must complete the Law - B.A. Combined Honours requirements stated above. The Human Rights requirements are offered jointly by the Departments of Law, Philosophy, Political Science and Sociology: please consult the Human Rights program entry for details concerning the Human Rights component of the program.

Law with Concentration in Law, Policy and Government

B.A. Honours (20.0 credits)

Continuation in this concentration requires a minimum CGPA of 6.50 over credits in the concentration. The courses defining the Concentration in Law, Policy and Government are those in **Items 2, 7, 8, 9** below.

A. Credits Included in the Major CGPA (10.5 credits)

1. 1.0 credit in:	1.0
LAWS 1001 [0.5] Introduction to Legal Studies 1	
LAWS 1002 [0.5] Introduction to Legal Studies 2	
2. 1.0 credit in:	1.0
LAWS 2501 [0.5] Law, State and Constitution	
LAWS 2502 [0.5] Law, State and Citizen	
3. 0.5 credits from:	0.5
LAWS 2201 [0.5] Persons and Property	
LAWS 2202 [0.5] Obligations	
4. 0.5 credit from:	0.5
LAWS 2301 [0.5] Criminal Justice System	
LAWS 2302 [0.5] Criminal Law	
5. 0.5 credit from:	0.5
LAWS 2105 [0.5] Social Justice and Human Rights	
LAWS 2601 [0.5] Public International Law (or 0.5 credit from Items 3-4 not already used to fulfil those items)	
6. 1.0 credit in:	1.0
LAWS 2908 [0.5] Methodological Approaches in Legal Studies 1	
LAWS 3908 [0.5] Methodological Approaches in Legal Studies 2	
7. 1.5 credits in:	1.5
LAWS 3005 [0.5] Law and Regulation	

LAWS 3506 [0.5] Administrative Law	
LAWS 4801 [0.5] Risk and the Legal Process	
8. 2.0 credits from:	2.0
LAWS 3106 [0.5] Law and Social Regulation	
LAWS 3405 [0.5] Labour Law	
LAWS 3500 [0.5] Constitutional Law	
LAWS 3502 [0.5] Regulating Freedom of Expression in Canada	
LAWS 3503 [0.5] Equality and Discrimination	
LAWS 3504 [0.5] Law and Aboriginal Peoples	
LAWS 3509 [0.5] The Charter of Rights Topics	
LAWS 3800 [0.5] Law of Environmental Quality	
9. 1.5 credits from:	1.5
LAWS 4006 [0.5] Religion and State in Canada	
LAWS 4101 [0.5] Contemporary Justice Theories	
LAWS 4102 [0.5] Controversies in Rights Theory	
LAWS 4507 [0.5] Administrative Law and Control	
LAWS 4510 [0.5] Topics in Law, Policy and Government	
LAWS 4603 [0.5] Transitional Justice	
LAWS 4607 [0.5] Immigration and Refugee Law	
LAWS 4800 [0.5] Environment and Social Justice

LAWS 2601 [0.5]	Public International Law	
3. 1.0 credit in LAWS at the 3000-level or higher		1.0
4. The remaining requirements of the major discipline(s) and degree must be satisfied.		
Total Credits		4.0

Mention : français : Law (4.0 credits)

Students wishing to qualify for the *Mention : français* notation in Law may do so by taking the following pattern of courses in their degree program:

Mention : Français Law

1. 1.0 credit in the advanced study of the French language:		1.0
FREN 2100 [1.0]	French 4	
2. 1.0 credit in French-Canadian culture and heritage:		1.0
FREN 2202 [0.5]	Introduction aux études littéraires 1	
FREN 2203 [0.5]	Introduction aux études littéraires 2	
FREN 2401 [1.0]	Introduction à la linguistique française	
3. 1.0 credit at the 2000 or 3000 level in law or legal studies taught in French at the university level, and approved by the Undergraduate Supervisor		1.0
4. In addition, for B.A. (Honours) Law, Combined B.A. (Honours) Law, or B.G.In.S. (Honours) with a Specialization in Global Law and Social Justice, 1.0 credit at the 4000 level in law or legal studies taught in French at the university level, and approved by the Undergraduate Supervisor		1.0
Total Credits		4.0

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political

Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAPM, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in *Good Standing*.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two

terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a

student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to

accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.A. Honours Law (Concentration in Business Law, or Law, Policy and Government): Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered as a full-time student in the Bachelor of Arts Honours - Law (Business law Concentration or Laws, Policy and Government Concentration) program;
2. Obtained an overall CGPA of 8.00 if applying to do their first work term in the summer following the second year of study;
3. Obtained and maintained an overall CGPA of 6.5 and a major CGPA of 8.0, for the purposes of entry to any work term following completion of the third year of study;
4. Completed 3.5 credits in law, including LAWS 2908, prior to their first work term. It is strongly recommended that students complete all first and second year law requirements prior to entering their first work term.

Students in B.A. Honours Law (Concentration in Business Law, or Law, Policy and Government) must successfully complete three (3) work terms to obtain the Co-op designation.

Co-operative Work Term Course: LAWS 3999

Summer		Summer	W	Summer	W	Summer	W		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for

admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section “English Language Requirements” in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Direct Admission to the First Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European, Russian, and Eurasian Studies, French, Geography, Geography with a Concentration in Physical Geography, Geomatics, History, Law (Business Law), Law (Law, Policy and Government), Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;

2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Law (LAWS) Courses

Note: some graduate courses may also be open to interested fourth-year students with permission of the Department.

LAWS 1001 [0.5 credit]

Introduction to Legal Studies 1

Introduction to legal studies: concepts, sources, nature and functions of law; historical, cultural and constitutional foundations of Canadian legal system; common and civil law traditions; statutory interpretation; precedent; legal institutions; frameworks for analyzing formal and informal conceptions of law and its role in society.

Precludes additional credit for LAWS 1000 (no longer offered).

Lectures and discussion three hours a week.

LAWS 1002 [0.5 credit]

Introduction to Legal Studies 2

Introduction to legal rules and theoretical approaches for critically understanding the creation, interpretation and enforcement of those rules; the role of judges, juries, lawyers, and lay persons; adjudication and alternative dispute resolution; relationship of law with social change and justice; challenges of access to justice.

Precludes additional credit for LAWS 1000 (no longer offered).

Lectures and discussion three hours a week.

LAWS 2105 [0.5 credit]

Social Justice and Human Rights

Theories and practices of law and social justice. Issues examined may include: civil democracy and repression; global governance and the rule of law; democratic movements and social power; human rights instruments, regimes and remedies; armed conflict; and humanitarian intervention.

Prerequisite(s): 1.0 credit from LAWS 1001, LAWS 1002, PSCI 1100, PSCI 1200 or HUMR 1001 [1.0] or PAMP 1000 [1.0].

Lectures three hours a week.

LAWS 2201 [0.5 credit]

Persons and Property

Origins and scope of the concept of person in law and how concepts of legal personality change over time. Origins and scope of the concept of property and how concepts of property change over time.

Precludes additional credit for LAWS 2003 (no longer offered).

Prerequisite(s): LAWS 1001 and LAWS 1002.

Lectures three hours a week.

LAWS 2202 [0.5 credit]

Obligations

The concepts employed by the law for creating and enforcing legal obligations between persons within society, including contract, tort, fiduciary obligation and restitution. Consideration is given to the role of persons and the role of the state in ordering private legal obligations.

Precludes additional credit for LAWS 2003 (no longer offered).

Prerequisite(s): LAWS 1001 and LAWS 1002.

Lectures three hours a week.

LAWS 2301 [0.5 credit]

Criminal Justice System

The institutional and social production of criminal law in Canada. Processes, personnel, and agencies in the criminal legal system. The role of discretion and mechanisms of accountability. The accused and the place of the victim. Issues and problems in sentencing and punishment.

Precludes additional credit for LAWS 2004 (no longer offered).

Prerequisite(s): LAWS 1001 and LAWS 1002.

Lectures three hours a week.

LAWS 2302 [0.5 credit]

Criminal Law

The legal and social dimensions of criminal liability and responsibility in Canada, including issues and problems surrounding mens rea, actus reus, and the attachment of liability. Excuses and justifications, the Canadian Criminal Code and the role of the Charter in the criminal legal system.

Precludes additional credit for LAWS 2004 (no longer offered).

Prerequisite(s): LAWS 1001 and LAWS 1002.

Lectures three hours a week.

LAWS 2501 [0.5 credit]

Law, State and Constitution

Law relating to the state, society and the constitution, with a focus on the historical framework, federalism, and constitutional reform in Canada.

Precludes additional credit for LAWS 2005 (no longer offered).

Prerequisite(s): 1.0 credit from LAWS 1001, LAWS 1002, PSCI 1100, PSCI 1200, or PAMP 1000 [1.0].

Lectures three hours a week.

LAWS 2502 [0.5 credit]**Law, State and Citizen**

Law relating to the state and its relationship to individuals and groups in society, with a focus on the administrative process, basic values and the Charter.

Precludes additional credit for LAWS 2005 (no longer offered).

Prerequisite(s): 1.0 credit from LAWS 1001, LAWS 1002, PSCI 1100, PSCI 1200, or PAPM 1000 [1.0].

Lectures three hours a week.

LAWS 2601 [0.5 credit]**Public International Law**

Examination of the role of law in contemporary international relations. Nature, history and sources of international law; international personality of states; status of international organizations and individuals; creation and effect of international obligations; importance and functions of law in the settlement of international disputes. Precludes additional credit for LAWS 3603 (no longer offered).

Prerequisite(s): 1.0 credit from LAWS 1001, LAWS 1002, PSCI 1100, PSCI 1200, or PAPM 1000 [1.0].

Lectures three hours a week.

LAWS 2908 [0.5 credit]**Methodological Approaches in Legal Studies 1**

Introduction to the legal research process and analysis of legal methodology; finding and analyzing primary and secondary legal sources. Students are strongly encouraged to take this course in the second year of their program.

Includes: Experiential Learning Activity

Prerequisite(s): LAWS 1001 and LAWS 1002 or LAWS 1000 (no longer offered).

Lectures and tutorials three hours a week.

LAWS 3001 [0.5 credit]**Women and the Legal Process**

How the legal process has affected the status of women. Areas of concentration within the Canadian context include the criminal law, citizenship and immigration, education, employment, and welfare and social services.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3003 [0.5 credit]**Contracts**

The enforcement of promises and agreements; basic doctrines and underlying principles of the law of contract are studied from formation of the contract to remedies for breach of contract; role of contract for economic and social purposes is also considered.

Prerequisite(s): LAWS 2202 and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3005 [0.5 credit]**Law and Regulation**

Definitions and goals of regulation; contemporary theories and debates about legal and non-legal approaches to regulation. Approaches studied may include market mechanisms, public agency regulation, self-regulation and governance in co-operation with associations in civil society.

Prerequisite(s): 1.0 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502.

Lectures three hours a week.

LAWS 3006 [0.5 credit]**Mediation**

Theory and practice of mediation; historical roots and influences; contrasts with formal litigation and other dispute resolution processes; issues of social and legal control; critiques, including feminist, Marxist and critical race theory; issues of power, gender, race and class; application to contemporary issues and disputes.

Prerequisite(s): (LAWS 1001 and LAWS 1002) and (1.0 credit in LAWS at the 2000 level or 0.5 credit in LAWS at the 2000 level and BUSI 2601).

Lectures three hours a week.

LAWS 3101 [0.5 credit]**Philosophy of Law: The Nature of Law**

The concept of law, leading theories of law and related concepts such as rules and obligations, power and authority, coercion, and justice.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3102 [0.5 credit]**Philosophy of Law: The Logic of the Law**

Legal reasoning and analysis of concepts of particular significance to the law, including justice, rights and duties, liability, punishment, ownership and possession.

Also listed as PHIL 3102.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3103 [0.5 credit]**Law, Culture, and the Humanities: A Foundation**

Themes, approaches and debates in the field of law, culture and the humanities. Primary materials considered may include theoretical writings/cultural criticism/literary texts/films/video/photography and music. These texts present different modes and means of inquiring into the assumptions and aspirations that we ascribe to law.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3105 [0.5 credit]**Theory of Law and Politics**

Theories of law and politics; prominent thinkers and schools of thought; influence on legal and political institutions. Topics include law and ethics, justice and equity, positivism and natural law, state absolutism, codifications, and anthropological and historical theories of law and society.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level, or 0.5 credit in LAWS at the 2000 level and PSCI 1100.
Lectures three hours a week.

LAWS 3106 [0.5 credit]**Law and Social Regulation**

A study of sociological theories of law as well as the nature of legal institutions. Impacts of legal regulation on various social institutions and on processes of social debate and conflict.

Also listed as SOCI 3480.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.
Lectures three hours a week.

LAWS 3201 [0.5 credit]**Business Enterprise Frameworks**

Forms of carrying on business activity: proprietorships, partnerships, corporations and Crown entities. The rights and obligations of such business enterprises both internally and in relation with other persons. The relationship between legal form and economic function. The role of state intervention.

Prerequisite(s): LAWS 2201 and LAWS 2202.
Lectures three hours a week.

LAWS 3202 [0.5 credit]**Intellectual Property**

Critical assessment of copyright, patents, trademarks, trade secrets and other forms of intellectual property; regulation and governance of information technology including self-regulation, standard setting, licensing, competition policy and international dimensions.

Prerequisite(s): 1.0 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502.
Lectures three hours a week.

LAWS 3203 [0.5 credit]**The Legal Nature of Property**

An examination of the nature and functions of property as a legal and social institution, with particular reference to theories of property, the scope of property interests, and the relationship between individual property rights and the state.

Prerequisite(s): LAWS 2201 and LAWS 2202.
Lectures three hours a week.

LAWS 3205 [0.5 credit]**Consumer Law**

Need for consumer protection in the provision of goods and services; traditional legal protection by statute and common law; legislative responses to consumer pressures; judicial response in recent Canadian, English and American law; reform of consumer law.

Prerequisite(s): (LAWS 2202 or BUSI 2601) and 0.5 credit in LAWS at the 2000 level.
Lectures three hours a week.

LAWS 3206 [0.5 credit]**Banking Law**

The law relating to banks and banking; the nature of the legal relationship created; legal rights and duties of the parties involved. Consumer and corporate aspects of banking (including computerization and electronic funds transfers); regulations of banking.

Prerequisite(s): (LAWS 2202 or BUSI 2601) and 0.5 credit in LAWS at the 2000 level.
Lectures three hours a week.

LAWS 3207 [0.5 credit]**International Transactions**

Topics may include: the international sale of goods, finance of transnational transactions, international carriage of goods, insurance, agency and trading houses; other forms of trade, e.g., counter-trade, foreign investment; settlement of international disputes by litigation and arbitration.

Prerequisite(s): (LAWS 2202 or BUSI 2601) and 0.5 credit in LAWS at the 2000 level.
Lectures three hours a week.

LAWS 3208 [0.5 credit]**International Trade Regulation**

International regulation of trade and investment through bilateral, regional and multilateral treaties and agreements. Topics may include: WTO, NAFTA, the EU, UNCTAD, intergovernmental commodity agreements, dispute settlement.

Prerequisite(s): (0.5 credit from LAWS 2202, LAWS 2501, LAWS 2601, BUSI 2601) and 0.5 credit in LAWS at the 2000 level.
Lectures three hours a week.

LAWS 3209 [0.5 credit]**Canadian Correctional Policies in Historical Perspective**

History of corrections in Canada in the context of the international evolution of western penal systems, Canadian corrections in the twentieth century and expansion of alternatives to prison after WWII; criminological debates about the theoretical and empirical significance of historical milestones in corrections.

Prerequisite(s): LAWS 2301 and LAWS 2302.
Lectures three hours a week.

LAWS 3303 [0.5 credit]**Torts**

Principles of legal liability for harm caused to the person or property of others; examination of policy rationales justifying and limiting liability; responsiveness to changing social values and conditions. Particular focus on negligence law; may also consider nuisance, intentional torts and other topics.

Prerequisite(s): LAWS 2201 and LAWS 2202.

Lectures three hours a week.

LAWS 3305 [0.5 credit]**Crime and State in History**

The history of the relationship between the criminal law system and society. Changing issues in the criminal law and the nature of institutional responses, covering medieval to early nineteenth-century England and nineteenth to early twentieth-century Canada.

Also listed as HIST 3305.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level, or 0.5 credit in LAWS at the 2000 level and 0.5 credit in HIST at the 2000 level.

Lectures three hours a week.

LAWS 3306 [0.5 credit]**Crime, Law, Process and Politics**

Criminal law process in Canada; structure and use of the process examined for fairness, defects, and possible reform initiatives. Issues concerning gender, race and class bias in the implementation and application of the criminal law.

Prerequisite(s): LAWS 2301 and LAWS 2302.

Lectures three hours a week.

LAWS 3307 [0.5 credit]**Youth and Criminal Law**

A review of the Youth Criminal Justice Act within the framework of the Canadian justice system, with particular emphasis on historical and philosophical developments and objectives. Current topics include: constitutional issues, procedure, confessions, transfers, sentencing options, alternative measures, reviews, and possible amendments.

Prerequisite(s): LAWS 2301 and LAWS 2302.

Lectures three hours a week.

LAWS 3308 [0.5 credit]**Punishment and the Law**

This course explores justifications and practices of punishment and social control from a socio-legal perspective. Rationalizations and justifications for punishment are considered. Different forms of punishment and control within the law will be examined as well as different theoretical perspectives of punishment.

Prerequisite(s): LAWS 2301 and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3401 [0.5 credit]**Employment Law**

Legal regulation of the employment relationship; its contractual basis; defining employment; rights and duties of employees and employers; termination of employment; statutory regulation through employment standards legislation, human rights codes, workers' compensation acts, occupational health and safety and related statutes.

Prerequisite(s): (0.5 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502, BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3405 [0.5 credit]**Labour Law**

Role of law in industrial relations; effect of law on collective bargaining relationships; recognition of bargaining agent; regulation of bargaining; administration of the collective agreement; methods of conflict resolution.

Prerequisite(s): (0.5 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502, BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3500 [0.5 credit]**Constitutional Law**

An investigation of the Canadian constitution. Sovereignty, the nature and units of executive, legislative, and judicial power in Canada as interpreted by the courts. The distribution of powers under the Canadian constitution, including an investigation of contemporary problems of federalism. Problems of judicial review.

Prerequisite(s): (LAWS 2501 or PSCI 2003) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3501 [0.5 credit]**Law in the Information Society**

Legal responses to challenges of the information society. Topics may include privacy, surveillance and monitoring, access to information, freedom of expression, control of objectionable content, Charter and human rights issues, and security.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3502 [0.5 credit]**Regulating Freedom of Expression in Canada**

The claimed relationship between freedom of expression and Canadian democracy, including the historical development of the right and various limits on it, and the regulatory structures governing contemporary media, criminalized and commercial expression, and use of media in the courtroom.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3503 [0.5 credit]**Equality and Discrimination**

Human rights issues and law in Canada; history and present day experiences of discrimination; critical exploration of laws effectiveness in responding to discrimination; meaning(s) of equality and discrimination; focus on Human Rights Codes - interpretation, administration, enforcement with some reference to s.15 of the Charter.

Prerequisite(s): (0.5 credit from LAWS 2105, LAWS 2302, LAWS 2502) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3504 [0.5 credit]**Law and Aboriginal Peoples**

The legal situation of aboriginal peoples in Canada. Topics include status, aboriginal rights, treaties, legislative jurisdiction and the constitutional framework, aboriginal claims, and self-government. Comparative references to aboriginal policy in other countries.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3506 [0.5 credit]**Administrative Law**

Structure and procedure of Canadian administrative authorities; policy, statutory and judicial environments in which they operate. Topics include techniques for implementing public policy and structuring public authorities; statutory interpretation; procedural safeguards; exercise of statutory discretion; reconciling efficiency and fairness.

Prerequisite(s): LAWS 2502 and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3508 [0.5 credit]**Health Law**

Legal/ethical issues in health care regulation. Topics may include: regulation of health professions; economics of health care; informed consent/choice; regulation of drugs, devices and research; medical malpractice and other liability; mental health issues; patient/client records.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3509 [0.5 credit]**The Charter of Rights Topics**

Selected issues in the Canadian Charter of Rights and Freedoms. The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): (0.5 Credit from LAWS 2105, LAWS 2201, LAWS 2302, LAWS 2502) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3602 [0.5 credit]**International Human Rights**

The developing international law relating to the protection of human rights. General concepts, rules and institutions. Specific issues include self-determination, aboriginal rights, the refugee problem, and torture. The inherent problems and overall potential of international law.

Precludes additional credit for LAWS 4604 (no longer offered).

Prerequisite(s): (0.5 credit from LAWS 2105, LAWS 2502, LAWS 2601 or HUMR 2001) and 0.5 credit in LAWS at the 2000 level or PAMP 1000.

Lectures three hours a week.

LAWS 3604 [0.5 credit]**International Organizations**

Nature, character, legal status and jurisdiction of intergovernmental international organizations. Rights and duties of states arising from membership in international organizations. Distinction between international and supra-national institutions. United Nations system, selected subsidiary organs, and specialized agencies; non-governmental organizations at times of crisis.

Prerequisite(s): LAWS 2601 and 0.5 credit in LAWS at the 2000 level or PAMP 1000.

Lectures three hours a week.

LAWS 3800 [0.5 credit]**Law of Environmental Quality**

Various aspects of environmental law; pollution control, legal actions and remedies; legal foundations for participation in decision-making processes. Social, economic and political forces influencing the formulation and implementation of environmental law. Alternative forms of regulation that may articulate different demands.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3804 [0.5 credit]**Law of the Family**

Legal framework surrounding the family and family relationships in Canadian society. Topics include marriage and cohabitation, matrimonial support, custody and access, and dissolution of marriage. State interventions through law; law and change in family structures; equality issues; dispute resolution processes.

Also listed as SOWK 3804.

Prerequisite(s): LAWS 2201 and LAWS 2202.

Lectures three hours a week.

LAWS 3903 [0.5 credit]**Selected Legal Topics**

The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3904 [0.5 credit]**Selected Legal Topics**

The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level and permission of Department.

Lectures three hours a week.

LAWS 3908 [0.5 credit]**Methodological Approaches in Legal Studies 2**

Advanced approaches to interdisciplinary research and analysis in law and legal studies. Methodological approaches considered will vary by section, and may include theoretical, quantitative, qualitative, literary, or historical approaches.

Prerequisite(s): LAWS 2908 and third-year Honours standing. Honours students are strongly encouraged to take this course in the third year of their program.

Lectures three hours a week.

LAWS 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

Prerequisite(s): registration in the B.A. Honours (concentration in Business Law or concentration in Law, Policy and Government) Cooperative Program, completion of Co-op preparation classes offered by the Co-op office and permission of the Department.

LAWS 4001 [0.5 credit]**Law, Family and Gender**

Relationship between family law and ideology of the family, gender roles and the reproduction of family structures. Social ramifications of family law; potential for family law reform as an agency of social change.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3001 or LAWS 3804, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4002 [0.5 credit]**Feminist Theories of Law**

The literature comprising feminist perspectives on law; theoretical bases of these perspectives; place of feminist theories within other critiques of law; significance of different feminist theories for equality theory and law reform strategies; unique contributions of the various perspectives.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4006 [0.5 credit]**Religion and State in Canada**

Legal nature of the interaction of religion and state within an historical framework. Emphasis on Canada after the Charter of Rights and Freedoms and on religious pluralism and resistance to state intervention in religion. Interdisciplinary readings drawn from legal, historical and theological sources.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4100 [0.5 credit]**Modern Legal Theory**

Realist and post-realist legal scholarship; emphasis on Canadian, American and British approaches. Topics include the Canadian treatise tradition, American legal realism, empirical approaches to legal problems, the sociological movement in law, critical and Canadian feminist legal scholarship, Marxian theories of law, normative economic theory.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4101 [0.5 credit]**Contemporary Justice Theories**

Selected major contemporary theories of justice such as those associated with Rawls, Walzer, and Habermas, with emphasis on both their procedural and substantive elements and their concrete ramifications for law, policy and political practice.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4102 [0.5 credit]**Controversies in Rights Theory**

This course examines selected controversies in rights theories, practices, and/or historiography. Illustrative questions may include: Are rights universal or culturally relative? Can rights be justified after the demise of natural rights philosophy? Do rights undermine difference? Do communities benefit from a rights-based culture?.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4103 [0.5 credit]**Special Topic in the Philosophy of Law**

Detailed study of a special topic in philosophy of law. Also listed as PHIL 4407.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4104 [0.5 credit]**Special Topic in the Philosophy of Law**

Detailed study of a special topic in philosophy of law.

Also listed as PHIL 4408.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4105 [0.5 credit]**Global Justice Theory**

Selected theories of global justice as they pertain to legality, which may include questions such as the justice of military force and just war theory, global social justice and global inequality, sovereignty and cosmopolitan conceptions of justice, demands for global democracy and human rights.

Prerequisite(s): LAWS 2105, LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4106 [0.5 credit]**Law and Violence**

Examination of how law defines, justifies, and addresses individual, collective and state violence: contemporary and historical case studies; theoretical inquiries into the relationship between law, legality and different forms of violence.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4107 [0.5 credit]**Law in Modern Society**

Sociological and legal theory accounts of the changing role and function of law in modern society with particular reference to advanced capitalist societies. Topics include: the welfare state and the use of regulatory law; juridification and legalization; counter-trends, deregulation, informalism, legal pluralism.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4200 [0.5 credit]**International Economic Law**

Selected topics in international economic law. May include: the legal regulation of international economic activity; methods of dispute settlement; standardization and development of an autonomous international trade law; and selected conventions and institutions governing international economic law.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3207 or LAWS 3208, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4202 [0.5 credit]**Accountability of Management**

Role, function, and legal regulation of persons managing business enterprises. Status, social responsibility, fiduciary obligations and rights. Control and accountability of managers, obligations owed to the enterprise unit itself, constitutional rights of members, standards imposed by statutory regulation.

Prerequisite(s): LAWS 2908, LAWS 3201 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4204 [0.5 credit]**Legal Issues in eCommerce**

An examination of selected legal topics relevant to the conduct of electronic commerce. Topics include types of regulation, government support, jurisdiction challenges, contract disputes and consumer protection. Court and alternative dispute resolution policy of Domain Names challenges are also included.

Prerequisite(s): LAWS 2908, LAWS 2201, LAWS 2202 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4209 [0.5 credit]**Topics in Business Law**

Examination of a selected advanced topic in business law. The topics of this course may vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 2201 or LAWS 2202, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4302 [0.5 credit]**Regulation of Corporate Crime**

Legal, policy and theoretical perspectives on the regulation of corporate crime. Nature and causes of corporate crime. Selected case studies on the role of the state in regulating corporate behaviour. Failure of the criminal justice system to respond to corporate crime.

Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4303 [0.5 credit]**Drugs, The User and The State**

This course explores the state's attempts to control drugs and drug users by exploring different aspects of national and international drug control. The Canadian experience of drug control, viewed from different perspectives, will be explored within a broader socio-legal context.

Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002, and 0.5 credit from LAWS 2301 or LAWS 2302, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4304 [0.5 credit]**Policing and Social Surveillance**

Theoretical consideration of the emergence and transformation of “policing” activities through an examination of law and changes in social relations, with special attention to the myriad agencies involved in contemporary security provision. Evolving notions of risk, surveillance, the state, and the private-public dichotomy. Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002, and 0.5 credit from LAWS 2301 or LAWS 2302, and fourth-year Honours standing. Seminars three hours a week.

LAWS 4305 [0.5 credit]**Criminal Justice Reform**

Social transformation and criminal justice reform. Theoretical and practical reasons for the use of criminal law as an instrument of social control. Specific reform initiatives and processes. Alternate responses to social problems. Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4306 [0.5 credit]**Criminal Law Issues**

Selected issues and problems in the area of criminal law. The topics may vary from year to year depending on demand and interest and are announced in advance of registration. Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4307 [0.5 credit]**Medical Criminal Law Issues**

Legal-medical issues, conflicts and relationships in the field of social control. Topics include mental disorder and criminal liability, diversion of offenders to civil commitment in hospital, insanity, automatism, fitness to stand trial, prediction of dangerousness, regulation of psychoactive drugs. Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4308 [0.5 credit]**Sentencing**

Theories of sentencing, current sentencing laws and practices, perceptions of sentencing. Data on sentencing practice across Canada. Reforms in other jurisdictions. Critical review of the Canadian Sentencing Commission. Multidisciplinary approach using research and theory in law, criminology, social psychology and sociology. Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4309 [0.5 credit]**State Security and Dissent**

Historical and contemporary analysis of legal responses of Canadian governments to dissent, political opposition, insurrection, etc. Includes trial of political offences (treason, sedition, riot), national security measures (War Measures/Emergencies Act, Official Secrets Act), and other special powers (police, labour, immigration, parliamentary privilege, etc.). Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and 0.5 credit from LAWS 3305, LAWS 3503, LAWS 3509, and fourth-year Honours standing. Seminars three hours a week.

LAWS 4311 [0.5 credit]**Human Rights in Canadian Prisons**

Correctional law in the Canadian criminal justice system; competing objectives of punishment and rehabilitation in the context of respect for the rule of law and human rights; protection of human rights of prisoners in Canada and in international and comparative contexts. Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4402 [0.5 credit]**Employment Dispute Resolution**

Theory and practice of dispute resolution in employment relations; analysis of such techniques as negotiation, grievance and interest arbitration, mediation, investigation and litigation applied to a range of employment disputes such as collective agreements, termination of employment, discrimination, harassment, occupational health and safety. Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3006, LAWS 3401, LAWS 3405, and fourth-year Honours standing. Seminars three hours a week.

LAWS 4503 [0.5 credit]**Law, Disability and Society**

Exploration of the ways in which law promotes or hinders the inclusion of disabled persons in society. Consideration of different theories of 'disability' and the creation of barriers faced by disabled persons. Topics may include barriers affecting education, employment, transportation, benefits, and life/death decisions. Prerequisite(s): LAWS 2908 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4504 [0.5 credit]**Indigenous Criminal Justice**

Indigenous peoples and the administration of Canadian criminal justice including policing, courts, corrections and aftercare. Content and effects of past and present policies, processes and laws. Alternatives such as self-government and self-determination; potential approaches to an appropriate justice system for Indigenous peoples.

Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4507 [0.5 credit]**Administrative Law and Control**

Examination of characteristics and selected problems of control of administrative action. Topics include: varieties of traditional and constitutional, legal and judicial control, impact of the Charter, reforms to administrative law control systems in Canada, and comparisons with developments outside Canada.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3005 or LAWS 3506, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4510 [0.5 credit]**Topics in Law, Policy and Government**

Examination of a selected advanced topic in the area of law, policy and government. The topics of this course may vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2501, LAWS 2502, LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4601 [0.5 credit]**Transnational Law and Human Rights**

Examination of the role of law in addressing human rights issues that transcend traditional categories of domestic and international law; the potential and limits of law in addressing human rights issues; the growth of transnational approaches to law and human rights.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3503 or LAWS 3602, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4603 [0.5 credit]**Transitional Justice**

Legal and ethical responses to human rights violations in the transition to democracy. Dilemmas of the rule of law; truth and reconciliation; prosecution and punishment; amnesty; retribution and revenge; restorative justice; administrative remedy; reparations; International case studies. Theoretical arguments about justice in context of country.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4605 [0.5 credit]**Topics in International Law**

Topics vary from year to year and are announced in advance. May include transnational environmental issues; the international law of armed conflict, peacekeeping and neutrality; the law of international treaties and transnational agreements; state responsibility under international law.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2601 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4606 [0.5 credit]**International Law of Armed Conflict**

UN Charter prohibition of the use of force. Exceptional, permissible uses of armed force. Role of Security Council in determining legality of armed intervention. Collective security, peacemaking, peacekeeping, neutrality, prohibited means of warfare. Humanitarian International Law, Geneva Red Cross Conventions, war crimes, International Criminal Court.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2601 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4607 [0.5 credit]**Immigration and Refugee Law**

Immigrants and refugees; demographics; Canadian, international and human rights law and policy. The Canadian Immigration Act. Legal and social problems including entry and removal, family reunion, citizenship, remedies, the rights of clandestine migrants; settlement rights; non-discrimination; asylum; a nation's right to determine membership.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2502 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4610 [0.5 credit]**Special Topics in Transnational Law and Human Rights**

Examination of a selected advanced topic in the area of transnational law and human rights. The topics of this course may vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2601 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4701 [0.5 credit]**Special Topic in Criminal Justice and Social Policy**

Examination of a selected topic in criminal justice and social policy. Topics to be announced well in advance of registration each year. This course is part of the Summer School in Criminal Justice and Social Policy and is offered by the Department of Law.

Also listed as SOWK 4701.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4702 [0.5 credit]**Special Topic in Criminal Justice and Social Policy**

Examination of a selected topic in criminal justice and social policy. Topics to be announced.

Also listed as SOWK 4702 and SOCI 4702.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4703 [0.5 credit]**Special Topic in Criminal Justice and Social Policy**

Examination of a selected topic in criminal justice and social policy. Topics to be announced well in advance of registration each year. This course is part of the Summer School in Criminal Justice and Social Policy and is offered by the School of Social Work.

Also listed as SOWK 4703.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4800 [0.5 credit]**Environment and Social Justice**

The potential of environmental law to protect the environment and people while promoting opportunities for informed participation in environmental decision making by groups traditionally excluded from these processes; contemporary issues of social justice raised by legal regulation of the environment.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4801 [0.5 credit]**Risk and the Legal Process**

Application of risk assessment and management in various legal arenas including insurance, liability and tort, litigation management, environmental protection, and sentencing and parole.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4802 [0.5 credit]**Criminal Jury Trials**

Critical analysis of the criminal jury system including its history and context, the role of the judge, jury dynamics and jury composition. Perspectives and roles of the accused, victims, police, defence counsel, Crown attorney, judges, juries, media, politicians and the public.

Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4901 [0.5 credit]**Tutorial in Law**

Tutorials or reading courses conducted under the supervision of a faculty member of the Department of Law on a selected topic in which advanced courses are not available (guidelines are posted by the Department).

Prerequisite(s): LAWS 3908, fourth-year Honours standing, written acceptance by a faculty member and permission of the Undergraduate Supervisor.

Independent work 7-10 hours per week. Regular meetings with supervisor (bi-weekly).

LAWS 4902 [0.5 credit]**Tutorial in Law**

Tutorials or reading courses conducted under the supervision of a faculty member of the Department of Law on a selected topic in which advanced courses are not available (guidelines are posted by the Department).

Prerequisite(s): LAWS 3908, fourth-year Honours standing, written acceptance by a faculty member and permission of the Undergraduate Supervisor.

Independent work 7-10 hours per week. Regular meetings with supervisor (bi-weekly).

LAWS 4903 [0.5 credit]**Advanced Legal Topics**

The topics of this course vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4904 [0.5 credit]**Advanced Legal Topics**

The topics of this course vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908, fourth-year Honours standing, and permission of Department.

Seminars three hours a week.

LAWS 4905 [1.0 credit]**Full-Year Service Learning Placement**

This course gives students the opportunity to work with an organization whose focus relates to law. Participating students must identify a host organization and a faculty member to provide supervision (guidelines are posted by the Department).

Includes: Experiential Learning Activity

Prerequisite(s): LAWS 2908, fourth-year Honours standing in Law with a Law GPA of 9.00 or higher, written acceptance by a faculty member, permission of the Undergraduate Supervisor and the host organization.

Work at placement site 7-10 hours per week. Regular weekly meetings with on-site supervisor or faculty supervisor.

LAWS 4906 [0.5 credit]

Service Learning Placement

This course gives students the opportunity to work with an organization whose focus relates to law. Participating students must identify a host organization and a faculty member to provide supervision (guidelines are posted by the Department).

Includes: Experiential Learning Activity

Prerequisite(s): LAWS 2908, fourth-year Honours standing in Law with a Law GPA of 9.00 or higher, written acceptance by a faculty member, permission of the Undergraduate Supervisor and the host organization. Work at placement site 7-10 hours per week. Regular weekly meetings with on-site supervisor or faculty supervisor.

LAWS 4908 [1.0 credit]

Honours Paper

Students in the BA Honours Law program may write an Honours paper under the supervision of a faculty member of the Department of Law (guidelines are posted by the Department). Students intending to undertake graduate studies are encouraged to complete an Honours paper.

Includes: Experiential Learning Activity

Prerequisite(s): LAWS 3908, fourth-year Honours standing in Law with a Law GPA of 9.00 or higher and written acceptance by a faculty member.

Independent work 7-10 hours per week. Regular meetings with supervisor (bi-weekly).

Linguistics (Bachelor of Arts)

LING 3004 [0.5] Syntax I	
LING 3005 [0.5] Morphology I	
LING 3007 [0.5] Phonology I	
LING 3505 [0.5] Semantics	
4. 1.0 credit in LING at the 4000-level	1.0
5. 1.0 credit in LING, excluding LING 1100	1.0
B. Additional Requirements (14.0 credits)	14.0
6. The requirements of the other discipline must be satisfied	
7. Sufficient free electives to make a total of 20.0 credits for the program	
8. School Language Proficiency Requirement must be satisfied	
Total Credits	20.0

Linguistics and Discourse Studies

B.A. Combined Honours (20.0 credits)

Honours Linguistics and Honours Applied Linguistics and Discourse Studies are combined into the Linguistics and Discourse Studies B.A. Combined Honours.

A. Credits Included in the Major CGPA (12.0 credits)

1. 1.5 credits in:	1.5
LING 1001 [0.5] Introduction to Linguistics I	
ALDS 1001 [0.5] Language Matters: Introduction to ALDS	
LING 1002 [0.5] Introduction to Linguistics II	
2. 1.0 credit in:	1.0
LING 2005 [0.5] Linguistic Analysis	
LING 2007 [0.5] Phonetics	
3. 2.0 credits in:	2.0
LING 3004 [0.5] Syntax I	
LING 3005 [0.5] Morphology I	
LING 3007 [0.5] Phonology I	
LING 3505 [0.5] Semantics	
4. 1.0 credit in LING at the 4000 level	1.0
5. 1.0 credit in LING, excluding LING 1100	1.0
6. 1.0 credit in:	1.0
ALDS 2201 [0.5] Analysis of Oral Language Use	
ALDS 2202 [0.5] Analysis of Written Language Use	
7. 1.0 credit in ALDS at the 3000 level or above	1.0
8. 1.0 credit in ALDS at the 4000 level	1.0
9. 2.5 credits in ALDS	2.5
B. Additional Requirements (8.0 credits)	8.0
10. Sufficient free electives to make a total of 20.0 credits for the program	
11. School Language Proficiency Requirement must be satisfied	
Total Credits	20.0

Linguistics

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (6.5 credits)

1. 1.5 credit in:	1.5
LING 1001 [0.5] Introduction to Linguistics I	
ALDS 1001 [0.5] Language Matters: Introduction to ALDS	
LING 1002 [0.5] Introduction to Linguistics II	
2. 1.0 credit in:	1.0
LING 2005 [0.5] Linguistic Analysis	
LING 2007 [0.5] Phonetics	
3. 2.0 credits in:	2.0
LING 3004 [0.5] Syntax I	
LING 3005 [0.5] Morphology I	
LING 3007 [0.5] Phonology I	
LING 3505 [0.5] Semantics	
4. 2.0 credits in LING, excluding LING 1100	2.0
B. Credits Not Included in the Major CGPA (8.5 credits)	
5. 5.0 credits not in LING or ALDS	5.0
6. 1.0 credit not in LING	1.0
7. 2.5 credits in free electives	2.5
C. Additional Requirement	

8. School Language Proficiency Requirement must be satisfied

Total Credits 15.0

Minor in Linguistics (4.0 credits)

Open to all undergraduate degree students in programs other than Linguistics.

Requirements (4.0 credits)

1. 1.0 credit in: 1.0

LING 1001 [0.5] Introduction to Linguistics I

ALDS 1001 [0.5] Language Matters: Introduction to ALDS

2. 1.0 credit in: 1.0

LING 2005 [0.5] Linguistic Analysis

LING 2007 [0.5] Phonetics

3. 1.0 credit in: 1.0

LING 3004 [0.5] Syntax I

LING 3007 [0.5] Phonology I

4. 1.0 credit in LING, excluding LING 1100 1.0

5. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits 4.0

School Language Proficiency Requirement

Students in B.A. Honours, Combined Honours, or 15 credit programs of the School of Linguistics and Language Studies are required, at graduation, to have a working knowledge of a language other than English. Proficiency is determined by successful completion of a 1.0 credit university course in the language or by an oral or written test given by the School.

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies,

Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAPM, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in Good Standing.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section "English Language Requirements" in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement.

Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Linguistics (LING) Courses

LING 1001 [0.5 credit]

Introduction to Linguistics I

Nature of language and linguistic knowledge. Formal description and analysis of language: phonetics, phonology, morphology, syntax and semantics. Lecture and tutorial three hours a week.

LING 1002 [0.5 credit]

Introduction to Linguistics II

Survey of topics in linguistics: language change, sociolinguistics, language acquisition and processing. May include language typology, language contact and writing systems.

Prerequisite(s): LING 1001 (may be taken concurrently). Lectures three hours a week.

LING 1100 [0.5 credit]

The Mysteries of Language

This course explores some intriguing mysteries of language - whether it is unique to humans, how children master its complexities so easily, how the brain handles language, how languages are born and die. These questions lead us to interesting discoveries about the human mind.

Lectures three hours a week.

LING 2005 [0.5 credit]

Linguistic Analysis

Phonological, morphological and syntactic analysis of linguistic data. Coursework consists primarily of practical exercises in data analysis.

Includes: Experiential Learning Activity

Prerequisite(s): LING 1001.

Lecture and tutorial three hours a week.

LING 2007 [0.5 credit]

Phonetics

Description of speech sounds; transcription systems; articulation; acoustics of speech sounds; perception of speech sounds; cross-linguistic diversity and phonetic universals; the role of phonetics in grammar.

Includes: Experiential Learning Activity

Precludes additional credit for LING 2001 (no longer offered).

Prerequisite(s): LING 1001.

Lecture and tutorial three hours a week.

LING 2504 [0.5 credit]

Language and Communication

Some of the central topics in the study of language and communication as pursued by linguists and philosophers. Topics include: the nature of meaning; the connections between language, communication and cognition; language as a social activity.

Also listed as PHIL 2504, COMS 2504.

Prerequisite(s): second-year standing.

Lectures three hours a week.

LING 2604 [0.5 credit]

Communication Disorders I

A survey course highlighting congenital, developmental and acquired disorders of speech, language, fluency, hearing and voice; prevalence, current research, assessment and intervention approaches for each disorder will be presented.

Also listed as ALDS 2604.

Prerequisite(s): second year standing or permission of the instructor.

Lectures three hours a week.

LING 2802 [0.5 credit]

History of the English Language

A historical study of the English language, its structure, variety, and cultural contexts, with an introduction to grammatical terminology and constructions.

Also listed as ENGL 2105.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

LING 3004 [0.5 credit]

Syntax I

Introduction to syntactic theory. Representation and analysis of sentence structure, syntactic relations and syntactic dependencies. Testing of grammatical hypotheses.

Includes: Experiential Learning Activity

Prerequisite(s): LING 2005.

Lecture and tutorial three hours a week.

LING 3005 [0.5 credit]

Morphology I

Introduction to word structure and morphological theory. Topics include inflectional and derivational morphology, morphological processes, and interaction of morphology with phonology and syntax.

Includes: Experiential Learning Activity

Prerequisite(s): LING 2005 and LING 2007.

Lectures three hours a week.

LING 3007 [0.5 credit]**Phonology I**

The sound-systems of languages, analysis of phonological structure; generative phonology; phonological rules and derivations; cross-linguistic diversity and universals; segmental phonology; stress; tone.

Includes: Experiential Learning Activity

Precludes additional credit for LING 3002 (no longer offered).

Prerequisite(s): LING 2001 (no longer offered) or LING 2007.

Lecture and tutorial three hours a week.

LING 3009 [0.5 credit]**Special Topic in Linguistics**

Selected topics in general linguistics not ordinarily treated in the regular course program. Contents of the course vary from year to year.

Lectures and discussion three hours per week.

LING 3504 [0.5 credit]**Pragmatics**

The study of language in its conversational and cultural contexts. Topics include: conversational implicature; deixis; the semantics-pragmatics boundary; speaker's reference; speech acts. May include cross-cultural pragmatics.

Also listed as PHIL 3504.

Prerequisite(s): third-year standing, and one of LING 1001, PHIL 2001, PHIL 2504/COMM 2504/LING 2504 or PHIL 3506, or LING 3505 or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Lectures three hours a week.

LING 3505 [0.5 credit]**Semantics**

Study of language meaning. Lexical meaning and meanings of larger linguistic expressions, including nominal units, verbal units, and sentences. Meaning relationships between utterances. Relationship between linguistic meaning (semantics) and contextual meaning (pragmatics). Basic formal treatments of semantics.

Also listed as PHIL 3506.

Prerequisite(s): third-year standing, and one of LING 1001, PHIL 2001, PHIL 2504/LING 2504/COMM 2504 or PHIL 3504/LING 3504, or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Lectures three hours a week.

LING 3601 [0.5 credit]**Language Processing and the Brain**

Introduction to adult language processing and neurolinguistics. Psychological processes underlying speech production and perception, word recognition and sentence processing. Biological foundation and neuro-cognitive mechanisms of language. Experimental techniques and methodologies of current psycholinguistic studies.

Includes: Experiential Learning Activity

Also listed as PSYC 3709.

Prerequisite(s): LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours a week.

LING 3603 [0.5 credit]**Child Language**

Milestones associated with the development of grammatical, pragmatic and metalinguistic competence from birth to about age ten, and the relative contributions of the environment, cognitive development and inborn knowledge to this development.

Includes: Experiential Learning Activity

Also listed as PSYC 3508.

Prerequisite(s): LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours a week.

LING 3604 [0.5 credit]**Communication Disorders II**

In-depth evaluation of current psycholinguistic models of processes underlying communication disorders and the biomedical support for such models. Emphasis on contrasting developmental disorders with acquired disorders. Additional exploration of other modalities (sign language, reading).

Also listed as ALDS 3604.

Precludes additional credit for LING 3009 Section "A", if taken Winter 2013.

Prerequisite(s): LING 2604.

Lectures three hours a week.

LING 3701 [0.5 credit]**Corpus Linguistics**

Computer-assisted analysis of electronic collections of naturally occurring language. Applications in such areas as language variation, grammar, lexicology, phraseology, translation, and learner language.

Includes: Experiential Learning Activity

Also listed as ALDS 3701.

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTEFL program, or permission of the instructor.

Lectures three hours a week.

LING 3702 [0.5 credit]**Sociolinguistics**

The place of language within society; bilingual and multilingual communities; language, social mobility and social stratification; sociolinguistic factors in language change.

Also listed as ALDS 3202.

Precludes additional credit for ALDS 2701 (no longer offered).

Prerequisite(s): ALDS 1001 and third-year standing.

Lecture three hours a week.

LING 3801 [0.5 credit]**Structure of a Specific Language**

Description and analysis of the structure of a specific language applying phonology, morphology, syntax, and semantics. Language to be studied will be announced in advance by the School.

Prerequisite(s): LING 2001 (no longer offered) or

LING 2005 or LING 2007.

Lectures three hours a week.

LING 3810 [0.5 credit]**Historical Linguistics I**

Language change; sound change; analogy; the comparative method; internal reconstruction; the philological method; historical linguistics and pre-history; language change and theories of grammar.

Precludes additional credit for LING 3101.

Prerequisite(s): LING 2007.

Lectures three hours a week.

LING 3811 [0.5 credit]**Language Typology and Universals**

Cross-linguistic survey of syntactic and morphological patterns found in the languages of the world. Typological classification and identification of language universals.

Includes: Experiential Learning Activity

Precludes additional credit for LING 3001.

Prerequisite(s): LING 2005.

Lectures three hours a week.

LING 3900 [1.0 credit]**Independent Study**

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Linguistics.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

LING 3901 [0.5 credit]**Independent Study**

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Linguistics.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

LING 4004 [0.5 credit]**Syntax II**

Advanced topics in syntax.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4002 (no longer offered).

Prerequisite(s): LING 3004 and third-year standing.

Seminars three hours a week.

LING 4005 [0.5 credit]**Morphology II**

Advanced topics in morphology.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3005 and third-year standing.

Seminars three hours a week.

LING 4007 [0.5 credit]**Phonology II**

Advanced topics in phonology.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4001 (no longer offered).

Prerequisite(s): LING 3007, and third-year standing.

Seminars three hours a week.

LING 4009 [0.5 credit]**Special Topic in Linguistics**

Examination of a topic or more specialized area in linguistics or language study. Topic to be announced. Repeatable for credit when the topic changes.

Prerequisite(s): third- or fourth-year standing in Linguistics or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5009, for which additional credit is precluded.

Seminars three hours a week.

LING 4412 [0.5 credit]**Diversité du français**

Études des variétés du français, dans ses dimensions spatiales. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. The course is taught in French, but students will submit written assignments in English.

Also listed as FREN 4412.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5412 and LING 5412, for which additional credit is precluded.

Seminars three hours a week.

LING 4413 [0.5 credit]**Diachronie du français**

Étude du français, dans ses dimensions historiques. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. The course is taught in French, but students will submit written assignments in English. Also listed as FREN 4413.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5413 and LING 5413, for which additional credit is precluded.

Seminars three hours a week.

LING 4414 [0.5 credit]**Analyse du français**

Étude du français, dans ses dimensions morphologiques, syntaxiques ou phonologiques. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. Course is taught in French, but students will submit written assignments in English.

Also listed as FREN 4414.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5414 and LING 5414, for which additional credit is precluded.

Seminars three hours a week.

LING 4415 [0.5 credit]**Variation du français**

Étude des variations internes de la langue, dans ses dimensions orales/écrites. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. Course is taught in French, but students submit assignments in English.

Also listed as FREN 4415.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5415 and LING 5415, for which additional credit is precluded.

Seminars three hours a week.

LING 4505 [0.5 credit]**Formal Semantics**

Advanced topics in compositional semantics and its interfaces. Topics may include: logic, semantic types, lambda calculus, intentional contexts, possible world semantics, interfaces with syntax and pragmatics quantification, anaphora, presupposition, implicatures, scope and binding, and model theory.

Includes: Experiential Learning Activity

Also listed as PHIL 4505.

Prerequisite(s): LING 3505 or PHIL 3506, and third-year standing, or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Seminars three hours a week.

LING 4510 [0.5 credit]**Lexical Semantics**

Study of the meaning of words. Topics may include lexical decomposition, meaning variation, lexical relations, and lexical aspect.

Includes: Experiential Learning Activity

Also listed as PHIL 4055.

Precludes additional credit for LING 4055 (no longer offered).

Prerequisite(s): LING 3505 or PHIL 3506, and third-year standing.

Also offered at the graduate level, with different requirements, as LING 5510, for which additional credit is precluded.

Seminar three hours a week.

LING 4601 [0.5 credit]**Cognitive Neuroscience of Language**

Further study of psychological and neurolinguistic mechanisms of adult language processing. May include topics from first language acquisition.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3601 or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5601, for which additional credit is precluded.

Seminars three hours a week.

LING 4603 [0.5 credit]**First Language Acquisition**

Advanced topics in language acquisition and development and the relative contributions of the environment, cognitive development, and inborn knowledge.

Includes: Experiential Learning Activity

Prerequisite(s): LING 1001 and LING 3603.

Also offered at the graduate level, with different requirements, as LING 5603, for which additional credit is precluded.

Seminars three hours a week.

LING 4604 [0.5 credit]**Practicum in Speech Language Pathology**

Through seven-hour-a-week field placements, students pursue personal learning objectives concerning the clinical application of the psycholinguistics of communication disorders and cognitive development. A term paper integrates experiential knowledge gained in the placement with theoretical and empirical knowledge gained from the student's program of study.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3604, fourth-year Honours standing in B.A. or B.Sc. in Linguistics with a Concentration in Psycholinguistics and Communication Disorders with a CGPA of 10.0 in the major, and permission from the School of Linguistics and Language Studies.

Field placement one day a week.

LING 4605 [0.5 credit]**Psycholinguistic Research Methods**

Experimental methodologies used in current psycholinguistic studies. Topics include experimental design and techniques, descriptive statistics, and interpreting and reporting research findings.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4009 Section "A" (2015-16 and 2016-17) and LING 4009 Section "B" (2013-14) and LING 4009 Section "C" (2017-18).

Prerequisite(s): third- or fourth-year Honours standing in Linguistics or Cognitive Science, or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5605, for which additional credit is precluded.

Seminar three hours a week.

LING 4606 [0.5 credit]**Statistics for Language Research**

Application of statistical procedures to analysis of language data and to problems of measurement in experimental linguistics, applied linguistics, psycholinguistics, and related fields.

Includes: Experiential Learning Activity

Also listed as ALDS 4606.

Precludes additional credit for ALDS 4906/LING 4009 Section "B" if taken Winter 2015 or Winter 2016.

Prerequisite(s): Third-year standing in Linguistics or Applied Linguistics and Discourse Studies or Cognitive Science, or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5606 and ALDS 5604, for which additional credit is precluded.

Seminar three hours a week.

LING 4801 [0.5 credit]**Linguistic Field Methods**

With a language consultant, students discover the phonological, morphological, and syntactic structures of the target language using linguistic elicitation. Language will vary from year to year, but will normally be a non-European language. Language documentation, data management, ethical issues surrounding research in Indigenous communities.

Includes: Experiential Learning Activity

Prerequisite(s): LING 2005 and LING 2007.

Also offered at the graduate level, with different requirements, as ALDS 5801, for which additional credit is precluded.

Lectures three hours a week.

LING 4802 [0.5 credit]**Historical Linguistics: English**

A theory-intensive course that will study the development of English starting with Proto-Indo-European progressing through Common Germanic to the stages of English itself. Topics include phonological sound changes, phonemic inventories, and morphological and syntactic typology. Precludes additional credit for LING 4101.

Prerequisite(s): LING 2005 and LING 2007, and one of LING 3005, LING 3810 or LING 3811.

Also offered at the graduate level, with different requirements, as LING 5802, ENGL 5101., for which additional credit is precluded.

Seminars three hours a week.

LING 4805 [0.5 credit]**Old English**

Studies in Old English literature and its cultural and historical contexts. Instruction in grammar to facilitate reading knowledge of the Old English language.

Also listed as ENGL 4105.

Precludes additional credit for ENGL 3102 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

LING 4900 [1.0 credit]**Independent Study in Linguistics**

Permits fourth-year Honours students to pursue their interests in a selected area of linguistics.

Prerequisite(s): permission of the instructor.

LING 4901 [0.5 credit]**Independent Study in Linguistics**

Permits fourth-year Honours students to pursue their interests in a selected area of linguistics.

Prerequisite(s): permission of the instructor.

LING 4905 [1.0 credit]**Honours Project in Experimental Linguistics**

Students choose existing study in linguistic literature, replicate the study, present findings, compare to original study. Practical experience gathering and preparing materials, running experiments, analyzing data, interpreting findings; real, important contributions to the field of linguistics via replication studies (as mandated by the scientific method).

Includes: Experiential Learning Activity

Precludes additional credit for LING 4910.

Prerequisite(s): fourth-year Honours standing in Linguistics, with a Major CGPA of 9.0, and permission of the instructor.

Unscheduled.

LING 4910 [1.0 credit]

Honours Thesis in Linguistics

Open to all candidates for the B.A. (Honours) in Linguistics. A thesis project selected in consultation with the School and carried out under the direction of a faculty supervisor.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4905.

Prerequisite(s): fourth-year Honours standing in Linguistics with a CGPA of 10.0 in the major; one of LING 3004, LING 3007, LING 3505, or LING 3601; and permission of the instructor.

Linguistics (Bachelor of Science)

This section presents the requirements for programs in:

- B.Sc. Honours in Linguistics with a Concentration in Linguistic Theory (Computer Science)
- B.Sc. Honours in Linguistics with a Concentration in Linguistic Theory (Neuroscience)
- B.Sc. Honours in Linguistics with a Concentration in Linguistic Theory (Psychology)
- B.Sc. Honours in Linguistics with a Concentration in Psycholinguistics and Communication Disorders (Computer Science)
- B.Sc. Honours in Linguistics with a Concentration in Psycholinguistics and Communication Disorders (Neuroscience)
- B.Sc. Honours in Linguistics with a Concentration in Psycholinguistics and Communication Disorders (Psychology)

B.Sc. Honours in Linguistics with a Concentration in Linguistic Theory (Computer Science) (20.0 credits)

A. Credits Included in the Major CGPA (9.0 credits)

1. 1.0 credit in:	1.0
ALDS 1001 [0.5] Language Matters: Introduction to ALDS	
LING 1001 [0.5] Introduction to Linguistics I	
2. 1.0 credit in:	1.0
LING 2005 [0.5] Linguistic Analysis	
LING 2007 [0.5] Phonetics	
3. 1.0 credit in:	1.0
LING 3004 [0.5] Syntax I	
LING 3007 [0.5] Phonology I	
4. 1.0 credit in LING at the 4000-level	1.0
5. 1.5 credits in LING, excluding LING 1100	1.5
6. 3.5 credits from the Concentration	3.5
a. 1.0 credit in:	
LING 3005 [0.5] Morphology I	
LING 3505 [0.5] Semantics	
b. 1.0 credit from:	
LING 4004 [0.5] Syntax II	
LING 4005 [0.5] Morphology II	
LING 4007 [0.5] Phonology II	
LING 4505 [0.5] Formal Semantics	
LING 4510 [0.5] Lexical Semantics	

c. 1.5 credits in LING, excluding LING 1100

B. Credits Not Included in the Major CGPA (11.0 credits)

7. 4.0 credits in Computer Science Requirements	4.0
a. 1.5 credits in:	
COMP 1005 [0.5] Introduction to Computer Science I	
COMP 1006 [0.5] Introduction to Computer Science II	
COMP 1805 [0.5] Discrete Structures I	
b. 1.5 credits in:	
COMP 2401 [0.5] Introduction to Systems Programming	
COMP 2402 [0.5] Abstract Data Types and Algorithms	
COMP 2404 [0.5] Introduction to Software Engineering	
c. 1.0 credit from:	
COMP 2406 [0.5] Fundamentals of Web Applications	
COMP 2804 [0.5] Discrete Structures II	
COMP 3000 [0.5] Operating Systems	
COMP 3002 [0.5] Compiler Construction	
COMP 3004 [0.5] Object-Oriented Software Engineering	
COMP 3005 [0.5] Database Management Systems	
COMP 3007 [0.5] Programming Paradigms	
COMP 3008 [0.5] Human-Computer Interaction	
8. 1.0 credit in:	1.0
MATH 1007 [0.5] Elementary Calculus I	
MATH 1107 [0.5] Linear Algebra I	
9. 6.0 credits in free electives	6.0
C. Additional Requirements	
10. School Language Proficiency Requirement must be satisfied	
11. Bachelor of Science Experimental Science Requirement must be satisfied	
Total Credits	20.0

B.Sc. Honours in Linguistics with a Concentration in Linguistic Theory (Neuroscience) (20.0 credits)

A. Credits Included in the Major CGPA (9.0 credits)

1. 1.0 credit in:	1.0
ALDS 1001 [0.5] Language Matters: Introduction to ALDS	
LING 1001 [0.5] Introduction to Linguistics I	
2. 1.0 credit in:	1.0
LING 2005 [0.5] Linguistic Analysis	
LING 2007 [0.5] Phonetics	
3. 1.0 credit in:	1.0
LING 3004 [0.5] Syntax I	
LING 3007 [0.5] Phonology I	
4. 1.0 credit in LING at the 4000 level	1.0
5. 1.5 credits in LING, excluding LING 1100	1.5
6. 3.5 credits from the Concentration:	3.5
a. 1.0 credit in:	
LING 3005 [0.5] Morphology I	
LING 3505 [0.5] Semantics	
b. 1.0 credit from:	
LING 4004 [0.5] Syntax II	

LING 4005 [0.5]	Morphology II	
LING 4007 [0.5]	Phonology II	
LING 4505 [0.5]	Formal Semantics	
LING 4510 [0.5]	Lexical Semantics	
c. 1.5 credits in LING, excluding LING 1100		
B. Credits Not Included in the Major CGPA (11.0 credits)		
7. 3.5 credits in Neuroscience		3.5
a. 2.0 credits in:		
NEUR 1202 [0.5]	Neuroscience of Mental Health and Psychiatric Disease	
NEUR 1203 [0.5]	Neuroscience of Mental Health and Neurological Disease	
NEUR 2001 [0.5]	Introduction to Research Methods in Neuroscience	
NEUR 2002 [0.5]	Introduction to Statistics in Neuroscience	
b. 1.5 credits from:		
NEUR 2201 [0.5]	Cellular and Molecular Neuroscience	
NEUR 2202 [0.5]	Neurodevelopment and Plasticity	
NEUR 3206 [0.5]	Sensory and Motor Neuroscience	
NEUR 3207 [0.5]	Systems Neuroscience	
NEUR 3303 [0.5]	The Neuroscience of Consciousness	
8. 1.5 credits in:		1.5
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
BIOL 3306 [0.5]	Human Anatomy and Physiology	
9. 1.0 credit from:		1.0
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 1005 [0.5]	Elementary Chemistry I	
& CHEM 1006 [0.5]	Elementary Chemistry II	
10. 1.0 credit in:		1.0
MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I	
11. 4.0 credits in free electives		4.0
C. Additional Requirements		
12. School Language Proficiency Requirement must be satisfied		
Total Credits		20.0

B.Sc. Honours in Linguistics with a Concentration in Linguistic Theory (Psychology) (20.0 credits)

A. Credits included in the Major CGPA (9.0 credits)		
1. 1.0 credit in:		1.0
ALDS 1001 [0.5]	Language Matters: Introduction to ALDS	
LING 1001 [0.5]	Introduction to Linguistics I	
2. 1.0 credit in:		1.0
LING 2005 [0.5]	Linguistic Analysis	
LING 2007 [0.5]	Phonetics

Total Credits	20.0

School Language Proficiency Requirement

Students in B.A. Honours, Combined Honours, or 15 credit programs of the School of Linguistics and Language Studies are required, at graduation, to have a working knowledge of a language other than English. Proficiency is determined by successful completion of a 1.0 credit university course in the language or by an oral or written test given by the School.

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

- 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in science continuation courses in each of the two majors**
- 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

- 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for fewer than 10.0 credits.
- 1.0 credit in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for 10.0 or more credits.

Declared and Undeclared Students

Students who are registered in a program within the degree are called Declared students. Most students designate a program of study when they first apply for admission and so begin their studies as Declared students. Students may also choose to begin their studies within the B.Sc. degree without being registered in a program. These students are referred to as Undeclared students. The recommended course pattern for Undeclared students is provided in the Undeclared entry of the Programs section of this Calendar. Undeclared students normally must apply to enter a program before beginning their second year of study. The Science Student Success Centre (SSSC) provides Undeclared students guidance to the appropriate support services in making this decision.

Change of Program within the B.Sc. Degree

Students may transfer to a program within the B.Sc. degree if upon entry to the new program they would be in good academic standing.

Other applications for change of program will be considered on their merits; students may be accepted in the new program in *Good Standing* or on *Academic Warning*.

Applications to declare or change their program within the B.Sc. Degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program or into a program element or option is subject to any enrolment, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may add a minor, concentration or specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a minor, concentration or specialization requires that the student be in *Good Standing* and is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of experimental science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry

BIOC 2200 [0.5] Cellular Biochemistry

BIOC 4001 [0.5] Methods in Biochemistry
 BIOC 4201 [0.5] Advanced Cell Culture and Tissue Engineering

Biology

BIOL 1103 [0.5] Foundations of Biology I
 BIOL 1104 [0.5] Foundations of Biology II
 BIOL 2001 [0.5] Animals: Form and Function
 BIOL 2002 [0.5] Plants: Form and Function
 BIOL 2104 [0.5] Introductory Genetics
 BIOL 2200 [0.5] Cellular Biochemistry
 BIOL 2600 [0.5] Ecology

Chemistry

CHEM 1001 [0.5] General Chemistry I
 CHEM 1002 [0.5] General Chemistry II
 CHEM 1005 [0.5] Elementary Chemistry I
 CHEM 1006 [0.5] Elementary Chemistry II
 CHEM 2103 [0.5] Physical Chemistry I
 CHEM 2203 [0.5] Organic Chemistry I
 CHEM 2204 [0.5] Organic Chemistry II
 CHEM 2302 [0.5] Analytical Chemistry I
 CHEM 2303 [0.5] Analytical Chemistry II
 CHEM 2800 [0.5] Foundations for Environmental Chemistry

Earth Sciences

ERTH 1006 [0.5] Exploring Planet Earth
 ERTH 1009 [0.5] The Earth System Through Time
 ERTH 2102 [0.5] Mineralogy to Petrology
 ERTH 2404 [0.5] Engineering Geoscience
 ERTH 2802 [0.5] Field Geology I
 ERTH 3111 [0.5] Vertebrate Evolution: Mammals, Reptiles, and Birds
 ERTH 3112 [0.5] Vertebrate Evolution: Fish and Amphibians
 ERTH 3204 [0.5] Mineral Deposits
 ERTH 3205 [0.5] Physical Hydrogeology
 ERTH 3806 [0.5] Structural Geology

Food Sciences

FOOD 3001 [0.5] Food Chemistry
 FOOD 3002 [0.5] Food Analysis
 FOOD 3005 [0.5] Food Microbiology

Geography

GEOG 1010 [0.5] Global Environmental Systems
 GEOG 3108 [0.5] Soil Properties

Neuroscience

NEUR 3206 [0.5] Sensory and Motor Neuroscience
 NEUR 3207 [0.5] Systems Neuroscience
 NEUR 4600 [0.5] Advanced Lab in Neuroanatomy

Physics

PHYS 1001 [0.5] Foundations of Physics I
 PHYS 1002 [0.5] Foundations of Physics II
 PHYS 1003 [0.5] Introductory Mechanics and Thermodynamics
 PHYS 1004 [0.5] Introductory Electromagnetism and Wave Motion
 PHYS 1007 [0.5] Elementary University Physics I
 PHYS 1008 [0.5] Elementary University Physics II
 PHYS 2202 [0.5] Wave Motion and Optics
 PHYS 2604 [0.5] Modern Physics I

PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars
PHYS 3606 [0.5]	Modern Physics II
PHYS 3608 [0.5]	Modern Applied Physics

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 2006 [0.5]	Introduction to Quantitative Research
GEOG 2013 [0.5]	Weather and Water
GEOG 2014 [0.5]	The Earth's Surface
GEOG 3003 [0.5]	Quantitative Geography
GEOG 3010 [0.5]	Field Methods in Physical Geography
GEOG 3102 [0.5]	Geomorphology
GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3104 [0.5]	Principles of Biogeography
GEOG 3105 [0.5]	Climate and Atmospheric Change
GEOG 3106 [0.5]	Aquatic Science and Management
GEOG 3108 [0.5]	Soil Properties
GEOG 4000 [0.5]	Field Studies
GEOG 4005 [0.5]	Directed Studies in Geography
GEOG 4013 [0.5]	Cold Region Hydrology
GEOG 4017 [0.5]	Global Biogeochemical Cycles
GEOG 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103 [0.5]	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Science Psychology Courses

PSYC 2001 [0.5]	Introduction to Research Methods in Psychology
PSYC 2002 [0.5]	Introduction to Statistics in Psychology
PSYC 2700 [0.5]	Introduction to Cognitive Psychology
PSYC 3000 [1.0]	Design and Analysis in Psychological Research
PSYC 3506 [0.5]	Cognitive Development
PSYC 3700 [1.0]	Cognition (Honours Seminar)
PSYC 3702 [0.5]	Perception
PSYC 2307 [0.5]	Human Neuropsychology I
PSYC 3307 [0.5]	Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

- BIOC (Biochemistry)
- BIOL (Biology)
- CHEM (Chemistry)
- COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except EARTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use EARTH 2401, EARTH 2402, and EARTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except EARTH 1010, EARTH 1011 and EARTH 2415. Earth Sciences students may use EARTH 2401, EARTH 2402, and EARTH 2403 only as free electives.

Engineering

ENSC 2001

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Science)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)

Science Psychology (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) Biology students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5]	Education Research in Biology
CHEM 1003 [0.5]	The Chemistry of Food, Health and Drugs
CHEM 1004 [0.5]	Drugs and the Human Body
CHEM 1007 [0.5]	Chemistry of Art and Artifacts
ERTH 1010 [0.5]	Our Dynamic Planet Earth
ERTH 1011 [0.5]	Evolution of the Earth
ERTH 2415 [0.5]	Natural Disasters
ISCI 1001 [0.5]	Introduction to the Environment
ISCI 2000 [0.5]	Natural Laws
ISCI 2002 [0.5]	Human Impacts on the Environment
MATH 0107 [0.5]	Algebra and Geometry
PHYS 1901 [0.5]	Planetary Astronomy
PHYS 1902 [0.5]	From our Star to the Cosmos
PHYS 1905 [0.5]	Physics Behind Everyday Life
PHYS 2903 [0.5]	Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5]	Introduction to Computational Thinking for Arts and Social Science Students
MATH 0005 [0.5]	Precalculus: Functions and Graphs
MATH 0006 [0.5]	Precalculus: Trigonometric Functions and Complex Numbers
MATH 1009 [0.5]	Mathematics for Business
MATH 1119 [0.5]	Linear Algebra: with Applications to Business
MATH 1401 [0.5]	Elementary Mathematics for Economics I
MATH 1402 [0.5]	Elementary Mathematics for Economics II

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses.

For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions and two of Biology, Chemistry, Earth and Space Sciences or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For the Combined Honours program in Chemistry and Computer Science, 4U Chemistry and Calculus and Vectors are strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

For entry to an Honours program after the completion of 5.0 included credits, a student must have a major CGPA of 5.50 or higher, an overall CGPA of 4.50 or higher and the recommendation of the Honours department or committee. A student beginning the final 10.0 credits towards an Honours degree must present a major CGPA of 6.00 or higher, an overall CGPA of 5.00 or higher and the recommendation of the Honours department or committee. A student beginning the final 5.0 credits towards an Honours degree must present a major CGPA of 6.50 or higher and an overall CGPA of 5.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

B.Sc. Major Program

B.Sc. Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics, 4U Physics is strongly recommended. Equivalent courses may be substituted between the old and new Ontario mathematics curriculum.

Advanced Standing

For entry to a B.Sc. or B.Sc. Major program after the completion of 5.0 included credits, a student must have a major and core CGPA of 3.50 or higher and an overall CGPA of 3.50 or higher. A student beginning the final 5.0 credits towards a B.Sc. or B.Sc. Major degree must present a major and core CGPA of 4.00 or higher and an overall CGPA of 4.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Linguistics (LING) Courses

LING 1001 [0.5 credit]

Introduction to Linguistics I

Nature of language and linguistic knowledge. Formal description and analysis of language: phonetics, phonology, morphology, syntax and semantics. Lecture and tutorial three hours a week.

LING 1002 [0.5 credit]

Introduction to Linguistics II

Survey of topics in linguistics: language change, sociolinguistics, language acquisition and processing. May include language typology, language contact and writing systems.

Prerequisite(s): LING 1001 (may be taken concurrently).
Lectures three hours a week.

LING 1100 [0.5 credit]

The Mysteries of Language

This course explores some intriguing mysteries of language - whether it is unique to humans, how children master its complexities so easily, how the brain handles language, how languages are born and die. These questions lead us to interesting discoveries about the human mind.

Lectures three hours a week.

LING 2005 [0.5 credit]

Linguistic Analysis

Phonological, morphological and syntactic analysis of linguistic data. Coursework consists primarily of practical exercises in data analysis.

Includes: Experiential Learning Activity

Prerequisite(s): LING 1001.

Lecture and tutorial three hours a week.

LING 2007 [0.5 credit]

Phonetics

Description of speech sounds; transcription systems; articulation; acoustics of speech sounds; perception of speech sounds; cross-linguistic diversity and phonetic universals; the role of phonetics in grammar.

Includes: Experiential Learning Activity

Precludes additional credit for LING 2001 (no longer offered).

Prerequisite(s): LING 1001.

Lecture and tutorial three hours a week.

LING 2504 [0.5 credit]

Language and Communication

Some of the central topics in the study of language and communication as pursued by linguists and philosophers.

Topics include: the nature of meaning; the connections between language, communication and cognition; language as a social activity.

Also listed as PHIL 2504, COMS 2504.

Prerequisite(s): second-year standing.

Lectures three hours a week.

LING 2604 [0.5 credit]

Communication Disorders I

A survey course highlighting congenital, developmental and acquired disorders of speech, language, fluency, hearing and voice; prevalence, current research, assessment and intervention approaches for each disorder will be presented.

Also listed as ALDS 2604.

Prerequisite(s): second year standing or permission of the instructor.

Lectures three hours a week.

LING 2802 [0.5 credit]

History of the English Language

A historical study of the English language, its structure, variety, and cultural contexts, with an introduction to grammatical terminology and constructions.

Also listed as ENGL 2105.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

LING 3004 [0.5 credit]**Syntax I**

Introduction to syntactic theory. Representation and analysis of sentence structure, syntactic relations and syntactic dependencies. Testing of grammatical hypotheses.

Includes: Experiential Learning Activity

Prerequisite(s): LING 2005.

Lecture and tutorial three hours a week.

LING 3005 [0.5 credit]**Morphology I**

Introduction to word structure and morphological theory. Topics include inflectional and derivational morphology, morphological processes, and interaction of morphology with phonology and syntax.

Includes: Experiential Learning Activity

Prerequisite(s): LING 2005 and LING 2007.

Lectures three hours a week.

LING 3007 [0.5 credit]**Phonology I**

The sound-systems of languages, analysis of phonological structure; generative phonology; phonological rules and derivations; cross-linguistic diversity and universals; segmental phonology; stress; tone.

Includes: Experiential Learning Activity

Precludes additional credit for LING 3002 (no longer offered).

Prerequisite(s): LING 2001 (no longer offered) or LING 2007.

Lecture and tutorial three hours a week.

LING 3009 [0.5 credit]**Special Topic in Linguistics**

Selected topics in general linguistics not ordinarily treated in the regular course program. Contents of the course vary from year to year.

Lectures and discussion three hours per week.

LING 3504 [0.5 credit]**Pragmatics**

The study of language in its conversational and cultural contexts. Topics include: conversational implicature; deixis; the semantics-pragmatics boundary; speaker's reference; speech acts. May include cross-cultural pragmatics.

Also listed as PHIL 3504.

Prerequisite(s): third-year standing, and one of LING 1001, PHIL 2001, PHIL 2504/COMM 2504/LING 2504 or PHIL 3506, or LING 3505 or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Lectures three hours a week.

LING 3505 [0.5 credit]**Semantics**

Study of language meaning. Lexical meaning and meanings of larger linguistic expressions, including nominal units, verbal units, and sentences. Meaning relationships between utterances. Relationship between linguistic meaning (semantics) and contextual meaning (pragmatics). Basic formal treatments of semantics.

Also listed as PHIL 3506.

Prerequisite(s): third-year standing, and one of LING 1001, PHIL 2001, PHIL 2504/LING 2504/COMM 2504 or PHIL 3504/LING 3504, or permission of the Department of Philosophy or School of Linguistics and Language Studies. Lectures three hours a week.

LING 3601 [0.5 credit]**Language Processing and the Brain**

Introduction to adult language processing and neurolinguistics. Psychological processes underlying speech production and perception, word recognition and sentence processing. Biological foundation and neuro-cognitive mechanisms of language. Experimental techniques and methodologies of current psycholinguistic studies.

Includes: Experiential Learning Activity

Also listed as PSYC 3709.

Prerequisite(s): LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours a week.

LING 3603 [0.5 credit]**Child Language**

Milestones associated with the development of grammatical, pragmatic and metalinguistic competence from birth to about age ten, and the relative contributions of the environment, cognitive development and inborn knowledge to this development.

Includes: Experiential Learning Activity

Also listed as PSYC 3508.

Prerequisite(s): LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours a week.

LING 3604 [0.5 credit]**Communication Disorders II**

In-depth evaluation of current psycholinguistic models of processes underlying communication disorders and the biomedical support for such models. Emphasis on contrasting developmental disorders with acquired disorders. Additional exploration of other modalities (sign language, reading).

Also listed as ALDS 3604.

Precludes additional credit for LING 3009 Section "A", if taken Winter 2013.

Prerequisite(s): LING 2604.

Lectures three hours a week.

LING 3701 [0.5 credit]**Corpus Linguistics**

Computer-assisted analysis of electronic collections of naturally occurring language. Applications in such areas as language variation, grammar, lexicology, phraseology, translation, and learner language.

Includes: Experiential Learning Activity

Also listed as ALDS 3701.

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

LING 3702 [0.5 credit]**Sociolinguistics**

The place of language within society; bilingual and multilingual communities; language, social mobility and social stratification; sociolinguistic factors in language change.

Also listed as ALDS 3202.

Precludes additional credit for ALDS 2701 (no longer offered).

Prerequisite(s): ALDS 1001 and third-year standing.

Lecture three hours a week.

LING 3801 [0.5 credit]**Structure of a Specific Language**

Description and analysis of the structure of a specific language applying phonology, morphology, syntax, and semantics. Language to be studied will be announced in advance by the School.

Prerequisite(s): LING 2001 (no longer offered) or LING 2005 or LING 2007.

Lectures three hours a week.

LING 3810 [0.5 credit]**Historical Linguistics I**

Language change; sound change; analogy; the comparative method; internal reconstruction; the philological method; historical linguistics and pre-history; language change and theories of grammar.

Precludes additional credit for LING 3101.

Prerequisite(s): LING 2007.

Lectures three hours a week.

LING 3811 [0.5 credit]**Language Typology and Universals**

Cross-linguistic survey of syntactic and morphological patterns found in the languages of the world. Typological classification and identification of language universals.

Includes: Experiential Learning Activity

Precludes additional credit for LING 3001.

Prerequisite(s): LING 2005.

Lectures three hours a week.

LING 3900 [1.0 credit]**Independent Study**

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Linguistics.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

LING 3901 [0.5 credit]**Independent Study**

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Linguistics.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

LING 4004 [0.5 credit]**Syntax II**

Advanced topics in syntax.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4002 (no longer offered).

Prerequisite(s): LING 3004 and third-year standing.

Seminars three hours a week.

LING 4005 [0.5 credit]**Morphology II**

Advanced topics in morphology.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3005 and third-year standing.

Seminars three hours a week.

LING 4007 [0.5 credit]**Phonology II**

Advanced topics in phonology.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4001 (no longer offered).

Prerequisite(s): LING 3007, and third-year standing.

Seminars three hours a week.

LING 4009 [0.5 credit]**Special Topic in Linguistics**

Examination of a topic or more specialized area in linguistics or language study. Topic to be announced.

Repeatable for credit when the topic changes.

Prerequisite(s): third- or fourth-year standing in Linguistics or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5009, for which additional credit is precluded.

Seminars three hours a week.

LING 4412 [0.5 credit]**Diversité du français**

Études des variétés du français, dans ses dimensions spatiales. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. The course is taught in French, but students will submit written assignments in English. Also listed as FREN 4412.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5412 and LING 5412, for which additional credit is precluded.

Seminars three hours a week.

LING 4413 [0.5 credit]**Diachronie du français**

Étude du français, dans ses dimensions historiques. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. The course is taught in French, but students will submit written assignments in English. Also listed as FREN 4413.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5413 and LING 5413, for which additional credit is precluded.

Seminars three hours a week.

LING 4414 [0.5 credit]**Analyse du français**

Étude du français, dans ses dimensions morphologiques, syntaxiques ou phonologiques. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. Course is taught in French, but students will submit written assignments in English.

Also listed as FREN 4414.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5414 and LING 5414, for which additional credit is precluded.

Seminars three hours a week.

LING 4415 [0.5 credit]**Variation du français**

Étude des variations internes de la langue, dans des dimensions orales/écrites. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. Course is taught in French, but students submit assignments in English.

Also listed as FREN 4415.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5415 and LING 5415, for which additional credit is precluded.

Seminars three hours a week.

LING 4505 [0.5 credit]**Formal Semantics**

Advanced topics in compositional semantics and its interfaces. Topics may include: logic, semantic types, lambda calculus, intentional contexts, possible world semantics, interfaces with syntax and pragmatics quantification, anaphora, presupposition, implicatures, scope and binding, and model theory.

Includes: Experiential Learning Activity

Also listed as PHIL 4505.

Prerequisite(s): LING 3505 or PHIL 3506, and third-year standing, or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Seminars three hours a week.

LING 4510 [0.5 credit]**Lexical Semantics**

Study of the meaning of words. Topics may include lexical decomposition, meaning variation, lexical relations, and lexical aspect.

Includes: Experiential Learning Activity

Also listed as PHIL 4055.

Precludes additional credit for LING 4055 (no longer offered).

Prerequisite(s): LING 3505 or PHIL 3506, and third-year standing.

Also offered at the graduate level, with different requirements, as LING 5510, for which additional credit is precluded.

Seminar three hours a week.

LING 4601 [0.5 credit]**Cognitive Neuroscience of Language**

Further study of psychological and neurolinguistic mechanisms of adult language processing. May include topics from first language acquisition.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3601 or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5601, for which additional credit is precluded.

Seminars three hours a week.

LING 4603 [0.5 credit]**First Language Acquisition**

Advanced topics in language acquisition and development and the relative contributions of the environment, cognitive development, and inborn knowledge.

Includes: Experiential Learning Activity

Prerequisite(s): LING 1001 and LING 3603.

Also offered at the graduate level, with different requirements, as LING 5603, for which additional credit is precluded.

Seminars three hours a week.

LING 4604 [0.5 credit]**Practicum in Speech Language Pathology**

Through seven-hour-a-week field placements, students pursue personal learning objectives concerning the clinical application of the psycholinguistics of communication disorders and cognitive development. A term paper integrates experiential knowledge gained in the placement with theoretical and empirical knowledge gained from the student's program of study.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3604, fourth-year Honours standing in B.A. or B.Sc. in Linguistics with a Concentration in Psycholinguistics and Communication Disorders with a CGPA of 10.0 in the major, and permission from the School of Linguistics and Language Studies.

Field placement one day a week.

LING 4605 [0.5 credit]**Psycholinguistic Research Methods**

Experimental methodologies used in current psycholinguistic studies. Topics include experimental design and techniques, descriptive statistics, and interpreting and reporting research findings.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4009 Section "A" (2015-16 and 2016-17) and LING 4009 Section "B" (2013-14) and LING 4009 Section "C" (2017-18).

Prerequisite(s): third- or fourth-year Honours standing in Linguistics or Cognitive Science, or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5605, for which additional credit is precluded.

Seminar three hours a week.

LING 4606 [0.5 credit]**Statistics for Language Research**

Application of statistical procedures to analysis of language data and to problems of measurement in experimental linguistics, applied linguistics, psycholinguistics, and related fields.

Includes: Experiential Learning Activity

Also listed as ALDS 4606.

Precludes additional credit for ALDS 4906/LING 4009 Section "B" if taken Winter 2015 or Winter 2016.

Prerequisite(s): Third-year standing in Linguistics or Applied Linguistics and Discourse Studies or Cognitive Science, or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5606 and ALDS 5604, for which additional credit is precluded.

Seminar three hours a week.

LING 4801 [0.5 credit]**Linguistic Field Methods**

With a language consultant, students discover the phonological, morphological, and syntactic structures of the target language using linguistic elicitation. Language will vary from year to year, but will normally be a non-European language. Language documentation, data management, ethical issues surrounding research in Indigenous communities.

Includes: Experiential Learning Activity

Prerequisite(s): LING 2005 and LING 2007.

Also offered at the graduate level, with different requirements, as ALDS 5801, for which additional credit is precluded.

Lectures three hours a week.

LING 4802 [0.5 credit]**Historical Linguistics: English**

A theory-intensive course that will study the development of English starting with Proto-Indo-European progressing through Common Germanic to the stages of English itself. Topics include phonological sound changes, phonemic inventories, and morphological and syntactic typology. Precludes additional credit for LING 4101.

Prerequisite(s): LING 2005 and LING 2007, and one of LING 3005, LING 3810 or LING 3811.

Also offered at the graduate level, with different requirements, as LING 5802, ENGL 5101., for which additional credit is precluded.

Seminars three hours a week.

LING 4805 [0.5 credit]**Old English**

Studies in Old English literature and its cultural and historical contexts. Instruction in grammar to facilitate reading knowledge of the Old English language.

Also listed as ENGL 4105.

Precludes additional credit for ENGL 3102 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

LING 4900 [1.0 credit]**Independent Study in Linguistics**

Permits fourth-year Honours students to pursue their interests in a selected area of linguistics.

Prerequisite(s): permission of the instructor.

LING 4901 [0.5 credit]**Independent Study in Linguistics**

Permits fourth-year Honours students to pursue their interests in a selected area of linguistics.

Prerequisite(s): permission of the instructor.

LING 4905 [1.0 credit]

Honours Project in Experimental Linguistics

Students choose existing study in linguistic literature, replicate the study, present findings, compare to original study. Practical experience gathering and preparing materials, running experiments, analyzing data, interpreting findings; real, important contributions to the field of linguistics via replication studies (as mandated by the scientific method).

Includes: Experiential Learning Activity

Precludes additional credit for LING 4910.

Prerequisite(s): fourth-year Honours standing in Linguistics, with a Major CGPA of 9.0, and permission of the instructor.

Unscheduled.

LING 4910 [1.0 credit]

Honours Thesis in Linguistics

Open to all candidates for the B.A. (Honours) in Linguistics. A thesis project selected in consultation with the School and carried out under the direction of a faculty supervisor.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4905.

Prerequisite(s): fourth-year Honours standing in Linguistics with a CGPA of 10.0 in the major; one of LING 3004, LING 3007, LING 3505, or LING 3601; and permission of the instructor.

Mandarin Chinese (Minor)

This section presents the requirements for programs in:

- Minor in Mandarin Chinese

Minor in Mandarin Chinese (4.0 credits)

Open to all undergraduate degree students.

Requirements:

- | | |
|---|-----|
| 1. 3.0 credits in CHIN | 3.0 |
| 2. 1.0 credit in CHIN at the 3000-level or higher | 1.0 |
| 3. Subject to approval of the School, a maximum of 2.0 credits may be substituted for the above by taking courses at the 2000-level or higher in another discipline relevant to the language. | |
| 4. The remaining requirements of the major discipline(s) and degree must be satisfied. | |

Total Credits	4.0
----------------------	------------

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

Regulations

In addition to the requirements listed here, students must satisfy:

1. the University regulations including the process of Academic Performance Evaluation (see the Academic Regulations of the University section of this Calendar).

Chinese (CHIN) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

CHIN 1010 [0.5 credit]

First-Year Mandarin Chinese I

For students with no knowledge of Mandarin. Oral skills; basic reading and writing skills. Placement test for non-literate speakers of other Chinese languages. Not open to students already literate in any Chinese language. Compulsory attendance.

Precludes additional credit for CHIN 1110.

Four hours a week.

CHIN 1020 [0.5 credit]

First-Year Mandarin Chinese II

Continuation of first-year Mandarin Chinese. Oral skills; basic reading and writing skills. Compulsory attendance. Precludes additional credit for CHIN 1110.

Prerequisite(s): grade of C or higher in CHIN 1010, or permission of the School.

Four hours a week.

CHIN 1110 [1.0 credit]

Intensive First-Year Mandarin Chinese

For students with no knowledge of Mandarin Chinese. Oral skills; basic reading and writing skills. Placement test for non-literate speakers of other Chinese languages. Not open to students already literate in any Chinese language. Compulsory attendance.

Precludes additional credit for CHIN 1010 and CHIN 1020. Eight hours a week (one term).

CHIN 2010 [0.5 credit]**Second-Year Mandarin Chinese I**

Further study of Mandarin Chinese to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for CHIN 2110.

Prerequisite(s): grade of C or higher in CHIN 1020 or CHIN 1110, or permission of the School.

Four hours a week.

CHIN 2020 [0.5 credit]**Second-Year Mandarin Chinese II**

Continuation of second-year Mandarin Chinese. Further study of Mandarin Chinese to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for CHIN 2110.

Prerequisite(s): grade of C or higher in CHIN 2010 or permission of the School.

Four hours a week.

CHIN 2110 [1.0 credit]**Intensive Second-Year Mandarin Chinese**

Further study of Mandarin Chinese to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for CHIN 2010 and CHIN 2020.

Prerequisite(s): grade of C or higher in CHIN 1020 or CHIN 1110, or permission of the School.

Eight hours a week (one term).

CHIN 3010 [0.5 credit]**Third-Year Mandarin Chinese I**

Continuation of the study of Mandarin Chinese to reach a more advanced level, including ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in CHIN 2020, or CHIN 2110, or permission of the School.

Three hours a week.

CHIN 3015 [0.5 credit]**Mandarin Chinese for Heritage Speakers**

For students who have attained Mandarin Chinese proficiency in an informal setting, this course provides an opportunity to build on their existing language skills and to develop them in a formal academic setting. The course will formalize grammar awareness and enhance Mandarin Chinese literacy skills.

Precludes additional credit for 1000 and 2000 level CHIN courses, and also for CHIN 3010.

Prerequisite(s): permission of the School.

Three hours a week.

CHIN 3020 [0.5 credit]**Third-Year Mandarin Chinese II**

Continuation of third-year Mandarin Chinese. Progress toward reaching a more advanced level, including ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in CHIN 3010 or CHIN 3015, or permission of the School.

Three hours a week.

CHIN 4010 [0.5 credit]**Fourth-Year Mandarin Chinese I**

Development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Prerequisite(s): grade of C or higher in CHIN 3020, or permission of the School.

Three hours a week.

CHIN 4020 [0.5 credit]**Fourth-Year Mandarin Chinese II**

Continuation of fourth-year Mandarin Chinese. Further development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Prerequisite(s): grade of C or higher in CHIN 4010, or permission of the School.

Three hours a week.

CHIN 4210 [0.5 credit]**Functional Contemporary Mandarin Chinese I**

Further study of Mandarin Chinese to reach a more advanced level, aimed at developing speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Prerequisite(s): grade of C or higher in CHIN 4020, or permission of the School.

Three hours a week.

CHIN 4220 [0.5 credit]**Functional Contemporary Mandarin Chinese II**

Continuation of CHIN 4210. Further development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Prerequisite(s): grade of C or higher in CHIN 4210 or permission of the School.

Three hours a week.

CHIN 4380 [0.5 credit]**Topics in Chinese Culture and Society**

Selected topics in Chinese culture and society. Repeatable once for credit when topic varies. Taught in English. Prerequisite(s): Third-year standing in the Minor in Mandarin Chinese, or permission of the instructor. Three hours a week.

CHIN 4900 [1.0 credit]**Independent Study**

Research in a topic in Mandarin Chinese language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in Mandarin Chinese, grade of C or higher in CHIN 4020 or equivalent, and permission of the School.

CHIN 4901 [0.5 credit]**Independent Study**

Research in a topic in Mandarin Chinese language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in Mandarin Chinese, grade of C or higher in CHIN 4020 or equivalent, and permission of the School.

Mathematics and Statistics

This section presents the requirements for programs in:

- Mathematics B. Math. Honours
- Mathematics with Concentration in Stochastics B. Math. Honours
- Computational and Applied Mathematics and Statistics with Concentration B.Math. Honours
- Concentration in Applied Analysis
- Concentration in Applied Statistics and Probability
- Concentration in Discrete Mathematics
- Statistics B. Math. Honours
- Statistics with Concentration in Actuarial Science B. Math. Honours
- Mathematics B. Math.
- Computer Mathematics B. Math.
- Statistics B. Math.
- Computer Science and Mathematics: Concentration in Computing Theory and Numerical Methods B. Math. Combined Honours
- Computer Science and Mathematics: Concentration in Statistics and Computing B. Math. Combined Honours
- Mathematics and Physics B.Sc. Double Honours
- Economics and Mathematics B.Math. Combined Honours
- Economics and Statistics B.Math. Combined Honours
- Mathematics (Combined B.Math./M.Sc.) B.Math.
- Statistics (Combined B.Math./M.Sc.) B.Math.

- Minor in Mathematics
- Minor in Statistics

Program Requirements**Course Prerequisites**

The following courses central to B.Math. programs have grade requirements in their prerequisites:

- MATH 2000 requires C+ in (MATH 1002 (no longer offered) or MATH 2052) , or B+ in (MATH 2007 or MATH 1005), and C+ in (MATH 1102 (no longer offered) or MATH 2152), or B+ in (MATH 1107 or MATH 1104).
- MATH 2100 requires C+ in (MATH 1102 (no longer offered) or MATH 2152), or B+ in MATH 2107.
- MATH 2454 requires C+ in (MATH 1002 (no longer offered) or MATH 2052 or MATH 2007 or MATH 1005), and C+ in (MATH 1102 (no longer offered) or MATH 2152 or MATH 2107).
- STAT 2655 requires C+ in (MATH 1002 (no longer offered) or MATH 2052 or MATH 2007 or MATH 1005), and C+ in (MATH 1102 (no longer offered) or MATH 2152 or MATH 1107 or MATH 1104).
- MATH 2007 requires MATH 1004 or C- in (MATH 1007 or MATH 1009).
- MATH 2107 requires MATH 1104 or C- in MATH 1107

Course Categories for B.Math. Programs**2000-level Honours Sequence**

The following courses constitute the 2000-level Honours Sequence:

MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis
MATH 2100 [1.0]	Algebra
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)
STAT 2559 [0.5]	Basics of Statistical Modeling (Honours)
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)
MATH 2907 [0.5]	Directed Studies (Honours)

3000-level Honours Sequence

The following courses constitute the 3000-level Honours Sequence. Courses in the 3000-level Honours Sequence have grade levels in their prerequisites

MATH 3001 [0.5]	Real Analysis I (Honours)
MATH 3002 [0.5]	Real Analysis II (Honours)
MATH 3003 [0.5]	Advanced Differential Calculus (Honours)
MATH 3057 [0.5]	Functions of a Complex Variable (Honours)
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)
MATH 3106 [0.5]	Introduction to Group Theory (Honours)
MATH 3158 [0.5]	Rings and Fields (Honours)
MATH 3306 [0.5]	Elements of Set Theory (Honours)
MATH 3355 [0.5]	Number Theory and Applications (Honours)
MATH 3806 [0.5]	Numerical Analysis (Honours)

MATH 3807 [0.5]	Mathematical Software (Honours)
MATH 3855 [0.5]	Discrete Structures and Applications (Honours)
STAT 3506 [0.5]	Stochastic Processes and Applications (Honours)
STAT 3553 [0.5]	Regression Modeling (Honours)
STAT 3558 [0.5]	Elements of Probability Theory (Honours)
STAT 3559 [0.5]	Mathematical Statistics (Honours)

Natural Science Electives

All courses with the following subject codes:

BIOC, BIOL, CHEM, ENSC, EARTH, ISCI, NSCI, PHYS

APPROVED ARTS OR SOCIAL SCIENCES ELECTIVES

All courses offered by the Faculty of Arts and Social Sciences and the Faculty of Public Affairs are acceptable as Arts or Social Sciences Electives except for the following courses, which are only accepted for credit as free electives in any program of the School. See item 3 under Prohibited and Restricted Courses below concerning Computer Mathematics programs.

Business

BUSI 1001 [0.5]	Principles of Financial Accounting
BUSI 1002 [0.5]	Management Accounting
BUSI 1004 [0.5]	Financial Accounting for Business Students
BUSI 1005 [0.5]	Managerial Accounting for Business Students
BUSI 1402 [0.5]	Introduction to Business Information and Communication Technologies
BUSI 2001 [0.5]	Intermediate Accounting I
BUSI 2002 [0.5]	Intermediate Accounting II
BUSI 2402 [0.5]	Business Applications Development
BUSI 3001 [0.5]	Accounting for Business Combinations
BUSI 3008 [0.5]	Intermediate Management Accounting and Control

Economics

ECON 4005 [0.5]	Operations Research II
-----------------	------------------------

Geography

GEOG 3102 [0.5]	Geomorphology
GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3105 [0.5]	Climate and Atmospheric Change
GEOG 3108 [0.5]	Soil Properties
GEOG 4000/ENST 4100 [0.5]	Directed Studies in Geography
GEOG 4005/ENST 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103/ENVE	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Geomatics

GEOG 2007 [0.5]	Points, Lines and Polygons
GEOG 3002 [0.5]	Introduction to Remote Sensing
GEOG 3005 [0.5]	Geospatial Analysis
GEOG 3007 [0.5]	Cartographic Theory and Design
GEOG 4003 [0.5]	Remote Sensing of the Environment

GEOG 4008 [0.5]	Advanced Topics in Geographic Information Systems
GEOG 4009 [0.5]	Applications in Geographic Information Systems

Psychology

PSYC 2700 [0.5]	Introduction to Cognitive Psychology
PSYC 3506 [0.5]	Cognitive Development
PSYC 3700 [1.0]	Cognition (Honours Seminar)
PSYC 3702 [0.5]	Perception
PSYC 4001 [0.5]	Special Topics in Psychology

Prohibited and Restricted Courses

- MATH 1805/COMP 1805 can be counted only as a half-credit free elective in Mathematics and Statistics programs.
- The following courses may not be counted for academic credit (even as free electives) in any program offered by the School of Mathematics and Statistics: BIOL 3604, COMS 3001, CRCJ 3001, ECON 1401, ECON 1402, ECON 2201 (no longer offered), ECON 2202 (no longer offered), ECON 2210, ECON 2220, ECON 2400 (no longer offered), ECON 3001, ECON 4001, ECON 4002, ECON 4004, ECON 4025, ECON 4706, ECON 4707, ECON 4713, ECON 2606, GEOG 2006, GEOG 3003, NEUR 2001, NEUR 2002, NEUR 3001, NEUR 3002, PSCI 2702, PSYC 2001, PSYC 2002, PSYC 3000 [1.0], SOCI 3000, SOCI 3002, SOCI 4009, SOWK 3001, SYSC 2510. Students who have completed ECON 2201 (no longer offered) and ECON 2202 (no longer offered) and enter a B.Math. program may be exempted from taking STAT 2507 and STAT 2509 only with permission of the School of Mathematics and Statistics, and provided the grade in ECON 2201 (no longer offered) and ECON 2202 (no longer offered) is B- or higher in each.
- BUSI 1402, BUSI 2402, and COMP 1001 may not count for credit in a B.Math or a Computer Science and Mathematics B.Math Combined Honours program, even as free electives.
- Only one of MATH 3806, COMP 3806 (no longer offered), COMP 3800 (no longer offered), or MATH 3800 may count for credit in a B.Math. program.

Mathematics

B. Math. Honours (20.0 credits)

A. Credits Included in the Major CGPA (11.5 credits)

1. 2.5 credits in:	2.5
MATH 1052 [0.5]	Calculus and Introductory Analysis I
MATH 1152 [0.5]	Introductory Algebra I
MATH 1800 [0.5]	Introduction to Mathematical Reasoning
MATH 2052 [0.5]	Calculus and Introductory Analysis II
MATH 2152 [0.5]	Introductory Algebra II
2. 3.5 credits in:	3.5
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis

MATH 2100 [1.0]	Algebra	
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)	
STAT 2559 [0.5]	Basics of Statistical Modeling (Honours)	
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)	
3. 2.0 credits in:		2.0
MATH 3001 [0.5]	Real Analysis I (Honours)	
MATH 3057 [0.5]	Functions of a Complex Variable (Honours)	
MATH 3106 [0.5]	Introduction to Group Theory (Honours)	
MATH 3158 [0.5]	Rings and Fields (Honours)	
4. 0.5 credit from:		0.5
MATH 3002 [0.5]	Real Analysis II (Honours)	
MATH 3003 [0.5]	Advanced Differential Calculus (Honours)	
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)	
5. 1.0 credit from	3000-level Honours Sequence	1.0
6. 1.5 credits in	MATH or STAT at the 4000-level or higher	1.5
7. 0.5 credit in:		0.5
MATH 4905 [0.5]	Honours Project (Honours)	
B. Credits Not Included in the Major CGPA (8.5 credits)		
8. 4.0 credits not in	MATH, STAT or COMP, consisting of:	4.0
a.	1.0 credit in Natural Science Electives	
b.	3.0 credits from Natural Science, or Approved Arts and Social Sciences electives	
9. 4.5 credits in	free electives	4.5
Total Credits		20.0

Mathematics with Concentration in Stochastics B. Math. Honours (20.0 credits)

Items 3, 4, 5 and 6 in the Mathematics degree requirements are replaced by:

3. 3.0 credits in:		3.0
MATH 3001 [0.5]	Real Analysis I (Honours)	
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)	
STAT 3506 [0.5]	Stochastic Processes and Applications (Honours)	
STAT 3558 [0.5]	Elements of Probability Theory (Honours)	
STAT 3559 [0.5]	Mathematical Statistics (Honours)	
STAT 4501 [0.5]	Probability Theory (Honours)	
4. 0.5 credit from:		0.5
STAT 3553 [0.5]	Regression Modeling (Honours)	
MATH 3801 [0.5]	Linear Programming	
5. 0.5 credit in	STAT at the 4000-level	0.5
6. 1.0 credit in	MATH or STAT at the 4000-level or higher	1.0
Total Credits		5.0

Computational and Applied Mathematics and Statistics with Concentration B.Math. Honours (20.0 credits)

A. Credits included in the Major CGPA (14.5 credits)

1. 7.5 credits in:		7.5
---------------------------	--	------------

COMP 1405 [0.5]	Introduction to Computer Science I	
COMP 1406 [0.5]	Introduction to Computer Science II	
COMP 2401 [0.5]	Introduction to Systems Programming	
COMP 2402 [0.5]	Abstract Data Types and Algorithms	
MATH 1052 [0.5]	Calculus and Introductory Analysis I	
MATH 1152 [0.5]	Introductory Algebra I	
STAT 1500 [0.5]	Introduction to Statistical Computing	
MATH 1800 [0.5]	Introduction to Mathematical Reasoning	
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis	
MATH 2052 [0.5]	Calculus and Introductory Analysis II	
MATH 2152 [0.5]	Introductory Algebra II	
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)	
STAT 2559 [0.5]	Basics of Statistical Modeling (Honours)	
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)	
2. 6.5 credits in	one of the concentrations described below, also included in the Major CGPA:	6.5
3. 0.5 credit from:		0.5
MATH 4905 [0.5]	Honours Project (Honours)	
STAT 4905 [0.5]	Honours Project (Honours)	
B. Credits Not Included in the Major CGPA (5.5 credits)		
4. 1.0 credit in	Natural Science electives at the 1000 level or above	1.0
5. 3.0 credits from	Natural Science, or Approved Arts and Social Sciences electives	3.0
6. 1.5 credits in	free electives	1.5
Total Credits		20.0

Concentration in Applied Analysis (6.5 credits)

Requirements:

2a. 3.0 credits in:		3.0
MATH 2100 [1.0]	Algebra	
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)	
MATH 3057 [0.5]	Functions of a Complex Variable (Honours)	
MATH 3806 [0.5]	Numerical Analysis (Honours)	
MATH 3855 [0.5]	Discrete Structures and Applications (Honours)	
2b. 1.0 credit from:		1.0
MATH 4700 [0.5]	Partial Differential Equations (Honours)	
MATH 4701 [0.5]	Topics in Differential Equations (Honours)	
MATH 4703 [0.5]	Dynamical Systems (Honours)	
MATH 4708 [0.5]	Asymptotic Methods of Applied Mathematics (Honours)	
MATH 4806 [0.5]	Numerical Linear Algebra (Honours)	
MATH 4816 [0.5]	Numerical Analysis for Differential Equations (Honours)	

2c. 0.5 credit in MATH at the 4000 level	0.5
2d. 2.0 credits in MATH or STAT at the 3000 level or above	2.0
Total Credits	6.5

Concentration in Applied Statistics and Probability (6.5 credits)

Requirements:

2a. 2.5 credits in:	2.5
MATH 3107 [0.5] Linear Algebra III	
STAT 3506 [0.5] Stochastic Processes and Applications (Honours)	
STAT 3553 [0.5] Regression Modeling (Honours)	
STAT 3558 [0.5] Elements of Probability Theory (Honours)	
STAT 3559 [0.5] Mathematical Statistics (Honours)	
2b. 1.5 credits from:	1.5
STAT 4500 [0.5] Parametric Estimation (Honours)	
STAT 4502 [0.5] Survey Sampling (Honours)	
STAT 4503 [0.5] Applied Multivariate Analysis (Honours)	
STAT 4504 [0.5] Statistical Design and Analysis of Experiments (Honours)	
STAT 4506 [0.5] Nonparametric Statistics (Honours)	
STAT 4508 [0.5] Stochastic Models (Honours)	
STAT 4509 [0.5] Advanced Mathematical Modeling (Honours)	
STAT 4555 [0.5] Monte Carlo Simulation (Honours)	
STAT 4601 [0.5] Data Mining I (Honours)	
STAT 4603 [0.5] Time Series and Forecasting (Honours)	
STAT 4604 [0.5] Statistical Computing (Honours)	
2c. 2.5 credits in MATH or STAT at the 3000 level or above	2.5
Total Credits	6.5

Concentration in Discrete Mathematics (6.5 credits)

Requirements:

2a. 3.0 credits in:	3.0
MATH 2100 [1.0] Algebra	
MATH 3801 [0.5] Linear Programming	
MATH 3802 [0.5] Combinatorial Optimization	
MATH 3806 [0.5] Numerical Analysis (Honours)	
MATH 3855 [0.5] Discrete Structures and Applications (Honours)	
2b. 1.0 credit from:	1.0
MATH 4109 [0.5] Fields and Coding Theory (Honours)	
MATH 4801 [0.5] Topics in Combinatorics (Honours)	
MATH 4802 [0.5] Introduction to Mathematical Logic (Honours)	
MATH 4803 [0.5] Computable Functions (Honours)	
MATH 4805 [0.5] Theory of Automata (Honours)	
MATH 4807 [0.5] Game Theory (Honours)	
MATH 4808 [0.5] Graph Theory and Algorithms (Honours)	
MATH 4811 [0.5] Combinatorial Design Theory (Honours)	
2c. 0.5 credit in MATH at the 4000 level	0.5
2d. 2.0 credits in MATH or STAT at the 3000 level or above	2.0
Total Credits	6.5

Statistics

B. Math. Honours (20.0 credits)

A. Credits Included in the Major CGPA (13.0 credits)

1. 3.0 credits in:	3.0
MATH 1052 [0.5] Calculus and Introductory Analysis I	
MATH 1152 [0.5] Introductory Algebra I	
MATH 1800 [0.5] Introduction to Mathematical Reasoning	
MATH 2052 [0.5] Calculus and Introductory Analysis II	
MATH 2152 [0.5] Introductory Algebra II	
STAT 1500 [0.5] Introduction to Statistical Computing	
2. 1.0 credit in:	1.0
COMP 1005 [0.5] Introduction to Computer Science I	
COMP 1006 [0.5] Introduction to Computer Science II	
3. 6.0 credits in:	6.0
MATH 2000 [1.0] Multivariable Calculus and Fundamentals of Analysis	
MATH 2454 [0.5] Ordinary Differential Equations (Honours)	
MATH 3806 [0.5] Numerical Analysis (Honours)	
STAT 4905 [0.5] Honours Project (Honours)	
STAT 2559 [0.5] Basics of Statistical Modeling (Honours)	
STAT 2655 [0.5] Introduction to Probability with Applications (Honours)	
STAT 3506 [0.5] Stochastic Processes and Applications (Honours)	
STAT 3553 [0.5] Regression Modeling (Honours)	
STAT 3558 [0.5] Elements of Probability Theory (Honours)	
STAT 3559 [0.5] Mathematical Statistics (Honours)	
STAT 4500 [0.5] Parametric Estimation (Honours)	
4. 1.0 credit from:	1.0
MATH 2100 [1.0] Algebra	
or	
MATH 3107 [0.5] Linear Algebra III	
and 0.5 credit from:	
3000-level Honours Sequence, or:	
MATH 3705 [0.5] Mathematical Methods I	
MATH 3801 [0.5] Linear Programming	
MATH 3807 [0.5] Mathematical Software (Honours)	
MATH 3809 [0.5] Introduction to Number Theory and Cryptography	
or Mathematics or Statistics at the 4000-level or higher	
5. 0.5 credit from the 3000-level Honours Sequence or MATH or STAT at the 4000-level or higher	0.5
6. 1.5 credits in STAT at the 4000-level	1.5
B. Credits Not Included in the Major CGPA (7.0 credits)	
7. 4.0 credits not in MATH, STAT or COMP, consisting of:	4.0
a. 1.0 credit in Natural Science Electives	
b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives	
8. 3.0 credits in free electives	3.0
Total Credits	20.0

Statistics with Concentration in Actuarial Science

B. Math. Honours (20.0 credits)

A. Credits Included in the Major CGPA (14.0 credits)

1. 3.0 credits in: 3.0

MATH 1052 [0.5] Calculus and Introductory Analysis I

MATH 1152 [0.5] Introductory Algebra I

MATH 1800 [0.5] Introduction to Mathematical Reasoning

MATH 2052 [0.5] Calculus and Introductory Analysis II

MATH 2152 [0.5] Introductory Algebra II

STAT 1500 [0.5] Introduction to Statistical Computing

2. 0.5 credit in: 0.5

COMP 1005 [0.5] Introduction to Computer Science I

3. 6.5 credits in: 6.5

MATH 2000 [1.0] Multivariable Calculus and Fundamentals of Analysis

MATH 2454 [0.5] Ordinary Differential Equations (Honours)

MATH 3806 [0.5] Numerical Analysis (Honours)

STAT 2559 [0.5] Basics of Statistical Modeling (Honours)

STAT 2655 [0.5] Introduction to Probability with Applications (Honours)

STAT 2660 [0.5] Mathematics for Finance (Honours)

STAT 3559 [0.5] Mathematical Statistics (Honours)

STAT 4500 [0.5] Parametric Estimation (Honours)

STAT 4905 [0.5] Honours Project (Honours)

4. 1.0 credit in: 1.0

MATH 3107 [0.5] Linear Algebra III

and 0.5 credit from:

3000-level Honours Sequence, or:

MATH 3705 [0.5] Mathematical Methods I

MATH 3801 [0.5] Linear Programming

MATH 3807 [0.5] Mathematical Software (Honours)

MATH 3809 [0.5] Introduction to Number Theory and Cryptography

or Mathematics or Statistics at the 4000-level or higher

5. 1.0 credit in: 1.0

STAT 3660 [0.5] Actuarial Mathematics I

STAT 3661 [0.5] Life Contingent Risk Modelling I

6. 2.0 credit in: 2.0

STAT 4508 [0.5] Stochastic Models (Honours)

STAT 4603 [0.5] Time Series and Forecasting (Honours)

STAT 4660 [0.5] Actuarial Mathematics II

STAT 4661 [0.5] Life Contingent Risk Modelling II

B. Credits Not Included in the Major CGPA (7.0 credits):

7. 3.0 credits in: 3.0

BUSI 1001 [0.5] Principles of Financial Accounting

BUSI 1002 [0.5] Management Accounting

ECON 1001 [0.5] Introduction to Microeconomics

ECON 1002 [0.5] Introduction to Macroeconomics

ECON 2020 [0.5] Intermediate Microeconomics I: Producers and Market Structure

ECON 2102 [0.5] Intermediate Macroeconomics I

8. 2.0 credits in: 2.0

BUSI 2504 [0.5] Business Finance I

BUSI 2505 [0.5] Business Finance II

BUSI 3500 [0.5] Applied Corporate Finance

BUSI 3512 [0.5] Derivatives

or

ECON 2030 [0.5] Intermediate Microeconomics II: Consumers and General Equilibrium

ECON 3050 [0.5] Introduction to Financial Economics

ECON 4051 [0.5] Financial Asset Pricing

ECON 4052 [0.5] Corporate Financial Economics

9. 1.0 credit in Natural Science electives 1.0

Total Credits 20.0

Mathematics

B. Math. (15.0 credits)

A. Credits Included in the Major CGPA (7.5 credits)

1. 0.5 credit in: 0.5

MATH 1800 [0.5] Introduction to Mathematical Reasoning

2. 1.0 credit in: 1.0

MATH 1007 [0.5] Elementary Calculus I

or MATH 1004 [0.5] Calculus for Engineering or Physics

or MATH 1052 [0.5] Calculus and Introductory Analysis I

and

MATH 2007 [0.5] Elementary Calculus II

or MATH 1005 [0.5] Differential Equations and Infinite Series for Engineering or Physics

or MATH 2052 [0.5] Calculus and Introductory Analysis II

3. 1.0 credit in: 1.0

MATH 1107 [0.5] Linear Algebra I

or MATH 1104 [0.5] Linear Algebra for Engineering or Science

or MATH 1152 [0.5] Introductory Algebra I

and

MATH 2107 [0.5] Linear Algebra II

or MATH 2152 [0.5] Introductory Algebra II

4. 2.0 credits in: 2.0

MATH 2008 [0.5] Intermediate Calculus

MATH 2108 [0.5] Abstract Algebra I

MATH 2404 [0.5] Ordinary Differential Equations I

STAT 2507 [0.5] Introduction to Statistical Modeling I

5. 3.0 credits from: 3.0

STAT 2509 [0.5] Introduction to Statistical Modeling II

MATH or STAT at the 3000-level or higher

Excluding:

MATH 3101 [0.5] Algebraic Structures with Computer Applications

STAT 3502 [0.5] Probability and Statistics

B. Credits Not Included in the Major CGPA (7.5 credits)

6. 4.0 credits not in MATH, STAT or COMP, consisting of:	4.0
a. 1.0 credit in Natural Science Electives	
b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives	
7. 3.5 credits in free electives.	3.5
Total Credits	15.0

Computer Mathematics

B. Math. (15.0 credits)

A. Credits Included in the Major CGPA (10.5 credits)

1. 0.5 credit in:	0.5
MATH 1800 [0.5] Introduction to Mathematical Reasoning	
2. 1.0 credit in:	1.0
MATH 1007 [0.5] Elementary Calculus I	
or MATH 1004 [0.5] Calculus for Engineering or Physics	
or MATH 1052 [0.5] Calculus and Introductory Analysis I	
and	
MATH 2007 [0.5] Elementary Calculus II	
or MATH 1005 [0.5] Differential Equations and Infinite Series for Engineering or Physics	
or MATH 2052 [0.5] Calculus and Introductory Analysis II	
3. 1.0 credit in:	1.0
MATH 1107 [0.5] Linear Algebra I	
or MATH 1104 [0.5] Linear Algebra for Engineering or Science	
or MATH 1152 [0.5] Introductory Algebra I	
and	
MATH 2107 [0.5] Linear Algebra II	
or MATH 2152 [0.5] Introductory Algebra II	
4. 2.5 credits in:	2.5
COMP 1005 [0.5] Introduction to Computer Science I	
COMP 1006 [0.5] Introduction to Computer Science II	
COMP 2401 [0.5] Introduction to Systems Programming	
COMP 2402 [0.5] Abstract Data Types and Algorithms	
COMP 2404 [0.5] Introduction to Software Engineering	
5. 2.5 credits in:	2.5
MATH 2008 [0.5] Intermediate Calculus	
MATH 3804 [0.5] Design and Analysis of Algorithms I	
MATH 3825 [0.5] Discrete Structures and Applications	
STAT 2507 [0.5] Introduction to Statistical Modeling I	
STAT 2605 [0.5] Probability Models	
6. 0.5 credit from:	0.5
MATH 2108 [0.5] Abstract Algebra I	
MATH 3101 [0.5] Algebraic Structures with Computer Applications	
7. 1.0 credit from:	1.0
MATH 3801 [0.5] Linear Programming	
MATH 3802 [0.5] Combinatorial Optimization	
MATH 3800 [0.5] Mathematical Modeling and Computational Methods	
MATH 3807 [0.5] Mathematical Software (Honours)	
MATH 3809 [0.5] Introduction to Number Theory and Cryptography	
8. 1.0 credit in MATH or STAT at the 3000 level	1.0

9. 0.5 credit in MATH or STAT at the 2000 level or higher	0.5
B. Credits Not Included in the Major CGPA (4.5 credits)	
10. 4.0 credits not in MATH, STAT or COMP, consisting of:	4.0
a. 1.0 credit in Natural Science Electives	
b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives	
11. 0.5 credit in free electives.	0.5
Total Credits	15.0

Statistics

B. Math. (15.0 credits)

A. Credits Included in the Major CGPA (8.0 credits)

1. 1.0 credit in:	1.0
MATH 1800 [0.5] Introduction to Mathematical Reasoning	
STAT 1500 [0.5] Introduction to Statistical Computing	
2. 1.0 credit in:	1.0
MATH 1007 [0.5] Elementary Calculus I

MATH 4806 [0.5]	Numerical Linear Algebra (Honours)	
MATH 4807 [0.5]	Game Theory (Honours)	
MATH 4808 [0.5]	Graph Theory and Algorithms (Honours)	
MATH 4811 [0.5]	Combinatorial Design Theory (Honours)	
MATH 4816 [0.5]	Numerical Analysis for Differential Equations (Honours)	
MATH 4821 [0.5]	Quantum Computing (Honours)	
MATH 4822 [0.5]	Wavelets and Digital Signal Processing (Honours)	
7. 0.5 credit in COMP at the 3000 level or above.		0.5
B. Credits Not Included in the Major CGPA (4.0 credits)		
8. 4.0 credits not in MATH, STAT, or COMP consisting of:		4.0
a. 1.0 credit in Natural Science electives		
b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives		
Total Credits		20.0

Note:

The following courses offered by the School of Business and the Faculty of Engineering are treated as Computer Science courses in this program:

Business

BUSI 2400 [0.5]	Foundations of Information Systems
BUSI 4400 [0.5]	IS Strategy, Management and Acquisition
BUSI 4406 [0.5]	Business Analytics

Engineering

SYSC 3303 [0.5]	Real-Time Concurrent Systems
SYSC 4005 [0.5]	Discrete Simulation/Modeling
SYSC 4507 [0.5]	Computer Systems Architecture

**Computer Science and Mathematics:
Concentration in Statistics and Computing
B. Math. Combined Honours (20.0 credits)**

A. Credits Included in the Major CGPA (16.5 credits)

1. 5.0 credits in:	5.0
MATH 1052 [0.5]	Calculus and Introductory Analysis I
MATH 1152 [0.5]	Introductory Algebra I
MATH 1800 [0.5]	Introduction to Mathematical Reasoning
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis

MATH 2052 [0.5]	Calculus and Introductory Analysis II	
MATH 2100 [1.0]	Algebra	
MATH 2152 [0.5]	Introductory Algebra II	
STAT 1500 [0.5]	Introduction to Statistical Computing	
2. 6.0 credits in:		6.0
COMP 1405 [0.5]	Introduction to Computer Science I	
COMP 1406 [0.5]	Introduction to Computer Science II	
COMP 2401 [0.5]	Introduction to Systems Programming	
COMP 2402 [0.5]	Abstract Data Types and Algorithms	
COMP 2404 [0.5]	Introduction to Software Engineering	
COMP 2406 [0.5]	Fundamentals of Web Applications

2. 0.5 credit from:		0.5
MATH 3002 [0.5]	Real Analysis II (Honours)	

MATH 3003 [0.5]	Advanced Differential Calculus (Honours)	
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)	
3. 0.5 credit in:		0.5
MATH 4905 [0.5]	Honours Project (Honours)	
4. 1.0 credit in MATH	or STAT at the 4000-level	1.0
5. 4.0 credits in:		4.0
ECON 1001 [0.5]	Introduction to Microeconomics	
ECON 1002 [0.5]	Introduction to Macroeconomics	
ECON 2020 [0.5]	Intermediate Microeconomics I: Producers and Market Structure	
ECON 2030 [0.5]	Intermediate Microeconomics II: Consumers and General Equilibrium	
ECON 2102 [0.5]	Intermediate Macroeconomics I	
ECON 2103 [0.5]	Intermediate Macroeconomics II	
ECON 4020 [0.5]	Advanced Microeconomic Theory	
ECON 4021 [0.5]	Advanced Macroeconomic Theory	
6. 2.0 credits in ECON	at the 4000-level	2.0
B. Credits Not Included in the Major CGPA (4.5 credits)		
7. 1.0 credit in:		1.0
COMP 1005 [0.5]	Introduction to Computer Science I	
COMP 1006 [0.5]	Introduction to Computer Science II	
8. 1.0 credit in	Natural Science Electives	1.0
9. 2.5 credits in	free electives	2.5
Total Credits		20.0

Notes:

1. An Honours Essay (ECON 4908 [1.0]) may be written by students with Overall and Major CGPAS of 9.50 or higher. In cases where a grade of B- or higher is earned on this essay, it may count for 1.0 credit in ECON at the 4000-level. Qualified students who choose to pursue the Honours Essay option must first complete an Honours Essay prospectus to the satisfaction of both their adviser and the Department of Economics Undergraduate Supervisor.
2. The following courses do not count for credit in this program: ECON 1401, ECON 1402, ECON 2201 (no longer offered), ECON 2202 (no longer offered), ECON 2210, ECON 2220, ECON 2400 (no longer offered), ECON 3001, ECON 4001, ECON 4002, ECON 4004, ECON 4025, ECON 4706, ECON 4707, and ECON 4713.

Economics and Statistics

B.Math. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (16.0 credits)

1. 9.0 credits in:		9.0

6. 1.0 credit in:		1.0
COMP 1005 [0.5]	Introduction to Computer Science I	
COMP 1006 [0.5]	Introduction to Computer Science II	
7. 1.0 credit in Natural Science Electives		1.0
8. 2.0 credits in free electives		2.0
Total Credits		20.0

Notes:

1. An Honours Essay ECON 4908 [1.0] may be written by students with Overall and Major CGPAs of 9.50 or higher. In cases where a grade of B- or higher is earned on this essay, it may count for 1.0 credit in ECON at the 4000-level. Qualified students who choose to pursue the Honours Essay option must first complete an Honours Essay prospectus to the satisfaction of both their adviser and the Department of Economics Undergraduate Supervisor.
2. MATH 2100 [1.0] may replace MATH 3107 and 0.5 credit in free electives in this program.

Program Requirements for Combined B.Math./M.Sc.

This "fast-track" program combines the requirements for Bachelor of Mathematics in Mathematics or Statistics, and Master of Science in Mathematics, into a sequence that

will enable exceptional students to complete in four years of study.

Entry to this program directly from an Ontario High School requires both of the following:

1. an average of 90 per cent or better on Grade 12 Mathematics: Advanced Functions and Grade 12 Mathematics: Calculus and Vectors;
2. an average of 85 per cent or better over six credits in Grade 12 courses of University or University/College type.

Admission, continuation and graduation from the undergraduate portion of the program requires a Major CGPA of 11.0 or better and Overall CGPA of 10.00 or better.

Before entry into the fourth year of this program, students must: obtain a recommendation from the School of Mathematics and Statistics to continue, apply to graduate with a B.Math. degree, by the end of January of their third year, and submit an application for graduate studies to the School by mid-February.

Undergraduate Portion

Students may apply for admission to either the Mathematics or the Statistics versions of the program.

Mathematics (Combined B.Math./M.Sc.) B.Math. (15.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 7.5 credits in:		7.5
MATH 1052 [0.5]	Calculus and Introductory Analysis I	
MATH 1152 [0.5]	Introductory Algebra I	
MATH 1800 [0.5]	Introduction to Mathematical Reasoning	
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis	
MATH 2052 [0.5]	Calculus and Introductory Analysis II	
MATH 2100 [1.0]	Algebra	
MATH 2152 [0.5]	Introductory Algebra II	
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)	
MATH 3001 [0.5]	Real Analysis I (Honours)	
MATH 3057 [0.5]	Functions of a Complex Variable (Honours)	
MATH 3106 [0.5]	Introduction to Group Theory (Honours)	
MATH 3158 [0.5]	Rings and Fields (Honours)	
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)	
2. 0.5 credit from:		0.5
MATH 3002 [0.5]	Real Analysis II (Honours)	
MATH 3003 [0.5]	Advanced Differential Calculus (Honours)	
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)	
3. 0.5 credit from 3000-level Honours Sequence or MATH or STAT at the 4000-level or higher		0.5

4. **1.5 credits** at the 4000-level or higher in MATH or STAT 1.5

B. Credits Not Included in the Major CGPA (5.0 credits)

5. **4.0 credits** not in MATH, STAT or COMP, consisting of: 4.0

- a. 1.0 credit in Natural Science Electives
- b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives

6. **1.0 credit** in free electives 1.0

Total Credits 15.0

Students wishing to specialize in Stochastics may, with the permission of the School, replace **Credits Included in the Major CGPA** of the Mathematics version with:

1. **6.0 credits** in: 6.0

MATH 1052 [0.5]	Calculus and Introductory Analysis I
MATH 1152 [0.5]	Introductory Algebra I
MATH 1800 [0.5]	Introduction to Mathematical Reasoning
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis
MATH 2052 [0.5]	Calculus and Introductory Analysis II
MATH 2100 [1.0]	Algebra
MATH 2152 [0.5]	Introductory Algebra II
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)
STAT 2559 [0.5]	Basics of Statistical Modeling (Honours)
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)

2. **2.0 credits** in: 2.0

MATH 3001 [0.5]	Real Analysis I (Honours)
STAT 3506 [0.5]	Stochastic Processes and Applications (Honours)
STAT 3558 [0.5]	Elements of Probability Theory (Honours)
STAT 3559 [0.5]	Mathematical Statistics (Honours)

3. **0.5 credit** from: 0.5

MATH 3002 [0.5]	Real Analysis II (Honours)
MATH 3003 [0.5]	Advanced Differential Calculus (Honours)
MATH 3057 [0.5]	Functions of a Complex Variable (Honours)
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)

4. **1.5 credits** at the 4000-level or higher in MATH or STAT 1.5

Total Credits 10.0

Statistics (Combined B.Math./M.Sc.)

B.Math. (15.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. **8.5 credits** in: 8.5

MATH 1052 [0.5]	Calculus and Introductory Analysis I
MATH 1152 [0.5]	Introductory Algebra I
MATH 1800 [0.5]	Introduction to Mathematical Reasoning

MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis
MATH 2052 [0.5]	Calculus and Introductory Analysis II
MATH 2100 [1.0]	Algebra
MATH 2152 [0.5]	Introductory Algebra II
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)
STAT 1500 [0.5]	Introduction to Statistical Computing
STAT 2559 [0.5]	Basics of Statistical Modeling (Honours)
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)
STAT 3506 [0.5]	Stochastic Processes and Applications (Honours)
STAT 3553 [0.5]	Regression Modeling (Honours)
STAT 3558 [0.5]	Elements of Probability Theory (Honours)
STAT 3559 [0.5]	Mathematical Statistics (Honours)

2. **1.5 credits** in MATH or STAT at the 4000 level or above 1.5

B. Credits Not Included in the Major CGPA (5.0 credits)

3. **4.0 credits** not in MATH, STAT, or COMP consisting of: 4.0

- a. 1.0 credit in Natural Science Electives
- b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives

4. **1.0 credit** in free electives 1.0

Total Credits 15.0

Graduate Portion - M.Sc.

During the graduate portion of the "fast-track" program, the student is registered as a graduate student and is covered by the regulations of the Faculty of Graduate Studies.

5. **1.5 credits** at the 5000-level or higher in MATH or STAT 1.5

6. **1.0 credit** at the 5000-level or higher in mathematics or statistics or from another department or school 1.0

7. Either: 2.0

MATH 4905 or STAT 4905 and 1.5 credits in MATH or STAT at the 5000-level or higher
or
an M.Sc. thesis in Mathematics

Total Credits 4.5

Minor in Mathematics (4.0 credits)

This minor is open to students in all undergraduate programs except programs of the School of Mathematics and Statistics.

Requirements

1. **1.0 credit** from: 1.0

MATH 1007 [0.5]	Elementary Calculus I
& MATH 2007 [0.5]	Elementary Calculus II
or	
MATH 1004 [0.5]	Calculus for Engineering or Physics
& MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics

or

MATH 1052 [0.5]	Calculus and Introductory Analysis	
& MATH 2052 [0.5]	I	
	Calculus and Introductory Analysis II	
2. 1.0 credit from:		1.0
MATH 1107 [0.5]	Linear Algebra I	
or MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
MATH 2107 [0.5]	Linear Algebra II	
or		
MATH 1152 [0.5]	Introductory Algebra I	
& MATH 2152 [0.5]	Introductory Algebra II	
3. 0.5 credit from:		0.5
MATH 1800 [0.5]	Introduction to Mathematical Reasoning	
or		
	0.5 credit in MATH at 2000-level	
4. 1.0 credit in MATH at the 2000-level or higher		1.0
5. 0.5 credit in MATH at the 3000-level or higher		0.5
6. The remaining requirements of the major discipline(s) and degree must be satisfied.		
Total Credits		4.0

Note: As a prerequisite, MATH 1800 opens more options at the 2000-level and above. It is recommended that students taking MATH 1800 do so as early as possible.

Minor in Statistics (4.0 credits)

This minor is open to students in all undergraduate programs except programs of the School of Mathematics and Statistics.

Requirements:

1. 0.5 credit from:		0.5
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1007 [0.5]	Elementary Calculus I	
MATH 1009 [0.5]	Mathematics for Business	
MATH 1052 [0.5]	Calculus and Introductory Analysis I	
2. 0.5 credit from:		0.5
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
MATH 1107 [0.5]	Linear Algebra I	
MATH 1119 [0.5]	Linear Algebra: with Applications to Business	
MATH 1152 [0.5]	Introductory Algebra I	
3. 1.0 credit from:		1.0
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
& STAT 2509 [0.5]	Introduction to Statistical Modeling II	
or		
STAT 3502 [0.5]	Probability and Statistics	
& STAT 2509 [0.5]	Introduction to Statistical Modeling II	
or		
STAT 2606 [0.5]	Business Statistics	
& STAT 2607 [0.5]	Business Statistics II	
or		
ECON 2210 [0.5]	Introductory Statistics for Economics	
& ECON 2220 [0.5]	Introductory Econometrics	
4. 1.5 credits in:		1.5

STAT 3503 [0.5]	Regression Analysis	
STAT 3504 [0.5]	Analysis of Variance and Experimental Design	
STAT 3507 [0.5]	Sampling Methodology	
5. 0.5 credit from:		0.5
BUSI 1402 [0.5]	Introduction to Business Information and Communication Technologies (Business students only)	
ECOR 1606 [0.5]	Problem Solving and Computers (Engineering students only)	
STAT 1500 [0.5]	Introduction to Statistical Computing	
6. The remaining requirements of the major discipline(s) and degree must be satisfied.		

Total Credits **4.0**

Regulations

In addition to the program requirements described here and academic performance evaluation requirements listed below, students must satisfy the University regulations common to all undergraduate students (see the Academic Regulations section of this Calendar).

Students should consult with the School of Mathematics and Statistics when planning their program and selecting courses.

Academic Performance Evaluation for Bachelor of Mathematics

The standard procedures for Academic Performance Evaluation are followed with the following additions:

Good Standing at any Academic Performance Evaluation requires that the CGPA over the following courses be at least 7.00 for Honours programs and at least 5.00 for General programs:

MATH 1007 [0.5]	Elementary Calculus I
or MATH 1004 [0.5]	Calculus for Engineering or Physics
MATH 1107 [0.5]	Linear Algebra I
or MATH 1104 [0.5]	Linear Algebra for Engineering or Science
MATH 2007 [0.5]	Elementary Calculus II
or MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics
MATH 2107 [0.5]	Linear Algebra II

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

- 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in**

science continuation courses in each of the two majors

- 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

- 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for fewer than 10.0 credits.
- 1.0 credit in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for 10.0 or more credits.

Declared and Undeclared Students

Students who are registered in a program within the degree are called Declared students. Most students designate a program of study when they first apply for admission and so begin their studies as Declared students. Students may also choose to begin their studies within the B.Sc. degree without being registered in a program. These students are referred to as Undeclared students. The recommended course pattern for Undeclared students is provided in the Undeclared entry of the Programs section of this Calendar. Undeclared students normally must apply to enter a program before beginning their second year of study. The Science Student Success Centre (SSSC) provides Undeclared students guidance to the appropriate support services in making this decision.

Change of Program within the B.Sc. Degree

Students may transfer to a program within the B.Sc. degree if upon entry to the new program they would be in good academic standing.

Other applications for change of program will be considered on their merits; students may be accepted in the new program in *Good Standing* or on *Academic Warning*.

Applications to declare or change their program within the B.Sc. Degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program or into a program element or option is subject to any enrolment, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may add a minor, concentration or specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a minor, concentration or specialization requires that the student be in *Good Standing* and is

subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of experimental science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry	
BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering
Biology	
BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology
Chemistry	
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2800 [0.5]	Foundations for Environmental Chemistry
Earth Sciences	
ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time
ERTH 2102 [0.5]	Mineralogy to Petrology
ERTH 2404 [0.5]	Engineering Geoscience
ERTH 2802 [0.5]	Field Geology I
ERTH 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds
ERTH 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians
ERTH 3204 [0.5]	Mineral Deposits
ERTH 3205 [0.5]	Physical Hydrogeology
ERTH 3806 [0.5]	Structural Geology
Food Sciences	
FOOD 3001 [0.5]	Food Chemistry
FOOD 3002 [0.5]	Food Analysis
FOOD 3005 [0.5]	Food Microbiology
Geography	
GEOG 1010 [0.5]	Global Environmental Systems
GEOG 3108 [0.5]	Soil Properties
Neuroscience	
NEUR 3206 [0.5]	Sensory and Motor Neuroscience
NEUR 3207 [0.5]	Systems Neuroscience

NEUR 4600 [0.5] Advanced Lab in Neuroanatomy

Physics

PHYS 1001 [0.5] Foundations of Physics I

PHYS 1002 [0.5] Foundations of Physics II

PHYS 1003 [0.5] Introductory Mechanics and Thermodynamics

PHYS 1004 [0.5] Introductory Electromagnetism and Wave Motion

PHYS 1007 [0.5] Elementary University Physics I

PHYS 1008 [0.5] Elementary University Physics II

PHYS 2202 [0.5] Wave Motion and Optics

PHYS 2604 [0.5] Modern Physics I

PHYS 3007 [0.5] Third Year Physics Laboratory: Selected Experiments and Seminars

PHYS 3606 [0.5] Modern Physics II

PHYS 3608 [0.5] Modern Applied Physics

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5] Global Environmental Systems

GEOG 2006 [0.5] Introduction to Quantitative Research

GEOG 2013 [0.5] Weather and Water

GEOG 2014 [0.5] The Earth's Surface

GEOG 3003 [0.5] Quantitative Geography

GEOG 3010 [0.5] Field Methods in Physical Geography

GEOG 3102 [0.5] Geomorphology

GEOG 3103 [0.5] Watershed Hydrology

GEOG 3104 [0.5] Principles of Biogeography

GEOG 3105 [0.5] Climate and Atmospheric Change

GEOG 3106 [0.5] Aquatic Science and Management

GEOG 3108 [0.5] Soil Properties

GEOG 4000 [0.5] Field Studies

GEOG 4005 [0.5] Directed Studies in Geography

GEOG 4013 [0.5] Cold Region Hydrology

GEOG 4017 [0.5] Global Biogeochemical Cycles

GEOG 4101 [0.5] Two Million Years of Environmental Change

GEOG 4103 [0.5] Water Resources Engineering

GEOG 4104 [0.5] Microclimatology

GEOG 4108 [0.5] Permafrost

Science Psychology Courses

PSYC 2001 [0.5] Introduction to Research Methods in Psychology

PSYC 2002 [0.5] Introduction to Statistics in Psychology

PSYC 2700 [0.5] Introduction to Cognitive Psychology

PSYC 3000 [1.0] Design and Analysis in Psychological Research

PSYC 3506 [0.5] Cognitive Development

PSYC 3700 [1.0] Cognition (Honours Seminar)

PSYC 3702 [0.5] Perception

PSYC 2307 [0.5] Human Neuropsychology I

PSYC 3307 [0.5] Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

BIOC (Biochemistry)

BIOL (Biology)

CHEM (Chemistry)

COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except ERTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except ERTH 1010, ERTH 1011 and ERTH 2415. Earth Sciences students may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering

ENSC 2001

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Science)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)
 Science Psychology (see list above)
 STAT (Statistics)
 TSES (Technology, Society, Environment) Biology
 students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5]	Education Research in Biology
CHEM 1003 [0.5]	The Chemistry of Food, Health and Drugs
CHEM 1004 [0.5]	Drugs and the Human Body
CHEM 1007 [0.5]	Chemistry of Art and Artifacts
ERTH 1010 [0.5]	Our Dynamic Planet Earth
ERTH 1011 [0.5]	Evolution of the Earth
ERTH 2415 [0.5]	Natural Disasters
ISCI 1001 [0.5]	Introduction to the Environment
ISCI 2000 [0.5]	Natural Laws
ISCI 2002 [0.5]	Human Impacts on the Environment
MATH 0107 [0.5]	Algebra and Geometry
PHYS 1901 [0.5]	Planetary Astronomy
PHYS 1902 [0.5]	From our Star to the Cosmos
PHYS 1905 [0.5]	Physics Behind Everyday Life
PHYS 2903 [0.5]	Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5]	Introduction to Computational Thinking for Arts and Social Science Students
MATH 0005 [0.5]	Precalculus: Functions and Graphs
MATH 0006 [0.5]	Precalculus: Trigonometric Functions and Complex Numbers
MATH 1009 [0.5]	Mathematics for Business
MATH 1119 [0.5]	Linear Algebra: with Applications to Business
MATH 1401 [0.5]	Elementary Mathematics for Economics I

MATH 1402 [0.5] Elementary Mathematics for Economics II

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job.

It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

Bachelor of Mathematics Honours, Combined B.Math./M.Sc.: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to:

Students in any of these programs (excluding Biostatistics) must satisfy the following:

1. Completion of 5.0 or more credits (at least 2.0 in Mathematics/Statistics) at Carleton in any Honours program (excluding Biostatistics), or the Combined B.Math./M.Sc. ("Fast Track") programs, offered by the School of Mathematics and Statistics
2. A major CGPA of 8.00 or higher and an overall CGPA of 6.50 or higher

Students in the B.Math. (Combined Honours) Biostatistics program must satisfy the following:

1. Full-time student in the B.Math. Biostatistics program;
2. An overall CGPA of 8.00 or higher;
3. Successfully completed all required first year courses before beginning the first work term
4. Students must be eligible for third-year standing when they return for a study term after their first work term.

Students in these programs must successfully complete four (4) work terms to obtain the co-op designation.

Co-op Work Term Course: MATH 3999 or STAT 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	*W/S	Fall	S
Winter	S	Winter	S	Winter	S	Winter	*W/S	Winter	S
Summer	**O/W	Summer	*W	Summer	O/W	Summer	O/W		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Mathematics (B. Math.) (Honours)
- Bachelor of Mathematics (B.Math.)

Admission Requirements

B.Math Honours Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include two prerequisite courses (Advanced Functions and Calculus and Vectors).

The overall admission cut-off average and/or the prerequisite course average may be considerably higher than the stated minimum requirements for admission to the combined B.Math/M.Sc in Mathematics or Statistics.

Advanced Standing

Applications for admission beyond first year will be assessed on their individual merits. Applicants must normally be in *Good Standing* (see Undergraduate Calendar Section 3.0 - Academic Regulations for Degree Students) for their year level. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

B.Math Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include two prerequisite courses (Advanced Functions and Calculus and Vectors). Equivalent courses may be substituted between the old and new Ontario mathematics curriculum.

Advanced Standing

Applications for admission beyond first year will be assessed on their individual merits. Applicants must normally be in *Good Standing* (see Undergraduate Calendar Section 3.0 - Academic Regulations for Degree Students) for their year level. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Mathematics Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market (and thus the availability of co-op placement) may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after

beginning the program are described in the **Co-operative Education Regulations section of this Calendar**.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions and two of Biology, Chemistry, Earth and Space Sciences or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For the Combined Honours program in Chemistry and Computer Science, 4U Chemistry and Calculus and Vectors are strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

For entry to an Honours program after the completion of 5.0 included credits, a student must have a major CGPA of 5.50 or higher, an overall CGPA of 4.50 or higher and the recommendation of the Honours department or committee. A student beginning the final 10.0 credits towards an Honours degree must present a major CGPA of 6.00 or higher, an overall CGPA of 5.00 or higher and the recommendation of the Honours department or committee. A student beginning the final 5.0 credits towards an Honours degree must present a major CGPA of 6.50 or higher and an overall CGPA of 5.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

B.Sc. Major Program

B.Sc. Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics, 4U Physics is strongly recommended. Equivalent courses may be substituted between the old and new Ontario mathematics curriculum.

Advanced Standing

For entry to a B.Sc. or B.Sc. Major program after the completion of 5.0 included credits, a student must have a major and core CGPA of 3.50 or higher and an overall CGPA of 3.50 or higher. A student beginning the final 5.0 credits towards a B.Sc. or B.Sc. Major degree must present a major and core CGPA of 4.00 or higher and an overall CGPA of 4.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The

prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Mathematics (MATH) Courses

Note:

• See also the course listings under Statistics (STAT) in this Calendar.

Prerequisites for First-year Mathematics Courses in B.Math. Programs

Students who do not have the required Ontario Grade 12 Mathematics courses or equivalents may take MATH 0005 Precalculus: Functions and Graphs and MATH 0006 Precalculus: Trigonometric Functions and Complex Numbers in lieu of Advanced Functions, MATH 0107 Algebra and Geometry in lieu of the algebra component of Calculus and Vectors. These 0000-level mathematics courses serve as alternate prerequisites for MATH 1052 Calculus and Introductory Analysis I and MATH 1152 Introductory Algebra I. These courses would be in addition to the minimum 15.0 credits required for B.Math programs, or 20.0 credits required for B.Math Honours programs.

MATH 0005 [0.5 credit]

Precalculus: Functions and Graphs

Review of algebraic manipulations. Polynomials: the remainder theorem, and the factor theorem; graphing. Real and Complex roots. Absolute values. Inequalities. Functions, including composition of functions, and Inverse functions. Logarithmic and exponential functions. Not available for degree credit for students who have successfully completed: Grade 12 Mathematics - Advanced Functions, or an equivalent High School functions course.

Prerequisite(s): Grade 11 Functions (University/College Preparation), or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 0006 [0.5 credit]

Precalculus: Trigonometric Functions and Complex Numbers

Angles and the unit circle, radian measure. Definitions of trigonometric functions. Fundamental relations, Law of Sines and Cosines. Analytic trigonometry, graphs, inverse functions. Trigonometric identities and equations. Applications in science and engineering. Complex numbers in polar form, de Moivre's Theorem, n-th roots of complex numbers.

Prerequisite(s): Grade 11 Functions (University/College Preparation), or MATH 0005, or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 0009 [0.5 credit]

Calculus and Vectors

Limits and continuity. Differentiation rules. Trigonometric, logarithmic, and exponential functions, and their derivatives. Curve sketching. Optimization problems. Introduction to vectors. Dot and cross products. Projections. Equations of lines and planes. Intersection points and distances between points, lines, and planes. Precludes additional credit for MATH 0007.

Prerequisite(s): Grade 12 Mathematics (Advanced Functions); or both MATH 0005 and MATH 0006; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 0107 [0.5 credit]

Algebra and Geometry

Vectors in the plane and in 3-space. Linear combinations and linear independence. Equations of lines and planes in space. Solution of systems of linear equations. Proofs by induction. Binomial Theorem. Logic.

Prerequisite(s): Grade 11 Functions (University/College Preparation) or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 1004 [0.5 credit]

Calculus for Engineering or Physics

Limits. Differentiation of the elementary functions. Rules of differentiation. Inverse trigonometric functions. Applications of differentiation: max-min problems, curve sketching, approximations. Definite and indefinite integrals, techniques of integration. Applications to areas and volumes.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, MATH 1002 (no longer offered), MATH 1007, MATH 1052.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005 and MATH 0006, or equivalent.

Restricted to students in the Faculty of Engineering, or in certain B.Sc. and B.A.S. programs where specified.

Lectures three hours a week, tutorial one hour a week.

MATH 1005 [0.5 credit]

Differential Equations and Infinite Series for Engineering or Physics

First-order differential equations. Second-order linear equations with constant coefficients, undetermined coefficients, variation of parameters. Sequences and series, convergence tests, estimation of sums. Power series, Taylor series, remainders. Fourier series. Precludes additional credit for BIT 2004 (no longer offered), BIT 2007 (no longer offered), MATH 1002 (no longer offered), MATH 2007, MATH 2052, and MATH 2404.

Prerequisite(s): i) MATH 1004; and ii) MATH 1104 (or MATH 1107), either previously or concurrently; or equivalents; or permission of the School. Restricted to students in the Faculty of Engineering, or in certain B.Sc. programs where specified.

Lectures three hours a week, tutorial one hour a week.

MATH 1007 [0.5 credit]**Elementary Calculus I**

Limits. Differentiation of the elementary functions, including trigonometric functions. Rules of differentiation. Applications of differentiation: max-min problems, curve sketching, approximations. Introduction to integration: definite and indefinite integrals, areas under curves, fundamental theorem of calculus.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, MATH 1002 (no longer offered), MATH 1004, MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1052.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions; or MATH 0005 and MATH 0006; or equivalent. Lectures three hours a week, tutorial one hour a week.

MATH 1009 [0.5 credit]**Mathematics for Business**

An introductory course of mathematics for business. Thorough review of basic arithmetic and algebra. Elementary functions, their graphs, properties and applications in business models. Limits. Derivatives of elementary functions. Systems of linear equations/inequalities. Geometric series.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, BUSI 1705 (no longer offered), MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1052. This course is not acceptable for (substitute) credit in any of the following degree programs: B.Math., and also B.Sc., B.C.S., B.Eng., B.I.D.

Prerequisite(s): Restricted to B.Com. and B.I.B students. Lectures three hours a week, tutorial one hour a week.

MATH 1052 [0.5 credit]**Calculus and Introductory Analysis I**

Properties of the real numbers. Limits. Sequences and series. Elementary functions. Continuity. Derivatives. Extreme values. Mean Value Theorem. L'Hospital's rules. Antiderivatives. An emphasis is placed on proofs and theory.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, MATH 1002 (no longer offered), MATH 1004, MATH 1007, MATH 1009, MATH 1401/ECON 1401, MATH 1402/ECON 1402.

Prerequisite(s): i) Grade 12 Mathematics: Advanced Functions, and Grade 12 Mathematics: Calculus and Vectors, with grades of at least 75% in each; or MATH 0005 and MATH 0006 with grades of at least B in each; or equivalents; and ii) MATH 1800 (may be taken concurrently); or permission of the School of Mathematics and Statistics.

Lectures three hours a week, tutorial one and one half hours a week.

MATH 1104 [0.5 credit]**Linear Algebra for Engineering or Science**

Systems of linear equations. Matrix algebra. Determinants. Invertible matrix theorem. Cramer's rule. Vector space \mathbb{R}^n ; subspaces, bases. Eigenvalues, diagonalization. Linear transformations, kernel, range. Complex numbers (including De Moivre's theorem). Inner product spaces and orthogonality. Applications.

Precludes additional credit for BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1107, MATH 1119, MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1152. Note: MATH 1119 is not an acceptable substitute for MATH 1104.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent, or permission of the School. Restricted to students in the Faculty of Engineering, the School of Computer Science, or in certain B.Sc. and B.A.S. programs where specified.

Lectures three hours a week and tutorial one hour a week.

MATH 1107 [0.5 credit]**Linear Algebra I**

Systems of linear equations; vector space of n-tuples, subspaces, bases; matrix transformations, kernel, range; matrix algebra and determinants. Dot product. Complex numbers (including de Moivre's Theorem, and n-th roots). Eigenvalues, diagonalization and applications. Note: MATH 1119 is not an acceptable substitute for MATH 1107.

Precludes additional credit for BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1104, MATH 1119, MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1152.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent, or permission of the School.

Lectures three hours a week and tutorial one hour a week.

MATH 1119 [0.5 credit]**Linear Algebra: with Applications to Business**

Introduction to systems of linear equations, geometric interpretation in two and three dimensions, introduction to matrices, vector addition and scalar multiplication, linear dependence, matrix operations, rank, inversion, invertible matrix theorem, determinants. Use of illustrative examples related to business.

Precludes additional credit for for, but is not an acceptable substitute for: BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1104, MATH 1107. BUSI 1704 (no longer offered), MATH 1109 (no longer offered), MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1152. This course is not acceptable for (substitute) credit in any of the following degree programs: B.Math., and also B.Sc., B.C.S., B.Eng., B.I.D.

Prerequisite(s): Ontario Grade 12 Mathematics of Data Management; or Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent, or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 1152 [0.5 credit]**Introductory Algebra I**

Properties of numbers. Modular arithmetic. Fields, including complex numbers and finite fields. Vector spaces. Matrix algebra. Solutions of linear systems. Linear dependence. Spanning sets. Bases. Subspaces. The rank-nullity theorem. Linear transformations. An emphasis is placed on proofs and theory.

Precludes additional credit for BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1104, MATH 1107, MATH 1119, MATH 1401/ECON 1401, MATH 1402/ECON 1402.

Prerequisite(s): i) Grade 12 Mathematics: Advanced Functions, and Grade 12 Mathematics: Calculus and Vectors, with grades of at least 75% in each; or MATH 0005, MATH 0006, and MATH 0107 with grades of at least B in each; or equivalents; and ii) MATH 1800 (may be taken concurrently); or permission of the School of Mathematics and Statistics.

Lectures three hours a week, tutorial one and a half hours a week.

MATH 1401 [0.5 credit]**Elementary Mathematics for Economics I**

Functional relations: functional forms and error terms. Graphing economic magnitudes: scatter diagrams, time-series graphs, functional relationships. Applied calculus: mechanics of differentiation and integration, elasticity, consumer/producer surplus. Applied algebra: solving systems of linear equations and Keynesian national-income analysis. Problem solving approaches.

Also listed as ECON 1401.

Precludes additional credit for BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1200, BIT 1201; MATH 1007, MATH 1009, MATH 1052, MATH 1104, MATH 1107, MATH 1119, MATH 1152.

Prerequisite(s): Ontario Grade 12 U Advanced Functions, or MATH 0005, or equivalent; and ECON 1000 or FYSM 1003, which may be taken concurrently with MATH 1401/ECON 1401.

Lectures three hours a week, tutorial one hour a week.

MATH 1402 [0.5 credit]**Elementary Mathematics for Economics II**

Calculus: including partial differentiation, definite and indefinite integrals, techniques of integration, and unconstrained optimization. Vectors and matrices: scalar multiplication, inner product, linear dependence, matrix operations, rank, invertible matrix theorem, and determinants. Economic applications such as profit maximization, comparative statics, and the Leontief input-output model.

Also listed as ECON 1402.

Precludes additional credit for BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1200, BIT 1201; MATH 1007, MATH 1009, MATH 1052, MATH 1104, MATH 1107, MATH 1119, MATH 1152.

Prerequisite(s): ECON 1000 or FYSM 1003 with a grade of C- or higher, and ECON 1401/MATH 1401 with a grade of C- or higher.

Lectures three hours a week, tutorial one hour a week.

MATH 1800 [0.5 credit]**Introduction to Mathematical Reasoning**

Elementary logic, propositional and predicate calculus, quantifiers, sets and functions, bijections and elementary counting, the concept of infinity, relations, well ordering and induction. The practice of mathematical proof in elementary number theory and combinatorics.

Precludes additional credit for MATH 1805/COMP 1805.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 1805 [0.5 credit]**Discrete Structures I**

Introduction to discrete mathematics and discrete structures. Topics include: propositional logic, predicate calculus, set theory, complexity of algorithms, mathematical reasoning and proof techniques, recurrences, induction, finite automata and graph theory. Material is illustrated through examples from computing.

Includes: Experiential Learning Activity

Precludes additional credit for MATH 1800.

Prerequisite(s): one Grade 12 university preparation Mathematics course; and one of: COMP 1005 or or COMP 1405 or SYSC 1100 (which may be taken concurrently).

Lectures three hours a week, tutorial one hour a week.

MATH 2000 [1.0 credit]**Multivariable Calculus and Fundamentals of Analysis**

Higher dimensional calculus, chain rule, gradient, line and multiple integrals with applications. Use of implicit and inverse function theorems. Real number axioms, limits, continuous functions, differentiability, infinite series, uniform convergence, the Riemann integral.

Precludes additional credit for BIT 2005 (no longer offered), MATH 2004, MATH 2008, and MATH 3009.

Prerequisite(s): i) MATH 2052 with a grade of C+ or higher, or (MATH 2007 or MATH 1005 with a grade of B+ or higher and permission of the School); and ii) MATH 2152 with a grade of C+ or higher, or MATH 1107 or MATH 1104 with a grade of B+ or higher; and iii) MATH 1800 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 2004 [0.5 credit]**Multivariable Calculus for Engineering or Physics**

Curves and surfaces. Polar, cylindrical and spherical coordinates. Partial derivatives, gradients, extrema and Lagrange multipliers. Exact differentials. Multiple integrals over rectangular and general regions. Integrals over surfaces. Line integrals. Vector differential operators. Green's Theorem, Stokes' theorem, Divergence Theorem. Applications.

Precludes additional credit for BIT 2005, MATH 2000, and MATH 2008.

Prerequisite(s): i) MATH 1005 or MATH 2007; and ii) MATH 1104 or MATH 1107; or permission of the School. Restricted to students in the Faculty of Engineering, or in certain B.Sc. programs where specified.

Lectures three hours a week, tutorial one hour a week.

MATH 2007 [0.5 credit]**Elementary Calculus II**

Techniques of integration, improper integrals. Polar coordinates, parametric equations. Indeterminate forms, sequences and series, Taylor's formula and series. Precludes additional credit for BIT 2007 (no longer offered), MATH 1002 (no longer offered), MATH 1005, MATH 2052.

Prerequisite(s): i) MATH 1004, or a grade of C- or higher in MATH 1007; or MATH 1052 and permission of the School. Lectures three hours a week, tutorial one hour a week.

MATH 2008 [0.5 credit]**Intermediate Calculus**

Partial differentiation, chain rule, gradient, line and multiple integrals with applications, transformations of multiple integrals.

Precludes additional credit for BIT 2005 (no longer offered), MATH 2000, and MATH 2004.

Prerequisite(s): one of MATH 1005, MATH 2052, or MATH 2007, and one of MATH 1104, MATH 1107, or MATH 1152.

Lectures three hours a week and one hour tutorial.

MATH 2052 [0.5 credit]**Calculus and Introductory Analysis II**

Definite, indefinite integrals. Improper integrals. The fundamental theorem of calculus. An introduction to differential equations. Sequences and series of functions. Power series. Taylor's formulae. Uniform convergence. An emphasis is placed on proofs and theory.

Precludes additional credit for BIT 2007, MATH 1002 (no longer offered), MATH 1005, MATH 2007.

Prerequisite(s): (i) MATH1052 with a grade of C- or higher or (MATH1007 or MATH1004 with a grade of B+ or higher and permission of the School), and (ii) MATH1800 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one and one half hours a week.

MATH 2100 [1.0 credit]**Algebra**

Introduction to group theory: permutation groups, Lagrange's theorem, normal subgroups, homomorphism theorems. Introduction to ring theory: ring of polynomials, integral domains, ideals, homomorphism theorems. Hermitian forms, spectral theorem for normal operators, bilinear and quadratic forms, classical groups.

Precludes additional credit for MATH 2108 and MATH 3101.

Prerequisite(s): i) MATH 2152 with a grade of C+ or higher, or (MATH 2107 with a grade of B+ or higher and permission of the School); and ii) MATH 1800 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 2107 [0.5 credit]**Linear Algebra II**

Finite-dimensional vector spaces (over R and C), subspaces, linear independence and bases. Linear transformations and matrices. Inner product spaces (over R and C); Orthonormal bases. Eigenvalues and diagonalization. Bilinear and quadratic forms; principal axis theorem.

Precludes additional credit for MATH 1102 (no longer offered), MATH 2152.

Prerequisite(s): i) MATH 1104, or a grade of C- or higher in MATH 1107 or MATH 1109; and ii) a grade of C- or higher in MATH 1007 or equivalent; or MATH 1152 and permission of the School. Note: in item i), MATH 1119 is NOT acceptable as a substitute for MATH 1109.

Lectures three hours a week and one hour tutorial.

MATH 2108 [0.5 credit]**Abstract Algebra I**

Sets and relations, number theory, group theory, ring theory, cardinal numbers.

Precludes additional credit for MATH 3101 and MATH 2100.

Prerequisite(s): i) MATH 2152 or MATH 2107; and ii) MATH 1800 (MATH 1800 may be taken concurrently, with permission of the School); or COMP 1805; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 2152 [0.5 credit]**Introductory Algebra II**

Linear transformations. Determinants. Eigenvalues and eigenspaces. Diagonalization and other canonical forms. Inner products. An emphasis is placed on proofs and theory.

Precludes additional credit for MATH 1102 (no longer offered) and MATH 2107.

Prerequisite(s): (i) MATH1152 with a grade of C- or higher or (MATH1107 or MATH1104 with a grade of B+ or higher and permission of the School), and (ii) MATH1800 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one and a half hours a week.

MATH 2210 [0.5 credit]**Introduction to Geometry**

An introduction to classical geometry; Euclidean plane geometry; plane tiling; polytopes in three and four dimensions; curved surfaces; Euler characteristic. This course is intended for a general audience, and is available to B.Math. students for credit only as a free elective.

Prerequisite(s): Grade 12 Mathematics and second-year standing.

Lectures three hours a week, tutorial one hour a week.

MATH 2404 [0.5 credit]**Ordinary Differential Equations I**

First-order equations, linear second- and higher-order equations, linear systems, stability of second-order systems.

Precludes additional credit for BIT 2004 (no longer offered), MATH 1005, MATH 2454.

Prerequisite(s): MATH 2052 and MATH 1152 (or MATH 1107 and MATH 2007).

Lectures three hours a week and one hour tutorial.

MATH 2454 [0.5 credit]**Ordinary Differential Equations (Honours)**

Existence and uniqueness theorems. First-order equations, linear second- and higher-order equations, linear systems, stability of second-order systems.

Precludes additional credit for MATH 2404, BIT 2004 (no longer offered).

Prerequisite(s): MATH 2052 or MATH 2007 or MATH 1005 with a grade of C+ or higher, and MATH 2152 or MATH 2107 with a grade of C+ or higher.

Lectures three hours a week, tutorial one hour a week.

MATH 2800 [0.5 credit]**Discrete Mathematics and Algorithms**

An introduction to discrete mathematics and algorithms in the context of the computational sciences. Basic number theory and counting methods, algorithms for strings, trees and sequences. Applications to DNA and protein sequencing problems. Analysis and complexity of algorithms.

Also listed as CMPS 2800.

Precludes additional credit for Only one of MATH 1805/COMP 1805 or MATH 2800/CMPS 2800 may count for credit in a B.Math. program.

Prerequisite(s): COMP 1006 and at least one of MATH 1007, MATH 1107, or STAT 2507.

Lectures three hours a week.

MATH 2907 [0.5 credit]**Directed Studies (Honours)**

Available only to Honours students whose program requires a 0.5 credit not offered by the School of Mathematics and Statistics.

MATH 3001 [0.5 credit]**Real Analysis I (Honours)**

Metric spaces and their topologies, continuous maps, completeness, compactness, connectedness, introduction to Banach spaces.

Prerequisite(s): MATH 2000 with a grade of C- or higher; or (MATH 3009 and MATH 1800) each with a grade of B or higher, and permission of the instructor; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3002 [0.5 credit]**Real Analysis II (Honours)**

Function spaces, pointwise and uniform convergence, Weierstrass approximation theorem, Lebesgue measure and Lebesgue integral on the real line, Hilbert space, Fourier series.

Prerequisite(s): MATH 3001 with a grade of C- or higher, or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3003 [0.5 credit]**Advanced Differential Calculus (Honours)**

Review of multivariable differentiation and integration.

Vector fields, differential forms and exterior algebra.

Introduction to manifolds and tangent bundles. Stokes' Theorem. Applications such as differential equations and the calculus of variations.

Prerequisite(s): MATH 3001 with a grade of C- or higher, or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3007 [0.5 credit]**Functions of a Complex Variable**

Analytic functions, contour integration, residue calculus, conformal mapping. Intended for non-engineering students.

Precludes additional credit for MATH 3057 and PHYS 3807.

Prerequisite(s): one of MATH 2004, MATH 2008 or MATH 2009, or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3008 [0.5 credit]**Ordinary Differential Equations (Honours)**

Analytic ordinary differential equations: series solutions of ordinary differential equations about ordinary and regular singular points. Asymptotic solutions. Sturm-Liouville theory. Bessel and Legendre functions. Fourier series.

Precludes additional credit for MATH 3404 and PHYS 3808.

Prerequisite(s): i) MATH 2000 with a grade of C- or higher, or (MATH 3009 with a grade of B or higher, and permission of the instructor); and ii) MATH 2454 with a grade of C- or higher, or (MATH 2404 with a grade of B or higher, and permission of the instructor).

Lectures three hours a week and one hour tutorial.

MATH 3009 [0.5 credit]**Introductory Analysis**

The real number system, sequences and series, functions of a single real variable, derivatives, the definite integral, uniform convergence.

Precludes additional credit for MATH 2000.

Prerequisite(s): one of MATH 2004, MATH 2008, MATH 2009, or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3057 [0.5 credit]**Functions of a Complex Variable (Honours)**

Analytic functions, contour integration, residue calculus, conformal mappings.

Precludes additional credit for MATH 3007 and PHYS 3807.

Prerequisite(s): MATH 2000 with a grade of C- or higher; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3101 [0.5 credit]**Algebraic Structures with Computer Applications**

Introduction to algebraic structures: groups, rings, fields, lattices, and Boolean algebras; with applications of interest to students in Computer Science. This course may not be used to meet the 3000-level course requirements in any B.Math or B.Math Honours program in Mathematics and Statistics.

Precludes additional credit for MATH 2108 and MATH 2100.

Prerequisite(s): i) MATH 2107 or MATH 2152; and ii) either COMP 1805 or MATH 1800 (MATH 1800 may be taken concurrently, with permission of the School); or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3106 [0.5 credit]**Introduction to Group Theory (Honours)**

Homomorphism theorems; groups acting on sets; permutation groups and groups of matrices; Sylow theory for finite groups; finitely generated abelian groups; generators and relations; applications.

Precludes additional credit for MATH 3108.

Prerequisite(s): MATH 2100 with a grade of C- or higher; or (MATH 2108 or MATH 3101 with a grade of B or higher; and MATH 1800 with a grade of B or higher; and permission of the instructor); or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3107 [0.5 credit]**Linear Algebra III**

Similarity and unitary triangularization of matrices. Direct methods of solving a system of linear equations. Iterative techniques. Bounds for eigenvalues. Power method and deflation techniques of approximation. Emphasis is primarily on computational aspects.

Prerequisite(s): i) a grade of C- or higher in MATH 2152 or MATH 2107; and ii) credit in MATH 2052 or MATH 2007; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3108 [0.5 credit]**Abstract Algebra II**

Groups and rings. Permutations. Finite symmetry groups. Polynomials, unique factorization domains. Quotient rings, ideals. Field extensions, finite fields. Polynomial equations. Geometric constructions - three famous problems: duplication of the cube, trisection of an arbitrary angle, quadrature of the circle.

Precludes additional credit for MATH 3106 and MATH 3158.

Prerequisite(s): MATH 2108, or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3158 [0.5 credit]**Rings and Fields (Honours)**

Rings, integral domains, Euclidean and principal ideal domains, fields, polynomial rings over a field, algebraic extensions of fields, the fundamental theorem of Galois theory, finite fields, applications.

Precludes additional credit for MATH 3108.

Prerequisite(s): MATH 2100 with a grade of C- or higher, or (MATH 2108 or MATH 3101 with a grade of B or higher and MATH 1800 with a grade of B or higher and permission of the instructor), or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3206 [0.5 credit]**Plane Projective Geometry**

Axioms of Desarguesian geometry, principle of duality; projectivities, perspectivities, and the fundamental theorem; collineations (homologies and elations); correlations (polarities and conics); algebraic model; projective curves; introduction to finite projective planes.

Precludes additional credit for MATH 3256.

Prerequisite(s): MATH 2100 or MATH 2108 or MATH 3101.

Lectures three hours a week and one hour tutorial.

MATH 3210 [0.5 credit]**Euclidean and Non-Euclidean Geometry**

Euclidean isometry and similarity groups; geometry of circles; inversion; hyperbolic geometry: Poincaré disk model of the hyperbolic plane.

Precludes additional credit for MATH 3205.

Prerequisite(s): MATH 2100 or MATH 2108 or MATH 3101.

Lectures three hours a week, tutorial one hour a week.

MATH 3306 [0.5 credit]**Elements of Set Theory (Honours)**

Axioms of set theory. Development of the systems of natural numbers and the real numbers. Axiom of choice, Zorn's lemma, well-ordering. The Schröder-Bernstein theorem, cardinal numbers, ordinal numbers, transfinite induction, cardinal and ordinal arithmetics.

Prerequisite(s): MATH 2100 with a grade of C- or higher;

or (MATH 2108 or MATH 3101 with a grade of B or higher; and MATH 1800 with a grade of B or higher; and permission of the instructor); or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3355 [0.5 credit]**Number Theory and Applications (Honours)**

Congruences, distribution of primes, arithmetic functions, primitive roots, quadratic residues, quadratic reciprocity law, continued fractions, Diophantine equations, and applications: public key cryptography, primality testing and factoring in relation to cryptography.

Precludes additional credit for MATH 3809.

Prerequisite(s): MATH 2100 with a grade of C- or higher; or (MATH 2108 or MATH 3101 with a grade of B- or higher; and permission of the instructor); or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3404 [0.5 credit]**Ordinary Differential Equations II**

Series solutions of ordinary differential equations of second order about regular singular points; asymptotic solutions. Systems of ordinary differential equations of first order; matrix methods. Existence and uniqueness theorems. Nonlinear autonomous systems of order 2; qualitative theory. Numerical solutions of ordinary differential equations.

Precludes additional credit for MATH 3008.

Prerequisite(s): MATH 2404, MATH 2008; and MATH 2152 or MATH 2107.

Lectures three hours a week and one hour tutorial.

MATH 3705 [0.5 credit]**Mathematical Methods I**

Laplace transforms, series solutions of ordinary differential equations, the Frobenius method. Fourier series and Fourier transforms, solutions of partial differential equations of mathematical physics, boundary value problems, applications.

Precludes additional credit for PHYS 3808. This course may be taken for credit as a 3000-level Honours Mathematics course by students in any Honours program in the School of Mathematics and Statistics.

Prerequisite(s): i) MATH 1005 or MATH 2404, and ii) MATH 2004 or MATH 2008 or MATH 2009; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3800 [0.5 credit]**Mathematical Modeling and Computational Methods**

Design and analysis of mathematical models for problems in science. Computational methods, including function evaluation, interpolation, solution of linear equations, root finding, integration, solution of differential equations, Fourier series and Monte Carlo methods.

Includes: Experiential Learning Activity

Also listed as CMPS 3800.

Precludes additional credit for MATH 3806/COMP 3806.

Prerequisite(s): i) MATH 1107 or MATH 1104; ii) MATH 1005 or MATH 2007; and iii) knowledge of a computer language.

Lectures three hours a week, laboratory one hour a week.

MATH 3801 [0.5 credit]**Linear Programming**

Systems of linear inequalities, formulation of linear programming problems, geometric method, the simplex method, duality theory, complementary slackness, sensitivity analysis, branch-and-bound method and cutting plane method for integer linear programming, applications and extensions.

Precludes additional credit for ECON 4004, SYSC 3200.

Prerequisite(s): MATH 2152 or MATH 2107, or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3802 [0.5 credit]**Combinatorial Optimization**

Network flow problems, network simplex method, max-flow min-cut problem, integral polyhedra, minimum-weight spanning tree problem, maximum matching problem, maximum stable set problem, introduction to approximation algorithms.

Prerequisite(s): MATH 3801 or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3804 [0.5 credit]**Design and Analysis of Algorithms I**

An introduction to the design and analysis of algorithms.

Topics include: recurrence relations, sorting and searching, divide-and-conquer, dynamic programming, greedy algorithms, NP-completeness.

Also listed as COMP 3804.

Prerequisite(s): i) one of COMP 2402 or SYSC 2100; and ii) one of COMP 2804 or MATH 3855 or MATH 3825 or COMP 3805.

Lectures three hours a week.

MATH 3806 [0.5 credit]**Numerical Analysis (Honours)**

Elementary discussion of error, polynomial interpolation, quadrature, linear systems of equations and matrix inversion, non-linear equations, difference equations and ordinary differential equations. Implementation of numerical methods using a computer language.

Includes: Experiential Learning Activity

Precludes additional credit for MATH 3800.

Prerequisite(s): i) MATH 2000 with a grade of C- or higher; and ii) MATH 1152 with a grade of C- or higher, or (MATH 1107 or MATH 1104 with a grade of B or higher and permission of the instructor).

Lectures three hours a week, laboratory one hour a week.

MATH 3807 [0.5 credit]**Mathematical Software (Honours)**

Implementation of numerical methods using numerical software packages. Development of scientific and/or operations research applications using application programming interfaces of numerical or optimization libraries. Functional programming for data analysis and machine learning. Experience working with Python, C++, or Java is essential.

Includes: Experiential Learning Activity

Also listed as COMP 3807.

Prerequisite(s): A grade of C- or higher in MATH 3806 or COMP 3806.

Lectures three hours a week, laboratory one hour a week.

MATH 3808 [0.5 credit]**Mathematical Analyses of Games of Chance**

This course covers mathematics used in the modern casino gaming industry. The topics include probabilities, odds, house advantages, variance and risks, optimal strategies, random walks and gambler's ruin, and gaming revenue estimation. Examples are taken from various games such as Roulette, Blackjack, and Poker.

Prerequisite(s): one of STAT 2655, STAT 2605, STAT 2507, STAT 2606, STAT 3502, or MATH 3825 or MATH 3855.

Lectures three hours a week, tutorial one hour a week.

MATH 3809 [0.5 credit]**Introduction to Number Theory and Cryptography**

Congruences, distribution of primes, general cryptographic systems, public key cryptographic systems and authentication using number theory, primality testing and factoring in relation to cryptography, continued fractions and Diophantine equations.

Prerequisite(s): MATH 2108 or MATH 3101 or MATH 2100; knowledge of a computer language.

Lectures three hours a week and one hour tutorial.

MATH 3819 [0.5 credit]**Modern Computer Algebra**

Algorithms for multiplication, division, greatest common divisors and factorization over the integers, finite fields and polynomial rings. Basic tools include modular arithmetic, discrete Fourier transform, Chinese remainder theorem, Newton iteration, and Hensel techniques. Some properties of finite fields and applications to cryptography.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 2108 or MATH 3101 or MATH 2100, COMP 1005 or equivalent; or permission of the School.

Lectures three hours a week, tutorial/laboratory one hour a week.

MATH 3825 [0.5 credit]**Discrete Structures and Applications**

Enumeration: elementary methods, inclusion and exclusion, recurrence relations, generating functions and applications. Graph theory and algorithms: connectivity, planarity, Hamilton paths and Euler trails. Error-correcting codes.

Precludes additional credit for MATH 3805 (no longer offered), and MATH 3855 and COMP 3805.

Prerequisite(s): MATH 2108 or MATH 3101.

Lectures three hours a week, tutorial one hour a week.

MATH 3855 [0.5 credit]**Discrete Structures and Applications (Honours)**

Enumeration: inclusion and exclusion, recurrence relations, generating functions and applications. Graph theory: connectivity, planarity, Hamilton paths and Euler trails. Error-correcting codes. Designs and finite geometries. Symmetry and counting.

Also listed as COMP 3805.

Precludes additional credit for MATH 3805 (no longer offered) and MATH 3825.

Prerequisite(s): MATH 2100 with a grade of C- or higher; or (MATH 2108 or MATH 3101) with a grade of B or higher.

Lectures three hours a week, tutorial one hour a week.

MATH 3907 [0.5 credit]**Directed Studies**

Available only to students whose program requires a 0.5 credit not offered by the School of Mathematics and Statistics.

MATH 3999 [0.0 credit]**Co-operative Work Term Report (Honours)**

On completion of each work term, the student must submit to the School of Mathematics and Statistics a written report on the work performed. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Co-operative Education Option of an Honours program offered by the School of Mathematics and Statistics, and permission of the School.

MATH 4002 [0.5 credit]**Fourier Analysis (Honours)**

Fourier series, Fourier integrals; introduction to harmonic analysis on locally compact abelian groups, Plancherel Theorem, Pontryagin duality; selected applications.

Prerequisite(s): MATH 3001 or permission of the School.

Lectures three hours a week.

MATH 4003 [0.5 credit]**Functional Analysis (Honours)**

Banach spaces and bounded linear operators, Hahn-Banach extension and separation, dual spaces, bounded inverse theorems, uniform boundedness principle, applications. Compact operators.

Prerequisite(s): MATH 4007 or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5008, for which additional credit is precluded.

Lectures three hours a week.

MATH 4007 [0.5 credit]**Measure and Integration Theory (Honours)**

Lebesgue measure and integration on the real line; sigma algebras and measures; integration theory; L_p spaces; Fubini's theorem; decomposition theorems and Radon-Nikodym derivatives.

Prerequisite(s): MATH 3001 or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5007, for which additional credit is precluded.

Lectures three hours a week.

MATH 4102 [0.5 credit]**Group Representations and Applications (Honours)**

An introduction to the group representations and character theory, with selected applications.

Prerequisite(s): MATH 3106, or a grade of B or higher in MATH 3108.

Also offered at the graduate level, with different requirements, as MATH 5102, for which additional credit is precluded.

Lectures three hours a week.

MATH 4105 [0.5 credit]**Rings and Modules (Honours)**

Fundamental concepts in rings and modules, structure theorems, applications.

Prerequisite(s): MATH 3158 or permission of the School.

Lectures three hours a week.

MATH 4106 [0.5 credit]**Group Theory (Honours)**

Fundamental principles as applied to abelian, nilpotent, solvable, free and finite groups; representations.

Prerequisite(s): MATH 3106 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5106, for which additional credit is precluded.

Lectures three hours a week.

MATH 4107 [0.5 credit]**Commutative Algebra (Honours)**

Fields, including algebraic and transcendental extensions, Galois theory, valuation theory; Noetherian commutative rings, including Noether decomposition theorem and localization.

Prerequisite(s): MATH 3158 or permission of the School.

Lectures three hours a week.

MATH 4108 [0.5 credit]**Homological Algebra and Category Theory (Honours)**

Axioms of set theory; categories, functors, natural transformations; free, projective, injective and flat modules; tensor products and homology functors, derived functors; dimension theory.

Prerequisite(s): MATH 3158 or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5108, for which additional credit is precluded.

Lectures three hours a week.

MATH 4109 [0.5 credit]**Fields and Coding Theory (Honours)**

Introduction to field theory, emphasizing the structure of finite fields, primitive elements and irreducible polynomials. The influence of computational problems will be considered. Theory and applications of error-correcting codes: algebraic codes, convolution codes, decoding algorithms, and analysis of code performance.

Prerequisite(s): MATH 2100, or MATH 3101 or MATH 2108 or equivalent; or permission of the School.

Lectures three hours a week.

MATH 4205 [0.5 credit]**Introduction to General Topology (Honours)**

Topological spaces, maps, subspaces, product and identification topologies, separation axioms, compactness, connectedness.

Prerequisite(s): MATH 3001 or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5205, for which additional credit is precluded.

Lectures three hours a week.

MATH 4206 [0.5 credit]**Introduction to Algebraic Topology (Honours)**

An introduction to homotopy theory. Topics include the fundamental group, covering spaces and the classification of two-dimensional manifolds.

Prerequisite(s): MATH 3106 and MATH 4205; or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5206, for which additional credit is precluded.

Lectures three hours a week.

MATH 4207 [0.5 credit]**Foundations of Geometry (Honours)**

A study of at least one modern axiom system of Euclidean and non-Euclidean geometry, embedding of hyperbolic and Euclidean geometries in the projective plane, groups of motions, models of non-Euclidean geometry.

Prerequisite(s): MATH 3106 (may be taken concurrently) or permission of the School.

Lectures three hours a week.

MATH 4208 [0.5 credit]**Introduction to Differentiable Manifolds (Honours)**

Introduction to differentiable manifolds; Riemannian manifolds; vector fields and parallel transport; geodesics; differential forms on a manifold; covariant derivative; Betti numbers.

Prerequisite(s): MATH 3002 or permission of the School.
Lectures three hours a week.

MATH 4305 [0.5 credit]**Analytic Number Theory (Honours)**

Dirichlet series, characters, Zeta-functions, prime number theorem, Dirichlet's theorem on primes in arithmetic progressions, binary quadratic forms.

Prerequisite(s): MATH 3057 or permission of the School.
Also offered at the graduate level, with different requirements, as MATH 5305, for which additional credit is precluded.
Lectures three hours a week.

MATH 4306 [0.5 credit]**Algebraic Number Theory (Honours)**

Algebraic number fields, bases, algebraic integers, integral bases, arithmetic in algebraic number fields, ideal theory, class number.

Prerequisite(s): MATH 3158 (may be taken concurrently) or permission of the School.
Also offered at the graduate level, with different requirements, as MATH 5306, for which additional credit is precluded.
Lectures three hours a week.

MATH 4600 [0.5 credit]**Case Studies in Operations Research (Honours)**

Applications of the principles of Operations Research to practical problems in business, management, and science. Students present at least one case and analyze cases in the published literature. Cases may also be presented by visiting practitioners.

Includes: Experiential Learning Activity
Precludes additional credit for Students in Honours Mathematics/Statistics programs may only take course as a free option.
Prerequisite(s): STAT 2509 (or STAT 2559) and MATH 3801; or permission of the School.
Seminars three hours a week.

MATH 4700 [0.5 credit]**Partial Differential Equations (Honours)**

First-order partial differential equations. Classification of second-order linear partial differential equations; the diffusion equation, wave equation and Laplace's equation; separation of variables; Fourier and Laplace transform methods for the solution of initial/boundary value problems; Green's functions.
Prerequisite(s): MATH 3057 and one of MATH 3008 or MATH 3705, or permission of the School.
Lectures three hours a week.

MATH 4701 [0.5 credit]**Topics in Differential Equations (Honours)**

Topics in the theory and application of differential equations; for example, hyperbolic systems, fluid dynamics, nonlinear wave equations, optimal mass transport, control theory, calculus of variations.
Prerequisite(s): i) MATH 3008; and ii) one of MATH 3001 or MATH 3057; or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5407, for which additional credit is precluded.
Lectures three hours a week.

MATH 4703 [0.5 credit]**Dynamical Systems (Honours)**

Basic concepts of dynamical systems. Vector formulation for systems. Theory of autonomous systems in one, two and higher dimensions. Limit sets, stability. Phase plane, qualitative interpretation, limit cycles and attractors. Parametric dependence, bifurcations and chaos. Applications.
Prerequisite(s): MATH 3001 and MATH 3008 or permission of the School.
Lectures three hours a week.

MATH 4708 [0.5 credit]**Asymptotic Methods of Applied Mathematics (Honours)**

Asymptotic series: properties, matching, application to differential equations. Asymptotic expansion of integrals: elementary methods, methods of Laplace, stationary phase and steepest descent, Watson's lemma, Riemann-Lebesgue lemma. Perturbation methods: regular and singular perturbation for differential equations, multiple scale analysis, boundary layer theory, WKB theory.
Prerequisite(s): MATH 3057 and at least one of MATH 3008 or MATH 3705, or permission of the School.
Also offered at the graduate level, with different requirements, as MATH 5408, for which additional credit is precluded.
Lectures three hours a week.

MATH 4801 [0.5 credit]**Topics in Combinatorics (Honours)**

An in-depth study of one or more topics from: generating functions, Polya's theory of counting, block designs, coding theory, partially ordered sets and Ramsey theory.
Prerequisite(s): MATH 2100 and MATH 3855 or permission of the School.
Lectures three hours a week.

MATH 4802 [0.5 credit]**Introduction to Mathematical Logic (Honours)**

Symbolic logic, propositional and predicate calculi, set theory and model theory, completeness.
Prerequisite(s): MATH 2100 or permission of the School.
Lectures three hours a week.

MATH 4803 [0.5 credit]**Computable Functions (Honours)**

Recursive functions and computability, algorithms, Church's thesis, Turing machines, computational logic, NP-completeness.

Also listed as COMP 4803.

Prerequisite(s): MATH 2100 or MATH 3855 or permission of the School.

Lectures three hours a week.

MATH 4805 [0.5 credit]**Theory of Automata (Honours)**

Finite automata and regular expressions, properties of regular sets, context-free grammars, pushdown automata, deterministic context-free languages. Turing machines, the Chomsky hierarchy. Undecidability, intractable problems.

Also listed as COMP 4805.

Prerequisite(s): MATH 3106 or MATH 3158 or MATH 3855 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5605, for which additional credit is precluded.

Lectures three hours a week.

MATH 4806 [0.5 credit]**Numerical Linear Algebra (Honours)**

Matrix computations, conditioning/stability, direct methods for linear systems, classical iterative methods: Jacobi, Gauss-Seidel; modern iterative methods, Arnoldi decomposition, GMRES and other Krylov subspace-based methods for sparse and structured matrices; numerical solution of eigenvalue problems, implementation using suitable programming language, application to differential equations/optimization problems.

Also listed as COMP 4806.

Prerequisite(s): MATH 2152 or MATH 2107; MATH 2000 and MATH 3806; or permission of the School.

Lectures three hours a week.

MATH 4807 [0.5 credit]**Game Theory (Honours)**

One-player games, two-player zero-sum games, multi-player games, games in normal form, games in extensive form, utility theory, Nash equilibrium and Nash arbitration scheme, games in characteristic function form, cooperative solutions, dominations, stable sets, core, Shapley value, applications of game theory.

Prerequisite(s): MATH 3801 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5607, for which additional credit is precluded.

Lectures three hours a week.

MATH 4808 [0.5 credit]**Graph Theory and Algorithms (Honours)**

Paths, circuits, Eulerian and Hamiltonian graphs, connectivity, colouring problems, matching, Ramsey theory, network flows.

Prerequisite(s): MATH 3106 or MATH 3158 or MATH 3855 or permission of the School.

Lectures three hours a week.

MATH 4809 [0.5 credit]**Mathematical Cryptography (Honours)**

Topics covered include: a general survey of public key cryptography; classical applications of finite fields and number theory; relevant background in geometry and algebraic curves; computational issues concerning elliptic curves; elliptic curve cryptosystems; security issues.

Prerequisite(s): MATH 3158, or permission of the School.

Lectures three hours a week.

MATH 4811 [0.5 credit]**Combinatorial Design Theory (Honours)**

Existence and construction of combinatorial designs: finite geometries, pairwise balanced designs, balanced incomplete block designs, Steiner triple systems, symmetric designs, PBD closure, latin squares, transversal designs, and applications to information theory.

Prerequisite(s): MATH 3855, or permission of the School.

Lectures three hours a week.

MATH 4816 [0.5 credit]**Numerical Analysis for Differential Equations (Honours)**

Floating point arithmetic; numerical solution of ODEs; finite difference methods for PDEs; stability, accuracy and convergence: von Neumann analysis, CFL condition, Lax Theorem. Finite element methods: boundary value problems and elliptic PDEs. Spectral and pseudo-spectral methods.

Prerequisite(s): MATH 2454 and MATH 3806, or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5806, for which additional credit is precluded.

Lectures three hours a week.

MATH 4821 [0.5 credit]**Quantum Computing (Honours)**

Space of quantum bits; entanglement. Observables in quantum mechanics. Density matrix and Schmidt decomposition. Quantum cryptography. Classical and quantum logic gates. Quantum Fourier transform. Shor's quantum algorithm for factorization of integers.

Prerequisite(s): MATH 2152 (or MATH 2107) with a grade of C+ or better, and permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5821, for which additional credit is precluded.

Lectures three hours a week.

MATH 4822 [0.5 credit]**Wavelets and Digital Signal Processing (Honours)**

Lossless compression methods. Discrete Fourier transform and Fourier-based compression methods. JPEG and MPEG. Wavelet analysis. Digital filters and discrete wavelet transform. Daubechies wavelets. Wavelet compression.

Prerequisite(s): MATH 2152 (or MATH 2107) with a grade of C+ or better, and permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5822, for which additional credit is precluded.

Lectures three hours a week.

MATH 4905 [0.5 credit]**Honours Project (Honours)**

Consists of a written report on some approved topic or topics in the field of mathematics, together with a short lecture on the report.

Includes: Experiential Learning Activity

Prerequisite(s): B.Math.(Honours) students only.

MATH 4907 [0.5 credit]**Directed Studies (Honours)**

Prerequisite(s): B.Math.(Honours) students only.

Statistics (STAT) Courses**STAT 1500 [0.5 credit]****Introduction to Statistical Computing**

Basics of programming in R and introduction to statistical software; generating statistical plots; computing descriptive statistics; performing basic statistical procedures; fundamentals of numerical analysis; optimization; generating random numbers, performing simple simulations and simulation-based inference.

Includes: Experiential Learning Activity

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent.

Lectures three hours a week, laboratory one hour a week.

STAT 2507 [0.5 credit]**Introduction to Statistical Modeling I**

A data-driven introduction to statistics. Basic descriptive statistics, introduction to probability theory, random variables, discrete and continuous distributions, contingency tables, sampling distributions, distribution of sample mean, Central Limit Theorem, interval estimation and hypothesis testing. A statistical software package will be used.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 2000, BIT 2009, BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2201 (no longer offered), ECON 2210, ENST 2006, GEOG 2006, STAT 2606, and STAT 3502. May not be counted for credit in any program if taken after successful completion of STAT 2559.

Prerequisite(s): an Ontario Grade 12 university-preparation Mathematics or equivalent, or permission of the School of Mathematics and Statistics.

Lectures three hours a week, laboratory one hour a week.

STAT 2509 [0.5 credit]**Introduction to Statistical Modeling II**

A data-driven approach to statistical modeling. Basics of experimental design, analysis of variance, simple linear regression and correlation, nonparametric procedures. A statistical software package will be used.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 2607, ECON 2202, ECON 2220.

Prerequisite(s): STAT 2507 or STAT 2606 or STAT 3502; or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 2559 [0.5 credit]**Basics of Statistical Modeling (Honours)**

Estimation and hypothesis testing for one and two samples, analysis of categorical data, basics of experimental design, analysis of variance, simple linear regression and correlation. Nonparametric procedures. A statistical software package will be used.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 2655 or permission of the School.

Lectures three hours a week, tutorial/laboratory one hour a week.

STAT 2605 [0.5 credit]**Probability Models**

Basic probability; discrete random variables with focus on binomial and Poisson random variables; continuous random variables, transformation theorem, simulating continuous random variables; exponential random variable, normal random variable, sums of random variables, central limit theorem. Elements of Markov chains, and introduction to Poisson processes.

Precludes additional credit for STAT 2655 and STAT 3502.

Prerequisite(s): MATH 1007 or MATH 1004 or MATH 1002 (no longer offered) or MATH 1052, and MATH 1104 or MATH 1107 or MATH 1102 (no longer offered) or MATH 1152. Restricted to students in Bachelor of Computer Science and Bachelor of Mathematics in Computer Mathematics.

Lectures three hours a week, tutorial one hour a week.

STAT 2606 [0.5 credit]**Business Statistics**

Introduction to statistical computing; probability concepts; descriptive statistics; estimation and testing of hypotheses. Emphasis on the development of an ability to interpret results of statistical analyses with applications from business.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 2000, BIT 2009, BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2201 (no longer offered), ECON 2210, ENST 2006, GEOG 2006, STAT 2507, and STAT 3502.

Prerequisite(s): MATH 1009. Restricted to B.Com. and B.I.B students.

Lectures three hours a week and laboratory one hour a week.

STAT 2607 [0.5 credit]**Business Statistics II**

Topics include: experimental design, multiple regression and correlation analysis, covariance analysis, and introductory time series. Use of computer packages.

Restricted to students in the School of Business.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 2509, ECON 2202, ECON 2220.

Prerequisite(s): STAT 2606.

Lectures three hours a week and one hour laboratory.

STAT 2655 [0.5 credit]**Introduction to Probability with Applications (Honours)**

Probability axioms, basic combinatorial analysis, conditional probability and independence, discrete and continuous random variables, joint and conditional distributions, expectation and moments, probability and moment generating functions, Chebyshev's inequality and weak law of large numbers, central limit theorem, sampling distributions, simulation and applications to descriptive statistics.

Precludes additional credit for STAT 2605.

Prerequisite(s): MATH 2052 with a grade of C+ or higher or MATH 2007 or MATH 1005 with a grade of B+ or higher; and MATH 2152 with a grade of C+ or higher or MATH 2107 with a grade of B+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 2660 [0.5 credit]**Mathematics for Finance (Honours)**

Interest rates, growth of money, discount functions, yield rates, time value of money, annuities, cash flows and portfolios, loans, mortgages, bonds, immunization, swaps, hedging and investment strategies, stocks and financial markets, arbitrage.

Prerequisite(s): i) one of MATH 2052 or MATH 2007 or MATH 1005, grade of C+ or higher; and ii) one of MATH 1152 or MATH 1107 or MATH 1104, grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 2907 [0.5 credit]**Directed Studies (Honours)**

Available only to Honours students whose program requires a 0.5 credit not offered by the School of Mathematics and Statistics.

STAT 3502 [0.5 credit]**Probability and Statistics**

Axioms of probability; conditional probability and independence; random variables; distributions: binomial, Poisson, hypergeometric, normal, gamma; central limit theorem; sampling distributions; point estimation: maximum likelihood, method of moments; confidence intervals; testing of hypotheses: one and two populations; engineering applications: acceptance sampling, control charts, reliability.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 2000, BIT 2009, BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2201 (no longer offered), ECON 2210, STAT 2507, STAT 2605, and STAT 2606.

Prerequisite(s): MATH 2004 and enrolment in the Faculty of Engineering or B.Sc. programs of the Department of Physics [except Double Honours Mathematics and Physics].

Lectures three hours a week and one hour laboratory.

STAT 3503 [0.5 credit]**Regression Analysis**

Review of simple and multiple regression with matrices, Gauss-Markov theorem, polynomial regression, indicator variables, residual analysis, weighted least squares, variable selection techniques, nonlinear regression, correlation analysis and autocorrelation. Computer packages are used for statistical analyses.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 3553.

Prerequisite(s): i) STAT 2509 or STAT 2607 or ECON 2202 or ECON 2220 or equivalent; and ii) MATH 1152 or MATH 1107 or MATH 1119 or equivalent; or permission of the School.

Lectures three hours a week and one hour laboratory.

STAT 3504 [0.5 credit]**Analysis of Variance and Experimental Design**

Single and multifactor analysis of variance, orthogonal contrasts and multiple comparisons, analysis of covariance; nested, crossed and repeated measures designs; completely randomized, randomized block, Latin squares, factorial experiments, related topics. Computer packages are used for statistical analyses.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 4504.

Prerequisite(s): STAT 3503 or permission of the School.

Lectures three hours a week and one hour laboratory.

STAT 3506 [0.5 credit]**Stochastic Processes and Applications (Honours)**

Conditional probability and conditional expectation; Stochastic modeling; discrete time Markov chains including classification of states, stationary and limiting distributions; exponential distribution and the Poisson processes; queueing models; applications to computer systems, operations research and social sciences.

Prerequisite(s): STAT 2655 with a grade of C- or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3507 [0.5 credit]**Sampling Methodology**

The sample survey as a vehicle for information collection in government, business, scientific and social agencies. Topics include: planning a survey, questionnaire design, simple random, stratified, systematic and cluster sampling designs, estimation methods, problem of non-response, related topics.

Includes: Experiential Learning Activity

Prerequisite(s): one of: STAT 2507, STAT 2509, STAT 2606, STAT 2607, ECON 2201, ECON 2202, ECON 2210, ECON 2220, or equivalent; or permission of the School.

Lectures three hours a week and one hour laboratory.

STAT 3508 [0.5 credit]**Elements of Probability Theory**

Discrete and continuous distributions, moment-generating functions, marginal and conditional distributions, transformation theory, limiting distributions.

Precludes additional credit for STAT 3558 and STAT 3608.

Prerequisite(s): i) MATH 2008 (or MATH 2004 or MATH 2009); and ii) one of STAT 2507, STAT 2606, ECON 2200, or ECON 2201 or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3509 [0.5 credit]**Mathematical Statistics**

Point and interval estimation, sufficient statistics, hypothesis testing, chi-square tests with enumeration data. Precludes additional credit for STAT 3559.

Prerequisite(s): STAT 3508 or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3553 [0.5 credit]**Regression Modeling (Honours)**

Linear regression - theory, methods and application(s). Normal distribution theory. Hypothesis tests and confidence intervals. Model selection. Model diagnostics. Introduction to weighted least squares and generalized linear models.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 3503.

Prerequisite(s): i) STAT 2559 with a grade of C- or higher, or STAT 2509 with a grade of B or higher; and ii) a grade of C- or higher in MATH 1152 or MATH 1107 or MATH 1104; or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 3558 [0.5 credit]**Elements of Probability Theory (Honours)**

Random variables and moment-generating functions, concepts of conditioning and correlation; laws of large numbers, central limit theorem; multivariate normal distribution; distributions of functions of random variables, sampling distributions, order statistics.

Precludes additional credit for STAT 3508 and STAT 3608.

Prerequisite(s): i) STAT 2655 with a grade of C- or higher; and ii) MATH 2000 with a grade of C- or higher, or (a grade of C+ or higher in MATH 2008 or MATH 2004, and permission of the instructor); or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3559 [0.5 credit]**Mathematical Statistics (Honours)**

Empirical distribution functions, Monte Carlo methods, elements of decision theory, point estimation, interval estimation, tests of hypotheses, robustness, nonparametric methods.

Precludes additional credit for STAT 3509.

Prerequisite(s): STAT 3558 with a grade of C- or higher; or (STAT 3508 with a grade of B or higher, and permission of the instructor); or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3660 [0.5 credit]**Actuarial Mathematics I**

Severity, frequency models, loss models, risk measures, value at risk, stochastic processes, Poisson process, characteristics of actuarial models, creating new univariate distributions, heavy-tailed distributions, mixed distributions, coverage modifications.

Prerequisite(s): STAT 2655, or permission from the school.

Lectures three hours a week, tutorial one hour a week.

STAT 3661 [0.5 credit]**Life Contingent Risk Modelling I**

Introduction to life insurance; traditional and modern insurance contracts; underwriting; premiums; present value random variable; force of mortality; life tables; insurance benefits; annuities; premium calculation, reserves.

Prerequisite(s): STAT 2660 and STAT 3660, or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3907 [0.5 credit]**Directed Studies**

Available only to students whose program requires a 0.5 credit not offered by the School of Mathematics and Statistics.

STAT 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

STAT 4500 [0.5 credit]**Parametric Estimation (Honours)**

Preliminaries on probability theory; exact and asymptotic sampling distributions; unbiasedness, consistency, efficiency, sufficiency and completeness; properties of maximum likelihood estimators; least squares estimation of location and scale parameters based on order statistics and sample quantiles; Best Asymptotically Normal (BAN) estimators.

Prerequisite(s): STAT 3559 or permission of the School.

Also offered at the graduate level, with different requirements, as STAT 5600, for which additional credit is precluded.

Lectures three hours a week.

STAT 4501 [0.5 credit]**Probability Theory (Honours)**

Introduction to probability, characteristic functions, probability distributions, limit theorems.

Prerequisite(s): STAT 3506 and STAT 3558 or permission of the School.

Lectures three hours a week.

STAT 4502 [0.5 credit]**Survey Sampling (Honours)**

Basic concepts in sampling from finite populations; simple random sampling; stratified sampling; choice of sampling unit; cluster and systematic sampling; introduction to multistage sampling; ratio estimation; sampling with unequal probabilities and with replacement; replicated sampling; related topics.

Prerequisite(s): i) STAT 2559 or STAT 2509; and ii) either STAT 3559, or a grade of C + or better in STAT 3509; or permission of the School.

Lectures three hours a week.

STAT 4503 [0.5 credit]**Applied Multivariate Analysis (Honours)**

Selected topics in regression and correlation non-linear models. Multivariate statistical methods, principal components, factor analysis, multivariate analysis of variance, discriminant analysis, canonical correlation, analysis of categorical data.

Prerequisite(s): STAT 3553 or (STAT 3509 and STAT 3503) or permission of the School.

Also offered at the graduate level, with different requirements, as STAT 5509, for which additional credit is precluded.

Lectures three hours a week.

STAT 4504 [0.5 credit]**Statistical Design and Analysis of Experiments (Honours)**

An extension of the designs discussed in STAT 2559 to include analysis of the completely randomized design, designs with more than one blocking variable, incomplete block designs, fractional factorial designs, multiple comparisons; and response surface methods.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 3504 and ECON 4706. PSYC 3000 is precluded for additional credit for students registered in a Mathematics program.

Prerequisite(s): STAT 3553 or STAT 3503; or permission of the School of Mathematics and Statistics.

Lectures three hours a week, laboratory one hour a week.

STAT 4506 [0.5 credit]**Nonparametric Statistics (Honours)**

Order statistics; projections; U-statistics; L-estimators; rank, sign, and permutation test statistics; nonparametric tests of goodness-of-fit, homogeneity, symmetry, and independence; nonparametric density estimation; nonparametric regression analysis: kernel estimators, orthogonal series estimators, smoothing splines; high-dimensional inference and false discovery.

Prerequisite(s): STAT 3559 or permission of the School.

Also offered at the graduate level, with different requirements, as STAT 5516, for which additional credit is precluded.

Lectures three hours a week.

STAT 4507 [0.5 credit]**Statistical Inference (Honours)**

Sufficient statistics, simple and composite hypotheses, most powerful and similar region test, distribution-free tests, confidence intervals, goodness-of-fit and likelihood ratio tests, large sample theory, Bayesian and likelihood methods, sequential tests.

Prerequisite(s): STAT 4500 or permission of the School.

Also offered at the graduate level, with different requirements, as STAT 5501, for which additional credit is precluded.

Lectures three hours a week.

STAT 4508 [0.5 credit]**Stochastic Models (Honours)**

Review of discrete Markov chains and Poisson processes; continuous time Markov chains; pure jump Markov processes, and birth and death processes including the Q-matrix approach; the Kolmogorov equations; renewal theory; introduction to Brownian motion; queueing theory.

Prerequisite(s): STAT 3506 or permission of the School.

Also offered at the graduate level, with different requirements, as STAT 5701, for which additional credit is precluded.

Lectures three hours a week.

STAT 4509 [0.5 credit]**Advanced Mathematical Modeling (Honours)**

Real-life situations in the physical, social, and life sciences are often modeled using mathematical tools. This course will examine various models and techniques used in their analysis, e.g., matrix procedures in connection with population models. Students will use a computer package to obtain numerical results.

Prerequisite(s): i) MATH 2454 and STAT 2655 (or MATH 2404 and STAT 2605) and ii) STAT 3506; or permission of the School.

Also offered at the graduate level, with different requirements, as STAT 5601, for which additional credit is precluded.

Lectures three hours a week.

STAT 4555 [0.5 credit]**Monte Carlo Simulation (Honours)**

Basic ideas and algorithms of Monte Carlo; simulation of basic stochastic processes. Brownian motion and the Poisson process, applications to financial modelling, queueing theory. Output analysis; variance reduction. Markov chain Monte Carlo methods; Gibbs sampling, simulated annealing and Metropolis-Hastings samplers with applications.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 3555 (no longer offered).

Prerequisite(s): STAT 3558, or a grade of B or higher in STAT 3508, or permission of the School.

Lectures three hours a week, tutorial/laboratory one hour a week.

STAT 4601 [0.5 credit]**Data Mining I (Honours)**

Data visualization; knowledge discovery in datasets; unsupervised learning: clustering algorithms; dimension reduction; supervised learning: pattern recognition, smoothing techniques, classification. Computer software will be used.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 3553 or STAT 3503 or MATH 3806, or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 4603 [0.5 credit]**Time Series and Forecasting (Honours)**

Time series regression. Nonstationary and stationary time series models. Nonseasonal and seasonal time series models. ARIMA (Box-Jenkins) models. Smoothing methods. Parameter estimation, model identification, diagnostic checking. Forecasting techniques. A statistical software package will be used.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 3553 or STAT 3503, or permission of the School.

Lectures three hours a week.

STAT 4604 [0.5 credit]**Statistical Computing (Honours)**

Statistical computing techniques, pseudo-random number generation, tests for randomness, numerical algorithms in statistics; optimization techniques; environments for data analysis, efficient programming techniques; statistics with mainstream software.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 3553 or STAT 3503 or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 4607 [0.5 credit]**Bayesian Statistical Analysis (Honours)**

Probability basics for Bayesian statistics. Bayesian inference for simple exponential families. Markov Chain Monte Carlo for posterior inference. Empirical Bayes. Hierarchical Bayes. Bayesian inference for the multivariate normal model. Bayesian linear regression. More advanced topics may be included. Computer software will be used.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 3553 or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 4660 [0.5 credit]**Actuarial Mathematics II**

Empirical models, complete data, grouped data, credibility theory, failure time, accuracy, kernel estimation, goodness of fit tests, Bayesian analysis, inference for loss models, frequentist estimation, model selection.

Prerequisite(s): STAT 3660 with C+ or higher, or permission of the school.

Lectures three hours a week, tutorial one hour a week.

STAT 4661 [0.5 credit]**Life Contingent Risk Modelling II**

Policy values; multiple state models; formulae for probability; Markov multiple state models; pension mathematics; yield curves; interest rate risk; emerging costs for life insurance; equity linked insurance; deterministic and stochastic pricing; reserving, participating, and universal life insurance.

Precludes additional credit for STAT 3662 (no longer offered).

Prerequisite(s): STAT 3661 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 4905 [0.5 credit]**Honours Project (Honours)**

Consists of a written report on some approved topic or topics in the field of statistics, together with a short lecture on the report.

Includes: Experiential Learning Activity

Prerequisite(s): B.Math.(Honours) students only.

STAT 4907 [0.5 credit]**Directed Studies (Honours)**

Prerequisite(s): B.Math.(Honours) students only.

Media Production and Design

This section presents the requirements for programs in:

- Media Production and Design B.M.P.D. Honours

Program Requirements**Media Production and Design****B.M.P.D. Honours (20.0 credits)****A. Credits Included in the Major (12.0 credits)**

1. 2.0 credits in:	2.0
ITEC 1005 [0.5]	Web Development
ITEC 1100 [0.5]	Introduction to Interactive Media Design

MPAD 1001 [0.5]	Introduction to Storytelling: The Context	
MPAD 1002 [0.5]	Introduction to Storytelling: The Practice	
2. 1.0 credits in:		1.0
ITEC 1401 [0.5] & ITEC 2401 [0.5]	Introduction to Scripting and Problem Solving Intermediate Scripting	
Or		
ITEC 1400 [0.5] & ITEC 2400 [0.5]	Introduction to Programming and Problem Solving Intermediate Programming	
3. 3.5 credits in:		3.5
ITEC 2000 [0.5]	Multimedia Data Management	
ITEC 2100 [0.5]	Data Visualization	
MPAD 2001 [0.5]	Basics of Visual Communication I	
MPAD 2002 [0.5]	Basics of Visual Communication II	
MPAD 2003 [0.5]	Introductory Data Storytelling	
MPAD 2004 [0.5]	Writing for Media	
MPAD 2501 [0.5]	Media Law	
4. 3.0 credits in:		3.0
ITEC 3100 [0.5]	Immersive Storytelling	
MPAD 3001 [0.5]	Storytelling and Social Media	
MPAD 3002 [0.5]	Civic Engagement and Public Institutions I	
MPAD 3003 [0.5]	Civic Engagement and Public Institutions II: Minor Design Project	
MPAD 3300 [0.5]	Media Ethics in a Digital World	
MPAD 3501 [0.5]	Internet and Big Data Law	
5. 2.0 credits in:		2.0
MPAD 4000 [1.0]	Capstone Project	
MPAD 4001 [0.5]	Media Industries Now and Next	
MPAD 4200 [0.5]	Freelance Media Survival Skills	
6. 0.5 credit from:		0.5
MPAD 3000 [0.5]	Directed Studies	
MPAD 4300 [0.5]	Special Topic	
MPAD 4400 [0.5]	Directed Studies	
MPAD 4500 [0.5]	Special Topic	
MPAD 4501 [0.5]	Gender, Identity and Inequality	
MPAD 4502 [0.5]	Journalism and Conflict	
MPAD 4503 [0.5]	Journalism, Indigenous Peoples and Canada	
MPAD 4504 [0.5]	The Media and International Development	
B. Credits Not Included in the Major (8.0 credits)		
7. 8.0 credits in free electives		8.0
Total Credits		20.0

Bachelor of Media Production and Design Regulations

In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

0000-Level Courses

Students in the B.M.P.D. program may not count any 0000-level courses for credit toward their degree. Such students may, however, be required to take one or more of

these courses to replace missing program prerequisites in which case the courses will be set aside as “no credit for degree” (NCD).

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and

potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op

option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

Bachelor of Media Production and Design: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered as a full-time student in the Bachelor of Media Production and Design program;
2. Successfully completed MPAD 2002 before beginning the first work term.
3. Obtained and maintained an overall CGPA of 9.00 or higher.

Bachelor of Media Production and Design students must successfully complete three (3) work terms to obtain the Co-op designation.

Work Term Course: MPAD 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	*W/S	Fall	S
Winter	S	Winter	S	Winter	*W/S	Winter	S	Winter	S
Summer		Summer		Summer	*W/S	Summer	W/S		

Legend

S: Study

W: Work

O: Optional

Degree

- Bachelor of Media Production and Design (B.M.P.D. Honours)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses.

The six 4U or M courses must include English and one of Advanced Functions or Calculus and Vectors or Mathematics of Data Management. Advanced Functions is recommended.

Advanced Standing

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Media Production and Design program;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market (and thus the availability of co-op placement) may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements

for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Information Technology (ITEC) Courses

ITEC 1005 [0.5 credit]

Web Development

Introduction to Web development. Combining graphics, text, audio, and video to create Web sites; developing different, major working Web sites on an individual basis and in groups, using valid HTML5, cascading style sheets (CSS3), JavaScript and XML structures.

Precludes additional credit for IMD 1005.

Lectures and tutorials five hours a week.

ITEC 1100 [0.5 credit]

Introduction to Interactive Media Design

Overview of interactive multimedia design: user-centred and web design, mark-up languages, project management, design processes for video games, visual effects in movies, ethics, current trends in the field.

Precludes additional credit for IMD 1000.

Prerequisite(s): For students not enrolled in CSIT programs.

Lectures three hours a week.

ITEC 1400 [0.5 credit]

Introduction to Programming and Problem Solving

Introduction to basic concepts of procedural programming and algorithm design in C. Topics include: basic variables, functions, operators, program control with iteration and conditionals, I/O operations, text and file processing, structures, arrays, pointers, debugging, algorithmic thinking and pseudocode, computer architecture, operating systems, and libraries.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1400, COMP 1005, COMP 1405, ITEC 1401.

Lectures/tutorials six hours a week.

ITEC 1401 [0.5 credit]

Introduction to Scripting and Problem Solving

Introduction to basic concepts of object-oriented scripting and algorithm design in Python. Topics include: basic variables, functions, operators, program control with iteration and conditionals, I/O operations, text and file processing, arrays, tuples, lists, debugging, algorithms and pseudocode, computer architecture, operating systems, and libraries.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1400, COMP 1005, COMP 1405, ITEC 1400.

Lectures/tutorials six hours a week.

ITEC 2000 [0.5 credit]**Multimedia Data Management**

Issues involving the back-end organization of information focusing on databases and database design, server-side scripting, the structured query language (SQL), digital rights management, and watermarking.

Precludes additional credit for BIT 2008, COMP 2006 (no longer offered), IRM 2000 (no longer offered), IMD 2000 (no longer offered).

Lectures and tutorials five hours a week.

ITEC 2100 [0.5 credit]**Data Visualization**

Web-based data visualization techniques and systems.

Good design practices for visualization, tools for visualization of data from a variety of fields, and programming of interactive web-based visualizations focusing on JavaScript, CSS, SVG and the D3 library.

Includes: Experiential Learning Activity

Lectures/labs five hours a week.

ITEC 2400 [0.5 credit]**Intermediate Programming**

Introduction to object-oriented programming and algorithm design in C++. Topics include code and data encapsulation using classes and objects, inheritance, polymorphism, object-oriented design, data and code abstraction, program efficiency, user interface objects, event-driven systems, and an introduction to linked-lists and searching.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 2400, COMP 1006, COMP 1406, ITEC 2401.

Prerequisite(s): ITEC 1400.

Lectures three hours a week, tutorial three hours a week.

ITEC 2401 [0.5 credit]**Intermediate Scripting**

Introduction to advanced object-oriented scripting and algorithm design in Python. Topics include class design and encapsulation, inheritance, polymorphism, object-oriented design, data and code abstraction, program efficiency, user interface objects, event-driven systems, and an introduction to linked-lists, sorting, and searching.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 2400, COMP 1006, COMP 1406, ITEC 2400.

Prerequisite(s): ITEC 1401.

Lectures/tutorials six hours a week.

ITEC 3100 [0.5 credit]**Immersive Storytelling**

The craft of digital storytelling, creating compelling online and game-engine packages. Using a variety of narrative formats, interactive tools, and digital content, including blogs and RSS feeds, developing an in-depth story using leading edge technologies and techniques.

Includes: Experiential Learning Activity

Workshop three hours a week.

ITEC 4007 [0.5 credit]**Dynamics and Physics-Based Animation**

This course deals with the essentials of physics-based animations and dynamics; topics include basics of animation mechanics, collision detection, particle systems, and dynamic systems (cloth, fluid, and hair).

Includes: Experiential Learning Activity

Precludes additional credit for IMD 4007 (no longer offered).

Prerequisite(s): IMD 3002 or equivalent.

Lecture three hours a week, tutorial two hours a week.

ITEC 4009 [0.5 credit]**Rigging and Advanced Character Animation**

This course covers the elements of rigging and advanced character animation; topics include the basics of forwards/inverse kinematics, controls, and weighting, essentials of human and creature rigging, retargeting, face and body motion capture, and motion studies for advanced keyframe animation.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 3002 and IMD 3900 or equivalent.

Lectures three hours a week, tutorial two hours a week.

ITEC 4010 [0.5 credit]**Visual Effects and Compositing**

This course covers the essentials of Visual FX and compositing, topics include camera setups (motion control systems), set issues, match-moving, image-based lighting, chroma-keying and object extraction, colour correction, 2D tracking, and rotoscoping.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 3002 or equivalent.

Lecture three hours a week, tutorial two hours a week.

ITEC 4011 [0.5 credit]**Artificial Intelligence for Digital Media**

This course covers the basics of artificial intelligence in games and animation, including behaviour and crowd systems (e.g. boids, reciprocal velocity obstacles, social forces, agent-based modelling, cellular automata), path finding and route planning, as well as procedural animation systems.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400 or ITEC 2401 or equivalent.

Lecture three hours a week, tutorial two hours a week.

ITEC 4012 [0.5 credit]**Web Application Frameworks**

A detailed look at web application frameworks, focusing client and server-side frameworks that enable more advanced user interactions, including configuration, understanding functionality, and develop with them effectively.

Includes: Experiential Learning Activity

Prerequisite(s): ITEC 1005 or equivalent.

Lecture three hours a week, tutorial two hours a week.

ITEC 4014 [0.5 credit]**User Experience Design and Accessibility**

User experience (UX) of interactive systems, including product and service design, usability and UX research. Emphasis on accessibility, with topics including creating accessible systems for users with a range of abilities, accessibility standards, and validation of designs in a practical context.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 3004 or equivalent.

Lecture three hours a week, tutorial two hours a week.

ITEC 4015 [0.5 credit]**Digital Audio and Music**

Introduces the concepts of digital audio & music specifically how it relates to digital media (games, film, mobile, etc). Topics include, digital audio recording, multitrack production and mixing, foley effects, musical interference and intonations, signal processing for effect, time & spatial variations, and studio recording.

Includes: Experiential Learning Activity

Studio five hours a week.

ITEC 4016 [0.5 credit]**Virtual and Augmented Reality**

Design, development, and evaluation of virtual and augmented reality systems. Topics include VR/AR history, applications, hardware (display and input devices), software, interaction techniques for navigation, selection, manipulation, human factors, and empirical validation. Projects will use modern 3D game engines and VR/AR devices.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 2006 and IMD 3002 or equivalent.

Lecture three hours a week, tutorial two hours a week.

ITEC 4017 [0.5 credit]**Photo and Non-Photo-Realistic Rendering**

This course deals with physically-based rendering methods and techniques in the global illumination field; topics include the rendering equation, ray and path tracing, radiosity rendering, photon mapping, final gather methods, materials and shaders, as well taking a look at non-photo-realistic rendering.

Includes: Experiential Learning Activity

Lecture three hours a week, tutorial two hours a week.

ITEC 4018 [0.5 credit]**GPU Programming and Real-Time Rendering**

This course deals with the programming of the Graphics Processing Unit (GPU); topics include real-time rendering, shaders, and other advanced programming techniques that utilise single-instruction / multiple thread parallel processing units.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400 or equivalent.

Lecture three hours a week, tutorial two hours a week.

ITEC 4019 [0.5 credit]**Directing and Cinematography for Digital Storytelling**

This course covers the basics of being a director in a digital storytelling environment, including the basics of direction, dealing with actors, following scripts, and dealing with elements of cinematography; including lighting, cameras, shade, and shadow.

Includes: Experiential Learning Activity

Lecture three hours a week, tutorial two hours a week.

ITEC 4020 [0.5 credit]**Environment and Architectural Modelling**

The course deals with the creation, development, and use of assets for digital environments; with specific focus on the workflows associated with scene construction and architectural modelling for a variety of real-time and non-real-time systems.

Includes: Experiential Learning Activity

Studio five hours a week.

Media Production and Design (MPAD) Courses**MPAD 1001 [0.5 credit]****Introduction to Storytelling: The Context**

Theories, origins and evolution of story within society as the digital age shapes the way we construct and consume narratives. How stories are conceived through words, sound and images, and how they resonate with and influence audiences.

Lectures three hours a week.

MPAD 1002 [0.5 credit]**Introduction to Storytelling: The Practice**

Finding and telling stories in engaging ways using text and basic images. Assignments build basic skills in research, interviewing, writing, storytelling, editing and ethics. How to structure and pitch for publication.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1001.

Workshop three hours a week.

MPAD 2001 [0.5 credit]**Basics of Visual Communication I**

Introduction to visual storytelling through video. Students develop editorial and technical skills to produce video stories that include scripting to images. Students will also learn the basics of video shooting on a range of equipment as well as basic video editing skills.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1002.

Workshop three hours a week.

MPAD 2002 [0.5 credit]**Basics of Visual Communication II**

This course expands from video theory and practice to still photography and multimedia projects, with emphasis on hands-on work with a theoretical underpinning, giving students the practical and technical skills to tell stories in multiple formats.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 2001.

Workshop three hours a week.

MPAD 2003 [0.5 credit]**Introductory Data Storytelling**

Governments use data for tracking. Numbers guide public policy and can become powerful and important stories. Students will gain a theoretical understanding of the promise and pitfalls of data availability alongside the practical skills needed for powerful data-based storytelling.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1002.

Workshop three hours a week.

MPAD 2004 [0.5 credit]**Writing for Media**

This course tests student baseline skills, then develops writing capabilities tailored to specific media formats.

Coursework is based on the principle that the best way to improve technique is through regular writing and timely constructive critiques.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1002.

Workshop three hours a week.

MPAD 2501 [0.5 credit]**Media Law**

A survey of laws that affect the Canadian media. Specific areas include the development of freedom of expression, the Charter of Rights and Freedoms, and statutory and common law limitations on freedoms of the press, including publication bans, libel and contempt of court. Also listed as COMS 2501, JOUR 2501.

Prerequisite(s): Second-year standing in the Bachelor of Media Production and Design program.

Lectures three hours a week.

MPAD 3000 [0.5 credit]**Directed Studies**

Directed Studies on select topics. Students interested in pursuing this course need to contact a faculty member to discuss a proposed directed study.

Prerequisite(s): Third year standing in Media Production and Design or permission from the School of Journalism and Communication.

Unscheduled.

MPAD 3001 [0.5 credit]**Storytelling and Social Media**

Social media in storytelling. Theory-based lectures, hands-on course modules, discussions and presentations.

Students will learn tactics to apply social media for research, gathering information, finding contacts and promoting their own work.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 2004.

Lecture three hours a week.

MPAD 3002 [0.5 credit]**Civic Engagement and Public Institutions I**

Expert sources from Canadian institutions discuss covering the economy, justice, environment and security. How public policy is made, the role of the public and how the media analyze information, develop ideas, and produce stories.

Prerequisite(s): third-year standing in the Bachelor of Media Production and Design or the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information.

Lectures three hours a week.

MPAD 3003 [0.5 credit]**Civic Engagement and Public Institutions II: Minor Design Project**

Group work building on the fall term course. Production of a public institutions mini-project involving the various development stages that will be employed in the final year capstone project, including the creation of a detailed design document to guide group projects.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 3002.

Workshop three hours a week.

MPAD 3300 [0.5 credit]**Media Ethics in a Digital World**

An examination of ethical issues relating to production of news and other forms of information content, particularly as they relate to digital environments. Discussion of various approaches to ethical decision-making, application in contemporary settings.

Also listed as JOUR 3300.

Prerequisite(s): MPAD 2501.

Lectures three hours a week.

MPAD 3501 [0.5 credit]**Internet and Big Data Law**

The legal use of big data to create content and analyze information. Who owns data; privacy and security implications within a legal landscape fraught with legal concerns and policy challenges.

Prerequisite(s): JOUR 2501 or MPAD 2501 and third-year standing in the Bachelor of Media Production and Design or in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information.

Lectures three hours a week.

MPAD 3600 [0.5 credit]**Special Topic**

Examination of a topic in storytelling and media not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Media Production and Design program.

Lecture three hours a week.

MPAD 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 2002.

MPAD 4000 [1.0 credit]**Capstone Project**

Student groups develop a capstone project beginning with story development and planning, completion of a story design document including project description, research, key vistas and sketches or storyboards. Group presentations leading to final media project at the end of second term.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 2002, MPAD 3003, ITEC 2100, ITEC 2400 and fourth-year standing in the Bachelor of Media Production and Design program.

MPAD 4001 [0.5 credit]**Media Industries Now and Next**

Changes in the media, the public's relationship with the media and how journalists, news organizations and other media players respond. Practical issues and challenges in the professional life of an information producer.

Also listed as JOUR 4001.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program.

Lectures and discussions three hours a week.

MPAD 4200 [0.5 credit]**Freelance Media Survival Skills**

Preparation for freelancing to publications and production houses. Resumes, finding potential buyers, interviews, establishing and marketing an individual as a business, accounting and management and dealing with taxes and benefits. Pitching stories, ideas and services.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program.

Lectures three hours a week.

MPAD 4300 [0.5 credit]**Special Topic**

Students will choose a topic from a list of journalism options, to be announced each year.

Also listed as JOUR 4300.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4400 [0.5 credit]**Directed Studies**

Directed study on select topics. Students interested in pursuing this course need to contact a faculty member to discuss a proposed directed study.

Prerequisite(s): Third year standing in Media Production and Design or permission from the School of Journalism and Communication.

Unscheduled.

MPAD 4500 [0.5 credit]**Special Topic**

Examination of a topic in storytelling and media not covered in depth in other courses.

Also listed as JOUR 4500.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4501 [0.5 credit]**Gender, Identity and Inequality**

How social concepts of gender, identity and inequality influence journalism. Theoretical and textual analysis. Historical and contemporary case studies from mainstream and alternative media exploring journalistic expression, professional practices, status and expectations, and cultural representations.

Includes: Experiential Learning Activity

Also listed as JOUR 4501.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4502 [0.5 credit]**Journalism and Conflict**

For as long as there has been conflict between peoples, there have been those who bear witness and recount their observations. This course examines journalism and conflict with an emphasis on journalistic perspectives but also through discussion of interdisciplinary literature and academic research.

Includes: Experiential Learning Activity

Also listed as JOUR 4502.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4503 [0.5 credit]**Journalism, Indigenous Peoples and Canada**

Students will explore how journalism in Canada has been associated with colonialism, be challenged to confront misrepresentation in the news media, and learn to consider new strategies and ethical frameworks for covering Indigenous people in the era of reconciliation.

Includes: Experiential Learning Activity

Also listed as JOUR 4503.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4504 [0.5 credit]**The Media and International Development**

A critical examination of the use of journalism as an instrument of international development, historically and currently. To what extent have these efforts been successful? On what grounds are they justified? In what regard have they been instruments of propaganda.

Includes: Experiential Learning Activity

Also listed as JOUR 4504.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

Medieval and Early Modern Studies (Minor)

This section presents the requirements for programs in:

- Minor in Medieval and Early Modern Studies

Program Requirements

Minor in Medieval and Early Modern Studies (4.0 credits)

This minor is available to all undergraduate degree students.

Requirements:

1. 1.0 credit in:	1.0
MEMS 2001 [0.5] Discovering the Medieval and Early & MEMS 3001 [0.5] Modern Past Researching the Medieval and Early Modern Past	
2. 2.0 credits from Approved Medieval and Early Modern Studies Electives at the 2000-level or higher, with the exception of 1.0 credit in approved language training which may be at the 1000-level or higher.	2.0
3. 1.0 credit from Approved Medieval and Early Modern Studies Electives at the 3000-level or higher.	1.0
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	

Total Credits 4.0

Notes:

1. Courses used to fulfil **Items 2 and 3** above must be from more than one unit.
2. Other courses may be substituted for the credits specified in **Items 2 and 3**, when material on Medieval and Early Modern topics are central to the course. Such substitutions must be individually approved by the program coordinator, through the College of the Humanities. Students are encouraged to consult course descriptions of Special Topics courses in the related academic units.

Approved Medieval and Early Modern Studies Electives

Note: access to these courses is not guaranteed, and may depend upon space availability and the satisfaction of other requirements such as course prerequisites.

HIST 3005 [0.5]	Medieval Aristocratic Life
HIST 3006 [0.5]	Medieval Religious Life
HIST 3007 [0.5]	Medieval Intellectual Life
HIST 3105 [0.5]	Renaissance Europe
HIST 3708 [0.5]	Reformation Europe
HIST 4006 [1.0]	Seminar in Medieval History
HIST 4100 [1.0]	Seminar in Early Modern European History

Humanities

HUMS 2000 [1.0]	Reason and Revelation
HUMS 2101 [0.5]	Art from Antiquity to the Medieval World
HUMS 3000 [1.0]	Culture and Imagination
HUMS 3200 [1.0]	European Literature

Political Science

PSCI 3709 [0.5] Ancient and Medieval Political Thought

Religion

RELI 2310 [0.5]	Islam
RELI 2330 [0.5]	The Qur'an
RELI 2350 [0.5]	Classical Islamic Thought
RELI 3220/HIST 3708 [0.5]	Reformation Europe
RELI 3232 [0.5]	Christian Discipline
RELI 3340 [0.5]	The Life and Image of Muhammad

Regulations

In addition to the requirements listed here, students must satisfy:

1. the University regulations including the process of Academic Performance Evaluation (see the Academic Regulations of the University section of this Calendar).

Medieval and Early Modern Studies (MEMS) Courses

MEMS 2001 [0.5 credit]

Discovering the Medieval and Early Modern Past

An introduction to the Late Antique, Medieval and Early Modern worlds. Organized thematically, students will be introduced to interdisciplinary exploration of core topics. Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

MEMS 3001 [0.5 credit]

Researching the Medieval and Early Modern Past

Continued interdisciplinary study of the Late Antique, Medieval and Early Modern worlds, with a focus on how to develop a deeper analysis of the core topics examined in MEMS 2001.

Prerequisite(s): MEMS 2001, or permission of the Program Coordinator.

Lectures three hours a week.

Music

This section presents the requirements for programs in:

- Music B.Mus. Honours
- Music B.A. Honours
- Music B.A. Combined Honours
- Music B.A.
- Minor in Music
- Certificate in Carillon Studies

Program Requirements

Course Categories for Music Programs

Music History and Musicology

MUSI 1000 [0.5]	Introduction to the Study of Music
MUSI 1001 [0.5]	A History of Western Classical Music: Medieval to the Present
MUSI 1002 [0.5]	Issues in Popular Music
MUSI 2005 [0.5]	Introduction to Jazz History
MUSI 2006 [0.5]	Popular Musics before 1945
MUSI 2007 [0.5]	Popular Musics after 1945
MUSI 2008 [0.5]	Music of the World's Peoples
MUSI 2009 [0.5]	Music of Asia
MUSI 2102 [0.5]	Music in an Age of Spectacle, Commerce, and Colonization
MUSI 2103 [0.5]	Music in an Age of Order, Invention, and Revolution
MUSI 3103 [0.5]	Music in Canada
MUSI 3104 [0.5]	Popular Musics of Canada
MUSI 3106 [0.5]	Popular Musics of the World
MUSI 3108 [0.5]	Musics of the Middle East and North Africa
MUSI 3301 [0.5]	Music and Religion
MUSI 3302 [0.5]	Music and Gender I
MUSI 3400 [0.5]	A History of Opera before 1800
MUSI 3401 [0.5]	A History of Opera from 1800 to 1945
MUSI 3402 [0.5]	Film Music
MUSI 3403 [0.5]	Music Industries

MUSI 3405 [0.5]	Musical Theatre
MUSI 3406 [0.5]	Instrumental Music: Music for Orchestra
MUSI 3407 [0.5]	Instrumental Music: Chamber Music
MUSI 4005 [0.5]	Issues in Jazz Studies
MUSI 4006 [0.5]	Issues in the Study of Popular Music
MUSI 4007 [0.5]	The Composer in Context
MUSI 4102 [0.5]	Theory and Methods in Ethnomusicology
MUSI 4103 [0.5]	Ethnomusicology of Canadian Traditions
MUSI 4104 [0.5]	First Peoples Music in Canada
MUSI 4105 [0.5]	Issues and Processes in African Music
MUSI 4303 [0.5]	Music and Gender II
MUSI 4304 [0.5]	Music and Globalization
MUSI 4306 [0.5]	Music and Wellbeing in a Global Context
MUSI 4908 [1.0]	Honours Essay in Musicology

Theory and Composition

MUSI 1107 [0.5]	Elementary Materials of Music
MUSI 1700 [0.5]	Theoretical Studies: Foundations of Music Theory
MUSI 1701 [0.5]	Theoretical Studies: Common Practice I
MUSI 1710 [0.5]	Theoretical Studies: Aural Training I
MUSI 1711 [0.5]	Theoretical Studies: Applied Rhythmic Training I
MUSI 2601 [0.5]	Orchestration and Instrumentation
MUSI 2602 [0.5]	Composition I
MUSI 2608 [0.5]	Computer Music I: Fundamentals of Electronic Music Production
MUSI 2609 [0.5]	Computer Music II: Production, Collaboration and Performance
MUSI 2700 [0.5]	Theoretical Studies: Common Practice II
MUSI 2701 [0.5]	Theoretical Studies: Popular Music Practice
MUSI 2703 [0.5]	Theoretical Studies VI: Practical Keyboard Skills
MUSI 2710 [0.5]	Theoretical Studies: Aural Training II
MUSI 2711 [0.5]	Theoretical Studies: Applied Rhythmic Training II
MUSI 3602 [0.5]	Composition II
MUSI 3700 [0.5]	Theoretical Studies: Seminar in Theory and Analysis
MUSI 3701 [0.5]	Theoretical Studies: Jazz Styles and Structures
MUSI 4602 [0.5]	Composition III
MUSI 4700 [0.5]	Theoretical Studies: Advanced Seminar in Theory and Analysis
MUSI 4701 [0.5]	Introduction to Jazz Arranging
MUSI 4704 [0.5]	Tonal Counterpoint
MUSI 4705 [0.5]	Post-Tonal Theory and Analysis
MUSI 4906 [1.0]	Honours Portfolio in Composition

Performance

MUSI 1900 [0.5]	Performance I
MUSI 1901 [0.5]	Performance II
MUSI 2900 [0.5]	Performance III
MUSI 2901 [0.5]	Performance IV
MUSI 3900 [0.5]	Performance V
MUSI 3901 [0.5]	Performance VI

Ensemble

These courses are graded Sat/Uns.

MUSI 1912 [0.0]	Choral Ensemble I
MUSI 1913 [0.0]	Choral Ensemble II
MUSI 1914 [0.0]	Instrumental Ensemble I
MUSI 1915 [0.0]	Instrumental Ensemble II
MUSI 2912 [0.0]	Choral Ensemble III
MUSI 2913 [0.0]	Choral Ensemble IV
MUSI 2914 [0.0]	Instrumental Ensemble III
MUSI 2915 [0.0]	Instrumental Ensemble IV
MUSI 3912 [0.0]	Choral Ensemble V
MUSI 3913 [0.0]	Choral Ensemble VI
MUSI 3914 [0.0]	Instrumental Ensemble V
MUSI 3915 [0.0]	Instrumental Ensemble VI
MUSI 4912 [0.0]	Choral Ensemble VII
MUSI 4913 [0.0]	Choral Ensemble VIII
MUSI 4914 [0.0]	Instrumental Ensemble VII
MUSI 4915 [0.0]	Instrumental Ensemble VIII

Practicum Courses

MUSI 4800 [0.5]	Practicum in Music
MUSI 4801 [0.5]	Practicum in Music

Special Topics

MUSI 3200 [0.5]	Special Topics
MUSI 3201 [0.5]	Special Topics
MUSI 3205 [0.5]	Specialized Studies
MUSI 3206 [0.5]	Specialized Studies in Performance
MUSI 3604 [0.5]	Computer Music Projects
MUSI 4200 [0.5]	Special Topics
MUSI 4201 [0.5]	Special Topics
MUSI 4205 [0.5]	Specialized Studies
MUSI 4206 [0.5]	Specialized Studies in Performance
MUSI 4209 [1.0]	Specialized Studies

Prohibited and Restricted Courses

Performance courses are open only to students in the B.Mus. program. All ensemble (choir, jazz, early music, Indian classical music, chamber music, etc.) courses are open (without credit) to members of the public.

Music

B.Mus. Honours (20.0 credits)

A. Credits Included in the Major CGPA (14.5 credits)

1. Performance: 3.0 credits in:	3.0
MUSI 1900 [0.5]	Performance I
MUSI 1901 [0.5]	Performance II
MUSI 2900 [0.5]	Performance III
MUSI 2901 [0.5]	Performance IV
MUSI 3900 [0.5]	Performance V
MUSI 3901 [0.5]	Performance VI
2. Music Theory:	
a. 4.0 credits in:	4.0

MUSI 1700 [0.5]	Theoretical Studies: Foundations of Music Theory
MUSI 1701 [0.5]	Theoretical Studies: Common Practice I
MUSI 1710 [0.5]	Theoretical Studies: Aural Training I
MUSI 1711 [0.5]	Theoretical Studies: Applied Rhythmic Training I
MUSI 2700 [0.5]	Theoretical Studies: Common Practice II
MUSI 2701 [0.5]	Theoretical Studies: Popular Music Practice
MUSI 2710 [0.5]	Theoretical Studies: Aural Training II
MUSI 2711 [0.5]	Theoretical Studies: Applied Rhythmic Training II
b. 0.5 credit from:	0.5
MUSI 3700 [0.5]	Theoretical Studies: Seminar in Theory and Analysis
MUSI 3701 [0.5]	Theoretical Studies: Jazz Styles and Structures
MUSI 4700 [0.5]	Theoretical Studies: Advanced Seminar in Theory and Analysis
MUSI 4701 [0.5]	Introduction to Jazz Arranging
MUSI 4704 [0.5]	Tonal Counterpoint
MUSI 4705 [0.5]	Post-Tonal Theory and Analysis

3. Music History and Musicology:

a. 2.0 credits in:	2.0
MUSI 1000 [0.5]	Introduction to the Study of Music
MUSI 1001 [0.5]	A History of Western Classical Music: Medieval to the Present
MUSI 1002 [0.5]	Issues in Popular Music
MUSI 2008 [0.5]	Music of the World's Peoples
b. 0.5 credit in Music History and Musicology at the 2000-level	0.5
c. 0.5 credit from one of the following Canadian music courses:	0.5
MUSI 3103 [0.5]	Music in Canada
MUSI 3104 [0.5]	Popular Musics of Canada
MUSI 4103 [0.5]	Ethnomusicology of Canadian Traditions
MUSI 4104 [0.5]	First Peoples Music in Canada
d. 0.5 credit in Music History and Musicology at the 3000-level	0.5

4. 3.5 credits in MUSI, satisfying:

a. 1.0 credit in MUSI at the 2000-level	
b. 1.0 credit in MUSI at the 3000-level	
c. 1.5 credit in MUSI at the 4000-level	

B. Credits Not Included in the Major CGPA (5.5 credits)

5. 3.0 credits not in MUSI, not cross-listed with MUSI	3.0
6. 2.5 credits in free electives	2.5

C. Additional Non-Credit Requirements

7. Satisfactory performance in one full year (two consecutive terms) of Choir. It is strongly recommended that students fulfil this requirement by participating in MUSI 1912 and MUSI 1913 in their first year of B.Mus study.

8. Satisfactory performance in six further Ensemble courses, which may be fulfilled by further choir participation or by some other ensemble (see list in Course Categories, above).

Total Credits **20.0**

Music

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. **1.5 credits from:** 1.5

MUSI 1000 [0.5] Introduction to the Study of Music

MUSI 1001 [0.5] A History of Western Classical Music: Medieval to the Present

MUSI 1002 [0.5] Issues in Popular Music

MUSI 2008 [0.5] Music of the World's Peoples

2. **0.5 credit in Music History and Musicology at the 2000-level** 0.5

3. **1.0 credit in Music History and Musicology at the 3000-level** 1.0

4. **2.0 credits in MUSI at the 2000-level** 2.0

5. **2.0 credits in MUSI at the 3000-level** 2.0

6. **2.0 credits in MUSI at the 4000-level** 2.0

7. **1.0 credit in MUSI** 1.0

B. Credits Not Included in the Major CGPA (10.0 credits)

8. **8.0 credits in** electives not in MUSI 8.0

9. **2.0 credits in** free electives 2.0

Total Credits **20.0**

Music

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)

1. **1.5 credits from:** 1.5

MUSI 1000 [0.5] Introduction to the Study of Music

MUSI 1001 [0.5] A History of Western Classical Music: Medieval to the Present

MUSI 1002 [0.5] Issues in Popular Music

MUSI 2008 [0.5] Music of the World's Peoples

2. **1.5 credits in MUSI at the 2000-level** 1.5

3. **2.0 credits in MUSI at the 3000-level** 2.0

4. **1.0 credit in MUSI at the 4000-level** 1.0

5. **1.0 credit in MUSI** 1.0

B. Additional Requirements (13.0 credits) 13.0

6. The requirements from the other discipline must be satisfied

7. Sufficient free electives to make 20.0 credits total for the program

Total Credits **20.0**

Music

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)

1. **1.5 credits from:** 1.5

MUSI 1000 [0.5] Introduction to the Study of Music

MUSI 1001 [0.5] A History of Western Classical Music: Medieval to the Present

MUSI 1002 [0.5] Issues in Popular Music

MUSI 2008 [0.5] Music of the World's Peoples

2. **0.5 credit in Music History and Musicology at the 2000-level** 0.5

3. **2.0 credits in MUSI at the 2000-level** 2.0

4. **2.0 credits in MUSI at the 3000-level** 2.0

5. **1.0 credit in Music** 1.0

B. Credits Not Included in the Major CGPA (8.0 credits)

6. **6.0 credits in** electives not in MUSI 7.0

7. **2.0 credit in** free electives 1.0

Total Credits **15.0**

Minor in Music (4.0 credits)

Open to all undergraduate degree students not in Music programs.

Requirements

1. **1.0 credit from:** 1.0

MUSI 1001 [0.5] A History of Western Classical Music: Medieval to the Present

MUSI 1002 [0.5] Issues in Popular Music

MUSI 2008 [0.5] Music of the World's Peoples

2. **1.0 credit in MUSI at the 2000-level** 1.0

3. **1.0 credit in MUSI at the 3000-level** 1.0

4. **1.0 credit in MUSI** 1.0

5. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits **4.0**

Certificate in Carillon Studies (4.0 credits)

While the Certificate in Carillon Studies may be completed as an independent, stand-alone certificate, all courses taken in completion of the curriculum outlined above may be applied for credit toward the Bachelor of Music or B.A. Music degrees, should a certificate student opt to apply for acceptance to one of these programs. Since the courses are transferable in this way, it will also be possible for students currently enrolled in one of Carleton's undergraduate Music programs to concurrently complete the Certificate in Carillon Studies.

Successful completion requires grades of C or higher in all courses.

Year One (2.0 credits)

Requirements

1. **1.0 credit in Performance Studies:** 1.0

MUSI 1900 [0.5] Performance I

MUSI 1901 [0.5] Performance II

2. **0.5 credit from:** 0.5

MUSI 1000 [0.5] Introduction to the Study of Music

MUSI 1001 [0.5] A History of Western Classical Music: Medieval to the Present

MUSI 1710 [0.5] Theoretical Studies: Aural Training I

3. **0.5 credit from:** 0.5

MUSI 4200 [0.5] Special Topics

MUSI 4800 [0.5] Practicum in Music

Music elective as approved by both the Dominion Carillonneur and the Supervisor of Performance Studies

Year Two (2.0 credits)

Requirements

1. 1.0 credit in Performance Studies:	1.0
MUSI 2900 [0.5] Performance III	
MUSI 2901 [0.5] Performance IV	
2. 0.5 credit from:	0.5
MUSI 3103 [0.5] Music in Canada	
MUSI 3104 [0.5] Popular Musics of Canada	
MUSI 4103 [0.5] Ethnomusicology of Canadian Traditions	
MUSI 4104 [0.5] First Peoples Music in Canada	
MUSI 2602 [0.5] Composition I	
3. 0.5 credit from:	0.5
MUSI 4201 [0.5] Special Topics	
MUSI 4801 [0.5] Practicum in Music	
Music elective as approved by both the Dominion Carillonneur and the Supervisor of Performance Studies	
Total Credits	4.0

Regulations

See the Academic Regulations of the University section of this Calendar.

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in Good Standing.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

Academic Performance Evaluation for Bachelor of Music

For purposes of Academic Performance Evaluation, students in the Bachelor of Music program are subject to the standard rules for Honours students with the following additions:

- Bachelor of Music Students will receive an evaluation of their Performance Core courses at the end of each Winter term as long as they have completed a Performance Core course in the preceding summer, fall, or winter terms.
- Bachelor of Music students who fail to obtain a grade of C+ or higher in any two consecutive performance courses or in any two consecutive attempts at the same performance course must leave the program with the status Suspension (SU).
- Good Standing in Bachelor of Music requires that the Performance CGPA be at least 6.0.

The performance CGPA is the cumulative grade point average calculated over all courses in the Performance Core in the same manner as other CGPA calculations. The courses in the Performance Core are:

MUSI 1900 [0.5]	Performance I
MUSI 1901 [0.5]	Performance II
MUSI 2900 [0.5]	Performance III
MUSI 2901 [0.5]	Performance IV
MUSI 3900 [0.5]	Performance V
MUSI 3901 [0.5]	Performance VI

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section “English Language Requirements” in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- B.Mus. (Honours)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses.

Although it is not an admission requirement, a 4U course in English is recommended.

Note: An audition is required.

Advanced Standing

Students transferring into the Bachelor of Music with first, second, or third year standing must have achieved a major CGPA of 6.00 (C+) or higher and an overall CGPA of 5.00 (C) or higher. Students beginning the final 5.0 credits towards the Bachelor of Music degree must have achieved a major CGPA of 6.50 (C+/B-) or higher and an overall CGPA of 5.00 (C) or higher.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

To be eligible for admission to the Certificate in Carillon Studies, applicants must have:

- Successful audition (a minimum piano proficiency level equivalent to Royal Conservatory of Music Grade 9 is expected);
- Grade II Theory Rudiments, Royal Conservatory of Music (or equivalent);
- Approval of the relevant SSAC/Music Associate Performance Instructor (normally the Dominion Carillonneur);
- Approval of the Music Program.

Music (MUSI) Courses

Note: the majority of courses are open to non-Majors; students are advised to consult the Discipline. Priority is given to Music students.

MUSI 1000 [0.5 credit]

Introduction to the Study of Music

Introduction to issues and methods in the study of music. Development of writing and research skills; methodological approaches in all academic areas of music (historical musicology, ethnomusicology, popular music studies, music theory).

Prerequisite(s): first-year enrolment in the B.Mus., B.A. Music or B.A. Hons. Music program.

Lectures three hours a week.

MUSI 1001 [0.5 credit]

A History of Western Classical Music: Medieval to the Present

Western classical music from the medieval period to the present. Major historical periods (Medieval, Renaissance, Baroque, Classical, Romantic, Modern, Postmodern) are examined through representative music ranging from Gregorian chant to contemporary experimental trends.

Lectures three hours a week.

MUSI 1002 [0.5 credit]

Issues in Popular Music

History of world popular music from the 19th century until the present. Topics may include the growth of the music industry, the impact of technology, stardom, world music, the role of the press, copyright, censorship, and sexuality.

Lectures three hours a week.

MUSI 1003 [0.5 credit]

Understanding Music

Through musical examples drawn from diverse cultures and historical periods, students develop the ability to describe and analyze different aspects of music and deepen their appreciation of music as a cultural experience. No credit for students in B.Mus, B.A. Honours Music or B.A. Music.

Lectures three hours a week.

MUSI 1107 [0.5 credit]

Elementary Materials of Music

An introduction to the rudiments of music and aural training. Successful completion of this course will fulfil the prerequisite for entry into MUSI 1700. Not available to B.Mus. students for credit.

Lectures three hours a week.

MUSI 1700 [0.5 credit]

Theoretical Studies: Foundations of Music Theory

An introduction to the organizational principles underlying tonal music including intervals, scales, rhythm, metre, chords, counterpoint, form, cadences, and harmonic progressions.

Prerequisite(s): permission of the Discipline.

Lectures three hours a week.

MUSI 1701 [0.5 credit]

Theoretical Studies: Common Practice I

A study of the harmonic, melodic, rhythmic and formal structures of music of the common-practice period, with emphasis on the development of analytical and written skills of diatonic music.

Prerequisite(s): MUSI 1700 or permission of the Discipline.

Lectures three hours a week.

MUSI 1710 [0.5 credit]

Theoretical Studies: Aural Training I

A study of ear training, sight singing, and basic keyboard skills in relation to classical and popular musics, with emphasis on melodic, harmonic, and formal structures.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Discipline.

Lectures three hours a week.

MUSI 1711 [0.5 credit]

Theoretical Studies: Applied Rhythmic Training I

A study of the rhythm of selected classical, popular, and world musics, with emphasis on applied performance, movement, and dictation.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Discipline.

Lectures and workshops three hours a week.

MUSI 1900 [0.5 credit]

Performance I

Individual vocal or instrumental instruction in classical, traditional or popular idioms, in addition to individual performances and group class instruction.

Includes: Experiential Learning Activity

Prerequisite(s): audition and enrolment in the B.Mus.

program; first-year standing or permission of the

Discipline.

MUSI 1901 [0.5 credit]

Performance II

Individual vocal or instrumental instruction in classical, traditional or popular idioms, in addition to individual performances and group class instruction.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1900 and enrolment in the

B.Mus. program; first-year standing or permission of the

Discipline.

MUSI 1912 [0.0 credit]

Choral Ensemble I

Participation in a choral ensemble, by arrangement with the Supervisor of Performance and Practical Studies. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): first-year standing in the B.Mus. program

and permission of the Choral Director.

Ensemble work approximately two hours a week

throughout either the fall or winter term and participation in concerts.

MUSI 1913 [0.0 credit]**Choral Ensemble II**

A continuation of MUSI 1912. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): first-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 1914 [0.0 credit]**Instrumental Ensemble I**

Participation in an instrumental ensemble, by arrangement with the Supervisor of Performance and Practical Studies.

Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): first-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 1915 [0.0 credit]**Instrumental Ensemble II**

A continuation of MUSI 1914. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): first-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 2005 [0.5 credit]**Introduction to Jazz History**

A survey of ragtime and jazz from their roots in pre-twentieth-century black music and white music to contemporary jazz idioms, including an examination of New Orleans jazz and Dixieland, swing, bebop, cool jazz, and free jazz.

Precludes additional credit for MUSI 2205.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2006 [0.5 credit]**Popular Musics before 1945**

Selected aspects of the development of Anglo-American popular musics from their roots in the nineteenth century until the shifts and tensions which led to the advent of rock-and-roll and soul in the 1950s. Genres to be examined include blues, country, the sentimental ballad, Broadway music.

Precludes additional credit for MUSI 2203, MUSI 2206, MUSI 2208.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2007 [0.5 credit]**Popular Musics after 1945**

Selected aspects of the development of Anglo-American and world popular musics from the advent of rock 'n' roll and soul to the present. Early rock 'n' roll, British rhythm 'n' blues, Motown, West Coast music, punk, heavy metal, new wave, disco and country.

Precludes additional credit for MUSI 2207, MUSI 2208, MUSI 2209.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2008 [0.5 credit]**Music of the World's Peoples**

A survey of musical traditions from various regions of the world, with an emphasis on the sociocultural contexts in which those musics are created and performed.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 2300.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2009 [0.5 credit]**Music of Asia**

A comparative and analytical study of music in Asia, including India, China, Korea, Indonesia, Japan, and the Arabic world, through an examination of the music, musical instruments and theoretical systems.

Precludes additional credit for MUSI 2301.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2102 [0.5 credit]**Music in an Age of Spectacle, Commerce, and Colonization**

The Baroque (1600-1750) was simultaneously shaped by absolutist regimes, competing religions, and an emerging public sphere. Music and culture from Monteverdi to Bach and Handel are investigated in the contexts of power, (geo)politics, religion, aesthetics, gender, socio-economics, dissemination, genre, and compositional practices.

Precludes additional credit for MUSI 2001.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2103 [0.5 credit]**Music in an Age of Order, Invention, and Revolution**

Peace and revolution, faith and secularism, noble privilege and bourgeois commerce: fundamental contradictions underlying the creative work of Mozart, Haydn, and Beethoven. This course studies their compositions—operas, sacred works, symphonies, chamber music—within the political, social and cultural institutions of their times (ca. 1730-1815).

Precludes additional credit for MUSI 2002.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2107 [0.5 credit]**Music in an Age of Tumult, Innovation, and Pluralism**

A survey of European classical music of the 20th century. Idioms to be examined in the socio-political climate of the period include impressionism, expressionism, nationalism, neo-classicism, music of political commitment, contemporary opera and musical theatre, serialism, chance, textural composition, process music and neo-romanticism.

Precludes additional credit for MUSI 2105, 2106.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2601 [0.5 credit]**Orchestration and Instrumentation**

Introduction to the fundamentals of effective and professional arranging. All aspects of the various instruments of the orchestra and matters having to do with the practicalities of orchestration for both small and large ensembles, and accepted professional standards of score presentation.

Prerequisite(s): MUSI 1701 and MUSI 1710 and MUSI 1711, or permission of the instructor.

Lecture three hours a week.

MUSI 2602 [0.5 credit]**Composition I**

Introduction to theories and technicalities involved in original creative writing through the preparation of individual assignments; based in the practice of recent music in the Western Classical tradition while allowing for the music of other Western styles and traditions to be addressed.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1701 and MUSI 1710 and MUSI 1711, or permission of the instructor. MUSI 2601 is recommended.

Lectures and workshops three hours a week.

MUSI 2605 [0.5 credit]**Choral Conducting**

Introduction to the special stylistic features of choral music from the Renaissance to the present as well as to a variety of practical techniques (vocal production, gesture, conducting patterns, diction, etc.).

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program or permission of the instructor.

Lectures three hours a week.

MUSI 2608 [0.5 credit]**Computer Music I: Fundamentals of Electronic Music Production**

Introduction to the theory and practice of electronic music creation, focusing on audio editing, synthesis, sampling, beat-making, signal processing, and sound design, using a variety of professional-grade software packages.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 2603 (no longer offered).

Prerequisite(s): Enrolment in the BMus or BA Music program and second-year standing, or permission of the instructor.

Lectures three hours a week, plus individual studio time.

MUSI 2609 [0.5 credit]**Computer Music II: Production, Collaboration and Performance**

Computer-based music-making with an emphasis on collaborative approaches and performance-oriented tools and techniques. Introduces practices of remixing, live sound manipulation, preparation of original material for performance, and the use of hardware controllers in live performance and real-time musical collaboration using mobile technologies.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 2603 (no longer offered).

Prerequisite(s): Enrolment in the BMus or BA Music program and second-year standing, or permission of the instructor.

Lectures three hours a week, plus individual studio time.

MUSI 2700 [0.5 credit]**Theoretical Studies: Common Practice II**

A continuation of the study of the harmonic, melodic, rhythmic and formal structures of music of the common-practice period and early twentieth century, with emphasis on chromaticism and the development of analytical and written skills.

Prerequisite(s): MUSI 1701 or permission of the instructor.

Lectures three hours a week.

MUSI 2701 [0.5 credit]**Theoretical Studies: Popular Music Practice**

A study of the rhythmic, melodic, harmonic and formal structures of popular musics.

Prerequisite(s): MUSI 1700 or permission of the instructor.

Lectures three hours a week.

MUSI 2703 [0.5 credit]**Theoretical Studies VI: Practical Keyboard Skills**

A practical study of rhythm, harmony and melody on the keyboard, with an emphasis on vocal and instrumental accompaniment and the development of improvisation skills in a variety of styles.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1701 and MUSI 1710 and MUSI 1711, or permission of the instructor.

Labs three hours a week.

MUSI 2710 [0.5 credit]**Theoretical Studies: Aural Training II**

A continuation of the study of ear training, sight singing, and basic keyboard skills in relation to classical and popular musics, with emphasis on melodic, harmonic, and formal structures.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1701, MUSI 1710.

Lectures three hours a week.

MUSI 2711 [0.5 credit]**Theoretical Studies: Applied Rhythmic Training II**

A continuation of the study of the rhythm of common-practice and world musics, with emphasis on applied performance, movement, and dictation.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1700, MUSI 1711.

Lectures and workshops three hours per week.

MUSI 2900 [0.5 credit]**Performance III**

A continuation of MUSI 1901.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and MUSI 1901 with a C+ or higher, or permission of the Discipline.

MUSI 2901 [0.5 credit]**Performance IV**

A continuation of MUSI 2900.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and MUSI 2900 with a B- or higher, or permission of the Discipline.

MUSI 2912 [0.0 credit]**Choral Ensemble III**

A continuation of MUSI 1913. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 2913 [0.0 credit]**Choral Ensemble IV**

A continuation of MUSI 2912. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 2914 [0.0 credit]**Instrumental Ensemble III**

A continuation of MUSI 1915. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week through either the fall or winter term, and participation in concerts.

MUSI 2915 [0.0 credit]**Instrumental Ensemble IV**

A continuation of MUSI 2914. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 3103 [0.5 credit]**Music in Canada**

An examination of various issues related to the study of music in Canada and by Canadians, and an examination of various genres of Canadian music, including art music, folk music, popular music, First Peoples music and music of various immigrant groups.

Precludes additional credit for MUSI 3100 (no longer offered).

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3104 [0.5 credit]**Popular Musics of Canada**

A survey of popular musics in Canada from early colonial times to the present. The course will consider a wide range of musical styles and genres, along with related cultural and historical issues.

Precludes additional credit for MUSI 3100.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3106 [0.5 credit]**Popular Musics of the World**

Popular musics of the world, including those of Africa, Asia, Central and Eastern Europe, Latin America, the Caribbean and Oceania. Special attention to the interaction between some world popular musics and the Western record industry.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3107 [0.5 credit]**Classical Indian Music**

An introduction to the history and theory of classical Indian music including ragas, instruments, rhythm and improvisation.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing, or permission of the instructor.

Lectures three hours a week.

MUSI 3108 [0.5 credit]**Musics of the Middle East and North Africa**

An examination of various musics, devotional traditions, and shifting cultural and art movements in the region, resulting from processes of globalization, political change, and technological innovation. Course sessions will include close and critical discussion of selected texts, audio-visual examples, and ethnomusicological documentary films.

Prerequisite(s): second-year standing.

Seminars three hours a week.

MUSI 3200 [0.5 credit]**Special Topics**

Courses focusing on one selected aspect of music, in the area of musicology, theory or composition. The course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 3201 [0.5 credit]**Special Topics**

Courses focusing on one selected aspect of music, in the area of musicology, theory or composition. The course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 3205 [0.5 credit]**Specialized Studies**

Courses designed for Music Honours students who have acquired an extensive background through courses in theory, musicology, or composition. Course offerings change from year to year.

Prerequisite(s): permission of the department, and a minimum GPA of 9.0 in Music.

Individual instruction.

MUSI 3206 [0.5 credit]**Specialized Studies in Performance**

Courses designed for Music Honours students who have acquired an extensive background through performance. Course offerings change from year to year.

Prerequisite(s): permission of the Department, and a minimum CGPA of 9.0 in Music.

Individual instruction.

MUSI 3301 [0.5 credit]**Music and Religion**

An examination of the integral role music plays in religion and sacred ritual in different world cultures and religions. Through various case studies, the course broadly considers how sacred soundscapes shape people's worldviews, identities, and experiences within and outside of their communities.

Also listed as RELI 3301.

Prerequisite(s): second-year standing.

Seminars three hours a week.

MUSI 3302 [0.5 credit]**Music and Gender I**

The role of gender in the theory and practice of music in western and non-western cultures.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3303 [0.5 credit]**Introduction to Music Therapy**

Literature, practice and theory of music therapy. The use of music (improvisation, the voice, and reception) with various populations, including children and adults with special needs, people in long term care, people with neurological disorders, and in palliative care.

Prerequisite(s): second-year standing or permission of the instructor.

Lectures three hours a week.

MUSI 3400 [0.5 credit]**A History of Opera before 1800**

A survey of the development of opera from the beginnings to about 1800. The major monuments of Italian, French, German and English opera, by such composers as Monteverdi, Cavalli, Scarlatti, Purcell, Lully, Gluck, Rameau, Mozart and Haydn.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3401 [0.5 credit]**A History of Opera from 1800 to 1945**

A study of romantic and contemporary opera through an examination of selected works from Weber's *Der Freischütz* to Britten's *Peter Grimes*, including an investigation of national styles from Wagnerian music drama and Italian verismo to Russian realism and German expressionism.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3402 [0.5 credit]**Film Music**

The use of music in film, from the silent era to the present day, studying the techniques, styles and theory of film music through the examination of selected scenes.

Also listed as FILM 3402.

Prerequisite(s): second-year standing.

Lectures three hours a week, screening two hours a week.

MUSI 3403 [0.5 credit]**Music Industries**

An introduction to the structure and history of the music industries.

Also listed as COMS 3404.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3405 [0.5 credit]**Musical Theatre**

A survey of the styles, works, and artists of the musical theatre genre as well as the artistic elements that comprise musical theatre.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3406 [0.5 credit]**Instrumental Music: Music for Orchestra**

Origins and development of orchestral music from its beginnings as an independent form in the 18th century to the present. Major symphonies and symphonic poems by composers like Haydn, Beethoven, Liszt, Brahms, Strauss, and Shostakovich. Brief examination of concerto and ballet music.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3407 [0.5 credit]**Instrumental Music: Chamber Music**

History of chamber music and the cultural contexts within which it rose to prominence in Europe and North America in the 18th, 19th and 20th centuries. Genres by representative composers including the sonata, duos, trios, quartets, quintets, sextets, divertimenti, and works for small chamber orchestra.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3408 [0.5 credit]**Music in an Age of Passion, Imagination, and Iconoclasm**

This course examines European art music of the nineteenth century, a revolutionary period of socio-political change when inspiration, subjectivity, radical idealism, expressive intensity, cultural nationalism, and the primacy of the individual creative voice were held up as primary aesthetic ideals.

Prerequisite(s): Third-year standing or permission of the instructor.

Seminars three hours a week.

MUSI 3409 [0.5 credit]**Music in an Age of Tumult, Innovation, and Pluralism**

A study of western art music of the 20th century. Musical works, compositional techniques and performance practices are examined in the context of musical innovation, social change, political upheaval, and stylistic pluralism in a rapidly changing "modern" world.

Prerequisite(s): Third-year standing or permission of the instructor.

Seminars three hours a week.

MUSI 3602 [0.5 credit]**Composition II**

Designed to enable students to develop abilities in the writing of original music. The study and appreciation of modern and contemporary styles and techniques are encouraged.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 3600 (no longer offered).

Prerequisite(s): MUSI 2601, MUSI 2602, and MUSI 2700, or permission of the instructor.

Lectures, workshops, and individual consultations three hours a week.

MUSI 3603 [0.5 credit]**Computer Music Techniques**

An introduction to the techniques of sound synthesis primarily through practical experience at the digital synthesizer and computer. The basics of machine operations, software and computer applications to composition and synthesis. Enrolment is limited.

Includes: Experiential Learning Activity

Prerequisite(s): Enrolment in the BMus or BA Music program and second-year standing and either MUSI 2608 or MUSI 2609, or permission of the instructor.

Lectures three hours a week, plus individual studio time.

MUSI 3604 [0.5 credit]**Computer Music Projects**

Examination of the various applications of digital equipment through the realization of original projects. Students may focus on studio composition, software development or analytic research. Appropriate compositional techniques and problem solving strategies are also discussed. Enrolment is limited.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing, and either MUSI 2603 (no longer offered) or MUSI 2608 or MUSI 2609, or permission of the instructor.

Lectures three hours a week, plus individual studio time.

MUSI 3605 [0.5 credit]**Instrumental Conducting**

Introduction to the practice of conducting Instrumental music from the Classical era to the present as well as to a variety of practical techniques (rehearsal techniques, gesture, conducting patterns, score study, etc.).

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program or permission of the instructor.

MUSI 3606 [0.5 credit]**Live Sound**

Theoretical, practical and technical requirements of audio production in live settings are explored through lectures, demonstrations and workshops. Students develop skills in critical listening, pre-production planning, microphone selection and placement, signal routing, audio processing, monitoring and mixing for live event venues. Prior experience not required.

Includes: Experiential Learning Activity

Lectures and workshops three hours a week.

MUSI 3700 [0.5 credit]**Theoretical Studies: Seminar in Theory and Analysis**

Selected topic in music theory. Topics will change yearly and may include: methods of music analysis, analysis of selected works, styles and structures of common practice or post common practice period, music, modal, tonal, or post-tonal counterpoint, history of music theory.

Precludes additional credit for MUSI 3500.

Prerequisite(s): MUSI 2700 or permission of the instructor.

Seminars three hours a week.

MUSI 3701 [0.5 credit]**Theoretical Studies: Jazz Styles and Structures**

Techniques of arranging and composition for small and large ensembles will be studied through the examination of selected works drawn from the jazz repertoire. Works will be selected for stylistic and theoretical analysis, for exercises in aural recognition, and for arranging purposes.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4203 (taken in 1994-95) or MUSI 4204 (taken in 1995-96).

Prerequisite(s): MUSI 2701 or permission of the instructor.

Workshops three hours a week.

MUSI 3702 [0.5 credit]**Introduction to Physics and Psychoacoustics of Music**

Basic topics in physics and psychoacoustics, with an emphasis on those concepts that are most useful for music performance, analysis, composition, and musicology.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3703 [0.5 credit]**Improvisation in Theory and Practice**

Selected forms of improvisation from diverse musical and cultural traditions. In addition to weekly seminar meetings, the class will engage in experiential forms of learning by actively improvising in a weekly performance-oriented seminar.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Discussion and performance seminars three hours a week.

MUSI 3900 [0.5 credit]**Performance V**

A continuation of MUSI 2901.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in B. Mus. and MUSI 2901 with a B- or higher, or permission of the Discipline.

MUSI 3901 [0.5 credit]**Performance VI**

A continuation of MUSI 3900.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and MUSI 3900 with a B- or higher, or permission of the Discipline.

MUSI 3912 [0.0 credit]**Choral Ensemble V**

A continuation of MUSI 2913. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 3913 [0.0 credit]**Choral Ensemble VI**

A continuation of MUSI 3912. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 3914 [0.0 credit]**Instrumental Ensemble V**

A continuation of MUSI 2915. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 3915 [0.0 credit]**Instrumental Ensemble VI**

A continuation of MUSI 3914. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 4000 [0.5 credit]**Performance VII**

This is an optional performance course for B.Mus. students with high academic standing.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4900, MUSI 4901, MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus., MUSI 3901, A- or higher average in second- and third-year MUSI performance courses, and permission of the Music performance supervisor.
Individual instruction.

MUSI 4001 [0.5 credit]**Performance VIII**

This is an optional performance course for B.Mus. students with high academic standing.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4002, MUSI 4003, MUSI 4900 (no longer offered), MUSI 4901, MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus. standing, MUSI 4000 with A- or higher, and permission of the Music performance supervisor.

Individual instruction.

MUSI 4002 [0.5 credit]**Graduating Demo Recording**

A graduation recording of substantial duration arranged in consultation with the discipline. A proposal must be submitted one week before the last day for course changes. All recording costs must be borne by the student.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4001, MUSI 4003, MUSI 4900 (no longer offered), MUSI 4901 (no longer offered), MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus., MUSI 4000 with a grade of A- or higher, and permission of both the relevant associate music instructor and the music performance supervisor.

Individual instruction.

MUSI 4003 [0.5 credit]**Graduating Recital**

Public recital arranged in consultation with the Supervisor of Performance and Practical Studies. An outline of the program must be submitted one week before the last day for course changes.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4001, MUSI 4002, MUSI 4900, MUSI 4901, MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus., MUSI 4000 with A- or higher, and permission of both the relevant associate music instructor and the Music performance supervisor.

Individual instruction.

MUSI 4005 [0.5 credit]**Issues in Jazz Studies**

An examination of key issues in the study of jazz including history/historiography, gender, genre, race, politics, identity and performance.

Prerequisite(s): MUSI 2005 and third-year standing.

MUSI 4006 [0.5 credit]**Issues in the Study of Popular Music**

An introduction to current issues in the study of popular music. The course will be organized around a series of case studies.

Prerequisite(s): third-year standing, MUSI 1002, and at least one of MUSI 2005, 2006, or 2007.

Seminars three hours a week.

MUSI 4007 [0.5 credit]**The Composer in Context**

Examination of the life and music of a selected composer, and the historical, social, cultural, and political factors that shaped the context within which they worked. Focus on history, biography, musical style and analysis.

Prerequisite(s): Fourth-year standing or permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4102 [0.5 credit]**Theory and Methods in Ethnomusicology**

Selected readings and discussion of major works in ethnomusicology, focusing on schools of thought and contemporary issues. Introduction to a variety of methods and strategies for ethnomusicological research, including field work, musical transcription and data analysis.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing, or permission of the instructor.

Seminars three hours a week.

MUSI 4103 [0.5 credit]**Ethnomusicology of Canadian Traditions**

Issues of anthropological, sociological, and analytical significance are examined in the context of selected developments in folklore and ethnomusicological research on Canadian traditions.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as MUSI 5015, for which additional credit is precluded.

Seminars three hours a week.

MUSI 4104 [0.5 credit]**First Peoples Music in Canada**

The context and significance of musical expressions of selected Canadian Indigenous groups and the contributions of individuals in the creation of music and meaning in First Peoples' communities.

Prerequisite(s): fourth-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as MUSI 5016, for which additional credit is precluded.

Seminars three hours a week.

MUSI 4105 [0.5 credit]**Issues and Processes in African Music**

Surveying five different geographic regions of Africa, traditional and modern musical styles will be studied through the lens of the global, local and social issues surrounding them.

Prerequisite(s): third year standing, or permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4200 [0.5 credit]**Special Topics**

Courses focusing on one selected aspect of music, in the area of either musicology, theory or composition. The course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4201 [0.5 credit]**Special Topics**

Courses focusing on one selected aspect of music, in the area of either musicology, theory or composition. Course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4205 [0.5 credit]**Specialized Studies**

Courses designed for Music Honours students who have acquired an extensive background through courses in theory, musicology, or composition. Course offerings change from year to year.

Prerequisite(s): permission of the department, and a minimum CGPA of 9.0 in Music.

Individual instruction.

MUSI 4206 [0.5 credit]**Specialized Studies in Performance**

Courses designed for Music Honours students who have acquired an extensive background through performance. Course offerings change from year to year.

Prerequisite(s): permission of the department, and a minimum CGPA of 9.0 in Music.

Individual instruction.

MUSI 4209 [1.0 credit]**Specialized Studies**

A course designed for Music Honours students who have acquired an extensive background through courses in theory, musicology or composition. Course offerings change from year to year.

Prerequisite(s): permission of the instructor.

MUSI 4303 [0.5 credit]**Music and Gender II**

The relationship between the social and formal organization of music and the social and formal organization of sexual difference. The role of music in the social construction of gender; the role of gender in the determination of musical style and taste.

Precludes additional credit for MUSI 3303 or MUSI 4204 (taken in 1992-93).

Prerequisite(s): MUSI 3302 or permission of the instructor.

Seminars three hours a week.

MUSI 4304 [0.5 credit]**Music and Globalization**

Examining music's role in the multifaceted and complex processes of globalization. Drawing on case studies of "world musics", this course explores how sound and music negotiate histories of post/colonialism, cultural and economic imperialism, and constructions of sameness and difference in "world music" contexts.

Prerequisite(s): fourth-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as MUSI 5017, for which additional credit is precluded.

Seminars three hours a week.

MUSI 4306 [0.5 credit]**Music and Wellbeing in a Global Context**

An examination of the ways in which music contributes to mental, social and physical wellbeing throughout the world, drawing from the fields of neuroscience, medical ethnomusicology, community music and cross-cultural studies.

Prerequisite(s): fourth-year standing or permission of the instructor.

Seminar three hours a week.

MUSI 4307 [0.5 credit]**Music in an Age of Power, Plague, and Courtly Love**

The music of the "dark ages" is illuminated in the context of politics, spectacle, devotion, celebration, compositional process, manuscript culture, dissemination, musical notation, plague, and courtly love. "Medievalism" is examined as an aesthetic of the era (ca. 400-1400) and as reinterpreted in our modern world.

Prerequisite(s): Fourth-year standing or permission of the instructor.

Seminar three hours a week.

MUSI 4308 [0.5 credit]**Music in an Age of Devotion, Seduction, and Rebirth**

This course brings to life the Renaissance (1400-1600), when music played a vital role in lavish courts, grand cathedrals, and vibrant cities. Madrigals, masses, and motets are examined in the context of politics, religion, gender, manuscript and print culture, rhetoric, art, and architecture.

Prerequisite(s): Fourth-year standing or permission of the instructor.

Seminar three hours a week.

MUSI 4602 [0.5 credit]**Composition III**

A continuation of MUSI 3602, focusing on the development of creative individual approaches to music composition.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 3600 (no longer offered).

Prerequisite(s): MUSI 3602, or permission of the instructor.

Lectures, workshops, and individual consultations three hours a week.

MUSI 4700 [0.5 credit]**Theoretical Studies: Advanced Seminar in Theory and Analysis**

A study of a selected topic in music theory. Topics will change yearly and may include: methods of music analysis; analysis of selected works; styles and structures of common practice or post common practice period music; modal, tonal, or post-tonal counterpoint; history of music theory.

Prerequisite(s): MUSI 2700 or permission of the instructor. Seminars three hours a week.

MUSI 4701 [0.5 credit]**Introduction to Jazz Arranging**

The art of arranging for small and large jazz ensembles is introduced through analysis of recordings by artists such as Duke Ellington, Fletcher Henderson, Count Basie, Rob McConnell, and Maria Schneider. Topics may include 2-, 3-, and 4-voice writing in a jazz idiom.

Prerequisite(s): MUSI 3701 or permission of the instructor. Seminars three hours a week.

MUSI 4702 [0.5 credit]**Topics in Music Perception and Cognition**

Selected advanced topics in the perception and cognition of music. Where appropriate, emphasis will be placed upon areas of overlap between psychological research and issues in aesthetics and cultural theory.

Prerequisite(s): third-year standing and MUSI 3702, or permission of the department. Seminars three hours a week.

MUSI 4704 [0.5 credit]**Tonal Counterpoint**

This course deals with the development of writing skills and knowledge of counterpoint as manifest in the Baroque era. Topics may include invention, canon, fugue, dance forms, the compositional language of J. S. Bach, and contrapuntal techniques in the late 18th century and beyond.

Prerequisite(s): MUSI 2700, or permission of the instructor. Lectures and seminars three hours a week.

MUSI 4705 [0.5 credit]**Post-Tonal Theory and Analysis**

Fundamentals of post-tonal music theory and analysis. Neo-tonal, atonal, twelve-tone and third-stream jazz. Students will develop the critical skills to understand these theoretical tools and be conversant with some of the aesthetic precepts associated with them.

Prerequisite(s): MUSI 2700 or permission of the instructor. Lectures and seminars three hours a week.

MUSI 4800 [0.5 credit]**Practicum in Music**

Practical experience in music-specific projects such as recording studios, librarianship, research, multimedia, etc. at local institutions. A maximum of one credit of practicum may be offered in fulfilment of Music requirements.

Includes: Experiential Learning Activity

Prerequisite(s): Honours Music registration with third- or fourth-year standing and a B+ or better average in Music courses; and permission of the Practica Supervisor.

MUSI 4801 [0.5 credit]**Practicum in Music**

Practical experience in music-specific projects such as recording studios, librarianship, research, multimedia, etc. at local institutions. A maximum of one credit of practicum may be offered in fulfilment of Music requirements.

Includes: Experiential Learning Activity

Prerequisite(s): Honours Music registration with third- or fourth-year standing and a B+ or better average in Music courses; and permission of the Practica Supervisor.

MUSI 4906 [1.0 credit]**Honours Portfolio in Composition**

The course requires the composition of an original work of substantial proportions, with an accompanying analytical paper. Application to the Discipline for permission to register must be received by September 1.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4600.

Prerequisite(s): fourth-year standing, MUSI 3600 and permission of the Discipline.

MUSI 4908 [1.0 credit]**Honours Essay in Musicology**

An Honours research essay of approximately 50 pages.

A written outline of the project must be submitted to the Honours committee changes by the first day of classes.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing, A- or higher average, and permission of the Discipline.

MUSI 4909 [1.0 credit]**Portfolio in New Media**

The course requires the creation of an original work (or works) of substantial proportions using applications in the electronic studios. A high level of independence and originality will be required. Requests to the Discipline for permission to register must be received by September 1.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

MUSI 4912 [0.0 credit]**Choral Ensemble VII**

A continuation of MUSI 3913. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 4913 [0.0 credit]**Choral Ensemble VIII**

A continuation of MUSI 4912. Registration, but not participation, is restricted to students in the B. Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 4914 [0.0 credit]**Instrumental Ensemble VII**

A continuation of MUSI 3915. Registration, but not participation, is restricted to students in the B.Mus. program Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 4915 [0.0 credit]**Instrumental Ensemble VIII**

A continuation of MUSI 4914. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term participation in concerts.

Nanoscience

This section presents the requirements for programs in:

- Nanoscience B.Sc. Honours

Program Requirements**Nanoscience****B.Sc. Honours (20.0 credits)****A. Credits Included in the Major CGPA (11.5 credits)**

1. 5.0 credits in:	5.0
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I

CHEM 2501 [0.5]	Introduction to Inorganic and Bioinorganic Chemistry
CHEM 3100 [0.5]	Physical Chemistry II
CHEM 3107 [0.5]	Experimental Methods in Nanoscience
CHEM 3503 [0.5]	Inorganic Chemistry I
CHEM 3600 [0.5]	Introduction to Nanotechnology
CHEM 4908 [1.0]	Research Project and Seminar
2. 1.0 credit from:	1.0
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
3. 1.0 credit from:	1.0
CHEM 4103 [0.5]	Surface Chemistry and Nanostructures
CHEM 4104 [0.5]	Physical Methods of Nanotechnology
CHEM 4201 [0.5]	Macromolecular Nanotechnology
4. 3.5 credits in:	3.5
ELEC 2501 [0.5]	Circuits and Signals
ELEC 2507 [0.5]	Electronics I
ELEC 3908 [0.5]	Physical Electronics
ELEC 3105 [0.5]	Electromagnetic Fields
ELEC 4609 [0.5]	Integrated Circuit Design and Fabrication
ELEC 4700 [0.5]	The Physics and Modeling of Advanced Devices and Technologies
ELEC 4704 [0.5]	Nanoscale Technology and Devices
5. 1.0 credit from:	1.0
ELEC 2607 [0.5]	Switching Circuits
ELEC 3500 [0.5]	Digital Electronics
ELEC 3509 [0.5]	Electronics II
ELEC 3909 [0.5]	Electromagnetic Waves
B. Credits Not Included in the Major CGPA (8.5 credits)	
6. 2.5 credits in:	2.5
MATH 1004 [0.5]	Calculus for Engineering or Physics
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics
MATH 1104 [0.5]	Linear Algebra for Engineering or Science
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics
STAT 3502 [0.5]	Probability and Statistics
7. 1.0 credits in:	1.0
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
8. 1.5 credits in	1.5
9. 0.5 credit in	0.5
10. 0.5 credit in:	0.5
NSCI 1000 [0.5]	Seminar in Science (or approved courses outside the faculties of Science and Engineering and Design)
11. 1.5 credits in	1.5
approved courses outside the faculties of Science and Engineering and Design	

12. 1.0 credit in free electives 1.0

Total Credits 20.0

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

1. 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in science continuation courses in each of the two majors**
2. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

1. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for fewer than 10.0 credits.
2. 1.0 credit in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for 10.0 or more credits.

Declared and Undeclared Students

Students who are registered in a program within the degree are called Declared students. Most students designate a program of study when they first apply for admission and so begin their studies as Declared students. Students may also choose to begin their studies within the B.Sc. degree without being registered in a program. These students are referred to as Undeclared students. The recommended course pattern for Undeclared students is provided in the Undeclared entry of the Programs section of this Calendar. Undeclared students normally must apply to enter a program before beginning their second year of study. The Science Student Success Centre (SSSC) provides Undeclared students guidance to the appropriate support services in making this decision.

Change of Program within the B.Sc. Degree

Students may transfer to a program within the B.Sc. degree if upon entry to the new program they would be in good academic standing.

Other applications for change of program will be considered on their merits; students may be accepted in the new program in *Good Standing* or on *Academic Warning*.

Applications to declare or change their program within the B.Sc. Degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program or into a program element or option is subject to any enrolment, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may add a minor, concentration or specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a minor, concentration or specialization requires that the student be in *Good Standing* and is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of experimental science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry	
BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering
Biology	
BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology
Chemistry	
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2800 [0.5]	Foundations for Environmental Chemistry
Earth Sciences	
ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time
ERTH 2102 [0.5]	Mineralogy to Petrology
ERTH 2404 [0.5]	Engineering Geoscience

ERTH 2802 [0.5] Field Geology I
ERTH 3111 [0.5] Vertebrate Evolution: Mammals, Reptiles, and Birds

ERTH 3112 [0.5] Vertebrate Evolution: Fish and Amphibians

ERTH 3204 [0.5] Mineral Deposits

ERTH 3205 [0.5] Physical Hydrogeology

ERTH 3806 [0.5] Structural Geology

Food Sciences

FOOD 3001 [0.5] Food Chemistry

FOOD 3002 [0.5] Food Analysis

FOOD 3005 [0.5] Food Microbiology

Geography

GEOG 1010 [0.5] Global Environmental Systems

GEOG 3108 [0.5] Soil Properties

Neuroscience

NEUR 3206 [0.5] Sensory and Motor Neuroscience

NEUR 3207 [0.5] Systems Neuroscience

NEUR 4600 [0.5] Advanced Lab in Neuroanatomy

Physics

PHYS 1001 [0.5] Foundations of Physics I

PHYS 1002 [0.5] Foundations of Physics II

PHYS 1003 [0.5] Introductory Mechanics and Thermodynamics

PHYS 1004 [0.5] Introductory Electromagnetism and Wave Motion

PHYS 1007 [0.5] Elementary University Physics I

PHYS 1008 [0.5] Elementary University Physics II

PHYS 2202 [0.5] Wave Motion and Optics

PHYS 2604 [0.5] Modern Physics I

PHYS 3007 [0.5] Third Year Physics Laboratory: Selected Experiments and Seminars

PHYS 3606 [0.5] Modern Physics II

PHYS 3608 [0.5] Modern Applied Physics

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5] Global Environmental Systems

GEOG 2006 [0.5] Introduction to Quantitative Research

GEOG 2013 [0.5] Weather and Water

GEOG 2014 [0.5] The Earth's Surface

GEOG 3003 [0.5] Quantitative Geography

GEOG 3010 [0.5] Field Methods in Physical Geography

GEOG 3102 [0.5] Geomorphology

GEOG 3103 [0.5] Watershed Hydrology

GEOG 3104 [0.5] Principles of Biogeography

GEOG 3105 [0.5] Climate and Atmospheric Change

GEOG 3106 [0.5] Aquatic Science and Management

GEOG 3108 [0.5] Soil Properties

GEOG 4000 [0.5] Field Studies

GEOG 4005 [0.5] Directed Studies in Geography

GEOG 4013 [0.5] Cold Region Hydrology

GEOG 4017 [0.5] Global Biogeochemical Cycles

GEOG 4101 [0.5] Two Million Years of Environmental Change

GEOG 4103 [0.5] Water Resources Engineering

GEOG 4104 [0.5] Microclimatology

GEOG 4108 [0.5] Permafrost

Science Psychology Courses

PSYC 2001 [0.5] Introduction to Research Methods in Psychology

PSYC 2002 [0.5] Introduction to Statistics in Psychology

PSYC 2700 [0.5] Introduction to Cognitive Psychology

PSYC 3000 [1.0] Design and Analysis in Psychological Research

PSYC 3506 [0.5] Cognitive Development

PSYC 3700 [1.0] Cognition (Honours Seminar)

PSYC 3702 [0.5] Perception

PSYC 2307 [0.5] Human Neuropsychology I

PSYC 3307 [0.5] Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

BIOC (Biochemistry)

BIOL (Biology)

CHEM (Chemistry)

COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except ERTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOG (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except ERTH 1010, ERTH 1011 and ERTH 2415. Earth Sciences students may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering

ENSC 2001

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Science)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)

Science Psychology (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) Biology students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5]	Education Research in Biology
CHEM 1003 [0.5]	The Chemistry of Food, Health and Drugs
CHEM 1004 [0.5]	Drugs and the Human Body
CHEM 1007 [0.5]	Chemistry of Art and Artifacts
ERTH 1010 [0.5]	Our Dynamic Planet Earth
ERTH 1011 [0.5]	Evolution of the Earth
ERTH 2415 [0.5]	Natural Disasters
ISCI 1001 [0.5]	Introduction to the Environment
ISCI 2000 [0.5]	Natural Laws
ISCI 2002 [0.5]	Human Impacts on the Environment
MATH 0107 [0.5]	Algebra and Geometry

PHYS 1901 [0.5] Planetary Astronomy

PHYS 1902 [0.5] From our Star to the Cosmos

PHYS 1905 [0.5] Physics Behind Everyday Life

PHYS 2903 [0.5] Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5] Introduction to Computational Thinking for Arts and Social Science Students

MATH 0005 [0.5] Precalculus: Functions and Graphs

MATH 0006 [0.5] Precalculus: Trigonometric Functions and Complex Numbers

MATH 1009 [0.5] Mathematics for Business

MATH 1119 [0.5] Linear Algebra: with Applications to Business

MATH 1401 [0.5] Elementary Mathematics for Economics I

MATH 1402 [0.5] Elementary Mathematics for Economics II

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions and

two of Biology, Chemistry, Earth and Space Sciences or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For the Combined Honours program in Chemistry and Computer Science, 4U Chemistry and Calculus and Vectors are strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

For entry to an Honours program after the completion of 5.0 included credits, a student must have a major CGPA of 5.50 or higher, an overall CGPA of 4.50 or higher and the recommendation of the Honours department or committee. A student beginning the final 10.0 credits towards an Honours degree must present a major CGPA of 6.00 or higher, an overall CGPA of 5.00 or higher and the recommendation of the Honours department or committee. A student beginning the final 5.0 credits towards an Honours degree must present a major CGPA of 6.50 or higher and an overall CGPA of 5.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

B.Sc. Major Program

B.Sc. Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics. 4U Physics is strongly recommended. Equivalent courses may be substituted between the old and new Ontario mathematics curriculum.

Advanced Standing

For entry to a B.Sc. or B.Sc. Major program after the completion of 5.0 included credits, a student must have a major and core CGPA of 3.50 or higher and an overall CGPA of 3.50 or higher. A student beginning the final 5.0 credits towards a B.Sc. or B.Sc. Major degree must present a major and core CGPA of 4.00 or higher and an overall CGPA of 4.00 or higher, as calculated for

graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Neuroscience

This section presents the requirements for programs in:

- Neuroscience and Mental Health B.Sc. Honours
- Neuroscience and Mental Health B.Sc. Major
- Neuroscience and Mental Health B.Sc.
- Neuroscience and Biology B.Sc. Combined Honours
- Minor in Neuroscience and Mental Health

Program Requirements

Course Categories for B.Sc. Programs

The program descriptions for B.Sc. Combined Honours Neuroscience make use of the course categories defined for all B.Sc. programs (see Academic Regulations for the Bachelor of Science Degree):

- Science Faculty Electives
- Science Continuation Courses
- Free Electives

Neuroscience and Mental Health B.Sc. Honours (20.0 credits)

A. Credits Included in the Major (10.5 credits)

1. 5.5 credits in:	5.5
NEUR 1202 [0.5]	Neuroscience of Mental Health and Psychiatric Disease
NEUR 1203 [0.5]	Neuroscience of Mental Health and Neurological Disease
NEUR 2001 [0.5]	Introduction to Research Methods in Neuroscience
NEUR 2002 [0.5]	Introduction to Statistics in Neuroscience
NEUR 2201 [0.5]	Cellular and Molecular Neuroscience
NEUR 2202 [0.5]	Neurodevelopment and Plasticity

NEUR 3001 [0.5]	Data Analysis in Neuroscience I	
NEUR 3002 [0.5]	Data Analysis in Neuroscience II	
NEUR 3204 [0.5]	Neuropharmacology	
NEUR 3206 [0.5]	Sensory and Motor Neuroscience	
NEUR 3207 [0.5]	Systems Neuroscience	
2. 1.0 credit in:		1.0
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
3. 1.5 credit from:		1.5
NEUR 3301 [0.5]	Genetics of Mental Health	
NEUR 3303 [0.5]	The Neuroscience of Consciousness	
NEUR 3304 [0.5]	Hormones and Behaviour	
NEUR 3401 [0.5]	Environmental Toxins and Mental Health	
NEUR 3402 [0.5]	Impact of Lifestyle and Social Interactions on Mental Health	
NEUR 3403 [0.5]	Stress and Mental Health	
NEUR 3501 [0.5]	Neurodegeneration and Aging	
NEUR 3502 [0.5]	Neurodevelopmental Determinants of Mental Health	
4. 0.5 credit from:		0.5
NEUR 4301 [0.5]	Neurobiology of Energy Homeostasis	
NEUR 4302 [0.5]	Sex and the Brain	
NEUR 4303 [0.5]	Indigenous Health & Mental Health	
NEUR 4305 [0.5]	Immune-Brain Interactions	
NEUR 4306 [0.5]	The Neural Basis of Addiction	
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy	
5. 0.5 credit from:		0.5
NEUR 4200 [0.5]	Seminar on Current Advances in Neuroscience	
NEUR 4202 [0.5]	Seminar on Current Research in Neuroscience and Psychiatric Disease	
NEUR 4203 [0.5]	Seminar on Current Research in Neuroscience and Clinical Neurology	
6. 1.0 credit from:		1.0
NEUR 4905 [1.0]	Honours Workshop	
NEUR 4906 [1.0]	Translational Approach to Indigenous Community Wellness	
NEUR 4907 [1.0]	Honours Essay and Research Proposal	
NEUR 4908 [1.0]	Honours Research Thesis	
7. 0.5 credit in Advanced Science Faculty Electives		0.5
B. Credits Not Included in the Major CGPA (9.5 credits)		
8. 2.0 credits in:		2.0
CHEM 1001 [0.5]	General Chemistry I	
CHEM 1002 [0.5]	General Chemistry II	
PHYS 1007 [0.5]	Elementary University Physics I	
PHYS 1008 [0.5]	Elementary University Physics II	
9. 0.5 credit from:		0.5
MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I	
10. 1.0 credit in:		1.0
BIOL 2201 [0.5]	Cell Biology and Biochemistry	
or BIOL 2200 [0.5]	Cellular Biochemistry	
BIOL 2107 [0.5]	Fundamentals of Genetics	

11. 1.0 credit in Science Continuation Courses	1.0
12. 2.0 credits in approved courses outside the faculties of Science and Engineering and Design (may include NSCI 1000)	2.0
13. 3.0 credits in free electives.	3.0
Total Credits	20.0

Neuroscience and Mental Health B.Sc. Major (20.0 credits)

A. Credits Included in the Major CGPA (10.5 credits)

1. 5.5 credits in:		5.5
NEUR 1202 [0.5]	Neuroscience of Mental Health and Psychiatric Disease	
NEUR 1203 [0.5]	Neuroscience of Mental Health and Neurological Disease	
NEUR 2001 [0.5]	Introduction to Research Methods in Neuroscience	
NEUR 2002 [0.5]	Introduction to Statistics in Neuroscience	
NEUR 2201 [0.5]	Cellular and Molecular Neuroscience	
NEUR 2202 [0.5]	Neurodevelopment and Plasticity	
NEUR 3001 [0.5]	Data Analysis in Neuroscience I	
NEUR 3002 [0.5]	Data Analysis in Neuroscience II	
NEUR 3204 [0.5]	Neuropharmacology	
NEUR 3206 [0.5]	Sensory and Motor Neuroscience	
NEUR 3207 [0.5]	Systems Neuroscience	
2. 1.0 credit in:		1.0
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
3. 1.5 credit from:		1.5
NEUR 3301 [0.5]	Genetics of Mental Health	
NEUR 3303 [0.5]	The Neuroscience of Consciousness	
NEUR 3304 [0.5]	Hormones and Behaviour	
NEUR 3401 [0.5]	Environmental Toxins and Mental Health	
NEUR 3402 [0.5]	Impact of Lifestyle and Social Interactions on Mental Health	
NEUR 3403 [0.5]	Stress and Mental Health	
NEUR 3501 [0.5]	Neurodegeneration and Aging	
NEUR 3502 [0.5]	Neurodevelopmental Determinants of Mental Health	
4. 1.0 credit from:		1.0
NEUR 4301 [0.5]	Neurobiology of Energy Homeostasis	
NEUR 4302 [0.5]	Sex and the Brain	
NEUR 4303 [0.5]	Indigenous Health & Mental Health	
NEUR 4305 [0.5]	Immune-Brain Interactions	
NEUR 4306 [0.5]	The Neural Basis of Addiction	
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy	
5. 1.0 credit from:		1.0
NEUR 4200 [0.5]	Seminar on Current Advances in Neuroscience	
NEUR 4202 [0.5]	Seminar on Current Research in Neuroscience and Psychiatric Disease	
NEUR 4203 [0.5]	Seminar on Current Research in Neuroscience and Clinical Neurology	

6. 0.5 credit in Advanced Science Faculty Electives	0.5
B. Credits Not Included in the Major CGPA (9.5 credits)	
7. 2.0 credits in:	2.0
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
PHYS 1007 [0.5]	Elementary University Physics I
PHYS 1008 [0.5]	Elementary University Physics II
8. 0.5 credit from:	0.5
MATH 1007 [0.5]	Elementary Calculus I
MATH 1107 [0.5]	Linear Algebra I
9. 1.0 credit in:	1.0
BIOL 2201 [0.5]	Cell Biology and Biochemistry
or BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2107 [0.5]	Fundamentals of Genetics
10. 1.0 credit in Science Continuation courses (not in NEUR)	1.0
11. 2.0 credits in approved courses outside the faculties of Science and Engineering and Design (may include NSCI 1000)	2.0
12. 3.0 credits in free electives	3.0
Total Credits	20.0

Neuroscience and Mental Health B.Sc. (15.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)

1. 4.5 credits in:	4.5
NEUR 1202 [0.5]	Neuroscience of Mental Health and Psychiatric Disease
NEUR 1203 [0.5]	Neuroscience of Mental Health and Neurological Disease
NEUR 2001 [0.5]	Introduction to Research Methods in Neuroscience
NEUR 2002 [0.5]	Introduction to Statistics in Neuroscience
NEUR 2201 [0.5]	Cellular and Molecular Neuroscience
NEUR 2202 [0.5]	Neurodevelopment and Plasticity
NEUR 3204 [0.5]	Neuropharmacology
NEUR 3206 [0.5]	Sensory and Motor Neuroscience
NEUR 3207 [0.5]	Systems Neuroscience
2. 1.0 credit in:	1.0
BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
3. 1.5 credit from:	1.5
NEUR 3301 [0.5]	Genetics of Mental Health
NEUR 3303 [0.5]	The Neuroscience of Consciousness
NEUR 3304 [0.5]	Hormones and Behaviour
NEUR 3401 [0.5]	Environmental Toxins and Mental Health
NEUR 3402 [0.5]	Impact of Lifestyle and Social Interactions on Mental Health
NEUR 3403 [0.5]	Stress and Mental Health
NEUR 3501 [0.5]	Neurodegeneration and Aging
NEUR 3502 [0.5]	Neurodevelopmental Determinants of Mental Health
B. Credits Not Included in the Major CGPA (8.0 credits)	
4. 2.0 credits in:	2.0
CHEM 1001 [0.5]	General Chemistry I

CHEM 1002 [0.5]	General Chemistry II
PHYS 1007 [0.5]	Elementary University Physics I
PHYS 1008 [0.5]	Elementary University Physics II
5. 0.5 credit from:	0.5
MATH 1007 [0.5]	Elementary Calculus I
MATH 1107 [0.5]	Linear Algebra I
6. 1.0 credit in:	1.0
BIOL 2201 [0.5]	Cell Biology and Biochemistry
BIOL 2107 [0.5]	Fundamentals of Genetics
7. 1.0 credit in Science Continuation courses (not in NEUR)	1.0
8. 2.0 credits in approved courses outside the faculties of Science and Engineering and Design (may include NSCI 1000)	2.0
9. 1.5 credit in free electives	1.5
Total Credits	15.0

Neuroscience and Biology B.Sc. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (14.5 credits)

1. 5.5 credits in:	5.5
NEUR 1202 [0.5]	Neuroscience of Mental Health and Psychiatric Disease
NEUR 1203 [0.5]	Neuroscience of Mental Health and Neurological Disease
NEUR 2001 [0.5]	Introduction to Research Methods in Neuroscience
NEUR 2002 [0.5]	Introduction to Statistics in Neuroscience
NEUR 2201 [0.5]	Cellular and Molecular Neuroscience
NEUR 2202 [0.5]	Neurodevelopment and Plasticity
NEUR 3001 [0.5]	Data Analysis in Neuroscience I
NEUR 3002 [0.5]	Data Analysis in Neuroscience II
NEUR 3204 [0.5]	Neuropharmacology
NEUR 3206 [0.5]	Sensory and Motor Neuroscience
NEUR 3207 [0.5]	Systems Neuroscience
2. 3.0 credits in:	3.0
BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 3305 [0.5]	Human and Comparative Physiology
3. 1.5 credits in BIOL or BIOC at the 3000 level or above	1.5
4. 1.0 credit from:	1.0
NEUR 3301 [0.5]	Genetics of Mental Health
NEUR 3303 [0.5]	The Neuroscience of Consciousness
NEUR 3304 [0.5]	Hormones and Behaviour
NEUR 3401 [0.5]	Environmental Toxins and Mental Health
NEUR 3402 [0.5]	Impact of Lifestyle and Social Interactions on Mental Health
NEUR 3403 [0.5]	Stress and Mental Health
NEUR 3501 [0.5]	Neurodegeneration and Aging
NEUR 3502 [0.5]	Neurodevelopmental Determinants of Mental Health

NEUR 4301 [0.5]	Neurobiology of Energy Homeostasis	
NEUR 4302 [0.5]	Sex and the Brain	
NEUR 4303 [0.5]	Indigenous Health & Mental Health	
NEUR 4305 [0.5]	Immune-Brain Interactions	
NEUR 4306 [0.5]	The Neural Basis of Addiction	
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy	
5. 2.0 credits from:		2.0
BIOC 4007 [0.5]	Membrane Biochemistry	
BIOL 2600 [0.5]	Ecology	
BIOL 2301 [0.5]	Biotechnology I	
BIOL 2303 [0.5]	Microbiology	
BIOL 3307 [0.5]	Advanced Human Anatomy and Physiology	
BIOL 3605 [0.5]	Field Course I	
BIOL 3609 [0.5]	Evolutionary Concepts	
BIOL 3802 [0.5]	Animal Behaviour	
BIOL 3804 [0.5]	Social Evolution	
BIOL 4306 [0.5]	Animal Neurophysiology	
BIOL 4317 [0.5]	Neuroethology: The Neural Basis of Animal Behaviour	
BIOL 4802 [0.5]	Advanced Animal Behaviour	
CHEM 2204 [0.5]	Organic Chemistry II	
6. 0.5 credit from:		0.5
NEUR 4200 [0.5]	Seminar on Current Advances in Neuroscience	
NEUR 4202 [0.5]	Seminar on Current Research in Neuroscience and Psychiatric Disease	
NEUR 4203 [0.5]	Seminar on Current Research in Neuroscience and Clinical Neurology	
7. 1.0 credit in neurophysiology, animal behaviour, neuropsychology or a related topic from:		1.0
NEUR 4905 [1.0]	Honours Workshop	
NEUR 4907 [1.0]	Honours Essay and Research Proposal	
NEUR 4908 [1.0]	Honours Research Thesis	
BIOL 4905 [1.0]	Honours Workshop	
BIOL 4907 [1.0]	Honours Essay and Research Proposal	
BIOL 4908 [1.0]	Honours Research Thesis	
B. Credits not included in the Major CGPA (5.5 credits)		
8. 1.0 credit in:		1.0
MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I	
9. 1.5 credits in:		1.5
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 2203 [0.5]	Organic Chemistry I	
10. 1.0 credit in:		1.0
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II	
11. 2.0 credits in approved courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000)		2.0
Total Credits		20.0

Minor in Neuroscience and Mental Health (4.0 credits)

The Minor in Neuroscience is available to students registered in degree programs other than those offered by the Department of Neuroscience.

Requirements:

1. 2.0 credits in:		2.0
NEUR 1202 [0.5]	Neuroscience of Mental Health and Psychiatric Disease	
NEUR 1203 [0.5]	Neuroscience of Mental Health and Neurological Disease	
NEUR 2201 [0.5]	Cellular and Molecular Neuroscience	
NEUR 2202 [0.5]	Neurodevelopment and Plasticity	
2. 2.0 credits from:		2.0
NEUR 3204 [0.5]	Neuropharmacology	
NEUR 3301 [0.5]	Genetics of Mental Health	
NEUR 3303 [0.5]	The Neuroscience of Consciousness	
NEUR 3304 [0.5]	Hormones and Behaviour	
NEUR 3401 [0.5]	Environmental Toxins and Mental Health	
NEUR 3402 [0.5]	Impact of Lifestyle and Social Interactions on Mental Health	
NEUR 3403 [0.5]	Stress and Mental Health	
NEUR 3501 [0.5]	Neurodegeneration and Aging	
NEUR 3502 [0.5]	Neurodevelopmental Determinants of Mental Health	
NEUR 4301 [0.5]	Neurobiology of Energy Homeostasis	
NEUR 4302 [0.5]	Sex and the Brain	
NEUR 4303 [0.5]	Indigenous Health & Mental Health	
NEUR 4306 [0.5]	The Neural Basis of Addiction	
Total Credits		4.0

Students enrolled in the Neuroscience and Mental Health programs should consult with the Department of Neuroscience when planning their program or selecting courses. Those enrolled in the Neuroscience Combined Honours program should consult with either the Department of Biology or the Department of Neuroscience.

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

- 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in science continuation courses in each of the two majors**

2. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

1. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for fewer than 10.0 credits.
2. 1.0 credit in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for 10.0 or more credits.

Declared and Undeclared Students

Students who are registered in a program within the degree are called Declared students. Most students designate a program of study when they first apply for admission and so begin their studies as Declared students. Students may also choose to begin their studies within the B.Sc. degree without being registered in a program. These students are referred to as Undeclared students. The recommended course pattern for Undeclared students is provided in the Undeclared entry of the Programs section of this Calendar. Undeclared students normally must apply to enter a program before beginning their second year of study. The Science Student Success Centre (SSSC) provides Undeclared students guidance to the appropriate support services in making this decision.

Change of Program within the B.Sc. Degree

Students may transfer to a program within the B.Sc. degree if upon entry to the new program they would be in good academic standing.

Other applications for change of program will be considered on their merits; students may be accepted in the new program in *Good Standing* or on *Academic Warning*.

Applications to declare or change their program within the B.Sc. Degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program or into a program element or option is subject to any enrolment, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may add a minor, concentration or specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a minor, concentration or specialization requires that the student be in *Good Standing* and is subject to any specific requirements of the intended

Minor, Concentration or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of experimental science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry	
BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering
Biology	
BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology
Chemistry	
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2800 [0.5]	Foundations for Environmental Chemistry
Earth Sciences	
ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time
ERTH 2102 [0.5]	Mineralogy to Petrology
ERTH 2404 [0.5]	Engineering Geoscience
ERTH 2802 [0.5]	Field Geology I
ERTH 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds
ERTH 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians
ERTH 3204 [0.5]	Mineral Deposits
ERTH 3205 [0.5]	Physical Hydrogeology
ERTH 3806 [0.5]	Structural Geology
Food Sciences	
FOOD 3001 [0.5]	Food Chemistry
FOOD 3002 [0.5]	Food Analysis
FOOD 3005 [0.5]	Food Microbiology
Geography	
GEOG 1010 [0.5]	Global Environmental Systems
GEOG 3108 [0.5]	Soil Properties
Neuroscience	
NEUR 3206 [0.5]	Sensory and Motor Neuroscience
NEUR 3207 [0.5]	Systems Neuroscience
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy

Physics

PHYS 1001 [0.5]	Foundations of Physics I
PHYS 1002 [0.5]	Foundations of Physics II
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I
PHYS 1008 [0.5]	Elementary University Physics II
PHYS 2202 [0.5]	Wave Motion and Optics
PHYS 2604 [0.5]	Modern Physics I
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars
PHYS 3606 [0.5]	Modern Physics II
PHYS 3608 [0.5]	Modern Applied Physics

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 2006 [0.5]	Introduction to Quantitative Research
GEOG 2013 [0.5]	Weather and Water
GEOG 2014 [0.5]	The Earth's Surface
GEOG 3003 [0.5]	Quantitative Geography
GEOG 3010 [0.5]	Field Methods in Physical Geography
GEOG 3102 [0.5]	Geomorphology
GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3104 [0.5]	Principles of Biogeography
GEOG 3105 [0.5]	Climate and Atmospheric Change
GEOG 3106 [0.5]	Aquatic Science and Management
GEOG 3108 [0.5]	Soil Properties
GEOG 4000 [0.5]	Field Studies
GEOG 4005 [0.5]	Directed Studies in Geography
GEOG 4013 [0.5]	Cold Region Hydrology
GEOG 4017 [0.5]	Global Biogeochemical Cycles
GEOG 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103 [0.5]	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Science Psychology Courses

PSYC 2001 [0.5]	Introduction to Research Methods in Psychology
PSYC 2002 [0.5]	Introduction to Statistics in Psychology
PSYC 2700 [0.5]	Introduction to Cognitive Psychology
PSYC 3000 [1.0]	Design and Analysis in Psychological Research
PSYC 3506 [0.5]	Cognitive Development
PSYC 3700 [1.0]	Cognition (Honours Seminar)
PSYC 3702 [0.5]	Perception
PSYC 2307 [0.5]	Human Neuropsychology I
PSYC 3307 [0.5]	Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

BIOC (Biochemistry)
BIOL (Biology)
CHEM (Chemistry)
COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.
ERTH (Earth Sciences), except EARTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use EARTH 2401, EARTH 2402, and EARTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)
FOOD (Food Science and Nutrition)
GEOM (Geomatics)
HLTH (Health Sciences)
ISAP (Interdisciplinary Science Practice)
MATH (Mathematics)
NEUR (Neuroscience)
PHYS (Physics), except PHYS 2903
Science Geography Courses (see list above)
Science Psychology Courses (see list above)
STAT (Statistics)
TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)
BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives
CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007
COMP (Computer Science) except COMP 1001
ERTH (Earth Sciences) except EARTH 1010, EARTH 1011 and EARTH 2415. Earth Sciences students may use EARTH 2401, EARTH 2402, and EARTH 2403 only as free electives.
Engineering
ENSC 2001
FOOD (Food Science and Nutrition)
GEOM (Geomatics)
HLTH (Health Science)
ISAP (Interdisciplinary Science Practice)
MATH (Mathematics)
NEUR (Neuroscience)
PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)
 Science Psychology (see list above)
 STAT (Statistics)
 TSES (Technology, Society, Environment) Biology
 students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5]	Education Research in Biology
CHEM 1003 [0.5]	The Chemistry of Food, Health and Drugs
CHEM 1004 [0.5]	Drugs and the Human Body
CHEM 1007 [0.5]	Chemistry of Art and Artifacts
ERTH 1010 [0.5]	Our Dynamic Planet Earth
ERTH 1011 [0.5]	Evolution of the Earth
ERTH 2415 [0.5]	Natural Disasters
ISCI 1001 [0.5]	Introduction to the Environment
ISCI 2000 [0.5]	Natural Laws
ISCI 2002 [0.5]	Human Impacts on the Environment
MATH 0107 [0.5]	Algebra and Geometry
PHYS 1901 [0.5]	Planetary Astronomy
PHYS 1902 [0.5]	From our Star to the Cosmos
PHYS 1905 [0.5]	Physics Behind Everyday Life
PHYS 2903 [0.5]	Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5]	Introduction to Computational Thinking for Arts and Social Science Students
MATH 0005 [0.5]	Precalculus: Functions and Graphs
MATH 0006 [0.5]	Precalculus: Trigonometric Functions and Complex Numbers
MATH 1009 [0.5]	Mathematics for Business
MATH 1119 [0.5]	Linear Algebra: with Applications to Business
MATH 1401 [0.5]	Elementary Mathematics for Economics I

MATH 1402 [0.5] Elementary Mathematics for Economics II

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job.

It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.Sc. Honours Neuroscience, Neuroscience and Mental Health: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Completion of 5.0 or more credits at Carleton University;
2. Registered as a full-time student in the Bachelor of Science Honours degree program;
3. Obtained and maintained a major CGPA of 8.0 or higher and an overall CGPA of 6.50 or higher

B.Sc. Honours Neuroscience and Neuroscience and Mental Health students must successfully complete three (3) work terms to obtain the co-op designation.

Work Term Course: NEUR 3999

Work-Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	*W/S	Fall	S
Winter	S	Winter	S	Winter	S	Winter	*W/S	Winter	S
Summer	**O/W	Summer	*W	Summer	O/W	Summer	O/W		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational

Biochemistry, Food Science, Nanoscience, Neuroscience, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions and two of Biology, Chemistry, Earth and Space Sciences or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For the Combined Honours program in Chemistry and Computer Science, 4U Chemistry and Calculus and Vectors are strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

For entry to an Honours program after the completion of 5.0 included credits, a student must have a major CGPA of 5.50 or higher, an overall CGPA of 4.50 or higher and the recommendation of the Honours department or committee. A student beginning the final 10.0 credits towards an Honours degree must present a major CGPA of 6.00 or higher, an overall CGPA of 5.00 or higher and the recommendation of the Honours department or committee. A student beginning the final 5.0 credits towards an Honours degree must present a major CGPA of 6.50 or higher and an overall CGPA of 5.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

B.Sc. Major Program

B.Sc. Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics. 4U Physics is strongly recommended. Equivalent courses may be substituted between the old and new Ontario mathematics curriculum.

Advanced Standing

For entry to a B.Sc. or B.Sc. Major program after the completion of 5.0 included credits, a student must have a major and core CGPA of 3.50 or higher and an overall CGPA of 3.50 or higher. A student beginning the final

5.0 credits towards a B.Sc. or B.Sc. Major degree must present a major and core CGPA of 4.00 or higher and an overall CGPA of 4.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Neuroscience (NEUR) Courses

NEUR 1202 [0.5 credit]

Neuroscience of Mental Health and Psychiatric Disease

Clinical symptoms of psychiatric disease, including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include depressive disorders, schizophrenia, autism, ADHD, anorexia, narcolepsy, substance abuse, and personality disorders.

Precludes additional credit for NEUR 1201 (no longer offered).

Lecture three hours a week.

NEUR 1203 [0.5 credit]

Neuroscience of Mental Health and Neurological Disease

Clinical symptoms of neurological disease, including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include stroke, multiple sclerosis, migraine, seizure disorder, Parkinson's disease, ALS, chronic pain, Alzheimer's disease and concussion.

Lectures three hours a week.

NEUR 2001 [0.5 credit]

Introduction to Research Methods in Neuroscience

A general introduction to research process within neuroscience. Topics covered include research strategies, methods, and techniques; basic descriptive statistics; research communication; and responsible scientific conduct.

Precludes additional credit for PSYC 2000 and PSYC 2001.

Prerequisite(s): second-year standing.

Lecture three hours a week.

NEUR 2002 [0.5 credit]

Introduction to Statistics in Neuroscience

A general introduction to statistical techniques employed within contemporary neuroscience. Topics covered include basic data analysis using descriptive and inferential statistics (t-tests, ANOVA, correlation, chi-square).

Precludes additional credit for ENST 2006, GEOG 2006, PSYC 2002.

Prerequisite(s): PSYC 2001 or NEUR 2001.

Lectures three hours a week, online labs/tutorials.

NEUR 2003 [0.5 credit]

Introduction to Techniques in Neuroscience

Introduction to common techniques used in neuroscience research. Brain imaging, animal behaviour, electrophysiology, immunohistochemistry and microscopy, genomics, transgenics, cell culture, and DSM-IV-based clinical assessment.

Prerequisite(s): one of PSYC 1001, NEUR 1201, NEUR 1202 or NEUR 1203.

Lectures three hours a week.

NEUR 2004 [0.5 credit]

Fundamentals of Scientific Writing in Neuroscience

Introduction to various forms of scientific writing appropriate to neuroscience, with a focus in fundamental skills in scientific writing.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in a Neuroscience program and one of NEUR 1201, NEUR 1202 or NEUR 1203.

Lectures and workshops three hours a week.

NEUR 2201 [0.5 credit]

Cellular and Molecular Neuroscience

Core principles in cellular and molecular neuroscience, including signal transmission along and between neurons, ion channels and transporters, intracellular signaling pathways, and regulation of gene expression.

Precludes additional credit for PSYC 3200 (no longer offered) and NEUR 3200 (no longer offered).

Prerequisite(s): Either NEUR 1201 and NEUR 1203, or NEUR 1202 and NEUR 1203, or both BIOL 1103 and BIOL 1104.

Lectures three hours a week, online labs.

NEUR 2202 [0.5 credit]**Neurodevelopment and Plasticity**

Core principles in nervous system development from embryogenesis to plasticity in the adult brain. Topics include neural induction, neurogenesis, apoptosis, neuronal migration and axon growth, synaptogenesis and synaptic pruning both under normal conditions and in psychopathology.

Precludes additional credit for PSYC 3200 (no longer offered) and NEUR 3200 (no longer offered).

Prerequisite(s): NEUR2201.

Lectures three hours a week, online labs.

NEUR 2801 [0.5 credit]**Neuroscience and Creativity**

Abnormal brain function associated with mental illness or substance abuse has been commonly depicted in or been the inspiration for important cultural works including movies, music, paintings and literature. The neurobiological basis of creativity in individuals with and without mental illness.

Prerequisite(s): one of PSYC 1001, NEUR 1201, NEUR 1202 or NEUR 1203.

Lectures and seminars three hours a week.

NEUR 3001 [0.5 credit]**Data Analysis in Neuroscience I**

Introducing various software for analyzing neuroscience data. Dealing with real data, drawing graphs, application of descriptive and inferential statistics through the general linear model, assumptions of parametric tests, robust statistics, confidence intervals, correlations, use of appropriate statistical methods and interpretation of results.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001 and PSYC 2002, or NEUR 2001 and NEUR 2002.

Lectures three hours a week, online labs/workshops.

NEUR 3002 [0.5 credit]**Data Analysis in Neuroscience II**

Use of software for analyzing neuroscience data. Statistical techniques typically include nonparametric tests, t tests, and various forms of both ANOVA and regression including robust statistical tests, with a focus on the practical application of appropriate statistical methods and interpretation of results.

Includes: Experiential Learning Activity

Prerequisite(s): NEUR 3001.

Lectures three hours a week, online labs/workshops.

NEUR 3203 [0.5 credit]**Field Course in Animal Behaviour**

Offered in the Department of Biology as BIOL 3605. Only those modules dealing with animal behaviour topics may be offered for Neuroscience credit.

Includes: Experiential Learning Activity

Also listed as BIOL 3605.

Precludes additional credit for PSYC 3203.

Prerequisite(s): permission of the department.

NEUR 3204 [0.5 credit]**Neuropharmacology**

Overview of chemical neurotransmission and key neurotransmitter systems. A description of licit and illicit drugs covering topics that range from historical perspectives to pharmacology to mechanisms of action in the brain. Discussion of neurochemical basis of psychiatric diseases including anxiety, depression and schizophrenia.

Precludes additional credit for PSYC 3204 (no longer offered).

Prerequisite(s): NEUR 2200 or NEUR 2201.

Lectures and seminars three hours a week.

NEUR 3206 [0.5 credit]**Sensory and Motor Neuroscience**

Exploration of major topics in sensory processing and motor control, with a focus on underlying mechanisms and neurobiological principles. Topics include all sensory systems (such as vision, somatosensation and audition) plus motor system components including lower and upper motor neurons, basal ganglia, and cerebellum.

Includes: Experiential Learning Activity

Precludes additional credit for PSYC 3200 (no longer offered), NEUR 3200 (no longer offered), PSYC 3202 (no longer offered) and NEUR 3202 (no longer offered).

Prerequisite(s): NEUR 1201 or both NEUR 1202 and NEUR 1203, and either NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week, laboratory three hours a week.

NEUR 3207 [0.5 credit]**Systems Neuroscience**

Neural systems underlying complex behaviours including emotion, motivation, and sleep, and the role of association cortices in brain function.

Includes: Experiential Learning Activity

Precludes additional credit for NEUR 3200 (no longer offered) and PSYC 3200 (no longer offered).

Prerequisite(s): NEUR 3206.

Lectures three hours a week, laboratory three hours a week.

NEUR 3301 [0.5 credit]**Genetics of Mental Health**

Most common mental health diseases have a genetic component. By focusing on specific diseases, this course will discuss how disease susceptibility genes are identified, and describe the genetic, genomic and epigenetic mechanisms through which DNA alterations can predispose to disease.

Prerequisite(s): BIOL 2104 or BIOL 2107, and NEUR 2200 or NEUR 2201.

Lectures three hours a week.

NEUR 3303 [0.5 credit]**The Neuroscience of Consciousness**

Consciousness remains one of the least understood aspects of the nervous system. This course explores neural mechanisms underlying consciousness, changes in consciousness associated with sleep, coma, vegetative states, drugs, and other stimuli, and considers the evolutionary basis of consciousness, and its relationship with awareness.

Prerequisite(s): NEUR 2200 or NEUR 2202.

Lectures three hours a week.

NEUR 3304 [0.5 credit]**Hormones and Behaviour**

The effects of hormones throughout life at all levels of the nervous system. The role of hormones in mediating behaviours that are both basic (feeding, reproduction and social interactions) and complex (motivation, emotion, learning and memory).

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3401 [0.5 credit]**Environmental Toxins and Mental Health**

Exposure to environmental toxins from the air, water or food can interfere with neuronal function, alter neurodevelopment, and damage the brain. This course will explore associations between toxins and diseases such as Parkinson's disease, multiple sclerosis and depression, focusing on mechanisms underlying development of pathology.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3402 [0.5 credit]**Impact of Lifestyle and Social Interactions on Mental Health**

Healthy lifestyle choices and positive social interactions can reduce the incidence of pathological conditions such as depression, obesity, cardiovascular disease and impaired immunity. This course focuses on psychosocial and neurobiological mechanisms that underlie the relationship between lifestyle, social interactions and health.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3403 [0.5 credit]**Stress and Mental Health**

Stressful events can have profound repercussions on physical and psychological well-being. This course examines the psychosocial and biological processes by which stressors predispose to both physical (immune-related disorders, diabetes, heart disease) and psychological (acute stress disorder, posttraumatic stress disorder, depression, anxiety) pathologies.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3501 [0.5 credit]**Neurodegeneration and Aging**

Perspectives on aging and neurodegeneration from psychosocial and neuroscience points of view. How factors including TBI, stroke and alcohol make the brain vulnerable and contribute to neurodegeneration. Clinical overview of Alzheimer's, Parkinson's, Huntington's and ALS and the underlying pathology that differentiates these diseases.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3502 [0.5 credit]**Neurodevelopmental Determinants of Mental Health**

Development of the human brain, the generation and differentiation of the various cell types, and the formation of the vast network of neural connections. How neurodevelopmental dysregulation can result in pathologies including dyslexia, ADHD, schizophrenia and autism.

Prerequisite(s): NEUR 2200, or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

NEUR 4001 [0.5 credit]**Special Topics in Neuroscience**

Each section of NEUR 4001 deals with a different topic. Topics change yearly. Students may register in more than one section of NEUR 4001 but can register in each section only once.

Prerequisite(s): NEUR 3200, or NEUR 3204 and NEUR 3206 and NEUR 3207, or permission of the Department.

Lectures three hours a week.

NEUR 4002 [0.5 credit]**Systematic Reviews and Meta-Analyses**

Introduction to the methods used in conducting systematic reviews and meta-analyses. Topics include: conducting literature searches, extracting relevant literature, assessing quality of studies, synthesizing findings across studies, and the statistical methods used to carry out a meta-analysis.

Includes: Experiential Learning Activity

Prerequisite(s): NEUR 3002 or HLTH 3201 or BIOL 3604 or permission of instructor.

Lecture three hours a week.

NEUR 4200 [0.5 credit]**Seminar on Current Advances in Neuroscience**

Headline research in neuroscience. Topics may include technical and conceptual advances, ethical issues, medical improvement, and social impacts of neuroscience research.

Precludes additional credit for PSYC 4200 (no longer offered).

Prerequisite(s): fourth year standing and one of NEUR 3200, NEUR 3206 or NEUR 3207.

Seminar three hours a week.

NEUR 4202 [0.5 credit]**Seminar on Current Research in Neuroscience and Psychiatric Disease**

Recent research in clinical neuroscience including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include depressive disorders, schizophrenia, autism, ADHD, anorexia, narcolepsy, substance abuse, and personality disorders.

Prerequisite(s): fourth year standing and one of NEUR 3200, NEUR 3206 or NEUR 3207.

Seminar three hours a week.

NEUR 4203 [0.5 credit]**Seminar on Current Research in Neuroscience and Clinical Neurology**

Recent research in neurological disease, including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include stroke, multiple sclerosis, migraine, seizure disorder, Parkinson's disease, ALS, chronic pain, Alzheimer's disease and concussion.

Prerequisite(s): fourth year standing and one of NEUR 3200, NEUR 3206 or NEUR 3207.

Seminars three hours a week.

NEUR 4301 [0.5 credit]**Neurobiology of Energy Homeostasis**

Focus on neuroanatomical and molecular mechanisms underlying how mammals adapt to changes and challenges in the environment. Topics include regulation of feeding, energy expenditure, water balance, and temperature regulation.

Prerequisite(s): NEUR 3304.

Lectures three hours a week.

NEUR 4302 [0.5 credit]**Sex and the Brain**

Neurobiological processes behind reproductive behaviours in various animal species including humans. Evaluation of data concerning neurobiological differences between sexes, biological determinants of sexual orientation, and relating to neurobiology of sex disorders.

Precludes additional credit for NEUR 3302 (no longer offered).

Prerequisite(s): NEUR 3304.

Lectures three hours a week.

NEUR 4303 [0.5 credit]**Indigenous Health & Mental Health**

The physical and mental health issues of Indigenous people in the context of the cultural, environmental, developmental and biological factors that contribute to comorbid conditions and greater risk and resilience.

Prerequisite(s): 3rd year standing or above.

Lectures three hours a week.

NEUR 4305 [0.5 credit]**Immune-Brain Interactions**

Communication between the brain and the immune system; messengers mediating the interaction. How disturbances of immune-brain signaling can lead to disease (multiple sclerosis, Parkinson's) and to changes in mood and cognition.

Precludes additional credit for NEUR 3305 (no longer offered).

Prerequisite(s): NEUR 3200 or NEUR 3207.

Lectures three hours a week.

NEUR 4306 [0.5 credit]**The Neural Basis of Addiction**

How substance and behavioural addictions impact neural function to ultimately lead to the neuropathology of addiction in vulnerable populations. Contemporary neurobiological theories of addiction will also be addressed.

Precludes additional credit for NEUR 3306.

Prerequisite(s): NEUR 3204.

Lecture three hours a week.

NEUR 4600 [0.5 credit]**Advanced Lab in Neuroanatomy**

Advanced experiential learning in neuroanatomy, histology and microscopy.

Includes: Experiential Learning Activity

Prerequisite(s): NEUR 3200 or both NEUR 3206 and NEUR 3207, fourth-year standing in a Neuroscience program, a minimum Major CGPA of 9.0 and permission of the Department.

NEUR 4801 [0.5 credit]**Neuroethics**

Ethical issues of key importance to current neurobiological research. Topics may include the use of animals in research, stem cell research, genetic diagnosis and gene therapy, neuroimaging, and the effect on identity and autonomy of manipulations such as psychopharmaceuticals and psychosurgery.

Prerequisite(s): NEUR 3200 or both NEUR 3206 and NEUR 3207.

Lectures and seminars three hours a week.

NEUR 4900 [0.5 credit]**Independent Study**

A reading or research course for selected students who wish to investigate a particular topic of interest. Normally students may not offer more than one credit of independent study in their total program.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth- year standing and permission of the Department.

NEUR 4905 [1.0 credit]**Honours Workshop**

The course will focus on active learning in areas that include written and oral communication, evaluation and interpretation of results, statistics and data management, emphasizing transferable skills that will be most appropriate for non-research career paths.

Includes: Experiential Learning Activity

Precludes additional credit for NEUR 4907 and NEUR 4908.

Prerequisite(s): fourth-year standing in an Honours Neuroscience program and permission of the Department.

Lectures and seminars three hours a week, and colloquia three hours a week.

NEUR 4906 [1.0 credit]**Translational Approach to Indigenous Community Wellness**

This course involves co-developing an Indigenous community-led process or product that addresses a current and specific mental health issue. Involves working in interdisciplinary groups with a community partner.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year standing with a minimum CGPA of 9.0 and a grade of A- or higher in one of NEUR 3401, NEUR 3402 or NEUR 3403 and permission of instructor.

Seminars or workshops three hours a week. A field trip to the partner community is typically required.

NEUR 4907 [1.0 credit]**Honours Essay and Research Proposal**

An independent essay based critical review and research proposal on a topic in neuroscience, using library resources, under the direct supervision of a Faculty advisor. Evaluation is based on a written report.

Includes: Experiential Learning Activity

Precludes additional credit for NEUR 4905 and NEUR 4908.

Prerequisite(s): NEUR 3200, or both NEUR 3206 and NEUR 3207, and fourth-year standing in an Honours Neuroscience program, a minimum Major CGPA of 9.0 and permission of the Department.

Seminar three hours a week and colloquia three hours a week.

NEUR 4908 [1.0 credit]**Honours Research Thesis**

An independent research project undertaken under the direct supervision of a faculty advisor typically from the Department of Neuroscience. Evaluation is based on a written report and poster.

Includes: Experiential Learning Activity

Precludes additional credit for NEUR 4905 and NEUR 4907.

Prerequisite(s): NEUR 3200, or both NEUR 3206 and NEUR 3207, and fourth-year standing in an Honours Neuroscience program, a minimum CGPA of 9.0 and permission of the Department.

Colloquia three hours a week.

Open Studies

This section presents the requirements for programs in:

- Open Studies Program Requirements B.A.
- Open Studies Program Requirements B.Sc.

Open Studies Program Bachelor of Arts

Students can find it difficult to decide which thematic or discipline-specific program they want to take for their academic studies. The Open Studies program typically enables students to begin their studies with a broad set of topics to help them narrow their focus and transition into a thematic or discipline-specific program. The recommended course pattern for students is outlined *below*. Students are normally expected to apply to enter a thematic or discipline-specific program before beginning their second year of study and will be required to meet with an academic advisor at the Academic Advising Centre who will offer support in making this decision.

Advanced standing entry into the B.A. Open Studies program is restricted. Please consult with an academic advisor for more information.

Academic Standing for Open Studies Programs

For purposes of Academic Performance Evaluation, students in Open Studies programs are assessed using only the Overall CGPA.

First-year Course Selection for B.A. Open Studies Students

To give themselves the greatest range of choices and transition to a more specific program, first-year Open Studies B.A. students should conform to the following guidelines in selecting their initial courses.

Open Studies B.A. students should register in:

1. A B.A. First-year seminar (FYSM);
2. Courses in at least three different disciplines leading to programs within the Faculty of Arts and Social Sciences or the Faculty of Public Affairs.

Open Studies Program Requirements

B.A. (15.0 credits)

Enrolment in the B.A. Open Studies program is restricted.

Please consult with an academic advisor for more information.

1. 6.0 credits from disciplines in the Faculty of Arts and Social Sciences or the Faculty of Public Affairs	6.0
2. 9.0 credits in free electives	9.0
Total Credits	15.0

Notes:

1. Students must complete 2.0 credits at the 3000 level or above;
2. Subject to individual program restrictions, students may be eligible to declare a Minor.

In addition to the requirements presented here, students must satisfy the Bachelor of Arts regulations, including the Breadth Requirement, and University regulations common to all undergraduate students, including the Minimum Number of Carleton Credits (Residency and Advanced credits), the Maximum Number of Credits Below the 2000-level, and the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

Open Studies Program Bachelor of Science

Students can find it difficult to decide which thematic or discipline-specific program they want to take for their academic studies. The Open Studies program enables students to begin their studies with a broad set of topics to help them narrow their focus and transition into a thematic or discipline-specific program. The recommended course pattern for students is outlined *below*. Students are normally expected to apply to enter a thematic or discipline-specific program before beginning their second year of study and will be required to meet with an academic advisor at the Academic Advising Centre who will offer support in making this decision.

Advanced standing entry into the B.Sc. Open Studies program is restricted. Please consult with an academic advisor for more information.

Academic Standing for Open Studies Programs

For purposes of Academic Performance Evaluation, students in Open Studies programs are assessed using only the Overall CGPA.

First-year Course Selection for B.Sc. Open Studies Students

To give themselves the greatest range of choices and transition to a more specific program, first-year Open Studies B.Sc. students should conform to the following guidelines in selecting their initial courses.

Open Studies B.Sc. students should register in:

1. 2.0 credits in Experimental Science	2.0
2. 1.0 credit in Mathematics	1.0
3. 1.0 credit in Mathematics, Experimental Science or Computer Science	1.0

4. 1.0 credit chosen from:	1.0
NSCI 1000 [0.5] Seminar in Science and/or approved courses outside the faculties of Science and Engineering and Design	

Total Credits **5.0**

Course Categories

Experimental Science Courses

Biology

BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II

Chemistry

CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II

Earth Sciences

ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time

Physics

PHYS 1001 [0.5]	Foundations of Physics I
PHYS 1002 [0.5]	Foundations of Physics II
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I
PHYS 1008 [0.5]	Elementary University Physics II

Appropriate Mathematics Courses

Calculus

MATH 1007 [0.5]	Elementary Calculus I
-----------------	-----------------------

Algebra

MATH 1107 [0.5]	Linear Algebra I
-----------------	------------------

Appropriate Computer Science Courses

COMP 1005 [0.5]	Introduction to Computer Science I
COMP 1006 [0.5]	Introduction to Computer Science II

Approved Courses Outside the Faculties of Science and Engineering and Design

Approved courses outside the faculties of Science and Engineering and Design are specified in the *Academic Regulations for the Bachelor of Science Degree* section of this Calendar.

Open Studies Program Requirements B.Sc. (15.0 credits)

Enrolment in the B.Sc. Open Studies programs is restricted. Please consult with an academic advisor for more information.

1. 6.0 credits from disciplines in the Faculty of Science or the Faculty of Engineering and Design	6.0
2. 9.0 credits in free electives	9.0
Total Credits	15.0

Notes:

1. Students must complete 2.0 credits at the 3000 level or above;

2. Subject to individual program restrictions, students may be eligible to declare a Minor.

In addition to the requirements presented here, students must satisfy the Bachelor of Science regulations, including the Breadth and Experimental Science Requirements, and University regulations common to all undergraduate students, including the Minimum Number of Carleton Credits (Residency and Advanced credits), the Maximum Number of Credits Below the 2000-level, and the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, ERTN, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students

should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in *Good Standing*.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

1. 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in science continuation courses in each of the two majors**
2. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

1. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for fewer than 10.0 credits.
2. 1.0 credit in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for 10.0 or more credits.

Declared and Undeclared Students

Students who are registered in a program within the degree are called Declared students. Most students designate a program of study when they first apply for admission and so begin their studies as Declared students. Students may also choose to begin their studies within the B.Sc. degree without being registered in a program. These students are referred to as Undeclared students. The recommended course pattern for Undeclared students is provided in the Undeclared entry of the Programs section of this Calendar. Undeclared students normally must apply to enter a program before beginning their second year of study. The Science Student Success Centre (SSSC) provides Undeclared students guidance to the appropriate support services in making this decision.

Change of Program within the B.Sc. Degree

Students may transfer to a program within the B.Sc. degree if upon entry to the new program they would be in good academic standing.

Other applications for change of program will be considered on their merits; students may be accepted

in the new program in *Good Standing* or on *Academic Warning*.

Applications to declare or change their program within the B.Sc. Degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program or into a program element or option is subject to any enrolment, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may add a minor, concentration or specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central.

Acceptance into a minor, concentration or specialization requires that the student be in *Good Standing* and is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of experimental science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry

BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering

Biology

BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology

Chemistry

CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2800 [0.5]	Foundations for Environmental Chemistry

Earth Sciences

ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time
ERTH 2102 [0.5]	Mineralogy to Petrology
ERTH 2404 [0.5]	Engineering Geoscience
ERTH 2802 [0.5]	Field Geology I

ERTH 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds
-----------------	--

ERTH 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians
-----------------	---

ERTH 3204 [0.5]	Mineral Deposits
-----------------	------------------

ERTH 3205 [0.5]	Physical Hydrogeology
-----------------	-----------------------

ERTH 3806 [0.5]	Structural Geology
-----------------	--------------------

Food Sciences

FOOD 3001 [0.5]	Food Chemistry
-----------------	----------------

FOOD 3002 [0.5]	Food Analysis
-----------------	---------------

FOOD 3005 [0.5]	Food Microbiology
-----------------	-------------------

Geography

GEOG 1010 [0.5]	Global Environmental Systems
-----------------	------------------------------

GEOG 3108 [0.5]	Soil Properties
-----------------	-----------------

Neuroscience

NEUR 3206 [0.5]	Sensory and Motor Neuroscience
-----------------	--------------------------------

NEUR 3207 [0.5]	Systems Neuroscience
-----------------	----------------------

NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy
-----------------	------------------------------

Physics

PHYS 1001 [0.5]	Foundations of Physics I
-----------------	--------------------------

PHYS 1002 [0.5]	Foundations of Physics II
-----------------	---------------------------

PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
-----------------	---

PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
-----------------	---

PHYS 1007 [0.5]	Elementary University Physics I
-----------------	---------------------------------

PHYS 1008 [0.5]	Elementary University Physics II
-----------------	----------------------------------

PHYS 2202 [0.5]	Wave Motion and Optics
-----------------	------------------------

PHYS 2604 [0.5]	Modern Physics I
-----------------	------------------

PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars
-----------------	--

PHYS 3606 [0.5]	Modern Physics II
-----------------	-------------------

PHYS 3608 [0.5]	Modern Applied Physics
-----------------	------------------------

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5]	Global Environmental Systems
-----------------	------------------------------

GEOG 2006 [0.5]	Introduction to Quantitative Research
-----------------	---------------------------------------

GEOG 2013 [0.5]	Weather and Water
-----------------	-------------------

GEOG 2014 [0.5]	The Earth's Surface
-----------------	---------------------

GEOG 3003 [0.5]	Quantitative Geography
-----------------	------------------------

GEOG 3010 [0.5]	Field Methods in Physical Geography

-----------------	-------------------------------

GEOG 4013 [0.5]	Cold Region Hydrology
-----------------	-----------------------

GEOG 4017 [0.5]	Global Biogeochemical Cycles
-----------------	------------------------------

GEOG 4101 [0.5]	Two Million Years of Environmental Change
-----------------	---

GEOG 4103 [0.5]	Water Resources Engineering
-----------------	-----------------------------

GEOG 4104 [0.5] Microclimatology
GEOG 4108 [0.5] Permafrost

Science Psychology Courses

PSYC 2001 [0.5] Introduction to Research Methods in Psychology
PSYC 2002 [0.5] Introduction to Statistics in Psychology
PSYC 2700 [0.5] Introduction to Cognitive Psychology
PSYC 3000 [1.0] Design and Analysis in Psychological Research
PSYC 3506 [0.5] Cognitive Development
PSYC 3700 [1.0] Cognition (Honours Seminar)
PSYC 3702 [0.5] Perception
PSYC 2307 [0.5] Human Neuropsychology I
PSYC 3307 [0.5] Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

BIOC (Biochemistry)

BIOL (Biology)

CHEM (Chemistry)

COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except ERTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except ERTH 1010, ERTH 1011 and ERTH 2415. Earth Sciences students may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering

ENSC 2001

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Science)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)

Science Psychology (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) Biology students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5] Education Research in Biology

CHEM 1003 [0.5] The Chemistry of Food, Health and Drugs

CHEM 1004 [0.5] Drugs and the Human Body

CHEM 1007 [0.5] Chemistry of Art and Artifacts

ERTH 1010 [0.5] Our Dynamic Planet Earth

ERTH 1011 [0.5] Evolution of the Earth

ERTH 2415 [0.5] Natural Disasters

ISCI 1001 [0.5] Introduction to the Environment

ISCI 2000 [0.5] Natural Laws

ISCI 2002 [0.5] Human Impacts on the Environment

MATH 0107 [0.5] Algebra and Geometry

PHYS 1901 [0.5] Planetary Astronomy

PHYS 1902 [0.5] From our Star to the Cosmos

PHYS 1905 [0.5]	Physics Behind Everyday Life
PHYS 2903 [0.5]	Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5]	Introduction to Computational Thinking for Arts and Social Science Students
MATH 0005 [0.5]	Precalculus: Functions and Graphs
MATH 0006 [0.5]	Precalculus: Trigonometric Functions and Complex Numbers
MATH 1009 [0.5]	Mathematics for Business
MATH 1119 [0.5]	Linear Algebra: with Applications to Business
MATH 1401 [0.5]	Elementary Mathematics for Economics I
MATH 1402 [0.5]	Elementary Mathematics for Economics II

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section “English Language Requirements” in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be

considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions and two of Biology, Chemistry, Earth and Space Sciences or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary

Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For the Combined Honours program in Chemistry and Computer Science, 4U Chemistry and Calculus and Vectors are strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

For entry to an Honours program after the completion of 5.0 included credits, a student must have a major CGPA of 5.50 or higher, an overall CGPA of 4.50 or higher and the recommendation of the Honours department or committee. A student beginning the final 10.0 credits towards an Honours degree must present a major CGPA of 6.00 or higher, an overall CGPA of 5.00 or higher and the recommendation of the Honours department or committee. A student beginning the final 5.0 credits towards an Honours degree must present a major CGPA of 6.50 or higher and an overall CGPA of 5.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

B.Sc. Major Program

B.Sc. Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics. 4U Physics is strongly recommended. Equivalent courses may be substituted between the old and new Ontario mathematics curriculum.

Advanced Standing

For entry to a B.Sc. or B.Sc. Major program after the completion of 5.0 included credits, a student must have a major and core CGPA of 3.50 or higher and an overall CGPA of 3.50 or higher. A student beginning the final 5.0 credits towards a B.Sc. or B.Sc. Major degree must present a major and core CGPA of 4.00 or higher and an overall CGPA of 4.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Philosophy

This section presents the requirements for programs in:

- Philosophy B.A. Honours
- Philosophy with Concentration in Philosophy, Ethics and Public Affairs B.A. Honours
- Philosophy B.A. Combined Honours
- Philosophy B.A.
- Minor in Philosophy
- Mention : Français

Program Requirements

Course Categories for Philosophy

For purposes of program description the Philosophy courses are classified as follows.

History of Philosophy

PHIL 2005 [1.0]	Ancient Philosophy: The Search for Wisdom
PHIL 2101 [0.5]	History of Ethics
PHIL 2201 [0.5]	Introduction to Marxist Philosophy
PHIL 2202 [0.5]	Topics in Marxist Philosophy
PHIL 2700 [0.5]	Asian Philosophy
PHIL 3000 [0.5]	Topics in Ancient Philosophy
PHIL 3001 [0.5]	Early Greek Philosophy
PHIL 3002 [0.5]	17th Century Philosophy
PHIL 3003 [0.5]	18th Century Philosophy
PHIL 3005 [0.5]	19th Century Philosophy
PHIL 3009 [0.5]	Topics in European Philosophy
PHIL 3010 [0.5]	Global Philosophical Traditions
PHIL 3104 [0.5]	The Roots of Analytic Philosophy
PHIL 3330 [0.5]	Topics in History of Social and Political Philosophy

Ethics, Society, and Aesthetics (ESA)

PHIL 2020 [0.5]	Issues in Practical Philosophy
PHIL 2101 [0.5]	History of Ethics
PHIL 2103 [0.5]	Philosophy of Human Rights

PHIL 2106 [0.5]	Information Ethics
PHIL 2201 [0.5]	Introduction to Marxist Philosophy
PHIL 2306 [0.5]	Philosophy and Feminism
PHIL 2307 [0.5]	Gender and Philosophy
PHIL 2380 [0.5]	Introduction to Environmental Ethics
PHIL 2408 [0.5]	Bioethics
PHIL 2601 [0.5]	Philosophy of Religion
PHIL 2807 [0.5]	Philosophy of Art
PHIL 2901 [0.5]	Truth and Propaganda
PHIL 3010 [0.5]	Global Philosophical Traditions
PHIL 3102 [0.5]	Philosophy of Law: The Logic of Law
PHIL 3320 [0.5]	Contemporary Ethical Theory
PHIL 3330 [0.5]	Topics in History of Social and Political Philosophy
PHIL 3340 [0.5]	Topics in Contemporary Social and Political Philosophy
PHIL 3350 [0.5]	Philosophy, Ethics, and Public Affairs
PHIL 3360 [0.5]	Philosophy, Economics, and Public Policy
PHIL 3380 [0.5]	Environments, Technology and Values
PHIL 3450 [0.5]	Topics in Aesthetics

Language, Mind and World (LMW)

PHIL 2010 [0.5]	Issues in Theoretical Philosophy
PHIL 2301 [0.5]	Introduction to the Philosophy of Science
PHIL 2405 [0.5]	Philosophy of the Paranormal
PHIL 2501 [0.5]	Introduction to Philosophy of Mind
PHIL 2504 [0.5]	Language and Communication
PHIL 2520 [0.5]	Introduction to Philosophical Logic
PHIL 2540 [0.5]	Personal Identity and the Self
PHIL 2550 [0.5]	Moral Psychology
PHIL 2601 [0.5]	Philosophy of Religion
PHIL 2901 [0.5]	Truth and Propaganda
PHIL 3005 [0.5]	19th Century Philosophy
PHIL 3010 [0.5]	Global Philosophical Traditions
PHIL 3104 [0.5]	The Roots of Analytic Philosophy
PHIL 3140 [0.5]	Epistemology
PHIL 3150 [0.5]	Metaphysics
PHIL 3301 [0.5]	Issues in the Philosophy of Science
PHIL 3306 [0.5]	Symbolic Logic
PHIL 3501 [0.5]	Philosophy of Cognitive Science
PHIL 3502 [0.5]	Mind and Action
PHIL 3504 [0.5]	Pragmatics
PHIL 3506 [0.5]	Semantics
PHIL 3530 [0.5]	Philosophy of Language

Philosophy Courses Open to First-Year Students

Please note that not all of these courses are offered each year.

PHIL 1000 [0.5]	Introductory Philosophy: Fields, Figures and Problems
PHIL 1100 [1.0]	Looking at Philosophy
PHIL 1200 [0.5]	The Meaning of Life

PHIL 1301 [0.5]	Mind, World, and Knowledge
PHIL 1500 [1.0]	Contemporary Moral, Social and Religious Issues
PHIL 1550 [0.5]	Introduction to Ethics and Social Issues
PHIL 1610 [0.5]	Great Philosophical Ideas, Part 1
PHIL 1620 [0.5]	Great Philosophical Ideas, Part 2
PHIL 1700 [0.5]	Philosophy of Love and Sex
PHIL 2001 [0.5]	Introduction to Logic
PHIL 2003 [0.5]	Critical Thinking

Philosophy

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 2.0 credits in:	2.0
PHIL 2005 [1.0]	Ancient Philosophy: The Search for Wisdom
PHIL 3002 [0.5]	17th Century Philosophy
PHIL 3003 [0.5]	18th Century Philosophy
2. 1.0 credit in:	1.0
PHIL 2010 [0.5]	Issues in Theoretical Philosophy
PHIL 2020 [0.5]	Issues in Practical Philosophy
3. 0.5 credit from:	0.5
PHIL 2001 [0.5]	Introduction to Logic
PHIL 2003 [0.5]	Critical Thinking
4. 1.5 credits in Ethics, Society and Aesthetics at the 2000-level or higher	1.5
5. 1.5 credits in Language, Mind and World at the 2000-level or higher	1.5
6. 1.5 credits in PHIL	1.5
7. 2.0 credits in PHIL at the 4000-level or higher	2.0
B. Credits Not Included in the Major CGPA (10.0 credits)	
8. 8.0 credits not in PHIL	8.0
9. 2.0 credits in free electives	2.0
Total Credits	20.0

Philosophy with Concentration in Philosophy, Ethics and Public Affairs

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.0 credits)

1. 1.0 credit in:	1.0
PHIL 2010 [0.5]	Issues in Theoretical Philosophy
PHIL 2020 [0.5]	Issues in Practical Philosophy
2. 2.0 credits from:	2.0
PHIL 2101 [0.5]	History of Ethics
PHIL 3320 [0.5]	Contemporary Ethical Theory
PHIL 3330 [0.5]	Topics in History of Social and Political Philosophy
PHIL 3340 [0.5]	Topics in Contemporary Social and Political Philosophy
PHIL 3350 [0.5]	Philosophy, Ethics, and Public Affairs
PHIL 3360 [0.5]	Philosophy, Economics, and Public Policy
3. 2.0 credits in Philosophy from:	2.0
PHIL 1500 [1.0]	Contemporary Moral, Social and Religious Issues (satisfies two of four requirements)

PHIL 1550 [0.5]	Introduction to Ethics and Social Issues	
PHIL 2103 [0.5]	Philosophy of Human Rights	
PHIL 2106 [0.5]	Information Ethics	
PHIL 2201 [0.5]	Introduction to Marxist Philosophy	
PHIL 2202 [0.5]	Topics in Marxist Philosophy	
PHIL 2306 [0.5]	Philosophy and Feminism	
PHIL 2307 [0.5]	Gender and Philosophy	
PHIL 2380 [0.5]	Introduction to Environmental Ethics	
PHIL 2408 [0.5]	Bioethics	
PHIL 2901 [0.5]	Truth and Propaganda	
4. 1.5 credits in History of Philosophy		1.5
5. 1.0 credit in Language, Mind and World		1.0
6. 2.0 credits in PHIL at the 4000 level or above		2.0
7. 2.5 credits in PHIL		2.5
B. Credits Not Included in the Major CGPA (8.0 credits)		
Please note that some of the following courses may have PSCI prerequisites.		
8. 1.0 credit in:		1.0
PSCI 2301 [0.5]	History of Political Thought I	
PSCI 2302 [0.5]	History of Political Thought II	
9. 2.0 credits from:		2.0
PSCI 3109 [0.5]	The Politics of Law and Morality	
PSCI 3300 [0.5]	Politics and Literature	
PSCI 3302 [0.5]	Comparative Political Thought	
PSCI 3303 [0.5]	Feminist Political Theory	
PSCI 3307 [0.5]	Politics of Human Rights	
PSCI 3308 [0.5]	Modern Political Thought	
PSCI 3309 [0.5]	Modern Ideologies	
PSCI 3311 [0.5]	History of Muslim Political Thought	
PSCI 3312 [0.5]	Enlightenment Political Thought	
PSCI 3709 [0.5]	Ancient and Medieval Political Thought	
PSCI 4302 [0.5]	Political Thought in the Modern Muslim Middle East	
PSCI 4311 [0.5]	Political Theories of Democracy and Empire I	
PSCI 4312 [0.5]	Political Theories of Democracy and Empire II	
10. 2.0 credits not in PHIL		2.0
11. 3.0 credits in free electives		3.0
Total Credits		20.0

Philosophy

B.A. Combined Honours (20.0 credits)

Combined Honours programs are available in Philosophy with any other Carleton program that allows for Combined Honours and can accommodate 7.0 credits in Philosophy.

A. Credits Included in the Philosophy CGPA (7.0 credits)

1. 1.5 credits in:		1.5
History of Philosophy or		
HUMS 2000 [1.0]	Reason and Revelation (and .5 credit in History of Philosophy, only applicable to B.Hum)	
2. 1.0 credit in:		1.0
PHIL 2010 [0.5]	Issues in Theoretical Philosophy	

PHIL 2020 [0.5]	Issues in Practical Philosophy	
3. 0.5 credit from:		0.5
PHIL 2001 [0.5]	Introduction to Logic	
PHIL 2003 [0.5]	Critical Thinking	
4. 1.0 credit in Language, Mind, and World		1.0
5. 1.0 credit in Ethics, Society and Aesthetics		1.0
6. 1.0 credit in PHIL at the 4000-level or above		1.0
7. 1.0 credit in PHIL or 1.0 credit from:		1.0
FYSM 1210 [0.5]	Special Topics in Philosophy	
FYSM 1211 [0.5]	Looking at Philosophy	
FYSM 1212 [0.5]	Contemporary Moral, Social, and Religious Issues	
FYSM 1300 [1.0]	History of Philosophy	
B. Additional Credit Requirements (13.0 credits):		13.0
8. The requirements of the other discipline must be satisfied		
9. Sufficient free electives to make 20.0 credits in total for the program		
Total Credits		20.0

Philosophy

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (6.0 credits)

1. 1.0 credit in History of Philosophy		1.0
2. 1.0 credit in PHIL, which may be satisfied by:		1.0
FYSM 1210 [0.5]	Special Topics in Philosophy	
FYSM 1211 [0.5]	Looking at Philosophy	
FYSM 1212 [0.5]	Contemporary Moral, Social, and Religious Issues	
FYSM 1300 [1.0]	History of Philosophy	
3. 0.5 credit from:		0.5
PHIL 2001 [0.5]	Introduction to Logic	
PHIL 2003 [0.5]	Critical Thinking	
4. 0.5 credit in 3000-level or higher PHIL		0.5
5. 3.0 credits in 2000-level or higher PHIL		3.0
B. Credits Not Included in the Major CGPA (9.0 credits)		
6. 6.0 credits not in PHIL		6.0
7. 3.0 credits in free electives		3.0
Total Credits		15.0

Minor in Philosophy (4.0 credits)

Requirements

1. 2.0 credit in PHIL at the 2000-level or above		2.0
2. 0.5 credit from:		0.5
PHIL 2001 [0.5]	Introduction to Logic	
PHIL 2003 [0.5]	Critical Thinking	
3. 0.5 credit in PHIL at the 3000-level or above		0.5
4. 1.0 credit in PHIL or 1.0 credit from:		1.0
FYSM 1210 [0.5]	Special Topics in Philosophy	
FYSM 1211 [0.5]	Looking at Philosophy	
FYSM 1212 [0.5]	Contemporary Moral, Social, and Religious Issues	
FYSM 1300 [1.0]	History of Philosophy	
5. The remaining requirements of the major discipline(s) and degree must be satisfied		
Total Credits		4.0

Mention : Français (4.0 credits)

Students in the Philosophy B.A. or the Philosophy B.A. Honours program may qualify for the notation *Mention : Français* by fulfilling the requirements outlined below. Those wishing to pursue this option should consult with the Department's Undergraduate Supervisor, whose approval is required for all courses under *Mention : Français*.

Philosophy courses presented in fulfilment of *Mention : Français* requirements can double as courses to satisfy the Philosophy B.A. or the Philosophy B.A. Honours requirements.

To graduate with the notation *Mention : Français*, Philosophy students must include in their program the following:

1. **1.0 credit in** French language chosen in consultation with the French Department to perfect the student's French language skills. 1.0
2. 1.0 credit taught in French at Carleton and concerned with the study of the heritage and culture of French Canada 1.0
3. **1.0 credit from:** 1.0
 - PHIL 3901 [0.5] Independent Study
 - PHIL 3902 [0.5] Independent Study
 - PHIL 3903 [0.5] Independent Study
 - PHIL 3906 [0.5] Independent Study
 - PHIL 3907 [0.5] Independent Study
 - PHIL 3908 [0.5] Independent Studywith philosophical works read in French and papers submitted in French to be assessed by two members of the Philosophy Department knowledgeable in the language, or 1.0 credit in Philosophy at the 3000-level taught in French at another university and acceptable to the Philosophy Department. In addition, Philosophy students in B.A. Honours or Combined Honours must include:
 - 4. **1.0 credit from** special projects: 1.0
 - PHIL 4900 [1.0] Tutorial
 - PHIL 4901 [0.5] Tutorial
 - PHIL 4902 [0.5] Tutorial
 - PHIL 4903 [0.5] Tutorial
 - PHIL 4904 [0.5] Tutorial
 - PHIL 4906 [0.5] Tutorialin French, supervised by a member of the Department of Philosophy, or earned in a Philosophy seminar or seminars at the 4000-level taught in French at another university and acceptable to the Philosophy Department. Students must, in addition, satisfy the Honours requirement of 2.0 Carleton credits at the 4000- or 5000-level in Philosophy (1.0 for Combined Honours).
 - 5. Combined Honours students must meet the *Mention : Français* requirements of both Honours disciplines.

Total Credits 4.0

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the

process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS,

INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAPM, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during

their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in Good Standing.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section "English Language Requirements" in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Philosophy (PHIL) Courses

PHIL 1000 [0.5 credit]

Introductory Philosophy: Fields, Figures and Problems

What is metaphysics? Who was Socrates? What is Freedom? This introduction sketches many branches of philosophy and the important problems associated with each. It introduces great philosophers, present and past, and traces enduring philosophical themes.

Precludes additional credit for FYSM 1208 (no longer offered), FYSM 1211, PHIL 1100. This course is not suitable for students with previous formal study of philosophy.

PHIL 1100 [1.0 credit]

Looking at Philosophy

Introduction to philosophy: the nature of logical thinking; the existence of God; the objectivity of values; the meaning of life; free will, determinism and responsibility; the relation between mind and body; immortality; the possibility of knowledge. This course is not intended for Majors.

Precludes additional credit for FYSM 1208 (no longer offered), FYSM 1211 and PHIL 1000.

Lectures three hours a week.

PHIL 1200 [0.5 credit]

The Meaning of Life

An introduction to concerns expressed by the perennial philosophical question, "What is the meaning of life?" Students will be familiarized with the major philosophical approaches to life's meaning through a consideration of various contemporary and late modern works in the philosophy of life.

Lectures three hours a week.

PHIL 1301 [0.5 credit]

Mind, World, and Knowledge

Introduction to a variety of philosophical works, including contemporary, on such topics as: the nature of being, the mental, the external, consciousness, perception, experience, meaning, truth, the nature of knowledge, scientific understanding, and how language and thought represent the world.

Precludes additional credit for PHIL 1006 (no longer offered), PHIL 1501 (no longer offered).

Lectures three hours per week.

PHIL 1500 [1.0 credit]

Contemporary Moral, Social and Religious Issues

Moral theories, atheism or theism, feminism, and free will. Moral arguments concerning abortion, affirmative action, racism, human rights, children's rights, world hunger, capital punishment, euthanasia, censorship, pornography, legal paternalism, animal rights and environmental protection.

Precludes additional credit for FYSM 1209 and PHIL 1550.

Lectures three hours a week.

PHIL 1550 [0.5 credit]

Introduction to Ethics and Social Issues

An introduction to understanding, assessing, and formulating ethical arguments concerning controversial issues. Particular issues studied may include, world hunger, capital punishment, terrorism, euthanasia, abortion, pornography and hate speech, animal rights, the environment, and topics in theories of race, gender and disability.

Precludes additional credit for FYSM 1212 and PHIL 1500.

Lectures three hours a week.

PHIL 1610 [0.5 credit]**Great Philosophical Ideas, Part 1**

Major figures and developments in philosophy from the early Greeks to the year 1400. Descriptive and comparative approach, providing an understanding of the place of philosophers in the history of thought. Appreciation of critical reasoning is included for comprehending philosophical developments. Precludes additional credit for FYSM 1300, PHIL 1600. Lectures three hours a week.

PHIL 1620 [0.5 credit]**Great Philosophical Ideas, Part 2**

Major figures and developments in philosophy after the year 1400. Descriptive and comparative approach, providing an understanding of the place of philosophers in the history of thought. Appreciation of critical reasoning is included for comprehending philosophical developments. Precludes additional credit for FYSM 1300, PHIL 1600. Lectures three hours a week.

PHIL 1700 [0.5 credit]**Philosophy of Love and Sex**

A survey of philosophical classics, on themes of romantic love, self-love, altruistic love, sexuality, eroticism and the passion/reason dichotomy, from Plato's Symposium to Foucault's History of Sexuality; and an examination of related contemporary issues in light of these perspectives. Lectures three hours a week.

PHIL 2001 [0.5 credit]**Introduction to Logic**

An introduction to the techniques and philosophical implications of formal logic with emphasis on translation of expressions into symbolic form, testing for logical correctness, the formulation and application of rules of inference, and the relation between logic and language. Open to first-year students. Lectures three hours a week. Tutorials may be offered in selected terms.

PHIL 2003 [0.5 credit]**Critical Thinking**

Assessment of reasoning and the development of cogent patterns of thinking. Reference to formal logic is minimal. Practice in criticizing examples of reasoning and in formulating one's own reasons correctly and clearly. Open to first-year students. Lectures three hours a week.

PHIL 2005 [1.0 credit]**Ancient Philosophy: The Search for Wisdom**

An exploration of ancient philosophy as a search for wisdom and happiness from its Presocratic beginnings in Greece to its development in the Hellenistic world and Imperial Rome. Emphasis on philosophy as a contemplative activity and as a way of life. Also listed as CLCV 2105. Precludes additional credit for PHIL 2006, CLCV 2006, PHIL 2007, CLCV 2007 (no longer offered). Prerequisite(s): 0.5 credit in PHIL, or second-year standing. Lectures three hours a week.

PHIL 2010 [0.5 credit]**Issues in Theoretical Philosophy**

Issues drawn from epistemology, metaphysics, philosophy of mind, philosophy of language, and related fields will be examined through careful study of significant philosophical texts after 1900, along with some ensuing debates. Prerequisite(s): enrolment in Honours or Combined Honours Philosophy programs, or in philosophy, Ethics, and Public Affairs, or permission of the Department. Lectures and discussion three hours a week.

PHIL 2020 [0.5 credit]**Issues in Practical Philosophy**

Issues drawn from ethics, social and political philosophy, and related fields will be examined through careful study of significant philosophical texts, along with some ensuing debates. Includes: Experiential Learning Activity. Prerequisite(s): enrolment in Honours or Combined Honours Philosophy programs, or in philosophy, Ethics, and Public Affairs, or permission of the Department. Lectures and discussion three hours a week.

PHIL 2101 [0.5 credit]**History of Ethics**

An introduction to ethical theories through a study of some of the major figures in moral philosophy, such as Aristotle, Hume, Kant and Mill. Prerequisite(s): 0.5 credit in philosophy or second-year standing. Lectures three hours a week.

PHIL 2103 [0.5 credit]**Philosophy of Human Rights**

Philosophical introduction to human rights sources, concepts, justifications, consequences, and challenges to them. Evolution of selected human rights as a) demands made in political struggles; b) declarations supported by moral or political principles and arguments; c) codes ratified and implemented by governments and international organizations. Prerequisite(s): a course in philosophy or second-year standing. Lectures three hours a week.

PHIL 2106 [0.5 credit]**Information Ethics**

An exploration of ethical issues that arise in the Age of Information. Topics to be discussed may include technology, surveillance and privacy, social media and privacy, social media and cognitive bias, bias in algorithms, AI ethics, intellectual property, and freedom of expression and assembly.

Precludes additional credit for PHIL 2104 (no longer offered).

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2120 [0.5 credit]**Philosophy of Technology**

Philosophical investigations of the nature of technology and the influence it has on our relationships with others, the natural world, and ourselves. Key themes may include the relation between technology and science and the role of technology in personal identity, social justice, and well-being.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2201 [0.5 credit]**Introduction to Marxist Philosophy**

The evolution of Marx's social and political views in the setting of 18th - and 19th - century anarchism, liberalism and conservatism. Themes of humanism, freedom, rights, the state, democracy, alienation, and inequality, primarily as they develop into the theory of historical materialism.

Precludes additional credit for PHIL 2200.

Prerequisite(s): 0.5 credit in philosophy or permission of the Department.

Lectures three hours a week.

PHIL 2202 [0.5 credit]**Topics in Marxist Philosophy**

The dialectical materialism of Marx, Engels, and Lenin is compared with traditional materialist, idealist, and mechanist philosophy. Marxist views on issues such as equality, ethical objectivity, human well-being, matter and mind, the existence of God, knowledge versus skepticism, freedom of the will, and justice.

Precludes additional credit for PHIL 2200.

Prerequisite(s): PHIL 2201 or 0.5 credit in the history of philosophy at the 2000-level or above.

Lectures three hours a week.

PHIL 2301 [0.5 credit]**Introduction to the Philosophy of Science**

Philosophical issues arising out of the attempt to understand the world scientifically. Topics may include: scientific methodology, revolution, observation, explanation, causation, induction, reduction, the difference between natural and social scientific understanding, realism, instrumentalism, constructivism.

Prerequisite(s): a course in philosophy or second-year standing.

PHIL 2306 [0.5 credit]**Philosophy and Feminism**

A study of philosophical issues arising from feminism. The course includes discussions of the historical roots of feminism, the role of reason and emotion, key concepts such as oppression, sexism, equality and difference, feminism and philosophies of race and of disability, and selected moral/political issues.

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2307 [0.5 credit]**Gender and Philosophy**

Topics may include gender and sex in the history of philosophy, intersections between the politics and theories of gender, sexuality, and race, the place of the body in philosophical theory, the influence of gender and sex on science/social science, and queer/trans issues and politics.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2320 [0.5 credit]**Children, Literature, and Philosophy**

An exploration of issues at the nexus of philosophy, children's literature, and childhood studies. Topics may include an examination of children's books and young adult literature through a philosophical lens, as well as a critical examination of the "philosophy with children" movement.

Includes: Experiential Learning Activity

Prerequisite(s): 0.5 credit in philosophy or second-year standing in a philosophy program, or permission of the department.

Lectures three hours a week.

PHIL 2330 [0.5 credit]**Happiness, Well-being, and the Good Life**

A philosophical exploration of what makes a good human life. Topics may include the role of happiness, well-being, and flourishing in a good life, the relations between these aspects, and the extent to which they depend on luck and social considerations.

Lectures three hours a week.

PHIL 2340 [0.5 credit]**Philosophy and Popular Culture**

Philosophy is all around us, it permeates culture. This course explores philosophical questions through the lens of popular culture. The material used may include films, shows, music, novels, video games, advertising, comic books, and so on.

Lectures three hours a week.

PHIL 2380 [0.5 credit]**Introduction to Environmental Ethics**

Major questions in environmental ethics: How should human beings view their relationship to the rest of nature? Is responsible stewardship of the environment compatible with current technology? Must future generations be protected? Do animals, other life forms, endangered species, ecosystems and/or the biosphere have value/ rights?.

Precludes additional credit for PHIL 1804.

Lectures three hours a week.

PHIL 2405 [0.5 credit]**Philosophy of the Paranormal**

Examination of claims, concepts, theories and methods in parapsychology. Their scientific character and the relation of paranormal phenomena to philosophical issues such as survival of death, human nature, time, space, causality and perception.

Prerequisite(s): 0.5 credit in philosophy or permission of the Department.

Lectures three hours a week.

PHIL 2408 [0.5 credit]**Bioethics**

Ethical and political issues in medicine, public health, biotechnology, and the life sciences. Topics may include reproductive ethics, research on human subjects, animal research and treatment, justice and health care, physician-patient relationships, death and the end of life, and genetic engineering.

Precludes additional credit for PHIL 3408.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week. Tutorials may be offered in selected terms.

PHIL 2501 [0.5 credit]**Introduction to Philosophy of Mind**

An introduction to major philosophical issues concerning human cognition. Topics may include: the relation of mind to body, knowledge of other minds, the relation of mental states to personhood and personal identity, mental illness, consciousness, intentionality, action, mental realism.

Precludes additional credit for PHIL 2502.

Prerequisite(s): a course in philosophy or second-year standing.

PHIL 2504 [0.5 credit]**Language and Communication**

Some of the central topics in the study of language and communication as pursued by linguists and philosophers. The nature of meaning; the connections between language, communication and cognition; language as a social activity.

Also listed as COMS 2504, LING 2504.

Precludes additional credit for COMM 2800, LALS 2504, LALS 2800 and PHIL 2800.

Prerequisite(s): second-year standing.

Lectures three hours a week.

PHIL 2520 [0.5 credit]**Introduction to Philosophical Logic**

An introduction to features of rational thinking activity, its expression, and its relation to the world, focusing on such topics as predication, truth, negation, necessity, entailment, logical form, or quantification.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2540 [0.5 credit]**Personal Identity and the Self**

Philosophical perspectives on personal identity, the self, and the underlying issue of the relationship of the mind to the body. Both philosophical and psychological concepts of identity are discussed, as are related issues such as memory, introspection, and self-knowledge.

Precludes additional credit for PHIL 2502.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2550 [0.5 credit]**Moral Psychology**

An examination of psychological underpinnings of morality, focusing on studies at the intersection of philosophy, psychiatry, and psychology.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2601 [0.5 credit]**Philosophy of Religion**

A study of philosophical issues arising from religion. Topics may include: arguments for and against the existence of God, religious experience, death and the afterlife, miracles, God and evil, the relationship between religion and science, and the relationship between religion and ethics.

Also listed as RELI 2738.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2700 [0.5 credit]**Asian Philosophy**

An examination of South Asian and East Asian philosophical texts, from the period of the Upanishads and early Buddhism in India to modern philosophical movements. Historical sources may include Hindu, Buddhist, Jain, Confucian or Taoist texts, with a focus on metaphysical, epistemological or ethical themes.

Prerequisite(s): second-year standing.

Lectures three hours a week. May be offered as an online course in selected terms.

PHIL 2807 [0.5 credit]**Philosophy of Art**

Philosophical approaches to the study of art. Topics such as: the nature of art and artistic value; representation and symbolism in art; art and artifice; art and the emotions; art, culture and ideology; post-structuralism and art; theories of creativity; relationship between artworks and audiences.

Also listed as ARTH 2807.

Lecture three hours a week.

PHIL 2901 [0.5 credit]**Truth and Propaganda**

Ancient and modern techniques of persuasion from analytical, ethical and jurisprudential perspectives. Objectivity and bias, advertising and public relations ethics, the viability of democracy in the light of pressures on and within the modern mass media.

Precludes additional credit for PHIL 2900 (no longer offered).

Prerequisite(s): 0.5 credit in PHIL or second-year standing.

Lectures three hours per week.

PHIL 3000 [0.5 credit]**Topics in Ancient Philosophy**

A study of philosophers, texts, problems and issues in ancient philosophy, generally with a focus on Plato and Aristotle.

Also listed as CLCV 3011.

Prerequisite(s): 0.5 credit in philosophy and second-year standing, or permission of the department.

Lectures three hours a week.

PHIL 3001 [0.5 credit]**Early Greek Philosophy**

A study of the pre-Socratic Greek philosophers and of the Sophists and Socrates.

Also listed as CLCV 3001.

Prerequisite(s): CLCV 2105 or PHIL 2005 or permission of the Department.

Lectures three hours a week.

PHIL 3002 [0.5 credit]**17th Century Philosophy**

European philosophy of the 17th century. Representative works of writers such as Francis Bacon, Descartes, Spinoza, Leibniz, and Locke.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the department.

Lectures three hours a week.

PHIL 3003 [0.5 credit]**18th Century Philosophy**

European philosophy of the 18th century. Representative works of writers such as Berkeley, Hume, and Kant.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the department.

Lectures three hours a week.

PHIL 3005 [0.5 credit]**19th Century Philosophy**

European philosophy in the 19th century. May include Hegel, Marx, Schopenhauer, Kierkegaard, Nietzsche, Mill. Precludes additional credit for PHIL 3007.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the Department.

Lectures three hours a week.

PHIL 3009 [0.5 credit]**Topics in European Philosophy**

A study of philosophers, texts, problems and issues in any period of European philosophy.

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

Lectures three hours a week.

PHIL 3010 [0.5 credit]**Global Philosophical Traditions**

A study of philosophers, texts, and doctrines beyond the Western tradition. Traditions covered will vary but may include Asian, African, Muslim or Indigenous philosophy, possibly with critical comparison to Western counterparts. Precludes additional credit for PHIL 2004.

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

Lectures three hours a week.

PHIL 3102 [0.5 credit]**Philosophy of Law: The Logic of Law**

Legal reasoning and analysis of concepts of particular significance to the law, including justice, rights and duties, liability, punishment, ownership and possession.

Also listed as LAWS 3102.

Prerequisite(s): 0.5 credit in philosophy or permission of the Department.

Lectures three hours a week.

PHIL 3104 [0.5 credit]**The Roots of Analytic Philosophy**

In the context of the work of such writers as Frege and Bradley, a discussion of early philosophical works of Russell, Moore and Wittgenstein. In addition some early representatives of positivism and pragmatism may be examined.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the department.

Lectures and seminar three hours a week.

PHIL 3140 [0.5 credit]**Epistemology**

Fundamental issues concerning the relation between evidence, rationality, and knowledge. Topics may include: skepticism, the nature of belief, the structure of justification, the relative contributions of reason and sense experience to knowledge, innate knowledge, the problem of induction, and the knowledge of other minds.

Precludes additional credit for PHIL 2300.

Prerequisite(s): 0.5 credit in philosophy and third-year standing in a philosophy program or permission of the department.

PHIL 3150 [0.5 credit]**Metaphysics**

Philosophical issues concerning the fundamental nature of being. Topics may include: time and temporality, space, substance, universals/particulars, identity, causation, freedom/determinism, the nature of norms.

Precludes additional credit for PHIL 2302.

Prerequisite(s): 0.5 credit in philosophy and third-year standing in a philosophy program, or permission of the department.

PHIL 3301 [0.5 credit]**Issues in the Philosophy of Science**

Selected topic(s) in the philosophy of science, such as its relationship to values, or in the philosophy of a particular science (such as philosophy of mathematics, philosophy of physics, philosophy of biology, and philosophy of the social sciences).

Prerequisite(s): PHIL 2301 or permission of the department.

Lectures three hours a week.

PHIL 3306 [0.5 credit]**Symbolic Logic**

A review of the basic techniques of propositional and predicate logic. Natural deduction and consistency trees. Soundness and completeness. Alternative semantics. Extensions to basic logic: identity, modal logic with possible world semantics, three valued systems, deontic logic.

Precludes additional credit for PHIL 3305.

Prerequisite(s): PHIL 2001 or permission of the Department.

Lectures three hours a week.

PHIL 3320 [0.5 credit]**Contemporary Ethical Theory**

Critical study of modern ethical theories, their views on the nature of morality and the justification of moral claims. Topics may include utilitarianism, libertarianism, communitarianism, egoism, neo-Kantianism, virtue ethics, social contract ethics, feminist ethics, and moral rights.

Precludes additional credit for PHIL 2102.

Prerequisite(s): PHIL 2020 or PHIL 2101 or permission of the department.

Lectures three hours a week.

PHIL 3330 [0.5 credit]**Topics in History of Social and Political Philosophy**

A critical examination of selected topics and perspectives in the history of social and political philosophy.

Precludes additional credit for PHIL 3300.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 3340 [0.5 credit]**Topics in Contemporary Social and Political Philosophy**

A critical examination of some contemporary approaches to topics in social and political philosophy, such as liberalism, feminism, contractarianism, Marxism, libertarianism, and communitarianism.

Precludes additional credit for PHIL 3300.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 3350 [0.5 credit]**Philosophy, Ethics, and Public Affairs**

Advanced study of a set of public policy issues, a particular theory or group of theories, or a particular philosopher, concerning philosophical and ethical aspects of public affairs.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

PHIL 3360 [0.5 credit]**Philosophy, Economics, and Public Policy**

The course explores issues at the intersection of philosophy and economics, with a special focus on socially and politically relevant issues. Topics may include: efficiency, cooperation, equity and distributive justice, commodification and the moral limits of markets.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

PHIL 3380 [0.5 credit]**Environments, Technology and Values**

Advanced treatment of ethical issues concerning technologies and environments, including: sustainable development, women and the environment, biological diversity, intrinsic or natural value or rights of non-humans, humans' relation to the rest of the natural world, obligations to future generations, liberty versus equality.

Precludes additional credit for PHIL 2804.

Prerequisite(s): PHIL 1804 or PHIL 2380 and third-year standing, or permission of the Department.

Lectures three hours a week.

PHIL 3450 [0.5 credit]**Topics in Aesthetics**

Topics may include theories of aesthetic norms and valuation from ancient Greece onward, or applications of aesthetic theory to various genres of art.

Precludes additional credit for PHIL 2400, PHIL 3400, PHIL 3401, and PHIL 3402.

Prerequisite(s): At least 0.5 credit in philosophy, or HUMS 1000, or ARTH 2807, or permission of the Department.

Seminar two hours a week.

PHIL 3501 [0.5 credit]**Philosophy of Cognitive Science**

Philosophical issues arising from cognitive science.

Topics may include: the proper methodology for studying the mind, the very possibility of a "science of mind", the computer model of the mind and reactions to it.

Prerequisite(s): PHIL 2501 or PHIL 2502 or second-year standing in Cognitive Science, or permission of the department.

PHIL 3502 [0.5 credit]**Mind and Action**

Philosophical thought concerning the relation between mentality and agency. Topics may include: the relation between belief, desire, and behaviour; rationality and normativity; representing and doing; subjectivity and intersubjectivity; physical and psychological laws; mental causation. Authors may include: Wittgenstein, Heidegger, Ryle, Sellars, Anscombe, Davidson, Taylor, McDowell.

Prerequisite(s): PHIL 2501 or PHIL 2502, or permission of the Department.

PHIL 3504 [0.5 credit]**Pragmatics**

The study of language use in its conversational and cultural contexts. Topics include: conversational implicature; deixis; the semantics-pragmatics boundary; speaker's reference; speech acts. May include cross-cultural pragmatics.

Also listed as LING 3504.

Precludes additional credit for LALS 2800 [1.0], LALS 3504, MCOM 2800 [1.0], MCOM 3504 and PHIL 2800 [1.0].

Prerequisite(s): third-year standing, and one of FYSM 1206, LALS 1000, LALS 1001, LING 1001, PHIL 2001, PHIL/LALS/LING/COMM/MCOM 2504 or LALS/LING 3505/PHIL 3506; or permission of the Department of Philosophy or School of Linguistics and Applied Language Studies.

Lectures three hours a week.

PHIL 3506 [0.5 credit]**Semantics**

Study of language meaning. Lexical meaning and meanings of larger linguistic expressions, including nominal units, verbal units, and sentences. Meaning relationships between utterances. Relationship between linguistic meaning (semantics) and contextual meaning (pragmatics). Basic formal treatments of semantics.

Also listed as LING 3505.

Precludes additional credit for LALS 3505.

Prerequisite(s): third-year standing, and one of LALS 1000, LALS 1001, LING 1001, PHIL 2001, PHIL/LALS/LING/COMM/MCOM 2504 or PHIL/LALS/LING 3504; or permission of the Department of Philosophy or School of Linguistics and Applied Language Studies.

Lectures three hours a week.

PHIL 3530 [0.5 credit]**Philosophy of Language**

An intensive introduction to philosophy of language. Topics may include meaning, reference and truth, speech acts, the nature of concepts, language learning, metaphor, compositionality, context-sensitivity.

Prerequisite(s): third-year standing, and one of FYSM 1206, LALS 1000, LALS 1001, LING 1001, PHIL 2001, PHIL/LALS/LING/COMM/MCOM 2504 or LALS/LING 3504 or LALS/LING 3505/PHIL 3506; or permission of the department.

Lectures three hours a week.

PHIL 3540 [0.5 credit]**Philosophy of Emotions**

Emotions are central to human experience and widely studied in philosophy and science. In order to better understand them and their role in our lives, this course explores philosophical questions about emotions as they arise in philosophy of mind and cognitive science, ethics, and aesthetics.

Prerequisite(s): PHIL 2501, or permission of the department.

Lectures three hours a week.

PHIL 3901 [0.5 credit]**Independent Study**

Essays and/or examinations based on a list of readings provided by the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3902 [0.5 credit]**Independent Study**

Essays and/or examinations based on a list of readings provided by the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3903 [0.5 credit]**Independent Study**

Essays and/or examinations based on a list of readings provided by the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3906 [0.5 credit]**Independent Study**

Essays and/or examinations based on a bibliography constructed by the student in consultation with the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3907 [0.5 credit]**Independent Study**

Essays and/or examinations based on a bibliography constructed by the student in consultation with the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3908 [0.5 credit]**Independent Study**

Essays and/or examinations based on a bibliography constructed by the student in consultation with the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 4003 [0.5 credit]**Seminar in philosophy Before the Modern Period**

Detailed study of selected philosophers or issues in philosophy before the modern period.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4004 [0.5 credit]**Seminar in philosophy Before the Modern Period**

Detailed study of selected philosophers or issues in philosophy before the modern period.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4005 [0.5 credit]**Seminar in Modern Philosophy**

Detailed study of selected philosophers or issues in modern philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4006 [0.5 credit]**Seminar in Modern Philosophy**

Detailed study of selected philosophers or issues in modern philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4007 [0.5 credit]**Seminar in Contemporary Philosophy**

Detailed study of selected philosophers or issues in contemporary philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5500, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4008 [0.5 credit]**Seminar in Contemporary Philosophy**

Detailed study of selected philosophers or issues in contemporary philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5500, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4055 [0.5 credit]**Lexical Semantics**

Study of the meaning of words. Topics may include lexical decomposition, meaning variation, lexical relations, and lexical aspect.

Also listed as LING 4510.

Precludes additional credit for LING 4055 (no longer offered).

Prerequisite(s): LING 3505 or PHIL 3506.

Also offered at the graduate level, with different requirements, as LING 5510 and PHIL 5660, for which additional credit is precluded.

Seminars three hours a week.

PHIL 4100 [0.5 credit]**Special Topic**

Detailed study of a special topic in philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5000, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4210 [0.5 credit]**Seminar in Philosophy of Language or Linguistics**

Detailed study of selected issues or the work of selected philosophers in philosophy of language or on philosophical topics in linguistics.

Prerequisite(s): eligibility for fourth year standing in a Philosophy Honours programme or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5200, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4220 [0.5 credit]**Seminar in philosophy of Mind or Cognition**

Detailed study of selected issues or the work of selected philosophers in philosophy of mind or philosophical aspects of cognition.

Prerequisite(s): eligibility for fourth year standing in a Philosophy Honours programme or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5200, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4230 [0.5 credit]**Seminar in Metaphysics, Epistemology, or Philosophy of Science**

Detailed study of selected issues or the work of selected philosophers in metaphysics, epistemology, or philosophy of science.

Prerequisite(s): eligibility for fourth year standing in a Philosophy Honours programme or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5250, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4300 [0.5 credit]**Seminar in Ethical Theory or Meta-Ethics**

Detailed study of selected issues pertaining to ethical theory or issues of meta-ethics such as realism, relativism, moral knowledge.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5300, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4320 [0.5 credit]**Seminar in Ethics or Moral Philosophy**

Detailed study of selected issues in ethics or moral philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5350, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4330 [0.5 credit]**Seminar in Social or Political Philosophy**

Detailed study of selected issues in social or political philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5350, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4403 [0.5 credit]**Special Topic in Applied Ethics**

Detailed study of a special topic in applied ethics.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4404 [0.5 credit]**Special Topic in Applied Ethics**

Detailed study of a special topic in applied ethics.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4405 [0.5 credit]**Special Topic in Aesthetics or Philosophy of Art**

Detailed study of a special issue or a single author in aesthetics and/or philosophy of art.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4406 [0.5 credit]**Special Topic in Aesthetics or Philosophy of Art**

Detailed study of a special issue or a single author in aesthetics and/or philosophy of art.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4407 [0.5 credit]**Special Topic in Philosophy of Law**

Detailed study of a special topic in philosophy of law.

Also listed as LAWS 4103.

Prerequisite(s): eligibility for fourth-year standing in a Law or Philosophy Honours program or permission of either Department.

Seminars three hours a week.

PHIL 4408 [0.5 credit]**Special Topic in Philosophy of Law**

Detailed study of a special topic in philosophy of law.

Also listed as LAWS 4104.

Prerequisite(s): eligibility for fourth-year standing in a Law or Philosophy Honours program or permission of either Department.

Seminars three hours a week.

PHIL 4503 [0.5 credit]**Special Topic in Philosophy of Computing**

Detailed study of a special topic in philosophy of computing.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4504 [0.5 credit]**Special Topic in Philosophy of Computing**

Detailed study of a special topic in philosophy of computing.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4505 [0.5 credit]**Formal Semantics**

Advanced topics in compositional semantics and its interfaces. Topics may include: logic, semantic types, lambda calculus, intentional contexts, possible world semantics, interfaces with syntax and pragmatics quantification, anaphora, presupposition, implicatures, scope and binding, and model theory.

Also listed as LING 4505.

Precludes additional credit for LALS 4507 (no longer offered).

Prerequisite(s): LALS 3505 or LING 3505 or PHIL 3506 or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Seminars three hours a week.

PHIL 4603 [0.5 credit]**Special Topic in Feminist Philosophy**

Detailed study of a special topic in feminist philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4604 [0.5 credit]**Special Topic in Feminist Philosophy**

Detailed study of a special topic in feminist philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4606 [0.5 credit]**Special Topic in Continental Philosophy**

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4607 [0.5 credit]**Special Topic in Continental Philosophy**

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4701 [0.5 credit]**Special Topic in Logic**

Detailed study of a special topic in Logic.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4702 [0.5 credit]**Special Topic in Logic**

Detailed study of a special topic in Logic.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4703 [0.5 credit]**Special Topic in Philosophical Logic**

Detailed study of a special topic in Philosophical Logic.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4704 [0.5 credit]**Special Topic in Philosophical Logic**

Detailed study of a special topic in Philosophical Logic.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4900 [1.0 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4901 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4902 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4903 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4904 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4906 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

Physics

This section presents the requirements for programs in:

- Physics (Astrophysics Stream) B.Sc. Honours
- Physics (Experimental Stream) B.Sc. Honours
- Physics (Theory Stream) B.Sc. Honours
- Physics B.Sc. Major
- Applied Physics B.Sc. Honours
- Mathematics and Physics B.Sc. Double Honours
- Biology and Physics B.Sc. Combined Honours
- Chemistry and Physics B.Sc. Combined Honours
- Minor in Physics

The Department of Physics also offers the program: Engineering Physics - B.Eng. Consult the Engineering program section for details about this program.

Program Requirements

Course Categories for Physics

The program descriptions below make use of the following course categories, which are defined in the B.Sc. Regulations section.

- Approved Courses Outside the Faculties of Science and Engineering and Design
- Free Elective

Physics (Astrophysics Stream)

B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.5 credits)

1. 1.0 credit from:	1.0
PHYS 1001 [0.5] Foundations of Physics I	
& PHYS 1002 [0.5] Foundations of Physics II	
PHYS 1003 [0.5] Introductory Mechanics and	
& PHYS 1004 [0.5] Thermodynamics	
Introductory Electromagnetism and	
Wave Motion	
PHYS 1007 [0.5] Elementary University Physics I	
& PHYS 1008 [0.5] Elementary University Physics II	
(with an average grade of B- or higher)	
2. 2.5 credits in:	2.5
PHYS 2202 [0.5] Wave Motion and Optics	
PHYS 2203 [0.5] Astronomy	
PHYS 2305 [0.5] Electricity and Magnetism	
PHYS 2401 [0.5] Thermal Physics	
PHYS 2604 [0.5] Modern Physics I	
3. 5.0 credits in:	5.0
PHYS 3009 [0.5] Third Year Physics Laboratory:	
Selected Experiments and	
Seminars with Observational	
Astronomy	
PHYS 3308 [0.5] Electromagnetism	
PHYS 3606 [0.5] Modern Physics II	
PHYS 3701 [0.5] Elements of Quantum Mechanics	
PHYS 3802 [0.5] Advanced Dynamics	
PHYS 3807 [0.5] Mathematical Physics I	
PHYS 4201 [0.5] Astrophysics	
PHYS 4202 [0.5] Cosmology	
PHYS 4409 [0.5] Thermodynamics and Statistical	
Physics	
PHYS 4707 [0.5] Introduction to Quantum Mechanics	
I	
4. 1.0 credit from:	1.0
a. PHYS 4907 plus 0.5 credit 4000-level PHYS	
b. PHYS 4908 plus 0.5 credit 4000-level PHYS	
c. PHYS 4909 [1.0]	
5. 0.5 credit in PHYS at the 4000-level or above	0.5
6. 0.5 credit in PHYS, COMP, MATH and/or STAT at the	0.5
3000-level or above	
B. Credits Not Included in the Major CGPA (9.5 credits)	
7. 1.0 credit from:	1.0
BIOL 1103 [0.5] Foundations of Biology I	
& BIOL 1104 [0.5] Foundations of Biology II	
CHEM 1001 [0.5] General Chemistry I	
& CHEM 1002 [0.5] General Chemistry II	
CHEM 1005 [0.5] Elementary Chemistry I	
& CHEM 1006 [0.5] Elementary Chemistry II	
ERTH 1006 [0.5] Exploring Planet Earth	
& EARTH 1009 [0.5] The Earth System Through Time	
8. 3.5 credits in:	3.5
MATH 1004 [0.5] Calculus for Engineering or Physics	

MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	
MATH 2107 [0.5]	Linear Algebra II	
MATH 3705 [0.5]	Mathematical Methods I	
STAT 3502 [0.5]	Probability and Statistics	
9. 0.5 credit in:		0.5
MATH 3800 [0.5]	Mathematical Modeling and Computational Methods	
10. 1.0 credits from:		1.0
COMP 1005 [0.5]	Introduction to Computer Science I	
& COMP 1006 [0.5]	Introduction to Computer Science II	
or		
ECOR 1606 [0.5]	Problem Solving and Computers	
& ECOR 2606 [0.5]	Numerical Methods	
11. 0.5 credit at the 2000-level or higher in COMP, MATH, or PHYS		0.5
12. 0.5 credit in:		0.5
NSCI 1000 [0.5]	Seminar in Science (or approved courses outside the faculties of Science and Engineering and Design)	
Approved courses outside the faculties of Science and Engineering and Design		
13. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design		1.5
14. 1.0 credit in free electives		1.0
Total Credits		20.0
Physics (Experimental Stream)		
B.Sc. Honours (20.0 credits)		
A. Credits Included in the Major CGPA (11.0 credits)		
1. 1.0 credit from:		1.0
PHYS 1001 [0.5]	Foundations of Physics I	
& PHYS 1002 [0.5]	Foundations of Physics II (recommended)	
PHYS 1003 [0.5]	Introductory Mechanics and	
& PHYS 1004 [0.5]	Thermodynamics	
	Introductory Electromagnetism and Wave Motion	
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II (with an average grade of B- or higher)	
2. 2.0 credits in:		2.0
PHYS 2202 [0.5]	Wave Motion and Optics	
PHYS 2305 [0.5]	Electricity and Magnetism	
PHYS 2401 [0.5]	Thermal Physics	
PHYS 2604 [0.5]	Modern Physics I	
3. 1.0 credit in:		1.0
ELEC 2501 [0.5]	Circuits and Signals	
ELEC 2507 [0.5]	Electronics I	
4. 4.5 credits in:		4.5
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars	
PHYS 3308 [0.5]	Electromagnetism	
PHYS 3606 [0.5]	Modern Physics II	

PHYS 3701 [0.5]	Elements of Quantum Mechanics	
PHYS 3802 [0.5]	Advanced Dynamics	
PHYS 3807 [0.5]	Mathematical Physics I	
PHYS 4409 [0.5]	Thermodynamics and Statistical Physics	
PHYS 4008 [0.5]	Fourth-Year Physics Laboratory: Selected Experiments and Workshop	
PHYS 4707 [0.5]	Introduction to Quantum Mechanics I	
5. 1.0 credit from:		1.0
a. PHYS 4907 [0.5] plus 0.5 credit 4000-level PHYS		
b. PHYS 4908 [0.5] plus 0.5 credit 4000-level PHYS		
c. PHYS 4909 [1.0]		
6. 1.0 credit in 4000-level or above PHYS (PHYS 4807 is recommended for 0.5 credit)		1.0
7. 0.5 credit in 3000-level or above PHYS, COMP, ELEC, MATH and/or STAT		0.5
B. Credits Not Included in the Major CGPA (9.0 credits)		
8. 1.0 credit from:		1.0
BIOL 1103 [0.5]	Foundations of Biology I	
& BIOL 1104 [0.5]	Foundations of Biology II	
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 1005 [0.5]	Elementary Chemistry I	
& CHEM 1006 [0.5]	Elementary Chemistry II	
ERTH 1006 [0.5]	Exploring Planet Earth	
& EARTH 1009 [0.5]	The Earth System Through Time	
9. 3.0 credits in:		3.0
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	
MATH 3705 [0.5]	Mathematical Methods I	
STAT 3502 [0.5]	Probability and Statistics	
10. 0.5 credit in:		0.5
MATH 3800 [0.5]	Mathematical Modeling and Computational Methods	
11. 1.0 credit from:		1.0
COMP 1005 [0.5]	Introduction to Computer Science I	
& COMP 1006 [0.5]	Introduction to Computer Science II	
or		
ECOR 1606 [0.5]	Problem Solving and Computers	
& ECOR 2606 [0.5]	Numerical Methods	
12. 0.5 credit at the 2000-level or higher in COMP, MATH, or PHYS		0.5
13. 0.5 credit from:		0.5
NSCI 1000 [0.5]	Seminar in Science	
Approved courses outside the faculties of Science and Engineering and Design		
14. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design		1.5
15. 1.0 credit in free electives		1.0
Total Credits		20.0

Physics (Theory Stream)

B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.5 credits)

1. 1.0 credit from: 1.0

PHYS 1001 [0.5] Foundations of Physics I
& PHYS 1002 [0.5] Foundations of Physics II
(recommended)

COMP 1005 [0.5] Introduction to Computer Science I	
--	--

ECOR 1606 [0.5]	Problem Solving and Computers	
12. 4.0 credits in:		4.0
a. (COMP 1006 and COMP 2401) or (SYSC 2006 and SYSC 2004)		
b. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design		
c. 1.5 credit in free electives		
13. 0.5 credit from:		0.5
NSCI 1000 [0.5]	Seminar in Science	
Approved courses outside the faculties of Science and Engineering and Design		
Total Credits		20.0

Mathematics and Physics

B.Sc. Double Honours (21.5 credits)

Note that the following courses have minimum grade requirements in their prerequisites. Refer to the section Course Prerequisites under the Mathematics and Statistics programs sections of the calendar.

MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis
MATH 2100 [1.0]	Algebra
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)

A. Credits Included in the Major CGPA (17.0 credits)

1. 7.5 credits in:		7.5
MATH 1052 [0.5]	Calculus and Introductory Analysis I	
MATH 1152 [0.5]	Introductory Algebra I	
MATH 1800 [0.5]	Introduction to Mathematical Reasoning	
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis	
MATH 2052 [0.5]	Calculus and Introductory Analysis II	
MATH 2100 [1.0]	Algebra	
MATH 2152 [0.5]	Introductory Algebra II	
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)	
MATH 3001 [0.5]	Real Analysis I (Honours)	
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)	
MATH 3057 [0.5]	Functions of a Complex Variable (Honours)	
MATH 3705 [0.5]	Mathematical Methods I	
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)	
2. 0.5 credit from:		0.5
MATH 3002 [0.5]	Real Analysis II (Honours)	
MATH 3003 [0.5]	Advanced Differential Calculus (Honours)	
MATH 3106 [0.5]	Introduction to Group Theory (Honours)	
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars	
PHYS 3606 [0.5]	Modern Physics II	
3. 1.0 credit in 4000-level or higher MATH, STAT		1.0

4. 1.0 credit from:		1.0
PHYS 1001 [0.5]	Foundations of Physics I	
& PHYS 1002 [0.5]	Foundations of Physics II (recommended)	
PHYS 1003 [0.5]	Introductory Mechanics and	
& PHYS 1004 [0.5]	Thermodynamics Introductory Electromagnetism and Wave Motion	
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II (with an average grade of B- or higher)	
5. 2.0 credits in:		2.0
PHYS 2202 [0.5]	Wave Motion and Optics	
PHYS 2305 [0.5]	Electricity and Magnetism	
PHYS 2401 [0.5]	Thermal Physics	
PHYS 2604 [0.5]	Modern Physics I	
6. 3.0 credits in:		3.0
PHYS 3308 [0.5]	Electromagnetism	
PHYS 3701 [0.5]	Elements of Quantum Mechanics	
PHYS 3802 [0.5]	Advanced Dynamics	
PHYS 4409 [0.5]	Thermodynamics and Statistical Physics	
PHYS 4707 [0.5]	Introduction to Quantum Mechanics I	
PHYS 4708 [0.5]	Introduction to Quantum Mechanics II	
7. 1.0 credit in PHYS at the 4000-level		1.0
8. 1.0 credit from:		1.0
a. MATH 4905 or PHYS 4907 or PHYS 4908 plus 0.5 credit 4000-level MATH or PHYS		
b. PHYS 4909 [1.0]		
B. Credits Not Included in the Major CGPA (4.5 credits)		
9. 1.0 credit from:		1.0
BIOL 1103 [0.5]	Foundations of Biology I	
& BIOL 1104 [0.5]	Foundations of Biology II	
CHEM 1001 [0.5]	General Chemistry I

BIOL 4109 [0.5]	Laboratory Techniques in Molecular Genetics	
BIOL 4201 [0.5]	Advanced Cell Culture and Tissue Engineering	
BIOL 4202 [0.5]	Mutagenesis and DNA Repair	
BIOL 4301 [0.5]	Current Topics in Biotechnology	
BIOL 4306 [0.5]	Animal Neurophysiology	
BIOL 4309 [0.5]	Studies in Human Performance	
BIOL 4319 [0.5]	Studies in Exercise Physiology	
7. 1.0 credit from:		1.0
BIOL 4905 [1.0]	Honours Workshop	

BIOL 4907 [1.0]	Honours Essay and Research Proposal	
BIOL 4908 [1.0]	Honours Research Thesis	
PHYS 4909 [1.0]	Fourth-Year Project	
PHYS 4907 plus 0.5 credit 4000-level PHYS		
PHYS 4908 plus 0.5 credit 4000-level PHYS		
B. Credits Not Included in the Major CGPA (7.5 credits)		
8. 1.0 credit in:		1.0
CHEM 1001 [0.5] & CHEM 1002 [0.5]	General Chemistry I General Chemistry II	
9. 1.5 credits in:		1.5
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
10. 2.0 credits in:		2.0
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	
MATH 3705 [0.5]	Mathematical Methods I	
MATH 3800 [0.5]	Mathematical Modeling and Computational Methods	
11. 0.5 credit in:		0.5
COMP 1005 [0.5]	Introduction to Computer Science I	
12. 2.0 credits in	approved courses outside the faculties of Science and Engineering and Design (may include NSCI 1000)	2.0
13. 0.5 credit in	free electives	0.5
Total Credits		20.0

Chemistry and Physics

B.Sc. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (13.0 credits)

1. 1.0 credit from:		1.0
PHYS 1001 [0.5] & PHYS 1002 [0.5]	Foundations of Physics I Foundations of Physics II (recommended)	
PHYS 1003 [0.5] & PHYS 1004 [0.5]	Introductory Mechanics and Thermodynamics Introductory Electromagnetism and Wave Motion	
PHYS 1007 [0.5] & PHYS 1008 [0.5]	Elementary University Physics I Elementary University Physics II (with an average grade of B- or higher)	
2. 3.0 credits in:		3.0
PHYS 2202 [0.5]	Wave Motion and Optics	
PHYS 2305 [0.5]	Electricity and Magnetism	
PHYS 2604 [0.5]	Modern Physics I	
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars	
PHYS 3701 [0.5]	Elements of Quantum Mechanics	
PHYS 3807 [0.5]	Mathematical Physics I	
3. 1.5 credits from:		1.5
PHYS 3308 [0.5]	Electromagnetism	
PHYS 3606 [0.5]	Modern Physics II	
PHYS 3802 [0.5]	Advanced Dynamics	

PHYS 4707 [0.5]	Introduction to Quantum Mechanics I	
4. 0.5 credit in PHYS	at the 4000 level	0.5
5. 5.0 credits in:		5.0
CHEM 1001 [0.5]	General Chemistry I	
CHEM 1002 [0.5]	General Chemistry II	
CHEM 2103 [0.5]	Physical Chemistry I	
CHEM 2203 [0.5]	Organic Chemistry I	
CHEM 2204 [0.5]	Organic Chemistry II	
CHEM 2501 [0.5]	Introduction to Inorganic and Bioinorganic Chemistry	
CHEM 3100 [0.5]	Physical Chemistry II	
CHEM 3102 [0.5]	Methods of Computational Chemistry	
CHEM 3503 [0.5]	Inorganic Chemistry I	
CHEM 4102 [0.5]	Advanced Topics in Physical Chemistry II	
6. 0.5 credit from:		0.5
CHEM 3106 [0.5]	Computational Chemistry Methods Laboratory	
CHEM 3107 [0.5]	Experimental Methods in Nanoscience	
7. 0.5 credit in CHEM	at the 4000 level	0.5
8. 1.0 credit from:		1.0
CHEM 4908 [1.0]	Research Project and Seminar	
PHYS 4909 [1.0]	Fourth-Year Project	
PHYS 4907 plus 0.5 credit in PHYS	at the 4000 level	
PHYS 4908 plus 0.5 credit in PHYS	at the 4000 level	
B. Credits Not Included in the Major CGPA (7.0 credits)		
9. 3.0 credits in:		3.0
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	
STAT 3502 [0.5]	Probability and Statistics	
MATH 3705 [0.5]	Mathematical Methods I	
10. 0.5 credit from:		0.5
COMP 1005 [0.5]	Introduction to Computer Science I	
ECOR 1606 [0.5]	Problem Solving and Computers	
11. 0.5 credit from:		0.5
MATH 3800 [0.5]	Mathematical Modeling and Computational Methods	
ECOR 2606 [0.5]	Numerical Methods	
12. 0.5 credit from:		0.5
NSCI 1000 [0.5]	Seminar in Science	
	Approved courses outside the faculties of Science and Engineering and Design	
13. 1.5 credits in	approved courses outside the faculties of Science and Engineering and Design (may include NSCI 1000, if not used above)	1.5
14. 1.0 credit in	free electives.	1.0
Total Credits		20.0

Minor in Physics (4.0 credits)

The Minor in Physics is available to students registered in degree programs other than those offered by the

Department of Physics. Careful attention must be paid to prerequisites.

Requirements

1. 0.5 credit from:		0.5
PHYS 1001 [0.5]	Foundations of Physics I	
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics	
PHYS 1007 [0.5]	Elementary University Physics I (with a grade of B- or higher)	
2. 0.5 credit from:		0.5
PHYS 1002 [0.5]	Foundations of Physics II	
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion	
PHYS 1008 [0.5]	Elementary University Physics II (with a grade of B- or higher)	
3. 1.0 credit in:		1.0
PHYS 2604 [0.5]	Modern Physics I	
PHYS 3701 [0.5]	Elements of Quantum Mechanics	
4. 2.0 credits from:		2.0
PHYS 2202 [0.5]	Wave Motion and Optics	
PHYS 2305 [0.5]	Electricity and Magnetism	
PHYS 2401 [0.5]	Thermal Physics	
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars	
PHYS 3207 [0.5]	Topics in Biophysics	
PHYS 3308 [0.5]	Electromagnetism	
PHYS 3606 [0.5]	Modern Physics II	
PHYS 3802 [0.5]	Advanced Dynamics	
PHYS 3807 [0.5]	Mathematical Physics I	
PHYS at the 4000-level		

Total Credits **4.0**

Regulations

In addition to the program requirements described here and academic performance evaluation requirements listed below, students must satisfy the University regulations common to all undergraduate students (see the Academic Regulations section of this Calendar).

Students should consult with the School of Mathematics and Statistics when planning their program and selecting courses.

Academic Performance Evaluation

Academic Performance Evaluation for Bachelor of Mathematics

The standard procedures for Academic Performance Evaluation are followed with the following additions:

Good Standing at any Academic Performance Evaluation requires that the CGPA over the following courses be at least 7.00 for Honours programs and at least 5.00 for General programs:

MATH 1007 [0.5]	Elementary Calculus I
or MATH 1004 [0.5]	Calculus for Engineering or Physics
MATH 1107 [0.5]	Linear Algebra I
or MATH 1104 [0.5]	Linear Algebra for Engineering or Science
MATH 2007 [0.5]	Elementary Calculus II

or MATH 1005 [0.5] Differential Equations and Infinite Series
for Engineering or Physics

MATH 2107 [0.5] Linear Algebra II

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

1. 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in science continuation courses in each of the two majors**
2. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

1. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for fewer than 10.0 credits.
2. 1.0 credit in courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000) if, on transfer, the student received credit for 10.0 or more credits.

Declared and Undeclared Students

Students who are registered in a program within the degree are called Declared students. Most students designate a program of study when they first apply for admission and so begin their studies as Declared students. Students may also choose to begin their studies within the B.Sc. degree without being registered in a program. These students are referred to as Undeclared students. The recommended course pattern for Undeclared students is provided in the Undeclared entry of the Programs section of this Calendar. Undeclared students normally must apply to enter a program before beginning their second year of study. The Science Student Success Centre (SSSC) provides Undeclared students guidance to the appropriate support services in making this decision.

Change of Program within the B.Sc. Degree

Students may transfer to a program within the B.Sc. degree if upon entry to the new program they would be in good academic standing.

Other applications for change of program will be considered on their merits; students may be accepted in the new program in *Good Standing* or on *Academic Warning*.

Applications to declare or change their program within the B.Sc. Degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program or into a program element or option is subject to any enrolment, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may add a minor, concentration or specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a minor, concentration or specialization requires that the student be in *Good Standing* and is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of experimental science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry	
BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering
Biology	
BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology
Chemistry	
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2800 [0.5]	Foundations for Environmental Chemistry

Earth Sciences

ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time
ERTH 2102 [0.5]	Mineralogy to Petrology
ERTH 2404 [0.5]	Engineering Geoscience
ERTH 2802 [0.5]	Field Geology I
ERTH 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds

ERTH 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians
-----------------	---

ERTH 3204 [0.5]	Mineral Deposits
ERTH 3205 [0.5]	Physical Hydrogeology
ERTH 3806 [0.5]	Structural Geology

Food Sciences

FOOD 3001 [0.5]	Food Chemistry
FOOD 3002 [0.5]	Food Analysis
FOOD 3005 [0.5]	Food Microbiology

Geography

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 3108 [0.5]	Soil Properties

Neuroscience

NEUR 3206 [0.5]	Sensory and Motor Neuroscience
NEUR 3207 [0.5]	Systems Neuroscience
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy

Physics

PHYS 1001 [0.5]	Foundations of Physics I
PHYS 1002 [0.5]	Foundations of Physics II
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I
PHYS 1008 [0.5]	Elementary University Physics II
PHYS 2202 [0.5]	Wave Motion and Optics
PHYS 2604 [0.5]	Modern Physics I
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars
PHYS 3606 [0.5]	Modern Physics II
PHYS 3608 [0.5]	Modern Applied Physics

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 2006 [0.5]	Introduction to Quantitative Research
GEOG 2013 [0.5]	Weather and Water
GEOG 2014 [0.5]	The Earth's Surface
GEOG 3003 [0.5]	Quantitative Geography
GEOG 3010 [0.5]	Field Methods in Physical Geography
GEOG 3102 [0.5]	Geomorphology
GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3104 [0.5]	Principles of Biogeography
GEOG 3105 [0.5]	Climate and Atmospheric Change
GEOG 3106 [0.5]	Aquatic Science and Management
GEOG 3108 [0.5]	Soil Properties
GEOG 4000 [0.5]	Field Studies
GEOG 4005 [0.5]	Directed Studies in Geography

GEOG 4013 [0.5]	Cold Region Hydrology
GEOG 4017 [0.5]	Global Biogeochemical Cycles
GEOG 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103 [0.5]	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Science Psychology Courses

PSYC 2001 [0.5]	Introduction to Research Methods in Psychology
PSYC 2002 [0.5]	Introduction to Statistics in Psychology
PSYC 2700 [0.5]	Introduction to Cognitive Psychology
PSYC 3000 [1.0]	Design and Analysis in Psychological Research
PSYC 3506 [0.5]	Cognitive Development
PSYC 3700 [1.0]	Cognition (Honours Seminar)
PSYC 3702 [0.5]	Perception
PSYC 2307 [0.5]	Human Neuropsychology I
PSYC 3307 [0.5]	Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

BIOC (Biochemistry)

BIOL (Biology)

CHEM (Chemistry)

COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except ERTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOG (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except ERTH 1010, ERTH 1011 and ERTH 2415. Earth Sciences students may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering

ENSC 2001

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Science)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)

Science Psychology (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) Biology students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5]	Education Research in Biology
CHEM 1003 [0.5]	The Chemistry of Food, Health and Drugs
CHEM 1004 [0.5]	Drugs and the Human Body
CHEM 1007 [0.5]	Chemistry of Art and Artifacts
ERTH 1010 [0.5]	Our Dynamic Planet Earth
ERTH 1011 [0.5]	Evolution of the Earth
ERTH 2415 [0.5]	Natural Disasters
ISCI 1001 [0.5]	Introduction to the Environment

ISCI 2000 [0.5]	Natural Laws
ISCI 2002 [0.5]	Human Impacts on the Environment

MATH 0107 [0.5]	Algebra and Geometry
PHYS 1901 [0.5]	Planetary Astronomy
PHYS 1902 [0.5]	From our Star to the Cosmos
PHYS 1905 [0.5]	Physics Behind Everyday Life
PHYS 2903 [0.5]	Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5]	Introduction to Computational Thinking for Arts and Social Science Students
MATH 0005 [0.5]	Precalculus: Functions and Graphs
MATH 0006 [0.5]	Precalculus: Trigonometric Functions and Complex Numbers
MATH 1009 [0.5]	Mathematics for Business
MATH 1119 [0.5]	Linear Algebra: with Applications to Business
MATH 1401 [0.5]	Elementary Mathematics for Economics I
MATH 1402 [0.5]	Elementary Mathematics for Economics II

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.Sc. Honours Physics, Applied Physics: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Completion of 5.0 or more credits at Carleton University;
2. Registered as a full-time student in the Bachelor of Science Honours degree program;
3. Obtained and maintained a major CGPA of 8.0 or higher and an overall CGPA of 6.50 or higher

B.Sc. Honours Physics and Applied Physics students must successfully complete three (3) work terms to obtain the co-op designation.

Co-op Work Term Course: PHYS 3999 Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	*W/S	Fall	S
Winter	S	Winter	S	Winter	S	Winter	*W/S	Winter	S
Summer	**O/W	Summer	*W	Summer	O/W	Summer	O/W		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the

number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Mathematics (B. Math.) (Honours)
- Bachelor of Mathematics (B.Math.)

Admission Requirements

B.Math Honours Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include two prerequisite courses (Advanced Functions and Calculus and Vectors).

The overall admission cut-off average and/or the prerequisite course average may be considerably higher than the stated minimum requirements for admission to the combined B.Math/M.Sc in Mathematics or Statistics.

Advanced Standing

Applications for admission beyond first year will be assessed on their individual merits. Applicants must normally be in *Good Standing* (see Undergraduate Calendar Section 3.0 - Academic Regulations for Degree Students) for their year level. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

B.Math Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include two prerequisite courses (Advanced Functions and Calculus and Vectors). Equivalent courses may be substituted between the old and new Ontario mathematics curriculum.

Advanced Standing

Applications for admission beyond first year will be assessed on their individual merits. Applicants must normally be in *Good Standing* (see Undergraduate Calendar Section 3.0 - Academic Regulations for Degree Students) for their year level. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Mathematics Honours program;

3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market (and thus the availability of co-op placement) may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions and two of Biology, Chemistry, Earth and Space Sciences or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For the Combined Honours program in Chemistry and Computer Science, 4U Chemistry and Calculus and Vectors are strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

For entry to an Honours program after the completion of 5.0 included credits, a student must have a major CGPA of 5.50 or higher, an overall CGPA of 4.50 or higher and the recommendation of the Honours department or committee. A student beginning the final 10.0 credits towards an Honours degree must present a major CGPA of 6.00 or higher, an overall CGPA of 5.00 or higher and the recommendation of the Honours department or committee. A student beginning the final 5.0 credits towards an Honours degree must present a major CGPA of 6.50 or higher and an overall CGPA of 5.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

B.Sc. Major Program

B.Sc. Program

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics, 4U Physics is strongly recommended. Equivalent courses may be substituted between the old and new Ontario mathematics curriculum.

Advanced Standing

For entry to a B.Sc. or B.Sc. Major program after the completion of 5.0 included credits, a student must have a major and core CGPA of 3.50 or higher and an overall CGPA of 3.50 or higher. A student beginning the final 5.0 credits towards a B.Sc. or B.Sc. Major degree must present a major and core CGPA of 4.00 or higher and an overall CGPA of 4.00 or higher, as calculated for graduation. Advanced standing will be granted for studies undertaken elsewhere when these are recognized as the equivalent of subjects offered at Carleton University.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Physics (PHYS) Courses

PHYS 1001 [0.5 credit]

Foundations of Physics I

This calculus-based course on classical mechanics covers kinematics, dynamics, gravitation, and oscillatory motion. This is a specialist course for students intending to take further courses in physics.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1002, BIT 1203, PHYS 1003, PHYS 1007.

Prerequisite(s): Grade 12 Mathematics: Advanced Functions and Grade 12 Mathematics: Calculus and Vectors or equivalent, plus one of MATH 1004 or MATH 1002 or MATH 1052 (the MATH course may be taken concurrently); or permission of the Physics Department. Grade 12 Physics is strongly recommended.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1002 [0.5 credit]

Foundations of Physics II

An introduction to electricity, magnetism, electromagnetic fields, and wave motion. This is a specialist course for students intending to take further courses in physics.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, BIT 1204, PHYS 1004, PHYS 1008.

Prerequisite(s): PHYS 1001, or PHYS 1003, or PHYS 1007 with a grade of B-; MATH 1004 or MATH 1002 (may be taken concurrently) or MATH 2052 (may be taken concurrently); or permission of the Department.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1003 [0.5 credit]

Introductory Mechanics and Thermodynamics

Mechanics, gravitation, oscillations, and thermodynamics.

The application of calculus to solve problems in these areas of physics is introduced. This course is intended for students in the physical sciences and engineering.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1002, BIT 1203, PHYS 1001, PHYS 1007.

Prerequisite(s): Grade 12 Physics or equivalent, plus Grade 12 Mathematics: Advanced Functions or equivalent, plus one of MATH 1004 or MATH 1002 or MATH 1052 (the MATH course may be taken concurrently). Note that Grade 12 Mathematics: Calculus and Vectors is strongly recommended.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1004 [0.5 credit]

Introductory Electromagnetism and Wave Motion

This calculus-based course introduces potential energy, work, electricity, magnetism, oscillations and waves.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, BIT 1204, PHYS 1002, PHYS 1008.

Prerequisite(s): MATH 1004, ECOR 1101 or ECOR 1053 or (ECOR 1045 and ECOR 1046)(The ECOR courses may be taken concurrently) or PHYS 1001 or PHYS 1003 or PHYS 1007 (a grade of at least B- is required for PHYS 1007), or permission of the Department.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1007 [0.5 credit]

Elementary University Physics I

Mechanics, properties of matter, thermodynamics.

Applications chosen in part from the life sciences. For students who lack the prerequisites for PHYS 1001 or PHYS 1003, or who do not intend to take upper-year courses in physics.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1002, BIT 1203, PHYS 1001, PHYS 1003.

Prerequisite(s): (i) Grade 12 Mathematics: Advanced Functions or equivalent, or MATH 0107 (may be taken concurrently); or (ii) Grade 12 Mathematics: Calculus and Vectors or equivalent, or MATH 1007 (may be taken concurrently); or (iii) permission of the Physics Department.

Lectures three hours a week, laboratory or tutorial three hours per week.

PHYS 1008 [0.5 credit]**Elementary University Physics II**

Electricity and magnetism, DC and AC circuits, wave motion and light. Elements of modern physics. Applications chosen in part from the life sciences. Includes: Experiential Learning Activity
Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, BIT 1204, PHYS 1002, PHYS 1004.
Prerequisite(s): PHYS 1001 or PHYS 1003 or PHYS 1007.
Lectures three hours a week, laboratory or tutorial three hours per week.

PHYS 1901 [0.5 credit]**Planetary Astronomy**

Description of the known stellar, galactic and extra-galactic systems together with the instruments used to study them. Modern ideas concerning the structure, origin and evolution of our own planet. Formation of the Moon - Earth system. Study of the planets in our solar system. Precludes additional credit for PHYS 2203.
Lectures two and one-half hours a week.

PHYS 1902 [0.5 credit]**From our Star to the Cosmos**

Starting with the Sun, the course studies its composition and source of power, then compares our Sun with the other stars in the galaxy and beyond. Modern ideas concerning the structure, origin and evolution of the universe, pulsars and supernovae are examined. Precludes additional credit for PHYS 2203.
Lectures two and one-half hours a week.

PHYS 1905 [0.5 credit]**Physics Behind Everyday Life**

Examination of the physics behind everyday life. Topics may include transportation, sports, weather and climate, electricity, and sustainable energy. No science background is required. Faculty of Science students may only take this course as a free elective.
Includes: Experiential Learning Activity
Online Course.

PHYS 2004 [0.5 credit]**Modern Physics for Engineers**

Introduction to aspects of modern physics relevant to engineering. Thermal radiation. Concepts of relativistic kinematics. Wave-particle duality. Elements of quantum mechanics. Optical and x-ray spectra, lasers. Nuclear physics and applications. Condensed matter physics. Precludes additional credit for PHYS 2604.
Prerequisite(s): PHYS 1002 or PHYS 1004 or PHYS 1008 with a grade of B- or better, plus MATH 1004 and MATH 1104 or equivalent. Restricted to B.Eng. students not in the Engineering Physics program. Students in programs other than B.Eng. must obtain permission of the Department.
Lectures three hours a week.

PHYS 2101 [0.5 credit]**Mechanics and Properties of Matter**

Equations of motion for a single particle. Harmonic oscillation. Noninertial reference frames. Orbits in a central force field. Motion of systems of particles and of rigid bodies. Introduction to special relativity. Laboratory experiments in classical mechanics and properties of matter.
Includes: Experiential Learning Activity
Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004, alternatively PHYS 1007 and PHYS 1008 with an overall average of B- or better; MATH 1004 and MATH 1104, or MATH 1002 and MATH 1102.
Lectures three hours a week, laboratory three hours a week, tutorials (optional) once a week.

PHYS 2202 [0.5 credit]**Wave Motion and Optics**

Geometrical optics. Types of waves, vibrating string and the classical wave equation. General solutions for traveling waves. Superposition and interference, coherence, wave packets, waves in 2 and 3 dimensions. Propagation of electromagnetic waves. Light and physical optics, oscillator model for dispersion, diffraction, polarization, and refraction.
Includes: Experiential Learning Activity
Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004 (PHYS 1007 and PHYS 1008 are also acceptable provided a minimum average grade of B- is presented); plus MATH 1104 or MATH 1102 or MATH 2152, and MATH 2004 or MATH 2000 (may be taken concurrently).
Lectures three hours a week, laboratory three hours a week.

PHYS 2203 [0.5 credit]**Astronomy**

The observational basis of astronomy. The history of astronomy, properties of light, solar system observations and stellar astronomy.
Precludes additional credit for PHYS 1901 and PHYS 1902.
Prerequisite(s): PHYS 1002 or PHYS 1004 or permission of the department. PHYS 1008 with a grade of B- or better may also be used if MATH 1004 or MATH 1007 or MATH 1002 or MATH 2052 have been successfully completed.
Lectures three hours a week.

PHYS 2305 [0.5 credit]**Electricity and Magnetism**

Electrostatic field and potential, Gauss' law. Properties of conductors. Magnetic effects from currents. Motion of charges in electric and magnetic fields. Energy in electric and magnetic fields. Electromagnetic induction. Maxwell's equations in vacuum using vector differential and integral calculus.

Prerequisite(s): PHYS 1001, PHYS 1002, or PHYS 1003 and PHYS 1004, alternatively PHYS 1007 and PHYS 1008 with an overall grade of B- or higher; MATH 2004 or MATH 2000 (may be taken concurrently).
Lectures three hours a week.

PHYS 2306 [0.5 credit]**Physics of Electrical and Electronic Measurements I**

D.C. and A.C. circuit theory. Resonant circuits. Basic measuring devices, the oscilloscope; impedances, bandwidth, noise; vacuum tubes, transistors, useful approximations for circuit design; feedback, amplifiers, oscillators; operational circuits; digital circuits. Lectures emphasize the physical basis of instrument design. Laboratory emphasizes modern digital instrumentation.

Includes: Experiential Learning Activity

Prerequisite(s): PHYS 1001, PHYS 1002 or PHYS 1003 and PHYS 1004, alternatively PHYS 1007 and PHYS 1008 with an overall grade of B- or better.

Lectures three hours a week, laboratory three hours a week.

PHYS 2401 [0.5 credit]**Thermal Physics**

Introduction to thermodynamics and statistical mechanics. Temperature and thermodynamic equilibrium. Work, internal energy and heat; first law. Kinetic theory of gases. Basic probability theory. Microscopic states and entropy. Absolute temperature, reversibility and the second law of thermodynamics. Thermodynamic processes and applications.

Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004, (PHYS 1007 and PHYS 1008 are also acceptable provided a minimum average grade of B-); plus MATH 1004 and MATH 1104 or MATH 1002 (no longer offered) and MATH 1102 (no longer offered), or MATH 2052 and MATH 2152.

Lectures three hours a week.

PHYS 2604 [0.5 credit]**Modern Physics I**

The course is designed to provide a logical transition from classical to modern physics. Special relativity. Rutherford scattering, atomic models. Thermal radiation. Photoelectric effect, Compton scattering. Bohr theory of the hydrogen atom. Atomic energy states, optical spectra, lasers. X-rays. Radioactivity. Quantum Mechanics.

Includes: Experiential Learning Activity
Precludes additional credit for PHYS 2004.

Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004 (PHYS 1007 and PHYS 1008 are also acceptable provided a minimum average grade of B- is presented); plus MATH 1004 and MATH 1104, or MATH 1002 (no longer offered) and MATH 1102 (no longer offered) or MATH 2052 and MATH 2152.

Lectures three hours a week, laboratory three hours a week.

PHYS 2903 [0.5 credit]**Physics Towards the Future**

From classical phenomena to aspects of modern physics and recent advances. Topics may include light and colour, music and sound, cell phones, the galaxy and beyond.

No science background is required. Faculty of Science students may only take this course as a free elective.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing.

Online course.

PHYS 3007 [0.5 credit]**Third Year Physics Laboratory: Selected Experiments and Seminars**

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. An exercise on literature searches and student seminars on experimental and numerical methods are included.

Includes: Experiential Learning Activity

Precludes additional credit for PHYS 3008, PHYS 3009.

Prerequisite(s): PHYS 2202 and PHYS 2604, or permission of the Department.

Six hours a week.

PHYS 3008 [0.5 credit]**Third Year Physics Laboratory: Selected Experiments and Workshop**

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. Instruction on instrumentation building techniques will be given.

Includes: Experiential Learning Activity

Precludes additional credit for PHYS 3007, PHYS 3009.

Prerequisite(s): PHYS 2202 and PHYS 2604, or permission of the department.

Six hours a week.

PHYS 3009 [0.5 credit]**Third Year Physics Laboratory: Selected Experiments and Seminars with Observational Astronomy**

Students complete a small number of experiments selected from astronomy, astrophysics, modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. At least one astronomy/astrophysics related experiment is required. An exercise on literature searches and student seminars on experimental and numerical methods are included.

Includes: Experiential Learning Activity

Precludes additional credit for PHYS 3007, PHYS 3008.

Prerequisite(s): PHYS 2202, PHYS 2604 and PHYS 2203 or permission of the Department.

Six hours a week.

PHYS 3207 [0.5 credit]**Topics in Biophysics**

Introduction to biophysics. Random motion of molecules and diffusion; viscosity and the circulatory system; laws of thermodynamics and physical forces responsible for chemical reactions, molecular self-assembly and recognition; enzyme kinetics and molecular machines; nerve impulse and its propagation.

Prerequisite(s): PHYS 2604 or permission of the Department.

Lectures three hours a week, tutorial or seminar one hour a week.

PHYS 3308 [0.5 credit]**Electromagnetism**

Electrostatics field and magnetostatics in the presence of matter. Solving Laplace's and Poisson's equations. Multipole expansions. Vector potential. Faraday's laws of induction; Maxwell's equations in matter. Waves in vacuum and dielectric media, guided waves.

Precludes additional credit for ELEC 3909.

Prerequisite(s): PHYS 2202, PHYS 2604, PHYS 2305, MATH 2004 or MATH 2008, and MATH 3705, or permission of the Department.

Lectures three hours a week.

PHYS 3402 [0.5 credit]**Heat and Thermodynamics**

Zeroth, First, Second and Third Laws of Thermodynamics; enthalpy, Helmholtz and Gibbs functions and the Maxwell relations; phase transitions; thermodynamics of magnetism; cryogenics cooling by Joule-Thompson effect, adiabatic expansion of a gas, adiabatic demagnetization, helium dilution refrigeration; black body radiation; negative temperatures.

Prerequisite(s): PHYS 2101 and PHYS 2305, MATH 2007, MATH 2008, MATH 2107 and MATH 2401 or permission of the Department.

Lectures three hours a week.

PHYS 3606 [0.5 credit]**Modern Physics II**

Elements of condensed matter physics, semiconductors, superconductivity. Elements of nuclear physics, fission, fusion, power generation. Introduction to particle physics. Ionizing radiation: production, interactions, detection. Medical physics: radiation biophysics, cancer therapy, imaging.

Includes: Experiential Learning Activity

Also listed as PHYS 3608.

Prerequisite(s): PHYS 2604 and PHYS 3701, or permission of the Department.

Lectures three hours a week, laboratory two hours a week.

PHYS 3608 [0.5 credit]**Modern Applied Physics**

Elements of condensed matter physics, semiconductors, superconductivity. Modern optics. Elements of nuclear physics, fission, fusion, power generation. Ionizing radiation: production, interactions, detection. Medical physics: radiation biophysics, cancer therapy, imaging.

Includes: Experiential Learning Activity

Also listed as PHYS 3606.

Prerequisite(s): PHYS 2604 and PHYS 3701, or permission of the Department.

Lectures three hours a week, laboratory three hours a week.

PHYS 3701 [0.5 credit]**Elements of Quantum Mechanics**

Analysis of interference experiments with waves and particles; fundamental concepts of quantum mechanics, Schrödinger equation; angular momentum, atomic beams; hydrogen atom; atomic and molecular spectroscopy; Pauli principle; simple applications in the physics of elementary particles.

Prerequisite(s): PHYS 2604, MATH 2000 [1.0] (may be taken concurrently), or MATH 2004 or MATH 2008, and MATH 3705 (may be taken concurrently), or permission of the Department.

Lectures three hours a week.

PHYS 3801 [0.5 credit]**Classical Mechanics**

Introduction to Lagrangian and Hamiltonian mechanics: Poisson brackets, tensors and dyadics; rigid body rotations: introductory fluid mechanics coupled systems and normal coordinates; relativistic dynamics.

Prerequisite(s): PHYS 2101, PHYS 2202, PHYS 2305, MATH 2007, MATH 2008, MATH 2107, MATH 2401 or permission of the Department.

Lectures three hours a week.

PHYS 3802 [0.5 credit]**Advanced Dynamics**

Equations of motion for a single particle. Oscillatory Motion. Lagrangian and Hamiltonian formulations of mechanics. Central force motion. Motion of systems of particles and of rigid bodies.

Prerequisite(s): PHYS 2202, PHYS 2604, and MATH 2004, or permission of the Department.

Lectures three hours a week.

PHYS 3807 [0.5 credit]**Mathematical Physics I**

Boundary Value problems involving curvilinear coordinates; spherical harmonics, Bessel functions, Green's functions. Functions of a complex variable: analytic functions, contour integration, residue calculus. Prerequisites: PHYS 2202, MATH 2004, MATH 3705 or permission of the Department. Lectures three hours a week, tutorial one hour a week.

PHYS 3808 [0.5 credit]**Mathematical Physics II**

Solution of second-order total differential equations by Frobenius' method. Sturm-Liouville theory. Special functions: Legendre, Bessel, Hermite, Laguerre and associated functions. Partial differential equations: method of separation of variables, eigenfunctions and eigenvalues and eigenfunction expansions. Green's function techniques for solving inhomogeneous partial differential equations. Prerequisites: MATH 3004, MATH 3008, MATH 3705, and PHYS 3806. Prerequisite(s): PHYS 3807 or MATH 3007 or permission of the Department. Lectures three hours a week.

PHYS 3999 [0.0 credit]**Co-operative Work Term Report**

Provides practical experience for students enrolled in the Co-operative option. Students must receive satisfactory evaluations from their work term employer. Written and oral reports will be required. Graded as Sat or Uns. Includes: Experiential Learning Activity Prerequisite(s): registration in the Physics Co-operative education option and permission of the Department.

PHYS 4007 [0.5 credit]**Fourth-Year Physics Laboratory: Selected Experiments and Seminars**

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. An exercise on literature searches and student seminars on experimental and numerical methods are included. Includes: Experiential Learning Activity Prerequisite(s): PHYS 3606 (or PHYS 3608) and registration in the Engineering Physics program. Laboratory, six hours a week.

PHYS 4008 [0.5 credit]**Fourth-Year Physics Laboratory: Selected Experiments and Workshop**

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. Instruction on instrumentation building techniques will be given. Includes: Experiential Learning Activity Prerequisite(s): PHYS 3007. Six hours a week.

PHYS 4201 [0.5 credit]**Astrophysics**

Stellar evolution, including stellar modeling, main sequence stars, red giants and the end states of stars such as neutron stars and black holes. Galactic structure and dynamics. Neutrino astrophysics. Prerequisite(s): PHYS 3701, PHYS 3606 or PHYS 3608, and PHYS 2401 or PHYS 4409, or permission of the Department. (PHYS 3606 or PHYS 3608 and PHYS 4409 may be taken concurrently). Also offered at the graduate level, with different requirements, as PHYS 5401, for which additional credit is precluded. Lectures three hours a week.

PHYS 4202 [0.5 credit]**Cosmology**

Observational evidence for the Big Bang. Cosmological space-time, expansion dynamics and contents of the universe. Physical processes in the expanding universe, inflation, nucleosynthesis, the cosmic microwave background, dark matter, and dark energy. Prerequisite(s): PHYS 3701, PHYS 3606 or PHYS 3608, and PHYS 2401 or PHYS 4409, or permission of the Department. (PHYS 3606 or PHYS 3608 and PHYS 4409 may be taken concurrently). Also offered at the graduate level, with different requirements, as PHYS 5402, for which additional credit is precluded. Lectures three hours per week.

PHYS 4203 [0.5 credit]**Physical Applications of Fourier Analysis**

Fourier transform, convolution. Sampling theorem. Applications to imaging: descriptors of spatial resolution, filtering. Correlation, noise power. Discrete Fourier transform, FFT. Filtering of noisy signals. Image reconstruction in computed tomography and magnetic resonance. Laplace transform. Integral transforms, application to boundary value problems. Prerequisite(s): MATH 3705, or permission of the Department. Also offered at the graduate level, with different requirements, as PHYS 5313, for which additional credit is precluded. Lectures three hours a week.

PHYS 4208 [0.5 credit]**Modern Optics**

Electromagnetic wave propagation; reflection, refraction; Gaussian beams, guided waves. Laser theory: stimulated emission, cavity optics, modes, gain and bandwidth; atomic and molecular lasers. Mode locking, Q switching. Diffraction theory, coherence, Fourier optics, holography, laser applications. Optical communication systems, nonlinear effects: devices, fibre sensors, integrated optics. Prerequisite(s): PHYS 2202, PHYS 3606 (or PHYS 3608), and PHYS 3308 or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5318, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4307 [0.5 credit]**Electromagnetic Radiation**

Electromagnetic wave propagation in a vacuum, dielectrics, conductors, and ionized gases, reflection, refraction, polarization at the plane boundary between two media; waveguide and transmission line propagation; dipole and quadrupole radiation fields; antenna systems. Electromagnetic mass, radiation pressure. Tensor notation, transformation of the electromagnetic fields.

Prerequisite(s): PHYS 3308, PHYS 3801, PHYS 3807 and PHYS 3808 (except for Mathematics and Physics Double Honours students), or permission of the Department.

Lectures three hours a week.

PHYS 4407 [0.5 credit]**Statistical Physics**

Equilibrium statistical mechanics and its relation to thermodynamics. Maxwell-Boltzmann, Bose-Einstein and Fermi-Dirac statistics are derived, and applied in appropriate physical situations. Fluctuations. Kinetics and transport processes, including the Boltzmann transport equation and some of its applications.

Prerequisite(s): PHYS 3402, PHYS 2602 or PHYS 3601, PHYS 3701 or PHYS 3602, PHYS 4707 (may be taken concurrently); or permission of the Department.

Lectures three hours a week.

PHYS 4409 [0.5 credit]**Thermodynamics and Statistical Physics**

The three Laws of Thermodynamics, enthalpy, Helmholtz and Gibbs functions. Equilibrium statistical mechanics and its relation to thermodynamics. Maxwell-Boltzmann, Bose-Einstein and Fermi-Dirac statistics.

Precludes additional credit for PHYS 3402 and PHYS 4407.

Prerequisite(s): PHYS 3701 (may be taken concurrently), MATH 2004 and MATH 3705, or permission of the Department.

PHYS 4508 [0.5 credit]**Solid State Physics**

An introduction to solid state physics. Topics include crystal structure, phonons and lattice vibrations, conductors, semiconductors, insulators and superconductivity.

Prerequisite(s): PHYS 3606 or PHYS 3608, and PHYS 3701, or permission of the Department.

Lectures three hours a week.

PHYS 4602 [0.5 credit]**Physics of Elementary Particles**

Standard Model. Properties of leptons, quarks, hadrons. Fundamental interactions: photon, gluons, W/Z bosons. Higgs boson. Conservation laws, invariance principles, quantum numbers. Decay rates and scattering cross-sections. Quantum electrodynamics and chromodynamics. Resonances. Weak interactions, CKM matrix, parity and CP violation. Neutrino masses and oscillations. Future directions.

Prerequisite(s): PHYS 4707 or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5602, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4608 [0.5 credit]**Nuclear Physics**

Ground state properties of nuclei. Nuclear models, binding energy, properties of excited nuclei. Alpha, beta and gamma decay. Passage of radiation through matter, detectors. Nuclear reactions, cross sections, fission, fusion. Elements of neutron physics.

Prerequisite(s): PHYS 3606 or PHYS 3608 or permission of the Department.

Lectures three hours a week.

PHYS 4707 [0.5 credit]**Introduction to Quantum Mechanics I**

The basic interpretative postulates of quantum mechanics; applications of wave mechanics and operator methods to various quantum mechanical systems; quantum mechanical treatment of angular momentum.

Prerequisite(s): PHYS 3701 and PHYS 3807 or equivalent, or permission of the Department.

Lectures three hours a week.

PHYS 4708 [0.5 credit]**Introduction to Quantum Mechanics II**

Scattering theory and application; bound state problems; approximation methods.

Prerequisite(s): PHYS 4707 or permission of the Department.

Lectures three hours a week.

PHYS 4804 [0.5 credit]**Introduction to General Relativity**

Special relativity using tensor analysis. Curved spacetime with physics applications which may include the solar system, stars, black holes and gravitational waves.

Introduction to differential geometry and Einstein's field equations.

Prerequisite(s): PHYS 3308, PHYS 3802 and PHYS 3807 or equivalent, or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5804, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4807 [0.5 credit]**Statistical Data Analysis Techniques for Physics**

Computational methods used in analysis of experimental data. Introduction to probability and random variables.

Monte Carlo methods for simulation of random processes. Statistical methods for parameter estimation and hypothesis tests. Confidence intervals. Multivariate data classification. Unfolding methods. Examples primarily from particle and medical physics.

Prerequisite(s): third year standing in a physics program and an ability to program in Python, Java, C or C++, and permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5002, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4901 [0.5 credit]**Special Topics in Physics**

Each year, at the direction of the Department, a course on a special topic may be offered.

Prerequisite(s): permission of the Department.

PHYS 4907 [0.5 credit]**Fourth-Year Project**

Advanced projects of an experimental or theoretical nature with an orientation towards research. A written mid-term progress report is required and also a written and oral report at the conclusion of the project.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in an Honours Physics program or equivalent, and permission of the Department.

Project. Fall term only.

PHYS 4908 [0.5 credit]**Fourth-Year Project**

Advanced projects of an experimental or theoretical nature with an orientation towards research. A written mid-term progress report is required and also a written and oral report at the conclusion of the project.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in an Honours Physics program or equivalent, and permission of the Department.

Project. Winter term only.

PHYS 4909 [1.0 credit]**Fourth-Year Project**

Advanced projects of an experimental or theoretical nature with an orientation towards research. A written mid-term progress report is required and also a written and oral report at the conclusion of the project.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in an Honours Physics program or equivalent, and permission of the Department.

Project

Political Science

This section presents the requirements for programs in:

- Political Science B.A. Honours
- Political Science B.A. Combined Honours
- Political Science B.A.
- Concentration in Canadian Politics
- Concentration in Comparative Politics and Area Studies (Global North)
- Concentration in Comparative Politics and Area Studies (Global South)
- Concentration in Gender and Politics
- Concentration in International Relations
- Concentration in North American Politics
- Concentration in Political Theory
- Concentration in Public Affairs and Policy Analysis
- Specialization in Global Politics B.G.In.S. Honours
- Stream in Global Politics B.G.In.S.
- Minor in Political Science
- Mention : Français : Political Science
- Washington Center Internship Program

Program Requirements**Course Categories**

The following categories of Political Science courses are used in the program descriptions:

Canadian Government and Politics

PSCI 2002 [0.5]	Canadian Politics and Civil Society
PSCI 2003 [0.5]	Canadian Political Institutions
PSCI 2401 [0.5]	Public Affairs Analysis
PSCI 3000 [0.5]	Canadian Provincial Politics
PSCI 3004 [0.5]	Political Parties and Elections in Canada
PSCI 3005 [0.5]	Ontario Government and Politics
PSCI 3006 [0.5]	Social Power in Canadian Politics
PSCI 3007 [0.5]	Constitutional Politics in Canada
PSCI 3109 [0.5]	The Politics of Law and Morality
PSCI 3401 [0.5]	Canadian Public Administration
PSCI 3402 [0.5]	Canadian Public Policy
PSCI 3406 [0.5]	Public Affairs and Media Strategies
PSCI 3606 [0.5]	Canadian Foreign Policy
PSCI 3607 [0.5]	North American Security and Defence Policy

PSCI 4001 [0.5]	Topics in Canadian Government and Politics	PSCI 3700 [0.5]	Government and Politics of South Asia
PSCI 4003 [0.5]	Politics and the Media	PSCI 3702 [0.5]	Israeli-Palestinian Relations
PSCI 4005 [0.5]	Canadian Federalism	PSCI 3703 [0.5]	Governing in the Global Economy
PSCI 4006 [0.5]	Legislatures and Representation in Canada	PSCI 3704 [0.5]	Government and Politics of Central and Eastern Europe
PSCI 4008 [0.5]	National Security and Intelligence in the Modern State	PSCI 3801 [0.5]	Environmental Politics
PSCI 4009 [0.5]	Quebec Politics	PSCI 3802 [0.5]	Globalization and Human Rights
PSCI 4010 [0.5]	Executive Power in Canadian Politics	PSCI 3805 [0.5]	Politics of Race
PSCI 4107 [0.5]	Political Participation in Canada	PSCI 4003 [0.5]	Politics and the Media
PSCI 4109 [0.5]	The Politics of the Canadian Charter of Rights and Freedoms	PSCI 4005 [0.5]	Canadian Federalism
		PSCI 4008 [0.5]	National Security and Intelligence in the Modern State
		PSCI 4103 [0.5]	The Modern State
		PSCI 4104 [0.5]	Development in the Global South - Theory and Practice
		PSCI 4105 [0.5]	Selected Problems in Development in the Global South
		PSCI 4203 [0.5]	Southern Africa After Apartheid
		PSCI 4204 [0.5]	Elections
		PSCI 4206 [0.5]	Indigenous Politics of North America
		PSCI 4207 [0.5]	Globalization, Adjustment and Democracy in Africa
		PSCI 4209 [0.5]	Westminster Democracies: Parliaments, Parties and Elections
		PSCI 4303 [0.5]	Governmentality and Politics
		PSCI 4400 [0.5]	Socio-Technical Change and Public Policy Design
		PSCI 4403 [0.5]	Reproductive Rights Policy in North America
		PSCI 4409 [0.5]	Issues in Development Management
		PSCI 4500 [0.5]	Gender and Globalization
		PSCI 4501 [0.5]	Politics of Identity in Europe and the Russian Area
		PSCI 4502 [0.5]	Post-Soviet States and Societies
		PSCI 4503 [0.5]	Politics of Central Eurasia
		PSCI 4504 [0.5]	Politics of the Caucasus and Caspian Basin
		PSCI 4505 [0.5]	Transitions to Democracy
		PSCI 4506 [0.5]	Women and Politics in North America
		PSCI 4601 [0.5]	Foreign Policies of Soviet Successor States
		PSCI 4603 [0.5]	Analysis of International Political Economy
		PSCI 4604 [0.5]	Selected Problems in International Political Economy
		PSCI 4605 [0.5]	Gender in International Relations
		PSCI 4606 [0.5]	American Foreign Policy
		PSCI 4607 [0.5]	Politics of North America
		PSCI 4608 [0.5]	European Integration and European Security
		PSCI 4609 [0.5]	Selected Topics in European Integration Studies
		PSCI 4800 [0.5]	Advanced International Relations Theory
		PSCI 4801 [0.5]	Selected Problems in Global Politics

Comparative Politics and International Relations

PSCI 2101 [0.5] Comparative Politics of the Global North

PSCI 2102 [0.5] Comparative Politics of the Global South

PSCI 2200 [0.5] Introduction to U.S. Politics

PSCI 2500 [0.5] Gender and Politics

PSCI 2601 [0.5] International Relations: Global Politics

PSCI 2602 [0.5] International Relations: Global Political Economy

PSCI 3100 [0.5] Politics of Development in Africa

PSCI 3101 [0.5] Politics of War in Africa

PSCI 3102 [0.5] Politics of Development of China

PSCI 3103 [0.5] State, Society and Economy in Northeast Asia

PSCI 3105 [0.5] Imperialism

PSCI 3107 [0.5] The Causes of War

PSCI 3108 [0.5] Politics of Popular Culture

PSCI 3109 [0.5] The Politics of Law and Morality

PSCI 3200 [0.5] U.S. Constitutional Politics

PSCI 3203 [0.5] Government and Politics in the Middle East

PSCI 3204 [0.5] Politics of Latin America

PSCI 3205 [0.5] Mexican Politics

PSCI 3206 [0.5] European Democracies

PSCI 3207 [0.5] The Government and Politics of European Integration

PSCI 3208 [0.5] Politics in Russia and Ukraine: Power and Contestation

PSCI 3209 [0.5] Reconstruction and Transformation in Europe and Eurasia

PSCI 3302 [0.5] Comparative Political Thought

PSCI 3307 [0.5] Politics of Human Rights

PSCI 3405 [0.5] Comparative Public Policy Analysis

PSCI 3406 [0.5] Public Affairs and Media Strategies

PSCI 3407 [0.5] Public Opinion and Public Policy

PSCI 3502 [0.5] Gender and Politics: Global South

PSCI 3600 [0.5] International Institutions

PSCI 3601 [0.5] Theories of International Politics

PSCI 3603 [0.5] Strategic Thought and International Security

PSCI 3606 [0.5] Canadian Foreign Policy

PSCI 3607 [0.5] North American Security and Defence Policy

PSCI 4802 [0.5]	International Politics of Africa
PSCI 4803 [0.5]	Foreign Policies of Major East Asian Powers
PSCI 4805 [0.5]	Political Economy of Global Money and Finance
PSCI 4806 [0.5]	Transatlantic Security Issues
PSCI 4807 [0.5]	Politics of Citizenship and Migration
PSCI 4808 [0.5]	Global Environmental Politics
PSCI 4817 [0.5]	International Politics of Forced Migration
PSCI 4819 [0.5]	Latin America and the World

4000-level Seminar

All courses in the range PSCI 4001 [0.5] to PSCI 4909 [1.0]

Departmental Language Requirement

The Department requires Honours students to demonstrate proficiency in at least one language other than English, normally French. Honours students are required to demonstrate such proficiency, normally through the completion of any first-year course (or its approved equivalent) in a language offered at Carleton.

For students who consider that they already have proficiency in French, the Department of Political Science conducts a French language examination twice a year, in November and February. For students who consider themselves proficient in a second language other than French, arrangements may be made to examine the student in that language, depending on faculty resource availability. Exams in languages other than French will normally be written at the same time as the French examination – twice a year, in November and February. Departmental language examinations may not be repeated in case of failure. Students whose high school transcript shows the primary language of instruction to be other than English may apply to have the examination requirement waived. For students in the Canadian concentration, French must be used to satisfy the language requirement.

Bachelor of Arts

Political Science

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (9.0 credits)

1. 1.0 credit in:		1.0
PSCI 1100 [0.5]	Democracy in Theory and Practice & PSCI 1200 [0.5] World Politics	
2. 2.0 credits in:		2.0
PSCI 2301 [0.5]	History of Political Thought I	
PSCI 2302 [0.5]	History of Political Thought II	
PSCI 2701 [0.5]	Introduction to Research Methods in Political Science	
PSCI 2702 [0.5]	Quantitative Research Methods in Political Science	
3. 1.0 credit in	Canadian Government and Politics	1.0
4. 1.0 credit in	Comparative Politics and International Relations	1.0
5. 1.0 credit in:		1.0

PSCI 4908 [1.0]	Honours Research Essay (with a grade of B- or better)	
	4000-level seminars	
6. 1.0 credit in	a 4000-level seminar	1.0
7. 2.0 credits in	PSCI at the 3000-level or above or in IPAF 4900 (with permission of the department).	2.0
B. Credits Not Included in the Major CGPA (11.0 credits)		
8. 8.0 credits in	electives not in PSCI	8.0
9. 3.0 credits in	free electives	3.0
C. Additional Requirements		
10.	Departmental language requirement must be met	
Total Credits		20.0

Notes

- At least 1.0 credit in 4000-level seminars must be completed at Carleton University.
- Item 5: candidates with fourth-year Honours standing in Political Science and a Major CGPA of 9.00 or better may present an Honours Research Essay PSCI 4908 [1.0] on some topic involving independent investigation; they may be examined orally on this essay and must receive a grade of B- or better in this course. PSCI 4908 [1.0] must be taken at Carleton University. Students who wish to present an Honours Research Essay must identify a faculty supervisor and require permission of the Supervisor of Undergraduate Studies. Students who do not write an Honours Research Essay are required to complete 1.0 credit in Political Science in the form of one or more 4000-level seminars.

Political Science

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Political Science Major CGPA (7.0 credits)

1. 1.0 credit in:		1.0
PSCI 1100 [0.5]	Democracy in Theory and Practice & PSCI 1200 [0.5] World Politics	
2. 2.0 credits in:		2.0
PSCI 2301 [0.5]	History of Political Thought I	
PSCI 2302 [0.5]	History of Political Thought II	
PSCI 2701 [0.5]	Introduction to Research Methods in Political Science	
PSCI 2702 [0.5]	Quantitative Research Methods in Political Science	
3. 2.0 credits in	courses in Canadian Government and Politics and/or Comparative Politics and International Relations, of which at least 1.0 credit is at the 3000-level or above	2.0
4. 2.0 credits at	the 4000-level which may be satisfied by either:	2.0
	a. 2.0 credits in 4000-level PSCI seminars	
	b. 1.0 credit from 4000-level PSCI seminars and PSCI 4908 [1.0] Honours Research Essay	
B. Additional Credit Requirements (13.0 credits)		
5.	The requirements as stated for Combined Honours in the other discipline must be met	
6.	Sufficient free electives credits to make a total of 20.0 credits for the program	

C. Additional Requirements

7. Departmental language requirement must be met

Total Credits 20.0

Note: At least 1.0 credit in 4000-level seminars must be completed at Carleton University.

Political Science

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (6.0 credits)

1. 1.0 credit in: 1.0

PSCI 1100 [0.5] Democracy in Theory and Practice
& PSCI 1200 [0.5] World Politics

2. 1.0 credit from: 1.0

PSCI 2301 [0.5] History of Political Thought I
& PSCI 2302 [0.5] History of Political Thought II

or

PSCI 2701 [0.5] Introduction to Research Methods
& PSCI 2702 [0.5] in Political Science
Quantitative Research Methods in
Political Science

3. 2.0 credits in PSCI at the 2000-level or above 2.0

4. 2.0 credits in PSCI at the 3000-level or above 2.0

B. Credits Not Included in the Major CGPA (9.0 credits)

5. 6.0 credits not in PSCI 7.0

6. 3.0 credits in free electives 2.0

Total Credits 15.0

Concentrations

The concentrations described below are open to all students in Political Science programs. The maximum number of Political Science credits that can be counted towards the degree is 12.0 credits for the Political Science B.A. Honours program, 8.0 for the Political Science B.A. program and 9.0 for the Political Science B.A. Combined Honours program. Concentrations are open to students in the Political Science B.A. program, though it may be difficult to meet the requirements of the Concentrations within the 15.0 credits required for the degree, so that courses extra to the primary degree may have to be taken.

Concentration in Canadian Politics (3.5 credits)

1. 1.0 credit in: 1.0

PSCI 2002 [0.5] Canadian Politics and Civil Society
& PSCI 2003 [0.5] Canadian Political Institutions

2. 2.5 credits in Canadian politics, including at least 0.5 credit at the 4000-level for students in honours or combined honours programs chosen from: 2.5

PSCI 3000 [0.5] Canadian Provincial Politics

PSCI 3004 [0.5] Political Parties and Elections in
Canada

PSCI 3005 [0.5] Ontario Government and Politics

PSCI 3006 [0.5] Social Power in Canadian Politics

PSCI 3007 [0.5] Constitutional Politics in Canada

PSCI 3109 [0.5] The Politics of Law and Morality

PSCI 3401 [0.5] Canadian Public Administration

B. Credits Not Included in the Major CGPA (7.0 credits)	
3. 7.0 credits in:	Free Electives 7.0
c. Additional Requirements	
4. The Language Requirement must be met.	
Total Credits	15.0

Minor in Political Science (4.0 credits)

The Minor in Political Science is not available to students enrolled in the B.A. Honours programs in Global Politics or the B.G.In.S. Specialization or Stream in Global Politics.

Requirements:

1. 1.0 credit from:	1.0
PSCI 1100 [0.5]	Democracy in Theory and Practice
& PSCI 1200 [0.5]	World Politics
2. 1.0 credit in PSCI at the 2000-level	1.0
3. 1.0 credit in PSCI at the 2000-level or above	1.0
4. 1.0 credit in PSCI at the 3000-level or above	1.0
5. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Mention : Français: Political Science (4.0 credits)

Students who wish to qualify for the *Mention : Français* notation in Political Science may do so by taking the following pattern of courses in their degree program:

Requirements

1. 1.0 credit in the advanced study of the French language (a minimum of):	1.0
FREN 1100 [1.0]	French 3
2. 1.0 credit in:	1.0
FREN 2202 [0.5]	Introduction aux études littéraires 1
& FREN 2203 [0.5]	Introduction aux études littéraires 2
3. 1.0 credit in:	1.0
PSCI 3900 [1.0]	Études dirigées
4. Honours students are required to take:	1.0
PSCI 4909 [1.0]	Mémoire de recherche

Note: With the prior approval of the department, students may substitute appropriate courses taught in French at the University of Ottawa, or courses taken at a francophone university on a Letter of Permission for Items 3 and 4 above.

Washington Center Internship Program (2.5 credits)

The Washington Center Internship Program is open to Honours or Combined Honours Political Science students in the third year or the first term of fourth year. Admission is open to students with at least a 9.5 GPA in Political Science. Successful completion of the program satisfies the requirements for one term of full-time study (2.5 credits). Students spend one term (fall, winter or summer) in Washington D.C. They serve four days a week as an intern in Washington D.C. and also take two seminar courses offered by faculty of The Washington Center. The normal 2.5 credit course load for participants in the programme is:

PSCI 3905 [1.5]	Washington Center Internship	1.5
PSCI 4905 [0.5]	Washington Center Seminar I	0.5
PSCI 4906 [0.5]	Washington Center Seminar II	0.5
Total Credits		2.5

Full information on the program and application forms can be obtained from the Department of Political Science.

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, including 1.0 credit from each of three of the four Breadth Areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration or Specialization may be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Open Studies program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree before reaching second year standing. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

Change of Program Within the B.A. Degree

Students may transfer to a program within the B.A. degree, if upon entry to the new program they would be in *Good Standing*. Other applications for change of program will be considered on their merits; students may be admitted to the new program in *Good Standing* or on Academic Warning. Students may apply to declare or change their program within the B.A. Degree at the Registrar's Office according to the published deadlines. Acceptance into a program or into a program element or option is subject to any enrollment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration or Specialization requires that the student be in Good Standing.

Mention : Français

Students registered in certain B.A. programs may earn the notation *Mention : Français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : Français* requirement in both disciplines.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to co-op in one of two ways; directly from high school or after beginning a degree program at Carleton.

If a student is admitted to co-op from high school, their grades will be reviewed two terms to one year prior to their first work term to ensure they continue to meet the academic requirements after their 1st or 2nd year of study. The time at which evaluation takes place depends on the program of study. Students will automatically be notified via their Carleton email account if they are permitted to continue.

Students not admitted to Carleton University with the co-op option on their degree can apply for admission via the co-operative education program website. To view application deadlines, visit carleton.ca/co-op.

Admission to the co-op option is based on the completion of 5.0 or more credits at Carleton University, the CGPA requirement for the students' academic program as well as any course prerequisites. The articulated CGPA for each program is the normal standard for assessment. Please see the specific degree program sections for the unique admission and continuation requirements for each academic program.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.A. Honours Political Science: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered as a full-time student in the second year of the Bachelor of Arts Honours -Political Science program;
2. Obtained and maintained an overall CGPA of 9.00.

Students in B.A. Honours Political Science must successfully complete three (3) work terms to obtain the Co-op designation.

Co-op Work Term course: PSCI 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4			
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	W	Fall	W/S		
Winter	S	Winter	S	Winter	S	Winter	W		
Summer		Summer	W/S	Summer	W/S	Summer	S		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2021-22 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.)(Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). For applicants whose first language is not English, the requirement of English can also be met under the conditions outlined in the section “English Language Requirements” in the Admissions Requirements and Procedures section of this Calendar.

The cut-off average for admission will be set annually and will normally be above the minimum requirement. Applicants falling slightly below the cut-off average will be considered on an individual basis to determine whether there are special circumstances that would permit their admission. Students who feel that their high school grade average does not reflect their potential may apply to the Enriched Support Program (see the Enriched Support Program section of this Calendar).

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Direct Admission to the First Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European, Russian, and Eurasian Studies, French, Geography, Geography with a Concentration in Physical Geography, Geomatics, History, Law (Business Law), Law (Law, Policy and Government), Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Political Science (PSCI) Courses

PSCI 1100 [0.5 credit]

Democracy in Theory and Practice

Introduction to modern political ideas such as liberty, equality, the rule of law, representation, participation (including gender aspects), the impact of these ideas on political and policy making institutions in Canada; other countries may be examined. Basic research and academic writing skills.

Precludes additional credit for PSCI 1000, PSCI 1001, and PSCI 1003.

Lectures two hours a week, tutorials one hour a week.

PSCI 1200 [0.5 credit]

World Politics

Compares politics in selected states and world regions, including political institutions and cultures, development, public policy making, and gender. Global issues and international relations among states, international organizations, and other actors. Basic research and academic writing skills.

Precludes additional credit for PSCI 1000 (no longer offered), PSCI 1002, GPOL 1000 (no longer offered) and GPOL 1500.

Lectures two hours a week, tutorials one hour a week.

PSCI 1500 [0.5 credit]

Technology, Nature, Power

Social media, self-driving cars, genetic manipulation: technology is transforming both the human experience and the natural world. This course explores interactions among technological change, the evolution of social and political order, and the transformation of the environment (for example, with climate change).

Lectures two hours a week.

PSCI 1501 [0.5 credit]

Politics of Migration

Introduction to concepts and theories that help explain the complex phenomenon of human migration, including the social and political relevance of different types of migration to Canada and in other regions and the political responses to migration and mobility today.

Lectures two hours a week, tutorials one hour a week.

PSCI 2002 [0.5 credit]

Canadian Politics and Civil Society

An examination of the cultural, social, and economic context of Canadian politics, including interest groups and social movements, regionalism, language, ethnicity, and gender.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2003 [0.5 credit]

Canadian Political Institutions

An examination of Canadian political institutions, including federalism, Parliament, the constitution, political parties and the electoral system.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2101 [0.5 credit]**Comparative Politics of the Global North**

Domestic politics in states of the Global North. Comparison of political and economic regimes, political institutions, actors, political processes and cultures, and patterns of public policy making.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2102 [0.5 credit]**Comparative Politics of the Global South**

Introduction to domestic politics in post-colonial and developing states of the Global South. Topics may include nationalism, authoritarianism, economic development, revolution, democratization, and the politics of gender, religion, and ethnicity.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2200 [0.5 credit]**Introduction to U.S. Politics**

An examination of several important aspects of the U.S. political system, including separation of powers, checks and balances, and federalism.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorial one hour a week.

PSCI 2301 [0.5 credit]**History of Political Thought I**

Western political thought from classical times to the Renaissance: Plato, Aristotle, and other thinkers.

Precludes additional credit for PSCI 2300 (no longer offered).

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2302 [0.5 credit]**History of Political Thought II**

Western political thought from the Renaissance:

Machiavelli, Hobbes, Locke, Rousseau and other thinkers.

Precludes additional credit for PSCI 2300 [1.0] (no longer offered).

Prerequisite(s): PSCI 2301 or permission of the department.

Lectures two hours a week, tutorials one hour a week.

PSCI 2401 [0.5 credit]**Public Affairs Analysis**

Introduction to central concepts and processes involved in public affairs. Exploration of public issues, policy approaches and decision-making structures using theoretical, empirical and applied approaches.

Precludes additional credit for PSCI 2400 (no longer offered).

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2500 [0.5 credit]**Gender and Politics**

Introduction to gender and politics of diversity, including how feminist activism and organizing finds expression in the political process and structures of representation such as political parties, legislatures and the state.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2601 [0.5 credit]**International Relations: Global Politics**

Introduction to theories, concepts and issues in global politics. Topics may include conflict and intervention, peace and security, international institutions, norms and ethics, human rights, gender, culture, and globalization.

Precludes additional credit for GPOL 1000 (no longer offered), GPOL 1500.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2602 [0.5 credit]**International Relations: Global Political Economy**

Introduction to the international political economy.

Topics may include contemporary changes in the global political economy, multinational corporations, foreign economic policy, global and regional economic institutions, environmental issues, international development and relations between rich and poor countries.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2701 [0.5 credit]**Introduction to Research Methods in Political Science**

Introduction to the logic and design of research.

Measurement and inference in qualitative and quantitative political science.

Precludes additional credit for PSCI 2700 (no longer offered).

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2702 [0.5 credit]**Quantitative Research Methods in Political Science**

The logic and methods of the quantitative study of politics, with emphasis on the application and interpretation of statistical techniques for data analysis. Students are strongly encouraged to take this course the same year as PSCI 2701.

Includes: Experiential Learning Activity

Precludes additional credit for ENST 2006, GEOG 2006, PSCI 2700 (no longer offered).

Prerequisite(s): PSCI 2701 or permission of the Department.

Lectures two hours a week, tutorials one hour a week.

PSCI 3000 [0.5 credit]**Canadian Provincial Politics**

A comparative examination of the nature of Canadian provincial politics. Topics include: political culture, history, party systems, electoral systems and voting behaviour.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3004 [0.5 credit]**Political Parties and Elections in Canada**

The evolution of the party system, the growth of major and minor party movements and the electoral process in Canada.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3005 [0.5 credit]**Ontario Government and Politics**

A survey of the political process and political institutions in Ontario.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3006 [0.5 credit]**Social Power in Canadian Politics**

The role of social forces in the Canadian political process, including interest groups, social movements, elites and classes.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3007 [0.5 credit]**Constitutional Politics in Canada**

The politics of the Canadian constitution. Particular attention to historical and contemporary constitutional reform.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3100 [0.5 credit]**Politics of Development in Africa**

The historical background of African independence, and contemporary struggle for democracy and economic development in Africa.

Prerequisite(s): third-year standing and one of AFRI 1002, GPOL 1000, GPOL 1500, GPOL 2500 or PSCI 2102.

Lectures three hours a week.

PSCI 3101 [0.5 credit]**Politics of War in Africa**

The recurrent crises of war, and political instability in Africa, along with regional and international efforts to resolve them.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3102 [0.5 credit]**Politics of Development of China**

The evolving structures and processes of government in (greater) China with particular emphasis on politics in the People's Republic of China and secondary emphasis on Taiwan and Hong Kong.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3103 [0.5 credit]**State, Society and Economy in Northeast Asia**

The relationship between government structures, society and the economy in Northeast Asia with particular emphasis on Japan and Korea.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3105 [0.5 credit]**Imperialism**

Ideologies, practices, and legacies of western dominance over Asia, Africa, and Latin America. Examines the complexities of imperial control and the colonial relationship from the nineteenth century to present.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3107 [0.5 credit]**The Causes of War**

Alternate theories of the causes of war. Such alternate perspectives as biological, social and comparative historical approaches, including the results of peace research activities of the past two decades.

Prerequisite(s): third-year standing and one of GPOL 1500 or PSCI 2601.

Lectures three hours a week.

PSCI 3108 [0.5 credit]**Politics of Popular Culture**

Examines political themes in popular culture. Cultural media may include film, literature, television, music, cartoons/comics, and the news media. Political themes may include war, ethnicity, nationalism, revolution, citizenship, gender and sexuality.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3109 [0.5 credit]**The Politics of Law and Morality**

Politics of moral regulation in Canada, the United States and other jurisdictions. The treatment in law and public policy of such human rights issues as: capital punishment, sexual orientation, euthanasia, abortion, new reproductive technologies, racial discrimination, religious and equality rights.

Prerequisite(s): third-year standing and one of PSCI 2002, PSCI 2003 or PSCI 2101.

Lectures three hours a week.

PSCI 3200 [0.5 credit]**U.S. Constitutional Politics**

The central role played by the U.S. Constitution in the country's political life, from the Framers to current controversies. Includes issues of race, class and gender.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3203 [0.5 credit]**Government and Politics in the Middle East**

The evolution and functioning of political systems in the Middle East region, with emphasis on the problems of political stability, the impact of the West, the role of Islam, and war and peace.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3204 [0.5 credit]**Politics of Latin America**

An overview of the evolution of Latin American political systems, including the impact of the European conquest, democratization, economic liberalization, state-civil society relations, gender politics, revolutionary movements, and relations with the United States.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3205 [0.5 credit]**Mexican Politics**

An introduction to the politics, society and economy of Mexico. Topics include processes of democratization and economic liberalization, human rights, the environment, the role of women, labour, and indigenous peoples, and social policy. Special emphasis on Mexico's role in the North American political economy.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and one of GPOL 1500, GPOL 2500, PSCI 2102 or PSCI 2602.

Lectures three hours a week.

PSCI 3206 [0.5 credit]**European Democracies**

A comparative examination of select controversies over democracy in specific European countries, considered within the context of 20th century historical trends, as well as contemporary political debates.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3207 [0.5 credit]**The Government and Politics of European Integration**

The process of European integration; the European Union and its institutions; core EU policies, challenges to the integration process (e.g. democratic legitimacy, enlargement); theories of European integration.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3208 [0.5 credit]**Politics in Russia and Ukraine: Power and Contestation**

Political development in post-Soviet Russia and Ukraine, including examination of the complicated relationship between the two states. Historical perspectives, institutional context (including federalism) and comparative insights.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3209 [0.5 credit]**Reconstruction and Transformation in Europe and Eurasia**

The politics of dramatic political changes, such as revolution, secession, constitutional revision, and systemic reform. The course will include selected historical and comparative cases from Central and Eastern Europe and the former Soviet Union.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3210 [0.5 credit]**Electoral Politics in the U.S.**

An overview of specific aspects of U.S. electoral politics, including presidential and congressional elections, incumbency, the two-party system, campaign spending limits, the role of the media, and voter turnout.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3300 [0.5 credit]**Politics and Literature**

A study of imaginative prose in which political ideas and/or political settings dominate. Literature as political communication, the impact of literature upon politics, the peculiar value of literature in the study of politics and its shortcomings.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3302 [0.5 credit]**Comparative Political Thought**

A comparative survey of political thought focusing on a range of traditions that may include readings from Aboriginal, African, Chinese, Indian, Jewish, Latin American, Muslim, and Persian perspectives.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3303 [0.5 credit]**Feminist Political Theory**

Introduction to feminist philosophical responses to sexism, taking into consideration the different waves of feminist discourse. Topics may include the concept of gender; women's diversity and its implications; 'intersectionality'; gender, capitalism and the family; and new approaches to feminist knowledge and feminist agency.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3307 [0.5 credit]**Politics of Human Rights**

Politics of human rights in its historical and cultural context, including: early liberal theories of natural rights; utilitarian and Marxist critiques; contemporary rights debates; different generations of rights; feminism and women's rights; cultural relativism; state sovereignty; and, problems of implementation and enforcement.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3308 [0.5 credit]**Modern Political Thought**

A survey of trends in modern political thought, including some of liberalism, conservatism, neo-conservatism, Marxist and neo-Marxist socialism, communitarianism, postmodernism and globalization.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3309 [0.5 credit]**Modern Ideologies**

A survey of ideologies, mainly since 1900, including some of nationalism, utopian socialism, communism, fascism, populism, environmentalism and feminism.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3311 [0.5 credit]**History of Muslim Political Thought**

A survey of political thought among Muslims, tracing the emergence and influence of juridical, philosophical and administrative approaches to politics on Muslim civilization.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3312 [0.5 credit]**Enlightenment Political Thought**

Major Enlightenment thinkers and major themes of Enlightenment political thought. Topics may include reason, religion, toleration, liberty, equality, the foundations of political authority, autonomy, morals, taste, progress, history or commerce.

Prerequisite(s): third-year standing.

Lecture three hours a week.

PSCI 3401 [0.5 credit]**Canadian Public Administration**

Study of the institutions and dynamics of government in Canada, with emphasis on political context, administrative reforms, policy development and ongoing challenges.

Analysis may include federal, provincial and/or municipal levels of government.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing and one of PSCI 2002, PSCI 2003, PSCI 2401, or PAPM 2000.

Lectures three hours a week.

PSCI 3402 [0.5 credit]**Canadian Public Policy**

Policy communities and policy networks in Canada with particular attention paid to policy issues, the political environment, policy instruments, impact and outcomes.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and one of PSCI 2002, PSCI 2003, PSCI 2401, or PAPM 2000.

Lectures three hours a week.

PSCI 3405 [0.5 credit]**Comparative Public Policy Analysis**

The formation and impact of public policy: a variety of political systems as well as a variety of policy areas. Emphasis on developing skills for the analysis of policy formation and impact.

Prerequisite(s): third-year standing and one of GPOL 1500, PSCI 2101, PSCI 2400, PSCI 2401, or PAPM 2000.

Lectures three hours a week.

PSCI 3406 [0.5 credit]**Public Affairs and Media Strategies**

The public affairs and issue management strategies of corporations, government departments, and other institutions in Canada from a comparative perspective.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3407 [0.5 credit]**Public Opinion and Public Policy**

Theories about the origins and dynamics of public opinion, the ways in which public opinion influences government policy and decision-making, and how decision-makers are able to shape public opinion.

Prerequisite(s): PSCI 2701 and PSCI 2702.

Lectures three hours a week.

PSCI 3410 [0.5 credit]**Introduction to Political Management**

Introduction to the field of political management. The institutional, legislative and ethical context in which party strategists, campaign managers, pollsters, lobbyists and civil society operate. Related administrative and communications skills.

Also listed as POLM 3000 and COMS 3100.

Prerequisite(s): third-year standing.

Lecture three hours a week.

PSCI 3411 [0.5 credit]**Data Analysis for Governance: Formal Approaches and Practical Realities**

Finding and using data to make, manage and evaluate public policy. Emphasis will be on developing data analysis skills, as well as the use and application of substantive theories.

Prerequisite(s): PSCI 2701 and PSCI 2702.

Lectures three hours a week.

PSCI 3502 [0.5 credit]**Gender and Politics: Global South**

A contemporary approach to the role of gender in political systems of the South. Topics may include gender and development, human rights, social policies, globalization, state-civil society relations, political participation and citizenship.

Prerequisite(s): third-year standing and one of GPOL 1000, GPOL 1500, GPOL 2500, PSCI 2102, PSCI 2500 or PSCI 3307.

Lectures three hours a week.

PSCI 3600 [0.5 credit]**International Institutions**

Origins, structure and functioning of international institutions with emphasis on the United Nations as well as regional organizations. Topics include peace and security, international aid and development, human rights and the control of global resources.

Prerequisite(s): third-year standing and one of GPOL 1500, PSCI 2601 or PSCI 2602.

Lectures three hours a week.

PSCI 3601 [0.5 credit]**Theories of International Politics**

Examination of the major theoretical approaches to the study of international politics. Topics may include realism, liberalism, Marxism, constructivism, feminism, and poststructuralism.

Prerequisite(s): third-year standing and one of GPOL 1500 or PSCI 2601.

Lectures three hours a week.

PSCI 3603 [0.5 credit]**Strategic Thought and International Security**

The ideas of classical and contemporary strategic thinkers. International security issues and concepts.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3606 [0.5 credit]**Canadian Foreign Policy**

The traditions, domestic influences, objectives, capabilities, and decision-making processes, and analysis of selected contemporary issues.

Prerequisite(s): third-year standing and one of GPOL 1500, PSCI 2002, PSCI 2003, PSCI 2601 or PSCI 2602.

Lectures three hours a week.

PSCI 3607 [0.5 credit]**North American Security and Defence Policy**

The evolution of Canadian and U.S. security and defence policy as it pertains to North America. Contemporary issues and development.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3608 [0.5 credit]**Migration Governance**

Advanced introduction to the politics of human mobility and migration, including attempts by states and other actors to influence migration and mobility and emerging types of governance at the national, regional and global levels.

Prerequisite(s): third-year standing or permission of the Department.

Lecture three hours a week.

PSCI 3609 [0.5 credit]**Global Politics of Food**

Drawing on theories of international relations, political economy, and public policy-making, this course examines the global, national and local politics of food production and distribution. Topics include food security, free trade versus fair trade, the environmental sustainability of food systems, food sovereignty and food aid.

Prerequisite(s): third-year standing or permission of the Department.

Lecture three hours a week.

PSCI 3700 [0.5 credit]**Government and Politics of South Asia**

Patterns of colonialism, evolving political regimes and issues in development and foreign policy in the countries of South Asia, including India, Pakistan, Bangladesh, Sri Lanka, and other member states of SAARC.

Prerequisite(s): third-year standing and one of GPOL 1500 or PSCI 2102.

Lectures three hours a week.

PSCI 3702 [0.5 credit]**Israeli-Palestinian Relations**

The origins and evolution of the Israeli-Palestinian conflict and peace process.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and one of GPOL 1500, PSCI 2601 or PSCI 2602.

Lectures three hours a week.

PSCI 3703 [0.5 credit]**Governing in the Global Economy**

The main approaches and policy issues in the political economy of advanced industrialized states. The relationship between state and market and the ways in which national states have responded to the pressures of governing in an increasingly interdependent global economy.

Prerequisite(s): third-year standing and one of GPOL 1500 or PSCI 2602.

Lectures three hours a week.

PSCI 3704 [0.5 credit]**Government and Politics of Central and Eastern Europe**

A comparative examination of Central and Eastern European states and societies. Topics discussed include political institutions and processes, societal structures and collective identities, patterns of post-communist transformation, the impact of European integration, relations with Russia and post-Soviet States.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3709 [0.5 credit]**Ancient and Medieval Political Thought**

The significance for political theory of the ancient and medieval controversies over nature/convention, power/knowledge, time/eternity, theory/practice, and science/mysticism. Thinkers such as Homer, the pre-Socratics, Plato and Aristotle, the neo-Platonists, Augustine, and the Scholastics.

Prerequisite(s): (PSCI 2301 and PSCI 2302) or permission of the Department.

Lectures three hours a week.

PSCI 3801 [0.5 credit]**Environmental Politics**

Environmental issues in contemporary political argument. Topics include: environmental movements and green parties, environmental ethics and animal rights, economic approaches to environmental management, the politics of sustainable development, and the international politics of the environment.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3802 [0.5 credit]**Globalization and Human Rights**

An examination of the various dimensions and meanings of globalization and its relationship with human rights. The main emphasis will be on the implications of the emerging global economy for economic, social, political and cultural rights.

Also listed as SOCI 3027, ANTH 3027.

Prerequisite(s): third-year standing and one of:

GPOL 1500, SOCI 1010 [1.0], ANTH 1003[1.0], ANTH 1010[1.0], ISSC 1001[1.0], PSCI 2601, PSCI 2602, LAWS 2105, PHIL 2103 or (ANTH 1001 and ANTH 1002), or (SOCI 1001 and SOCI 1002).

Lectures three hours a week.

PSCI 3805 [0.5 credit]**Politics of Race**

The meaning, sources and practice of racialism, as well as efforts to combat it, in a comparative context. Case studies will include South Africa, the United States, and Canada.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3809 [0.5 credit]**Selected Topics in Political Science**

A lecture course on a selected contemporary topic in Political Science. Topic may vary from year to year and will be announced in advance of the registration period by the Department of Political Science.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3900 [1.0 credit]**Études dirigées**

Une programme de lectures choisies et de travaux écrits dans le domaine de spécialisation d'un membre du département. Consulter le conseiller des études de premier cycle (Undergraduate supervisor) pour les sujets offerts.

Prerequisite(s): third-year standing in the Political Science Mention : Français program.

PSCI 3905 [1.5 credit]**Washington Center Internship**

One-term internship at The Washington Center in D.C.; options in American politics, international affairs, and other areas. Evaluation by Washington Center faculty, but governed by Carleton University Political Science Department regulations. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): selection to The Washington Center Internship Program and one of PSCI 2200, PSCI 3200, or PSCI 3210 and permission of the department.

PSCI 3906 [1.0 credit]**Full-Year Political Science Internship**

Internship gives students the opportunity to work with an organization whose focus relates to politics over a full academic year. Students complete a research paper related to their internship. Students must identify an organization to host the internship and a faculty member to provide supervision.

Includes: Experiential Learning Activity

Precludes additional credit for GPOL 3100, PSCI 3907, Carleton/Leeds Parliamentary Exchange and the Washington Internship.

Prerequisite(s): third-year Honours standing with a minimum Political Science CGPA of 9.0 or permission of the Department.

PSCI 3907 [0.5 credit]**One-Term Political Science Internship**

Internship gives students the opportunity to work with an organization whose focus relates to politics over one academic term. Students complete a research paper related to their internship. Students must identify an organization to host the internship and a faculty member to provide supervision.

Includes: Experiential Learning Activity

Precludes additional credit for GPOL 3100, PSCI 3906, Carleton/Leeds Parliamentary Exchange and the Washington Internship.

Prerequisite(s): third-year Honours Standing with a minimum Political Science CGPA of 9.0 or permission of the Department.

PSCI 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

PSCI 4001 [0.5 credit]**Topics in Canadian Government and Politics**

A seminar focused on selected topics in Canadian government and politics.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4003 [0.5 credit]**Politics and the Media**

The role of the mass media in the Canadian political system from a comparative perspective.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4005 [0.5 credit]**Canadian Federalism**

The evolution and contemporary operation of the Canadian federal system; the social, political, economic, and structural features underlying its operational performance, resilience in crisis, and potential for adaptation.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1500, PSCI 2003 or PSCI 2101.

Also offered at the graduate level, with different requirements, as PSCI 5101, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4006 [0.5 credit]**Legislatures and Representation in Canada**

The role of Parliament and of the individual M.P. in terms of policy making, party discipline, and differing conceptions of representation.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5006, for which additional credit is precluded.

Seminar three hours per week.

PSCI 4008 [0.5 credit]**National Security and Intelligence in the Modern State**

The state's response to foreign espionage, alleged subversion, terrorism, and counterintelligence. Major focus on the Canadian experience, but with extensive use of materials chronicling the practices of KGB, CIA, BIS, ASIO, MOSSAD, etc.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4009 [0.5 credit]**Quebec Politics**

Society, culture, economy and politics in Quebec. Special attention to the politically relevant changes since 1960 and the central place of Quebec within the Canadian federation.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4010 [0.5 credit]**Executive Power in Canadian Politics**

Consideration of prime ministers, premiers, cabinet ministers and senior public service leadership in Canadian politics and government.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5010, for which additional credit is precluded.

PSCI 4103 [0.5 credit]**The Modern State**

A survey of recent thinking about the state in western societies drawing on perspectives such as those of feminists, Marxists, Weberians, poststructuralists and others. Topics may include: the rise of the modern state, economic governance, the public sphere, citizenship, sovereignty and territoriality.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4104 [0.5 credit]**Development in the Global South - Theory and Practice**

Different theoretical approaches to the concept of development in the Global South and their relevance for selected countries in Latin America, Africa and Asia.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4105 [0.5 credit]**Selected Problems in Development in the Global South**

Topics may include global issues of trade, finance and production, changing patterns of foreign aid, and the role of microfinance, mining, non-governmental organizations, migration, anti-poverty programs and activism in promoting development.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4107 [0.5 credit]**Political Participation in Canada**

The causes and implications of political participation by individuals with special reference to Canada. Topics include citizen participation in campaign and party organizations, political protest movements, interest groups, and community associations.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of PSCI 2002, PSCI 2003, PSCI 2101, PSCI 2102, PSCI 2700, or (PSCI 2701 and PSCI 2702).

Seminar three hours a week.

PSCI 4109 [0.5 credit]**The Politics of the Canadian Charter of Rights and Freedoms**

The genesis and impact of the Charter of Rights and Freedoms. Particular emphasis on the politics of aboriginal, language, and equality rights.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4203 [0.5 credit]**Southern Africa After Apartheid**

The pathology of apartheid, the reasons for its end, and prospects for democratization and development in Southern Africa in the era of globalization.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5203, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4204 [0.5 credit]**Elections**

The conduct and meaning of elections in contemporary states. Attention to the connection of elections to concepts of representation, policy mandates, and political parties, and to electoral systems and referendums.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1500, GPOL 2500, PSCI 2003, PSCI 2101, PSCI 2102, PSCI 2700, or (PSCI 2701 and PSCI 2702).

Also offered at the graduate level, with different requirements, as PSCI 5204, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4206 [0.5 credit]**Indigenous Politics of North America**

Issues of governance regarding the original peoples of Canada, Mexico and the United States since the European invasion. Contemporary movements for restoration of cultural, political, socio-economic, land and self-governance rights, emphasizing domestic and international strategies.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1500, GPOL 2500, PSCI 2001, PSCI 2002, PSCI 2003, PSCI 2101, PSCI 2102, or PSCI 3205.

Also offered at the graduate level, with different requirements, as PSCI 5100, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4207 [0.5 credit]**Globalization, Adjustment and Democracy in Africa**

The nature of global pressures in Africa, as states go through political and economic change.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5107, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4209 [0.5 credit]**Westminster Democracies: Parliaments, Parties and Elections**

Examination of party and parliamentary democracy in the five principal Anglophone parliamentary democracies: Australia, Canada, Ireland, New Zealand and the United Kingdom. Consideration is given to the effects of different electoral systems and institutional arrangements on electoral politics, political participation, and party organization.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 2500, PSCI 2003, PSCI 2101, or PSCI 2102.

Seminar three hours a week.

PSCI 4210 [0.5 credit]**Political Identity through Graphic Novels**

Examination of the sources and dynamics of political identity through the medium of graphic novels and graphic memoirs. Themes may include collective memory, genocide, prostitution, violent conflict, civil rights, race and ethnicity, revolution, Indigenous issues, mental health, and gender and sexuality.

Prerequisite(s): fourth year standing or permission of the Department.

Seminar three hours a week.

PSCI 4211 [0.5 credit]**Op-Ed Writing and Social Media as Political Engagement**

The art and craft of political opinion writing and social-media engagement. An examination of contemporary online activism, interpersonal and collective online dynamics, and an imparting of the skills required for persuasive and well-researched op-ed writing.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4302 [0.5 credit]**Political Thought in the Modern Muslim Middle East**

Contemporary secular and religious responses to the challenges of modernity. Readings include writings of Arab, Turkish, and Iranian intellectuals.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of (PSCI 2301 and PSCI 2302) or PSCI 3311.

Also offered at the graduate level, with different requirements, as PSCI 5305, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4303 [0.5 credit]**Governmentality and Politics**

Examination of Foucault's concept of governmentality and work which has developed this idea, especially the relevance of governmentality for global political studies. Topics may include sovereignty, biopolitics, technopolitics, neoliberalism and citizenship.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5303 and SOCI 5407, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4308 [0.5 credit]**History of Political Enquiry**

An examination of methods adopted by major thinkers in the history of political philosophy, amidst changing understandings of metaphysics and science. Thinkers to be considered may include Plato, Aristotle, Descartes, Bacon, Kant, Hegel, Nietzsche, and Heidegger, among others.

Precludes additional credit for PSCI 4304 (no longer offered).

Prerequisite(s): PSCI 2301 and PSCI 2302 or permission of the Department.

Seminar three hours a week.

PSCI 4309 [0.5 credit]**Contemporary Approaches to Political Enquiry**

An examination of contemporary critiques and developments in modern science and social science. Thinkers to be considered may include Gadamer, Strauss, Oakeshott, Voegelin, Polanyi, Feuerabend, Heidegger, Kojève, Schmitt, Foucault, and Derrida.

Precludes additional credit for PSCI 4304 (no longer offered).

Prerequisite(s): PSCI 2301 and PSCI 2302 or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5309, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4311 [0.5 credit]**Political Theories of Democracy and Empire I**

An exploration of how ancient and modern conceptions of empire differ and how the pursuit of empire abroad can undermine good government at home in political theories including Thucydides, Plato, Aristotle and Xenophon. Precludes additional credit for PSCI 4310 (no longer offered).

Prerequisite(s): fourth-year Honours standing and (PSCI 2301 and PSCI 2302) or permission of the Department.

Seminar three hours a week.

PSCI 4312 [0.5 credit]**Political Theories of Democracy and Empire II**

An exploration of how ancient and modern conceptions of empire differ and how the pursuit of empire abroad can undermine good government at home in political theories including Machiavelli, Hobbes, Hegel, Tocqueville and Heidegger.

Precludes additional credit for PSCI 4310 (no longer offered).

Prerequisite(s): fourth-year Honours standing, (PSCI 2301 and PSCI 2302) and PSCI 4311 or permission of the Department.

Seminar three hours a week.

PSCI 4316 [0.5 credit]**Contemporary Political Theory I**

Focus on the main currents of political thought in late and post-modernity; the relation between classical and modern philosophy, tyranny and technology, existentialism and nihilism. Thinkers such as Strauss, Kojève, Nietzsche, Arendt, Heidegger and Schmitt may be read.

Precludes additional credit for PSCI 4305 (no longer offered).

Prerequisite(s): fourth-year Honours standing and (PSCI 2301 and PSCI 2302) or permission of the Department.

Seminar three hours a week.

PSCI 4317 [0.5 credit]**Contemporary Political Theory II**

Continues and expands themes examined in PSCI 4316, and will include post-modernism, investigations of technology and globalization, terrorism and trans-humanism. Representative thinkers may include Derrida, Foucault, Deleuze, Bataille, Rosen, Voegelin, Habermas and Steiner.

Precludes additional credit for PSCI 4305 (no longer offered).

Prerequisite(s): fourth-year Honours standing; PSCI 2301, PSCI 2302 and PSCI4316, or permission of the Department.

Seminar three hours a week.

PSCI 4318 [0.5 credit]**Concepts of Political Community I**

Critical survey of concepts of political community, including the common good, justice, citizenship, leadership, democracy, and legitimacy, from ancient, modern, and contemporary political theory.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5308, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4319 [0.5 credit]**Concepts of Political Community II**

A continued critical survey of concepts of political community, including the common good, justice, citizenship, statesmanship, democracy, and legitimacy, from ancient, modern, and contemporary political theory.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5309, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4400 [0.5 credit]**Socio-Technical Change and Public Policy Design**

Joint implications of contemporary science, technology and demographics for the design of public policy. The main emphasis of the course will be general patterns of change and design relating to public policy.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4403 [0.5 credit]**Reproductive Rights Policy in North America**

The interaction between social movements, legislatures and courts in formulating reproductive rights policy in Canada, the U.S. and Mexico.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5407, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4404 [0.5 credit]**The Design and Evolution of Public Institutions**

An examination of the emergence, development and collapse of institutional collective action in a broad historical framework, with attention to probable future scenarios for change. Readings are taken from anthropology, economics, history and empirical political theory.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4407 [0.5 credit]**Public Policy: Content and Creation**

The content and creation of public policy. Focus on the explanation, prediction and design of policy. Perspectives and examples are drawn from a variety of frameworks and from both Canadian and non-Canadian contexts.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2400, PSCI 2401, PSCI 3402, PSCI 3405, PSCI 3409 or PAMP 2000.

Seminar three hours a week.

PSCI 4408 [0.5 credit]**Public Affairs Management and Analysis**

Theories and practice in the management of public affairs, including the environment and administration of the public sector, public opinion, and public communications.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminars three hours a week.

PSCI 4409 [0.5 credit]**Issues in Development Management**

An examination of the application of organization theory to policy implementation and evaluation for developing and transitional systems, with an emphasis on the role of cultural differences and divergent value systems in development management.

Prerequisite(s): ECON 3508 and fourth-year standing in the B.P.A.P.M. program and registration in either the International Studies specialization or the Development Studies specialization or permission of the Department.

Lectures or seminars three hours a week.

PSCI 4500 [0.5 credit]**Gender and Globalization**

How globalization affects women's involvement in politics and how they organize to conceptualize and pursue gender justice in official politics; grass roots projects and cultural transformations; ideology; stand-alone movements; and mixed-sex movements like nationalism and democratization.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, GPOL 2500, PSCI 2101, PSCI 2102, PSCI 2601, PSCI 2602, PSCI 2500, PSCI 3500, PSCI 3502. Seminars three hours a week.

PSCI 4501 [0.5 credit]**Politics of Identity in Europe and the Russian Area**

The relationships between political transformation, identity-building, ethnicity, and gender politics in post-communist states, considered in comparison with select countries in Central and/or Western Europe.

Includes: Experiential Learning Activity

Also listed as EURR 4205.

Prerequisite(s): fourth-year Honours standing or permission of the Department and one of GPOL 1000, GPOL 1500, GPOL 2500, PSCI 2101, PSCI 2102, PSCI 2500, PSCI 3208, PSCI 3209, PSCI 3500, PSCI 3502, PSCI 3704, or PSCI 3705.

Seminar three hours a week.

PSCI 4502 [0.5 credit]**Post-Soviet States and Societies**

The relationship between social forces and state structures at both the national and local levels in the USSR and the post-communist states.

Also listed as EURR 4002.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of EURR 2001, EURR 2002, GPOL 1000, GPOL 1500, PSCI 3208, PSCI 3209, PSCI 3704, PSCI 3705, or HIST 2600.

Seminar three hours a week.

PSCI 4503 [0.5 credit]**Politics of Central Eurasia**

Examination of the Caucasus and Central Asia, from Chechnya to former Soviet republics of the region, Afghanistan and Chinese Turkestan. Interests of Russia, China, and the United States. Emphasis on underdevelopment, oil and gas, terrorism, Islam.

Includes: Experiential Learning Activity

Also listed as EURR 4207.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4504 [0.5 credit]**Politics of the Caucasus and Caspian Basin**

Examination of the South Caucasus (Azerbaijan, Georgia, Armenia), the Russian-held North Caucasus, including Chechnya, and relations with Iran. Emphasis on state and society, oil and gas, transregional communications, interests of western powers, ethnic relations.

Includes: Experiential Learning Activity

Also listed as EURR 4209.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4505 [0.5 credit]**Transitions to Democracy**

A comparative analysis of processes of democratization. Diverse theoretical approaches to understanding the timing, causes, nature, and limitations of democratization. Examples from Europe and Russia, Latin America, Africa, and Asia.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, GPOL 2500, PSCI 2102, PSCI 3100, PSCI 3204, PSCI 3208, PSCI 3209, PSCI 3500, PSCI 3502, PSCI 3704, or PSCI 3705.

Seminar three hours a week.

PSCI 4506 [0.5 credit]**Women and Politics in North America**

The efforts of women in North America to increase their political role through public activism, including in party organizations, social movements, legislatures, courts and the executive branch of government.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4507 [0.5 credit]**The Balkans since 1989**

Selected topics in Balkan politics and society since the collapse of communism in 1989, focusing on the democratic transition and the EU accession process. The legacies of communist rule, democratization and the many national questions that still exist in the region.

Also listed as EURR 4102.

Prerequisite(s): fourth year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4601 [0.5 credit]**Foreign Policies of Soviet Successor States**

The foreign policies of the USSR and of Russia and selected other successor states, with special emphasis on the search for a new security order.

Also listed as EURR 4208.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of EURR 2001, EURR 2002, GPOL 1000, GPOL 1500, PSCI 2102, PSCI 2601, PSCI 2602, PSCI 3107, PSCI 3208, PSCI 3209, PSCI 3600, PSCI 3603, PSCI 3703.

Seminar three hours a week.

PSCI 4603 [0.5 credit]**Analysis of International Political Economy**

Various theoretical approaches to the study of the international political economy, with a focus on historical development and changing international structures.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2602, PSCI 3600, or PSCI 3703.

Seminar three hours a week.

PSCI 4604 [0.5 credit]**Selected Problems in International Political Economy**

Contemporary problems and issues in the international political economy, with particular attention given to advanced industrial countries.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2602, PSCI 3600, or PSCI 3703.

Seminar three hours a week.

PSCI 4605 [0.5 credit]**Gender in International Relations**

Analysis of feminist approaches to international relations. Substantive issues include the role of women in war and militarization, the gender dimensions of global political economy and gender issues in international development.

Prerequisite(s): fourth-year Honours standing or permission of the Department and one of GPOL 1000, GPOL 1500, PSCI 2601, PSCI 2602, PSCI 3500, PSCI 3303 or PSCI 3502.

Seminars three hours a week.

PSCI 4606 [0.5 credit]**American Foreign Policy**

The sources, trends and conflicting interpretations of the international roles of the United States since World War II. Foreign policy machinery and processes assessed in terms of the relative importance of perceptions, ideology, self-interest, and domestic and foreign pressures.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2101, PSCI 2601, PSCI 2602, PSCI 3200, PSCI 3201, PSCI 3603, PSCI 3703.

Seminar three hours a week.

PSCI 4607 [0.5 credit]**Politics of North America**

A seminar examining the evolving relationship between Canada, the United States and Mexico, including political, economic, social, environmental and defence aspects.

Includes: Experiential Learning Activity

Precludes additional credit for PSCI 5607.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4608 [0.5 credit]**European Integration and European Security**

A seminar focusing on issues related to the formation of supra-national decision-making structures in Europe.

Includes: Experiential Learning Activity

Also listed as EURR 4104.

Prerequisite(s): fourth-year Honours standing or permission of the department.

Also offered at the graduate level, with different requirements, as PSCI 5608, and as EURR 4104/5104, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4609 [0.5 credit]**Selected Topics in European Integration Studies**

A seminar focusing on selected topics related to European integration in the post-World War II period.

Also listed as EURR 4106.

Prerequisite(s): fourth-year Honours standing or permission of the department.

Seminar three hours a week.

PSCI 4610 [0.5 credit]**Politics of Migration Management**

Seminar course that critically engages with innovative policies and instruments under the umbrella of 'migration management', and the proliferation of actors (states, international organizations, NGOs, private companies etc) involved in shaping and contributing to migration governance.

Prerequisite(s): fourth-year Honours standing or permission of the department.

Seminar three hours a week.

PSCI 4701 [0.5 credit]**Intermediate Polimetrics for Micro Data**

Research designs and statistical techniques primarily used in analyzing survey data. Selected topics may vary from year to year. Students doing Honours papers based on micro data are advised to take this course.

Includes: Experiential Learning Activity

Prerequisite(s): PSCI 2700 or (PSCI 2701 and PSCI 2702), or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5701, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4702 [0.5 credit]**Intermediate Research Methods for Applied Political Science**

Applied methods for policy, politics and public affairs.
